Acute, subchronic, and chronic toxicity studies using the chemicals recovered by the above exhaustive extraction processes should be provided in the evaluation of the long-term biocompatibility of the device, including dose response and time to response as well as gross and histopathological findings in tissues both surrounding implants and distal to implant sites (lymph nodes, prostate, bladder, testes, liver, kidneys, lungs, etc.). Animal studies of carcinogenicity, reproductive toxicity, teratogenicity and later effects on offspring must be performed using scientifically justified test methods. These studies must include animal testing of the individual compounds extracted from the final sterilized device. In particular, a subset of these studies must test the compounds extracted from the materials of the sterilized device for estrogen-like antigonadotropic activity in an appropriate animal model using scientifically valid methods. Teratology/reproductive testing of the final sterilized device and extractables should be performed in an appropriate species using validated methods.

Pharmacokinetic/biodegradation studies of all materials contained in the finished device should be reported. Of special concern are questions regarding the ultimate fate, quantities, sites/organs of deposition, routes of excretion, and potential clinical significance of silicone shedding, retention, and migration.

Animal testing should also be conducted to study the effect of implantation upon device function and material integrity. Complete device chemical characterization and mechanical testing should be performed after devices have been implanted in an appropriate animal model for an appropriate length of time. Of special concern is the material integrity of the cylinders, reservoir, pump, tubing, joints, etc., which should be functionally tested and investigated using electron microscopy. The results of this testing should be compared to the failure rates noted in vitro testing and clinical studies in order to demonstrate that the animal model and study duration chosen are appropriate.

For the penile inflatable implant designs that contain silicone gel, the gel bleed performance of the device, as determined from the results of measurements using a standard diffusion cell maintained at a temperature simulating physiologic conditions, using stirred, physiologic saline as a receptacle medium for the bleed, must be reported. Each variation in device thickness or design must be measured to accurately determine diffusion coefficients (with appropriate time dependencies). The chemical identification of the bleed product, including, but not limited to, amine containing components, volatile and nonvolatile silicone cyclics and oligomers below a molecular weight of 1500, and molecular weight distribution, must be reported.

For designs using polyurethane elastomers, in vivo implant studies must be performed to identify and determine the bioabsorption, distribution, and elimination of the polyurethane elastomers (as well as their degradation products) in experimental animals. It is also important to identify and determine the mechanism and rate of degradation, as well as the quantity of degradation products generated by the breakdown of polyurethane elastomers after prolonged exposure under physical conditions in animals. Additionally, the agency recommends that retrospective epidemiological and prospective clinical studies be designed to assess the potential of cancer and other long-term complications related to polyurethane penile inflatable implants in humans. The agency suggests that these preclinical and epidemiological studies be conducted as a separate subset of penile inflatable implant safety studies.

In vitro testing should be conducted at the component, subassembly, and final device levels and must examine all aspects of device design, construction, and operation. This testing should also demonstrate how the device design and manufacturing processes address the failure mode and effects analysis. The failure mode and effects analysis should be provided. Copies of the original data sheets from all tests must be included in the PMA. All device failures must be completely described, and the corrective actions taken to eliminate or minimize further recurrence should also be identified.

A statistically valid number of samples of each model should be tested. If marketing approval is sought for multiple device versions, each version requires its own set of preclinical tests and results. If sample devices of each available size are not tested, it must be clearly indicated which device sizes were used for each test. The absence of testing on each size must be justified by analysis demonstrating that the results from the tested devices will accurately predict results for the untested device sizes.

The test conditions and acceptance criteria for all tests should be completely explained and justified. All tests should be performed in an environment simulating the possible range of anticipated in vivo conditions (temperatures, pressures, forces, stress, etc.), including capsular formation, where possible. All methods used to determine the condition of the device after testing, e.g., visual examination, electrical continuity, electron microscope examination, functional testing, etc., must be discussed and justified.

All data collected from in vitro and animal testing, regarding the useful lifetime or long-term reliability of the device, must be compared to data from clinical studies (prospective and/or retrospective) where the useful lifetime of the device has been determined. This comparison must validate the ability of the in vitro and animal tests to accurately predict the useful lifetime of an implanted device.

Testing should be performed on final sterilized devices exposed to accelerated aging to simulate implanted device conditions. The accelerated aging process should be completely described, and the calculations showing expected aging should be provided. In addition, all tests should be performed on devices and components sterilized under the final validated sterilization procedure.

All physical, chemical and functional properties of the device should be completely characterized and the design specifications must be adequately justified. Chemical characterization should include, where applicable, molecular weight and molecular weight distribution, cross-linked density, infrared analysis (free isocyanate content, side reaction products), and thermal analysis. The physical tests should include, but are not necessarily limited to, tensile, fatigue and shear strengths, elastic modulus of the sterilized finished device, and the tests discussed below.

Testing should include the following specific methods or their equivalents: ASTM Test Method D412 to measure ultimate elongation and total energy to rupture of the cylinders, pump, reservoir, tubing, and bulk of the finished product; ASTM Test Method D624 to determine tear and abrasion resistance of all components; applied pressure at the rate of 1 Hertz in air versus number of cycles (S/N) curve, constructed on the basis of cyclical compression testing of intact sterilized devices; and ASTM Test Method F703 (section 7.2) to test integrity of adhered or fused joints. A complete report of the cohesivity testing of the gel must also be reported for the devices containing silicone gel. The results of these tests must be compared to the energy, forces, etc., that the device will encounter in vivo.

Life testing should demonstrate that the device is sufficiently durable to withstand the demands of use while maintaining operational characteristics sufficient for intercourse throughout the expected operational lifetime of the penile inflatable implant, as stated in the physician and patient labeling. Life testing should include measurements of all component and material wear and bond strength after the device is cycled between inflated and deflated conditions. Horizontal and vertical motions of inflated and deflated devices over the expected operational lifetime of the device must also be evaluated. A discussion comparing the rate of cycling performed in each test to the approximate maximum rate of cycling of the device in vivo and to the expected longevity of the implant should be included.

Appropriate "downtimes" at predetermined cyclical intervals should be included in the life tests to evaluate relevant performance characteristics and conformance to design specifications. Material characteristics indicative of material degradation that could induce device malfunction should be completely evaluated. Cyclical testing beyond the expected longevity of the implant and recording of failure mode must also be included as part of the life tests.

Filling agent permeability from the reservoir and body of the device must be evaluated to demonstrate that fluid loss due to osmosis will be acceptable over the expected life of the penile inflatable implant.

Component-specific tests are also necessary. Reliability over the expected life of the device, proper operation, and conformance to predetermined operational specifications must be demonstrated for each component. Resistance of each component to abrasion, tears, crazing, fracture, material fatigue (including wear between each component), change of position (e.g., valve seats), and permanent deformation also must be demonstrated.

Cylinder characterization and testing should include, but not be limited to:

(1) Maximum expansion capability;

(2) Measurement of stiffness and rigidity, including resistance to buckling;

(3) Resistance to aneurysms;

(4) Confirmation of concentricity;

(5) Inflation and deflation characteristics; and

(6) Wear characteristics if a fold in the cylinder develops.

Pump characterization and testing should include, but not be limited to: Volume displaced per stroke, pressure generated per stroke, force required per pump stroke, squeeze force versus fluid displacement, fluid displacement versus pressure generated, pressure generated versus squeeze force, etc. (provided in graphic representation of data); pump efficiency; buckling characteristics; filling time and number of pump strokes required for full inflation; and objective confirmation of uniform pump discharge to both penile cylinders.

Valve characterization and testing should include, but not be limited to: Activation and deactivation pressure; pressure required for valve failure; fluid and pressure loss between each component at maximum operating pressure; and prevention of spontaneous inflation and deflation under movements and loads simulating those expected to be sustained by the implanted device in both inflated and deflated states. Long-term pressure drop of an erect device in an animal model may also be useful in demonstrating adequacy of the valve and permeability of the device.

Reservoir characteristics should be evaluated and should include, but not be limited to: Volume capacity; pressures generated over the inflation/deflation cycle; rate of maximum fluid outflow and inflow; and wear characteristics if a fold in the reservoir envelope occurs.

Tubing testing should include, but not be limited to: Tensile characteristics (with and without tubing connectors, if any); tear rupture and kink resistance; wear characteristics if a fold in the tubing develops; and ability of the tubing to remain intact under loads simulating and exceeding those expected in vivo.

Testing to demonstrate the inflation/deflation characteristics of the device should include, but not be limited to: Amount of pressure generated during inflation in the penile cylinder; amount of pressure drop (deflation) and rise (inflation) per unit time; ability to maintain the cylinder diameter; and time to deflate from a specified starting pressure equal to the fully inflated penile cylinder.

All bonds within the device and between components should undergo appropriate testing including, but not limited to, measurement of bond shear and tensile strength. Bond strength should exceed the loads expected during device handling and after implantation.

Other components of the inflatable penile implant or accessories such as tubing connectors, extension adapters, and specialized tools used during the insertion procedure should be evaluated appropriately. Testing of these components or accessories should reflect the anticipated conditions of use. For example, extension adapters and tubing connectors should be demonstrated to be able to maintain connection to the device for the expected life of the device.

VOL 58 ISS 80 AP 28 1993 UMI

C. Clinical Data

Valid scientific evidence, as defined in 21 CFR 860.7, should include information from well-controlled clinical studies, with statistically justified sample size and detailed long-term followup, in order to provide reasonable assurance of the safety and effectiveness of the penile inflatable implant. Detailed protocols for the clinical trials, with explicit patient inclusion/exclusion criteria and a well-defined followup schedule, should be specified. FDA believes that 5-year followup data are necessary in order to characterize the safety and effectiveness of the device over its expected lifetime; however, appropriately justified alternate followup schedules will be considered. Any deviations from the protocol should be stated and justified. Time course presentations of patient/partner satisfaction with and psychological benefit from the implantation of this device, as well as information on the anatomical and physiological effects of the penile inflatable implant (including all adverse events), should be provided. Full patient accounting should be reported, including: (1) Theoretical followup (the number of patients that would have been examined if all patients were examined according to their followup schedules); (2) patients lost to followup, including the measures taken to minimize such events (with all information obtained on patients lost to followup); (3) time course of revisions, including all explant and repair data; and (4) time course of deaths (stating the cause of death, including the reports from any postmortem examinations). As part of this patient accounting, each clinical report should clearly state the date that the data base was closed to the addition of new information. Detailed patient demographic analyses and characterizations should be presented, and should show that the patients enrolled in the study are representative of the population for whom the device is intended.

A statistical demonstration, based on the number of patients who complete the required study period, should show that the sample size of the clinical study is adequate to provide accurate measures of the safety and effectiveness of this device. The statistical demonstration should identify the effect criteria, reasonable levels for Type I (alpha) and Type II (beta) errors, and anticipated variances of the response variables. The statistical demonstration should also provide any assumptions or statistical formulas with copies of any references used and all calculations made. A complete description of all patient randomization techniques used, and how these techniques were employed to exclude potential sources of bias, should be provided. Statistical justifications for pooling across several variables such as the etiology and duration of impotence, anatomical abnormalities of the genitalia, the number and type of treatments (if any) attempted to restore potency prior to device implantation, device usage (initial implantation versus revision), the frequency of device use postimplantation, degree of manual dexterity, investigational site, surgeon experience and technique, and incision site should be provided. The data collected and reported should include all possible relevant variables in order to permit stratification and analysis of the study data. This is necessary in order to evaluate the risk/benefit ratio for each unique subpopulation of patients.

Appropriate control/comparison groups should be included and justified and, if not, their absence must be justified. All hypotheses to be tested must be clearly stated. Appropriate statistical techniques must be employed to test these hypotheses and support claims of safety and effectiveness. For each relevant subgroup, a sufficient number of patients need to be followed for a sufficient length of time to adequately support all claims (explicit and implied) in any PMA submission.

To evaluate the risks to the patient from the penile inflatable implant, such studies should include time course presentations of clinical data demonstrating the presence or absence of device leakage, tube bending/kinking or disconnection, cylinder aneurysm or rupture, valve failure, spontaneous inflation/deflation, component migration, extrusion, skin erosion, infection, iatrogenic injury, hematoma, excessive fibrous capsular growth, pain, sensory loss, patient dissatisfaction leading to surgical removal, or any other device malfunction or adverse health event, including any effects on the immune system (both local to the device and systemic) and the reproductive system, without regard to the device relatedness of the event. The diagnostic criteria for each type of immunological and allergic phenomenon should be defined at the beginning of the study, and all cases should be well documented utilizing these criteria. Patients must be regularly monitored for the occurrence of such adverse events for a minimum of 5 years postimplantation.

FDA recognizes that the primary benefit of the penile inflatable implant is the restoration of penile erectile function. The effectiveness of the device can probably be measured by assessing: (1) The ability of the device in vivo to provide adequate rigidity (as well as length/girth enhancement, if such claims are made) to the penis to permit coitus; (2) the degree of maintenance or enhancement of a male's psychological well-being postimplantation; (3) partner satisfaction with the device; and (4) the enhancement of the male's ability to conceive naturally, as a result of the improved intromission provided by the implant (provided that the patient's semen quality was sufficient for conception prior to implantation); all of which can be balanced against any risk of illness or injury from the use of the device. FDA understands that evaluation of the degree of benefit involves, in part, an assessment of patient satisfaction and psychological well-being, particularly in light of the function of the device. Such evaluation includes subjective factors, relates to patient expectations, and may be transient in nature. Device effectiveness is also dependent upon the degree of partner satisfaction with the implant's performance, since partner satisfaction can directly relate to the patient's own self image. Assessments of enhanced fertility and penile rigidity, length, and girth postimplantation, on the other hand, should provide some objective measure of device effectiveness.

The evaluation parameters for this portion of the clinical study should be structured for an objective and standardized recording/measurement of: (1) The psychological benefit of the device to the implant recipient (as well as to his sexual partner), including any improvement in quality of life; (2) the quality of the erection provided by the implant; and (3) any increase in the rate of conception (in those patients interested in future fertility). The primary requirements for an acceptable scientific documentation of psychological benefits of the device (to both the implant recipient and his partner) are the use of (1) prospective research designs, including pre and postsurgical repeated measures; (2) appropriate control/comparison groups; and (3) standardized test questions rather than informal, yet-validated questionnaires. Any questionnaire utilized in the documentation of the psychological consequences of penile inflatable implants must be shown to provide a scientifically valid measure of the psychological effects of impotency upon males and their partners. Documentation of these psychological consequences shall include (1) presurgical baseline assessment of psychological status, including measures of the perceived loss that these subjects experience and their expectations for improvement with the device; (2) postsurgical followup of any changes in psychological status for at least 5 years; (3) statistical comparison of postsurgical psychological test scores with presurgical test scores within the group of treated patients; (4) statistical comparison of psychological test scores of treated patients with untreated control patients at all pre and postsurgical assessment intervals; and (5) correlation of the psychological data with the physical outcomes of the implant procedure.

Documentation of the anatomical and physiologic outcomes of implantation of a penile inflatable implant shall include:

(1) Regular postsurgical evaluations of the inflation, dimensional, rigidity/stiffness, and deflation characteristics of the device for at least 5 years postimplantation; and

(2) Patient/partner assessments of the mechanical function of the implant (such as ease of inflation, quality of the erection, ability of the device to operate and function reliably, etc.) during this followup period (which may be influenced by the manual dexterity of the patient and/or partner).

Documentation of the effect of the penile inflatable implant upon the fertility of the male shall include:

(1) An assessment of the conception rate among those implant recipients who are interested in future fertility; and

(2) Comparison of this rate to either the conception rate of this patient cohort prior to receiving the implant, or to the rate of conception in an appropriate control population.

Any PMA for the penile inflatable implant should separately analyze the degree of device safety and efficacy by the following variables: (1) Etiology of erectile dysfunction; (2) frequency of device usage postimplantation; and (3) degree of sexual therapy provided to the subject postoperatively. Furthermore, for each explantation procedure performed on the study subjects, the following information must be provided: (1) The mode of failure of the removed device; (2) whether or not the explanted device was replaced with a new device; and (3) either the manufacturer, type, and model of the new device (if another penile implant was implanted), or the type of treatment (if any) that the patient received for his impotence (if revision surgery was not performed). Additionally, the effect of the presence of these implants upon future medical diagnoses/treatments involving the lower pelvic region in recipients of penile inflatable implants must be analyzed. Furthermore, any accessories that are sold with the penile inflatable implant (such as corporal dilators, suturing tools, etc.) must be shown to have been effectively used in implant procedures without adverse effects. Finally, each clinical investigation should validate the physician and patient instructions for use (labeling) that were utilized.

For polyurethane elastomer implants, the following additional information needs to be presented:

(1) The kinetics of the end products formation generated from the degradation of the polyurethane material (in vivo); and

(2) The neoplasticity of the material, as well as its general toxicity, including neurological, physiological, biochemical, and hematological effects, as well as pathology following prolonged and repeated exposure to polyurethane penile inflatable implants.

Any epidemiological studies submitted should contain enough subjects to permit detection of a small but significant increase in one or more connective tissue diseases (especially scleroderma) that may be associated with the use of the device.

The agency believes that insufficient time has elapsed to permit a direct evaluation of the risks of cancer and immune related connective tissue disorders posed by the presence of silicone in the human body and that insufficient epidemiological and experimental animal data are available to make a reasonable and fair judgment of these risks. Therefore, the agency will require long-term postapproval followup for any penile inflatable implant permitted to continue in commercial distribution. Well-designed clinical prospective studies with long-term followup together with experimental animal studies will be considered essential to the determination of the safety and effectiveness of the device. Further, these clinical studies must collect long-term data on the reproductive/teratogenic effects of the device as well as on the later effects on offspring.

The risk/benefit assessment (as with the entire PMA) must rely on valid scientific evidence as defined in 21 CFR 860.7(c)(2) from well-controlled studies as described in 21 CFR 860.7(f) in order to provide reasonable assurance of the safety and effectiveness of the penile inflatable implant in the treatment of erectile dysfunction in the male.

D. Labeling

Copies of all proposed labeling for the device, including any information, literature, or advertising that constitutes labeling under section 201(m) of the act (21 U.S.C. 321(m)), should be provided. The general labeling requirements for medical devices are contained in 21 CFR part 801. These regulations specify the minimum requirements for all devices. Additional guidance regarding device labeling can be obtained from FDA's publication "Labeling: Regulatory Requirements for Medical Devices," and from the Office of Device Evaluation's "Device Labeling Guidance"; both documents are available upon request from the Division of Small Manufacturers Assistance (HFZ–220), Center for Devices and Radiological Health, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. Highlighted below is additional guidance for some of the specific labeling requirements for penile inflatable implants.

The intended use statement should include the specific indications for use and identification of the target populations. Specific indications and target populations must be completely supported by the clinical data described above. For example, it may be necessary to restrict the intended use to patients who have failed prior less invasive therapies and/or to patients with specific etiologies of impotence in whom safety and effectiveness have been demonstrated.

The directions for use should contain comprehensive instructions regarding the preoperative, perioperative and postoperative procedures to be followed. This information includes, but is not necessarily limited to: (1) A description of any preimplant training necessary for the surgical team; (2) a description of how to prepare the patient (e.g., prophylactic antibiotics), operating room (e.g., what supplies must be on hand), and penile inflatable implant (e.g., handling instructions, resterilization instructions) for device implantation; (3) instructions for implantation, including surgical approach, sizing, fluid adjustment (including what filling solutions may be used and how they must be prepared), device handling, and intraoperative test procedures to ensure implant functionality and proper placement; and (4) instructions for followup, including whether antibiotic prophylaxis is recommended during the postimplant period and/or during any subsequent dental or other surgical procedures, how to determine when patients are ready to attempt intercourse and begin periodic

VOL 58 ISS 80 AP 28 1993 UMI

activation, and how to evaluate, and how often to evaluate, proper functionality and placement. The directions should instruct caregivers to specifically question patients prior to surgery for any history of allergic reaction to any of the device materials or filling agents. Troubleshooting procedures should be completely described. The directions for use should incorporate the clinical experience with the implant, and should be consistent with those provided in other company-provided labeling.

The labeling should include both implant and explant forms to allow the sponsor to adequately monitor device experience. The explant form should allow collection of all relevant data, including the reason for the explant, any complications experienced and their resolution, and any action planned (e.g., replacement with another implant).

Patient labeling must be provided which includes the information needed to give prospective patients realistic expectations of the benefits and risks of device implantation. Such information should be written and formatted so as to be easily read and understood by most patients and should be provided to patients prior to scheduling implantation, so that each patient has sufficient time to review the information and discuss it with his physician(s) and sexual partner. Technical terms should be kept to a minimum and should be defined if they must be used. Patient information labeling should not exceed the seventh grade reading comprehension level.

The patient labeling should provide the patient with the following information: (1) The indications for use and relevant contraindications, warnings, precautions and adverse effects/complications should be described using terminology well known and understood by the average layman; (2) the anticipated benefits and risks associated with the device must be provided to give patients realistic expectations of device performance and potential complications. The known, suspected and potential risks of device implantation should be identified and the consequences, including possible methods of resolution, should be described. The patient should be advised that penile length and/or width reductions may occur, and that any latent erectile capability will be impaired by implantation of a penile inflatable implant; (3) alternatives available to the use of the device, including less invasive treatments, should be identified, along with a description of the associated benefits and risks of each. The patient should be advised to contact his physician for more information on which of these alternatives might be appropriate given his specific condition; (4) instructions for how to use the device must be provided to the patient. This information should include the expected length of recovery from surgery and when to resume intercourse following implantation, whether and how often the device should be periodically inflated (if applicable), warnings against certain actions (e.g., repeated flexing) that could damage the device, how to identify conditions that require physician intervention, who to contact if questions arise, and other relevant information; (5) the fact that the implant should not be considered a "lifetime" implant must be emphasized. Where possible, the patient labeling should provide information on the approximate number of revisions necessary for the average patient, and indicate the average longevity of each implant so that patients are fully aware that additional surgery for device modification, replacement, or removal may be necessary. This information must be supported by the clinical experience (i.e., not merely bench studies) with the implant or by published reports of experience with similar devices.

The physician's labeling should instruct the urologist or implanting surgeon to provide the implant candidate with the patient labeling prior to surgery to allow each patient sufficient time to review and discuss this information with his physician(s) and sexual partner.

The adequacy and appropriateness of the instructions for use provided to physicians and patients should be verified as part of the clinical investigations.

Applicants should submit any PMA in accordance with FDA's "Premarket Approval (PMA) Manual." The manual is available upon request from the Division of Small Manufacturers Assistance (HFZ–220), Center for Devices and Radiological Health, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

III. Request for Comments With Data

FDA is providing a 60-day period for interested persons to submit to the Dockets Management Branch (address above) written comments regarding this proposal and its findings. Two copies of any comments are to be submitted, except that individuals may submit one copy.

Comments are encouraged to discuss all aspects of the proposed findings regarding the:

(1) Degree of risk, illness, or injury associated with the use of the penile inflatable implant;

(2) Laboratory, animal, and human studies required in a PMA for the device in order to assess its safety and effectiveness;

(3) Feasibility of these studies within the time permitted by the act, etc.; and

(4) Benefits to the public from the use of the device.

The comments must discuss in detail, for example, the reasons why important new information on the safety and effectiveness of the device could not feasibly be submitted within the time permitted, or why animal studies may not be available to assess long-term effects such as connective tissue disorders, or that carefully designed epidemiological studies may not be available to evaluate the long-term silicone related illnesses, etc.

The Center for Devices and Radiological Health staff are available to provide guidance to manufacturers on any proposed laboratory, animal, or epidemiological studies needed in a PMA.

IV. Opportunity To Request a Change in Classification

Before requiring the filing of a PMA or notice of completion of a PDP for a device, FDA is required by section 515(b)(2)(A)(i) through (b)(2)(A)(iv) of the act and 21 CFR 860.132 to provide an opportunity for interested persons to request a change in the classification of the device based on new information relevant to its classification. Any proceeding to reclassify the device will be under the authority of section 513(e) of the act.

A request for a change in the classification of the penile inflatable implant is to be in the form of a reclassification petition containing the information required by § 860.123 (21 CFR 860.123), including new information relevant to the classification of the device, and shall, under section 515(b)(2)(B) of the act, be submitted by May 13, 1993.

The agency advises that to assure timely filing of any such petition, any request should be submitted to the Dockets Management Branch (address above) and not to the address provided in § 860.123(b)(1). If a timely request for a change in the classification of the penile inflatable implant is submitted, the agency will, by June 28, 1993, after consultation with the appropriate FDA advisory committee and by an order published in the **Federal Register**, either deny the request or give notice of its intent to initiate a change in the classification of the device in accordance with section 513(e) of the act and 21 CFR 860.130.

VI. Environmental Impact

The agency has determined under 21 CFR 25.24(a)(8) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

VII. Economic Impact

FDA has examined the economic consequences of this proposed rule in accordance with the criteria in section 1(b) of Executive Order 12291 and finds that this proposal would not be a major rule as specified in the Order. The agency believes that only a small number of firms will be affected by this proposed rule, and the agency certifies under the Regulatory Flexibility Act (Pub. L. 96–354) that the proposed rule will not have a significant economic impact on a substantial number of small entities. An assessment of the economic impact of any final rule based on this proposal has been placed on file in the Dockets Management Branch (address above) and may be seen by interested persons between 9 a.m. and 4 p.m., Monday through Friday.

VIII. Comments

Interested persons may, on or before June 28, 1993, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Interested persons may, on or before May 13, 1993, submit to the Dockets Management Branch a written request to change the classification of the penile inflatable implant. Two copies of any requests are to be submitted, except that individuals may submit one copy. Comments or requests are to be identified with the docket number found in brackets in the heading of this document. Received comments and requests may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday. Comments are encouraged to discuss all aspects of the proposed findings and the recommended PMA Contents.

List of Subjects in 21 CFR Part 876

Medical devices.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, it is proposed that 21 CFR part 876 be amended as follows:

PART 876—GASTROENTEROLOGY-UROLOGY DEVICES

1. The authority citation for 21 CFR part 876 is revised to read as follows:

Authority: Secs. 501, 510, 513, 515, 520, 522, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 351, 360, 360c, 360e, 360j, 3601, 371).

2. Section 876.3350 is amended by revising paragraph (c) to read as follows:

§ 876.3350 Penile inflatable implant.

* * * * * *

(c) *Date PMA or notice of completion of a PDP is required.* A PMA or notice of completion of a PDP is required to be filed with FDA on or before (insert date 90 days after the effective date of a final rule based on this proposed rule), for any penile inflatable implant that was in commercial distribution before May 28, 1976, or that has on or before (insert date 90 days after the effective date of a final rule based on this proposed rule), been found to be substantially equivalent to the penile inflatable implant that was in commercial distribution before May 28, 1976. Any other penile inflatable implant shall have an approved PMA or declared completed PDP in effect before being placed in commercial distribution.

Dated: April 21, 1993.

Michael R. Taylor,

Deputy Commissioner for Policy.

RIN 0905-AC94

Retention of Bioavailability and Bioequivalence Testing Samples

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is issuing final regulations to amend its current bioavailability/bioequivalence regulations to require the retention for a specified period of reserve samples of the drug products used to conduct certain bioavailability or bioequivalence studies submitted in support of the approval of new drug applications (NDA's) and abbreviated new drug applications (ANDA's), and when specifically requested, to release the reserve samples to FDA. The requirement applies to manufacturers who conduct in-house bioavailability and bioequivalence testing and to testing facilities who conduct such testing under contract for a drug manufacturer. The requirement also applies to foreign manufacturers who conduct their own studies for new drug product approval and to foreign testing facilities under contract for a U.S. manufacturer or foreign manufacturer. This action is intended to help ensure bioequivalence between generic drugs and their brand-name counterparts and to help the agency investigate more fully instances of possible fraud in bioavailability and bioequivalence testing. This final rule adopts the interim rule published in the **Federal Register** of November 8, 1990, with minor changes based on comments the agency received on the interim rule.

DATES: Effective May 28, 1993. Submit information on the Economic Impact section of this document (section III.) by May 28, 1993.

ADDRESSES: Submit information on the Economic Impact section of this document to the Dockets Management Branch (HFA-305) Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Marilyn L. Watson, Center for Drug Evaluation and Research (HFD-360), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-295-8038.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 8, 1990 (55 FR 47034), FDA published interim regulations to require the retention for a specified period of reserve samples of the drug products used to conduct bioavailability or bioequivalence studies of drug products, and when specifically requested, to release the reserve samples to FDA. The interim regulations were effective on the date of publication. FDA provided 60 days for public comment. The final rule incorporates all of the main provisions of the interim rule; the agency has made a number of minor clarifying changes in response to the comments received on the interim rule.

Highlights of the final rule are summarized below, followed by a summary and discussion of the comments.

I. Highlights of the Final Rule

In the November 8, 1990, interim rule, the agency codified requirements regarding the retention of bioavailability and bioequivalence testing samples as part of the bioavailability/bioequivalence regulations existing at that time by adding §§ 320.32 and 320.63 (21 CFR 320.32 and 320.63), and by adding conforming amendments to § 320.31 (21 CFR 320.31) and to FDA's investigational new drug application (IND) and NDA regulations, new §§ 312.57(c), 314.125(b)(17), and 314.150(b)(9) (21 CFR 312.57(c), 314.125(b)(17), and 314.150(b)(9)). The purpose of these new requirements is to make available to FDA reserve samples of tested products for analysis to ensure that the bioequivalence and bioavailability results upon which FDA bases approval of NDA's and ANDA's are reliable. The rule also permits the agency the discretion to refuse to approve and to withdraw approval of an application if an applicant or testing laboratory refuses to permit an inspection of the facilities or records relevant to a bioavailability or bioequivalence study or to release to FDA reserve samples when requested.

In the **Federal Register** of July 10, 1989 (54 FR 28872 at 28911), FDA proposed changes in the regulations in existing 21 CFR part 320. Those proposed changes would, among other things, remove subpart C and those regulations that apply to establishing a bioequivalence requirement, move to subpart B the remaining regulations under existing subpart C, and where appropriate, combine the remaining regulations with the existing subpart B regulations. In the **Federal Register** of April 28, 1992 (57 FR 17950 at 17997), the proposed new subpart B structure was issued as a final rule. The agency is now conforming this rule to the new subpart B structure.

A. Scope

The final rule applies to domestic and foreign sponsors and applicants (hereinafter called a study sponsor) who perform in-house bioavailability or bioequivalence testing for new drug product approval under an NDA, ANDA, or supplemental application and to any domestic and foreign testing facility that performs such bioavailability or bioequivalence testing under contract (contract research organization) for a study sponsor.

B. Sample Retention Requirement

A study sponsor or contract research organization, whoever performs bioavailability or bioequivalence testing for new drug product approval, must retain a reserve sample of each test article and reference standard used to perform in vivo bioavailability or in vivo or in vitro bioequivalence studies that is representative of each batch of the test article and of the reference standard provided by the study sponsor for the testing. The final rule clarifies the types of in vivo bioavailability and bioequivalence studies for which reserve samples are to be retained. The study sponsor or contract research organization will retain a sufficient quantity of each reserve sample of the test article and of the reference standard to permit FDA to perform five times all of the release tests required in the NDA, ANDA, or supplemental application. In addition, each reserve sample is required to be: (1) Adequately identified so that it can be positively identified as having come from the same sample as used in the specific bioavailability or bioequivalence study, (2) stored under specified conditions, and (3) retained for a specified period. An ambiguity in the interim rule regarding storage conditions has been clarified to accurately reflect the agency's intent. In addition, the final rule also includes a provision for the transfer of reserve samples when a contract research organization goes out of business.

C. Collection of Samples

Ordinarily, the reserve samples, or a portion of the reserve samples, will be collected by an FDA investigator at the place of storage during a preapproval inspection of the facilities involved in manufacturing the test article and of any contract testing facility that conducts bioavailability or bioequivalence testing for the study sponsor. Where FDA has reason to believe fraud was involved in performing a bioavailability or bioequivalence study that was conducted by a foreign testing facility, the facility may be asked to consent to FDA inspection or to submit to FDA reserve samples of the products used in the study.

Because access to test samples and related records may be essential to assess the validity and reliability of the results of a required bioavailability or bioequivalence study, the final rule, like the interim rule, adds as a reason for refusing to approve an application and as a circumstance under which FDA has discretion to withdraw approval of an application, refusal to permit an inspection of the facilities or records relevant to a bioavailability or bioequivalence study contained in an application or to submit or release reserve samples when requested by the agency.

II. Comments

FDA received 27 comments on the interim rule. The comments came from pharmaceutical manufacturers, trade associations, a professional group, and contract testing facilities. Most of the comments raised questions or concerns about the reserve sample retention period, quantity of the samples to be retained, and storage requirements for the samples. Several comments requested clarification of the types of in vivo bioavailability studies for which test samples would have to be retained under the new rule. Comments also were received in response to the agency's questions about whether additional requirements were necessary to ensure that the integrity of the reserve samples is not compromised during the retention period.

A. Definition of an "NDA Biobatch" and an "ANDA Biobatch"

1. A number of comments requested clarification of the types of bioavailability studies from which test samples would have to be retained. The comments asked whether the many types of clinical pharmacology, pharmacokinetic, and pharmacodynamic studies in which blood samples are routinely collected for analysis would be considered bioavailability studies for purposes of this rule. Some of the comments suggested that reserve samples be retained only from studies which define the absolute or relative bioavailability of a new drug and studies necessary to demonstrate the bioequivalence of a new formulation to that which was previously studied in clinical trials.

One comment asserted that sample retention should be limited to the lot of test and reference formulations used in the pivotal bioequivalence study. The comment stated that, in the case of an NDA, this would be the lot of the product used in the study or studies conducted to demonstrate equivalence between the investigational formulation(s) and the formulation proposed for marketing. For an ANDA or supplemental application, this would be the study conducted to demonstrate equivalence between the currently marketed form and that proposed for marketing.

Two comments asked whether reserve samples should be kept for all in vivo "biostudies," whether or not the studies were submitted in support of the approval of an application or only for those studies required for approval of an application. The comments' question was based on a perceived conflict between the language of the interim rule at § 320.32(a) (requires retention of samples used in an in vivo bioavailability study "required for approval of the application or supplemental application"), §§ 312.57(c) and 320.31(d)(1) (requires sponsors of all IND's for "biostudies" and persons conducting such studies under an exemption from the IND requirements to retain samples of the products tested, "in accordance with * * * § 320.32"), and § 320.63 (retention of samples is required for products used in an in vivo or in vitro bioequivalence study "required for approval of, or submitted in support of the approval of, the full or abbreviated application or supplemental application * * * in accordance with * * * § 320.32." The comments further asked whether the requirements apply to in vitro studies, noting that § 320.63 refers to sample retention for certain in vitro studies in accordance with § 320.32, but § 320.32 does not apply to in vitro studies.

The agency's Compliance Program 7346.832 [1] defines "NDA biobatches" as those NDA batches comparing the product planned for marketing with that studied during clinical trials to establish their equivalence. Generic product biobatches are ANDA batches that are compared to the originator/reference product to establish their equivalence. (See Compliance Program 7346.832, Part III, page 2, footnote 2.) Consistent with these definitions, the final rule applies to the following types of bioavailability/bioequivalence studies:

a. *NDA.* (i) If the formulation of the applicant's proposed drug product (test article) is the same as the formulation(s) used in the pivotal clinical studies, the applicant would retain a reserve sample from the batch of the test article used to conduct an in vivo bioavailability study comparing the test article to a reference oral solution, suspension, or injection. A reserve sample of the reference standard (oral solution, suspension, or injection), which is usually made up when needed for a study, would not be retained. If the bioavailability study needs to be repeated, the reference standard would be prepared at the time of the study. For purposes of this rule, pivotal clinical studies are those adequate and well-controlled studies necessary to establish the safety and effectiveness of the test article for its claimed indications.

(ii) If the formulation of the test article differs from the formulation(s) used in conducting the pivotal clinical studies, the applicant would retain a reserve sample of the test article and of the reference standard from the batches used to conduct an in vivo bioequivalence study comparing the test article to the formulation(s) (reference standard) used in the pivotal clinical studies.

(iii) For a new formulation, new dosage form, or a new salt or ester of an active drug ingredient or therapeutic moiety that has been approved for marketing, a reserve sample of the test article and of the reference standard would be retained from the batches used to conduct an in vivo bioequivalence study comparing the test article to a marketed product (reference standard) that contains the same active drug ingredient or therapeutic moiety.

For an NDA, test article means the drug product for which the applicant is seeking approval. Reference standard has the same meaning as the term reference material in § 320.25.

b. *ANDA.* Reserve samples of the test article and reference standard would be retained from those batches used to conduct an in vivo bioavailability or an in vitro study comparing the test article to the approved drug product upon which the applicant relies for approval of its proposed product to establish their equivalence.

For an ANDA, test article means the drug product for which the applicant is seeking approval. Reference standard means an approved drug product identified by FDA as the drug product upon which an applicant relies in seeking approval of its ANDA and is usually the innovator product.

The agency has revised the final rule at §§ 312.57(c) and 320.38 (§ 320.32 in the interim rule) to clarify the in vivo bioavailability studies from which reserve samples are to be retained. With

[1] Compliance Program 7346.832 is available at cost from the Freedom of Information Staff (HFI-35), Food and Drug Administration, rm. 12A-30, 5600 Fishers Lane, Rockville, MD 20857.

VOL 58 ISS 80 AP 28 1993 UMI

respect to the reference to in vitro studies in § 320.63, but not in § 320.32 of the interim rule, FDA included the two new sections such that they would conform to the then existing structure of 21 CFR part 320. Former subpart B of part 320 addressed procedures for determining the in vivo bioavailability of drug products whereas former subpart C of part 320 addressed bioequivalence requirements, which may be an in vivo or an in vitro test. Section 505(j) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 355(j)) requires that an ANDA include information to show that the drug product for which the applicant is seeking approval is bioequivalent to the approved drug product upon which the applicant relies in seeking approval of its abbreviated application. Bioequivalence may be demonstrated by in vivo or in vitro bioequivalence methods as determined by the agency. Thus, the reference to an in vitro study in § 320.63 was necessary to accommodate ANDA's submitted under section 505(j) of the act. Because the rule applies to bioavailability and bioequivalence studies required for approval of an NDA and an ANDA, § 320.63 has been revised to delete the wording "or submitted in support of the approval of." Section 320.63 also has been revised to remove the reference to a full application which is covered by § 320.38.

Section 320.31 exempts from the requirements of part 312 many bioequivalence and bioavailability studies. The interim rule added as a condition for such an exemption that the sponsor, or any contract research organization to whom the sponsor delegates responsibility to conduct a bioequivalence or bioavailability study, retain reserve samples of the test article and reference standard and release them upon request to FDA (55 FR 47034 at 47036 and 47038). In finalizing the new subpart B structure of 21 CFR part 320, FDA inadvertently omitted this provision. Therefore, FDA has revised § 320.31 to retain the requirements set forth in the interim rule and to clarify the in vivo bioavailability studies from which reserve samples are to be retained.

2. One comment requested that the regulations at §§ 314.125(b)(17) and 320.63 be revised to clarify that the regulations apply only to a pivotal bioequivalence study. The comment also asserted that § 320.32 (§ 320.38 in this final rule) be deleted because a "pivotal" bioavailability study is technically a bioequivalence study and retention of samples from this study is discussed in § 320.63.

The agency agrees with the comment regarding § 314.125(b)(17) and has revised the final rule accordingly. The agency's conclusions on the types of bioavailability and bioequivalence studies for which the requirements apply and its revisions to §§ 320.38 and 320.63 are discussed in section II.A.1.

3. One comment suggested that, in the case of multiple "biostudies" usually conducted in sequence for a single NDA or ANDA (i.e., a sustained release product) using the same lot of a product, the regulations specify that one supply of retention samples be provided to the testing facility in sufficient quantity for all studies. The comment also asked whether, if additional supplies of the product are needed, the full amount of retention samples also must be supplied again.

FDA believes that the comment misunderstood the interim rule with respect to how the reserve sample is obtained by a contract testing facility. If bioavailability or bioequivalence testing is performed under contract, the study sponsor provides the testing facility with a supply of the test article and of the reference standard sufficient for the testing facility to conduct the study or studies and to remove a portion of the test article and of the reference standard for retention as reserve samples. FDA did not intend that the study sponsor separate out the reserve samples of the test article and reference standard prior to sending the batches to the testing facility. This is to ensure that the reserve samples in fact are representative of the same batches provided by the study sponsor for the testing.

The study sponsor should provide to the testing facility batches of the test product and of the reference standard packaged such that the reserve samples can be randomly selected to ensure that they are in fact representative of the batches provided by the study sponsor and that they are retained in the study sponsor's original container. Because a study sponsor may provide a testing facility with a variety of container sizes and packaging, FDA intends to be flexible in applying the representativeness requirement. For example, the following random sampling techniques should be used by the testing facility for the container size and packaging described:

a. If a single container of the test article and of the reference standard is provided to the testing facility, the testing facility should remove a quantity of the test article and of the reference standard from their respective container sufficient to conduct the study; the remainder of each container would be retained as the reserve sample in the original container.

b. If multiple containers of the test article and of the reference standard are provided to the testing facility, the testing facility should randomly select enough containers of the test article and of the reference standard to conduct the study; the remaining containers of the test article and of the reference standard would be retained as the reserve sample in the original containers.

c. If the test article and reference standard are provided to the testing facility in unit dose packaging, the testing facility should randomly select a quantity of unit doses of the test article and of the reference standard sufficient to conduct the study; the remaining unit doses of the test article and of the reference standard would be retained as the reserve samples in the original unit dose packaging. Providing the test article and reference standard in unit dose packaging for conducting the study and in bulk containers for all of the reserve samples would not be acceptable because it prevents the testing facility from randomly selecting the reserve samples. However, as an alternative for the reserve samples, the study sponsor may provide the testing facility with a quantity of unit doses of the test article and of the reference standard equal to at least 24 dose units and the remaining quantity sufficient to retain the "five times quantity" in bulk containers.

d. If the study is to be blinded and the test article and reference standard are provided to the testing facility in unit dose packaging, with each unit dose labeled with a randomization code, the study sponsor must provide the testing facility with a labeled set of the test article and reference standard sufficient to conduct the study and with additional, identically labeled sets sufficient to retain the "five times quantity." The testing facility should randomly select a labeled set to conduct the study; the remaining labeled sets would be retained in their unit dose packaging as the reserve samples. For a blinded study, the study sponsor should also provide to the testing facility a sealed code for use by FDA should it be necessary to break the code.

If the same batches of the test article and of the reference standard initially provided to the testing facility are used in performing more than one study, only one reserve sample of the test article and reference standard in sufficient quantity need be retained. The reserve samples must be identified as having come from the same batches as used in each specific study. However, if additional supplies of the test article and of the reference standard are needed by a testing facility for performing additional studies, the testing facility must retain the required reserve samples from the subsequent shipment regardless of whether the shipment is from the same batch as that previously provided to the testing facility. This is to ensure that the reserve samples are, in fact, representative of the batch provided by the study sponsor to the testing facility.

4. One comment stated that FDA may request additional "biostudies" after submission of an ANDA and a firm may want to use the same lot of test and reference products as was used in conducting the original study. The comment argued that under the strict retention sample requirement, the firm could not conduct these biostudies without depletion of the retention samples.

In the situation described by the comment, the study sponsor would need to use a different batch of the test and reference products to conduct additional studies if supplies of the batches used to conduct the original studies are depleted. The regulations do not permit a study sponsor or contract research organization to use its reserve samples to conduct the additional studies.

5. Several comments requested clarification of the regulations about who is responsible for reserve sample retention. One comment argued that the logical responsible party for long-term retention of samples should be the applicant because the applicant is responsible for the manufacture, packaging, testing, and release of the sample of the test article and minimally the packaging, identification testing, and release of the reference standard. The comment stated that it is not practical to sufficiently control the conditions of storage, sample stability, and sample retention at a contract facility after the completion of a study. One comment argued that some outside testing facilities such as universities, hospitals, and clinics do not have the space or proper environment to hold the reserve samples at all or to hold them at the study location, and many do not have the authority to hold certain reserve samples such as controlled substances. Another comment suggested that the regulations provide for the use of independent, third party organizations for the storage of reserve samples. Still another comment stated that the applicant should have the option of storing reserve samples at a company facility rather than at a contract laboratory.

The agency reaffirms that reserve sample retention is the responsibility of the entity performing the bioavailability or bioequivalence study. If the study sponsor performs the study, it is responsible for reserve sample retention for that study; if a study is performed under contract, the contract research organization retains the reserve samples. The purpose of this requirement is to eliminate the possibility for sample substitution by the study sponsor or to preclude a study sponsor from altering a reserve sample from a study conducted by a contract research organization prior to release of the reserve sample to FDA. In several instances, FDA has found that a study sponsor provided the contract testing facility with disguised innovators' products rather than its own proposed product as the test product in certain bioequivalence studies. The reserve samples collected by FDA must have come from the batches provided by the study sponsor to the testing facility for performing a bioavailability or bioequivalence study.

The agency advises that a contract research organization may contract with an independent, third party to provide storage for reserve samples if the contract research organization does not have facilities to store the samples under conditions consistent with product labeling. In this situation, the contract research organization shall provide to the study sponsor, for submission in the bioavailability or bioequivalence study data, the name and address of the facility at which the reserve samples will be stored. A new paragraph (h) is added to § 320.38 to include this provision. The agency notes that hospitals and clinics may wish to consider using their pharmacies for storage of the reserve samples.

With respect to retention of reserve samples that are controlled substances, the burden is on the person who is responsible for retaining the samples to comply with all applicable requirements of the Controlled Substances Act (21 U.S.C. 801) and its implementing regulations.

6. One comment asked who had responsibility for reserve sample retention when a contract research organization administers the drug and collects biological samples, but the biological samples are then returned to the applicant for analysis.

For purposes of this regulation, the agency would consider the contract research organization to have conducted the study and to be responsible for retaining the reserve samples. Similarly, if one contract research organization administers the drug and another contract research organization performs an analysis of the biological samples, the contract research organization that administers the drug would retain the reserve samples.

B. Reserve Sample Retention Period

7. Numerous comments addressed the length of the sample retention period. The interim rule requires that reserve samples be retained for a period of at least 5 years following the date on which the application or supplemental application is approved, or, if such application or supplemental application is not approved, at least 5 years following the date of completion of a bioavailability or bioequivalence study. The interim rule specifically requested comment on the appropriateness of the retention period.

Most of the comments expressed concern that most reserve samples would not exhibit the stability necessary to maintain strength, quality, and purity over such a prolonged period of time, and, therefore, there could be no guarantee that the samples would be appropriate for evaluation by FDA as intended by the interim rule. Requiring special storage conditions, e.g., refrigeration or dehumidification, to prolong a product's stability beyond its normal shelf life would result in a significant expenditure to the applicant or contract research organization responsible for sample retention. Some comments noted that the 5-year period only begins when the application is approved and, in terms of real time, this could be 6 to 8 years for a generic drug product and 7 to 12 years for a new chemical entity. One comment suggested 3 years rather than 5 years as an appropriate retention period; another comment suggested 2 years past submission of an application or supplement, or until the application is approved, whichever occurs first. One comment suggested that FDA make the sample retention period consistent with the good laboratory practice regulations in 21 CFR 58.195(b) and (c). Another comment suggested a retention period of 5 years from the date the bioavailability or bioequivalence study was completed, arguing that NDA and ANDA approval dates are not routinely communicated to a contract testing facility due to potential conflicts of interest.

The 5-year reserve sample retention period is intended to permit flexibility by FDA in its collection and testing of retention samples. Ordinarily, the reserve samples, or a portion of the reserve samples, will be collected by FDA personnel directly from the study sponsor or contract research organization at the storage site during a

VOL 58 ISS 80 AP 28 1993 UMI

preapproval inspection. FDA's priorities for preapproval inspection and sample collection include narrow therapeutic range drugs, new chemical entities, and generic versions of the 200 most prescribed drugs. For drug products not represented in one of these priority categories, a preapproval inspection would be triggered when the applicant's manufacturing facility is new or has not been recently inspected, and when the NDA or ANDA is the initial application for the applicant. In those cases where preapproval inspections were not conducted and reserve samples were not collected prior to approval of an application or abbreviated application, retention of the reserve samples for the 5-year period would permit their availability for collection and testing after approval. Thus, any retention period that would not continue beyond the approval date of an application, as suggested by some comments, would be unacceptable because it would not provide for the availability of the samples in those situations where a preapproval inspection and sample collection were not conducted or where questions arose after approval about a study sponsor's bioequivalence or bioavailability data.

The agency recognizes that a product retained beyond its normal shelf life may not exhibit the stability necessary to maintain its identity, strength, quality, and purity. However, certain types of analyses can be performed on a product to determine that the test article was indeed used in performing a bioavailability or bioequivalence study and that there was no substitution of the reference standard for the test article. Generally, the formulation of the test article and reference standard will differ. For example, different excipients such as binders, fillers, and lubricants may be used; and products may contain tracer ingredients that are unique to the identification of a particular product. Appropriate analyses can be performed on a product retained beyond its expiration date to detect these differences.

8. One comment asked that FDA clarify in the rule that the retention samples may be kept in any appropriate container and need not necessarily duplicate the containers for the products used in the "biostudy." The comment stated that, in many studies, the drug supplied is packaged in individual unit doses or small bottles containing a single day's supply for each study participant. In such cases, if 500 doses are needed for the retention sample, an appropriately packaged bottle of 500 should be allowed, i.e., not 500 unit doses. Another comment recommended that solution dosage forms, parenterals, inhalation aerosols, biologicals, and other specialized delivery devices where storage, stability, and security could be problematic be excluded from retention status.

FDA does not agree that retention samples be kept in any appropriate container. The reserve samples should be retained in the same container/closure system in which the study sponsor provides to the testing facility the supplies of the test article and reference standard. This will provide to FDA evidence as to how the supplies of the test article and reference standard were received by the testing facility. As noted in section II.A.3, the study sponsor should provide to the testing facility supplies of the test article and of the reference standard packaged such that the reserve samples can be randomly selected by the testing facility and retained in the study sponsor's container/closure system.

The agency disagrees with the comment suggesting that certain dosage forms be excluded from the reserve sample retention requirement. The agency must have adequate assurance that the bioavailability and bioequivalence results upon which FDA bases approval of an application are reliable. Therefore, reserve samples of all products used to conduct the types of bioavailability or bioequivalence studies described in this rule must be available for later examination/analysis by FDA.

9. One comment suggested that reserve samples be stored according to the approved labeling and that this be clarified in the rule. Another comment stated that, for new development compounds, appropriate storage information is not always available during the early stages of development, or if it is, such storage conditions are usually limited or restricted. In such a case, storage is usually in accordance with the sponsor's storage requirements.

The agency did not intend that special storage conditions be provided to prolong a product's stability beyond its normal shelf life. All reserve samples are to be retained and stored under conditions consistent with product labeling. The agency believes that, for the types of bioavailability and bioequivalence studies described above for which reserve samples are to be retained, appropriate storage information will be available in the product's labeling. Section 320.38(e) of this final rule (§ 320.32(c) of the interim rule) has been revised to require storage under conditions consistent with product labeling.

10. One comment argued that, for a contract research organization, determining the starting date for sample retention is often a problem because the contract research organization does not have direct knowledge or control over such events as discontinuance of a compound's development, submission of an application for approval, or approval of an application for marketing, which initiates the 5-year retention period.

The agency believes that a contract research organization can make arrangements with a study sponsor regarding notification of the status of the application for which a bioavailability or bioequivalence study has been conducted, and that it is the responsibility of the contract research organization to obtain such information in order to comply with the sample retention requirements of this rule. There is nothing in the regulations that prevents the inclusion, in the contract between a study sponsor and a contract research organization, of a condition requiring the study sponsor to notify the contract research organization of those regulatory actions about a test article that are necessary for a contract research organization to comply with this rule, e.g., discontinuance of the development of a drug, submission of an application for approval, or date of approval of an application for the test article. Thus, the agency recommends that all contract research organizations insist on the inclusion of such a condition in their contract with the study sponsor.

11. One comment stated that the reference standard used for determining bioavailability is usually a solution or suspension that is made up especially for the study, which would rarely be expected to be stable for more than 6 years. The comment suggested an exemption from the sample retention requirements for these reference standards.

As discussed under section II.A.1.a.(i), a reserve sample of the reference standard from the batch used to conduct a bioavailability study comparing the test product to a reference oral solution, suspension, or injection need not be retained. If the study needs to be repeated, the reference standard would be prepared at the time of the study.

12. One comment asked if the 5-year sample retention requirement would apply if, after receiving a not approvable letter from the agency, the applicant decides to withdraw the NDA.

The final rule, like the interim rule, requires that if an application or supplemental application is not approved, reserve samples be retained at least 5 years following the date of

completion of the bioavailability or bioequivalence study in which the sample, from which the reserve sample was obtained, was used. A decision by the applicant to withdraw its application in response to a not approvable letter is without prejudice to refiling. Therefore, because an applicant may resubmit its application, data from previously conducted bioavailability studies could be used for approval of the resubmitted application. Thus, in the situation described by the comment, the reserve samples must be retained for the required time period. The agency believes, however, that in some cases, given the time that may elapse between the conduct of a study and the completion of FDA's review of an application, the 5-year period following the date of completion of a bioavailability study will have expired.

13. One comment asked if the agency would grant a waiver reducing the reserve sample amounts if sufficient quantities of a drug product were not available due to production restrictions such as high product costs or high potency compounds.

The agency does not intend to grant waivers from the requirements of this rule. FDA must be assured that the bioavailability and bioequivalence results upon which FDA bases approval are reliable. Therefore, samples of the products used to conduct the types of bioavailability and bioequivalence studies described in this rule must be available for FDA's analysis. An applicant should consider the requirements of this rule in determining its production quantities.

C. Quantity of Reserve Samples

14. The interim rule required that a sufficient quantity of the reserve samples be retained to permit FDA to perform five times all of the release tests required in the application or supplemental application.

Several comments argued that the quantity of both the test article and reference standard seemed excessive, and asked the agency to reconsider the retention sample size requirement in light of the intended uses for the retained samples. Some comments suggested that the regulations be modified to reflect either the requirement of twice the quantity needed for release testing under the current good manufacturing practice (CGMP) regulations, or the NDA methods validation requirement in 21 CFR 314.50(e) of three times the quantity necessary to perform each test. Two comments argued that samples of the reference standard usually are obtained from the marketplace, and it can be extremely difficult to find in large quantities a single lot of a product sufficient to conduct the study and to retain a portion for the reserve sample. One of the comments suggested retention of two intact bottles of the reference standard sample for identification of lot number, expiry, strength, etc., for 3 years.

One comment asserted that acquiring large quantities of material, if available, for no purpose other than satisfying an excessive retention requirement is an unnecessary economic cost. In addition, the comment suggested that, in assessing potential uses, the agency consider that: (1) the materials to be tested may have been well into their anticipated shelf life at the time of the bioavailability or bioequivalence testing, and (2) the materials will inevitably continue to deteriorate over time such that many potential tests of the retained material (e.g., rerun of release tests or of the "biostudy" itself) could well be meaningless even if those retests are conducted during the application review process. Another comment asserted that the regulation will cause an economic impact in that additional storage space will need to be obtained and existing space modified in order to meet unique and long-term storage requirements. One comment stated that it may not be practical to retain the five times quantity for special dosage forms in limited supply such as early development lots for bioavailability studies.

FDA's experience in the testing of reserve samples of drug products used in a bioavailability or bioequivalence study is that the five times quantity required for the test article and the reference standard is needed to perform necessary testing. Although the interim rule required a "sufficient quantity to permit FDA to perform five times all of the release tests required in the application or supplemental application," FDA does not intend to perform release tests on the reserve samples. The five times quantity standard is intended to provide a yardstick for the retention of a sufficient quantity of the samples by all study sponsors and contract research organizations. The reserve samples of the test article and of the reference standard are used by FDA to conduct a chemical and physical examination of the samples to assure the identity and composition of the test article and reference standard. This is necessary to detect fraudulent substitution of the reference standard for the test article in conducting a bioavailability or bioequivalence study. Although generic drugs are expected to be functionally equivalent to their brand-name counterparts, they are not expected to be identical in all physical and chemical aspects because of differences in, for example, identity and proportions of excipients. These differences are used by FDA to determine if fraudulent substitution has occurred. Any remaining reserve sample is held by FDA in the event that additional testing is necessary. For example, FDA may need to repeat the bioavailability or bioequivalence testing or to perform other appropriate analyses such as content uniformity and dissolution testing on the samples.

The agency agrees that, for some reference standards, only limited quantities may be available in the marketplace. However, FDA believes that sufficient quantities are available to conduct the necessary "biostudies" and to provide the required reserve samples.

The agency continues to believe that the five times quantity standard is an appropriate standard for the reserve sample of the test article and of the reference standard and is retaining that standard in this final rule. However, a study sponsor or contract research organization may consult with the agency if it believes certain dosage forms present unreasonable storage problems. If a contract research organization is unsure of what quantity constitutes the five times quantity, it should contact the study sponsor.

15. One comment asked if the requirement to retain a sufficient quantity of reserve sample to allow FDA to perform five times all of the release tests required in the application or supplemental application provides enough sample for FDA to repeat the bioavailability or bioequivalence testing or perform other appropriate testing, if necessary. Another comment asked if the required retention sample size included sufficient material to allow for a so-called "split" sample so that the applicant could independently verify any tests conducted by the agency on the retained material.

The quantity of sample required to be retained is sufficient for all testing by FDA including a repeat of a bioavailability or bioequivalence study, if necessary. No additional samples beyond the five times quantity need be retained by the study sponsor or contract research organization. However, the required retention sample size does not provide sufficient material for independent testing by the study sponsor.

16. One comment asked for clarification of the sample retention requirement with respect to products that are manufactured in a dry form and

VOL 58 ISS 80 AP 28 1993 UMI

need to be reconstituted just prior to use in a study.

For purposes of the sample retention requirement in this rule, the reserve sample would consist of the product in the dry form, not the reconstituted form.

17. Two comments requested clarification of the effective date of the interim rule with respect to ongoing studies. One comment argued that testing programs already underway as of November 8, 1990, the effective date of the interim rule, should not have to be restarted because insufficient material is available to satisfy the sample retention requirement in addition to that necessary to conduct the required tests. The comment further stated that even if additional material from the same product lots were available, it could not be "representative" of the material submitted for the "biostudies" unless it had been submitted to the testing laboratory at the same time as the original material. One comment argued that, at a minimum, the new requirements should be deemed to be satisfied, in the case of ongoing studies, by the retention of as much material as is available after the testing is complete. This would also apply to study programs which commenced prior to November 8, 1990, if subsequent studies were planned to use the same limited lots of test or reference drugs.

The requirements established in the interim rule apply only to bioavailability and bioequivalence studies that were initiated on or after November 8, 1990.

18. One comment addressed the provisions of §§ 314.125(b)(17) and 314.150(b)(9), which state that FDA may refuse to approve, or to withdraw approval of, an application if an applicant or contract research organization refuses to permit an inspection of its facilities or records, or refuses to submit to FDA reserve samples when requested. The comment asked that when a contract research organization, without the knowledge or approval of the applicant, refuses to permit an FDA inspection of facilities or records relevant to a study or to submit to FDA reserve samples of drug products used in the study, the rule provide for notification to the applicant with an opportunity to intervene before any agency action to refuse to approve, or to withdraw the approval of, an application.

The agency advises that the regulations concerning FDA's action to refuse to approve an application or to withdraw the approval of an application are set forth under §§ 314.120 and 314.150, respectively. Thus, an applicant will have an opportunity to respond to any agency action by the procedures for denying or withdrawing the approval of an application. The agency emphasizes that, because actions or inactions of a contract research organization may affect the status of an applicant's application, the applicant may well wish to assure that the obligation to permit inspection and to release or submit to FDA reserve samples is included in any contract.

19. One comment suggested that the written assurance that the reserve samples came from the same samples as used in the specific bioavailability or bioequivalence study required under § 320.32(e) of the interim rule be modeled after 21 CFR 10.20(i), which requires that submissions to the Dockets Management Branch include a statement that, to the best of the knowledge, information, and belief of the person making the submission, the statements made in the submission are true and accurate. The comment argued that due to the extended period of time that samples must be retained and potential personnel turnover during that time, the person executing the written assurance may not have firsthand knowledge of the history of the sample being released to the agency, and may have to rely on company documentation. The comment further argued that an assurance provided under the interim rule would subject an individual to potential criminal liability under 18 U.S.C. 1001, based upon whether the statement is true or not, even though the person may not have direct personal knowledge of its falsity. Another comment asked in what form the written assurance should be. One comment asserted that both the sponsor and testing laboratory should certify that the reserve samples are those used in the specific bioavailability or bioequivalence studies submitted to FDA, and that copies of the certification statements should be held by both parties and be made available to FDA upon request.

The agency agrees that the person executing the written assurance may not have firsthand knowledge of the history of the samples and may have to rely on records of the applicant or contract research organization. Therefore, FDA has revised § 320.38(g) (§ 320.32(e) in the interim rule) to require that the applicant or contract research organization provide a written assurance that, to the best knowledge and belief of the individual executing the assurance, the reserve samples came from the same samples as used in the specific bioavailability or bioequivalence study identified by the agency. The written assurance may be in the form of a certification or other appropriate form. Because it is the contract research organization that separates out the reserve samples from the supplies of the test article and reference standard provided by the study sponsor rather than the study sponsor, FDA does not believe that the study sponsor can assure that the reserve samples came from the same batch as used in a specific bioavailability or bioequivalence study. Therefore, FDA does not agree with the assertion that both the study sponsor and testing laboratory certify with respect to the reserve sample.

20. Two comments asked that the requirement in § 320.32(b) of the interim rule, which requires that samples be positively identified as having come from the same sample as used in the specific bioavailability or bioequivalence study, be more specific as to what is expected.

The agency believes that specific ways to identify reserve samples and the study in which they were used should be left to the study sponsor or contract research organization responsible for retaining the samples. Therefore, the agency declines to provide specificity in the regulation. Appropriate identification may, however, consist of, but not be limited to, including on the sample container and in the study report, the product name, lot number, and study number.

21. One comment suggested that for inhalants that require exhaustive number of dosage units to be tested for release and require large storage space, a definitive number of retention samples, for example, 10 to 20 units, should be sufficient.

As discussed in section II.C.14, FDA does not intend to perform release testing on the reserve samples. Nevertheless, the agency does not agree that 10 to 20 units of an inhalant dosage form are sufficient for FDA's analysis and testing. As also discussed in section II.C.14, the reserve samples ordinarily will be used by FDA to perform a chemical and physical examination of the samples. The agency may also need to perform analyses such as content uniformity and dissolution for solid oral dosage forms and may need to repeat the bioavailability or bioequivalence testing. The agency concludes that the quantity of the reserve sample of an inhalant test article and of the reference standard needed for testing and analyses must be at least 50 units.

D. Need For Additional Requirements

22. In the preamble to the interim rule, FDA stated it was considering whether additional requirements were

necessary to ensure the integrity of the reserve samples and invited comment on questions relating to storage area, need for a sample custodian, and packaging of the reserve samples. Seventeen comments responded to the agency's questions or otherwise addressed the issue of the need for additional requirements.

Two comments recommended that, under CGMP regulations, applicants be required to adopt written procedures for selection of samples from drug lots used in bioavailability or bioequivalence testing and for secure transmission of these samples to internal facilities or contract research organizations for "biotesting" and storage. Additional written procedures should establish the security measures to be followed for retained samples, including requirements for the storage area, sample custodian, and packaging of the samples to ensure that sample integrity is not compromised. Most of the comments recommended that the reserve samples be stored in an area where access is controlled and that is separate from the testing area. One comment, however, asked for a clarification of the wording "separate from" arguing that it is not necessary to require separation from the testing area so long as the storage area is segregated and access is controlled. A majority of the comments suggested that the need for a sample custodian should be left up to the applicant or testing facility and not be required by regulation. Responses to the questions of how the reserve samples should be packaged during the retention period to ensure that sample integrity is not compromised and to prevent tampering varied among the responders. Some comments recommended that the packaging of the reserve samples be in the same container/closure as that provided to the testing facility or a normal marketed package; other comments suggested using tamper-resistant packaging, using a sealed protective container such as glass, taking appropriate measures to prevent tampering, or that there is no need for specific packaging requirements if there is appropriate documentation based on written operating procedures.

FDA agrees with those comments recommending that reserve samples be stored in an area separate from the testing area and with controlled access. Accordingly, § 320.38(e) (§ 320.32(c) in the interim rule) has been revised to require that each reserve sample be stored in an area segregated from the area where testing is conducted and with access limited to authorized personnel. The agency has used the phrase "segregated from" rather than "separate from" because it is not intended that the storage area necessarily be in a different room, building, or facility. The requirement is intended to ensure that enough physical separation be employed by the study sponsor or contract research organization as is necessary to ensure that the integrity of the reserve sample is not compromised during the retention period.

The agency is not including other additional requirements at this time. If, based on FDA's inspectional experience and collection of reserve samples, the agency believes additional requirements are needed to ensure the integrity of the samples, it will propose appropriate revisions to this rule. The rule does not preclude study sponsors from adopting written procedures for the selection and transmission to the testing facility or contract research organization of the test article and reference standard for testing and storage of the reserve samples.

E. Other Comments

23. One comment noted that the interim rule did not address the situation where a contract testing laboratory goes out of business or is otherwise not in a position to continue to meet its obligations under the rule. The comment suggested that, under such circumstances, the sponsor should be allowed to recover from the contractor any retained samples from the studies it sponsored because sponsors are already required under the interim rule to maintain samples for studies conducted in-house. This would obviate the need for special procedures to deal with the insolvency of contractors or other potential problems with third party custodians, and would greatly simplify FDA's ability to obtain the samples because they would be readily available from the sponsor even for studies conducted by contract testing laboratories in foreign countries.

The agency agrees that the rule should provide for the transfer of reserve samples if a contract research organization goes out of business, but does not agree that the samples should be transferred to the sponsor or applicant for whom the contract research organization conducted the bioavailability or bioequivalence study. Rather, to preclude the possibility for sample substitution by a study sponsor or to preclude a study sponsor from altering a reserve sample, FDA concludes that the reserve samples should be transferred to an appropriate, independent third party, e.g., a commercial storage facility or a university. Therefore, a new paragraph (i) is added to § 320.38 (§ 320.32 in the interim rule), which states that when a contract research organization conducting a bioavailability or bioequivalence study requiring reserve sample retention goes out of business, it shall transfer its reserve samples to an appropriate, independent third party and shall notify in writing the sponsor of the study and provide the sponsor with the name and address of the facility to which the reserve samples have been transferred. Because the comment did not describe the circumstances in which a contract research organization "is otherwise not in a position to continue to meet its obligations under the rule," no further revision of the rule has been made.

24. One comment suggested that after the retention period is up, samples should be returned to the sponsor for proper accountability and destruction as required under CGMP's.

The agency advises that this final rule, like the interim rule, does not preclude such an approach. The study sponsor may wish to include in the contractual agreement with the contract research organization provisions for handling of the reserve samples after the retention period has expired. It should be noted, however, that the CGMP regulations do not address disposition of outdated reserve samples required to be retained under those regulations.

25. One comment suggested using a standardized photographic archiving procedure to show the drug product at the time of dosing for the bioavailability or bioequivalence study. This photographic record could be retained beyond the expiration date of the product, and would demonstrate the product's physical appearance.

The agency does not intend to require a photographic archiving procedure in this final rule; however, this does not preclude a testing facility from adopting such a procedure. FDA intends, as part of its physical analysis of a product that is a solid oral dosage form, to photograph each strength of each product to clearly document its shape, color, and distinctive markings. These photographs will be retained by FDA for later use in comparing subsequent batches of the test article or in comparing the test article to the reference standard.

26. Several comments addressed a statement in the preamble to the interim rule that states "in vitro and animal in vivo bioequivalence and bioavailability studies are within the scope of the good laboratory practice regulations." The comments argued that animal bioequivalence and bioavailability studies have not previously been

VOL 58 ISS 80 AP 28 1993 UMI

considered within the scope of 21 CFR part 58 except when conducted as part of a toxicology protocol or when conducted to directly support a toxicology protocol. The comments asked that FDA further clarify the scope of the preamble statement and this rule.

The agency believes the regulations at 21 CFR part 58 are ambiguous with respect to in vitro and animal in vivo bioavailability and bioequivalence studies required for approval of an NDA or ANDA; however, it is understood that no one considers those regulations to apply to the types of studies subject to this rule. Therefore, the requirements of this rule do not affect the reserve sample retention requirements under 21 CFR part 58.

III. Economic Impact

FDA has examined the economic consequences of the changes implemented by the final rule in accordance with Executive Order 12291 and the Regulatory Flexibility Act (Pub. L. 96–354). This final rule more clearly defines the types of in vivo bioavailability studies for which reserve samples are to be retained. Although this rule has been in place as an interim regulation, the agency is not aware that it has imposed any undue costs. Nevertheless, because several comments to the record alluded to potential costs, the agency has conducted a Threshold Assessment of the final rule, which is on file with the Dockets Management Branch (HFA–305), rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857.

The agency's assessment presents costs of retaining samples for an estimated 360 marketing applications per year. The study addressees both the additional storage costs and the acquisition costs of the test articles and reference standards. Storage costs were estimated on the basis of each sample requiring 0.5 square feet of storage for 5 years, and amounted to about $2,800. These costs would be roughly proportionate to the duration of the retention period. Acquisition costs of about $94,000 for reference samples were obtained from a survey of average retail prices of 16 well-prescribed medicines. Although individual circumstances may arise where storage or acquisition costs for a particular sample could rise substantially above these estimates, the agency believes that, on average, the annual costs of this rule will be about $100,000. FDA believes that these costs will likely be more than offset by the societal benefits of this rule, i.e., the added assurance that FDA's drug approval process functions effectively to ensure that only safe and effective drug products enter the marketplace. Accordingly, the agency concludes that this final rule is not a major rule as defined by Executive Order 12291, and certifies that the final rule will not have a significant impact on a substantial number of small entities, as defined by the Regulatory Flexibility Act.

Notwithstanding the above agency assessment, FDA believes that it would be desirable to have available specific data with respect to various sample retention periods and quantities of samples to be retained. Therefore, the agency is soliciting information on the following areas:

(1) The incremental costs of retention of samples for 3 years relative to 4 years, and 4 years relative to 5 years;

(2) The incremental costs of retention of a "4 times quantity" of samples relative to a "5 times quantity"; and

(3) Any information on the incremental benefits of either retaining greater quantities of samples, or of retaining samples for greater periods of time.

Interested persons may, on or before May 28, 1993 submit to the Dockets Management Branch (address above) information on these areas. Two copies of any information should be submitted, except that individuals may submit one copy. Information submitted is to be identified with the docket number found in brackets in the heading of this document. Information received may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

IV. Environmental Impact

The agency has determined under 21 CFR 25.24(a)(8) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects

21 CFR Part 312

Drugs, Exports, Imports, Investigations, Labeling, Medical research, Reporting and recordkeeping requirements, Safety.

21 CFR Part 314

Administrative practice and procedure, Confidential business information, Drugs, Reporting and recordkeeping requirements.

21 CFR Part 320

Drugs, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act, the Public Health Service Act, and authority delegated to the Commissioner of Food and Drugs, 21 CFR parts 312, 314, and 320 are amended as follows:

PART 312—INVESTIGATIONAL NEW DRUG APPLICATION

1. The authority citation for 21 CFR part 312 continues to read as follows:

Authority: Secs. 201, 301, 501, 502, 503, 505, 506, 507, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 331, 351, 352, 353, 355, 356, 357, 371); sec. 351 of the Public Health Service Act (42 U.S.C. 262).

2. Section 312.57 is amended by revising paragraph (c) to read as follows:

§ 312.57 Recordkeeping and record retention.

* * * * *

(c) A sponsor shall retain reserve samples of any test article and reference standard identified in, and used in any of the bioequivalence or bioavailability studies described in, § 320.38 or § 320.63 of this chapter, and release the reserve samples to FDA upon request, in accordance with, and for the period specified in § 320.38.

* * * * *

PART 314—APPLICATIONS FOR FDA APPROVAL TO MARKET A NEW DRUG OR AN ANTIBIOTIC DRUG

3. The authority citation for 21 CFR part 314 continues to read as follows:

Authority: Secs. 201, 301, 501, 502, 503, 505, 506, 507, 701, 706 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 331, 351, 352, 353, 355, 356, 357, 371, 376).

4. Section 314.125 is amended by revising paragraph (b)(17) to read as follows:

§ 314.125 Refusal to approve an application or abbreviated antibiotic application.

* * * * *

(b) * * *

(17) The applicant or contract research organization that conducted a bioavailability or bioequivalence study described in § 320.38 or § 320.63 of this chapter that is contained in the application or abbreviated antibiotic application refuses to permit an inspection of facilities or records relevant to the study by a properly authorized officer or employee of the Department of Health and Human Services or refuses to submit reserve samples of the drug products used in the study when requested by FDA.

* * * * *

5. Section 314.127 is amended by revising paragraph (b) to read as follows:

§ 314.127 Refusal to approve an abbreviated new drug application.

* * * * *

(b) FDA may refuse to approve an abbreviated application for a new drug if the applicant or contract research organization that conducted a bioavailability or bioequivalence study described in § 320.63 of this chapter that is contained in the abbreviated new drug application refuses to permit en inspection of facilities or records relevant to the study by a properly authorized officer of employee of the Department of Health and Human Services or refuses to submit reserve samples of the drug products used in the study when requested by FDA.

6. Section 314.150 is amended by revising paragraph (b)(9) to read as follows:

§ 314.150 Withdrawal of approval of an application or abbreviated application.

* * * * *

(b) * * *

(9) That the applicant or contract research organization that conducted a bioavailability or bioequivalence study described in § 320.38 or § 320.63 of this chapter that is contained in the application or abbreviated application refuses to permit an inspection of facilities or records relevant to the study by a properly authorized officer or employee of the Department of Health and Human Services or refuses to submit reserve samples of the drug products used in the study when requested by FDA.

* * * * *

PART 320—BIOAVAILABILITY AND BIOEQUIVALENCE REQUIREMENTS

7. The authority citation for 21 CFR part 320 continues to read as follows:

Authority: Secs. 201, 501, 502, 505, 507, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 351, 352, 355, 357, 371).

8. Section 320.31 is amended by revising paragraph (c), by adding new paragraph (d), and by removing paragraphs (e) and (f) to read as follows:

§ 320.31 Applicability of requirements regarding an "Investigational New Drug Application."

* * * * *

(c) The provisions of parts 50, 56, and 312 of this chapter are applicable to any bioavailability or bioequivalence study in humans conducted under an IND.

(d) A bioavailability or bioequivalence study in humans other than one described in paragraphs (a) through (c) of this section is exempt from the requirements of part 312 of this chapter if the following conditions are satisfied:

(1) If the study is one described under § 320.38(b) or § 320.63, the person conducting the study, including any contract research organization, shall retain reserve samples of any test article and reference standard used in the study and release the reserve samples to FDA upon request, in accordance with, and for the period specified in, § 320.38; and

(2) An in vivo bioavailability or bioequivalence study in humans shall be conducted in compliance with the requirements for institutional review set forth in part 56 of this chapter, and informed consent set forth in part 50 of this chapter.

9. Section 320.38 is revised to read as follows:

§ 320.38 Retention of bioavailability samples.

(a) The applicant of an application or supplemental application submitted under section 505 or 507 of the Federal Food, Drug, and Cosmetic Act, or, if bioavailability testing was performed under contract, the contract research organization shall retain an appropriately identified reserve sample of the drug product for which the applicant is seeking approval (test article) and of the reference standard used to perform an in vivo bioavailability study in accordance with and for the studies described in paragraph (b) of this section that is representative of each sample of the test article and reference standard provided by the applicant for the testing.

(b) Reserve samples shall be retained for the following test articles and reference standards and for the studies described:

(1) If the formulation of the test article is the same as the formulation(s) used in the clinical studies demonstrating substantial evidence of safety and effectiveness for the test article's claimed indications, a reserve sample of the test article used to conduct an in vivo bioavailability study comparing the test article to a reference oral solution, suspension, or injection.

(2) If the formulation of the test article differs from the formulation(s) used in the clinical studies demonstrating substantial evidence of safety and effectiveness for the test article's claimed indications, a reserve sample of the test article and of the reference standard used to conduct an in vivo bioequivalence study comparing the test article to the formulation(s) (reference standard) used in the clinical studies.

(3) For a new formulation, new dosage form, or a new salt or ester of an active drug ingredient or therapeutic moiety that has been approved for marketing, a reserve sample of the test article and of the reference standard used to conduct an in vivo bioequivalence study comparing the test article to a marketed product (reference standard) that contains the same active drug ingredient or therapeutic moiety.

(c) Each reserve sample shall consist of a sufficient quantity to permit FDA to perform five times all of the release tests required in the application or supplemental application.

(d) Each reserve sample shall be adequately identified so that the reserve sample can be positively identified as having come from the same sample as used in the specific bioavailability study.

(e) Each reserve sample shall be stored under conditions consistent with product labeling and in an area segregated from the area where testing is conducted and with access limited to authorized personnel. Each reserve sample shall be retained for a period of at least 5 years following the date on which the application or supplemental application is approved, or, if such application or supplemental application is not approved, at least 5 years following the date of completion of the bioavailability study in which the sample from which the reserve sample was obtained was used.

(f) Authorized FDA personnel will ordinarily collect reserve samples directly from the applicant or contract research organization at the storage site during a preapproval inspection. If authorized FDA personnel are unable to collect samples, FDA may require the applicant or contract research organization to submit the reserve samples to the place identified in the agency's request. If FDA has not collected or requested delivery of a reserve sample, or if FDA has not collected or requested delivery of any portion of a reserve sample, the applicant or contract research organization shall retain the sample or remaining sample for the 5-year period specified in paragraph (e) of this section.

(g) Upon release of the reserve samples to FDA, the applicant or contract research organization shall provide a written assurance that, to the best knowledge and belief of the individual executing the assurance, the reserve samples came from the same samples as used in the specific bioavailability or bioequivalence study identified by the agency. The assurance shall be executed by an individual authorized to act for the applicant or contract research organization in releasing the reserve samples to FDA.

UMI

(h) A contract research organization may contract with an appropriate, independent third party to provide storage of reserve samples provided that the sponsor of the study has been notified in writing of the name and address of the facility at which the reserve samples will be stored.

(i) If a contract research organization conducting a bioavailability or bioequivalence study that requires reserve sample retention under this section or § 320.63 goes out of business, it shall transfer its reserve samples to an appropriate, independent third party, and shall notify in writing the sponsor of the study of the transfer and provide the study sponsor with the name and address of the facility to which the reserve samples have been transferred.

10. Section 320.63 is revised to read as follows:

§ 320.63 Retention of bioequivalence samples.

The applicant of an abbreviated application or a supplemental application submitted under section 505 or 507 of the Federal Food, Drug, and Cosmetic Act, or, if bioequivalence testing was performed under contract, the contract research organization shall retain reserve samples of any test article and reference standard used in conducting an in vivo or in vitro bioequivalence study required for approval of the abbreviated application or supplemental application. The applicant or contract research organization shall retain the reserve samples in accordance with, and for the period specified in, § 320.38 and shall release the reserve samples to FDA upon request in accordance with § 320.38.

Dated: March 3, 1993.

Michael R. Taylor,

Deputy Commissioner for Policy.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche format and magnetic tape. The annual subscription price for the **Federal Register** paper edition is $375, or $415 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $353; and magnetic tape is $37,500. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $4.50 for each issue, or $4.50 for each group of pages as actually bound; or $1.50 for each issue in microfiche form; or $175.00 per magnetic tape. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 58 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations

WHO: The Office of the Federal Register

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations
2. The relationship between the Federal Register and Code of Federal Regulations
3. The important elements of typical Federal Register documents
4. An introduction to the finding aids of the FR/CFR system

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: May 12 and June 15 at 9:00 am
WHERE: Office of the Federal Register, 7th Floor Conference Room, 800 North Capitol Street NW, Washington, DC (3 blocks north of Union Station Metro)
RESERVATIONS: 202-523-4538

PHILADELPHIA, PA

WHEN: May 25, at 1:00 pm
WHERE: William J. Green, Jr. Federal Building, Conference Room 6306-10, 600 Arch St. Philadelphia, PA
RESERVATIONS: Federal Information Center 1-800-347-1997

Rules and Regulations

Federal Register
Vol. 58, No. 81
Thursday, April 29, 1993

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

Small Business Size Regulations; Size Standards Table and Size Standards Under Section 8(d) Subcontracting Program

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: The Small Business Administration (SBA) is revising its Size Standard Table, Standard Industrial Classification (SIC) Code 8711, and its Size Standards Under SBA's Section 8(d) Subcontracting Program, in order to comply with the National Energy Policy Act of 1992. The National Energy Policy Act of 1992 states that for purposes of contracts and subcontracts requiring engineering services awarded under this Act the applicable size standard shall be that established for military and aerospace equipment and military weapons. This final rule amends the size standard table and the regulations regarding the Subcontracting Program to indicate that engineering contracts and subcontracts awarded under the National Energy Policy Act have the same size standard as established at SIC code 8711 for "Engineering Services: Military and Aerospace Equipment and Military Weapons."

EFFECTIVE DATE: This rule is effective April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Catherine Thomas, Size Determinations Program Manager, U.S. Small Business Administration, 409 Third Street, SW., Washington, DC 20416 (202) 205–6460.

SUPPLEMENTARY INFORMATION: The SBA has an established size standard table at 13 CFR 121.601 which classifies and defines activities by industry categories. The size standard (either number of employees or annual receipts) for each industry indicates the maximum allowed for a concern to be considered small. The SBA also further defines a small business for the purposes of subcontracts under $10,000 at 13 CFR 121.910. Section 3021 (b)(1) of Public Law 102–486, the National Energy Policy Act of 1992 (106 Stat. 2776, 3133), states that "for purposes of contracts and subcontracts requiring engineering services [awarded under this Act] the applicable size standard shall be that established for military and aerospace equipment and military weapons." Absent this statutory requirement, such engineering services would be classified under SIC code 8711 having the size standard established for "Engineering Services: Other Engineering Services," which is annual receipts of $2.5 million, or for subcontracts valued at $10,000 or less, a size standard of 500 persons. However, the language of the law specifically states that such contracts are to have the same size standard as "Engineering Services: Military and Aerospace Equipment and Military Weapons;" thus, the size standard for engineering contracts and subcontracts awarded under the National Energy Policy Act of 1992 is annual receipts of $13.5 million.

Compliance With Regulatory Flexibility Act, Executive Orders 12291, 12612, 12778 and the Paperwork Reduction Act

SBA certifies that this final rule is not a major rule within the meaning of Executive Order 12291 and will not have a significant economic impact on a substantial number of entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* This change to the size regulations only clarifies how contracts and subcontracts awarded under the National Policy Act of 1992 (Pub. L. 102–486) are to be classified and does not change the size standard or impact the dollar amounts to be awarded.

For purposes of Executive Order 12612, SBA certifies that this rule will not have any federalism implications warranting the preparation of a Federalism Assessment.

For purposes of Executive Order 12778, SBA certifies that this rule is drafted, to the extent practicable, in accordance with the standards set forth in section 2 of that Order.

For purposes of the Paperwork Reduction Act of 1980, 44 U.S.C., ch. 35, SBA certifies that this rule contains no new reporting or recordkeeping requirements.

SBA is publishing this rule as a final rule without notice and an opportunity for public comment pursuant to section 553 (b)(B). Since we are adding statutorily required language, it is unnecessary to provide such notice and opportunity for public comment.

List of Subjects in 13 CFR Part 121

Administrative practice and procedure, Government procurement, Government property, Grant programs-business, Loan programs-business, Reporting and recordkeeping requirements, Small businesses.

For the reasons set forth above, SBA is amending part 121 of title 13, Code of Federal Regulations, as follows:

PART 121—[AMENDED]

1. The authority citation for part 121 is revised to read as follows:

Authority: 15 U.S.C. 632(a), 634(b)(6), 637(a), 644(c); and Pub. L. 102–486, 106 Stat. 2776, 3133.

2. Section 121.601, Standard Industrial Classification codes and size standards, is amended by revising the entry for 8711 in the table to read as follows:

§ 121.601 Standard Industrial Classification codes and size standards

* * * * *

SIC	Description (N.E.C.=not elsewhere classified)	Size
* * * * *		
Major Group 87—Engineering, Accounting, Research Management, and Related Services		
8711[2] ..	Engineering Services: Military and Aerospace Equipment and Military Weapons and Contracts and Subcontracts for Engineering Services awarded under the National Energy Policy Act of 1992.	$13.5
* * * * *		

[1] Size standards in number of employees o millions of dollars.
[2] New SIC Code in 1987, not used in 1972

3. Section 121.910, Size standards under SBA's Section 8(d) Subcontracting Program, is amended by revising paragraph (a) to read as follows

VOL 58 ISS 81 AP 29 1993 UMI

§ 121.910 Size standards under SBA's Section 8(d) Subcontracting Program.

* * * * *

(a) In connection with subcontracts of $10,000 or less which relate to Government procurements, if its number of employees (including its affiliates) does not exceed 500 persons. However, subcontracts for engineering services awarded under the National Energy Policy Act of 1992, in accordance with Public Law 102–486 (106 Stat. 2776, 3133), are to be classified as SIC code 8711 and have the same size standard as Military and Aerospace Equipment and Military weapons and Contracts; and

Dated: April 19, 1993.

Dayton J. Watkins,

Acting Administrator.

[FR Doc. 93–9785 Filed 4–28–93; 8:45 am]

BILLING CODE 8025–01–M

TENNESSEE VALLEY AUTHORITY

18 CFR Part 1316

TVA Contracts

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Final rule.

SUMMARY: The Tennessee Valley Authority (TVA) hereby issues certain general conditions and certifications which may be included by reference in TVA contract documents or actions. Such inclusion by reference will allow reduction of the length of TVA contract documents. TVA is taking this action to improve administrative efficiency, not to impose any regulatory changes.

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Mary Carol Campbell, Procurement Specialist, 615–751–2731.

SUPPLEMENTARY INFORMATION: To help streamline TVA contract procedures, TVA intends in some cases to include certain general conditions and certifications by reference instead of reproducing the full text of such provisions in each contract action. Issuing such provisions as a final rule is simply for ease of such inclusion by reference, and does not involve any substantive policy change. The provisions issued here are not automatically incorporated in all contract documents (generally, they will be incorporated only as specified in a given action). Because this rule simply issues common contract provisions, no notice of proposed rulemaking or comment period is necessary, and the Regulatory Flexibility Act does not apply. This rule is not a major rule for the purposes of Executive Order No. 12291. No information collections are involved.

List of Subjects in 18 CFR Part 1316

Government contracts.

For the reasons set out in the preamble, 18 CFR Chapter XIII is amended by adding part 1316 to read as follows:

PART 1316—GENERAL CONDITIONS AND CERTIFICATIONS FOR INCORPORATION IN CONTRACT DOCUMENTS OR ACTIONS

Subpart A—General Information

Sec.

1316.1 Applicability.

Subpart B—Text of Conditions and Certifications

Sec.

1316.2 Affirmative action and equal opportunity.
1316.3 Anti-kickback procedures.
1316.4 Buy American Act supply contracts.
1316.5 Clean Air and Water Acts.
1316.6 Discrimination on the basis of age.
1316.7 Drug-free workplace.
1316.8 Employee protected activities.
1316.9 Nuclear energy hazards and nuclear incidents.
1316.10 Officials not to benefit.

Authority: 16 U.S.C. 831–831dd.

Subpart A—General Information

§ 1316.1 Applicability.

This part sets out the text of certain conditions and certifications which may be included by reference in certain TVA contract documents or actions. The provisions set out in this part are not automatically incorporated in all TVA actions.

Subpart B—Text of Conditions and Certifications

§ 1316.2 Affirmative action and equal opportunity.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Affirmative Action and Equal Opportunity

(a) To the extent applicable, contract incorporates the following provisions: "Affirmative Action for Disabled Veterans and Veterans of the Vietnam Era" clause, 41 CFR 60–250.4; the "Affirmative Action for Handicapped Workers" clause, 41 CFR 60–741.4; and the "Equal Opportunity" clause, 41 CFR 60–1.4. Contractor complies with applicable regulatory requirements, including information reports and affirmative action programs.

(b) *Certification of Nonsegregated Facilities:* (1) By submission of its offer, the offeror certifies that it does not and will not maintain or provide for employees any segregated facilities at any of its establishments, and that it does not and will not permit employees to perform their services at any location under its control where segregated facilities are maintained. The offeror agrees that a breach of this certification is a violation of the Equal Opportunity clause in this contract.

(2) As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, timeclocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, or housing facilities provided to employees which are segregated by explicit directive or are in fact segregated on the basis of race, religion, color, or national origin, because of habit, local custom, or otherwise.

(3) Contractor further agrees that (except where it has obtained identical certifications from proposed subcontractors for specific time periods) identical certifications will be obtained from proposed subcontractors prior to the award of subcontractors exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause; that it will retain such certifications in its files; and that it will forward the following notice to such proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

Notice to Prospective Subcontractors of Requirement for Certifications of Nonsegregated Facilities. A Certification of Nonsegregated Facilities must be submitted prior to the award of a subcontract exceeding $10,000 which is not exempt from the provision of the Equal Opportunity clause. The certification may be submitted either for each subcontract or for all subcontracts during a period (i.e., quarterly, semiannually, or annually).

(4) **Note:** The penalty for making false statements in offers is prescribed in Title 18 U.S.C. 1001.

(End of clause)

§ 1316.3 Anti-kickback procedures.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Anti-Kickback Procedures

Contractor shall comply with the following:

(a) Definitions. As used in this clause, terms shall have the meanings defined in the Anti-Kickback Act of 1986 (41 U.S.C. 51–58) (the Act).

(b) The Act prohibits any person from—

(1) Providing or attempting to provide or offering to provide any kickback;

(2) Soliciting, accepting, or attempting to accept any kickback; or

(3) Including, directly or indirectly, the amount of any kickback in the contract price charged by a prime contractor to TVA or in the contract price charged by the subcontractor to a prime contractor or higher tier subcontractor.

(c)(1) Contractor shall have in place and follow reasonable procedures designed to prevent and detect possible violations described in section (b) of this clause in its own operations and direct business relationships.

(2) When Contractor has reasonable grounds to believe that a violation described in section (b) of this clause may have occurred, Contractor shall promptly report in writing the possible violation. Such reports shall be made to the TVA Inspector General.

(3) Contractor shall cooperate fully with TVA or any other Federal agency investigating a possible violation described in section (b) of this clause.

(4) (i) Regardless of the contract tier at which a kickback was provided, accepted, or charged under the contract in violation of section (b) of this clause, the Contracting Officer may—

(A) Offset the amount of the kickback against any monies owed by TVA under this contract; and/or

(B) Direct that Contractor withhold from sums owed the subcontractor the amount of the kickback.

(ii) The Contracting Officer may order that monies withheld under subsection (c)(4)(i)(B) of this clause be paid over to TVA unless TVA has already offset those monies under subsection (c)(4)(i)(A) of this clause. In the latter case, Contracting shall notify the Contracting Officer when the monies are withheld.

(5) Contractor agrees to incorporate the substance of this clause, including this subsection (c)(5), in all subcontracts under this contract.

(End of clause)

§ 1316.4 Buy American Act supply contracts.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Buy American Act Supply Contracts

(a) In TVA's acquisition of end products, the Buy American Act (41 U.S.C. 10a–10d) provides that preference be given to domestic end products. A domestic end product means:

(1) An unmanufactured end product which has been mined or produced in the United States; and

(2) An end product manufactured in the United States if the cost of components thereof which are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components.

(b) Contractor agrees that there will be delivered under this contract only domestic end products, except end products:

(1) Which are for use outside the United States;

(2) Which TVA determines are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality;

(3) As to which TVA determines the domestic preference to be inconsistent with the public interest; or

(4) As to which TVA determines the cost to be unreasonable.

(End of clause)

§ 1316.5 Clean Air and Water Acts.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Clean Air and Water Acts

(a) If performance of this contract would involve the use of facilities which have given rise to a conviction under section 113(c)(1) of the Clean Air Act (42 U.S.C. 7413) or section 309(c) of the Federal Water Pollution Control Act (33 U.S.C. 1319), offeror shall include in its offer a statement clearly setting forth the facts and circumstances of said conviction and shall list the facilities which gave rise to said conviction. If no such statement is submitted, submission of an offer constitutes certification by the offeror that performance of this contract will not involve the use of facilities which have given rise to a conviction under section 113(c)(1) of the Clean Air Act or section 309(c) of the Federal Water Pollution Control Act. As used in this clause "facilities" shall have the meaning set forth in 40 CFR 15.4.

(b) TVA will not award a contract to any offeror whose performance would involve the use of any facility or facilities which have given rise to a conviction as set forth in paragraph (a) of this clause except to the extent TVA, in its sole judgment, determines that such contract is exempt at the time of contract award from the provisions of 40 CFR part 15 as set forth therein.

(c) A condition of award of this contract is that contractor shall notify the Contracting Officer in writing of the receipt of any communication from the U.S. Environmental Protection Agency (EPA) indicating that a facility to be utilized for this contract is under consideration to be listed on the EPA List of Violating Facilities. Prompt notification shall be required prior to contract award.

(End of clause)

§ 1316.6 Discrimination on the basis of age.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Discrimination On The Basis Of Age

Executive Order 11141, 3 CFR, 1964–1965 Comp., p. 179, states that it is the policy of the Executive Branch of the United States that: Contractors and subcontractors engaged in the performance of Federal contracts shall not, in connection with the employment, advancement, or discharge of employees, or in connection with the terms, conditions, or privileges of their employment, discriminate against persons because of their age except upon the basis of a bona fide occupational qualification, retirement plan, or statutory requirement; and that contractors and subcontractors, or persons acting on their behalf, shall not specify, in solicitations or advertisements for employees to work on Government contracts, a maximum age limit for such employment unless the specified maximum age limit is based upon a bona fide occupational qualification, retirement plan, or statutory requirement.

(End of clause)

§ 1316.7 Drug-free workplace.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Drug-Free Workplace

(a) Definitions. As used in this provision:

Controlled substance means a controlled substance in schedules I through V of Section 202 of the Controlled Substances Act (21 U.S.C. 812) and as further defined in regulations at 21 CFR 1308.11 through 1308.15

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes.

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, possession, or use of any controlled substance.

Drug-free workplace means a site, including TVA premises, for the performance of work done in connection with a specific contract at which employees of Contractor are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance.

Employee means an employee of a contractor directly engaged in the performance of work under a Government contract.

Individual means an offeror/contractor that has no more than one employee, including the offeror/contractor.

(b) Offerors Other than Individuals. By submission of its offer, the offeror, if other than an individual, who is making an offer that equals or exceeds $25,000, certifies and agrees that, with respect to all employees of the offeror to be employed under a contract resulting from this solicitation, it will—

(1) Publish a statement notifying such employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in Contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition;

(2) Establish a drug-free awareness program to inform such employees about—

(i) The dangers of drug abuse in the workplace;

(ii) Contractor's policy of maintaining a drug-free workplace;

(iii) Any available drug counseling, rehabilitation, and employee assistance programs; and

(iv) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(3) Provide all employees engaged in performance of the contract with a copy of the statement required by paragraph (b)(1) of this section;

(4) Notify such employees in the statement required by paragraph (b)(1) of this section that, as a condition of continued employment

VOL 58 ISS 81 AP 29 1993 UMI

on the contract resulting from this solicitation, the employee will—

(i) Abide by the terms of the statement; and

(ii) Notify Contractor of any criminal drug statute conviction for a violation occurring in the workplace no later than 5 days after such conviction;

(5) Notify the Contracting Officer within 10 days after receiving notice under paragraph (b)(4)(ii) of this section from an employee or otherwise receiving actual notice of such conviction;

(6) Within 30 days after receiving notice under subsection (b)(4) of this section of a conviction, impose the following sanctions or remedial measures on any employee who is convicted of drug abuse violations occurring in the workplace:

(i) Take appropriate personnel action against such employee, up to and including termination; or

(ii) Require such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(7) Make a good-faith effort to maintain a drug-free workplace through implementation of subsections (b)(1) through (b)(6) of this provision.

(c) Individuals. By submission of its offer, the offeror, if an individual who is making an offer of any dollar value, certifies and agrees that the offeror will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in the performance of the contract resulting from this solicitation.

(d) Enforcement. Failure of the offeror to provide the certification required by section (b) or (c) of this provision, renders the offeror unqualified and ineligible for award. Failure of Contractor to comply with the requirements of subsections (b)(1) through (b)(7) or section (c) shall constitute a material breach of contract entitling TVA to suspend payments, terminate the contract, suspend or debar Contractor from Government contracting in accordance with subsection 5152(b)(2) of the Drug-Free Workplace Act of 1988 (41 U.S.C. 701(b)(2)), or take such other action as may be in accordance with law or the contract.

(e) In addition to other remedies available to the Government, the certification in sections (b) and (c) of this provision concerns a matter within the jurisdiction of an agency of the United States, and making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under 18 U.S.C. 1001.

(End of clause)

§ 1316.8 Employee protected activities.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Employee Protected Activities

(Applicable to contracts for goods or services delivered to nuclear facilities or otherwise relating to Nuclear Regulatory Commission (NRC) licensed activities.)

(a) Contractor shall comply with Section 211 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851), as amended, which prohibits discrimination against employees for engaging in certain protected activities. The Secretary of Labor has determined that "discrimination" means discharge or any other adverse actions that relate to compensation, terms, conditions, and privileges of employment; the term "protected activities" includes, among other things, employees raising nuclear safety or quality controls complaints either internally to their employer or to the NRC. Contractor shall aggressively pursue any employee allegation of discrimination and shall fully investigate such allegations. Contractor shall notify the TVA Concerns Resolution Staff Site Representative of such allegation or complaint in writing, together with a copy of any complaint. Contractor shall provide TVA any investigative reports that it may prepare and shall also provide to TVA a full written description of any management action taken in response to any such allegation or complaint. In circumstances where any such allegation or complaint also charges TVA employees with involvement in any discriminatory activities, contractor shall cooperate fully with TVA counsel in its representation.

(b) Contractor shall ensure that no agreement affecting compensation, terms, conditions, and privileges of employment, including, but not limited to, any agreement to settle a complaint filed by an employee or former employee of the Contractor with the Department of Labor pursuant to Section 211 of the Energy Reorganization Act of 1974, as amended, may contain any provision which would prohibit, restrict, or otherwise discourage an employee or former employee from participating in any protected activity as described in the "Employee Protection" regulations of NRC, 10 CFR 50.7, including, but not limited to, providing information to NRC on potential violations of the NRC's regulations or other matters within NRC's regulatory responsibilities.

(c) Any breach of this provision shall be a material breach of the contract. In the event NRC imposes a civil penalty against TVA as a result of a breach of this provision, such a civil penalty is considered by the parties to be direct and not special or consequential damages.

(d) Contractor agrees to place this provision, along with the flow-down requirement of this sentence, in all subcontracts of any tier entered into pursuant to this contract.

(End of clause)

§ 1316.9 Nuclear energy hazards and nuclear incidents.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Nuclear Energy Hazards and Nuclear Incidents

(Applicable only to contracts for goods or services delivered to nuclear plants.)

(a) Prior to, or at the time of shipment of the first nuclear fuel to the TVA nuclear facility, TVA will furnish nuclear liability protection in accordance with Section 170 of the Atomic Energy Act (42 U.S.C. 2210) and applicable regulations of the Nuclear Regulatory Commission. Should this system of protection be repealed or changed, TVA would undertake to maintain in effect during the period of operation of the plant, to the extent available on reasonable terms, liability protection which would not result in a material impairment of the protection afforded to Contractor and its suppliers under existing system.

(b) TVA waives any claim it might have against Contractor or its subcontractors because of damage to, loss of, or loss of use of any property at the site of the TVA nuclear facility resulting from nuclear energy hazards or nuclear incidents. This provision shall not affect Contractor's obligation under the "Warranty" provision of this contract.

(c) TVA will indemnify Contractor and its subcontractors and save them harmless from any claims, losses, or liability arising as a result of damage to, loss of, or loss of use of any property at the site of the TVA nuclear facility resulting from nuclear energy hazards or nuclear incidents. In return for this indemnification, Contractor waives any claim it might have against any third party because of damage to, loss of, or loss of use of its property at the site of the TVA nuclear facility resulting from nuclear energy hazards or nuclear incidents.

(d) The foregoing waiver and indemnification provisions will apply to the full extent permitted by law and regardless of fault. The subcontractors referred to above include any of Contractor's suppliers of material, equipment, or services for the work, regardless of tier.

(e) For purposes of these provisions, the following definitions shall apply: Nuclear energy hazards shall mean the hazardous properties of nuclear material. Hazardous properties shall include radioactive, toxic, or explosive properties of nuclear material. Nuclear material shall include source material, special nuclear material or by-product material as those are defined in the Atomic Energy Act (42 U.S.C. 2014). Nuclear incident shall have the meaning given that term in the Atomic Energy Act (42 U.S.C. 2014(q)).

(End of clause)

§ 1316.10 Officials not to benefit.

When so indicated in TVA contract documents or actions, the following clause is included by reference in such documents or actions:

Officials Not To Benefit

No member of or delegate to Congress or Resident Commissioner, or any officer, employee, special Government employee, or agent of TVA shall be admitted to any share or part of this agreement or to any benefit that may arise therefrom unless it be made with a corporation for its general benefit; nor shall Contractor offer or give, directly or indirectly, to any officer, employee, special Government employee, or agent of TVA, any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value, except as provided in 5 CFR part 2635. Breach of this clause shall constitute a material breach of this contract, and TVA shall have the right to exercise all remedies provided in this contract or at law.

(End of clause)

Dated: April 8, 1993.

Victor H. King,

Vice President, Purchasing.

[FR Doc. 93-10025 Filed 4-28-93; 8:45 am]

BILLING CODE 8120-01-M

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Parts 101 and 122

[T.D. 93-32]

Customs Service Field Organization Vicksburg, MS

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations governing the Customs Field organization by changing the boundaries of the Port of Vicksburg, Mississippi, which lies within the South Central Region. The current port boundaries are being expanded to encompass the user fee airport at Jackson, Mississippi and the neighboring counties of Hinds, Rankin and Madison. This change is being made to reflect the changing nature of the international trade in the area from the river to the airport. By expanding the port limits, Customs will move into the center of the trade area. Through this change, the public and importers will be better served and Customs personnel and resources will be more efficiently utilized.

EFFECTIVE DATE: June 28, 1993.

FOR FURTHER INFORMATION CONTACT: Bob Jones, Office of Workforce Effectiveness and Development, Office of Inspection and Control, U.S. Customs Service, (202) 927-0456.

SUPPLEMENTARY INFORMATION:

Background

As part of its continuing program to obtain more efficient use of its personnel, facilities and resources, and to provide better service to carriers, importers and the public, Customs is amending § 101.3, Customs Regulations (19 CFR 101.3), to expand the boundaries of the port of Vicksburg, Mississippi, in the South Central Region. The expansion of the port will add the counties of Hinds, Rankin and Madison, in Mississippi to the existing limits which are Warren County in Mississippi and Madison Parish in Louisiana.

The present port of Vicksburg generates little Customs activity. However, the volume of international traffic at the user fee airport at Jackson, Mississippi, which was established in 1989, has become increasingly significant. The facts clearly indicate that the customs activity in the area is not occurring within Vicksburg's present port limits, but rather at the airport and in the neighboring counties which are served by the airport. Accordingly, Customs has determined that the port limits should be expanded to include the three neighboring counties and Jackson International Airport. By including the Jackson International Airport within the limits of the port of entry, Customs will convert the airport's status from a user fee airport to a landing rights airport. It is not anticipated that this change will have any adverse financial impact on either the agency or the community.

Comments

Customs published a Notice of Proposed Rulemaking in the **Federal Register** on June 16, 1992 (57 FR 26805) which invited the public to comment on this change to the port limits. No comments were received in response to that invitation. Accordingly, the amendment is being published in final as it was proposed. Because the amendment incorporates the Jackson Municipal Airport within the boundaries of the port of entry, it will cease to be a user fee airport. Accordingly, part 122 of the regulations is also being amended to remove the Jackson Municipal Airport from the list of user fee airports.

The revised port limits are as follows:

The geographic limits of the port of entry of Vicksburg, Mississippi, comprise all of the territory within Madison Parish, Louisiana, and Warren, Hinds, Rankin and Madison counties, Mississippi.

Regulatory Flexibility Act

This document is not subject to the notice and public procedure requirements of 5 U.S.C. 553 because it relates to agency management and organization. Accordingly, this document is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Executive Order 12291

Because this document relates to agency organization and management, it is not subject to E.O. 12291.

Drafting Information

The principal author of this document was Peter T. Lynch, Regulations Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects

19 CFR Part 101

Customs duties and inspection, Exports, Imports, Organization and function (Government agencies).

19 CFR Part 122

Airports, Aircraft, Customs duties and inspection, Imports, Drug traffic control, Security measures.

Amendments to the Regulations

Accordingly, Parts 101 and 122 of the Customs Regulations (19 CFR Parts 101 and 122) are amended as set forth below:

PART 101—GENERAL PROVISIONS

1. The authority citation for part 101 continues to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 2, 66, 1202 (General Note 8, Harmonized Tariff Schedule of the United States), 1623, 1624, unless otherwise noted.

§ 101.3 [Amended]

2. The list of Customs regions, districts and ports of entry in § 101.3(b) is amended in the following manner:

In the South Central Region under the column headed "ports of entry" in the entry for "Vicksburg, Miss." remove "T.D. 84-126" and insert "T.D. 93-32".

PART 122—AIR COMMERCE REGULATIONS

1. The authority citation for part 122 continues to read as follows:

Authority: 5 U.S.C. 301; 19 U.S.C. 58b, 66, 1433, 1436, 1459, 1590, 1594, 1624, 1644; 49 U.S.C. App. 1509.

§ 122.15 [Amended]

2. Section 122.15 is amended by removing from the list of user fee airports in paragraph (b) the words "Jackson, Mississippi" and "Jackson Municipal Airport".

Approved: April 8, 1993.

Michael H. Lane,

Deputy Acting Commissioner of Customs

John P. Simpson,

Assistant Secretary of the Treasury.

BILLING CODE 4820-02-M

by the FHWA are incorporated by

VOL 58 ISS 81 AP 29 1993 UMI

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1308

Schedules of Controlled Substances; Extension of Temporary Placement of Methcathinone into Schedule I

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Final rule.

SUMMARY: This final rule is issued by the Administrator of the Drug Enforcement Administration (DEA) to extend the temporary scheduling of methcathinone in Schedule I of the Controlled Substances Act (CSA) (21 U.S.C. 801 *et seq.*). The temporary scheduling of methcathinone is due to expire on May 1, 1993. This notice will extend the temporary scheduling of methcathinone for six months or until rulemaking proceedings pursuant to 21 U.S.C. 811(a) are completed, whichever occurs first.

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Howard McClain, Jr., Chief, Drug and Chemical Evaluation Section, Drug Enforcement Administration, Washington, DC 20537, Telephone: (202) 307–7183.

SUPPLEMENTARY INFORMATION: On May 1, 1992, the Administrator of the DEA published a final rule in the **Federal Register** (57 FR 18824) amending § 1308.11(g) of title 21 of the Code of Federal Regulations to temporarily place methcathinone into Schedule I of the CSA pursuant to the temporary scheduling provisions of 21 U.S.C. 811(h). This final rule, which became effective on the date of publication, was based on findings by the Administrator that the temporary scheduling of methcathinone was necessary to avoid an imminent hazard to the public safety. Section 201(h)(2) of the CSA (21 U.S.C. 811(h)(2)) requires that the temporary scheduling of a substance expires at the end of one year from the effective date of the order. However, during the pendency of proceedings under 21 U.S.C. 811(a)(1) with respect to the substance, temporary scheduling of that substance may be extended for up to six months. Proceedings for the scheduling of a substance under 21 U.S.C. 811(a) may be initiated by the Attorney General (delegated to the Administrator of the DEA pursuant to 28 CFR 0.100) on his own motion, at the request of the Secretary of Health and Human Services, or on the petition of any interested party. Such proceedings regarding methcathinone have been initiated by the Administrator.

Therefore, the temporary scheduling of methcathinone, which is due to expire on May 1, 1993, may be extended until November 1, 1993, or until proceedings initiated in accordance with 21 U.S.C. 811(a) are completed, whichever occurs first.

Pursuant to 21 U.S.C. 811(h)(2) the Administrator hereby orders that the temporary scheduling of methcathinone be extended until November 1, 1993, or until the conclusion of scheduling proceedings initiated in accordance with 21 U.S.C. 811(a), whichever occurs first. The Administrator of the DEA hereby certifies that extension of the temporary placement of methcathinone into Schedule I of the CSA will have no significant impact upon entities whose interests must be considered under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* This action involves the extension of temporary control of a substance with no currently approved medical use or manufacture in the United States.

This final rule is not a major rule for the purposes of Executive Order 12291 (46 FR 13193) of February 17, 1981. It has been determined that drug scheduling matters are not subject to review by the Office of Management and Budget (OMB) pursuant to the provisions of Executive Order 12291. Accordingly, this extension of temporary scheduling is not subject to the provisions of Executive Order 12778 which are contingent upon review by OMB.

This action has been analyzed in accordance with the principles and criteria in Executive Order 12612, and it has been determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

List of Subjects in 21 CFR Part 1308

Administrative practice and procedure, Drug traffic control, Narcotics, Prescription drugs.

Dated: April 22, 1993.

Robert C. Bonner,

Administrator of Drug Enforcement.

BILLING CODE 4410-09-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

23 CFR Part 625

[FHWA Docket No. 89-16, Notice No. 3]

RIN 2125-AC34

Design Standards for Highways; Interstate System

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Final rule.

SUMMARY: This document amends the design standards which apply to Interstate highway projects. A revised publication of the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Design Standards—Interstate System" is being adopted by the FHWA and will constitute the FHWA's policy on geometric design for all projects on the Interstate highway system.

Prior to the completion of this rulemaking process, the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 was passed. That act retains without changes the existing statutory provisions for geometric and construction standards for the Interstate system. In addition, it provides that, similar to the previous statutory provision, the Secretary of Transportation, in cooperation with the States, shall establish design and construction standards for projects on the National Highway System (NHS). As defined in the 1991 ISTEA, the interim NHS consists of the Interstate system and other principal arterials.

The FHWA has reviewed this rulemaking in view of the new provisions and has concluded that, because the changes in the Federal-aid highway system definitions do not effect the Interstate system and the existing statutory authority for standards is not changed, there is no effect on this rulemaking.

EFFECTIVE DATE: The final rule is effective June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. Seppo I. Sillan, Geometric and Roadside Design Branch, Federal-aid and Design Division, Office of Engineering (202) 366–1327 or Vivian Philbin, Office of Chief Counsel (202) 366–0780, Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m., e.t., Monday through Friday, except legal Federal holidays.

SUPPLEMENTARY INFORMATION: The standards, policies and standard specifications that have been approved by the FHWA are incorporated by reference in 23 CFR 625.4. Those provisions that apply to roadway geometric design and are the subject of this rulemaking are listed in 23 CFR 625.4(a).

The AASHTO is an organization which represents the 50 State highway and transportation agencies as well as the District of Columbia and Puerto Rico. Its members consist of the duly constituted heads and other chief directing officials of those 52 agencies. The Secretary of the United States Department of Transportation (DOT) is an ex-officio member.

Among other functions, the AASHTO develops and issues standards, specifications, policies, guides, and related materials for use by the States on highway projects in the nation. Due to the AASHTO's recognized expertise and representation of all State highway and transportation agencies, the FHWA has assisted AASHTO over the years in the development of design standards pursuant to the provisions of Federal law (title 23, U.S.C.) which direct the FHWA to consult and cooperate with the States in that regard. Many of the standards, policies, and guides approved by the FHWA and incorporated in 23 CFR part 625 were developed and issued by the AASHTO. Revisions made to such documents by the AASHTO are independently reviewed and adopted by the FHWA through the rulemaking process before they are applied to Federal-aid projects.

Background

On July 18, 1989, the FHWA published a notice of proposed rulemaking (NPRM) at 54 FR 30095 requesting comments on the proposal to include the new AASHTO publication "A Policy on Design Standards—Interstate System," 1991 in 23 CFR 625.4(a). The NPRM proposed the substitution of a revised publication entitled "A Policy on Design Standards—Interstate System" (hereafter referred to as the "Standards") for a previous version last revised June 20, 1967. As stated in the NPRM, the primary reasons for development of the revised standards are to establish up-to-date standards for design of highways on the Interstate System and to update the previous standards to incorporate the latest design criteria. A more detailed discussion of the changes in the Standards is included in the NPRM of July 18, 1990.

The FHWA extended the original 60-day comment period by 60 days (54 FR 38388, September 18, 1989) from September 18, 1989, to November 17, 1989, in order to provide interested parties additional time to respond to the NPRM. The July 18 notice also announced procedures that would be followed leading to publication of this final rule. These procedures involved four steps:

1. The FHWA through this notice is proposing to approve the Standards for use on Federal-aid Interstate projects. Comments on the design criteria contained in the document are requested.
2. The FHWA will analyze all comments. Based on that analysis and its own independent review, the FHWA will furnish AASHTO with those modifications that may be required to make the Standards acceptable for use on Federal-aid Interstate projects.
3. If AASHTO makes the necessary modifications or if no modifications are required, the FHWA will adopt the Standards for use on Federal-aid projects on the Interstate System and incorporate it by reference into 23 CFR part 625.
4. If there are any unresolved differences, the FHWA will issue a final rule conditionally adopting the document for Federal-aid Interstate projects by incorporating it in 23 CFR part 625 and officially indicating the extent of material not acceptable to FHWA and, if necessary, alternative criteria would be listed for Federal-aid Interstate projects.

In accordance with these procedures, the AASHTO was furnished copies of comments received to the docket. Based on those comments, concerns expressed by the FHWA, and its own further review of the Standards, the AASHTO revised the 1988 Standards. These revised Standards were published in 1991 by AASHTO. The 1991 Standards include revisions to the 1988 Standards which address comments received to the FHWA docket. The FHWA has decided to adopt the 1991 Standards as now presented because the FHWA believes the 1991 Standards adequately address the comments received and incorporate changes consistent with the FHWA's concerns about the 1988 Standards. The revisions to the 1988 Standards will be discussed later in this final rule.

Discussion of Comments on the 1988 Standards

A number of comments indicated confusion as to how the standards were to be interpreted to resolve discrepancies between these standards and the geometric standards published in "A Policy on the Geometric Design of Highways and Streets" (GDHS) AASHTO 1984. The 1984 GDHS has also been revised and the FHWA is in the rulemaking process of adopting the 1990 version. Also, the AASHTO has revised the 1988 Standards to remove any discrepancies between the 1990 GDHS and the 1991 Standards. Other comments which would have required expanding the document beyond its intended purpose will not be discussed individually herein.

Nine commenters responded to the NPRM issued on July 18, 1989. Comments were received from the following: Four State transportation agencies, one local government agency, one manufacturer, one consultant, one public interest group and one individual. All the comments expressed disagreement with at least a portion of the Standards but only one suggested total rejection.

Five of the comments were of a general nature.

Comment: The Standards do not provide sufficient specific values and criteria.

Response: These Standards are not intended to be a "stand alone" document but only contain and highlight the major features for the Interstate System. For detailed design information, other publications, such as the GDHS are referenced.

Comment: The GDHS should be cross-referenced more often throughout the publication.

Response: While the GDHS could be referenced more, it is cited sufficiently so that a reader knows to seek information from that publication for additional specific details.

Comment: The need for this publication is questioned.

Response: The Interstate System is a national system of limited access highways intended to connect the major urban areas of the United States. It is a system of highways designed to provide for a consistently high level of service and safety. In order to accomplish this and to comply with 23 U.S.C. 109(b), a separate set of standards is needed.

Comment: The standards should be advisory rather than mandatory.

Response: In order to achieve uniformity in certain design features, it is necessary that mandatory standards be provided for the Interstate System. Otherwise, the design would not be uniform nationwide and a consistently high level of service and safety may not be achieved.

Comment: Safety is not stressed sufficiently.

Response: Considering the limited purpose of this document, as previously indicated, it is felt that safety is sufficiently emphasized. For example on page 3 the Policy indicates: "Each

VOL 58 ISS 81 AP 29 1993 UMI

section of Interstate highway shall be designed to serve safely and efficiently the volumes of vehicles, buses, trucks, including tractor-trailer and semitrailer combinations and corresponding military equipment estimated for the design year." On page 1 it is emphasized that values approaching minimum should only be used under unusual specified conditions. On page 2 full control of access is required on the entire system. On page 5 it is indicated that a clear recovery area beyond the shoulder should be provided free of fixed objects, or if there are objects that cannot be moved they should be breakaway or be appropriately shielded. There are many other examples that could be cited indicating that safety is a primary concern of the Standards.

There were four specific comments on the "General" section.

Comment: Interstate highways should provide for "predicted" or "expected" traffic rather than "possible" growth in traffic.

Response: The commenter's words better describe how Interstate highways are designed. The 1991 Standards are changed to "predicted growth in traffic" as recommended.

Comment: The sentence "The standards for horizontal alignment, vertical alignment and cross-sectional elements for resurfacing, restoration and rehabilitation (RRR) projects may be the AASHTO Interstate standards that were in effect at the time of the original construction" should be omitted. The FHWA cannot approve the use of obsolete Interstate Standards for RRR work.

Response: The purpose of this provision in the section titled "General" is to eliminate needless paperwork associated with design exceptions required because of relatively minor changes in standards over the years. For example, slightly longer vertical curves are required to meet changes in the way stopping sight distance is determined. To lengthen the vertical curves would require removing existing pavement for the length of the vertical curve just to lower the surface of the highway anywhere from a few feet to several inches. This would not be cost-effective and if the State requested an exception to the Standards because of the above circumstance it would likely be granted. The standards for cross-section dimensions, vertical and horizontal alignment have not changed significantly over the years. Therefore, the FHWA does not agree that the provision be eliminated. However, the term "cross-sectional elements" is changed in the 1991 Standards to specify the "widths of median, traveled way, and shoulders" only. This change was made at least in part because of the FHWA's concern that there could be RRR projects that do not meet current roadside safety requirements. The revision satisfies the FHWA's concern. Also, "or inclusion into the Interstate System" is added to clarify how existing Interstate highways that were incorporated into the system are to be treated.

Comment: There should be a requirement that minimum values shall not be used in combination.

Response: The present wording discouraging the use of minimum values is adequate to protect design and safety of the system.

There were a number of comments on the section on "Design Traffic."

Comment: Interstate highways should be built "at least 20 years beyond that which the plans, specifications and estimate for construction of the section are approved."

Response: The 1991 Standards are revised accordingly.

Comment: The sentence "In those extraordinary instances where environmental and/or political decisions intervene, the design year and resulting traffic will be consistent with that decision" should not be included. Because any new or major reconstructed Interstate highway will have major environmental and or political involvement, this statement allows almost any design year. Furthermore, every effort should be made to use a design year of 20 years and if extraordinary conditions occur a design exception should be processed. The previous sentence has already introduced flexibility and this sentence only encourages "abusive exceptions to the 20-year rule."

Response: This sentence reflects present practice and recognition of common constraints. There are reasons why a sufficient number of lanes cannot be provided in all cases to serve traffic predicted for 20 years in the future.

Comment: Design should be for the 10th highest hourly volume of the design year rather than the 30th highest hour.

Response: The use of the 30th highest hour is in keeping with current practice and in most cases it would not be practical to use the 10th highest hourly volume. Such change would require designing for a much higher volume, almost the highest occurring volume, which might occur during a year. The reason that some highways become congested soon after they are opened is not because they were designed on the basis of the 30th highest hourly volume, but because traffic growth is greater than expected or for some reason the number of lanes that could be provided was less than the design volume would indicate.

There were 12 comments on the section on right-of-way.

Comment: The first paragraph should be omitted or it should be recognized that right-of-way should be sufficient for a facility designed for a future year. Another similar comment was that the right-of-way should be sufficient to accommodate the expected growth in traffic.

Response: The FHWA has determined that the paragraph should be retained. However, the words "in the design year and for known future improvements" are added in the 1991 Standards. This indicates that sufficient right-of-way should be obtained for future highway needs.

Comment: Guidance should be provided on acceptable and optimal designs for control-of-access where frontage roads interface with Interstate facilities.

Response: This guidance is beyond the scope of this publication and the GDHS should be referred to for guidance on this subject.

Comments: There were four comments on the extension of control-of-access beyond the ramp terminal: (1) The control-of-access should be extended 800 feet in urban areas and 1200 feet in rural areas; (2) The control-of-access should be extended 300 feet in urban areas and 600 feet in rural areas; (3) The lengths specified should be reduced in the case of major reconstruction projects; and (4) separate guidance should be provided for the case where there are auxiliary lanes along the crossroad.

Response: Over the years the lengths of 100 feet and 300 feet have proven to be reasonable and practical distances and should continue to be required for both new and major reconstruction projects. Providing separate guidance for the case where there are auxiliary lanes along the crossroad is beyond the scope of this publication.

Comment: There are 100 to 200 permitted legal at-grade access points (locked gates) in Arizona. Concern was expressed that their elimination would cause a serious problem because alternative, much more expensive means of access would have to be provided.

Response: The control-of-access section of the Standards does not apply to existing locked-gate access points. New locked gate access points would be permitted by obtaining approval of a new point-of-access.

Comment: The last paragraph in this control-of-access section should be clarified to better state how at-grade intersections of driveways are to be eliminated.

Response: This is mainly an editorial comment. However, to clarify the intent, the second sentence in the 1991 Standards has been revised to read as follows: "At-grade intersections shall not be allowed."

There were 8 individual comments on the section on "Geometric Controls and Criteria."

Comment: A sentence should be added indicating that the design speed of a new or reconstructed highway shall exceed the posted speed limit.

Response: This is unnecessary since the design speed does not necessarily have to exceed the posted speed, although the design speed will invariably exceed the posted speed on Interstate highways.

Comment: The phrase "And depending on the nature of the terrain and development" should be eliminated from the first sentence of the first paragraph.

Response: This is mainly an editorial comment. This paragraph is completely revised in the 1991 Standards to clarify its meaning as follows: "A design speed of 70 miles per hour should be used in rural areas. Where terrain is mountainous, a design speed of 60 miles per hour or 50 miles per hour which is consistent with design expectancy, may be used. A design speed of 60 miles per hour is acceptable in rolling terrain. In urban areas the design speed shall be at least 50 miles per hour."

Comment: There is no provision for 60 mph for rolling terrain in the GDHS. Highways in other than mountainous terrain should have a minimum 70 mph design speed.

Response: Since this provision will not effect highway design to any great extent as almost all highways in nonurban areas are designed for 70 mph in rolling terrain, it is accepted.

Comment: There is a discrepancy between the maximum possible grade allowed in the Standards and the GDHS. Six percent is the maximum permitted in the GDHS while 7 percent could be permitted by these Standards.

Response: The gradients permitted in the 1991 Standards are revised to agree with those in the GDHS.

Comment: "Shall" should be substituted for "should" regarding the use of the upper range of values for stopping sight distance established in the current edition of AASHTO's GDHS.

Response: The FHWA concurs that the upper range of values for stopping sight distance should be used in almost all cases for the Interstate System. However, it is felt the wording in the standards will accomplish this and there is no need to require a change in the existing wording.

Comment: It was suggested that the curvature, superelevation and allied features "shall" be correlated with the design speed in accordance with the GDHS rather than "should" be correlated.

Response: The FHWA was also concerned with this wording and the Standards have been revised as suggested by this comment.

The section on "Cross Section Elements" received approximately 30 comments. The majority of the comments were editorial and are not discussed in this rulemaking.

Comment: The actual level-of-service should be provided or the reference should be to the "Highway Capacity Manual" (HCM) (23 CFR 625.5(a)(6)) rather than the GDHS.

Response: The new revised GDHS (which the FHWA is in the rulemaking process of adopting) incorporates material from the HCM to include specific level-of-service criteria and does not need to be repeated in this publication.

Comment: Left shoulders on four lane highways should have a paved width of 10 feet rather than 4 feet.

Response: On four lane highways 4-foot left shoulders have proved to be adequate and it would not be economically justified to require 10 feet.

Comment: Shoulder width should not be reduced in mountainous terrain.

Response: In mountainous terrain traffic volumes may be low and because of terrain, the provision of full shoulders could add considerably to the cost. Therefore, the reduction in shoulder widths is considered justified in mountainous areas.

Comment: Minimum shoulder widths should be reduced in urban areas in order to allow for provision of additional traffic lanes.

Response: Because of greater traffic volumes, shoulders are needed more in urban areas. Any justified reduction in shoulder widths will be handled on an exception basis.

Comment: The maximum shoulder slope should be 4 percent rather than 6 percent.

Response: There are some cases where a 6 percent slope is necessary and desirable, particularly in areas subject to heavy rainfall. This slope should not create a hazard since vehicles entering or using the shoulder intentionally should be traveling at lower speeds.

Comment: The shoulder slope should be uniform for the entire shoulder width.

Response: There are situations where it may be desirable to provide slope which is not uniform over the entire shoulder width. These situations occur on the outside of superelevated curves. An expanded discussion of this is beyond the intended scope of this publication.

Comment: The maximum foreslopes should be a ratio of 6:1 rather than 4:1 and preferably be 10:1.

Response: The slopes indicated in the Standards agree with recommended minimum safety requirements in the "Roadside Design Guide," AASHTO, 1989, incorporated by reference at 23 CFR 625.5(a)(3).

Comment: The foreslope requirements are too restrictive.

Response: As indicated above, the slopes presented in the Standards agree with the recommended safety requirements in the "Roadside Design Guide."

Comment: The term "wherever feasible" should be omitted from the paragraph on "sideslopes."

Response: The term "wherever feasible" has been omitted from the 1991 Standards.

Comment: The minimum median width should be 8 feet rather than 10 feet in urban areas.

Response: The 10-foot minimum median width is necessary to accommodate the two 4-foot shoulders plus a barrier, if required.

Comment: All medians including those on highways in mountainous terrain and in urban areas should be at least 36 feet wide plus width for barriers.

Response: It would not be economically feasible in many cases in urban and mountainous areas to require a 36-foot wide median. A narrower median with an appropriately designed barrier is often appropriate.

Comment: Medians in rural areas should be at least 46 feet wide and medians in urban and mountainous areas should be at least 14 feet wide.

Response: While it generally is desirable to provide as wide a median as possible on freeways, for economic and environmental reasons it is not always feasible. The FHWA believes the minimum widths presented in the Standards are reasonable.

Comment: All medians between parallel bridges should be decked when the median is 30 feet wide or less. An analysis should be required for median openings between 46 to 30 feet to determine if they also should be decked

Response: A median width of 30 feet is considered appropriate for the possible decking of a median. The alternative is to provide a crashworthy

VOL 58 ISS 81 AP 29 1993 UMI

barrier next to the roadways in order to prevent vehicles from entering the opening between the structures. While this is not as desirable as covering the opening, it should not adversely affect safety. Decking the entire median for widths of medians greater than 30 feet generally would not be cost effective.

Comment: There should be a requirement for median barriers in all medians of 26 feet or less. Wider medians should be analyzed to determine if a barrier is required.

Response: The AASHTO "Roadside Design Guide" does not indicate a need for barriers in all medians 26 feet or less. There is no need for these Standards to go beyond this guidance.

Comment: A minimum 30 foot clear recovery area should be specified in all cases. Another comment was to provide at least a 20-foot clear recovery area.

Response: The "Roadside Design Guide" suggests different widths of recovery area depending on design speed, traffic volumes, side slopes, etc. Therefore, no standard minimum width should be specified.

Comment: Barrier curbs should not be allowed under any conditions.

Response: The 1991 Standards indicate that "barrier curbs shall not be used."

Comment: Barrier curbs should be permitted along existing facilities.

Response: The FHWA does not agree that this statement should be included in the Standards. They have been found to cause drivers to lose control of their vehicles and do not provide necessary redirection for out-of-control vehicles.

Comment: Mountable curbs should not be used in conjunction with traffic barriers or attenuators.

Response: The "Roadside Design Guide" indicates that curbs may not be desirable in front of traffic barriers, but does not prohibit them when used flush with or behind a barrier. This is included in the 1991 Standards.

Only one commenter provided comments on the section on "Interchanges."

Comment: (1) All movements should be provided at all interchanges; (2) The GDHS should be referenced regarding design of ramps; and (3) No direct access should be allowed to malls and residential developments.

Response: There is now an indication in the 1991 Standards that each interchange shall provide for all traffic movements. The GDHS is already referenced in the "General" section and does not need to be referenced again. In light of the first sentence of this section, there is no need to single out malls and residential areas as land uses that should not be provided direct access.

There were a number of comments on the section on "Bridges and other Structures."

Comment: There should be no reduction in width allowed for long bridges.

Response: While this would be possible, it usually is not economically desirable.

Comment: The offset to the parapet rail on long bridges should be 3 feet rather than 4 feet for new bridges.

Response: Three feet would be less than required in previous standards for new bridges and 4 feet is considered the minimum width that should be provided.

Comment: All tunnels should have a width of no less than the desirable width cited in the Standards and that all tunnels should have at least a 16-foot vertical clearance.

Response: The FHWA has determined that such a requirement is not always economically desirable and should not be required in the Standards.

In conclusion, the FHWA intends to adopt the 1991 Standards. The revisions to the 1988 Standards are now included in the 1991 Standards and make them acceptable to the FHWA for use in the design of highways on the Interstate System.

Rulemaking Analyses and Notices

Executive Order 12291 (Federal Regulation) and DOT Regulatory Policies and Procedures

The FHWA has determined that this action is not major within the meaning of Executive Order 12291 or significant within the meaning of Department of Transportation regulatory policies and procedures. It is anticipated that the economic impact of this rulemaking will be minimal; therefore, a full regulatory evaluation is not required. This determination is based on the fact that although the new Policy contains new material, the basic criteria remain essentially the same. For all practical purposes, the new Policy reflects the criteria which, for the most part, have been in use in designing Interstate highways for the last several years.

Regulatory Flexibility Act

In compliance with the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 605(b)), the FHWA has evaluated the effects of this rule on small entities. Based on the evaluation, the FHWA hereby certifies that this action will not have a significant economic impact on a substantial number of small entities.

Executive Order 12612 (Federalism Assessment)

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this action does not have sufficient federalism implications to warrant the preparation of a federalism assessment.

Executive Order 12372 (Intergovernmental Review)

Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.

Paperwork Reduction Act

This action does not contain a collection of information requirements for purposes of the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

National Environmental Policy Act

The agency has analyzed this action for the purpose of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) and has determined that this action would not have any effect on the quality of the environment.

Regulation Identification Number

A regulation identification number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN number contained in the heading of this document can be used to cross reference this action with the Unified Agenda.

List of Subjects in 23 CFR Part 625

Design standards, Grant programs—Transportation, Highways and roads, Incorporation by reference, Reporting and recordkeeping requirements.

Issued on: April 20, 1993.

E. Dean Carlson,

Executive Director.

In consideration of the foregoing, the FHWA is amending chapter I of Title 23, Code of Federal Regulations, part 625 as set forth below.

PART 625—DESIGN STANDARDS FOR HIGHWAYS

1. The authority citation for part 625 continues to read as follows:

Authority: 23 U.S.C. 109, 315 and 402; 49 CFR 1.48(b).

2. In § 625.4, paragraph (a)(2) is revised to read as follows:

§ 625.4 Standards, policies, and standard specifications.

• • • • • •

(a) • • •

(2) A Policy on Design Standards—Interstate System, AASHTO, 1991. [3]

• • • • • •

[FR Doc. 93–9930 Filed 4–28–93; 8:45 am]

BILLING CODE 4910–22–P

---

23 CFR Part 625

[FHWA Docket No. 90–13]

RIN 2125–AC22

Design Standards for Highways; Geometric Design Policy

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Final rule.

SUMMARY: This document amends the design standards which apply to construction and reconstruction of projects on the National Highway System (NHS). A revised publication of the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Geometric Design of Highways and Streets" is being adopted by the Federal Highway Administration (FHWA) and will constitute the FHWA's policy on geometric design as applicable to projects on the NHS.

The FHWA will issue implementing instructions outlining how certain criteria contained in the new Policy will be applied, as discussed above and later in this final rule.

Prior to the completion of this rulemaking process, the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 was passed. That act provides that, similar to the previous statutory provisions, the Secretary of Transportation, in cooperation with the States, shall establish design and construction standards for projects on the NHS. As defined in the 1991 ISTEA, the interim NHS consists of the Interstate system and other principal arterials.

The FHWA has reviewed this rulemaking in light of the new provisions and concluded that, because of the changes in the Federal-aid highway system definitions and the applicability of national design standards, the effect on this rulemaking is that the criteria contained in the functional chapter on collector roads and streets (Chapter 6 of the "A Policy on Geometric Design of Highways and Streets") are not applicable to projects on the NHS (but may be applied to non-NHS projects at the option of the State).

EFFECTIVE DATE: The final rule is effective June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. Seppo I. Sillan, Geometric and Roadside Design Branch, Federal-aid and Design Division, Office of Engineering (202) 366–1327, or Ms. Vivian Philbin, Office of Chief Counsel (202) 366–0780, Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except legal holidays.

SUPPLEMENTARY INFORMATION: The standards, specifications, policies, guides and references that have been approved by the FHWA for use on Federal-aid projects are incorporated by reference in 23 CFR part 625.

Those provisions that apply to roadway geometric design and are the subject of this rulemaking are listed in 23 CFR 625.4(a)(1).

AASHTO is an organization which represents the 50 State highway and transportation agencies as well as the District of Columbia and Puerto Rico. Its members consist of the duly constituted heads and other chief directing officials of those 52 agencies. The Secretary of the United States Department of Transportation (DOT) is an ex-officio member.

Among other functions, the AASHTO develops and issues standards, specifications, policies, guides, and related materials for use by the States on all highway projects in the nation. Due to the AASHTO's recognized expertise and representation of all State highway and transportation agencies, the FHWA has assisted AASHTO over the years in the development of design standards pursuant to the provisions of 23 U.S.C. 109. Many of the standards, policies, and guides approved by the FHWA and incorporated in 23 CFR part 625 were developed and issued by the AASHTO. Revisions made to such documents by the AASHTO are independently reviewed and adopted by the FHWA before they are applied to Federal-aid projects.

Background

On December 3, 1990, the FHWA published a notice of proposed rulemaking (NPRM) at 55 FR 49903 requesting comments on the use of the geometric design standards contained in "A Policy on Geometric Design of Highways and Streets, 1990." Specifically, that publication would be substituted for the previous version dated 1984. The primary reasons for development of the 1990 Policy were to update the previous publication and to incorporate the latest design criteria. A more detailed discussion of the changes in the Policy is included in the notice of proposed rulemaking.

Discussion of Comments

Thirteen commenters responded to the NPRM issued on December 3, 1990. Comments were received from eight State transportation agencies, one local government agency, two public interest groups, one consultant and one association.

The majority of 13 of the commenters expressed support for adoption of the Policy. Only two commenters expressed overall opposition. Eight of the commenters expressed concern or opposition to a particular issue as covered in the Policy including those who supported adoption of the Policy. For instance, one commenter supported adoption of the Policy, but had concerns with the minimum lengths of acceleration and deceleration lanes.

A discussion of the specific comments on the proposed rule follows. Unspecific comments, editorial comments, and comments providing general discussions of various transportation issues which were not specific to this rulemaking are not included in this discussion. Also, there were a number of comments on the local roads and streets criteria and the criteria for collector roads and streets. Local roads and streets were never eligible for Federal-aid funding and therefore it was not the intent of the rulemaking process to adopt standards for their construction or reconstruction. Furthermore, as indicated previously as a result of the ISTEA, criteria contained in the functional chapter on collector roads and streets are not applicable to projects on the NHS. Therefore, comments on criteria for highways classified as local roads and streets and collectors are not included in the following discussions. Finally, as was done with the comments on the 1984 Policy rulemaking, all comments including those pertaining to local roads and streets and collectors will be provided to the AASHTO Geometric Design Task Force for its consideration in preparing the next revision of the Policy.

Comment: "A Guide for Development of Bicycle Facilities" (Bike Guide) recently revised by AASHTO should be incorporated into this document (Policy) rather than be a separate publication, and FHWA should adopt the Bike Guide at the same time as this Policy.

Response: While the Policy does not contain all the information needed to

VOL 58 ISS 81 AP 29 1993 UMI

design a bicycle path or a separate bicycle facility, it does contain information on designing streets and highways to accommodate bicyclists. The FHWA believes that having two publications is more workable. It provides designers with a separate, easy to use publication with information for designing bicycle facilities. The FHWA will issue appropriate rulemaking as soon as possible to incorporate the new Bike Guide into 23 CFR part 625 as a publication to be used for the design of bicycle facilities constructed with Federal-aid highway funds and make an effort to adopt the Bike Guide near the same time as the 1990 Policy is adopted.

Comment: The Policy has no nationally-controlled interface between chosen driver characteristics and explicit design principles, and driver behavior assumptions used to justify design practices are unsupported.

Response: Based on careful review of the research publications on the subject, the assumptions pertaining to driver behavior are considered to be the best available at this time. There are a number of research studies underway in the area of driver behavior, particularly that of elderly drivers. Results from these studies should be available before the next revision of the Policy and will be considered in its development.

Comment: There were a number of comments pertaining to the lack of information on passenger car equivalents of longer trucks and work zone pedestrian considerations.

Response: The Policy is not intended to cover in detail this type of information, but only to provide a brief introduction and a reference. The Highway Capacity Manual (Transportation Research Board Report 209, 1985) deals with passenger car equivalents. If new information needs to be developed on passenger car equivalents, it should be done in the context of revising that particular technical manual and not the Policy. Other publications such as "Planning Design and Maintenance of Pedestrian Facilities," FHWA Publication Number FHWA IP–88–019, 1988, and the "Standards for Work Zone Traffic Control" (American Traffic Safety Services Association, 1988), cover operations through work zones.

Comment: The assumed driver reaction time is too short to accommodate elderly drivers.

Response: Present research indicates that the existing assumed reaction time will accommodate most elderly drivers. However, further research is underway and the results will be considered during future revision of the Policy.

Comment: The stopping sight distances are too short because they do not consider the elderly driver and are based on dry weather conditions.

Response: The friction factors used are based on wet weather conditions and, based on currently available information, reaction times do consider the elderly drivers.

Comment: The passing sight distances are too short for the passing of longer trucks.

Response: The Policy's passing sight distance values (almost ½ mile for a 70 mph design speed) are approaching the limit where drivers can judge distances.

Passing sight distance is an operational feature affecting capacity. No minimum required amounts of passing sight distance are prescribed in the Policy or in any of its predecessor documents.

Comment: The assumed eye height is too high at 3.5 feet.

Response: A National Cooperative Highway Research Program (NCHRP) project currently underway is investigating the procedures for determining various stopping sight distance requirements. The study includes the height of eye determination. Any necessary adjustments of the stopping sight distance model and the height of eye will be made when this research is completed.

Comment: There is no guidance for superelevation for curves on downgrades.

Response: The FHWA agrees that there needs to be some guidance in this area. In recognition of this, research is included on a list of needed research suggested by the AASHTO Task Force on Geometric Design. However, at this time there is no specific information available to develop definite criteria on when and what superelevation should be used with various grade and curvature combinations.

Comment: More up to date information should be provided for side friction.

Response: A recent study cited on page 152 of the Policy, "Side Friction for Superelevation on Horizontal Curves," FHWA Report Number FHWA RD–86–024, 1985, confirms the use of the current values.

Comment: The Policy should favor the use of spirals more than it does.

Response: The FHWA agrees that there are advantages to using spirals in many instances, and will continue to encourage their use. However, the FHWA has no basis for concluding that their use in lieu of circular curves is so critical as to require mandating that spirals be used.

Comment: Width of turning roadways should be sufficient to accommodate two WB–114 or WB–96 design vehicles.

Response: It is not practical or necessary to design all turning roadways to accommodate trucks of this size. To do so would result in two lane pavement widths up to and over 50 or 60 feet resulting in obvious operational and safety problems. Therefore, the design tables are a compromise to accommodate combinations of different types of vehicles, but not necessarily the largest ones at the same time.

Comment: A chart should be included for acceleration of trucks on grades.

Response: The FHWA agrees and this will be considered as an addition to a future issue of the Policy.

Comment: A number of commenters were opposed to the suggestion in the Policy that shoulder use by vehicles being passed may be permitted or that bicycles are not a consideration in deciding whether such use could or should be permitted.

Response: The Policy only refers to such use of shoulders in some States and the text includes many precautions. Although such use has been successful under some circumstances, the FHWA, nevertheless, will not endorse it as a national policy and will so state in its implementation memorandum.

Comment: Circular curves rather than parabolic vertical curves should be used for designing vertical curves because parabolic curves do not provide as much sight distance.

Response: The FHWA disagrees. Parabolic vertical curves, almost exclusively, have been used for vertical curve design. They provide essentially the same sight distance as circular vertical curves and are considerably easier to calculate.

Comment: There also were a number of other comments concerning the length of crest vertical curves and stopping sight distances.

Response: As indicated previously, an NCHRP study is just beginning to examine stopping sight distance and design of vertical curves. Therefore, FHWA believes any change in sight distance criteria and design of vertical curves should await the completion of this comprehensive study.

Comment: The section on utilities should cite the "Roadside Design Guide" and other related studies.

Response: The Policy cites two AASHTO publications dealing with utilities. The FHWA believes that the coverage of utilities is adequate. For more specific information, one should refer to the cited AASHTO publications: "A Policy on the Accommodation of Utilities Within Freeway Right-of-Way" and a "Guide for Accommodating Utilities Within Highway Right-of-Way."

Comment: The vertical clearance requirement should allow for a *minimum* of 6 inches for future resurfacing and not only "*up to* 6 inches."

Response: The FHWA agrees that in most cases it is desirable to provide at least a 6-inch allowance for future resurfacing. However, provision for additional clearance above and beyond the minimum required for possible future overlays has always been a recommendation. The only requirement is that the minimum vertical clearance (14 or 16 feet) is to be provided and maintained.

Comment: All corner sight distances are too short for trucks and a corner sight distance of 200 feet is too short for any vehicle.

Response: Intersection sight distance is to be studied as an NCHRP project. When the results from this study become available, they will be evaluated and considered in revising the Policy.

Comment: Minimum design speed of 40 mph is too low for arterial highways.

Response: Because of terrain and other constraints, a 40 mph minimum design speed may be the maximum that can be obtained. The 40 mph design speed has been added to provide geometric design criteria just for those instances. There are no Federal mandates for specific design speed on any project other than that the design speed has to be equal to or exceed the posted or regulatory speed limit.

Comment: The superelevation rates for rural arterials are set too low.

Response: The superelevation rates are consistent with those that have been used successfully for a considerable number of years. They are coordinated with the maximum allowed curvature and are the same as in the 1984 Policy. Snow and ice conditions as well as slow speed operation, especially by high centered vehicles, on steeply superelevated curves is a factor which is considered.

Comment: Full shoulders should be continued over bridges longer than 200 feet.

Response: Although the FHWA agrees that full shoulders on all bridges would be ideal, there may be a number of instances where traffic volumes are low or costs of providing them are such that full shoulders on some longer bridges might not be appropriate. The 1990 Policy continues the flexibility provided by all prior policies on geometric design.

Comment: Eight-foot shoulders are too narrow for arterials with design hour volumes (DHV's) over 200 because that width does not provide adequate off-the-travel-lane refuge for 102-inch wide trucks.

Response: The commenter correctly noted that 8-foot wide shoulders do not allow a 102-inch wide vehicle to use the shoulders without encroaching on the travel lane. However, the 8-foot wide shoulder is quite adequate for use by the predominant vehicles on the road, such as passenger cars, pickup trucks and vans. It is not reasonable to design all shoulders for the widest possible vehicle regardless of its relatively low frequency in the traffic stream. Therefore, the FHWA will accept the 8-foot shoulder dimension in question. This does not preclude the use of wider shoulders when and where appropriate.

Comment: Eleven-foot lanes should not be permitted on arterial highways used by large trucks.

Response: The most prevalent travelled way width specified for arterials is 24 feet. Twenty-two feet (11-foot lanes) are provided for only in the lower volume and speed combinations. Also, 11-foot lanes may be retained on reconstructed arterials only if the alignment and safety record is satisfactory. Since the types of highways on the Designated Network are typically required to have 12-foot lanes, use by large trucks is obviously a factor that is considered. The FHWA will emphasize that as well as the need for 12-foot lanes for roads on the Designated Network in its implementing instructions.

Comment: The minimum stopping sight distances for arterials are too short.

Response: As indicated previously, an NCHRP research project is investigating stopping sight distance criteria and any change should await the results of this project.

Comment: Auxiliary lane pavements on divided arterials should not have a cross slope of 3 percent.

Response: A permissible cross slope of 3 percent is consistent with the general criteria discussed in Chapter IV for multiple lane pavements and will provide the means to improve pavement drainage. Main line cross slope remains at 2 percent. Also, at only 1 percent, the cross slope rollover is well within accepted limits. The commenter noted that the FHWA failed to list this change from the 1984 Policy in its notice of proposed rulemaking. The commenter was correct in pointing out this unintentional oversight by the FHWA. There was no attempt by FHWA to list all changes and revisions, but only those that appeared to be of some significance or possible interest.

Comment: For urban arterials with barrier curbs at the edge of the shoulder, a 6-foot shoulder is not adequate for 102-inch wide trucks.

Response: The commenter is correct. However, as discussed above in regards to 8-foot shoulders on rural arterials, shoulder widths to accommodate the predominant vehicles is more appropriate than trying to always provide for a relatively infrequent situation. Nevertheless, a 6-foot shoulder, although adequate, is somewhat marginal under the above discussed conditions. Therefore, although the FHWA will accept 6-foot shoulders as a minimum, it will recommend in the implementing instructions that when shoulders with curbs are used on urban arterials, a preferred shoulder width is 8 feet. As indicated in the Policy, when no curbs are used, the rural shoulder criteria should be used.

Comment: The 1.5-foot recommended clearance for urban arterials from the curb face to obstructions is inadequate.

Response: While it is desirable to obtain a greater clearance where possible, and the Policy so indicates, often it is not possible on urban streets. As the commenter points out, 1.5 feet provides no better impact mitigation than a location directly at the edge of the curb. The reason for specifying the 1.5-foot offset is not to provide a "clear zone" in the context of clear roadside concept but to provide some lateral clearance for overhang of trucks and buses.

Comment: Several comments were made concerning intersection sight distance. One commenter indicated that it should not be assumed that the main line traffic will slow down when determining required intersection sight distance. Another commenter indicated that it should be assumed that the main line traffic will slow down to more than 85 percent of the design speed. Another commenter indicated there was not sufficient consideration given to trucks.

Response: As indicated previously, an NCHRP study will investigate intersection sight distance criteria. When the results of this study become available, the intersection sight distance criteria will be reevaluated to determine what, if any, changes to the Policy might be needed.

Comment: There were a number of comments concerning the section on "Railroad Grade Crossings." One commenter indicated that larger trucks are not considered sufficiently in determining needed sight distances. Another commenter indicated that the suggestions regarding horizontal and vertical alignments at railroad-highway intersections should be more positive and that the provision of active warning

VOL 58 ISS 81 AP 29 1993 UMI

devices should not be related to sight distance. Also, the surface of the roadway should be no lower than 3 inches below the railroad rather than the 6 inches suggested in the Policy. At the railroad highway intersection there should be an indication that highway intersections should not be near the railroad crossing or if there is a possibility of a backup onto the railroad, escape areas and interconnected highway signals should be provided as well as other signing.

Response: A 65-foot truck is sufficiently representative for most railroad-highway grade crossings. Longer trucks should be dealt with as special cases and necessary sight distances computed using the formulas in the Policy instead of the table values which are clearly identified as being for 65-foot vehicles only. The comments suggesting that statements regarding other nearby highway intersections and vertical and horizontal alignment relative to the railroad highway grade crossings should be more positive will be considered for the next revision of the Policy. The FHWA believes the current statements regarding use of active warning devices and sight distances are adequate in the Policy.

Comment: It is suggested that the language from the 1984 Policy which states that a curve with a radius of 1000 feet or more for a length of 200 feet should be provided in advance of the acceleration lane that is contiguous to the through lanes (i.e., in advance of a parallel type acceleration lane) should be continued in the 1990 Policy.

Response: The FHWA believes that this comment has merit and intends to consider it further. As stated above the comment will be shared with AASHTO for its continuing efforts to revise and improve the Policy on Geometric Design of Highways and Streets.

Comment: There were several comments expressing the opinion that the lengths of acceleration lanes have been made too short.

Response: The actual tabulated acceleration lengths are unchanged from previous criteria. Also unchanged is how the actual lengths available for acceleration are measured, i.e., how much of the approach to the merge can be used. Although, the 1984 Policy had a conflict between the recommendation made in the text and the dimensions shown in a drawing, it nevertheless provided for a minimum of 600 feet for combined length of full width acceleration lane and taper for parallel-type acceleration lanes. The 1990 Policy has the same minimum criteria. For the taper-type entrance, the 1990 Policy retains the 50:1 to 70:1 tapers of the 1984 Policy.

Comment: The selection of specific design speed number is inappropriately based on unquantifiable subjective factors, not on formulae based on verifiable scientific values.

Response: Design speed is a concept by which coordination of the various physical design elements is achieved. The selection of a design speed is subjective and depends, for example, on topography, land use, functional classification of the highway and expected speed limits. It is not a physical design feature or a concept that lends itself to precise scientific formulae. Judgment of present and future conditions and needs, not arbitrary guesswork as implied by the commenter, is expected and the Policy has considerable guidance for making such judgments.

Comment: Discussion of truck climbing speeds does not recognize grandfathered or permitted divisible loads of up to 134,000 pounds.

Response: The criteria for truck climbing lanes is based on the more typical vehicles in the traffic stream, not the relatively infrequent heavier vehicles. The data available at the time of this revision indicated that the weight to horsepower ratio of 300 lb/hp is a reasonable assumption for typical conditions.

Comment: Placement of curbs and dikes in front of barriers is not acceptable.

Response: The Policy does not advocate placement of curbs or dikes in front of barriers. Additionally, the FHWA currently recommends that if curbs must be used in conjunction with traffic barriers on high speed highways, they be no higher than 4 inches or be placed behind the barrier as suggested by the commenter. (FHWA "Guidelines for Application of the AASHTO Roadside Design Guide for Federal-aid Highway Projects," 1990.)

Comment: Figure IV–9 on bridge railings depicts, and implies acceptance of, a bridge railing and high curb combination known to be dangerous.

Response: The FHWA agrees. This figure was in the 1984 Policy but does not appear in the 1990 version. For all new and replacement roadside barrier installations on Federal-aid projects, including bridge rails, the FHWA already requires testing and evaluation in accordance with NCHRP Report 230, "Recommended Procedures for the Safety Performance Evaluation of Highway Appurtenances," 1981, and where curbs or sidewalks are involved, the testing is to be with the curb or sidewalk in place.

Comment: The recommendations for the tunnel cross section in the 1990 Policy conflict with the recommendations in the proposed AASHTO Interstate Design Policy. The commenter also indicated that the Interstate Policy should be altered to conform with the more desirable Policy recommendations.

Response: The FHWA has compared the cross-section criteria in each of the noted documents and finds them to be identical in their recommended cross-section dimensions and the expressed preference to use the desirable criteria instead of the minimum.

Comment: The 30th highest hour for design hourly volume is too low e design index.

Response: The commenter referred the FHWA to a previously submitted similar comment in response to another FHWA rulemaking docket which suggested that the 10th highest hourly volume of the design year be used. It would not be practical to do so. Such change would require designing for much higher volume, almost the highest occurring volume, which might occur during a year. The reason that some highways become congested soon after they are opened is not because they were designed on the basis of the 30th highest hourly volume, but because the traffic growth is greater than expected, or for some reason the number of lanes is restricted to less than the design volume would indicate.

Comment: The new Policy does not contain sufficient information in the intersection chapter for a vehicle larger than a WB–62 design vehicle.

Response: Although the minimum edge-of-pavement design tables do not have detailed layout information for trucks bigger than a WB–62, other sections of the Policy have more than adequate information on the turning paths of several larger sizes of trucks to allow designing for them when appropriate. Inclusion of such information in the intersections chapter can be considered in the next revision which is presently underway by AASHTO.

Rulemaking Analyses and Notices

Executive Order 12291 (Federal Regulation) and DOT Regulatory Policies and Procedures

The FHWA has determined that this action is not major within the meaning of Executive Order 12291 or significant within the meaning of Department of Transportation regulatory policies and procedures. It is anticipated that the economic impact of this rulemaking will be minimal; therefore, a full regulatory evaluation is not required. This determination is based on the fact that although the new Policy contains new material, the basic criteria remain essentially the same. For all practical purposes, the new Policy reflects the criteria which, for the most part, have been in use in designing Federal-aid highways for the last several years.

Regulatory Flexibility Act

In compliance with the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 605(b)), the FHWA has evaluated the effects of this rule on small entities. Based on the evaluation, the FHWA hereby certifies that this action will not have a significant economic impact on a substantial number of small entities.

Executive Order 12612 (Federalism Assessment)

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this action does not have sufficient federalism implications to warrant the preparation of a federalism assessment.

Executive Order 12372 (Intergovernmental Review)

Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.

Paperwork Reduction Act

This action does not contain collection of information requirements for purposes of the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

National Environmental Policy Act

The agency has analyzed this action for the purpose of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), and has determined that this action would not have any effect on the quality of the environment.

Regulation Identification Number

A regulation identification number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN number contained in the heading of this document can be used to cross reference this action with the Unified Agenda.

List of Subjects in 23 CFR Part 625

Design standards, Grant programs—Transportation, Highways and roads, Incorporation by reference.

Issued on: April 20, 1993.

E. Dean Carlson,

Executive Director.

In consideration of the foregoing, the FHWA is amending 23 CFR part 625 as follows:

PART 625—DESIGN STANDARDS FOR HIGHWAYS

1. The authority citation for part 625 continues to read as follows:

Authority: 23 U.S.C. 109, 315 and 402; 49 CFR 1.48(b).

2. In § 625.4, paragraph (a)(1) is revised to read as follows:

§ 625.4 Standards, policies, and standard specifications.

* * * * *

(a) *Roadway and appurtenances.* (1) A Policy on Geometric Design of Highways and Streets, AASHTO 1990. [3]

* * * * *

Appendix A to Part 625 [Amended]

3. Appendix A to part 625 is amended in paragraph 1 by removing the word "in" following "Register" and adding in its place the words ", 800 North Capitol Street, NW., suite 700,".

[FR Doc. 93–9932 Filed 4–28–93; 8:45 am]

BILLING CODE 4910–22–P

DEPARTMENT OF THE TREASURY

Fiscal Service

31 CFR Part 270

RIN 1510–AA31

Availability of Records

AGENCY: Financial Management Service, Fiscal Service, Treasury.

ACTION: Final rule.

SUMMARY: The Financial Management Service (FMS) is revising its regulations to provide more accurate information to the public concerning where to send requests for information and the fees that will be charged for services. This revision also includes editorial changes for clarity and address changes.

EFFECTIVE DATE: June 1, 1993.

FOR FURTHER INFORMATION: Rita Franklin, Manager, Programs Branch, Financial Management Service, 3700 East-West Highway, Hyattsville, Maryland 20782, (202) 874–8300.

SUPPLEMENTARY INFORMATION: The Department of the Treasury has statutory responsibilities, with respect to the general public, to implement uniformly and consistently the Freedom of Information Act (5 U.S.C. 552) and to provide maximum allowable disclosure of agency records upon request by any individual. To fulfill these responsibilities, FMS is clarifying its instructions for submitting requests for information and consolidating its fee schedule with the Department of Treasury regulations found at 31 CFR part 1 (52 FR 26302–01, July 14, 1987). The proposed rule also will clarify that some sections of the Treasury Financial Manual do not affect the public, and therefore, may not be made available.

In addition, claims for the redemption of mutilated currency of the United States now shall be submitted to the Bureau of Engraving and Printing pursuant to 31 CFR part 100 (47 FR 32044, July 23, 1982, as amended at 56 FR 10170, Mar. 11, 1991). The proposed rule was published in the **Federal Register** on September 9, 1992. No comments on the proposed rule were received. There are no substantive differences between the proposed rule and the final rule.

This rule is not a major rule for the purpose of Executive Order 12291 of February 17, 1981, and a regulatory impact analysis is not required. As explained above, this revision merely updates and clarifies existing practices. As required by the Regulatory Flexibility Act, it is hereby certified that this rule will not have a significant economic impact on a substantial number of small entities. Accordingly, a regulatory flexibility analysis is not required.

List of Subjects in 31 CFR Part 270

Freedom of information.

For the reasons set forth in the preamble, title 31 part 270 of the Code of Federal Regulations, is revised to read as set forth below:

PART 270—AVAILABILITY OF RECORDS

Sec.

270.1 Rules governing availability of information.
270.2 Materials available for inspection and copying.
270.3 Requests for identifiable records.
270.4 Fees for services.

Authority: 5 U.S.C. 552.

§ 270.1 Rules governing availability of information.

The records of the Financial Management Service required by 5 U.S.C. 552 to be made available to the

VOL 58 ISS 81 AP 29 1993 UMI

public shall be made available in accordance with the definitions, procedures and other provisions of the regulations on the Disclosure of Records of the Office of the Secretary and of other bureaus and offices of the Department issued under 5 U.S.C. 552 and published as part 1 of title 31 of the Code of Federal Regulations, except as provided in these regulations.

§ 270.2 Materials available for inspection and copying.

(a) *Materials available.* The materials in the Financial Management Service which are required by 5 U.S.C. 552(a)(2) to be made available for public inspection and copying are the following:

(1) Final opinions, as well as orders, made in the adjudication of cases. These will include final dispositions of claims on Government checks which are of a precedential nature. Generally, however, the Financial Management Service does not issue orders in the adjudication of cases.

(2) Statements of policy and interpretations which have been adopted by the Service and are not published in the **Federal Register**.

(3) Administrative staff manuals and instructions to staff that affect a member of the public. These materials include sections of the Treasury Financial Manual and such Department Circulars applicable to Financial Management Service operations, that have been determined by the agency to affect a member of the public, and have not been incorporated into that manual or published as parts of title 31 of the Code of Federal Regulations.

(4) Current indices for the foregoing materials.

(b) *Location.* The materials listed in paragraph (a) of this section issued on or after the effective date of these regulations are available for inspection and copying during office hours in the public reading room of the Treasury Department, 15th Street and Pennsylvania Avenue, NW., Washington, DC 20220. Materials issued prior thereto are available in the public reading room to the extent feasible. If not so available, they may be requested as identifiable records.

§ 270.3 Requests for identifiable records.

(a) *Procedure.* A written request for an identifiable record shall be addressed to: Freedom of Information Disclosure Officer, Financial Management Service, 401 14th Street, SW., Washington, DC 20227.

(b) *Determination of request.* Determination as to the disclosure of a record request shall be made, subject to appeal to the Commissioner of the Financial Management Service, by the head of the division in which the record belongs and by the Disclosure Officer of the agency. The decision of the Commissioner shall constitute final agency action, unless the Commissioner refers the appeal to the Fiscal Assistant Secretary, in which case the decision of the Fiscal Assistant Secretary shall constitute final agency action.

§ 270.4 Fees for services.

Fees for services performed by the Financial Management Service will be imposed and collected as set forth in part 1 of title 31 of the Code of Federal Regulations.

Michael T. Smokovich,

Acting Commissioner

[FR Doc. 93-10085 Filed 4-28-93; 8:45 am]

BILLING CODE 4810-35-M

DEPARTMENT OF DEFENSE

Department of the Navy

32 CFR Part 706

Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972; Amendment

AGENCY: Department of the Navy, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Navy is amending its certifications and exemptions under the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), to reflect a determination by the Judge Advocate General of the Navy that USS RHODE ISLAND (SSBN 740), USS MAINE (SSBN 741), USS WYOMING (SSBN 742), and USS LOUISIANA (SSBN 743) are vessels of the Navy which, due to their special construction and purpose, cannot comply fully with certain provisions of the 72 COLREGS without interfering with their special function as naval submarines. The intended effect of this rule is to warn mariners in waters where 72 COLREGS apply.

EFFECTIVE DATE: April 14, 1993.

FOR FURTHER INFORMATION CONTACT: Captain R.R. Rossi, JAGC, U.S. Navy, Admiralty Counsel, Office of the Judge Advocate General, Navy Department, 200 Stovall Street, Alexandria, VA 22332-2400. Telephone number: (703) 325-9744.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in 33 U.S.C. 1605, the Department of the Navy amends 32 CFR part 706. This amendment provides notice that the Judge Advocate General of the Navy, under authority delegated by the Secretary of the Navy, has certified that USS RHODE ISLAND (SSBN 740), USS MAINE (SSBN 741), USS WYOMING (742), and USS LOUISIANA (SSBN 743) are vessels of the Navy which, due to their special construction and purpose, cannot comply fully with 72 COLREGS: Rule 21(c) pertaining to the location and arc of visibility of the sternlight; Annex 1, section 2(a)(i), pertaining to the height of masthead light; Annex I, section 2(k), pertaining to the height and relative positions of the anchor lights; and Annex I, section 3(b), pertaining to the location of the sidelights. Full compliance with the above-mentioned 72 COLREGS provisions would interfere with the special functions and purposes of the vessels. The Judge Advocate General of the Navy has also certified that the above-mentioned lights are located in closest possible compliance with the applicable 72 COLREGS requirements.

Notice is also provided to the effect that USS RHODE ISLAND (SSBN 740), USS MAINE (SSBN 741), USS WYOMING (SSBN 742), and USS LOUISIANA (SSBN 743) are members of the SSBN 726 class of vessels for which certain exemptions, pursuant to 72 COLREGS, Rule 38, have been previously authorized by the Secretary of the Navy. The exemptions pertaining to that class, found in the existing tables of section 706.3, are equally applicable to USS RHODE ISLAND (SSBN 740), USS MAINE (SSBN 741), USS WYOMING (SSBN 742), and USS LOUISIANA (SSBN 743).

Moreover, it has been determined, in accordance with 32 CFR parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary, and contrary to public interest since it is based on technical findings that the placement of lights on these vessels in a manner differently from that prescribed herein will adversely affect the vessels' ability to perform their military functions.

List of Subjects in 32 CFR Part 706

Marine Safety, Navigation (Water), and Vessels.

PART 706—[AMENDED]

Accordingly, 32 CFR part 706 is amended as follows:

1. The authority citation for 32 CFR part 706 continues to read:

Authority: 33 U.S.C. 1605.

§ 706.2 [Amended]

2. Table One of § 706.2 is amended by adding the following vessels:

Vessels	No.	Distance in meters of forward masthead light below minimum required height, § 2(a)(i)
USS Rhode Island	SSBN 740	3.70
USS Maine	SSBN 741	3.70
USS Wyoming	SSBN 742	3.70
USS Louisiana	SSBN 743	3.70

§ 706.2 [Amended]

3. Table Three of § 706.2 is amended by adding the following vessels:

TABLE THREE

Vessel	No.	Masthead light arc of visibility rule 21 (A)	Side lights arc of visibility rule 21 (B)	Stern lights arc of visibility rule 21 (C)	Side lights distance inboard of ship sides in meters annex I section 3 (b)	Stern lights distance forward of stern in meters rule 21 (C)	Forward anchor lights height above hull in meters annex I section 2 (k)	Anchor lights relationship of aft light to forward light in meters annex I sec. 2(k)
USS Rhode Island.	SSBN 740	.....	.....	209	5.3	9.0	3.8	4.0 below
USS Maine	SSBN 741	.....	.....	209	5.3	9.0	3.8	4.0 below
USS Wyoming	SSBN 742	.....	.....	209	5.3	9.0	3.8	4.0 below
USS Louisiana	SSBN 743	.....	.....	209	5.3	9.0	3.8	4.0 below

Dated: April 14, 1993.

Approved:

W. L. SCHACHTE, Jr.,

Rear Admiral, JAGC, U.S. Navy, Acting Judge Advocate General.

[FR Doc. 93-10021 Filed 4-28-93; 8:45 am]

BILLING CODE 3810-AE-P

Department of the Navy

32 CFR Part 706

Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972; Amendment

AGENCY: Department of the Navy, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Navy is amending its certifications and exemptions under the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), to reflect that the Judge Advocate General of the Navy has determined that USS CURTIS WILBUR (DDG 54) is a vessel of the Navy which, due to its special construction and purpose, cannot comply fully with certain provisions of the 72 COLREGS without interfering with its special functions as a naval destroyer. The intended effect of this rule is to warn mariners in waters where 72 COLREGS apply.

EFFECTIVE DATE: April 14, 1993.

FOR FURTHER INFORMATION CONTACT: Captain R.R. ROSSI, JAGC, U.S. Navy Admiralty Counsel, Office of the Judge Advocate General, Navy Department, 200 Stovall Street, Alexandria, VA 22332-2400. Telephone number: (703) 325-9744.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in 33 U.S.C. 1605, the Department of the Navy amends 32 CFR part 706. This amendment provides notice that the Judge Advocate General of the Navy, under authority delegated by the Secretary of the Navy, has certified that USS CURTIS WILBUR (DDG 54) is a vessel of the Navy which, due to its special construction and purpose, cannot comply fully with 72 COLREGS: Annex I, section 3(a) pertaining to the location of the forward masthead light in the forward quarter of the vessel, the placement of the after masthead light, and the horizontal distance between the forward and after masthead lights; Annex I, section 2(f)(i) pertaining to placement of the masthead light or lights above and clear of all other lights and obstructions; and, Annex I, section 3(c) pertaining to placement of task lights not less than 2 meters from the fore and aft centerline of the ship in the athwartship direction; without interfering with its special function as a Navy ship. The Judge Advocate General has also certified that the lights involved are located in closest possible compliance with the applicable 72 COLREGS requirements.

Moreover, it has been determined, in accordance with 32 CFR parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary, and contrary to public interest since it is based on technical findings that the placement of lights on this vessel in a manner differently from that prescribed herein will adversely affect the vessel's ability to perform its military functions.

List of Subjects in 32 CFR Part 706

Marine safety, Navigation (Water), and Vessels.

PART 706—[AMENDED]

Accordingly, 32 CFR part 706 is amended as follows:

1. The authority citation for 32 CFR part 706 continues to read:

VOL 58 ISS 81 AP 29 1993 UMI

§ 706.2 [Amended]

Authority: 33 U.S.C. 1605.

2. Table Four of section 706.2 is amended by:

a. Adding the following vessel to Paragraph 15:

Vessel	No.	Horizontal distance from the fore and aft centerline of the vessel in the athwartship direction
USS Curtis Wilbur	DDG 54	1.90 meters.

b. Adding the following vessel to Paragraph 16:

Vessel	No.	Obstruction angle relative ship's headings
USS Curtis Wilbur	DDG 54	89.78 thru 106.65 degree.

§ 706.2 [Amended]

3. Table Five of § 706.2 is amended by adding the following vessel:

TABLE FIVE

Vessel	Number	Masthead lights not over all other lights and obstructions. Annex I sec. 2(f)	Forward masthead light not in forward quarter of ship Annex I sec. 3(a)	After masthead light less than ½ ship's length aft of forward masthead light Annex I, sec. 3(a)	Percentage horizontal separation attained
USS Curtis Wilbur	DDG 54	X	X	X	12.3

Dated: April 14, 1993.

Approved:

W.L. Schachte, Jr.,

Rear Admiral, JAGC, U.S. Navy, Acting Judge Advocate General.

BILLING CODE 3810-AE-P

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[COTP Baltimore, MD Regulation 93-05-07]

Safety Zone Regulation: Chesapeake Bay, MD

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard Marine Safety Office Baltimore is establishing 2 safety zones for the U.S. Army Corps of Engineers wreck removal operation of two charted wrecks in the Chesapeake Bay. The Army Corps of Engineers diving operations will be using explosive charges to clear and remove obstructions northeast of Smith Point, Virginia. These 2 safety zones are needed to control commercial and recreational vessel traffic and to provide for the safety of life and property on U.S. navigable waters. Entry into these safety zones is prohibited unless authorized by the Captain of the Port, Baltimore.

EFFECTIVE DATE: This regulation becomes effective on April 26, 1993, at 7 a.m. and terminates at 7 p.m. June 04, 1993. These safety zones will be in effect on the above dates, from 7 a.m. to 7 p.m. daily.

FOR FURTHER INFORMATION CONTACT: Lieutenant Junior Grade Mark Williams, U.S. Coast Guard Marine Safety Office Baltimore, U.S. Custom House, 40 South Gay Street, Baltimore, Maryland 21202-4022, (410) 962-5104.

SUPPLEMENTARY INFORMATION: In accordance with Title 5 United States Code (U.S.C.) section 553, a notice of proposed rulemaking has not been published for this regulation and good cause exists for making it effective in less than 30 days from the date of Federal Register publication. Specifically, the U.S. Army Corps of Engineers requested Coast Guard assistance on March 30, 1993, leaving insufficient time to publish a Notice of Proposed Rulemaking (NPRM) in advance of the event. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to prevent property damage, and personal injuries which could result from the use of explosives in the safety zones.

Drafting Information

The drafters of this regulation are Lieutenant Junior Grade Mark Williams, project officer for the Captain of the Port, Baltimore, Maryland and Lieutenant Commander Keith B. Letourneau, project attorney, Fifth Coast Guard District Legal Staff.

Discussion of Regulations

On March 30, 1993, the Army Corps of Engineers requested Coast Guard assistance in establishing safety zones during the removal of 2 obstructions to navigation, northeast of Smith Point, Virginia, Chesapeake Bay. These obstructions will be removed by the Army Corps of Engineers between April 26 to June 04, 1993. The operation will include the removal of two charted wrecks which are located northeast of Smith Point in the Chesapeake Bay along the western edge of the outbound shipping channel. The safety zones will consist of a circle with a 200 yard radius drawn from the center of each wreck site. The center of the first wreck site is located at approximately Latitude 37 degrees, 57.9 minutes North; Longitude 076 degrees, 11.9 minutes West. The Center of the second wreck site is located at approximately Latitude 37 degrees 55.2 North; Longitude 076 degrees 11.2 minutes West. The Army Corps of Engineers survey vessel LINTHICUM will remain on station and monitor channel 13 VHF-FM. This regulation is issued pursuant to 33 U.S.C. 1231 as set out in the authority citation for Title 33 CFR part 165.

Regulatory Evaluation

This regulation is not considered major under Executive Order 12291 and is also not considered significant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979).

Federalism Assessment

This action has been analyzed in accordance with the principals and criteria contained in Executive Order 12612. This temporary final rule does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment. This proposal contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*)

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart F of part 165 of title 33, Code of Federal Regulations is amended as follows:

PART 165—AMENDED

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5; 49 CFR 1.46.

2. A new temporary section 165.T0518 is added to read as follow:

§ 165.T0518 Safety zones: Chesapeake Bay, MD

(a) *Location:* Two safety zones are hereby established northeast along the western edge of the outbound channel, off of Smith Point, VA. The following 2 areas are safety zones. The center of the first wreck site is located at approximately Latitude 37 degrees, 57.9 minutes North; Longitude 076 degrees, 11.9 minutes West. The center of the second wreck site is located at approximately Latitude 37 degrees 55.2 North; Longitude 076 degrees 11.2 minutes West. The safety zones will consist of a circle with a 200 yard radius drawn from the center of each wreck site.

(b) *Effective dates:* This regulation becomes effective on April 26, 1993, at 7 a.m. and terminates at 7 p.m. June 04, 1993. These safety zones will be in effect on the above dates, from 7 a.m. to 7 p.m. daily, unless sooner terminated by the Captain of the Port, Baltimore.

(c) *Regulations.*

(1) In accordance with the general regulations in § 165.23 of this part, entry into each of the safety zones is prohibited unless authorized by the Captain of the Port or his designated representative.

(2) The operator of any vessel which enters into or operates in either of these safety zones shall:

(i) Stop the vessel immediately upon being directed to do so by any commissioned, warrant, or petty officer on board a vessel displaying a Coast Guard Ensign.

(ii) Proceed as directed by any commissioned, warrant, or petty officer on board a vessel displaying a Coast Guard Ensign.

(d) *Definitions.* The designated representative of the Captain of the Port is any Coast Guard commissioned, warrant, or petty officer who has been authorized by the Captain of the Port, Baltimore, Maryland to act on his behalf.

(e) The Captain of the Port and the Duty Officer at the Marine Safety Office, Baltimore, Maryland may be contacted at telephone number (410) 962-5105.

The Coast Guard Patrol Commander and each Coast Guard vessel enforcing the safety zone may be contacted on VHF-FM channels 13 and 16.

Dated: April 20, 1993.

D.B. Crawford,

Commander, U.S. Coast Guard, Acting Captain of the Port, Baltimore, Maryland.

BILLING CODE 4910-14-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 6966

[CA-940-4210-06; CACA 7569]

Partial Revocation of Secretarial Order Dated September 14, 1942; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes a Secretarial order insofar as it affects 10 acres of public land withdrawn for the Bureau of Reclamation's Central Valley Project, American River Investigations. The land is no longer needed for reclamation purposes, and the revocation is needed to permit disposal of the land through land exchange under section 206 of the Federal Land Policy and Management Act of 1976. This action will open the land to surface entry and mining, unless closed by overlapping withdrawals or temporary segregations of record. The land has been and will remain open to mineral leasing.

EFFECTIVE DATE: June 1, 1993.

FOR FURTHER INFORMATION CONTACT: John Beck, BLM California State Office, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825, 916-978-4820.

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), it is ordered as follows:

1. The Secretarial Order dated September 14, 1942, which withdrew lands from operation of the public land laws, for the Bureau of Reclamation's Central Valley Project, is hereby revoked insofar as it affects the following described land:

Mount Diablo Meridian

T. 11 N., R. 9 E.,
Sec. 12, NW¼NE¼SE¼.

The area described contains 10 acres in El Dorado County.

2. At 10 a.m. on June 1, 1993, the land will be opened to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 1, 1993 shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m. on June 1, 1993 the land will be opened to location and entry under the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. Appropriation of any of the land described in this order under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38 (1988), shall vest no

VOL 58 ISS 81 AP 29 1993 UMI

rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

Dated: April 19, 1993.

Bruce Babbitt,

Secretary of the Interior.

[FR Doc. 93-10017 Filed 4-28-93; 8:45 am]

BILLING CODE 4310-40-M

43 CFR Public Land Order 6967

[OR-943-4210-06; GP2-458; OR-45401]

Withdrawal of Public Lands for the New River Area of Critical Environmental Concern; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order withdraws 882.98 acres of public lands from surface entry and mining for a period of 20 years for the Bureau of Land Management to protect the New River Area of Critical Environmental Concern. An additional 80.43 acres of non-Federal land, when acquired by the United States, would also be withdrawn by this order. The lands have been and will remain open to mineral leasing.

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Donna Kauffman, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208-2965, 503-280-7162.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands are hereby withdrawn from settlement, sale, location, or entry under the general land laws, including the United States mining laws (30 U.S.C. Ch. 2 (1988)), but not from leasing under the mineral leasing laws, to protect the unique geological, cultural, botanical, recreational, and biological resources within the area:

Willamette Meridian

T. 30 S., R. 15 W.,
Sec. 2, W½SW¼, and those portions of lots 3 and 4 described as follows:
Beginning at a point on the North line of Sec. 2, T. 30 S., R. 15 W., said point being 904.55 feet Westerly of the North ¼ corner of said Sec. 2; Thence S. 11°52'11" W., 213.74 feet; Thence S. 33°17'37" W., 255.02 feet; Thence S. 28°05'29" W., 204.30 feet; Thence S. 02°21'58" E., 210.46 feet; Thence S. 13°53'04" E., 110 feet, more or less, to the North bank of Lower Four Mile Creek; Thence running Westerly along the North bank of said Four Mile Creek to a point on the West line of said Sec. 2, said point being located 250 feet, more or less, South of the Northwest corner of said Sec. 2; Thence North along the said West line of Sec. 2, 250 feet, more or less, to the Northwest corner of said Sec. 2; Thence Easterly along the North line of said Sec. 2, 1,736 feet, more or less, to the point of beginning; and EXCLUDING that portion described as follows: Beginning at the ¼ corner (North) of said Sec. 2; Thence N. 89°40'46" W. along the North line of said Sec. 2, 904.55 feet to the true point of beginning; Thence N. 89°40'46" W., 62.82 feet; Thence S. 9°29'14" W., 192.11 feet; Thence S. 30°54'40" W., 270.94 feet; Thence N. 83°13' W., 594.73 feet; Thence S. 28°19'14" W., 190.00 feet; Thence S. 00°19'14" W., 425.86 feet to the North edge of Four Mile Creek; Thence Easterly along the North edge of Four Mile Creek, 744 feet, more or less, to the East boundary of the property conveyed to Oregon Shores Associated and recorded on Microfilm Number 73-6-86449-51, County Courthouse Deed Records; Thence Northerly along said Easterly boundary to the point of beginning;
Sec. 3, lots 3 and 4;
Sec. 10, lots 1, 2, 3, and 4, E½NE¼, and SW¼SE¼;
Sec. 11, NW¼NW¼ EXCLUDING that portion described as follows:
Beginning at the Southeast corner of the said NW¼NW¼ and running thence North 122.0 feet; Thence N. 76°20' W. 180.0 feet to a ¾ inch pipe post; Thence N. 82°23' W. and 257.0 feet passing through a ½ inch pipe post and continuing the same course a total distance of 512.0 feet; Thence South 225.0 feet, more or less, to the South boundary of the NW¼NW¼ of said Sec. 11; Thence along said South boundary East 894.0 feet to the place of beginning; AND those portions of the S½NW¼ described as follows: Beginning at a point in the center of a road which is 631.8 feet South and 315.12 feet East of the Southeast corner of the NW¼NW¼ of Sec. 11, and running Thence South 610.0 feet to the East and West quarter line of said Sec. 11; Thence West 500.82 feet to a point which is 1,137.0 feet East of the West ¼ corner of said Sec. 11; Thence North 660.0 feet to the center of a road; Thence along the center of said road Southeasterly 550.0 feet to the place of beginning; EXCLUDING an easement for a road 20 feet wide along the North boundary of the foregoing described parcel; AND: Beginning at the quarter section corner on the line between Secs. 10 and 11; Thence East 1,137 feet along the quarter section line; Thence North 1,320 feet to the sixteenth section line; Thence West 1,137 feet along said sixteenth section line to the section line between Secs. 10 and 11; Thence South 1,320 feet to the place of beginning;
Sec. 15, lots 1, 2, 3, and 4, and NW¼NE¼;
Sec. 21, lot 2;
Sec. 22, lots 1 and 2, and NW¼SW¼;
Sec. 28, lots 2 and 3, and SE¼NE¼;
Sec. 32, lot 1;
Sec. 33, lot 2.

Including any accretion of lands, the areas described aggregate 882.98 acres in Coos and Curry Counties.

2. The following described non-Federal land is within the exterior boundary of the New River Area of Critical Environmental Concern. When the United States subsequently acquires this land, the land will be subject to the terms and conditions of this withdrawal:

Willamette Meridian

T. 30 S., R. 15 W.,
Sec. 21, lot 1;
Sec. 28, lot 4.

Including any accretion of lands, the area described contains 80.43 acres in Coos and Curry Counties.

3. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

4. This withdrawal will expire 20 years from the effective date of this order unless, as a result of a review conducted before the expiration date pursuant to section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f) (1988), the Secretary determines that the withdrawal shall be extended.

Dated: April 19, 1993.

Bruce Babbitt,

Secretary of the Interior.

BILLING CODE 4310-33-M

43 CFR Public Land Order 6970

[AK-932-4210-06; A-027005]

Revocation of Public Land Order No. 1127, as Amended, for Selection of Land by the State of Alaska; Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes in its entirety a public land order as it affects approximately 740 acres of National Forest System land withdrawn for use by the Forest Service, Department of Agriculture, for the Snug Harbor Road public service site. The land is no longer needed for the purpose for which it was withdrawn. This action also opens the land for selection by the State of Alaska, if such land is otherwise available. Any land described herein that is not conveyed to the State will be subject to the terms and conditions of the national forest reservation and any other withdrawal of record.

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Sandra C. Thomas, BLM Alaska State Office, 222 W. 7th Avenue, No. 13, Anchorage, Alaska 99513-7599, 907-271-5477.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), it is ordered as follows:

1. Public Land Order No. 1127, as amended, which withdrew National Forest System land for use as a public service site, is hereby revoked insofar as it affects the following described land:

Seward Meridian

Chugach National Forest

A strip of land 25 chains (1,650 feet) in width paralleling the southwest shore of Kenai Lake, located within:

T. 4 N., R. 2 W., unsurveyed,
Secs. 19, 29, 30, 31, and 32.
T. 4 N., R. 3 W., unsurveyed,
Sec. 24.

The area described contains approximately 740 acres.

2. Subject to valid existing rights, and any other withdrawal of record, the land described above is hereby opened for selection by the State of Alaska under the Alaska Statehood Act of July 7, 1958, 48 U.S.C. note prec. 21 (1988).

3. The State of Alaska application for selection made under section 906(e) of the Alaska National Interest Lands Conservation Act, 43 U.S.C. 1635(e) (1988), becomes effective without further action by the State upon publication of this public land order in the **Federal Register**, if such land is otherwise available. Land not conveyed to the State will be subject to the terms and conditions of the Chugach National Forest reservation and any other withdrawal of record.

Dated: April 19, 1993.

Bruce Babbitt,

Secretary of the Interior.

BILLING CODE 6712–01–M

47 CFR Part 94

[PR Docket No. 90–260; FCC 93–189]

Reinstatement of Grandfathering Provisions Applicable to Licensees on Multiple Address Station Frequencies

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In response to various petitions for reconsideration of our Report and Order in PR Docket No. 90–260, the grandfathering provisions for multiple address stations ("MAS") licensed after January 1, 1981, and on or before May 11, 1988, operating on bandwidths of 25 kHz or more, are reinstated.

EFFECTIVE DATE: June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Tatsu Kondo, Land Mobile and Microwave Division, Private Radio Bureau, (202) 632–7125.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order in PR Docket No. 90–260, FCC 93–189, adopted April 9, 1993, and released April 23, 1993, 56 FR 30698 (July 5, 1991). The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC. The full text of this decision may also be purchased from the Commission's copy contractor, ITS, Inc., 2100 M St. NW., Washington, DC 20037, (202) 857–3800.

Summary of the Memorandum Opinion and Order

1. On reconsideration of the Report and Order, PR Docket 90–260, 6 FCC Rcd 3721 (1991), 56 FR 30698, July 5, 1991, the Commission rescinded the rule adopted in the Report and Order requiring MAS stations licensed after January 1, 1981, and on or before May 11, 1988, and operating on 25–50 kHz bandwidth, to conform to a spectrum review plan to justify the need for greater than 12.5 kHz bandwidth at the time of their first license renewal after June 1, 1996. These stations therefore will continue to retain their grandfathered status as proposed in the Notice of Proposed Rule Making, 5 FCC Rcd 3079 (1990), 55 FR 22038, May 31, 1990.

2. *Final Regulatory Flexibility Analysis*

Pursuant to the Regulatory Flexibility Act of 1980, the Commission's final analysis is as follows:

3. *Need and Purpose of the Action*

This Memorandum Opinion and Order retains the rules that "grandfather" stations licensed after January 1, 1981, and on or before May 11, 1988, operating on bandwidths of 25 kHz or more. This action provides effective and adaptive regulation for communications, while lessening the impact on licensees' investment in new equipment.

4. *Issues Raised in Response to the Initial Regulatory Flexibility Analysis*

There were no comments submitted in response to the Initial Regulatory Flexibility Anelysis.

5. *Significant Alternatives Considered and Rejected*

The initial Report and Order adopted a spectrum review plan for MAS stations licensed between January 1, 1981, and May 11, 1988, and operating between 25–50 kHz bandwidth. The spectrum review plan would have required these stations to convert to 12.5 kHz bandwidth operations during their first license renewal after June 1, 1996, unless justification for use of a wider bandwidth was made concurrent with the license application and approved. On reconsideration, we return to the proposal made in the Notice of Proposed Rule Making to continue to grandfather these stations at their current bandwidth.

Amendatory Text

Part 94 of title 47 of the Code of Federal Regulations is amended to read as follows.

PART 94—PRIVATE OPERATIONAL-FIXED MICROWAVE SERVICE

1. The authority citation continues to read as follows:

Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303, unless otherwise noted.

2. 47 CFR 94.65 is amended by revising paragraph (a)(1) to read as follows:

§ 94.65 Frequencies.

* * * * *

(a) * * *

(1) *Multiple address system frequencies.* Multiple address system (MAS) frequencies are available for the point-to-multipoint transmission of a licensee's products or services, excluding video entertainment material, to a licensee's customer or for its own internal communications. The paired frequencies listed in this section shall be used for two-way interrogate/response communications between a master station and remote stations. Each master station operating on these frequencies is required to serve a minimum of four separate active remote stations. Ancillary one-way communications on paired frequencies are permitted on a case-by-case basis. Ancillary communications between interrelated master stations are permitted on a secondary basis. The normal channel bandwidth assigned will be 12.5 kHz. Upon adequate justification, however, channels with bandwidths up to 50 kHz may be authorized. Tables 2, 4, and 6 list frequencies with 25 kHz bandwidth channels. When licensed for a larger bandwidth, the system still is required to use equipment which meets the ±0.00015 percent tolerance requirement. (See § 94.67). Systems licensed for frequencies in these MAS bands prior to August 1, 1975, may continue to operate as authorized until June 11, 1996, at which time they must comply with current MAS operations based on the 12.5 kHz channelization set forth in this paragraph. Systems licensed between August 1, 1975, and January 1, 1981, inclusive, were permitted to operate as authorized until January 1, 1991, at which time they were required to comply with the grandfathered 25 kHz standard bandwidth and channelization requirements set forth in this paragraph. Systems originally licensed after January 1, 1981, and on or before May 11, 1988, with bandwidths of 25 kHz and above, will be grandfathered indefinitely.

BILLING CODE 6712–01–M

47 CFR Part 95

[PR Docket 91–2; FCC 93–197]

Private Radio Services

AGENCY: Federal Communications Commission

ACTION: Final rule.

SUMMARY: The Private Radio Bureau has adopted a Second Memorandum Opinion and Order in response to Petitions for Reconsideration from the Campaign to Preserve Statutory Fees (CPSF) and Radio Telecom and Technology, Inc. (RTT). CPSF and RTT sought reconsideration of certain decisions made in this proceeding concerning the IVDS rules and policies. By this action, the Commission granted the CPSF petition concerning the IVDS application fee and denied in part and dismissed in part the RTT petition concerning the IVDS application process.

EFFECTIVE DATE: June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Marc S. Martin, (202) 632–6497, Private Radio Bureau.

SUPPLEMENTARY INFORMATION: This is a summary of the Private Radio Bureau's Second Memorandum, Opinion and Order, FCC 93–197, adopted April 13, 1993; and released April 23, 1993. The full text of this Second Memorandum Opinion and Order is available for inspection and copying during normal business hours in the FCC Reference Center, room 230, 1919 M Street, NW., Washington, DC. The complete text may be purchased from the Commission's copy contractor. International Transcription Service, 1919 M Street, room 246, Washington, DC 20554, telephone (202) 337–1433.

Summary of Second Memorandum Opinion and Order

1. On January 16, 1992, the Commission adopted a Report and Order (*Report*) in this proceeding that, *inter alia*, established a frequency allocation and service rules for the Interactive Video and Data Service (IVDS). The purpose of the Report was to make available an allocation of radio spectrum that licensees could use to provide a variety of radio-based interactive services to the public. In response to six petitions which requested reconsideration of certain aspects of the Report, a Memorandum Opinion and Order (*MO&O*) variously granted and dismissed those requests. Following the adoption of the *MO&O*, the Petition for Further Reconsideration of Radio Telecom and Technology, Inc (RTT) and the Petition for Reconsideration of Mr. William E. Zimsky and the Committee to Preserve Statutory Fees (jointly referred to as CPSF), were filed requesting that we reconsider certain decisions in the *MO&O*. This Second Memorandum Opinion and Order grants the CPSF and denies in part and dismisses in part the RTT petitions for reconsideration. In addition, it makes minor editorial clarifications to the IVDS rules.

2. In granting the CPSF petition, the Commission deleted the requirement for IVDS applicants to apply initially and submit payment for a minimum number of 40 call signs for each of the cell transmitter station (CTS) base stations. Rather, an IVDS licensee may submit its application for a blanket license under one call sign, regardless of the number of CTS base stations it intends to construct. Therefore, the new application fee for an IVDS system license will be $35, and one call sign will be awarded. Applications that require special administrative review, due to antenna height for example, must be individually licensed through the filing of separate Form 574s.

3. As a result of this action, IVDS applications that included at least $35 but were dismissed for failure to be accompanied by the $1,400 IVDS application fee will be reinstated. Further, IVDS applicants that submitted an IVDS application fee based on the 40 CTS requirement shall be refunded the amount greater than the basic $35 per call sign fee. This minor rule change, however, does not affect the IVDS filing windows previously announced in Public Notices.

4. In addition, the Commission denied in part and dismissed in part the Petition for Reconsideration of Radio Telecom and Technology, Inc. (RTT). In denying the RTT request, the Commission reconfirmed that prospective IVDS applicants electing to use unique technology that needs higher antenna heights with no reduction in power in order to operate efficiently must submit a waiver request with their applications. Lastly, the Commission noted that RTT's concern relating to the 48 hour application deadline for tentative selectees pertains to a decision in the IVDS Report and Order and not

VOL 58 ISS 81 AP 29 1993 UMI

in the *MO&O*. Therefore, the Commission dismissed RTT's petition concerning this decision as untimely under our procedural rules. Further, the Commission made minor editorial clarifications to the IVDS rules.

5 Accordingly, *It is Ordered* That part 95 of the Commission's Rules is amended as set forth below; effective thirty days after publication in the Federal Register.

Final Rule

Part 95 of chapter I of title 47 of the Code of Federal Regulations is amended as follows:

PART 95—PERSONAL RADIO SERVICES

1. The authority citation for part 95 continues to read as follows:

Authority: Secs. 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303.

2. Section 95.813 is amended by revising paragraph (a)(3) and adding a new paragraph (a)(4) to read as follows:

§ 95.813 Eligibility.

(a) • • •

(3) The entity is a corporation organized under the laws of the United States of America; or

(4) The entity is a trust and no beneficiary is a representative of a foreign government.

• • • • •

3. Section 95.815 is amended by revising paragraph (e) to read as follows:

§ 95.815 License application.

• • • • •

(e) Each IVDS system license is licensed for an unlimited number of CTSs that meet the 6.1 meter (20 foot) criteria

• • • • •

BILLING CODE 6712-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration (NOAA)

50 CFR Part 675

[Docket No. 921185-3021]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing the directed fishery for Pacific Ocean perch in the Bering Sea subarea (BS) of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the Pacific Ocean perch total allowable catch (TAC) in the BS.

EFFECTIVE DATES: Effective 12 noon, Alaska local time (A.l.t.), April 26, 1993, until 12 midnight, A.l.t., December 31, 1993.

FOR FURTHER INFORMATION CONTACT: Andrew N. Smoker, Resource Management Specialist, Fisheries Management Division, NMFS, 907-586-7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the BSAI exclusive economic zone is managed by the Secretary of Commerce according to the Fishery Management Plan for the Groundfish Fishery of the BSAI (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governing by regulations implementing the FMP at 50 CFR parts 620 and 675.

In accordance with § 675.20(a)(7)(ii) the Pacific Ocean perch TAC for the BS was established by the final groundfish specifications (58 FR 8703, February 17, 1993) as 2,831 metric tons (mt).

The Director of the Alaska Region, NMFS (Regional Director), has determined, in accordance with § 675.20(a)(8), that the Pacific Ocean perch TAC in the BS soon will be reached. Therefore, the Regional Director has established a directed fishing allowance of 2,331 mt, with consideration that 500 mt will be taken as incidental catch in directed fishing for other species in the BS. The Regional Director has determined that the directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific Ocean perch in the BS, effective from 12 noon, A.l.t., April 26, 1993, until 12 midnight, A.l.t., December 31, 1993.

Directed fishing standards for applicable gear types may be found in the regulations at § 675.20(h).

Classification

This action is taken under § 675.20 and complies with E.O. 12291.

Proposed Rules

Federal Register
Vol. 58, No. 81
Thursday, April 29, 1993

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 362

RIN 3064-AB20

Activities and Investments of Insured State Banks

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Petition for rulemaking; request for comments.

SUMMARY: The FDIC is seeking comment on whether to amend its regulations governing insurance underwriting by well-capitalized insured state banks and their subsidiaries to provide that excepted insurance underwriting activities may only take place in the state in which the bank is chartered and in the state in which the bank's insurance underwriting subsidiary is incorporated. If this change would be made, the exception for insurance underwriting activities would be narrowed.

DATES: Comments must be received by June 28, 1993.

ADDRESSES: Send comments to Hoyle L. Robinson, Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429. Comments may be hand delivered to room F-402, 1776 F Street NW., Washington, DC on business days between 8:30 a.m. and 5 p.m. [FAX number: (202) 898-3838.] Comments may also be inspected in the FDIC's Reading Room, room 7118, 550 17th Street NW. between 9 a.m. and 4:30 p.m. on business days.

FOR FURTHER INFORMATION CONTACT: Curtis L. Vaughn, Examination Specialist, (202) 898-6759, Division of Supervision, FDIC, 550 17th Street NW., Washington, DC 20429; Pamela E.F. LeCren, Counsel, (202) 898-3730, or Grovetta N. Gardineer, Senior Attorney, (202) 898-3905, Legal Division, FDIC, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: On December 19, 1991, President George Bush signed into law the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) (Pub. L. 102-242, 105 Stat. 2236). Section 303 of FDICIA added section 24 to the Federal Deposit Insurance Corporation Act, "Activities of Insured State Banks" (FDI Act) (12 U.S.C. 1831a). With certain exceptions, section 24 of the FDI Act limits the activities and equity investments of state chartered insured banks (insured state banks) to the activities and equity investments that are permissible for national banks. Well-capitalized insured state banks and their subsidiaries that were lawfully providing insurance as principal in a state on November 21, 1991 may continue to provide insurance of the same type to residents of the state, individuals employed in the state and any other person to whom insurance was provided without interruption since such person resided in or was employed in the state. (Section 24(d)(2)(B), 12 U.S.C. 1831a(d)(2)(B)).

On June 16, 1992, the FDIC's Board of Directors adopted a proposed regulation implementing the above described insurance underwriting provisions of section 24. (12 CFR part 362, "Activities and Investments of Insured State Banks", 57 FR 30435, July 9, 1992.) The preamble accompanying the proposed regulation indicated that it was the FDIC's intention to construe the reference to "in a state" as excepting insurance underwriting activities by an insured state bank only in the state in which the bank was chartered as of November 21, 1991 and as limiting the subsidiary of the bank to insurance underwriting activities to the state in which the subsidiary was incorporated and doing business as of November 21, 1991. The following explanation was given for the FDIC's position:

The FDIC believes that this reading of section 24 is consistent with the provision's legislative history which, among other things, clearly indicates that the exception was intended to lapse if any changes in an insured state bank's underwriting capability within its own state occurred. (See, 137 Cong. Rec. S17316 (daily ed. November 21, 1991) (remarks of Sen. Graham)). The legislative history also indicates that the provision was intended to close a loophole in the law that permitted one state to be used as a base for nationwide insurance underwriting and the language did so by limiting the activities to the state that authorized it but nowhere else. (See, 137 Cong. Rec. S18619 (daily ed. November 21, 1991) (remarks of Sen. Dodd)). The construction of the exception adopted by the proposal somewhat narrowly circumscribes the exception and is also consistent with one of the basic tenets of statutory construction which provides that exceptions should be narrowly construed within the purpose of the overall provision. In view of the overall indication that insurance underwriting activities that are not permissible for national banks are inappropriate for insured state banks, it is in the FDIC's view appropriate to adopt a narrow reading of the exception. 57 FR 30443, July 9, 1992.

On October 27, 1992 the Board of Directors adopted part 362 in final. (57 FR 53213, November 9, 1992.) The final regulation did not limit the geographic scope of the insurance underwriting exception to the bank's home state and the subsidiary's state of incorporation. Under part 362 as adopted in final, the insurance underwriting exception is understood by the FDIC to extend to any state in which the bank or its subsidiary was underwriting insurance on November 21, 1991. The change of position was a result of information brought to the FDIC's attention during the comment period. The following explanation for the change of position appeared in the **Federal Register**.

Fourteen comments, several of which were from members of Congress, criticized the proposed rule because of the interpretation of the phrase "in a state" which excepted insurance underwriting activities by an insured state bank only in the state in which the bank was chartered as of November 21, 1991 and the insurance underwriting activities of a subsidiary of the bank only in the state in which the subsidiary was incorporated and doing business as of November 21, 1991. These comments urged the FDIC to be guided by the clear, unambiguous language of section 24(d)(2)(B) which did not limit the exception as the FDIC indicated. In short, "a state" did not mean "in the home state". The comments pointed out that if the FDIC felt compelled to review the legislative history of the provision, a careful reading of that legislative history demonstrates that Congress specifically rejected the approach the FDIC is now advocating by regulation. According to these comments, there was a managers' amendment to the bill on the Senate floor which changed the language in the proposed bill limiting insurance underwriting activities of a state bank from "in *that* State" to "in *a* State" (emphasis added)(See, 137 Cong. Rec. S16683-85 (daily ed. Nov. 14, 1991)). Only two changes of note were

VOL
58
ISS
81
AP
29
1993
UMI

subsequently made: the insertion of the requirement that the bank be well-capitalized and the elimination of a transition rule that was designed to allow banks and their subsidiaries to phase-out activities that would no longer be permissible. The latter was pointed to as evidence that Congress anticipated that all existing insurance underwriting activities would be grandfathered and that there was therefore no need for a transition rule. Senator Roth described the provision as enacted on the Senate floor as grandfathering all existing activities of state banks and their subsidiaries. "Apparently, the grandfather clause, which was drafted originally to exclude Delaware, did not and does not limit its protection to the home State, so to speak, but rather covers any State in which the bank was providing insurance it underwrites. Thus, when Delaware was included within the grandfather clause, its banks obtained the same rights as others.

Those rights are described as the "continuation of existing activities" in the head note preceding the text in the Senate bill " " " [T]he conference agreement preserves the rights of State banks authorized to underwrite insurance to continue to underwrite the same type of insurance in any State in which they provided such insurance as of November 21, 1991." (Cong. Rec. S18626, November 27, 1991, remarks of Senator Roth). Lastly, it was pointed out that the exchange between Senator Graham and Senator Garn cited by the FDIC in the preamble accompanying the proposed regulation pertained to interstate insurance sales restrictions that had been contained in the Senate bill and that the FDIC had taken from those remarks an incorrect inference.

After carefully reviewing the comments and reexamining the legislative history of section 24(d)(2)(B), the FDIC is persuaded that its initial reading of the provision was flawed. 57 FR 53226 (November 9, 1992).

The FDIC has been petitioned pursuant to section 553(e) of the Administrative Procedure Act (5 U.S.C. 553(e)) to repeal that portion of part 362 construing the phrase "in a state" and to seek further comment before adopting any provision concerning insurance underwriting by insured state banks. According to the petitioners, the FDIC's original position was correct and should not have been changed. The Board of Directors acknowledges that the issue of the proper construction of the phrase "in a state" is a complex one and that discerning legislative intent can be difficult in the case of a controversial, hotly debated exception particularly where it is the result of congressional compromise. The Board also acknowledges that the rulemaking process undertaken to date did bring matters to the FDIC's attention on the issue of congressional intent which were previously unconsidered by the FDIC. Although the Board of Directors is of the opinion that the agency has adopted the correct position based upon what is known at this time, it is possible that further comment will shed additional light on the issue which the FDIC should give due consideration. In view thereof, the Board of Directors has voted to reopen the "in a state" issue for further comment.

The FDIC will accept comment for sixty days on whether § 362.4 of the FDIC's regulations should continue to read as it is presently worded or whether the provision should be amended to read as it had originally been proposed. It should be understood that the regulation continues in effect as written until and unless the FDIC, following notice and comment, determines to amend part 362. The FDIC also wishes to make clear that the agency is not soliciting additional comment due to some procedural flaw in the original rulemaking but is doing so rather to satisfy itself that the agency has considered all relevant information that may shed light on congressional intent in this instance.

The language of § 362.4, Notification of exempt insurance activities, currently reads as follows:

Any insured state bank that was lawfully underwriting insurance in a state on November 21, 1991, and any insured state bank that has a subsidiary that was lawfully underwriting insurance in a state on November 21, 1991, shall submit a notice to the regional director for the Division of Supervision for the region in which the bank's principal office is located not later than 60 days from December 9, 1992, if those insurance underwriting activities would not be permissible for a national bank or a subsidiary of a national bank. The notice requirement does not apply in the case of an insured state bank described in § 362.3(b)(7)(ii). The notice shall contain the following information:

(a) The name of the bank and/or subsidiary;

(b) The state or states in which the bank and/or its subsidiary was underwriting insurance on November 21, 1991;

(c) A recitation of the authority for the bank or subsidiary to conduct insurance underwriting activities;

(d) A list of the types of insurance that the bank and/or subsidiary provided to the public as of November 21, 1991 in the states(s) identified in paragraph (b) of this section. For purposes of this list, various lines of insurance are considered to be distinct types of insurance.

If the FDIC decides to amend § 362.4, notification of exempt insurance activities, as requested by the petitioners, it would read as it had originally been proposed in the July 9, 1992 solicitation of public comment. The text of that section reads as follows:

Any insured state bank that was lawfully providing insurance as principal in a state on November 21, 1991, and any insured state bank that has a subsidiary that was lawfully providing insurance as principal in a state on November 21, 1991, shall submit a notice to the regional director for the Division of Supervision for the region in which the bank's principal office is located not later than 60 days from [December 9, 1992]. The notice requirement does not apply in the case of an insured state bank described in § 362.3(b)(7)(ii). The notice shall contain the following information:

(a) The name of the bank/or subsidiary;

(b) The state in which the bank is chartered;

(c) If applicable, a recitation of the authority for the bank or subsidiary to conduct insurance underwriting activities;

(d) The state in which the subsidiary is incorporated; and

(e) A description of the insurance policies and other insurance products that the bank and/or subsidiary provided to the public as of November 21, 1991 in the states(s) identified in paragraphs (b) and (d) of this section.

Regulatory Flexibility Analysis

The Board of Directors has concluded after reviewing the request for comment that if the proposed amendments are adopted they will not impose a significant economic hardship on small institutions. The proposal does not necessitate the development of sophisticated recordkeeping or reporting systems by small institutions nor will small institutions need to seek out the expertise of specialized accountants, lawyers, or managers in order to comply with the regulation. The Board of Directors therefore hereby certifies pursuant to section 605 of the Regulatory Flexibility Act (5 U.S.C. 605) that the proposal, if adopted, will not have significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

By Order of the Board of Directors.

Dated at Washington, DC, this 20th day of April, 1993.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714-01-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 93-NM-29-AD]

Airworthiness Directives; Airbus Industrie Model A320 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain Airbus Industrie Model A320 series airplanes. This proposal would require modification of the nose landing gear (NLG) wheels. This proposal is prompted by reports of deteriorating NLG wheel bearings; such deterioration caused damage to the sliding tube/integral axle assembly of the NLG wheel. The actions specified by the proposed AD are intended to prevent reduced directional control due to loss of the NLG wheel during taxiing or landing.

DATES: Comments must be received by June 23, 1993.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 93-NM-29-AD, 1601 Lind Avenue SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Airbus Industrie, 1 Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Greg Holt, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2140; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 93-NM-29-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 93-NM-29-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

Discussion

The Direction Générale de l'Aviation Civile (DGAC), which is the airworthiness authority for France, recently notified the FAA that an unsafe condition may exist on certain Airbus Industrie Model A320 series airplanes. The DGAC advises that there have been two reports of damage to the sliding tube/integral axle assembly on the nose landing gear (NLG) on these airplanes. Damage was caused by the deterioration of NLG wheel bearings. This condition, if not corrected, could cause rupture of the bearings in the NLG front wheel, which could lead to reduced directional control due to loss of the NLG wheel during taxiing or landing.

Airbus Industrie has issued Service Bulletin No. A320-32-1061, Revision 3, dated October 19, 1992, that describes procedures for modification of the NLG wheel. This modification entails rework of the inner and outer wheel half, and adding an aluminum spacer and two phenolic spacers at the level of each nose wheel axle. This modification will increase the stiffness of the NLG wheel assembly installation. This service bulletin refers to BF Goodrich Service Bulletin No. 3-1470-32-1, for additional service information. The DGAC classified the Airbus Industrie service bulletin as mandatory and issued French Airworthiness Directive 92-164-026(B), August 19, 1992, in order to assure the continued airworthiness of these airplanes in France.

This airplane model is manufactured in France and is type certificated for operation in the United States under the provisions of section 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the DGAC has kept the FAA informed of the situation described above. The FAA has examined the findings of the DGAC, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of the same type design registered in the United States, the proposed AD would require modification of the NLG wheels. The actions would be required to be accomplished in accordance with the Airbus Industrie service bulletin described previously.

The FAA estimates that 52 airplanes of U.S. registry would be affected by this proposed AD, that it would take approximately 5 work hours per airplane to accomplish the proposed actions, and that the average labor rate is $55 per work hour. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $14,300, or $275 per airplane. This total cost figure assumes that no operator has yet accomplished the proposed requirements of this AD action.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES.**

VOL 58 ISS 81 AP 29 1993 UMI

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Airbus Industrie: Docket 93–NM–29–AD.

Applicability: Model A320–111, –211, and –231 series airplanes, as listed in Airbus Industrie Service Bulletin No. A320–32–1061, Revision 3, dated October 19, 1992; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent reduced directional control due to loss of the nose landing gear wheel during taxiing or landing, accomplish the following:

(a) Within 4 months after the effective date of this AD, modify the nose landing gear wheels in accordance with Airbus Industrie Service Bulletin No. A320–32–1061, Revision 3, dated October 19, 1992.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM–113.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch, ANM–113.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on April 23, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

14 CFR Part 39

[Docket No. 93–NM–27–AD]

Airworthiness Directives; Boeing Model 737–200, –300, –400, and –500 Series Airplanes Equipped With BFGoodrich Evacuation Slides

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain Boeing Model 737–200, –300, –400, and –500 series airplanes. This proposal would require modification of the evacuation slide valise. This proposal is prompted by three reports indicating that inflation pressure of the evacuation slides was lost due to failure of the aspirator to close and seal after ingesting the battery test lead, disabling the evacuation slide and making it unusable. The actions specified by the proposed AD are intended to prevent passengers from being unable to exit the airplane in the event of an emergency evacuation.

DATES: Comments must be received by June 23, 1993.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM–103, Attention: Rules Docket No. 93–NM–27–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from BFGoodrich Aircraft Evacuation Systems, 3414 South 5th Street, Phoenix, Arizona 85040. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the FAA, Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California 90806–2425.

FOR FURTHER INFORMATION CONTACT: Andrew Gfrerer, Aerospace Engineer, Systems and Equipment Branch, ANM–131L, FAA, Transport Airplane Directorate, Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California 90806–2425; telephone (310) 988–5338; fax (310) 988–5210.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 93–NM–27–AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM–103, Attention: Rules Docket No. 93–NM–27–AD, 1601 Lind Avenue SW., Renton, Washington 98055–4056.

Discussion

The FAA has received three reports that, following deployment of evacuation slides installed in Boeing Model 737 series airplanes, inflation pressure was lost. These incidents occurred due to failure of the aspirator to close and seal after ingesting the battery test lead, disabling the evacuation slide and making it unusable. This condition, if not corrected, could prevent passengers from being able to exit the airplane in the event of an emergency evacuation.

The FAA has reviewed and approved BFGoodrich Service Bulletin 101658/659/660–25–257, dated November 20, 1992, that describes procedures for modification of the evacuation slide valise. Modification of the valise involves installation of a pocket/tunnel to anchor and route the battery test lead and wire coil. This pocket/tunnel restrains the test lead and wire coil from coming near the aspirator during slide deployment and provides a route for the test lead to the bottom left (open end) of the valise. In addition, a nameplate is added to the slide assembly for permanent identification.

Since an unsafe condition has been identified that is likely to exist or develop on other products of this same type design, the proposed AD would require modification of the evacuation slide valise. The actions would be required to be accomplished in accordance with the service bulletin described previously.

There are approximately 600 BFGoodrich evacuation slides installed on Boeing Model 737–200, –300, –400, and –500 series airplanes of the affected design in the worldwide fleet. The actual number of Model 737–200, –300, –400, and –500 series airplanes on which these evacuation slides are installed is unknown. However, the FAA has confirmed that none of the affected slides are installed on Model 737–200, –300, –400, or –500 series airplanes of U.S. registry; therefore, no airplanes of U.S. registry would be affected by this proposed AD. If an affected airplane were to be placed on the U.S. Register in the future, the FAA estimates that it would take approximately 1 work hour per slide to accomplish the proposed actions, at an average labor rate of $55 per work hour. Required parts would be provided to operators by the evacuation slide manufacturer at no charge. Based on these figures, the total cost impact of the proposed AD is estimated to be $55 per slide.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12812, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES.**

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Boeing: Docket 93–NM–27–AD.

Applicability: Model 737–200, –300, –400, and –500 series airplanes equipped with BFGoodrich evacuation slides, as listed in BFGoodrich Service Bulletin 101658/659/660–25–257, dated November 20, 1992; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent passengers from being unable to exit the airplane in the event of an emergency evacuation, accomplish the following:

(a) Within 3 years after the effective date of this AD, modify the evacuation slide valise in accordance with BFGoodrich Service Bulletin 101658/659/660–25–257, dated November 20, 1992.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Los Angeles Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Los Angeles ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Los Angeles ACO.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on April 23, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplone Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

Coast Guard

33 CFR Part 100

[CGD1 93–007]

Special Local Regulation: Gateway Powerboat Regatta, Greenwich, CT and Port Chester, NY

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish a temporary special local regulation for the Gateway Powerboat Regatta. The regatta will be held on Saturday, August 28, 1993, in the waters of Long Island Sound adjacent to the harbors of Greenwich, Connecticut and Port Chester, NY. This regulation is needed to protect the boating public from the hazards associated with high speed powerboat racing in confined waters.

DATES: Comments must be received on or before July 10, 1992.

ADDRESSES: Comments should be mailed to the Commander, First Coast Guard District, Boating Safety Division, 408 Atlantic Ave., Boston, MA 02110–3350, or may be delivered to Room 428 at the address listed above, between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant E. G. Westerberg, Chief, Boating Safety Affairs Branch, First Coast Guard District, (617) 223–8311.

SUPPLEMENTARY INFORMATION:

Request for Comments

The Coast Guard encourages interested persons to participate in this rulemaking by submitting written data, views, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD1 93–007) and the specific section of the proposal to which their comment applies, and give reason for each comment. Persons requesting acknowledgment of receipt of comments should enclose a stamped, self-addressed postcard or envelope.

The Coast Guard will consider all comments received during the comment period. It may change this proposal in view of the comments.

The Coast Guard plans no public hearing. Persons may request a public

VOL 58 ISS 81 AP 29 1993 UMI

hearing by writing to the Boating Safety Division at the address under "ADDRESSES". If it determines that the opportunity for oral presentations will aid this rulemaking, the Coast Guard will hold a public hearing at a time and place announced by a later notice in the Federal Register.

Drafting Information

The drafters of this notice are LT E. G. Westerberg, Project Manager, First Coast Guard District, and LCDR J. D. Stiob, Project Attorney, First Coast Guard District, Legal Office.

Background and Purpose

On February 8, 1993 the sponsor, Gateway Powerboat Association, Inc., submitted a request to hold an offshore powerboat race on Long Island Sound. The Coast Guard is considering establishing a temporary regulation in Long Island Sound for this event known as the "Gateway Powerboat Regatta." The proposed regulation would establish a regulated area in Long Island Sound and provide specific guidance to control vessel movement during the race.

This event will include up to 40 powerboats competing on a rectangular course at speeds approaching 100 m.p.h. Due to the inherent dangers of a race of this type, vessel traffic will be temporarily restricted to provide for the safety of the spectators and participants.

The sponsor, Gateway Powerboat Association, Inc. has previously conducted this event in Long Island Sound in 1987, 1988, and 1992. This year's race will follow a similarly marked course and the same regulations as set forth in the previous years.

Discussion of Proposed Amendments

The Coast Guard proposes to establish a Special Local Regulation on specified waters of Long Island Sound adjacent to the harbors of Greenwich, Connecticut and Port Chester, New York. The event will close the regulated area to all traffic from 10 a.m. to 3 p.m. on August 28, 1993. In case of inclement weather, the event will close the regulated area to all traffic from 10 a.m. to 3 p.m. on August 29, 1993. This regulation is needed to protect spectators and participants from the hazards that accompany a high speed powerboat race.

Regulatory Evaluation

This proposal is not major under Executive Order 12291 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this proposal to be so minimal that a Regulatory Evaluation is unnecessary. Minimal impact is expected due to the limited duration of the race, the extensive advisories that have been and will be made to the affected maritime community, and the fact that the event is taking place on a Saturday afternoon, which is normally a very light volume day for commercial marine traffic.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this proposal will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632).

The Coast Guard expects the impact of this proposal to be minimal. For the reasons discussed in the Regulatory Evaluation, the Coast Guard certifies under 5 U.S.C. 605(b) that this proposal will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This proposal contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

The Coast Guard has analyzed this proposal in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this proposal does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this proposal and concluded that under section 2.B.2.c. of Commandant Instruction M16475.1B, this proposal is categorically excluded from further environmental documentation. A Categorical Exclusion Determination is available in the docket for inspection or copying where indicated under "ADDRESSES."

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

Proposed Regulations

For reasons set out in the preamble, the Coast Guard proposes to amend 33 CFR part 100 as follows:

PART 100—[AMENDED]

1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46 and 33 CFR 100.35.

2. A temporary section, 100.35T01–007 is added to read as follows:

§ 100.35T01–007 Gateway Powerboat Regatta, Greenwich, CT and Port Chester, NY

(a) *Regulated area.* The regulated area will include all waters within the following points:

Latitude	Longitude
40°56.1' N	73°37.4' W
40°57.9' N	73°33.2' W
40°58.4' N	73°33.9' W
40°56.9' N	73°38.4' W

(b) *Special local regulations.*

(1) Commander, U.S. Coast Guard Group Long Island Sound reserves the right to delay, modify or cancel the race as conditions or circumstances require.

(2) No person or vessel may enter, transit, or remain in the regulated area during the effective period of regulation unless participating in the event as authorized by the sponsor or the Coast Guard. The Patrol Commander, as delegated by the Commander, Coast Guard Group Long Island Sound, will attempt to minimize any delays for commercial vessels transiting the area and will monitor channel 16 VHF–FM.

(3) All persons and vessels shall comply with the instructions of the Commander, U.S. Coast Guard Group Long Island Sound or the designated on scene patrol personnel. U.S. Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard. Upon hearing five or more blasts from a U.S. Coast Guard vessel, the operator of a vessel shall stop immediately and proceed as directed. Members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation and other applicable laws.

(c) *Effective period.* This regulation will be effective from 10 a.m. through 3 p.m. on August 28, 1993. In case of inclement weather, this regulation will be effective from 10 a.m. through 3 p.m. on August 29, 1993.

Dated: April 26, 1993.

J.D. Sipes,

Rear Admiral, U.S. Coast Guard Commander, First Coast Guard District.

Escort Vessels for Certain Oil Tankers

AGENCY: Coast Guard, DOT.

ACTION: Notice of public hearings.

SUMMARY: The Coast Guard published a notice of proposed rulemaking (NPRM) on July 7, 1992 (57 FR 30058), and reopened the comment period in a notice on March 26, 1993 (58 FR 16391), to define areas in Prince William Sound, Alaska, and Rosario Strait and Puget Sound, Washington, where at least two escort vessels will be required for certain tankers. This document gives notice of public hearings in Anchorage and Valdez, Alaska, and Seattle, Washington, which will take comments on defining those areas. At these hearings, the Coast Guard is also encouraging comment on standards for escort vessels, other appropriate requirements for tanker escort operations, and other navigable waters of the United States where escorts may be required.

DATES: The hearings will be held on Thursday, June 3, 1993, at 6 p.m. in Anchorage, Alaska; Saturday, June 5, 1993, at 6 p.m. in Valdez, Alaska; and Monday, June 7, 1993, at 6 p.m. in Seattle, Washington.

ADDRESSES: The Anchorage, Alaska hearing will be held at the Anchorage Museum of History and Art, Main Auditorium, 121 West 7th Avenue, Anchorage, AK 99501; the Valdez, Alaska hearing will be held at the City Council Chambers, Fairbanks Street, Valdez, AK 99686; the Seattle, Washington hearing will be held at the National Oceanic and Atmospheric Administration Sand Point, Building 9 Auditorium, 7600 Sand Point Way, NE, Seattle, WA 98115–0070.

Interested parties should note that the Anchorage and Valdez hearings will be teleconferenced to other communities in the Exxon Valdez impact area. A notice of locations participating in the teleconferences will be given in those communities prior to the hearing.

Correspondence concerning these public hearings may be mailed to the Executive Secretary, Marine Safety Council (G–LRA/3406) (CGD–91–202), U.S. Coast Guard Headquarters, 2100 Second St., SW., Washington, DC 20593–0001 or may be delivered to room 3406 at the above address between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The telephone number is (202) 267–1477

The Executive Secretary maintains the public docket for this rulemaking. Correspondence concerning these public hearings will become part of this docket and will be available for inspection or copying in room 3406, U.S. Coast Guard Headquarters.

FOR FURTHER INFORMATION CONTACT: Capt. Gerald T. Willis, Project Manager, Oil Pollution Act (OPA 90) Staff (G–MS(d)), at (202) 267–6732 between 8:30 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Dated: April 22, 1993.

A. Cattalini,

Captain, U.S. Coast Guard, Acting Chief, Office of Navigation Safety and Waterway Services.

Forest Service

36 CFR Parts 215 and 217

Review and Comment and Appeal Procedures for National Forest Planning and Project Decisions; Requesting Review of National Forest Plans and Project Decisions

AGENCY: Forest Service, USDA.

ACTION: Notice; extension of public comment period.

SUMMARY: On April 14, 1993, at 58 FR 19369, the Forest Service published a proposed rule, with request for comment, which revises the current process for administrative review of decisions concerning the management of National Forest System lands. The public comment period ends April 29, 1993. Several organizations and individuals have indicated that the 15 day review period was not sufficient time to review and analyze the draft regulations and the impacts on their organizations, and have requested additional time to prepare comments on the proposed rule. In response the Forest Service has decided to extend the comment period to June 1, 1993. Any comments received after the initial comment deadline and prior to this notice of extension will be considered in adoption of the final guidelines.

DATES: Comments must be received in writing and postmarked no later than June 1, 1993.

ADDRESSES: Comments should be addressed to: Deputy Chief, National Forest System (1570), Forest Service, USDA, P.O. Box 96090, Washington, DC 20090–6090.

POSTAL SERVICE

39 CFR Part 20

Proposed Amendment of International Mail Manual Part 790

AGENCY: Postal Service.

ACTION: Notice of proposed rulemaking.

SUMMARY: Pursuant to its authority under 39 U.S.C. 401(2), the Postal Service proposes to amend International Mail Manual part 790 to clarify when mailings posted in foreign countries are by or on behalf of a resident of the United States and to provide for the collection of U.S. domestic postage on certain mailings posted by or on behalf of a foreign mailer in a country other than the country where the mailer resides.

DATES: Comments on the proposed amendments must be received on or before June 1, 1993.

ADDRESSES: Written comments should be directed to the Manager, Mailing Standards, U.S. Postal Service, Washington, DC 20260–2419. Copies of all written comments will be available for public inspection and photocopying between the hours of 9 a.m. and 4 p.m., Monday through Friday in room 8430, 475 L'Enfant Plaza West, SW., Washington, DC 20260–2419.

FOR FURTHER INFORMATION CONTACT: Walter J. Grandjean, (202) 268–5180.

SUPPLEMENTARY INFORMATION: The United States is a member of the Universal Postal Union (UPU). By virtue of that membership, the U.S. Postal Service receives compensation, called terminal dues, from other postal administrations for delivering their U.S. destinating mail. Under the basic UPU system of compensation, which is largely influenced by small and developing countries' small volumes and their need for administrative simplicity, the Postal Service receives a fixed rate per kilogram of mail regardless of the number of items in that kilogram. Under the UPU system for higher-volume mail exchanges, the Postal Service receives one fixed rate per kilogram of letters and a different, lower fixed rate per kilogram of other

VOL 58 ISS 81 AP 29 1993 UMI

articles. The higher-volume system has a mechanism for adjusting the level of compensation if the average number of items per kilogram in a particular mail exchange is sufficiently greater than the world average on which the terminal dues charge is based, but this has not worked well in practice.

These flaws in the UPU compensation system have led to the diversion of heavier-weight items from the international mails, and the Postal Service and a number of other postal administrations negotiating different terminal dues arrangements that more accurately reflect the costs they incur for both light-weight and heavier-weight items. As we explain below, however, the flaws in the UPU system make it possible for foreign mailers to avoid paying foreign international postage rates that include terminal dues charges that cover the costs of the Postal Service in delivering foreign origin mail. Finally, the flaws in the UPU system have created opportunities for U.S. domestic mailers to avoid paying U.S. domestic postage.

"International remail" is a practice whereby a mailer transports mail from the country where he resides to another country for mailing. There are three kinds of remail. ABA remail is where a mailer who resides in country A transports mail to country B for mailing to addressees back in country A. ABB remail is where a mailer who resides in country A transports mail to country B for mailing to addressees in country B. ABC remail is where a mailer who resides in country A transports mail to country B for mailing to addressees in a third country, country C.

International remail, particularly ABA and ABC remail, can adversely affect the economic and financial stability of postal administrations. This is because these kinds of remail are based largely on taking advantage of the flaws in the UPU terminal dues systems. In the case of the United States, when U.S. residents take ½ ounce items to UPU terminal dues countries for mailing back to the U.S. the Postal Service can receive as little as 6¢ per item in compensation instead of 29¢ domestic postage.

Similarly, when a foreign mailer in a cost-based terminal dues country takes ½ ounce items to a UPU terminal dues country for mailing, the Postal Service can receive as little as 6¢ per item instead of the 23¢ per item it would have received under a cost-based terminal dues system. Since the Postal Service is required to break even financially, and all international costs must be covered by international revenues, the losses caused by remail have to be made up by charging higher rates to users of U.S. international mail services. In the view of the Postal Service, this is manifestly unfair.

International Mail Manual (IMM) part 790 authorizes the Postal Service to collect U.S. domestic postage on mailings addressed to the U.S. which are posted in foreign countries by or on behalf of U.S. residents or firms which have a place of business in the U.S. if (1) the foreign postage is lower than U.S. postage or (2) there are 1000 or more items in the mailing. These provisions are based on paragraphs 1, 2, and 3 of article 25 of the Universal Postal Convention, which authorizes postal administrations to collect domestic postage on mail posted in foreign countries by or on behalf of their residents. Neither article 25 nor IMM 790 defines who are residents or when a mailing is by or on behalf of a resident. This has resulted in a number of instances where U.S. residents have established overseas firms and joint ventures for the sole or main purpose of evading the application of IMM 790 and the payment of U.S. postage. The Postal Service proposes to stop this abuse by amending IMM 790.

The Postal Service first proposes adopting a broad definition of U.S. resident that would ensure not only that firms which are organized in the U.S. or have a place of business in the U.S. will pay U.S. postage, but also that any firm that has a sufficiently substantial connection with U.S. firms or individuals to act as their alter egos will pay U.S. postage. This proposed definition would include foreign firms and joint ventures in which firms organized in the U.S. or individuals who are residents of the U.S. have, directly or indirectly, a twenty percent or greater interest. The Postal Service believes that a twenty percent interest is generally enough to exercise control of a firm. The proposed definition would also include as U.S. residents foreign firms and joint ventures which have, directly or indirectly, a twenty percent interest in U.S. subsidiaries or firms. In this case, the Postal Service believes that the presence in the U.S. of a firm controlled by a foreign firm establishes a sufficient nexus with the U.S. to warrant treatment of the foreign firm as a U.S. resident. The proposed definition would also include foreign firms that have a presence in the U.S. but no fixed place of business. These firms, for example, have more or less permanent representatives in the U.S. that travel from city to city and conduct business in hotels. The Postal Service proposes that firms of this kind that are in the U.S. 180 days a year be considered U.S. residents for postage collection purposes. Finally, the proposed definition would specifically exclude firms whose only presence in the U.S. consists of a non-exclusive agent for receiving orders and remittances and for distributing goods exported to the U.S.

The Postal Service proposes to define "mailing by or on behalf of a U.S. resident" as a mailing from which a U.S. resident seeks or expects to derive economic benefit or advantage. This definition focuses on the party that is truly interested in a mailing, not the nominal mailer. It also focuses on the prospective nature of mail. Economic benefit or advantage would include sale of goods or services, or the collection of money owed.

IMM 790 does not presently apply to ABC remail, although paragraph 4 of article 25 of the Universal Postal Convention provides that postal administrations are not obliged to deliver mail posted in a country other than the one where the mailer resides. Until the development of cost-based terminal dues systems, it did not matter whether mail was posted in any particular country because the Postal Service would receive the same compensation regardless of where the mail was posted. With the advent of cost-based terminal dues, where mail is posted can mean the difference between foreign mailers paying the full cost of delivering their mail in the U.S. and U.S. mailers having to pay the cost of delivery. The Postal Service therefore proposes to extend the application of IMM 790 to mail posted in UPU terminal dues countries by or on behalf of residents of countries with which the Postal Service has negotiated cost-based terminal dues arrangements.

The Postal Service proposes to define country of residence as the country in which a firm has its principal place of business, where it is organized, or where the owners of a fifty percent interest in the firm reside. This is different from the definition of resident of the U.S. for a number of reasons. The definition of U.S. resident is based on finding a sufficient nexus with the U.S. to require payment of U.S. domestic postage regardless of where else a firm might be considered a resident or how many places a firm might be considered to reside. The definition of resident of a foreign country recognizes that firms may be present in many countries, but that only one or a few of those countries should be considered as any particular firm's residence for ABC remail postage collection purposes. Which criterion would apply in any particular case would depend on all the facts and circumstances.

The Postal Service proposes to define mailing by or on behalf of a resident of a cost-based terminal dues country as a mailing from which a firm seeks or expects to derive economic benefit or advantage related to activities conducted in any cost-based terminal dues country. This proposed definition takes into account that a firm can have operations in many countries, some of which may not be party to a cost-based terminal dues arrangement. A firm's reasons for being in any particular country may have nothing to do with the abuse with which the Postal Service is concerned: the migration of mail from countries that pay cost-based terminal dues to countries that do not, which results in subsidy of foreign mailers by users of U.S. international mail services. If a mailing benefits a resident of a cost-based terminal dues country and relates to activities conducted in any of the cost-based terminal dues countries, it should not be subsidized by U.S. mailers.

By the same token, it does not matter to the Postal Service whether a mailing is posted in the cost-based terminal dues country of residence or some other cost-based terminal dues country. With few exceptions, the compensation the Postal Service would receive would be the same. Moreover, particularly in Europe, a multinational firm may choose to mail in one country rather than several, and for non-postage reasons may choose to mail in a country other than the one of which it is a resident. The Postal Service therefore proposes that U.S. postage be collected only on mail posted in UPU terminal dues countries by or on behalf of residents of cost-based terminal dues countries. It should be noted that a firm can be both a resident of the U.S. and a resident of a foreign country. In such cases, the definitions applicable to both will be applied. Thus, a firm might not be required to pay U.S. postage as a resident of a cost-based terminal dues country, but could be required to pay U.S. postage as a U.S. resident.

This amendment of International Mail Manual Part 790 is not intended to tell persons or firms how to do business or to penalize them for how they do business. However, the Postal Service is required to fairly apportion costs to the users of mail services. The proposed rule will apportion costs to those mailers using the mail services.

List of Subjects in 39 CFR Part 20

Foreign relations.

Although the Postal Service is exempt from the advance notice requirements of the Administrative Procedure Act regarding proposed rulemaking (5 U.S.C. 553(b), (c)) by 39 U.S.C. 410(a), the Postal Service invites public comments on the following proposed revisions of the International Mail Manual, which is incorporated by reference in the Code of Federal Regulations. See 39 CFR 20.1.

Stanley F. Mires,

Chief Counsel Legislative.

790 Items Mailed Abroad by or on Behalf of Senders in the U.S. and Certain Other Countries

791 Postage Payment Required

Payment of United States postage is required to secure delivery of mail described in 792 under the following circumstances:

a. The mailing is by or on behalf of a person or firm that resides in the United States and the foreign rate of postage applied to such items is lower that the comparable United States domestic rate of postage, or 1000 or more such items are mailed in a 30 day period regardless of whether the foreign postage is lower than the comparable United States postage; or

b. The mailing is by or on behalf of a person or firm that resides in a country listed in Exhibit 791.1, is posted in a country not listed in Exhibit 791.1, and 1000 or more items are mailed in a 30 day period.

792 Mailings Affected

792.1 Special Conditions. The special conditions apply to items of mail which are posted in foreign countries:

a. By or on behalf of persons or firms who reside in the United States; or

b. By or on behalf of persons or firms who reside in one of the countries listed in Exhibit 791.1.

792.2 Residency

792.21 Criteria for U.S. Residency. A firm is a resident of the United States if it meets the following criteria:

a. It has a place of business in the United States; or

b. It is incorporated or otherwise organized in the United States, its territories, or possessions; or

c. It is twenty percent or more owned, directly or indirectly, by persons who reside in the United States, its territories, or possessions, or by firms incorporated or otherwise organized in the United States, its territories, or possessions; or

d. It owns, either singly or in combination with other firms in which it has a twenty percent or more interest, twenty percent or more of a firm incorporated or otherwise organized in the United States, its territories, or possessions.

792.22 Criteria for Countries Listed in Exhibit 791.1. A firm is a resident of a country listed in Exhibit 791.1 if it meets the following criteria:

a. It has its principal place of business in that country; or

b. It is incorporated or otherwise organized in that country, its territories, or possessions; or

c. It is fifty percent or more owned, directly or indirectly, by a person or persons who reside in that country, its territories, or possessions or by a firm or firms which are incorporated or otherwise organized in that country, its territories, or possessions.

792.3 By or on Behalf

792.31 United States Resident. A mailing is by or on behalf of a person or firm who resides in the United States if such a person or firm seeks or expects to derive economic benefit or advantage from that mailing.

79232. Resident of a Country Listed in Exhibit 971.1. A mailing is by or on behalf of a person or firm who resides in a country listed in Exhibit 791.1 if such a person or firm seeks or expects to derive economic benefit or advantage from that mailing related to operations physically conducted in any of those countries. These operations include, but are not limited to, selling goods manufactured in those countries and selling services provided in those countries.

792.4 Place of Business. A place of business in the United States is any location in the United States, its territories, or possessions where a firm's employees or agents regularly have personal contact with other individuals for the purpose of conducting the firm's business. For the purposes of this section, a firm whose employees or agents have personal contact with others for the purpose of conducting the firm's business in different places in the United States for short periods of time, e.g., at hotels in different cities for one or two days at a time, has a place of business in the United States if the aggregate amount of time spent in the United States is 180 days or more during a one year period.

792.5 Agents. The use of non-exclusive agent in the United States for the sole purposes of accepting orders and remissions for transmission to a firm in another country or of distributing merchandise manufactured in another country and shipped to the United States in bulk does not by itself constitute establishment of a place of business in the United States.

VOL 58 ISS 81 AP 29 1993 UMI

793 Advance Payment Required

793.1 Sample of Envelope. Senders affected by 791 must submit a sample of the proposed mailing (envelope and contents) with (1) a statement as to the number of items to be mailed, (2) when and where the mailing will take place, and (3) a check, made payable to the U.S. Postal Service, to cover the amount of the applicable U.S. postage, to the: MANAGER, BUSINESS MAIL ACCEPTANCE, CUSTOMER SERVICE SUPPORT, US POSTAL SERVICE, 475 L'ENFANT PLAZA SW., WASHINGTON, DC 20260–6808.

793.2 Headquarters Notification. Notification of postage acceptance and approval of the mailing will be given by Headquarters to the sender and to the appropriate U.S. receiving exchange office. This will permit the items in the mailing to go forward to the addresses without delay when the items reach the United States.

794 Treatment if Advance Payment Not Made

794.1 Return or Disposal of Items. Items may be returned to origin or disposed of in accordance with postal regulations if U.S. postage is not paid.

794.2 Mailings Received Without Advance Payment. A mailing subject to 791 received without advance payment of U.S. domestic postage will be held at the receiving exchange office. The exchange office will report all such mailings to the: MANAGER, BUSINESS MAIL ACCEPTANCE, CUSTOMER SERVICE SUPPORT, US POSTAL SERVICE, 475 L'ENFANT PLAZA SW., WASHINGTON, DC 20260–6808.

Reports must contain (1) title and/or nature of the items, (2) identity of sender, (3) number of items detained, (4) weight of a single item, (5) foreign postage paid per item, and (6) office of mailing. The exchange office will be advised to release the mail when the applicable postage has been paid.

795 Report of Mailings

Any mail appearing to be subject to the conditions of this section must be reported to Business Mail Acceptance, at USPS Headquarters, by the U.S. receiving exchange office.

BILLING CODE 7710–12–M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 22

[CC Docket No. 93–116; FCC 93–188]

Power Limits for Paging Stations Operating in the 931 MHz Band in the Public Land Mobile Service

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Federal Communications Commission proposes to amend its regulations on Public Mobile Service. The proposed amendments are necessary to permit higher effective radiated power for facilities authorized in the 931 MHz band. The intent of this proposal is to allow 3500 watt operation of all stations in the 931 MHz frequency band without requiring existing surrounding transmitters. This will be in the public interest since it will afford the benefits of higher power operation without unduly increasing the risks of interference. A waiver was granted to Skytel Corporation to operate transmitters on frequency 931.4375 MHz at 3500 watts effective radiated power, without first constructing facilities limited to 100 watts effective radiated power.

DATES: Comments must be submitted on or before June 17, 1993. Reply comments must be submitted on or before July 2, 1993.

ADDRESSES: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Carmen Borkowski or Jay Jackson, 202–632–6450.

SUPPLEMENTARY INFORMATION: The following is a summary of the Commission's Notice of Proposed Rule Making in CC Docket No. 93–116, adopted April 9, 1993 and released April 23, 1993. The full texts of all Commission decisions are available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington DC. The complete text of this decision may be purchased from the Commission's copy contractor, International Transcription Services, at (202) 857–3800, 2100 M Street, NW., suite 140, Washington, DC 20037.

Summary of the Notice of Proposed Rule Making

1. In this Notice, the Federal Communications Commission proposes to amend 47 CFR part 22. The rules in part 22 govern the Public Mobile Services. These amendments are proposed in order to allow 3500 watt operation of all stations in the 931 MHz frequency band without requiring existing surrounding transmitters operated at a lower power. This change is in the public interest since it will afford the benefits of higher power operation without unduly increasing the risks of interference because the potential for interference is not increased with the operation of fewer transmitters at higher power. Increased power limits will allow for greater flexibility for these paging systems since they could use fewer transmitters to cover the same geographic area with the concomitant result in efficiencies of scale, reduction in costs, and resulting benefits for consumers.

2. The proposal is to allow all stations in the 931 MHz band to be initially operated with any effective radiated power up to a maximum of 3500 watts. The height-power limits contained in 22.505(b) will be eliminated, 47 CFR 22.505(b). Carriers must maintain the geographic separation criteria for co-channel stations. 47 CFR 22.503(d). Stations in this band will continue to be classified according to antenna height above average terrain and maximum effective radiated power. 47 CFR 22.502(c). Reliable service area and interference area parameters established in the current rules are being maintained in the proposals. Additional transmitters can be built in accordance with § 22.117(b). 47 CFR 22.117(b).

3. Comments on these proposals are being sought, including the potential for adjacent channel interference resulting from these power increases. Furthermore, comment is being sought on whether the separation distances in our rules are adequate to protect future and existing stations from co-channel interference. This would include the co-channel interference potential to Canada and Mexico.

4. The Commission granted Skytel Corporation a waiver of various rules to operate transmitters on frequency 931.4375 MHz at 3500 watts effective radiated power. Skytel seeks to integrate its paging facilities on this frequency, with its nationwide paging network. The waiver is in the public interest because it will increase the capacity available for nationwide network paging service. During the pendency of this rule making other waiver requests to increase power will be entertained. Requests must comply with the requirements of § § 22.19, 22.502(c) and 22.504(b)(2) of the Rules and demonstrate the lack of interference to co-channel stations. A waiver request filed by American Paging Inc. was denied because it did not demonstrate that it would not cause interference to co-channel stations in proximity to its system.

Initial Regulatory Flexibility Analysis

5. Pursuant to the Regulatory Flexibility Act of 1980, the Commission's Initial Regulatory Flexibility Analysis follows:

6. Reason for action and objective. The Commission is proposing to amend Title 47, part 22 of the Code of Federal Regulations to reexamine the rules regarding effective radiated power for facilities authorized in the 931 MHz band. This rule making proceeding is initiated to obtain comment regarding changes in the power limit rules for Public Land Mobile paging station operated in the 931 MHz band. The objective of this proposal is to provide effective and adaptive regulation for communications. The proposed rules will enhance the efficiency of operations because fewer transmitters would be needed to cover the same geographic area. In addition, building penetration will be increased.

7. Legal Basis. Authority for this notice is contained in Sections 4(i) and 303(r) of the Communications Act of 1934, 47 U.S.C. 154(i) and 303(r).

8. Reporting, Recordkeeping and Other Compliance Requirements. The proposed rules would retain existing reporting, recordkeeping and other compliance requirements.

9. Federal rules that overlap, duplicate or conflict with these rules. None.

10. Description, potential impact and number of small entities affected. There are approximately 8,600 licensees subject to the rules in Part 22. A substantial portion of these are small entities. There are also a number of small entities whose business is consulting or providing other services in connection with part 22. The rule change in this proceeding would benefit providers of paging services in the 931 MHz frequency band, by reducing costs. A number of these providers are small entities.

11. Significant alternatives minimizing impact on small entities and consistent with stated objectives. The proposals contained in this Notice are meant to simplify and ease the regulatory burden on all Public Mobile Services applicants and licensees consistent with the Commission's established public interest objectives. We have determined no specific alternatives that would allow for high power operation of paging stations in the 931 MHz frequency band.

12. The Chief Counsel for Advocacy of the Small Business Administration will be served with a copy of this Notice of Proposed Rule Making, including the Initial Regulatory Analysis, in accordance with section 603(a) of the Regulatory Flexibility Act, 5 U.S.C. 603(a).

13. Accordingly, *It is Ordered,* That pursuant to the authority contained in sections 4 and 303 of the Communications Act of 1934, as amended, 47 U.S.C. 154, 303, this Notice of Proposed Rule Making *Is Issued.*

14. *It is further ordered* That the waiver petition filed by Skytel Corporation *Is Granted* to the extent indicated in the Order Granting Petition for Waiver and the waiver petition filed by American Paging, Inc. *Is Denied.*

Federal Communications Commission.
Donna R. Searcy,
Secretary.

Amendatory Text

Proposed Rules

Title 47 of the Code of Federal Regulations, part 22, is proposed to be amended as follows:

PART 22—PUBLIC MOBILE SERVICE

1. The authority citation for part 22 continues to read as follows:

Authority: Sections 4 and 303 of the Communications Act of 1934, as amended, 47 U.S.C. 154 and 303.

2. Section 22.505 is amended by removing and reserving paragraphs (b) (including table) and (c)(2):

§ 22.505 Antenna height power limit.

* * * * *

(b) [Reserved].

(c) * * *

(2) [Reserved]

* * * * *

3. Section 22.506 is amended by removing and reserving paragraph (f)(2) and revising paragraph (e) to read as follows:

§ 22.506 Power.

* * * * *

(e) *931–932 MHz Band.* Base stations in the 931–932 MHz band must not exceed 3500 watts effective radiated power.

(f) * * *

(2) [Reserved].

* * * * *

Thursday, April 29, 1993

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forms Under Review by Office of Management and Budget

April 23, 1993.

The Department of Agriculture has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extension, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) How often the information is requested, (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) Name and telephone number of the agency contact person.

Questions about the items in the listing should be directed to the agency person named at the end of each entry. Copies of the proposed forms and supporting documents may be obtained from: Department Clearance Officer, USDA, OIRM, room 404–W Admin. Bldg., Washington, DC 20250, (202) 690–2118.

BILLING CODE 3410–01–M

Federal Grain Inspection Service

Designation of the Central Illinois (IL) and Plainview (TX) Agencies

AGENCY: Federal Grain Inspection Service (FGIS), USDA.

ACTION: Notice.

SUMMARY: FGIS announces the designation of Central Illinois Grain Inspection, Inc. (Central Illinois), and Plainview Grain Inspection and Weighing Service, Inc. (Plainview), to provide official inspection services under the United States Grain Standards Act, as amended (Act).

EFFECTIVE DATE: June 1, 1993.

ADDRESSES: Homer E. Dunn, Chief, Review Branch, Compliance Division, FGIS, USDA, room 1647 South Building, P.O. Box 96454, Washington, DC 20090–6454.

FOR FURTHER INFORMATION CONTACT: Homer E. Dunn, telephone 202–720–8525.

SUPPLEMENTARY INFORMATION:

This action has been reviewed and determined not to be a rule or regulation as defined in Executive Order 12291 and Departmental Regulation 1512–1; therefore, the Executive Order and Departmental Regulation do not apply to this action.

In the October 30, 1992, **Federal Register** (57 FR 49166), FGIS announced that the designations of Central Illinois and Plainview end on May 31, 1993, and asked persons interested in providing official services within the specified geographic areas to submit an application for designation. Applications were due by November 30, 1992.

Central Illinois and Plainview, the only applicants, each applied for the entire area currently assigned to them. FGIS named and requested comments on the applicants for designation in the January 28, 1993, **Federal Register** (58 FR 6383). Comments were due by March 1, 1993. FGIS received one comment from a grain firm asking to be served by Amarillo instead of Plainview to reduce costs.

FGIS evaluated all available information regarding the designation criteria in section 7(f)(1)(A) of the Act; and according to Section 7(f)(1)(B), determined that Central Illinois and Plainview are able to provide official services in the geographic areas for which they applied.

Effective June 1, 1993, and ending May 31, 1996, Central Illinois and Plainview are designated to provide official inspection services in the geographic areas specified in the October 30, 1992, **Federal Register**. Interested persons may obtain official services by contacting Central Illinois at 309–827–7121 and Plainview at 806–293–1364.

Authority: Public Law 94–582, 90 Stat. 2867, as amended (7 U.S.C. 71 *et seq.*)

Dated: April 20, 1993.

Neil E. Porter,

Director, Compliance Division.

BILLING CODE 3410–EN–F

Request for Comments on the Applicants for Designation in the Geographic Areas Currently Assigned to the Central Iowa (IA) Agency and the States of Maine and Montana

AGENCY: Federal Grain Inspection Service (FGIS), USDA.

ACTION: Notice.

SUMMARY: FGIS requests interested persons to submit comments on the applicants for designation to provide official services in the geographic areas currently assigned to Central Iowa Grain Inspection Service, Inc. (Central Iowa), the Maine Department of Agriculture, Food and Rural Resources (Maine), and the Montana Department of Agriculture (Montana).

DATES: Comments must be postmarked, or sent by telecopier (FAX) or electronic mail by May 31, 1993.

ADDRESSES: Comments must be submitted in writing to Homer E. Dunn, Chief, Review Branch, Compliance Division, FGIS, USDA, room 1647 South Building, P.O. Box 96454, Washington, DC 20090–6454. SprintMail users may respond to [A:ATTMAIL,O:USDA,ID:A36HDUNN]. ATTMAIL and FTS2000MAIL users may respond to !A36HDUNN. Telecopier (FAX) users may send comments to the automatic telecopier machine at 202–720–1015, attention: Homer E. Dunn. All comments received will be made available for public inspection at the above address located at 1400 Independence Avenue, SW., during regular business hours.

FOR FURTHER INFORMATION CONTACT: Homer E. Dunn, telephone 202–720–8525.

SUPPLEMENTARY INFORMATION:

This action has been reviewed and determined not to be a rule or regulation as defined in Executive Order 12291 and Departmental Regulation 1512–1; therefore, the Executive Order and Departmental Regulation do not apply to this action.

In the March 2, 1993, **Federal Register** (58 FR 12022), FGIS asked persons interested in providing official services in the geographic areas assigned to Central Iowa, Maine, and Montana to submit an application for designation. Applications were due by March 31, 1993. There were four applicants. Central Iowa, Maine, and Montana each applied for designation in the entire area currently assigned to them. The D. R. Schaal Agency, Inc. (Schaal), applied for designation to serve part of the Central Iowa area: Farmers Co-op Elevator Company, Chapin, Franklin County; Hampton Farmers Co-op Company, Hampton, Franklin County; and Farmers Community Co-op, Inc., Rockwell, Cerro Gordo County, Iowa, in addition to the area they are already designated to serve. Central Iowa and Schaal are contiguous official agencies.

FGIS is publishing this notice to provide interested persons the opportunity to present comments concerning the applicants. Commenters are encouraged to submit reasons and pertinent data for support or objection to the designation of these applicants. All comments must be submitted to the Compliance Division at the above address.

Comments and other available information will be considered in making a final decision. FGIS will publish notice of the final decision in the **Federal Register**, and FGIS will send the applicants written notification of the decision.

Authority: Public Law 94–582, 90 Stat. 2867, as amended (7 U.S.C. 71 *et seq.*)

Dated: April 20, 1993.

Neil E. Porter,

Director, Compliance Division.

BILLING CODE 3410–EN–F

Request for Applications from Persons Interested in Designation to Provide Official Services in the Geographic Areas Presently Assigned to the Hastings (NE) Agency and the State of New York

AGENCY: Federal Grain Inspection Service (FGIS), USDA.

ACTION: Notice.

SUMMARY: The United States Grain Standards Act, as amended (Act), provides that official agency designations shall end not later than triennially and may be renewed. The designations of Hastings Grain Inspection, Inc. (Hastings), and the New York State Department of Agriculture and Markets (New York) will end October 31, 1993, according to the Act, and FGIS is asking persons interested in providing official services in the specified geographic areas to submit an application for designation.

DATES: Applications must be postmarked or sent by telecopier (FAX) on or before May 31, 1993.

ADDRESSES: Applications must be submitted to Homer E. Dunn, Chief, Review Branch, Compliance Division, FGIS, USDA, room 1647 South Building, P.O. Box 96454, Washington, DC 20090–6454. Telecopier (FAX) users may send their application to the automatic telecopier machine at 202–720–1015, attention: Homer E. Dunn. If an application is submitted by telecopier, FGIS reserves the right to request an original application. All applications will be made available for public inspection at this address located at 1400 Independence Avenue, SW., during regular business hours.

FOR FURTHER INFORMATION CONTACT: Homer E. Dunn, telephone 202–720–8525.

SUPPLEMENTARY INFORMATION:

This action has been reviewed and determined not to be a rule or regulation as defined in Executive Order 12291 and Departmental Regulation 1512–1; therefore, the Executive Order and Departmental Regulation do not apply to this action.

Section 7(f)(1) of the Act authorizes FGIS' Administrator to designate a qualified applicant to provide official services in a specified area after determining that the applicant is better able than any other applicant to provide such official services.

FGIS designated Hastings, main office located in Hastings, Nebraska, and New York, main office located in Albany, New York, to provide official grain inspection services under the Act on November 1, 1990.

Section 7(g)(1) of the Act provides that designations of official agencies shall end not later than triennially and may be renewed according to the criteria and procedures prescribed in section 7(f) of the Act. The designations of Hastings and New York end on October 31, 1993.

The geographic area presently assigned to Hastings, in the State of Nebraska, pursuant to section 7(f)(2) of the Act, which will be assigned to the applicant selected for designation is as follows:

Bounded on the North by the northern Nebraska State line from the western Sioux County line east to the eastern Knox County line;

Bounded on the East by the eastern and southern Knox County lines; the eastern Antelope County line; the northern Madison County line east to U.S. Route 81; U.S. Route 81 south to the southern Madison County line; the southern Madison County line; the eastern Boone, Nance, and Merrick County lines; the Platte River southwest; the eastern Hamilton County line; the

VOL

UMI

northern and eastern Fillmore County lines; the southern Fillmore County line west to U.S. Route 81; U.S. Route 81 south to State Highway 8; State Highway 8 west to the County Road 1 mile west of U.S. Route 81; the County Road south to southern Nebraska State line;

Bounded on the South by the southern Nebraska State line, from the County Road 1 mile west of U.S. Route 81, west to the western Dundy County line; and

Bounded on the West by the western Dundy, Chase, Perkins, and Keith County lines; the southern and western Garden County lines; the southern Morrill County line west to U.S. Route 385; U.S. Route 385 north to the southern Box Butte County line; the southern and western Sioux City County lines north to the northern Nebraska State line.

The following locations, outside of the above contiguous geographic area, are part of this geographic area assignment: Farmers Coop, and Big Springs Elevator, both in Big Springs, Deuel County (located inside Denver Grain Inspection's area); and Farmers Cooperative Grain Company, and Wagner Mills, Inc., both in Columbus, Platte County (located inside Fremont Grain Inspection Department, Inc.'s, area).

The geographic area presently assigned to New York, pursuant to section 7(f)(2) of the Act, which will be assigned to the applicant selected for designation, is the entire State of New York, except those export port locations within the State which are serviced by FGIS.

Interested persons, including Hastings and New York, are hereby given the opportunity to apply for designation to provide official services in the geographic areas specified above under the provisions of section 7(f) of the Act and § 800.196(d) of the regulations issued thereunder. Designation in the specified geographic areas is for the period beginning November 1, 1993, and ending October 31, 1996. Persons wishing to apply for designation should contact the Compliance Division at the address listed above for forms and information.

Applications and other available information will be considered in determining which applicant will be designated.

Authority: Public Law 94–582, 90 Stat. 2867, as amended (7 U.S.C. 71 *et seq.*)

Dated: April 20, 1993.

Neil E. Porter,

Director, Compliance Division.

BILLING CODE 3410–EN–F

Proposed Amendment of Amarillo's Geographic Area, Request for Comments on the Need for Official Services in the Fort Worth Region, and Request for Applications from Persons Interested in Designation to Provide Official Services in the Fort Worth (TX) Region

AGENCY: Federal Grain Inspection Service (FGIS), USDA.

ACTION: Notice.

SUMMARY: The Amarillo Grain Exchange, Inc. (Amarillo), asked FGIS to amend its geographic area to delete the Fort Worth portion, due to the low volume of requests for official inspection services. FGIS proposes to amend Amarillo's assigned geographic area to delete the Fort Worth portion effective July 31, 1993, and is requesting comments on the need for official inspection services in the Fort Worth region. FGIS also is requesting persons interested in providing official services in the Fort Worth region to submit an application for designation.

DATES: Applications and comments must be postmarked on or sent by telecopier (FAX) by May 31, 1993.

ADDRESSES: Applications and comments must be submitted to Homer E. Dunn, Chief, Review Branch, Compliance Division, FGIS, USDA, room 1647 South Building, P.O. Box 96454, Washington, DC 20090–6454. Telecopier (FAX) users may send applications and comments to the automatic telecopier machine at 202–720–1015, attention: Homer E. Dunn. If an application is submitted by telecopier, FGIS reserves the right to request an original application. All applications and comments will be made available for public inspection at this address at 1400 Independence Avenue, SW., during regular business hours.

FOR FURTHER INFORMATION CONTACT: Homer E. Dunn, telephone 202–720–8525.

SUPPLEMENTARY INFORMATION:

This action has been reviewed and determined not to be a rule or regulation as defined in Executive Order 12291 and Departmental Regulation 1512–1; therefore, the Executive Order and Departmental Regulation do not apply to this action.

Section 7(f)(1) of the United States Grain Standards Act, as amended (Act), authorizes FGIS' Administrator, after determining that there is a need for official services, to designate a qualified applicant to provide official services in a specified area after determining that the applicant is better able than any other applicant to provide such official services.

Section 7(g)(1) of the Act provides that designations of official agencies shall end not later than triennially and may be renewed according to the criteria and procedures prescribed in section 7(f) of the Act.

FGIS designated Amarillo, headquartered in Amarillo, Texas, to provide official inspection services for the period beginning December 1, 1992, and ending November 30, 1995.

Amarillo subsequently asked FGIS to amend its assigned geographic area to delete the Fort Worth portion. Amarillo is requesting that the counties of Bell, Bosque, Brown, Coleman, Collin, Comanche, Cooke, Dallas, Denton, Eastland, Ellis, Erath, Falls, Fannin, Grayson, Hamilton, Hill, Hood, Hunt, Jack, Johnson, Lamar, Limestone, McLennan, Milam, Montague, Parker, Palo Pinto, Red River, Somervell, Stephens, Tarrant, Young, and Wise, Texas, be deleted from its geographic area. FGIS is proposing to amend Amarillo's designation accordingly effective July 31, 1993. Persons wishing to obtain official inspection services in these counties after July 31, 1993, should contact FGIS' Plainview Field Office at 806–293–4482 (FAX: 806–293–9365).

FGIS is requesting comments on the need for official inspection services in the counties listed above. At the same time FGIS is requesting persons interested in providing official services in the Fort Worth region to submit an application for designation.

FGIS will not designate an applicant unless it determines that there is a need for official services in the Fort Worth region.

The region currently assigned to Amarillo, in the State of Texas, pursuant to section 7(f)(2) of the Act, which may be assigned to the applicant selected for designation, if there is a need for official services, is as follows: Bell, Bosque, Brown, Coleman, Collin, Comanche, Cooke, Dallas, Denton, Eastland, Ellis, Erath, Falls, Fannin, Grayson, Hamilton, Hill, Hood, Hunt, Jack, Johnson, Lamar, Limestone, McLennan, Milam, Montague, Parker, Palo Pinto, Red River, Somervell, Stephens, Tarrant, Young, and Wise Counties, Texas.

Interested persons are hereby given an opportunity to submit comments on the need for official inspection services in the region specified above, and to apply for designation under the provisions of section 7(f) of the Act and § 800.196(d) of the regulations issued thereunder. Designation in the Fort Worth, Texas, area is for a period not to exceed 3 years beginning about October 1, 1993. Persons wishing to apply for designation should contact the Compliance Division at the address listed above for forms and information.

Applications and other available information will be considered in determining which applicant will be designated after the FGIS determines that there is a need for official services in the Forth Worth region.

Authority: Public Law 94–582, 90 Stat. 2867, as amended (7 U.S.C. 71 *et seq.*)

BILLING CODE 3410–EN–F

Forest Service

Exemption of West Buffalo Salvage and Rehabilitation Project From Appeal

AGENCY: USDA Forest Service, Northern Region.

ACTION: Notification that a timber salvage and rehabilitation project designed to recover insect- and winter-killed timber is exempt from appeal under the provisions of 36 CFR part 217.

SUMMARY: In 1989, a severe winter following several years of drought led to mortality and weakening of coniferous trees in the West Buffalo and Clear Creek drainages. This condition led to an epidemic of Douglas-fir bark beetle, and the weakened trees have died. In 1993, the Lincoln District Ranger proposed a recovery of damaged sawtimber using a salvage timber sale and reforestation of harvested areas to rehabilitate affected lands.

The District Ranger has determined, through an environmental analysis documented in the West Buffalo Salvage and Rehabilitation Project file and Decision Memo, that there is good cause to expedite these actions in order to rehabilitate National Forest System lands and recover damaged resources. Salvage of commercial sawtimber within the area affected must be accomplished quickly to avoid further deterioration of sawtimber and reduce the risk of catastrophic wildfire or of a Douglas-fir bark beetle infestation in adjacent health timber stands.

EFFECTIVE DATE: Effective on April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Joel Marshik; Lincoln District Ranger; Helena National Forest; P.O. Box 219; Lincoln, MT 59639.

SUPPLEMENTARY INFORMATION: During February of 1989, on unseasonably warm week was followed by a severe and rapid drop in temperature which caused foliage to freeze and dessicate (commonly referred to as "Red Belt") and stressed, severely damaged and/or killed coniferous trees on approximately 7,300 acres within the Lincoln Ranger District. The degree of damage varied from a few trees per acre to near total mortality to both the overstory and understory vegetation. Within the immediate area of the proposed West Buffalo Timber Sale an estimated 900 acres were affected. This damaged and/or killed timber is located within lands designated as suitable for timber management assigned to management areas T1, T2, T3, and T5 (Helena National Forest Plan, September 1987).

The Helena National Forest identified the need to quickly respond to the winter-kill situation. Stands were prioritized for salvage, and 1990 timber sale offerings were comprised almost entirely of the dead and damaged timber. Timber stands in the West Buffalo area did not appear to be as seriously affected as other areas and were not proposed for treatment in the 1990 salvage program. However, stand conditions continued to deteriorate, leading the Lincoln District Ranger to propose the Sheldon Gulch Timber Sale in 1991 to salvage 188 acres of dead timber in West Buffalo and harvest 92 acres of green timber in the adjacent Sheldon Gulch drainage. The decision was appealed and subsequently the decision was withdrawn.

Timber stand conditions have continued to deteriorate, and additional mortality has occurred within the last year. The Lincoln District Ranger proposed salvage and restoration of 220 acres of dead and dying timber in the West Buffalo area. This proposal is designed to meet the following needs: (1) Recover dead and dying timber before it loses its commercial value; (2) rehabilitate the affected timber stands through site preparation and planting, provide big game hiding cover, accelerate visual and hydrologic recovery; and (3) reduce the potential for wildfire by reducing fuel loading. Unless the material is salvaged soon, the opportunities for initiation of activities to promote long-term site recovery will be lost. The analysis of environmental effects conducted for this proposed action is based upon information developed for the 1991 Sheldon Gulch timber sale proposal. Two alternatives were developed, and a no-action alternative was analyzed. This information is incorporated by reference in the project file and was the basis for the interdisciplinary team's analysis and recommendation to the District Ranger to proceed with the West Buffalo Salvage and Rehabilitation Project.

The selected alternative would salvage 600 MBF of dead, dying, and disease-infected timber from approximately 220 acres. No permanent road construction is required to implement this project. There will be approximately 3,200 feet of temporary roads required to access landings within harvest units.

The sale and accompanying work is designed to accomplish the objectives as quickly as possible to minimize the risk of catastrophic wildfire, to reforest productive timber growing sites, and to recover merchantable sawtimber before it becomes infeasible. To expedite implementation of the decision, the procedures outlined in 36 CFR 217.4(a)(11) are being followed. Under this Regulation the following may be exempt from appeal:

Decisions related to rehabilitation of National Forest System lands and recovery of forest resources resulting from natural disasters or other natural phenomena * * * when the Regional Forester * * * determines and gives notice in the **Federal Register** that good cause exists to exempt such decisions from review under this part.

Based upon the analysis documented in the West Buffalo Salvage and the Rehabilitation Project file and the District Ranger's Decision Memo for this project, I have determined that good cause exists to exempt this decision from administrative review. Therefore, upon publication of this notice, this project will not be subject to review under 36 CFR part 217.

Dated: April 21, 1993.

Christopher D. Risbrudt,

Deputy Regional Forester, Northern Region.

[FR Doc. 93–9897 Filed 4–28–93; 8:45 am]

BILLING CODE 3410–11–M

Soil Conservation Service

Intent To Prepare an Environmental Impact Statement; Creek Watershed, Kansas

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy

VOL 58 ISS 81 AP 29 1993 UMI

Act of 1969, the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Soil Conservation Service Guidelines (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for the Upper Delaware and Tributaries Watershed, Atchison, Brown, Jackson, and Nemaha Counties, Kansas.

FOR FURTHER INFORMATION CONTACT: James N. Habiger, State Conservationist, Soil Conservation Service, 760 South Broadway, Salina, Kansas 67401, telephone 913–823–4565.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project may cause local, regional, or national impacts on the environment. As a result of these findings, James N. Habiger, State Conservationist, has determined that the preparation and review of an environmental impact statement are needed for this project.

Water quality is impaired by suspended solids, phosphorus, fecal bacteria, and organic waste. Fish and wildlife assessments have been made at several potential floodwater retarding dam sites. Habitat losses have been identified as well as alternative mitigation measures.

The project concerns a plan for flood prevention and water quality improvement. Alternatives under consideration to reach these objectives include systems for conservation land treatment, riparian and other woodland treatment, treatment associated with livestock waste, floodwater retarding dams, and a multipurpose dam with water supply and recreational facilities.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Soil Conservation Service invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental impact statement. As a part of preparing this impact statement, scoping notices have been provided to state and federal agencies for comment. This scoping process provided a basis for identifying issues to be addressed and for determining the degree of significance of the issues.

The Soil Conservation Service invites the participation and consultation of those interested in the scoping and preparation of the draft impact statement. Further information on the proposed actions or preparation of the impact statement may be obtained from James N. Habiger, State Conservationist, at the above address or telephone 913–823–4565.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials)

Dated: April 19, 1993.

James N. Habiger,

State Conservationist.

BILLING CODE 3410–16–M

COMMISSION ON CIVIL RIGHTS

Agenda and Notice of Public Meeting of the Georgia Advisory Committee

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Georgia Advisory Committee to the Commission will convene at 3 p.m. and adjourn at 5 p.m. on Friday, May 14, 1993, at the NationsBank Tower, 600 Peachtree Street, 52nd Floor, Conference Room A, Atlanta, Georgia 30308. The purpose of this meeting is: (1) To discuss the status of the SACs and the Commission; (2) to hear a report on civil rights progress and/or problems in the State and Nation; and (3) to discuss the affirmative action and equal opportunity plans of the Atlanta Committee for the Olympic Games (ACOG) as they relate to minorities and women.

Persons desiring additional information, or planning a presentation to the Committee, should contact Committee Chairperson Dale M. Schwartz, 404–657–8097, or Bobby D. Doctor, Director of the Southern Regional Office, 404–730–2476 (TDD 404–730–2481). Hearing-impaired persons who will attend the meeting and require the services of a sign language interpreter should contact the Regional Office at least five (5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, April 20, 1993.

Carol-Lee Hurley,

Chief, Regional Programs Coordination Unit.

BILLING CODE 6335–01–P

DEPARTMENT OF COMMERCE

Bureau of Export Administration

Action Affecting Export Privileges; Eddie Haak and Haly BVDA and Haly Invest NV and S H C NV Also Known as Second Hand Computers

In the matter of: Eddie Haak, Bosstraat 74, 9111 Sint-Niklaas, Belgium [1] and Haly BVDA Bosstraat 66, 9111 Sint-Niklaas, Belgium, and Haly Invest NV, Bosstraat 74, 9111 Sint-Niklaas, Belgium, and S H C NV also known as Second Hand Computers, Bosstraat 74, 9111 Sint-Niklaas, Belgium.

Related Party Order

On September 25, 1991, Iain S. Baird, Director, Office of Export Licensing, issued an Order denying Eddie Haak (Haak) permission to apply for or use any export license until May 19, 1999. 56 FR 50847 (October 9, 1991). The Order was based on Haak's May 19, 1989 conviction for violating the Export Administration Act of 1979, as amended (currently codified at 50 U.S.C.A. app. 2401–2420 (1991, Supp. 1992, and Pub. L. 103–10)) (the Act).

Section 11(h) of the Act provides that any person related, through affiliation, ownership, control, or position of responsibility, to a person who has been denied export privileges because of his conviction for violating the Act may also be denied export privileges. On February 22, 1993, Haly BVDA, Haly Invest NV, and S H C NV, also known as Second Hand Computers, were notified that the Bureau of Export Administration, U.S. Department of Commerce, had information that they were related to Haak through affiliation, ownership, control, or position of responsibility. They were also advised that, after consulting with the Director, Office of Export Enforcement, I intended to deny them permission to apply for or use any export license, including any general license, because of their relationship with Haak, as provided by the Act and § 770.15(h) of the Export Administration Regulations (currently codified at 15 CFR parts 768–799 (1992)) (the Regulations).

The notification to the named companies also advised them of their right to request a hearing concerning their relationship with Haak within 20 days of their receipt of the notification letter. Although all three companies received the notification, none of them

[1] The initial order entered against Haak identified his address as "Bos Straat 74, 9180 (St. Niklaas) Belsel, Belgium." As a result of the information the Department obtained regarding the addresses for the related persons, the Department is amending the address for Haak to conform to the address for the related persons that are located at the same address as Haak.

requested a hearing concerning any of the matters set forth in the notice.

Accordingly, I hereby find that Haly BVDA, Bosstraat 66, 9111 Sint-Niklaas, Belgium, Haly Invest NV, Bosstraat 74, 9111 Sint-Niklaas, Belgium, and S H C NV, also known as Second Hand Computers, Bosstraat 74, 9111 Sint-Niklaas, Belgium, are related to Eddie Haak, a person denied all U.S. export privileges until May 19, 1999, through affiliation, ownership, control, or position of responsibility.

Accordingly, the Order of September 25, 1991 denying Eddie Haak permission to apply for or use any export license, including any general license, is hereby amended as follows:

Ordered

I. All outstanding individual validated licenses in which Eddie Haak or any of the related persons, Haly BVDA, Haly Invest NV, and S H C NV, also known as Second Hand Computers, appears or participates, in any manner or capacity, are hereby revoked and shall be returned forthwith to the Office of Export Licensing for cancellation. Further, all of Haak's, Haly BVDA's, Haly Invest NV's, and S H C NV's privileges of participating, in any manner or capacity, in any special licensing procedure, including, but not limited to, distribution licenses, are hereby revoked.

II. Until May 19, 1999, Eddie Haak, Bosstraat 74, 9111 Sint-Niklaas, Belgium, and the related persons, Haly BVDA, Bosstraat 66, 9111 Sint-Niklaas, Belgium; Haly Invest NV, Bosstraat 74, 9111 Sint-Niklaas, Belgium; and S H C NV, also known as Second Hand Computers, Bosstraat 74, 9111 Sint-Niklaas, Belgium, hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction in the United States or abroad involving any commodity or technical data exported or to be exported from the United States, in whole or in part, and subject to the Regulations. Without limiting the generality of the foregoing, paritication, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (i) As a party or as a representative of a party to any export license application submitted to the Department; (ii) in preparing or filing with the Department any export license application or request for reexport authorization, or any document to be submitted therewith; (iii) in obtaining from the Department or using any validated or general export license, reexport authorization, or other export control document; (iv) in carrying on negotiations with respect to, or in receiving, ordering, buying, selling, delivering, storing, using, or disposing of, in whole or in part, any commodities or technical data exported or to be exported from the United States and subject to the Regulations; and (v) in financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. After notice and opportunity for comment as provided in § 770.15(h) of the Regulations, any person, firm, corporation, or business organization related to Haak, Haly BVDA, Haly Invest NV, or S H C NV, also known as Second Hand Computers, by affiliation, ownership, control, or position of responsibility in the conduct of trade or related services may also be subject to the provisions of this Order.

IV. As provided in § 787.12(a) of the Regulations, without prior disclosure of the facts to and specific authorization of the Office of Export Licensing, in consultation with the Office of Export Enforcement, no person may directly or indirectly, in any manner or capacity: (i) Apply for, obtain, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to an export or reexport of commodities or technical data by, to, or for another person then subject to an order revoking or denying his export privileges or then excluded from practice before the Bureau of Export Administration; or (ii) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate: (a) In any transaction which may involve any commodity or technical data exported or to be exported from the United States; (b) in any reexport thereof; or (c) in any other transaction which is subject to the Export Administration Regulations, if the person denied export privileges may obtain any benefit or have any interest in, directly or indirectly, any of these transactions.

V. This Order is effective immediately and shall remain in effect until May 19, 1999.

VI. A copy of this Order shall be delivered to Haak and each of the related persons, Haly BVDA, Haly Invest NV, and S H C NV, also known as Second Hand Computers. This Order shall be published in the **Federal Register**.

Dated: April 22, 1993.

Eileen Albanese,

Acting Director, Office of Export Licensing.

BILLING CODE 3510–DT–M

Minority Business Development Agency

[Project I.D. No. 06–10–93007–01]

Business Development Center Applications: Laredo MBDC

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: In accordance with Executive Order 11625, the Minority Business Development Agency (MBDA) is soliciting competitive applications under its Minority Business Development Center (MBDC) program to operate an MBDC for approximately a 3-year period, subject to Agency priorities, recipient performance and the availability of funds. The cost of performance for the first budget period (12 months) is estimated as $165,000 in Federal funds. An audit fee of $4,125 has been added to the Federal amount. The total funding breakdown is as follows: $169,125 Federal and $29,846 non-Federal for a total of $198,971. The period of performance will be from September 1, 1993 to August 1, 1994. The MBDC will operate in the Laredo, Texas MSA geographic service area.

The funding instrument for the MBDC will be a cooperative agreement. Competition is open to individuals, non-profit and for-profit organizations, state and local governments, American Indian tribes and educational institutions.

The MBDC program is designed to provide business development services to the minority business community for the establishment and operation of viable minority businesses. To this end, MBDA funds organizations that can identify and coordinate public and private sector resources on behalf of minority individuals and firms; offer a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be evaluated initially by regional staff on the following criteria: The experience and capabilities of the firm and its staff in addressing the needs of the business community in general and, specifically, the special needs of minority businesses, individuals and organizations (50 points); the resources available to the firm in providing business development services (10 points); the firm's approach (techniques and methodologies) to performing the work requirements included in the application (20 points); and the firm's estimated cost for providing such assistance (20 points). An application

VOL 58 ISS 81 AP 29 1993 UMI

must receive at least 70% of the points assigned to any one evaluation criteria category to be considered programmatically acceptable and responsive. The selection of an application for further processing by MBDA will be made by the Director based on a determination of the application most likely to further the purpose of the MBDC Program. The application will then be forwarded to the Department for final processing and approval, if appropriate.

Unsatisfactory performance under prior Federal awards may result in an application not being considered for funding.

If the MBDC performs satisfactorily, it may continue to operate after the initial competitive year for up to 2 additional budget periods. An MBDC with year-to-date "commendable" and "excellent" performance ratings (28 consecutive months) may continue to be funded for up to 3 or 4 additional budget periods, respectively. Under no circumstances shall an MBDC be funded for more than 5 consecutive budget periods without competition. Periodic reviews culminating in year-to-date quantitative and qualitative evaluations will be conducted to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA based on such factors as the MBDC's performance, the availability of funds and Agency priorities.

Awards under this program shall be subject to all Federal Laws and Department of Commerce policies, regulations, and procedures applicable to Federal assistance financial awards.

Consistent with OMB Circular A-129, "Policies for Federal Credit Programs and Non-tax Receivables," no award of Federal funds shall be made to an applicant who has an outstanding delinquent Federal debt until either the delinquent account is paid in full, a negotiated repayment schedule is established and at least one payment is received, or other arrangements satisfactory to DoC are made.

Notification that a false statement on an application is grounds for denial or termination of funds and grounds for possible punishment by a fine or imprisonment as provided in 18 U.S.C. 1001.

Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26. The Departmental Grants Officer may terminate any grant/cooperative agreement in whole or in part at any time before the date of completion whenever it is determined that the MBDC has failed to comply with the conditions of the grant/cooperative agreement. Examples of some of the conditions which can cause termination are unsatisfactory performance of MBDC work requirements; and reporting inaccurate or inflated claims of client assistance or client certification. Such inaccurate or inflated claims may be deemed illegal and punishable by law. Name checks are intended to reveal if any key individuals associated with the applicant have been convicted of or are currently facing criminal charges such as fraud, theft, perjury, or other matters which significantly reflect on the applicant's managements honesty or financial integrity. Notification that if applicants incur any costs prior to an award being made they do so solely at their own risk of not being reimbursed by the Government. Notwithstanding any verbal assurance that they may have received, there is no obligation on the part of DOC to cover pre-award costs.

On November 18, 1988, Congress enacted the Drug-Free Workplace Act of 1988 (Public Law 100-690, title V, subtitle D). The statute requires contractors and grantees of Federal agencies to certify that they will provide a drug-free workplace. Pursuant to these requirements, the applicable certification form be completed by each applicant as a precondition for receiving Federal grant or cooperative agreement awards.

"Certification for Contracts, Grants, Loans, and Cooperative Agreement" and CD-511, the "Certification Regarding Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements and Lobbying" is required in accordance with section 319 of Public Law 101-121, which generally prohibits recipients of Federal contracts, grants, and loans from using Legislative Branches of the Federal Government in connection with a specific contract, grant or loan. Recipients shall require applicant/bidders for subgrants, contracts, subcontracts, or other lower tier covered transactions at any tier under the award to submit, if applicable, a completed Form CD-512, "Certifications Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered by Transactions and Lobbying".

CLOSING DATE: The closing date for applications is June 11, 1993. Applications must be postmarked on or before June 11, 1993. This solicitation may be cancelled based on satisfactory performance of current operator.

ADDRESSES: Please mail completed application to the following address: Dallas Regional Office, 1100 Commerce St., room 7B23, Dallas, Texas 75242.

FOR ADDITIONAL INFORMATION REGARDING THIS SOLICITATION: Dallas Regional Office, 1100 Commerce Street, room 7B23, Dallas, Texas 75242, Attn: Yvonne Guevara, (214) 767-8001.

Requests for application kit must be in writing.

A pre-bid conference will be held on May 14, 1993 in the Earl Cabell Federal Building, room 7B23, on 1100 Commerce Street, Dallas, Texas at 10 a.m.

SUPPLEMENTARY INFORMATION: Anticipated processing time of this award is 120 days. Executive Order 12372, "Intergovernmental Review of Federal Programs," is not applicable to this program. Questions concerning the preceding information, copies of application kits and applicable regulations can be obtained at the above address.

BILLING CODE 3510-21-M

National Oceanic and Atmospheric Administration

Coastal Zone Management: Federal Consistency Appeal

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of decision.

On March 5, 1993, the Secretary of Commerce (Secretary) issued a decision in the consistency appeal of Jorge L. Guerrero-Calderon (Appellant). The Appellant had applied to the U.S. Army Corps of Engineers (Corps) for a permit to construct a wooden pier with mooring pilings and buoys on Culebra Island, Puerto Rico. In conjunction with the Federal permit application, the Appellant submitted to the Corps a certification that the proposed activity is consistent with Puerto Rico's federally approved Coastal Management Program (CMP). The Puerto Rico Planning Board (PRPB), the Commonwealth of Puerto Rico's coastal management agency, reviewed the certification pursuant to section 307(c)(3)(A) of the Coastal Zone Management Act of 1972, as amended (CZMA), 16 U.S.C. 1456(c)(3)(A).

On February 9, 1989, the PRPB objected to the Appellant's consistency certification for the proposed project on

the ground that the proposed project is not in accordance with Puerto Rico's CMP policies that protect sea turtle habitat. Under CZMA section 307(c)(3)(A) and 15 CFR 930.131, the PRPB's consistency objection precludes the Corps from issuing a permit for the activity unless the Secretary finds that the activity is either consistent with the objectives or purposes of the CZMA (Ground I) or necessary in the interest of national security (Ground II). The Appellant based his appeal on Ground I.

Upon consideration of the information submitted by the Appellant, the PRPB and several Federal agencies, the Secretary made the following findings pursuant to 15 CFR 930.121(b): The proposed pier will cause adverse effects on the resources of the coastal zone, when performed separately or in conjunction with other activities, substantial enough to outweigh its contribution to the national interest. Because the second element of Ground I was therefore not met, it was unnecessary to examine the other three elements. Accordingly, the proposed project is not consistent with the objectives or purposes of the CZMA.

Because the Appellant's proposed project failed to satisfy all of the requirements of Ground I, the Secretary did not override the Commonwealth's objection to the Appellant's consistency certification. Consequently, the proposed project may not be permitted by Federal agencies. Copies of the decision may be obtained from the contact person listed below.

FOR ADDITIONAL INFORMATION CONTACT: Glenn E. Tallia, Attorney-Adviser, Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration, 1305 East-West Highway, suite 6110, Silver Spring, Maryland 20910; (301) 713-2967.

BILLING CODE 3510-08-M

Endangered and Threatened Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of a revision to application P507B for a scientific research permit.

On September 22, 1992 notice was published (57 FR 43706) that an application has been filed by Washington Department of Fisheries (WDF) for a Permit to take adult listed Snake River fall chinook salmon (*Oncorhynchus tshawytscha*) for the purposes of scientific research, as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing listed fish and wildlife (50 CFR parts 217-222).

Notice is hereby given that WDF has revised their application for a Permit as authorized by the ESA and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-227).

WDF requests authorization for the following changes: (1) To radio tag an additional 35 listed adult Snake River fall chinook salmon at Ice Harbor Dam; and (2) to release all radio-tagged listed adult Snake River fall chinook salmon upstream of Ice Harbor Dam, instead releasing half upstream and half below the dam, as in 1992.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, Office of Protected Resources, National Marine Fisheries Service, 1335 East-West Highway, room 8268, Silver Spring, MD 20910, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries. All statements and opinions contained in the application and revision request summaries are those of the Applicant and do not necessarily reflect the views of NMFS.

Documents submitted in connection with the above application and revision are available for review by interested persons in the following offices by appointment:

Office of Protected Resources, National Marine Fisheries Service, 1335 East-West Highway, Suite 8268, Silver Spring, MD 20910 (301/713-2322); and

Environmental and Technical Services Division, National Marine Fisheries Services, 911 North East 11th Avenue, room 620, Portland, OR 97232 (503/230-5400).

Dated: April 22, 1993.

William W. Fox, Jr.,

Director, Office of Protected Resources.

BILLING CODE 3510-22-M

National Technical Information Service

NTIS Advisory Board; Meeting

AGENCY: National Technical Information Service, Technology Administration, Department of Commerce.

ACTION: Notice of open meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app 2, notice is hereby given that the National Technical Information Service Advisory Board will meet Thursday, May 27, 1993, from 9:30 a.m. to 4 p.m. and on Friday, May 28, 1993, from 9 a.m. to 3 p.m. The NTIS Advisory Board is composed of five members appointed by The Secretary of Commerce who are eminent in such fields as information resources management, information technology, and library and information services. The purpose of this meeting is to review and make recommendations regarding general policies and operations of NTIS, including policies in connection with fees and charges for its services. The agenda will include presentations on NTIS modernization, a review of fiscal data, an update on the proposed new facility, and a review of the progress with FedWorld. The NTIS Advisory Board was established by statute (Pub. L. 100-519) on October 24, 1988, and received its charter on September 15, 1989.

DATES: The meeting will convene May 27, 1993, at 9:30 a.m. and will adjourn at 3 p.m. on May 28, 1993.

ADDRESSES: The meeting will be held in room 1412, U.S. Department of Commerce, Herbert C. Hoover Building, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

PUBLIC PARTICIPATION: The meeting will be open to public participation. Approximately thirty minutes each day will be set aside for oral comments or questions as indicated in the agenda. Seats will be available for the public and for the media. Seats will be available on a first-come, first-served basis. Any member of the public may submit written comments concerning the Board's affairs at any time before and after the meeting. Copies of the minutes of the meeting will be available within thirty days from the address given below.

FOR FURTHER INFORMATION CONTACT: Barbara Hull, NTIS Advisory Board Secretary, National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161. Telephone: 703-487-4612; by fax 703-487-4093.

VOL 58 ISS 81 AP 29 1993 UMI

BILLING CODE 6330-01-M

CONSUMER PRODUCT SAFETY COMMISSION

[CPSC Docket No. 93-C0006]

Polly Gaz International Corp., a Corporation; Provisional Acceptance of a Settlement Agreement and Order

AGENCY: Consumer Product Safety Commission.

ACTION: Provisional acceptance of a settlement agreement under the Federal Hazardous Substances Act.

SUMMARY: It is the policy of the Commission to publish settlements which it provisionally accepts under the Federal Hazardous Substances Act in the **Federal Register** in accordance with the terms of 16 CFR 1118.20(e)-(h). Published below is a provisionally-accepted Settlement Agreement with Polly Gaz International Corp., a corporation.

DATES: Any interested person may ask the Commission not to accept this agreement or otherwise comment on its contents by filing a written request with the Office of the Secretary by May 14, 1993.

ADDRESSES: Persons wishing to comment on this Settlement Agreement should send written comments to the Comment 93-C0006, Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207.

FOR FURTHER INFORMATION CONTACT: Earl A. Gershenow, Trial Attorney, Office of Compliance and Enforcement, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-0626.

SUPPLEMENTARY INFORMATION: (attached)

Settlement Agreement and Order

1. Polly Gaz International Corp. (hereinafter, "Polly Gaz"), a corporation, enters into this Settlement Agreement (hereinafter, "Agreement") with the staff of the Consumer Product Safety Commission, and agrees to the entry of the Order described herein. The purpose of the Agreement and Order is to settle the staff's allegations that Polly Gaz knowingly caused the introduction into interstate commerce of certain banned hazardous toys, in violation of section 4(a) of the Federal Hazardous Substances Act, 15 U.S.C. 1263(a).

I. Jurisdiction

2. The Commission has jurisdiction over Polly Gaz and the subject matter of this Settlement Agreement pursuant to section 30(a) of the Consumer Product Safety Act (hereinafter, "CPSA"), 15 U.S.C. 2079(a), and sections 2(f)(1)(D), 4(a), and 5(c) of the Federal Hazardous Substances Act (hereinafter, "FHSA"), 15 U.S.C. 1261(f)(1)(d), 1263(a), and 1264(c).

II. The Parties

3. The "staff" is the staff on the Consumer Product Safety Commission, an independent regulatory commission of the United States established pursuant to section 4 of the CPSA, 15 U.S.C. 2053.

4. Polly Gaz is a corporation organized and existing under the laws of the State of Florida, with its principal corporate offices located at 230 Fifth Avenue, New York, New York 10001. Polly Gaz is engaged in the business of importing, exporting, and selling children's toys in the United States and Mexico.

III. Allegations of the Staff

15. Between February 25, 1991, and September 16, 1992, Polly Gaz caused the introduction into interstate commerce of approximately 16,422 toys intended for use by children under three years of age, which are identified and described below:

CPSC sample No. product ID	Description customs entry No.	CPSC collection/customs entry date	Quantity
M-800-3423, E20	Pretty Mate Tea Set, 0019416-6	02/25/91	150
M-800-3424, H-25-9	Infant cap, entry No. not available	09/12/91	240
M-800-3428, 1055	Baby on swimming ring, 0017830-0	09/12/91	5040
M-862-2550, ES-355	Turtle and blocks, 027-2107781-2	04/10/91	720
P-800-1464, 3060PH	Doll in a bag, H78-0025778-1	01/15/92	4320
P-800-1465, 3073A	Little Amy, H78-0025778-1	01/15/92	2592
P-800-1850, 72391	Doll set, H78-002334-5	09/29/91	1440
P-800-3125, 7005	Education funny train H780031036-6	09/16/92	1920

6. The toys identified in paragraph five above are subject to, but failed to comply with, the Commission's Small Parts Regulation, 16 CFR part 1501, in that when tested under the "use and abuse" test methods specified in 16 CFR 1500.51 and 1500.52, (a) one or more parts of each tested toy separated and (b) one or more of the separated parts from each of the tested toys fit completely within the test cylinder, as set forth in 16 CFR 1501.4.

7. Because separated parts fit completely within the test cylinder as described in paragraph six above, each of the toys identified in paragraph five presents a "mechanical hazard" within the meaning of section 2(s) of the FHSA, 15 U.S.C. 1261(s) (choking, aspiration and/or ingestion of small parts).

8. Each of the toys identified in paragraph five above is a "hazardous substance" pursuant to section 2(f)(1)(D) of the FHSA, 15 U.S.C. 1261(f)(1)(D).

9. Each of the toys identified in paragraph five above is a "banned hazardous substance" pursuant to (a) section 2(q)(1)(A) of the FHSA, 15 U.S.C. 1261(q)(1)(A) (any toy or other article intended for use by children which bears or contains a hazardous substance); and (b) 16 CFR 1500.18(a)(9).

10. Polly Gaz knowingly caused the introduction into interstate commerce of the aforesaid banned hazardous toys, in violation of section 4(a) of the FHSA, 15 U.S.C. 1263(a), for which a civil penalty may be imposed pursuant to section 5(c) of the FHSA, 15 U.S.C. 1264(c).

IV. Response of Polly Gaz

11. Polly Gaz denies the allegations of the staff set forth in paragraphs five through ten above that it has knowingly caused the introduction into commerce of the aforesaid banned hazardous toys, or that it has violated the FHSA as alleged by the staff.

V. Agreement of the Parties

12. The Consumer Product Safety Commission has jurisdiction over Polly Gaz and the subject matter of this Settlement Agreement and Order under the following acts: Consumer Product Safety Act, 15 U.S.C. 2051 *et seq.*, and the Federal Hazardous Substances Act, 15 U.S.C. 1261 *et seq.*

13. Polly Gaz agrees to pay to the Commission a civil penalty in the amount of Thirty Thousand and 00/100 Dollars ($30,000.00), in twelve (12) consecutive monthly installment payments of Twenty-Five Hundred and 00/100 ($2,500.00) commencing within thirty (30) days after service of the Final Order of the Commission accepting this Settlement Agreement. The date of the first payment shall constitute the anniversary date for all future monthly installment payments. Payment of the full amount of the civil penalty shall settle fully the staff's allegations set forth in paragraphs five through ten above that Polly Gaz violated the FHSA. Any late installment payment under thirty (30) days in duration shall be charged interest at the federal legal rate of interest in effect during the period that the payment is overdue. Any late payment over thirty (30) days duration shall make the entire outstanding balance due and payable with interest at the federal legal rate of interest in effect during the period that the outstanding balance is overdue.

14. The Commission does not make any determination that Polly Gaz knowingly violated the FHSA. The Commission and Polly Gaz agree that this Agreement is entered into for the purposes of settlement only.

15. Upon final acceptance of this Settlement Agreement by the Commission and issuance of the Final Order, Polly Gaz knowingly, voluntarily and completely, waives any rights it may have in this matter (1) to an administrative or judicial hearing, (2) to judicial review or other challenge or contest of the validity of the Commission's actions, (3) to a determination by the Commission as to whether Polly Gaz failed to comply with the FHSA as aforesaid, and (4) to a statement of findings of fact and conclusions of law.

16. For purposes of section 6(b) of the CPSA, 15 U.S.C. 2055(b), this matter shall be treated as if a complaint had issued; and, the Commission may publicize the terms of the Settlement Agreement and Order.

17. Upon provisional acceptance of this Settlement Agreement and Order by the Commission, this Settlement Agreement and Order shall be placed on the public record and shall be published in the **Federal Register** in accordance with the procedures set forth in 16 CFR 1118.20(e)-(h). If the Commission does not receive any written request not to accept the Settlement Agreement and Order within 15 days, the Settlement Agreement and Order will be deemed finally accepted on the 16th day after the date it is published in the **Federal Register**.

18. The parties further agree that the Commission shall issue the attached Order incorporated here in by reference; and that a violation of the Order shall subject Polly Gaz to appropriate legal action.

19. No agreement, understanding, representation, or interpretation not contained in this Settlement Agreement and Order may be used to vary or to contradict its terms.

20. The provisions of the Settlement Agreement and Order shall apply to Polly Gaz and each of its successors and assigns.

Respondent Polly Gaz Trading Corporation.

Dated: November 24, 1992.

Morris Aboudi,

Vice-President, Polly Gaz International Corp., 230 Fifth Avenue, New York, New York 10001.

Trial Attorney, Division of Administrative Litigation, Office of Compliance and Enforcement.

Dated: March 8, 1993.

Dennis C. Kacoyanis,

Trial Attorney, Division of Administrative Litigation, Office of Compliance and Enforcement.

Order

Upon consideration of the Settlement Agreement entered into between respondent Polly Gaz International Corp., a corporation, and the staff of the Consumer Product Safety Commission; and the Commission having jurisdiction over the subject matter and Polly Gaz International Corp.; and it appearing that the Settlement Agreement is in the public interest, it is

Ordered, That the Settlement Agreement be and hereby is accepted, as indicated below; and it is

Further Ordered, That upon final acceptance of the Settlement Agreement, Polly Gaz International Corp. shall pay to the Commission a civil penalty in the amount of Thirty Thousand and 00/100 dollars ($30,000.00), in twelve (12) consecutive monthly installment payments of Twenty-Five Hundred and 00/100 ($2,500.00) commencing within thirty (30) days after service of the Final Order of the Commission accepting this Settlement Agreement. The date of the first payment shall constitute the anniversary date for all future installment payments. Payment of the full amount of the civil penalty shall settle fully the staff's allegations set forth in paragraphs five through ten of the Settlement Agreement that Polly Gaz violated the FHSA. For any late installment payment under thirty (30) days in duration, Polly Gaz shall be charged interest, payable to the Commission, in accordance with the rate and method of calculation of interest set forth in 28 U.S.C. 1961 (a) and (b), during the period that the payment is overdue. Any late payment over thirty (30) days duration, shall make the entire outstanding balance due and payable with interest in accordance with 28 U.S.C. 1961 (a) and (b) as set forth above, during the period that the outstanding balance is overdue.

Provisionally accepted and Provisional Order issued on the 22d day of April 1993.

VOL 58 ISS 81 AP 29 1993 UMI

By Order of the Commission.
Sheldon D. Butts,
Acting Secretary, Consumer Product Safety Commission.

Department of the Navy

Government-owned Inventions; Availability for Licensing

AGENCY: Department of the Navy, DoD.
ACTION: Notice of Availability of Inventions for Licensing.

SUMMARY: The inventions listed below are assigned to the United States Government as represented by the Secretary of the Navy and are made available for licensing by the Department of the Navy.

Copies of patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $3.00 each. Requests for copies of patents must include the patent number.

Copies of patent applications cited are available from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for $6.95 each ($10.95 outside North American Continent). Requests for copies of patent applications must include the patent application serial number. Claims are deleted form the copies of patent applications sold to avoid premature disclosure.

DATES: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. R.J. Erickson, Staff Patent Attorney, Office of Naval Research (Code OOCCIP), Arlington, Virginia 22217–5660, telephone (703) 696–4001.

Patent 5,120,479: Method of preparing castable, insensitive energetic compositions; filed 15 January 1991; patented 9 June 1992.

Patent 5,123,616: High efficiency, low weight and volume energy absorbent seam; filed 9 September 1991; patented 23 June 1992.

Patent 5,124,481: Synthesis of unsymmetric allyl (alkyl) tellurides; filed 29 April 1991; patented 23 June 1992.

Patent 5,127,945: Effervescent cationic film forming corrosion inhibitor material for use in torpedo launcher tubes; filed 5 August 1991; patented 7 July 1992.

Patent 5,129,800: Single screw interputed thread positive displacement mechanism; filed 17 July 1991; patented 14 July 1992.

Patent 5,130,890: Cable connector/adapter support for multi-terminal data processors; filed 10 September 1991; patented 14 July 1992.

Patent 5,131,328: Safety and arming system for tube launched projectile; filed 13 December 1991; patented 21 July 1992.

Patent 5,132,396: Phthalonitrile monomers containing imide and/or phenoxy linkages, and polymers thereof; filed 30 April 1990; patented 21 July 1992.

Patent 5,132,586: Microchannel electron source; filed 8 February 1991; patented 21 July 1992.

Patent 5,137,776: Metal-coated, ordered void piezoelectric ceramic material; filed 27 September 1990; patented 11 August 1992.

Patent 5,138,325: Shipboard sensor exerciser apparatus; filed 1 April 1983; patented 11 August 1992.

Patent 5,140,559: Low flow noise conformal fiber optical hydrophone; filed 21 February 1991; patented 18 August 1992.

Patent 5,140,560: Pressure compensated transducer system with constrained diaphragm; filed 29 July 1988; patented 18 August 1992.

Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Committee Meeting.

Name of Committee: Army Science Board (ASB).
Date of Meeting: 18–19 May 1993.
Time of Meeting: 0800–1700, each day.
Place: Pentagon, 3E385.
Agenda: The Army Science Board's 1993 Summer Study Panel on "Innovative Acquisition Strategies for the 90s" will meet to discuss future Army acquisition strategies and technology opportunities given probable funding constraints. This meeting will be closed to the public in accordance with section 552b. (c) of title 5, U.S.C., specifically subparagraph (1) thereof and title 5, U.S.C. Appendix 2, subsection 10(d). The classified and unclassified information to be discussed will be so inextricably intertwined so as to preclude opening any portion of the meeting. The ASB Administrative Officer, Sally Warner, may be contacted for further information (703) 695–0781.

Sally A. Warner,
Administrative Officer, Army Science Board.

U.S. Court of Military Appeals Code Committee Meeting

AGENCY: Department of Defense.
ACTION: Notice of public hearing.

SUMMARY: This notice announces the forthcoming public meeting of the Code Committee established by Article 146(a), Uniform Code of Military Justice, 10 U.S.C. 946(a), to be held at 3:15 p.m. on May 14, 1993, in The Senate Caucus Room, Senate Russell Office Building, Delaware Avenue and First Street, Northeast, Washington, DC 20510. The agenda for this meeting will include

VOL 58 ISS 81 AP 29 1993 UMI

consideration of the proposed changes to the Manual for Courts-Martial, United States, 1984; as well as other matters relating to the operation of the Uniform Code of Military Justice throughout the Armed Services.

DATES: May 14, 1993.

FOR FURTHER INFORMATION CONTACT: Thomas F. Granahan, Clerk of Court, United States Court of Military Appeals, 450 E Street, Northwest, Washington, DC 20442–0001, telephone (202) 272–1448.

Dated: April 26, 1993.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Office of the Secretary

Telecommunications Service Priority (TSP) System Oversight Committee

AGENCY: National Communications System, DoD.

ACTION: Notice of meeting.

A meeting of the Telecommunications Service Priority (TSP) System Oversight Committee will convene Friday, June 4, 1993, from 9 a.m. to 4:30 p.m. The meeting will be held at the Sheraton Premiere at Tysons Corner, 8661 Leesburg Pike, Vienna, Virginia. The agenda is as follows:

—Opening/Administrative Remarks

—Review January 21–22, 1993 Meeting Summary and Status of Actions

—TSP Program Office Update

—TSP Ad Hoc Working Group Report

—Review of Action Items

—Old Business/New Business

Anyone interested in attending or presenting additional information to the Committee, please contact the National Communications System TSP Program Office, Bernard Farrell (703) 746–5375 or Susan Flint (703) 692–0040, by May 24, 1993.

Dated: April 26, 1993.

L. M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000–04–M

Department of the Army

Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the Proposed Lower Snake River Juvenile Salmon Biological Drawdown Test

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: The Corps of Engineers and the National Marine Fisheries Service (NMFS) as joint-lead agencies, intend to prepare an Environmental Impact Statement (EIS) to investigate conducting a biological test of reservoir drawdown. Alternatives will consider various test designs to evaluate the potential of increasing juvenile salmon survival by using pool elevations below normal minimum levels to increase flow velocities through the lower Snake River reservoirs. The lower Snake river reservoir projects, including Lower Granite, Little Goose, Lower Monumental, and Ice Harbor, are located between Lewiston, Idaho and Pasco, Washington.

There is regional interest for developing plans to alter the operations of Corps' water resources projects during the salmon migration period as a potential means of increasing salmon survival. The reservoir drawdown biological tests identified in this EIS are necessary to advance current level of understanding about biological effects of different operating regimes in the reservoirs and at the dams and to develop information that will support decisions on long-term actions. Data from the test may include travel time and survival for juvenile salmon, upstream passage and survival of adult salmon, and effects on resident fish, wildlife, bottom dwelling organisms and water quality. The joint-lead agencies are developing alternatives to assess the full range of biological impacts from reservoir drawdown. The alternatives will be comprised of numerous elements for biological reservoir drawdown testing, including a variety of options for methodology, location, timing, reservoir elevation, and duration. One or more of the alternatives may include reservoir drawdowns to prototype test equipment that will be used to bypass salmon through the dams during a drawdown operation. Alternatives will be limited to those that do not require major structural modifications to the dams on the lower Snake River. Alternatives currently considered include: No action; drawdown on one or more reservoirs on the lower Snake River; and other alternatives identified during scoping.

The information obtained from a biological drawdown test may be used to modify ongoing, long-term studies such as the Snake River Salmon Recovery Plan to be issued by NMFS, Columbia River Salmon Mitigation Analysis System Configuration Study (CRSMA SCS), and the Columbia River System Operation Review (SOR). This action is being considered in response to a need to protect stocks of Snake River salmon that have been listed as threatened or endangered under the Endangered Species Act. The U.S. Army Corps of Engineers, Walla Walla District, and the U.S. Department of Commerce, National Marine Fisheries Service, Northwest Region, are joint-leaders in preparation of this EIS. Cooperating agencies may be identified during the scoping process.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and DEIS can be answered by: Mr. Peter F. Poolman, Department of the Army, Walla Walla District, Corps of Engineers, CENPW–PL–ER, Building 603, Walla Walla, Washington 99362–9265, (509) 522–6619.

SUPPLEMENTARY INFORMATION: The proposed action is being considered in response to the listing of the Snake River sockeye salmon as an endangered species, and the Snake River spring/summer and fall chinook as threatened under the Endangered Species Act. The NMFS identified hydropower development in the Columbia River Basin as one of the factors considered to be contributing to the decline of the salmon populations. The alternative actions are being considered under the authority of the Endangered Species Act, the Fish and Wildlife Coordination Act, section 216 of the 1970 Flood Control Act, sections 103, 105, and 905 of the 1986 Water Resources Development Act, and the authorizing legislation for the respective projects potentially involved in the proposed action.

The EIS will select a plan of action which is within the authority of the joint lead and cooperating agencies to perform and is implementable in the near future. Measures which require additional congressional authority, involve major construction activities requiring several years to complete, or require extended analysis of the effects on salmon and the environment, are being pursued in the SOR and CRSMA SCS. The SOR, which was initiated in July 1990, is a joint effort by the Corps, Bonneville Power Administration, and the Bureau of Reclamation to review the multiple-purpose management of Federal projects in the Columbia River Basin, and develop a system operating strategy that considers river uses including the needs of salmon. The CRSMA SCS is evaluating structural modifications or additions to the existing projects which would be necessary to change system operation or which would improve migration conditions for salmon.

Based on preliminary consideration to date, the following have been identified as some of the significant issues requiring analysis in the EIS:

a. Travel time and survival changes for downstream migrating salmonid juveniles;

b. Changes in upstream passage, timing, and survival of adult salmon;

c. Effects on resident fish, wildlife, bottom-dwelling organisms, water quality;

d. Effects on recreation, navigation, cultural resources;

e. Effects on dams, operating equipment, and reservoir structures.

The Corps and NMFS and any cooperating agencies will share responsibilities for determining and evaluating impacts within their respective areas of jurisdiction and expertise. The joint lead agencies welcome input to the EIS from affected Federal, State and local agencies, Indian Tribes, and other interested organizations and parties. Other agencies desiring status as cooperating parties should submit written requests to the Corps and/or NMFS.

The normal range of environmental review and consultation in accordance with other environmental statutes, rules, and regulations shall apply to the proposed action. Of primary importance will be compliance with the Endangered Species Act. Compliance may include preparation of one or more Biological Assessments and formal consultation with NMFS and U.S. Fish and Wildlife Service. The Corps and NMFS plan to conduct a series of public scoping meetings in May 1993, to present information on the proposed Environmental Impact Statement actions. Scoping meetings will be held in Lewiston, Idaho, Boise, Idaho, Pasco, Washington, and Portland, Oregon. Specific meeting dates, times, and locations will be provided to the public at a later time. The DEIS is tentatively scheduled for release to the public and agencies for review in September 1993.

Robert D. Volz,

LTC, EN, Commanding.

BILLING CODE 3710–GC–M

Department of the Navy

CNO Executive Panel; Meeting

Notice was published Thursday, April 8, 1993, at 58 FR 18208, that the Chief of Naval Operations Executive Panel Future Naval Forces Task Force, was to meet on April 22-23, 1993, from 9 a.m. to 5 p.m., in Alexandria, Virginia. That meeting has been rescheduled and will be held on April 29, 1993. That session will be open to the public. The April 30, 1993 session will be closed to the public. All other information in the previous notice remains effective. In accordance with 5 U.S.C. 552b(e)(2), the meeting change is publicly announced at the earliest time.

For further information concerning this meeting contact: J. Kevin Mattonen, Executive Secretary to the CNO Executive Panel, 4401 Ford Avenue, room 601, Alexandria, Virginia 22302-0268, Phone (703) 756-1205.

Dated: April 20, 1993.

Michael P. Rummel,

LCDR, JAGC, USN, Federal Register Liaison Officer.

[FR Doc. 93–9976 Filed 4–28–93; 8:45 am]

BILLING CODE 3810–AE–F

CNO Executive Panel; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. app. 2), notice is hereby given that the Chief of Naval Operations (CNO) Executive Panel Stealth and Stealth Countermeasures Task Force will meet May 13, 1993, from 2 p.m. to 3 p.m. in the Pentagon, room 4E630. This session will be closed to the public.

The purpose of this meeting is to do the final out brief for the Task Force on Stealth and Stealth Countermeasures. Matters to be considered will consist of discussions of key issues related to stealth, stealth countermeasures, and related intelligence. These matters constitute classified information that is specifically authorized by Executive order to be kept secret in the interest of national defense and, are in fact, properly classified pursuant to such Executive order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

For further information concerning this meeting, contact: J. Kevin Mattonen, Executive Secretary to the CNO Executive Panel, 4401 Ford Avenue, room 601, Alexandria, VA 22302-0268, Phone (703) 756-1205.

Dated: April 19, 1993.

Michael P. Rummel.

LCDR, JAGC, USN, Federal Register Liaison Officer.

BILLING CODE 3810–AE–F

CNO Executive Panel; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. app. 2), notice is hereby given that the Chief of Naval Operations (CNO) Executive Panel Emerging Technologies Task Force will meet May 20-21, 1993, from 8 a.m. to 5 p.m., at Newport News Shipbuilding Corporation and at 4401 Ford Avenue, Alexandria, Virginia. This session will be closed to the public.

The purpose of this meeting is to address naval technological response to changes in military warfare. The entire agenda for the meeting will consist of discussion of key issues regarding direction of technology and technologies necessary for Naval Forces in the role envisioned for them by . . . From the Sea. These matters constitute classified information that is specifically authorized by Executive order to be kept secret in the interest of national defense and are, in fact, properly classified pursuant to such Executive order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

For further information concerning this meeting, contact: J. Kevin Mattonen, Executive Secretary to the Executive Panel, 4401 Ford Avenue, room 601, Alexandria, VA 22302-0268, Phone (703) 756-1205.

Dated: April 19, 1993.

Michael P. Rummel,

LCDR, JAGC, USN, Federal Register Liaison Officer.

BILLING CODE 3810–AE–F

Board of Advisors to the President Naval War College; Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. app. 2), notice is hereby given that the Board of Advisors to the President, Naval War College, will meet on May 26-27, 1993, in room 210, Conolly Hall, Naval War College, 686 Cushing Road, Newport, Rhode Island.

VOL 58 ISS 81 AP 29 1993 UMI

The meeting will commence at 8:30 a.m. on May 26, and terminate at approximately 12:30 p.m. on May 27. The purpose of the meeting is to elicit the advice of the Board of educational, doctrinal, and research policies and programs. The agenda will consist of presentations and discussions on the curriculum, programs and plans of the College, and is open to the public.

For further information concerning this meeting, contact: Mrs. Mary Estabrooks, Assistant to the Dean of Academics, Naval War College, 686 Cushing Road, Newport, RI 02841-1207, Telephone Number (401) 841-3589.

Dated: April 20, 1993.

Michael P. Rummel,

LCDR, JAGC, USN, Federal Register Liaison Officer.

BILLING CODE 3810-AE-F

Office of the Secretary of the Army

Record of Decision (ROD) for the Construction and Operation of Life Sciences Test Facility at U.S. Army Dugway Proving Ground, Utah

AGENCY: Department of Defense, United States Army.

ACTION: Notice of availability.

SUMMARY: The Department of the Army, as Executive Agent for the Department of Defense, is responsible for research, development, testing, and evaluation of equipment and procedures for biological defense. In a 1988 Draft Environmental Impact Statement (FR Vol. 53, No. 28, pp. 3768–3769, February 9, 1988), the Army initially proposed to construct a Biological Aerosol Test Facility (BATF) at Dugway Proving Ground, Utah, designed to biosafety level 4 (BL–4) standards. Following extensive evaluation and public comment, the Army concluded that the construction of a consolidated Life Sciences Test Facility (LSTF) with a BL–3 aerosol test capability would meet Army needs. This new alternative action was addressed in a November 1990 Supplement to the Draft Environmental Impact Statement (FR Vol. 55, No. 228, pp. 49328–49329, November 27, 1990). All comments submitted in writing or in public hearings in response to the Supplemental Draft were addressed in a March 1992 Final Environmental Impact Statement (FR Vol. 57, No. 84, pp. 18470–18471, April 30, 1992).

The Department of the Army announces the ROD for the construction and operation of Life Sciences Test Facility at U.S. Army Dugway Proving Ground, Utah, is available.

As part of the Biological Defense Research Program, the LSTF will support DOD activities in testing and evaluating protective equipment, detection devices, and decontamination techniques. The facility will also provide analytical and environmental support for tests on smoke and obscurants and chemical and biological simulants.

The proposed LSTF would be designed to accommodate administrative functions, general analytical test support activities, and microbiological operations requiring BL–1 through BL–3 containment. Technical support for the non-biological testing programs includes characterization, analysis, and monitoring of smoke, obscurant, and chemical simulants as an adjunct to field tests. Other activities under this program are non-biological protection factor testing, preparation of NEPA documentation for testing activities, and environmental monitoring. Biological defense testing support includes developmental testing of equipment, test methodology development, non-medical assessment of suspected biological threat agents and their impacts, and operational testing. Developmental testing includes the evaluation of biological hazard detectors, protective devices, and decontamination systems, and the ability of equipment to survive decontamination. Because the most realistic biological threat is the delivery of hazardous agents by aerosol, testing procedures focus on this route.

Once the LSTF is fully operational, 15 support buildings and 6 structures in the Baker area, which are neither economically repairable nor needed for future use, would be demolished. Any biological defense-related activity currently being conducted in these buildings and/or structures would be transferred to the LSTF. Use of the other area buildings, including Baker Test Facility, would cease upon completion of the LSTF.

Dated: April 23, 1993.

Lewis D. Walker,

Deputy Assistant Secretary of the Army, (Environmental, Safety & Occupational Health) OASA (I, L&E).

BILLING CODE 3710-08-M

DEPARTMENT OF EDUCATION

Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Information Resources Management Service, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1980.

DATES: Interested persons are invited to submit comments on or before June 1, 1993.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Dan Chenok: Desk Officer, Department of Education, Office of Management and Budget, 726 Jackson Place, NW., room 3208, New Executive Office Building, Washington, DC 20503. Requests for copies of the proposed information collection requests should be addressed to Cary Green, Department of Education, 400 Maryland Avenue, SW., room 5624, Regional Office Building 3, Washington, DC 20202–4651.

FOR FURTHER INFORMATION CONTACT: Cary Green (202) 708–5174. Individuals who are hearing impaired may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director of the Information Resources Management Service, publishes this notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Frequency of collection; (4) The affected public; (5) Reporting burden; and/or (6) Recordkeeping burden; and (7) Abstract. OMB invites public comment at the address specified above. Copies of the requests are available from Cary Green at the address specified above.

Dated: April 23, 1993.

Cary Green,

Director, Information Resources Management Service.

BILLING CODE 4000-01-M

Advisory Council on Education Statistics; Meeting

AGENCY: Advisory Council on Education Statistics, Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Advisory Council on Education Statistics. This notice also describes the functions of the Council. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend.

DATES AND TIMES: June 17, 1993, 9 a.m.–4 p.m. and June 18, 1993, 9 a.m.–Noon.

ADDRESSES: 555 New Jersey Avenue, NW., room 326, Washington, DC 20208.

FOR FURTHER INFORMATION CONTACT: Barbara Marenus, Executive Director, Advisory Council on Education Statistics, 555 New Jersey Avenue, room 400A, Washington, DC 20208–7575, telephone: (202) 219–1839.

SUPPLEMENTARY INFORMATION: The Advisory Council on Education Statistics (ACES) is established under section 406(c)(1) of the Education Amendments of 1974, Public Law 93–380. The Council is established to review general policies for the operation of the National Center for Education Statistics (NCES) in the Office of Educational Research and Improvement and is responsible for advising on standards to insure that statistics and analyses disseminated by NCES are of high quality and are not subject to political influence. The meeting of the Council is open to the public.

The proposed agenda includes the following:

- Report on March 1993 ACES resolutions
- Ethics training for Council members
- NAEP 1992 mathematics release
- New approaches to data dissemination
- Options for linking technical review panels to ACES
- Council Business

Records are kept of all Council proceedings and are available for public inspection at the Office of the Executive Director, Advisory Council on Education Statistics, 555 New Jersey Avenue NW., room 400A, Washington, DC 20208–7575.

Emerson Elliott,

Acting Assistant Secretary for Educational Research and Improvement.

BILLING CODE 4000-01-M

National Assessment Governing Board; Meetings

AGENCY: National Assessment Governing Board; Education.

ACTION: Notice of partially closed meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Assessment Governing Board. This notice also describes the functions of the Board. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend.

Date: May 13–15, 1993.

Time: May 13, Design and Analysis Committee Meeting, 3 p.m.-6 p.m, (open); Subject Area committee #2, 4 p.m.-6 p.m., (open). May 14, Executive Committee Meeting, 7 a.m.-9 a.m., (open); Full Board, 9 a.m.-10:30 a.m., (open); Reporting and Dissemination Committee, (open), Subject Area Committee #1 (open); Achievement Levels Committee (closed), 10:30 a.m.-12 noon; Full Board, 12 noon to 1:30 p.m., (closed), 1:30-4:45 p.m., (open). May 15, Full Board, 9 a.m. to 11:30 a.m., (open), 11:30 a.m. to 12 noon (closed).

Location: Madison Hotel, 15th and M Streets, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mary Ann Wilmer, Operations Officer, National Assessment Governing Board, Suite 825, 800 North Capitol Street, NW., Washington, DC, 20002–4233, Telephone: (202) 357–6938.

SUPPLEMENTARY INFORMATION: The National Assessment Governing Board is established under section 406(i) of the General Education Provisions Act (GEPA) as amended by section 3403 of the National Assessment of Educational Progress Improvement Act (NAEP Improvement Act), Title III–C of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (Pub. L. 100–297), (20 U.S.C. 1221e–1).

The Board is established to formulate policy guidelines for the National Assessment of Educational Progress. The Board is responsible for selecting subject areas to be assessed, developing assessment objectives, identifying appropriate achievement goals for each grade and subject tested, and establishing standards and procedures for interstate and national comparisons.

On May 13, the Design and Analysis Committee will meet in open session from 3 p.m. to 6 p.m. to review policies on linking, sampling modifications for future state assessments, and to hear a report from the National Center for Education Statistics on compliance with the NAGB item review policy. The Subject Area Committee #2 will meet in open session from 4 to 6 p.m. to hear a presentation on the Dutch visual arts examination system. Also, the committee will be briefed on the NAEP arts education consensus project and the recently completed 1993 field tests in math and science.

On May 14, the Executive Committee will meet in open session from 7 a.m. to 9 a.m. The agenda items for this meeting include consideration of a request for a foreign language version of NAEP; revision of the NAGB by-laws; and, review of the 1994 budget request.

The full Board will convene in open session from 9 a.m. to 10:30 a.m.; the agenda will be reviewed, the Executive Director's report and a progress briefing on the NAEP project will be presented. The Board will recess at 10:30 a.m. for committee meetings.

From 10:30 a.m. to 12 noon, the Reporting and Dissemination Committee, the Subject Area Committee #1, and the Achievement Levels Committee will be in session.

Meeting in open session will be the Reporting and Dissemination Committee. The committee will review the NAGB policy on the reporting of assessment information, and, hear a report from the National Center for

VOL 58 ISS 81 AP 29 1993 UMI

Education Statistics on the plan for releasing the 1992 reading and writing assessment results. The Subject Area Committee #1, also will meet in open session. The committee will hear a presentation on the California integrated arts assessment, followed by an update on the national history standards project.

Meeting in closed session will be the Achievement Levels Committee. The Committee will discuss the 1992 reading achievement level results, and the 1992 writing achievement levels. The discussions will include references to specific items for the assessment, the disclosure of which might significantly frustrate implementation of the NAEP. This meeting must be closed to the public because reference may be made to data which may be misinterpreted, incorrect, or incomplete. Premature disclosure of this data might significantly frustrate implementation of a proposed agency action. Such matters are protected by exemption 9(B) of section 552b(c) of title 5 U.S.C.

At 12 noon, the full Board will reconvene. From 12 noon to 1:30 p.m., the board will meet in closed session to hear a briefing on the 1992 NAEP Reading Results by the NAEP contractor. The presentation and discussion will include references to specific items for the assessment, the disclosure of which might significantly frustrate implementation of the NAEP. This session must be closed to the public because reference may be made to data which may be misinterpreted, incorrect, or incomplete. Premature disclosure of this data might significantly frustrate implementation of a proposed agency action. Such matters are protected by exemption 9(B) of section 552b(c) of title 5 U.S.C.

From 1:30 p.m. to adjournment, 4:45 p.m., the full Board meeting will be open to the public. The agenda for the open portion includes a symposium on linking test results, and a presentation on the British Arts Assessment.

On May 15, the full Board will meet from 9 a.m. until 11:30 a.m., in open session, and 11:30 a.m. to 12 noon, in closed session.

During the open portion, the Board will hear a panel presentation on possible extensions of the NAEP project, and reports from the NAGB committees: Subject Area Committees #1, Subject Area Committee #2, Reporting and Dissemination Committee, Design and Analysis Committee, and the Executive Committee.

In the closed portion (11:30 a.m. to 12 noon), the Board will hear the Achievement Levels Committee report pertaining to the 1992 reading achievement levels, and the 1992 writing achievement levels. The discussion will include references to specific items for the assessment, the disclosure of which may significantly frustrate implementation of the NAEP. This session must be closed to the public because reference may be made to data which may be misinterpreted, incorrect, or incomplete. Premature disclosure of this data might significantly frustrate implementation of a proposed agency action. Such matters are protected by exemption 9(B) of section 552b(c) of title 5 U.S.C.

A summary of the activities of the closed sessions and related matters, which are informative to the public and consistent with the policy of section 5 U.S.C. 552b, will be available to the public within 14 days after the meeting. Records are kept of all Board proceedings and are available for public inspection at the U.S. Department of Education, National Assessment Governing Board, suite 825, 800 North Capitol Street, NW., Washington, DC, from 8:30 a.m. to 5 p.m.

Dated: April 23, 1993.

Roy Truby,

Executive Director, National Assessment Governing Board.

BILLING CODE 4000-01-M

[CFDA No.: 84.116F]

Fund for the Improvement of Postsecondary Education—Innovative Projects for Community Service Competition; Inviting Applications for New Awards for Fiscal Year (FY) 1993

Purpose of Program: Provides grants to encourage students to participate in community service activities.

Eligible Applicants: Institutions of higher education, combinations of those institutions, and other public and private, nonprofit institutions and agencies.

Deadline for Transmittal of Applications: June 15, 1993.

Deadline for Intergovernmental Review: August 15, 1993.

Applications Available: April 30, 1993.

Available Funds: $1,436,416.

Estimated Range of Awards: $10,000—$70,000.

Estimated Average Size of Awards: $50,000.

Estimated Number of New Awards: 20.

Note: The Department is not bound by any estimates in this notice.

Project Period: 12 to 24 months.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 82, 85, and 86; and (b) the regulations for this program in CFR part 630. (**Note:** Paragraph (a)(1) of the selection criteria does not include a reference to 34 CFR 630.11, since that section, as it applies to the Innovative Projects for Community Service program, has been overridden by the 1992 statutory amendments to the Higher Education Act.)

Selection Criteria: In evaluating applications for grants under this program competition, the Secretary uses the following selection criteria chosen from those listed in 34 CFR 630.32.

(a) *Significance for Postsecondary Education.* The Secretary reviews each proposed project for its significance in improving postsecondary education by determining the extent to which it would—

(1) Achieve the purpose of the Innovative Projects for Community Service Program.

(2) Address an important problem or need;

(3) Represent an improvement upon, or important departure from, existing practice; and

(4) Achieve far-reaching impact through improvements that will be useful in a variety of ways and a variety of settings.

(b) *Feasibility.* The Secretary reviews each proposed project for its feasibility by determining the extent to which—

(1) The proposed project represents an appropriate response to the problem or need addressed;

(2) The applicant is capable of carrying out the proposed projects as evidenced by, for example—

(i) The applicant's understanding of the problem or need;

(ii) The quality of the project design, including objectives, approaches, and evaluation plan;

(iii) The adequacy of resources, including money, personnel, facilities, equipment, and supplies;

(iv) The qualifications of key personnel who would conduct the project; and

(v) The applicant's relevant prior experience;

(3) The applicant and any other participating organizations are committed to the success of the proposed project, as evidenced by, for example

(i) Contribution of resources by the applicant and by participating organizations;

(ii) Their prior work in the area; and

(iii) The potential for continuation of the proposed project beyond the period of funding (unless the project would be self-terminating);

(4) The proposed project demonstrates potential for dissemination to or adaptation by other organizations, and shows evidence of interest by potential users.

(c) *Appropriateness of funding projects.* The Secretary reviews each application to determine whether support of the proposed project by the Secretary is appropriate in terms of the availability of other funding sources for the proposed activities.

The Secretary will give equal weight to each of the subcriteria. In applying the criteria the Secretary first analyzes an application in terms of each individual criterion. The Secretary then bases the final judgement of an application on an overall assessment of the degree to which the applicant addresses all selection criteria.

For Applications or Information Contact: Fund for the Improvement of Postsecondary Education (FIPSE), U.S. Department of Education, 400 Maryland Avenue SW., room 3100, ROB-3, Washington, DC 20202-5175. Telephone: (202) 205-0082 to order applications; or (202) 708-5750 for information. Individuals who are hearing-impaired may call the Federal Dual Party Relay Service at 1-800-877-8339 (in the Washington, DC 202 area code, telephone 708-9300) between 8 a.m. and 7 p.m., Eastern time.

Program Authority: 20 U.S.C. 1137-1137a.

Dated: April 23, 1993.

Maureen A. McLaughlin,

Acting Assistant Secretary for Postsecondary Education.

BILLING CODE 4000-01-U

DEPARTMENT OF ENERGY

Office of Fossil Energy

[Docket No. FE C&E 93-09; Certification Notice—119]

Filing Certification of Compliance: Coal Capability of New Electric Powerplant; Powerplant and Industrial Fuel Use Act

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of filing.

SUMMARY: Kamine/Besicorp Allegany L.P. has submitted a coal capability self-certification pursuant to section 201 of the Powerplant and Industrial Fuel Use Act of 1978, as amended.

ADDRESSES: Copies of self-certification filings are available for public inspection upon request in the Office of Fuels Programs, Fossil Energy, room 3F-056, FE-52, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Ellen Russell at (202) 586-9624.

SUPPLEMENTARY INFORMATION: Title II of the Powerplant and Industrial Fuel Use Act of 1978 (FUA), as amended (42 U.S.C. 8301 et seq.), provides that no new baseload electric powerplant may be constructed or operated without the capability to use coal or another alternate fuel as a primary energy source. In order to meet the requirement of coal capability, the owner or operator of such facilities proposing to use natural gas or petroleum as its primary energy source shall certify, pursuant to FUA section 201(d), to the Secretary of Energy prior to construction, or prior to operation as a base load powerplant, that such powerplant has the capability to use coal or another alternate fuel. Such certification establishes compliance with section 201(a) on the day it is filed with the Secretary. The Secretary is required to publish a notice in the **Federal Register** that a certification has been filed. The following owner/operator of a proposed new baseload powerplant has filed a self-certification in accordance with section 201(d).

Owner: Kamine/Besicorp Allegany L.P.
Operator: Stewart & Stevenson Operations, Inc.
Location: Allegany County, New York
Plant Configuration: Combined cycle cogeneration
Capacity: 55 megawatts
Fuel: Natural gas
Purchasing Utilities: Rochester Gas and Electric Corporation
Expected In-Service Date: November 1, 1994.

Issued in Washington, DC, on April 21, 1993.

Anthony J. Como,

Director, Office of Coal & Electricity, Office of Fuels Programs, Office of Fossil Energy.

[FR Doc. 93-10097 Filed 4-28-93; 8:45 am]

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project Nos. 233-047, et al.]

Hydroelectric Applications [Pacific Gas & Electric Co., et al.]; Applications

Take notice that the following hydroelectric applications have been filed with the Commission and are available for p·blic inspection:

1 a. *Type of Application:* Amendment of license.

b. *Project No:* 233-047.

c. *Date Filed:* March 10, 1993.

d. *Applicant:* Pacific Gas and Electric Company.

e. *Name of Project:* Pit 3, 4, and 5.

f. *Location:* Lake Britton on the Pit River in Shasta County, California.

g. *Filed Pursuant to:* Section 23(b) of the Federal Power Act, 16 U.S.C. 817(b).

h. *Applicant Contact:* Mr. Steve Christ, Pacific Gas and Electric Company, 201 Mission Street, Room 1011P, P.O. Box 770000, Mail P10A, San Francisco, CA 94177, (415) 973-2629.

i. *FERC Contact:* Mr. Steve Hocking, (202) 219-2656.

j. *Comment Date:* June 7, 1993.

k. *Description of Project:* Pacific Gas and Electric Company has filed a license amendment request to temporarily raise the normal maximum surface elevation of Lake Britton by 1 foot during the following dates: October 1, 1993 to March 1, 1994, and October 1, 1994 to March 1, 1995.

The purpose of this test is to evaluate the environmental effects of the increase for possible recommendation to make the increase permanent. All increases in lake levels, either temporary or permanent, must be approved by the Commission.

l. This notice also consists of the following standard paragraphs: B, C, and D2.

2 a. *Type of Application:* New Major License.

b. *Project No.:* 2376-001.

c. *Date filed:* December 13, 1991.

d. *Applicant:* Appalachian Power Company.

e. *Name of Project:* Reusens.

f. *Location:* On the James River in the City of Lynchburg, Virginia.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Mr. B. H. Bennett, Assistant Vice President, American Electric Power, Service Corporation, 1 Riverside Plaza, Columbus, Ohio 43215, (614) 223-2930.

i. *FERC Contact:* Mr. Hector Perez, (202) 219-2843

j. *Comment Date:* Sixty days from the date of issuance of this notice. June 1, 1993.

k. *Status of Environmental Analysis:* This application is ready for environmental analysis at this time—see attached paragraph D9.

l. *Description of Project:* The peaking project consists of: (1) A 25-foot-high, 416-foot-long concrete dam and spillway section topped with eight 16¾-foot-high flood gates; (2) a 25-foot-high, 125-foot-long curved auxiliary spillway section topped with 7¼-foot-high

VOL 58 ISS 81 AP 29 1993 UMI

flashboards; (3) a 500-acre impoundment; (4) two powerhouses, one containing three generating units with a total installed capacity of 7,500 kW, and one containing two generating units with a total installed capacity of 5,000 kW; and (5) appurtenant facilities.

The Applicant is not proposing any changes to the existing project works as licensed. The average annual generation for the project is 37,280 MWh.

m. *Purpose of Project.* All energy generated by the project would be utilized by the customers of the Appalachian Power Company.

n. This notice also consists of the following standard paragraphs: D9.

o. *Available Locations of Application:* A copy of the application, as amended and supplemented, is available for inspection and reproduction at the Commission's Public Reference and Files Maintenance Branch, located at 941 North Capitol Street NE., room 3104, Washington, DC 20426, or by calling (202) 208–1371. A copy is also available for inspection and reproduction at the Appalachian Power Company, located at 40 Franklin Road, Roanoke, Virginia 24022, or by calling Mr. B. H. Bennett at (614) 223–2930.

3 a. *Type of Application:* New Major Licenses

b. *Project Nos.:* 2436–007, 2447–008, 2448–011, 2449–007, 2450–005, 2453–003.

c. *Date Filed:* December 19, 1991.

d. *Applicant:* Consumers Power Company.

e. *Name of Project:* Foote (Project No. 2436–007), Alcona (Project No. 2447–008), Milo (Project No. 2448–011), Loud (Project No. 2449–007), Cooke (Project No. 2450–005), Five Channels (Project No. 2453–003).

f. *Location:* On the Au Sable River within the Huron National Forest in Iosco, Alcona and Oscoda, Counties, Michigan

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. Thomas W. Bowes, 330 Chestnut Street, Cadillac, MI 49601, (616) 775–0176.

i. *FERC Contact:* Ms. Julie Bernt, (202) 219–2814

j. *Comment Date:* See paragraph D9. June 1, 1993.

k. *Status of Environmental Analysis:* These applications are ready for environmental analysis at this time—see attached paragraph D9.

l. *Description of Projects:*

Foote—The licensed project would consist of: (1) A 3,800-foot-long earth embankment dam; (2) a reservoir with a surface area of 1,702 acres and a storage capacity of 32,380 acre-feet; and, (3) a total rated capacity of 9 MW.

Alcona—The licensed project would consist of: (1) A 4,820-foot-long earth embankment dam; (2) a reservoir with a surface area of 1,006 acres and a storage capacity of 12,547 acre-feet; and, (3) a total rated capacity of 8 MW.

Milo—The licensed project would consist of: (1) A 2,120-foot-long earth embankment dam; (2) a reservoir with a surface area of 661 acres and a storage capacity of 6,061 acre-feet; and, (3) a total rated capacity of 5 MW.

Loud—The licensed project would consist of: (1) A 2,000-foot-long earth embankment dam; (2) a reservoir with a surface area of 743 acres and a storage capacity of 6,987 acre-feet; and, (3) a total rated capacity of 4 MW.

Cooke—The licensed project would consist of: (1) A 700-foot-long earth embankment dam; (2) a reservoir with a surface area of 1,627 acres and a storage capacity of 26,749 acre-feet; and, (3) a total rated capacity of 9 MW.

Five Channels—The licensed project would consist of: (1) A 620-foot-long earth embankment dam; (2) a reservoir with a surface area of 212 acres and a storage capacity of 3,419 acre-feet; and, (3) a total rated capacity of 6 MW.

The existing projects would also be subject to Federal takeover under sections 14 and 15 of the Federal Power Act.

A joint Offer of Settlement among Consumers Power Company, the U.S. Forest Service, the U.S. Fish and Wildlife Service, the Michigan Department of Natural Resources, the National Park Service and the Michigan State Historic Preservation Officer was filed with the Commission on December 17, 1992, and was supplemented on March 25, 1993.

m. *Purpose of Project:* Project power would be utilized by the applicant for sale to its customers.

n. This notice also consists of the following standard paragraphs: A4 and D9.

o. *Available Location of Application:* A copy of the application and the Offer of Settlement Agreement are available for inspection and reproduction at the Commission's Public Reference and Files Maintenance Branch, located at 941 North Capitol Street, NE., room 3104, Washington, DC 20426, or by calling (202) 208–1371. Copies are also available for inspection and reproduction at Consumers Power Company, 330 Chestnut Street, Cadillac, MI 49601, or by calling (616) 775–0176.

4. a. *Type of Application:* New Major Licenses.

b. *Project Nos.:* 2451–004, 2452–007, 2468–003.

c. *Date filed:* December 19, 1991.

d. *Applicant:* Consumers Power Company.

e. *Name of Project:* Rogers (Project No. 2451–004), Hardy (Project No. 2452–007), Croton (Project No. 2468–003).

f. *Location:* On the Muskegon River within the Mainstee National Forest in Mecosta and Newaygo Counties, Michigan.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. Thomas W. Bowes, 330 Chestnut Street, Cadillac, MI 49601, (616) 775–0176.

i. *FERC Contact:* Ms. Julie Bernt, ,202) 219–2814.

j. *Comment Date:* See paragraph D9. June 1, 1993.

k. *Status of Environmental Analysis:* These applications are ready for environmental analysis at this time—see attached paragraph D9.

l. Description of Projects:

Rogers—The licensed project would consist of: (1) a 600-foot-long earth embankment dam; (2) a reservoir with a surface area of 449 acres and a storage capacity of 4,678 acre-feet; and, (3) a total rated capacity of 6.7 MW.

Hardy—The licensed project would consist of: (1) a 2,600-foot-long earth embankment dam; (2) a reservoir with a surface area of 3,902 acres and a storage capacity of 134,973 acre-feet; and, (3) a total rated capacity of 30 MW.

Croton—The licensed project would consist of: (1) a 370-foot-long earth embarkment dam; (2) a reservoir with a surface area of 1,209 acres and a storage capacity of 21,932 acre-feet; and, (3) a total rates capacity of 8.8 MW.

The existing projects would also be subject to Federal takeover under Sections 14 and 15 of the Federal Power Act.

A joint Offer of Settlement among Consumers Power Company, the U.S. Forest Service, the U.S. Fish and Wildlife Service, the Michigan Department of Natural Resources, the National Park Service and the Michigan State Historic Preservation Officer was filed with the Commission on December 17, 1992, and was supplemented on March 25, 1993.

m. *Purpose of Project:* Project power would be utilized by the applicant for sale to its customers.

n. This notice also consists of the following standard paragraphs: A4 and D9.

o. *Available Location of Application:* A copy of the application and the Offer of Settlement Agreement are available for inspection and reproduction at the Commission's Public Reference and Files Maintenance Branch, located at 941 North Capitol Street, NE., room 3104, Washington, DC 20426, or by

calling (202) 208–1371. Copies are also available for inspection and reproduction at Consumers Power Company, 330 Chestnut Street, Cadillac, MI 49601, or by calling (816) 775–0176.

5 a. *Type of Application:* Material Amendment of License Application.

b. *Project No.:* 4715–006.

c. *Date Filed:* December 30, 1992.

d. *Applicont:* Felts Mills Energy Partners, L.P.

e. *Name of Project:* Felts Mills.

f. *Location:* On the Black River in Jefferson County, New York.

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C. 791 (a)–825(r).

h. *Applicant Contact:* Mary E. Leonard, 12 Groton Avenue, P.O. Box 787, Cortland, NY 13045, (607) 753–3551.

i. *FERC Contact:* Charles T. Raabe (tag) (202) 219–2811.

j. *Deadline Date:* June 1, 1993.

k. *Status of Environmental Analysis:* This application has previously been declared ready for environmental analysis.

l. *Description of Project:* The proposed project would consist of a Lower Dam development and an Upper Dam development. The two developments are about 1.1 miles apart. The existing Middle Dam, except the submerged wood crib dam, would be demolished. The existing abandoned mill at the Lower Dam would be demolished.

(A) The Lower Dam development would consist of: (1) an about 2,160-foot-long and 25.5-foot-high concrete gravity dam, consisting of a right bank section, a fuse plug dike section, an auxiliary gated spillway section, a powerhouse section, and a left bank retaining wall section; (2) a reservoir with water surface area of 142 acres, a gross storage capacity of 850 acre-feet, and a normal water surface elevation of 588.5 feet USGS; (3) a forebay approximately 70 feet long, 70 feet wide, and 36 feet deep; (4) a powerhouse containing two generating units with a total installed capacity of 8,133 kW; (5) a tailrace approximately 600 feet long and 70 feet wide; (6) a powerhouse yard with security fence; (7) an about 260-foot-long access road to the powerhouse; (8) a rockfill embankment on the south shore; (9) a 13.8–kV transmission line, approximately 1.600 feet long; and (10) appurtenant facilities.

(B) The Upper Dam development would consist of: (1) an about 510-foot-long and 26.5-foot-high concrete gravity dam, consisting of an existing modified spillway section with canoe chute, a new gated spillway section, an approach channel spillway section, a gated ice sluice section, and a powerhouse section; (2) a reservoir with a water surface area of 220 acres, a gross storage capacity of 1,100 acre-feet, and a water surface elevation of 608.9 feet USGS; (3) an about 390-foot-long, 70-foot-wide, and 50-foot-deep power canal with trash boom and security fence; (4) a powerhouse containing two generating units with a total installed capacity of 5,030 kW; (5) a tailrace, approximately 100 feet long and 70 feet wide; (6) an about 140-foot-long access road to the powerhouse; (7) an about 90-foot span bridge across the power canal; (8) a 13.8-kV transmission line approximately 10,560 feet long; and (9) appurtenant facilities.

The project would have a total installed capacity of 13,163 kW. The applicant estimates that the average annual generation would be 62,570,000 kWh.

m. This notice also consists of the following standard paragraphs: A3, A9, B, and C.

n. *Available Location of Application:* A copy of the application, as amended and supplemented, is available for inspection and reproduction at the Commission's Public Reference and Files Maintenance Branch, located at 941 North Capitol Street, NE., room 3104, Washington, DC 20426, or by calling (202) 208–1371, and at the Office of Ruthig & Leonard, 12 Groton Avenue, Cortland, New York 13045.

6 a. *Type of Application:* Surrender of Exemption (5MW or Less).

b. *Project No.:* 6219–002.

c. *Date filed:* April 6, 1993.

d. *Applicant:* Warren Hydro Company.

e. *Nome of Project:* Warren Hydro Project.

f. *Location:* On the Mad River near the town of Warren, in Washington County, Vermont.

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C., 791(a)–825(r).

h. *Applicant Contact:* Mr. L. Macrae Rood, Warren Hydro Company, Box 142, Warren, VT 05674, (802) 496–5200.

i. *FERC Contact:* Etta Foster, (202) 219–2679.

j. *Comment Date:* June 7, 1993.

k. *Description of Proposed Action:* The existing project for which the exemption is being surrendered consists of: (1) An 80-foot-long, 18-foot-high crib dam with 24-inch-high flashboards; (2) a 2.5-acre pond at a surface elevation of 896 feet Mean Sea Level; (3) a 30-foot-long intake channel; (4) a 4-foot-diameter, 60-foot-long steel penstock; (5) a powerhouse containing two generating units with a total rated capacity of 80 kW; (6) a 15-foot-long tailrace; (7) a 500-foot-long transmission line; and (8) appurtenant facilities.

The exemptee is requesting surrender of its exemption because the project is not economically feasible.

l. This notice also consists of the following standard paragraphs: B, C, and D2.

7 a. *Type of Application:* Changes to Project Design.

b. *Project No:* 9088–017.

c. *Date Filed:* March 30, 1993.

d. *Applicant:* Southern N. H. Hydroelectric Development Corp.

e. *Name of Project:* Lower Village Water Power Project.

f. *Location:* On the Sugar River near the town of Claremont, in Sullivan County, New Hampshire.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. John Webster, President, Southern N. H. Hydroelectric Corp., P.O. Box 178, 293 Main Street, South Berwick, ME 03908, (207) 384–5334.

i. *FERC Contact:* Mohamad Fayyad, (202) 219–2665.

j. *Comment Date:* June 7, 1993.

k. *Description of Amendment:* Licensee proposes to modify project's design as follows: (1) Re-aligning the 250-foot-long concrete spillway wall; (2) removing the existing 95-foot-long concrete weir, and the 75-foot-long wing wall. Due to the spillway wall alignment the surface area of the impoundment would be about 0.68 acre, and its storage capacity would be about 5 acre-foot. The reservoir water surface elevation would remain at 423.1 feet msl.

l. This notice also consists of the following standard paragraphs: B, C, and D2.

8 a. *Type of Application:* Preliminary Permit.

b. *Project No.* 11366–000.

c. *Date filed:* December 14, 1992.

d. *Applicant:* French Creek Hydroelectric Company.

e. *Name of Project:* French Creek Hydroelectric Project.

f. *Location:* On French Creek in Marion County, Oregon, near the town of Detroit. T. 9S., R. 5E, sections 28, 27, 26, and 35. Willamette Meridian and Base.

The project would occupy lands within the Willamette National Forest.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicont Contact:*

Mr. Mike Hayford, P.E., Consulting Engineer, 1201 S.W. 12th Avenue, Suite 415, Portland, OR 97205, (503) 222–0190

Steve P. Barrish, Project Engineer, 1004 SE 97th Avenue, Vancouver,

VOL 58 ISS 81 AP 29 1993 UMI

WA 98664, (206) 254–2423.

i. *FERC Contact:* Ms. Deborah Frazier-Stutely (202) 219–2842.

j. *Comment Date:* June 3, 1993.

k. *Description of Project:* The proposed project would consist of: (1) An intake structure at elevation 2,320 feet msl; (2) a 48-inch-diameter, 17,400-foot-long penstock; (3) a powerhouse containing a single generating unit with an installed capacity of 2,800 kW, producing an estimated average annual energy output of 22,982 MWh; (4) a tailrace; and (5) a 1,400-foot-long, 69–kV transmission line tying into an existing line.

The applicant estimates the cost of the studies to be conducted under the preliminary permit at $25,000. No new roads will be needed for the purpose of conducting these studies.

l. *Purpose of Project:* Project power would be sold to a local utility or a state municipality.

m. This notice also consists of the following standard paragraphs: A5, A7, A9, A10, B, C, and D2.

9a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 11387–000.

c. *Date filed:* February 23, 1993.

d. *Applicant:* Cascade Energy Limited Partnership.

e. *Name of Project:* Lewis River Pumped Storage Project.

f. *Location:* On the Lake Merwin section of the Lewis River, approximately 19 miles southeast of the city of Longview, in Cowlitz and Clark Counties, Washington. Sections 9, 10, 15, 16, 22, 33, and 34 in T6N, R3E; sections 3 and 4 in T5S, R3E.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* Mr. Robert D. Looper, Cascade Energy Limited Partnership, 1555 Shoreline Dr., Suite 200, Boise, Idaho 83702, (208) 338–2604.

i. *FERC Contact:* Mr. Michael Strzelecki, (202) 219–2827.

j. *Comment Date:* June 3, 1993.

k. *Description of Project:* The applicant is exploring two alternative schemes for the proposed pumped storage project. Both alternatives would utilize PacifiCorp's existing Lake Merwin (FERC Project No. 935) as a lower reservoir. The first alternative would also consist of: (1) A 240-foot-high dam and 105-acre upper reservoir; (2) a 26-foot-diameter, 6,800-foot-long penstock; (3) a powerhouse containing four generating units with a total installed capacity of 700 MW; (4) two 26-foot-diameter, 1,500-foot-long tailraces; and (5) appurtenant facilities.

The second alternative would also consist of: (1) a 150-foot-high dam, a 100-foot-high dam, and an 84-acre upper reservoir; (2) a 24-foot-diameter, 3,800-foot-long penstock; (3) a powerhouse containing three generating units with a total installed capacity of 500 MW; (4) two 24-foot-diameter, 1,350-foot-long tailraces; and (5) appurtenant facilities.

No new access roads will be needed to conduct the studies. The approximate cost of the studies would be $1,000,000.

l. This notice also consists of the following standard paragraphs: A5, A7, A9, A10, B, C, and D2.

10 a. *Type of Application:* Minor License.

b. *Project No.:* 11402–000.

c. *Date filed:* April 2, 1993.

d. *Applicant:* City of Crystal Falls.

e. *Name of Project:* Crystal Falls.

f. *Location:* On the Paint River in the City of Crystal Falls, Iron County, Michigan.

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact:* W.E. Hagglund, 401 Superior Avenue, Crystal Falls, MI 49920, (906) 875–3212.

i. *FERC Contact:* Charles T. Raabe (dt) (202) 219–2811.

j. *Comment Date:* Within 60 days of the date filed shown in paragraph (c). (June 1, 1993).

k. *Description of Project:* The existing, operating facility consists of a dam, a reservoir, and a powerhouse with an installed capacity of 1,000–kW.

l. With this notice, we are initiating consultation with the *STATE HISTORIC PRESERVATION OFFICER (SHPO)*, as required by § 106, National Historic Preservation Act, and the regulations of the Advisory Council on Historic Preservation, 36 CFR, at § 800.4.

m. Pursuant to § 4.32(b)(7) of 18 CFR of the Commission's regulations, if any resource agency, SHPO, Indian Tribe, or person believes that an additional scientific study should be conducted in order to form an adequate factual basis for a complete analysis of the application on its merits, the resource agency, Indian Tribe, or person must file a request for a study with the Commission not later than 60 days from the filing date and serve a copy of the request on the applicant.

Standard Paragraphs

A3. *Development Application*—Any qualified development applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, a competing development application, or a notice of intent to file such an application. Submission of a timely notice of intent allows an interested person to file the competing development application no later than 120 days after the specified comment date for the particular application. Applications for preliminary permits will not be accepted in response to this notice.

A4. *Development Application*—Public notice of the filing of the initial development application, which has already been given, established the due date for filing competing applications or notices of intent. Under the Commission's regulations, any competing development application must be filed in response to and in compliance with public notice of the initial development application. No competing applications or notices of intent may be filed in response to this notice.

A5. *Preliminary Permit*—Anyone desiring to file a competing application for preliminary permit for a proposed project must submit the competing application itself, or a notice of intent to file such an application, to the Commission on or before the specified comment date for the particular application (see 18 CFR 4.36). Submission of a timely notice of intent allows an interested person to file the competing preliminary permit application no later than 30 days after the specified comment date for the particular application. A competing preliminary permit application must conform with 18 CFR 4.30(b) (1) and (9) and 4.36.

A7. *Preliminary Permit*—Any qualified development applicant desiring to file a competing development application must submit to the Commission, on or before a specified comment date for the particular application, either a competing development application or a notice of intent to file such an application. Submission of a timely notice of intent to file a development application allows an interested person to file the competing application no later than 120 days after the specified comment date for the particular application. A competing license application must conform with 18 CFR 4.30(b) (1) and (9) and 4.36.

A9. *Notice of Intent*—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit, if such an application may be filed, either a preliminary permit application or a development application (specify which type of application). A notice of intent must be served on the applicant(s) named in this public notice.

A10. *Proposed Scope of Studies under Permit*—A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit will be 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on the results of these studies, the Applicant would decide whether to proceed with the preparation of a development application to construct and operate the project.

B. *Comments, Protests, or Motions to Intervene*—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

C. *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", COMPETING APPLICATION", "PROTEST", "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. An additional copy must be sent to Director, Division of Project Review, Federal Energy Regulatory Commission, Room 1027, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

D2. *Agency Comments*—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

D9. *Filing and Service of Responsive Documents*—The application is ready for environmental analysis at this time, and the Commission is requesting comments, reply comments, recommendations, terms and conditions, and prescriptions.

The Commission directs, pursuant to § 4.34(b) of the regulations (see Order No. 533 issued May 8, 1991, 56 FR 23108, May 20, 1991) that all comments, recommendations, terms and conditions and prescriptions concerning the application be filed with the Commission within 60 days from the issuance date of this notice. (June 1, 1993 for Project Nos. 2371–001, 2436, *et al.*, and 2451–004, *et al.*). All reply comments must be filed with the Commission within 105 days from the date of this notice. (July 14, 1993 for Project Nos. 2371–001, 2436, *et al.*, and 2451–004, *et al.*).

Anyone may obtain an extension of time for these deadlines from the Commission only upon a showing of good cause or extraordinary circumstances in accordance with 18 CFR 385.2008.

All filings must (1) bear in all capital letters the title "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS," "TERMS AND CONDITIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Any of these documents must be filed by providing the original and the number of copies required by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to Director, Division of Project Review, Office of Hydropower Licensing, Federal Energy Regulatory Commission, Room 1027, at the above address. Each filing must be accompanied by proof of service on all persons listed on the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b), and 385.2010.

Dated: April 26, 1993, Washington, DC.

Lois D. Cashell,

Secretary.

[FR Doc. 93–10098 Filed 4–28–93; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. ER93–563–000]

Massachusetts Electric Co.; Filing

April 23, 1993.

Take notice that on April 14, 1993, Massachusetts Electric Company (MECo) tendered for filing a Notice of Partial Termination for the Service Agreement for Borderline Sales, dated July 9, 1992, between MECo and Western Massachusetts Electric Company.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before May 7, 1993. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 93–10004 Filed 4–28–93; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. ER93–572–000]

Northern States Power Co. (Minnesota) and Northern States Power Co. (Wisconsin); Filing

April 23, 1993.

Take notice that on April 16, 1993, Northern States Power Company (Minnesota) and Northern States Power Company (Wisconsin) (jointly "NSP Companies") tendered for filing certain Transmission Service Agreements entered into by the NSP Companies pursuant to the NSP Companies FERC Electric Tariff Original Volume No. 1.

The NSP Companies request acceptance for filing of one standard form Transmission Service Agreements under the Original Tariff with Interstate Power Company effective May 1, 1993. The NSP Companies request acceptance for filing of a standard form Transmission Service Agreements under the Settlement Tariff with Wisconsin

VOL 58 ISS 81 AP 29 1993 UMI

Public Service Corporation effective April 19, 1993. The NSP Companies request any waiver necessary to allow the agreements to be accepted for filing on the dates requested.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before May 7, 1993. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

ENVIRONMENTAL PROTECTION AGENCY

[FRL–4619–4]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3502 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 260–2740.

SUPPLEMENTARY INFORMATION:

Office of Solid Waste and Emergency Response

Title: Notification of Episodic Releases of Oil and Hazardous Substances, EPA ICR # 1049.06. This ICR requests renewal of a currently approved collection (OMB #2050–0046).

Abstract: The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) establishes broad Federal authority to respond to releases of hazardous substances from vessels and facilities. The term "hazardous substance" is defined in section 101(14) of CERCLA by reference to other environmental statutes, including Clean Water Act (CWA) sections 311 and 307; Clean Air Act (CAA) section 112; the Resource Conservation and Recovery Act (RCRA) section 3001; the Toxic Substances Control Act (TSCA) section 7; and CERCLA section 102(a). There are currently 793 CERCLA hazardous substances, approximately 1,500 radionuclides, and an unspecified number of unlisted RCRA hazardous wastes that are also considered CERCLA hazardous substances. The most recent addition to the CERCLA list of hazardous substances is the 51 hazardous air pollutants listed pursuant to CAA section 112.

Each CERCLA hazardous substance is assigned an 'RQ' which is the quantity of hazardous substance that, when released into the environment, triggers CERCLA section 103 reporting requirements. Section 103(a) requires the person in charge of a facility to immediately notify the National Response Center (NRC) of any hazardous substance release that equals or exceeds its RQ. The information that must be provided to the NRC in the notification includes general background information, such as the location of the incident and the name and address of the discharger, as well as more detailed information about the circumstances surrounding the release, including the type of material(s) released, environmental medium(a) affected, and cause(s) and source(s) of the release. Notification under CERCLA section 103(a) is intended to ensure that Federal authorities receive prompt notification of hazardous substance releases for which a timely response may be necessary to protect public health or welfare or the environment.

Burden Statement: The estimated annual public reporting burden for this collection of information is estimated to average 4.1 hours per release, including time for reviewing regulatory requirements, gathering the required release information, contacting the NRC about the release, and keeping a log.

Respondents: Anyone in charge of a facility or vessel from which a hazardous substance was spilled or released into the environment in quantities greater than its RQ.

Estimated No. of Respondents: 52,100 release reports.

Estimated Total Annual Burden on Respondents: 213,700 hours.

Frequency of Collection: On occasion—when a release above the RQ occurs.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM–223Y), 401 M Street, SW., Washington, DC 20460; and

Tim Hunt, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW., Washington, DC 20530

Dated: April 23, 1993.

Paul Lapsley,

Director, Regulatory Management Division.

[FR Doc. 93–10064 Filed 4–28–93; 8:45 am]

BILLING CODE 6560–50–M

[FRL–4619–6]

Effluent Guidelines Task Force; Open Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: The Effluent Guidelines Task Force, an EPA advisory committee, will hold a meeting to discuss improvements to the Agency's Effluent Guidelines Program. The meeting is open to the public.

DATES: The meeting will be held on May 18, 1993, from 8:30 a.m. to 5 p.m., and May 19, 1993, from 8:30 a.m. to 3 p.m.

ADDRESSES: The meeting will take place at the Sheraton National Hotel, Columbia Pike at South Orme Street, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Eric Strassler, Effluent Guidelines Task Force Staff Director, Office of Water (WH–552), 401 M Street SW., Washington, DC 20460; telephone 202–260–7150, fax 202–260–7185.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), the Environmental Protection Agency gives notice of a meeting of the Effluent Guidelines Task Force (EGTF). The EGTF is a subcommittee of the Technology Innovation and Economics Committee, under the National Advisory Council for Environmental Policy and Technology (NACEPT), the external policy advisory board to the Administrator of EPA.

The EGTF was established in July of 1992 to advise EPA on the Effluent Guidelines Program, which develops regulations for dischargers of industrial wastewater pursuant to title III of the Clean Water Act (33 U.S.C. 1251 *et seq.*).

The Task Force consists of members appointed by EPA from industry, citizen groups, state and local government, the academic and scientific communities, and EPA regional offices.

The meeting agenda will include reports from Task Force work groups on specific problem areas, including: selection criteria and methodology for preliminary industry studies, the role of non-water quality impacts and pollution prevention in effluent guidelines, and redesigning the data collection and/or rulemaking processes for effluent guidelines.

The meeting will be open to the public. Limited seating for the public is available on a first-come, first-served basis. The public may submit written comments for the Task Force to Eric Strassler at the above address. Comments submitted by May 11 will be considered by the Task Force at or subsequent to the meeting.

Dated: April 23, 1993.

Gordon Schisler,

Acting NACEPT Designated Federal Official.

BILLING CODE 6560–50–M

[FRL–4619–1]

Interim Report on TCDD Aquatic Risks; Availability

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: The U.S. Environmental Protection Agency (EPA) Office of Research and Development has prepared a report titled *Interim Report on Data and Methods for the Assessment of 2,3,7,8-Tetrachlorodibenzo-p-Dioxin (TCDD) Risks to Aquatic Organisms and Associated Wildlife* (EPA/600/R–932/055): The report is not a risk assessment. Rather, it provides data and describes exposure, bioaccumulation and toxic effects relationships for evaluating specific TCDD contamination problems.

ADDRESSES: To obtain a single copy of this report, interested parties should contact the U.S. EPA Office of Research and Development Publications Office, CERI, U.S. Environmental Protection Agency, 26 West Martin Luther King Drive, Cincinnati, OH 45268, Telephone: (513) 569–7562. Please provide your name, mailing address, and EPA document number EPA/600/R–932/055. The document will be distributed from the Cincinneti office only.

The Interim report also will be available for public inspection at the ORD Public Information Shelf, EPA Headquarters Library, Waterside Mall, 401 M Street, SW., Washington, DC 20460, between the hours of 10 a.m. and 4 p.m., Monday through Friday, except for Federal holidays.

FOR FURTHER INFORMATION CONTACT: For further information on this **Federal Register** notice or technical aspects of the interim report, contact Philip M. Cook, U.S. Environmental Protection Agency, Environmental Research Laboratory, 6201 Congdon Boulevard, Duluth, MN 55804, Telephone: (218) 720–5553.

SUPPLEMENTARY INFORMATION: In April 1991, EPA Administrator William K. Reilly announced that the Agency would conduct a scientific reassessment of human health risks associated with exposure to 2,3,7,8,-TCDD and similar chemicals present in the environment. The reassessment plan includes a component on the risks of TCDD to aquatic life and associated wildlife.

Research to provide needed exposure and effects information to better characterize these risks was initiated in September 1991. Because the results of this research effort will not be complete until June 1995, this interim report was prepared to critically review and evaluate existing data and models for analyzing TCDD exposure to, and effects on, aquatic wildlife, and to identify major uncertainties. The report addresses TCDD exposure to and bioaccumulation in aquatic organisms, TCDD toxic effects on aquatic life and wildlife, and comments on aspects of risk characterization to exemplify approaches and applicability of current information.

The report will serve as a background document for a peer panel meeting of scientists and risk assessment experts on use of the data and methods in the report to assess dioxin-related ecological risks. This meeting will be announced in the **Federal Register** later this year. Interested members of the public will be invited to attend as observers.

Dated: April 5, 1993.

Gary J. Foley,

Acting Assistant Administrator for Research and Development.

BILLING CODE 6560–50–M

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirement Submitted to Office of Management and Budget for Review

April 22, 1993.

The Federal Communications Commission has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

Copies of this submission may be purchased from the Commission's copy contractor, International Transcription Service, Inc., 2100 M Street, NW., suite 140, Washington, DC 20037, (202) 857–3800. For further information on this submission contact Judy Boley, Federal Communications Commission, (202) 632–0276. Persons wishing to comment on this information collection should contact Jonas Neihardt, Office of Management and Budget, Room 3235 NEOB, Washington, DC 20503, (202) 395–4814.

OMB Number: 3060–0457.

Title: Amendment of Part 22 of the Commission's Rules to Establish Standards for Conducting Comparative Cellular Renewal Proceedings (CC Docket No. 90–358).

Action: Revision of a currently approved collection.

Respondents: Businesses or other for-profit (including small businesses).

Frequency of Response: On occasion reporting.

Estimated Annual Burden: 70 responses; 18.43 hours average burden per response; 1,290 hours total annual burden.

Needs and Uses: The Federal Communications Commission has revised certain rules governing the conduct of comparative renewal proceedings in the cellular radio service. The proposed revisions are necessary to define the standards that a renewal applicant must meet in order to obtain a renewal expectancy, which is the most significant preference awarded in a comparative renewal proceeding, and to streamline hearing procedures for such proceedings. The intent of these revisions is to promote efficiency in licensing of the cellular radio service and to provide excellent service to the public in an uncomplicated, timely, and courteous manner. The information will be used by Commission staff to conduct comparative renewal proceedings pursuant to section 309 of the Commissions Act. The rules and requirements have been designed to

VOL 58 ISS 81 AP 29 1993 UMI

prevent possible abuses by speculative applicants who might file competing applications against renewal applications solely to extract payments from the existing licenses. With these rules we intend to deter the filing of speculative applications by thinly or noncapitalized entities having little interest in providing cellular service. These rules will also maximize the utilization of the Commission's resources.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

BILLING CODE 6712-01-M

FEDERAL RESERVE SYSTEM

James Willis Covington, et al.; Change in Bank Control Notices; Acquisitions of Shares of Banks or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than May 19, 1993.

A. Federal Reserve Bank of Atlanta (Zane R. Kelley, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. James Willis Covington, McComb Mississippi; to acquire up to 20.89 percent of the voting shares of First Southwest Corporation, McComb, Mississippi, and thereby indirectly acquire First Bank, McComb, Mississippi.

B. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. William Hanford, II, Geneseo, Illinois; to acquire 11.1 percent of the voting shares of Farmers National Bancorp, Inc., Geneseo, Illinois and thereby indirectly acquire Farmers National Bank of Geneseo, Geneseo, Illinois.

C. Federal Reserve Bank of Kansas City (John E. Yorke, Senior Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. Dennis C. Romero, Taos, New Mexico; to acquire an additional 7.0 percent of the voting shares of Centinel Bank Shares, Inc., Taos, New Mexico, for a total of 28.6 percent, and thereby indirectly acquire Centinel Bank of Taos, Taos, New Mexico.

2. Floyd J. and Florence P. White, Kanapolis, Kansas, to acquire 11.6 percent; Everett White, Kanapolis, Kansas, to acquire 11.6 percent; Independent Salt Company, Kanapolis, Kansas, to acquire 9.9 percent; Donald J. and Ilene R. Kozisek, Holyrood, Kansas, to acquire 11.6 percent; Britton Bancshares, Inc., Employee Stock Ownership Plan, Ellsworth, Kansas, Lewis E. McAtee, David W. Brownback and Heather Y. Barta, trustees, to acquire an additional 2.5 percent for a total of 24.6 percent; Carol J. Heber, Salina, Kansas, to acquire 9.2 percent; Randy V. Mills, Florence, Kansas, to acquire 5.8 percent; Richard and Machelle Connally, Ellsworth, Kansas, to acquire 2.2 percent; James A. Pavlich, Kansas City, Kansas, to acquire 3.7 percent; John and Judy Sherman, Ellsworth, Kansas, to acquire 1.2 percent; Gregory and Nancy Hoffman, Ellsworth, Kansas, to acquire 1.2 percent; Ronnie and Patricia Svaty, Ellsworth, Kansas, to acquire 1.2 percent; David W. Brownback, Ellsworth, Kansas, to acquire 1.1 percent; Beverly J. Connally, Ellsworth, Kansas, to acquire 1.1 percent; Lewis E. McAtee, Ellsworth, Kansas, to acquire 1.5 percent; Svaty, Sherman and Hoffman 401(k) Plan, Ellsworth, Kansas, to acquire 0.9 percent; and Heather Y. Barta, Ellsworth, Kansas, to acquire 1.1 percent of the voting shares of Britton Bancshares, Inc., Ellsworth, Kansas, and thereby indirectly acquire Citizens State Bank and Trust co., Ellsworth, Kansas, and First National Bank of Holcomb, Holcomb, Kansas.

Board of Governors of the Federal Reserve System, April 23, 1993.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-F

Fidelity Southern Corporation; Acquisition of Company Engaged in Nonbanking Activities

The organization listed in this notice has applied under § 225.23(a) or (f) of the Board's Regulation Y (12 CFR 225.23(a) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than May 19, 1993.

A. Federal Reserve Bank of Atlanta (Zane R. Kelley, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. Fidelity Southern Corporation, Decatur, Georgia; to engage *de novo* through its subsidiary, Fidelity National Capital Investors, Inc., Decatur, Georgia, in providing management consulting services to depository institutions pursuant to § 225.25(b)(11), and arranging commercial real estate equity financing pursuant to § 225.25(b)(14) of the Board's Regulation Y.

In addition, Applicant proposes to engage, through Fidelity National Capital Investors, Inc., in underwriting and dealing in bank ineligible debt securities (*J.P. Morgan & Co., Incorporated, New York, New York, et al.*, 75 Federal Reserve Bulletin 192 (1989); private placement and riskless principal transactions (*Bankers Trust New York Corporation*, 75 Federal Reserve Bulletin 829 (1989) and *J.P. Morgan & Co., Incorporated*, 76 Federal Reserve Bulletin 26 (1990); underwriting and dealing in equity securities (*J.P. Morgan & Co., Incorporated, et al.*, 75 Federal Reserve Bulletin 192 (1989); and underwriting and dealing in municipal revenue bonds (*Citicorp, J.P. Morgan & Co., Incorporated, Bankers Trust New York Corporation*, 73 Federal Reserve Bulletin 473 (1987); *Citicorp, Morgan, Bankers Trust, aff'd sub nom., Securities Industry Association v. Board of Governors of the Federal Reserve System*, 839 F.2d 47 (2d Cir. 1988), *cert. denied*, 108 S. Ct. 2830 (1988); as modified by *order Approving Modifications to Section 20 Orders*, 75 Federal Reserve Bulletin 751 (1989). The proposed activities will be conducted throughout the State of Georgia.

Board of Governors of the Federal Reserve System, April 23, 1993.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-F

First Hawaiian, Inc.; Acquisition of Company Engaged in Permissible Nonbanking Activities

The organization listed in this notice has applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than May 24, 1993.

A. Federal Reserve Bank of San Francisco (Kenneth R. Binning, Director, Bank Holding Company) 101 Market Street, San Francisco, California 94105:

1. First Hawaiian, Inc., Honolulu, Hawaii; to acquire Pioneer Fed BanCorp, Inc., Honolulu, Hawaii, and thereby engage in lending and deposit-taking activities of a federal savings bank pursuant to § 225.25(b)(9); the provision of certain services for such federal savings bank pursuant to § 225.25(a)(2), and certain credit-related insurance activities pursuant to § 225.25(b)(8)(i) of the Board's Regulation Y. These activities will be conducted in the State of Hawaii.

Board of Governors of the Federal Reserve System, April 23, 1993.

FEDERAL TRADE COMMISSION

[File No. 912-3369]

Griffin Bacal, Inc.; Proposed Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent agreement, accepted subject to final Commission approval, would prohibit, among other things, a New York advertising agency from misrepresenting any performance characteristic of any toy it promotes. In addition, in any demonstrations or tests used in the

VOL
58
ISS
81
AP
29
1993
UMI

packaging or advertising for the toys, the respondent would be prohibited from falsely representing that the demonstration or test proves or confirms any material feature of the toy.

DATES: Comments must be received on or before June 28, 1993

ADDRESSES: Comments should be directed to: FTC/Office of the Secretary, room 159, 6th Street and Pennsylvania Avenue NW., Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: Rosemary Rosso or Toby Levin, FTC/S–4002, 6th Street & Pennsylvania Avenue NW., Washington, DC 20580. (202) 326–2174 or 326–3156.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(6)(ii) of the Commission's Rules of Practice (16 CFR 4.9(b)(6)(ii)).

Agreement Containing Consent Order To Cease and Desist

The Federal Trade Commission having initiated an investigation of certain acts and practices of Griffin Bacal, Inc., a corporation, hereinafter sometimes referred to as proposed respondent, and it now appearing that proposed respondent is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated,

It is hereby agreed, By and between Griffin Bacal, Inc., by its duly authorized officer, and its attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent Griffin Bacal, Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of New York with its office and principal place of business located at 130 Fifth Avenue, New York, New York 10011.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusion of law;

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement; and

(d) Any claim under the Equal Access To Justice Act.

4. This agreement shall not become part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it, together with the draft complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released. The Commission thereafter may either withdraw its acceptance of this agreement and so notify the proposed respondent, in which event it will take such action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require) and decision, in disposition of the proceeding.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent of facts, other than jurisdictional facts, or of violations of law as alleged in the draft of complaint here attached.

6. The agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's Rules, the Commission may, without further notice to proposed respondent: (1) Issue its complaint corresponding in form and substance with the draft complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding; and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Delivery by the U.S. Postal Service of the complaint and decision containing the agreed-to-order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any rights it may have to any other manner of service.

The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby. It understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order. Proposed respondent further understands that it may be liable for civil penalties in the amount provided by law for each violation of the order after it becomes final.

Order

I

It is ordered, That respondent Griffin Bacal Inc., a corporation, its successors and assigns, and its officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of any toy, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

A. In connection with any advertisement depicting a demonstration, experiment or test, making any representation, directly or by implication, that the demonstration, picture, experiment or test depicted in the advertisement proves, demonstrates or confirms any material quality, feature or merit of any toy when such demonstration, picture, experiment or test does not prove, demonstrate or confirm the representation for any reason, including but not limited to:

1. The undisclosed use or substitution of a material mock-up or prop;

2. The undisclosed material alteration in a material characteristic of the advertised toy or any other material prop or device depicted in the advertisement; or

3. The undisclosed use of a visual perspective or camera, film, audio or video technique;

That, in the context of the advertisement as a whole, materially misrepresents a material characteristic of the advertised toy or any other material aspect of the demonstration or depiction.

Provided, however, that notwithstanding the foregoing, nothing in this Order shall be deemed to otherwise preclude the use of fantasy segments or prototypes which use otherwise is not deceptive.

Provided further, however, that it shall be a defense hereunder that the respondent neither knew nor had reason to know that the demonstration, experiment or test did not prove, demonstrate or confirm the representation.

B. Misrepresenting, directly or by implication, any performance characteristic of any Battle Copter toy or any other toy.

II

It is further ordered, That respondent Griffin Bacal, Inc. shall distribute a copy of this Order to each of its operating divisions and to each officer, agent and personnel responsible for the preparation, review or placement of advertising, or other materials covered by this Order and shall secure from each such person a signed statement acknowledging receipt of this Order.

III

It is further ordered, That for three (3) years after the date of the last dissemination of any representation covered by this Order, respondent, its successors and assigns, shall maintain and upon request make available to the Federal Trade Commission for inspection and copying the following records:

A. Any and all videotapes, in complete and unedited form, and any and all still photographs taken during the production of any advertisement depicting a demonstration, experiment, or test; and

B. Any and all affidavits or certifications submitted by an employee, agent or representative of respondent to a television network or to any other individual or entity, other than counsel for respondent, which affidavit or certification affirms the accuracy or integrity of a demonstration or demonstration techniques contained in an advertisement.

In addition, respondent, its successors and assigns, for three (3) years after the date of service of this Order, shall maintain and, within thirty (30) days of any written request, make available to the Federal Trade Commission for inspection and copying all signed statements obtained pursuant to section II, above.

IV

It is further ordered, That respondent shall notify the Commission at least thirty (30) days prior to the effective date of any proposed change in the corporation which may affect compliance obligations arising out of this Order, including but not limited to any change in corporate name or address, dissolution, assignment or sale resulting in the emergence of a successor corporation, and the creation or dissolution of subsidiaries.

V

It is further ordered, That respondent shall, within sixty (60) days after service of this Order, and at such other time as the Commission may require, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this Order.

Analysis of Proposed Consent Order to Aid Public Comment

The Federal Trade Commission has accepted an agreement to a proposed consent order from Griffin Bacal, Inc. ("Griffin Bacal").

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The Commission's complaint in this matter charges Griffin Bacal with engaging in deceptive and unfair practices in connection with the advertising of the Battle Copter and Eco-Warrior toys, manufactured by Hasbro, Inc. According to the complaint, television advertisements for the Battle Copter toy represented that the demonstrations of these toys hovering and flying in the air were unaltered and the results shown accurately represent the performance of actual, unaltered Battle Copter toys under the depicted conditions. This representation is alleged to be false and misleading. According to the complaint, the Battle Copter toys depicted in the advertisement were suspended from monofilament wire attached to poles, which were moved by humans to create the flying and hovering effect, and battery-operated motors were installed into the Battle Copter toy to make their rotors spin around while they were being held in place or moved on the monofilament wire attached to poles.

The complaint also alleges that the advertisements for the Battle Copter toy represented that Battle Copter toys can hover and can fly in a sustained and directed manner. This representation is also alleged to be false and misleading.

The consent order contains provisions designed to remedy the violations charged and to prevent Griffin Bacal from engaging in similar deceptive and unfair acts and practices in the future.

Part I.A of the order prohibits Griffin Bacal from misrepresenting that a demonstration, picture, experiment or test depicted in an advertisement proves, demonstrates or confirms a material quality, feature or merit of any toy when such demonstration, picture, experiment or test does not do so. Part I.A enumerates examples of such misrepresentations, including:

1. The undisclosed use or substitution of a material mock-up or prop;

2. The undisclosed material alteration in a material characteristic of the advertised toy or any other material prop or device depicted in the advertisement; or

3. The undisclosed use of a visual perspective or camera, film, audio or video technique;

That in the context of the advertisement as a whole, materially misrepresents a material characteristic of the advertised toy or any other material aspect of the demonstration or depiction.

Part I.A does not preclude the use of fantasy segments or prototypes which use is otherwise not deceptive. Part I.A provides Griffin Bacal with a defense to liability if it neither knew nor had reason to know that the demonstration, experiment or test did not prove, demonstrate or confirm the representation.

Part I.B prohibits Griffin Bacal from misrepresenting any performance characteristics of any Battle Copter toy or any other toy.

Part II requires Griffin Bacal to distribute copies of the order to certain company officials and employees and certain other representatives and agents of the company, and to secure from each such person a signed statement acknowledging receipt of the order

Part III requires Griffin Bacal to maintain copies of certain materials relating to advertisements covered by this order and to make such documents available for FTC inspection.

Part IV requires Griffin Bacal to notify the Commission of any changes in the corporate structure that might affect compliance with the order.

Part V requires Griffin Bacal to file with the Commission one or more reports detailing compliance with the order.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify their terms in any way

Donald S. Clark,

Secretary.

Hasbro, Inc.; Proposed Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent agreement, accepted subject to final Commission approval, would prohibit, among other things, a Rhode Island-based toy corporation from misrepresenting any performance characteristic of any toy it manufactures or promotes. In addition, in any demonstrations or tests used in the packaging or advertising for the toys, the respondent would be prohibited from falsely representing that the demonstration or test proves or confirms any material feature of the toy.

DATES: Comments must be received on or before June 28, 1993.

ADDRESSES: Comments should be directed to: FTC/Office of the Secretary, Room 159, 6th St. and Pa. Ave., NW., Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: Rosemary Rosso or Toby Levin, FTC/S–4002, 6th St. & PA. Ave., NW., Washington, DC 20580, (202) 326–2174 or 326–3156.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(6)(ii) of the Commission's Rules of Practice (16 CFR 4.9(b)(6)(ii)).

Agreement Containing Consent Order To Cease and Desist

The Federal Trade Commission having initiated an investigation of certain acts and practices of Hasbro, Inc., a corporation ("Hasbro" or "proposed respondent") and it now appearing that proposed respondent is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated,

It is hereby agreed, By and between Hasbro, by its duly authorized officer, and its attorney and counsel for the Federal Trade Commission that:

1. Proposed respondent Hasbro is a corporation organized, existing and doing business under and by virtue of the laws of the State of Rhode Island with its office and principal place of business located at 1027 Newport Avenue, Pawtucket, Rhode Island 02861.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusion of law;

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement; and

(d) Any claim under the Equal Access To Justice Act.

4. This agreement shall not become part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it, together with the draft complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released. The Commission thereafter may either withdraw its acceptance of this agreement and so notify the proposed respondent, in which event it will take such action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require) and decision, in disposition of the proceeding.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent of facts, other than jurisdictional facts, or of violations of law as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's Rules, the Commission may, without further notice to proposed respondent: (1) Issue its complaint corresponding in form and substance with the draft complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding; and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Delivery by the U.S. Postal Service of the complaint and decision containing the agreed-to order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any rights it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby. It understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order. Proposed respondent further understands that it may be liable for civil penalties in the amount provided by law for each violation of the order after it becomes final.

Order

I.

It is ordered, That respondent Hasbro, Inc., a corporation, its successors and assigns, and its officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the manufacturing, labelling, advertising, promotion, offering for sale, sale, or distribution of any toy in or affecting commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

A. In connection with any advertisement or package depicting a demonstration, experiment or test, making any representation, directly or by implication, that the demonstration, picture, experiment or test depicted in the advertisement or package proves, demonstrates or confirms any material quality, feature or merit of any toy when such demonstration, picture, experiment or test does not prove, demonstrate or confirm the representation for any reason, including but not limited to:

1. The undisclosed use or substitution of a material mock-up or prop;

2. The undisclosed material alteration in a material characteristic of the advertised toy or any other material prop or device depicted in the advertisement; or

3. The undisclosed use of a visual perspective or camera, film, audio or video technique;

that, in the context of the advertisement as a whole, materially misrepresents a material characteristic of the advertised toy or any other material aspect of the demonstration or depiction.

Provided, however, that notwithstanding the foregoing, nothing in this Order shall be deemed to otherwise preclude the use of fantasy segments or prototypes which use otherwise is not deceptive.

B. Misrepresenting, directly or by implication, any performance characteristic of any Eco-Warriors action figure toy, Battle Copter toy or any other toy.

II.

It is further ordered, That respondent Hasbro, Inc. shall distribute a copy of this Order to each of its operating divisions and to each officer, agent and personnel responsible for the preparation, review or placement of advertising, packaging or other materials covered by this Order and shall secure from each such person a signed statement acknowledging receipt of this Order.

III.

It is further ordered, That for three (3) years after the last date of dissemination of any representation covered by this Order, respondent, or its successors and assigns, shall maintain and upon request make available to the Federal Trade Commission for inspection and copying:

A. All materials that were relied upon in disseminating such representation;

B. Any and all videotape, in complete as well as unedited form, and any and all still photographs taken during the production of any advertisement depicting a demonstration, experiment or test;

C. Any and all affidavits or certifications submitted by an employee, agent or representative of respondents to a television network or to any other individual or entity, which affidavit or certification affirms the accuracy or integrity of a demonstration or demonstration techniques contained in an advertisement; and

D. Any toy as well as the packaging for any toy involved in such representation.

In addition, for three (3) years after the date of service of this Order, respondent, or its successors and assigns, shall maintain and, within thirty (30) days of any written request, make available to the Federal Trade Commission for inspection and copying all signed statements obtained pursuant to section II above.

IV.

It is further ordered, That respondent Hasbro, Inc., shall notify the Federal Trade Commission at least thirty (30) days prior to any proposed change in its corporate structures, including but not limited to, dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or affiliates, the planned filing of a bankruptcy petition, or any other corporate change that may affect compliance obligations arising out of this Order.

V.

It is further ordered, That respondent Hasbro, Inc., shall, within sixty (60) days after service upon it of this Order, and at such other times as the Federal Trade Commission may require, file with the Commission a report, in writing, setting forth, in detail the manner and form in which it has complied with this Order.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has accepted an agreement to a proposed consent order from Hasbro, Inc. ("Hasbro"). In addition, the Federal Trade Commission has approved a district court consent decree from Hasbro settling allegations that Hasbro engaged in unfair or deceptive acts or practices with actual knowledge that the Commission, in a prior proceeding, had determined that such conduct is unfair or deceptive and is unlawful.

The proposed administrative consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed administrative order.

The Commission's complaint in this matter charges Hasbro with engaging in deceptive and unfair practices in connection with the advertising of its Battle Copter and Eco-Warrior toys. According to the complaint, Hasbro's television advertisements for the Battle Copter toy represented that the demonstrations of these toys hovering and flying in the air were unaltered and the results shown accurately represent the performance of actual, unaltered Battle Copter toys under the depicted conditions. This representation is alleged to be false and misleading. According to the complaint, the Battle Copter toys depicted in the advertisements were suspended from monofilament wire attached to poles, which were moved by humans to create the flying and hovering effect, and battery-operated motors were installed into the Battle Copter toys in order to make their rotors spin around while they were being held in place or moved on the monofilament wire attached to poles.

The complaint also alleges that Hasbro's advertisements and packages for the Battle Copter toy represented that Battle Copter toys can hover and can fly in a sustained and directed manner. This representation is also alleged to be false and misleading.

The complaint also alleges that through statements and a depiction of the Toxo-Viper figure found on packaging for its Eco-Warrior action figures, Hasbro represented that the depiction on the packaging of the Toxo-Viper figure bearing a large patch of bright yellow color extending from the top of the figure's head, through the torso and belt and covering the upper legs is an unaltered depiction that accurately represents the color change that results when the Toxo-Viper figure is squirted with or dipped into water. This representation is alleged to be false and misleading. Among other things, the color change depicted was achieved by painting a photograph of the Toxo-Viper figure with yellow paint that is significantly different in color and extensiveness than the "battle damage" color change that occurs for the Toxo-Viper figure after it is squirted with or dipped into water.

The consent order contains provisions designed to remedy the violations charged and to prevent Hasbro from engaging in similar deceptive and unfair acts and practices in the future.

Part I.A of the order prohibits Hasbro from misrepresenting that a demonstration, picture, experiment or test depicted in an advertisement or package proves, demonstrates or confirms a material quality, feature or merit of any toy when such demonstration, picture, experiment or test does not do so. Part I.A enumerates examples of such misrepresentations, including:

1. The undisclosed use or substitution of a material mock-up or prop;

2. The undisclosed material alteration in a material characteristic of the advertised toy or any other material prop or device depicted in the advertisement; or

VOL 58 ISS 81 AP 29 1993 UMI

3. The undisclosed use of a visual perspective or camera, film, audio or video technique;

that in the context of the advertisement as a whole, materially misrepresents a material characteristic of the advertised toy or any other material aspect of the demonstration or depiction.

Part I.A does not preclude the use of fantasy segments or prototypes which use is otherwise not deceptive.

Part I.B of the order prohibits Hasbro from misrepresenting any performance characteristic of any Eco-Warriors action figure, any Battle Copter toy or any other toy.

Part II requires Hasbro to distribute copies of the order to certain company officials and employees and certain other representatives and agents of the company, and to secure from each such person a signed statement acknowledging receipt of the order.

Part III requires Hasbro to maintain copies of all materials relating to advertisements and packaging covered by this order and all documents relating to substantiation of advertising claims covered by this order, and to make those documents available for FTC inspection.

Part IV requires Hasbro to notify the Commission of any changes in the corporate structure that might affect compliance with the order.

Part V requires Hasbro to file with the Commission one or more reports detailing compliance with the order.

In addition to the administrative matter, the United States district court complaint charges that in 1976, Hasbro was notified that the Commission, in Ideal Toy Corp., 64 F.T.C. 297 (1964), had determined that it is unfair or deceptive and unlawful under Section 5 of the FTC Act to misrepresent the performance of a toy. Hasbro also was notified of its potential liability for civil penalties if it engaged in acts or practices which the Commission had determined to be unfair or deceptive. In June 1978, the United States District Court for the District of Rhode Island entered a consent judgment ordering Hasbro to pay civil penalties for allegedly misrepresenting the performance of two toys with actual knowledge that the Commission, in a prior proceeding, had determined that such conduct was unfair or deceptive, and permanently enjoying Hasbro from misrepresenting the performance of a toy.

This district court complaint here alleges that Hasbro misrepresented the performance of its Battle Copter and Eco Warrior toys with actual knowledge that the Commission, in a prior proceeding, had determined that such conduct was unfair or deceptive and in violation of Section 5 of the FTC Act. In settlement of this complaint, Hasbro has agreed to pay a civil penalty in the amount of $175,000.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify their terms in any way.

Donald S. Clark,

Secretary.

BILLING CODE 6750–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

CDC Advisory Committee on the Prevention of HIV Infection (CDC ACPHI): Subcommittee on Promoting Knowledge of Serostatus (Counseling, Testing, Referral, Partner Notification): Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following subcommittee meeting.

Name: CDC ACPHI Subcommittee on Promoting Knowledge of Serostatus (Counseling, Testing, Referral, Partner Notification).

Time and Dates: 8 a.m.–5 p.m., May 24–25, 1993.

Place: Holiday Inn Decatur Conference Plaza, 130 Clairemont Avenue, Decatur, Georgia 30030.

Status: Open to the public, limited only by the space available.

Purpose: This is the initial meeting of this subcommittee. The subcommittee and consultants will be provided an orientation on counseling, testing, referral, and partner notification policies, programs, and services. The meeting will also include a discussion of the purpose and process for the external review.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Connie Granoff, Committee Assistant, Office of the Associate Director for HIV/AIDS, CDC, 1600 Clifton Road, NE., Mailstop E–40, Atlanta, Georgia 30333, telephone 404/639–2918.

Dated: April 23, 1993.

Elvin Hilyer,

Associate Director for Policy Coordination, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4160–18–M

Food and Drug Administration

[Docket No. 93D–0134]

Animal Drug User Fee Study; Request for Information and Comments

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration's Center for Veterinary Medicine (CVM), as directed by the Prescription Drug User Fee Act of 1992, is conducting an animal drug user fee study. Information and comments are being solicited from drug manufacturers and other interested persons.

DATES: Written comments by June 15, 1993.

ADDRESSES: Submit written information and comments on the animal drug user fee study to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857. Information and comments should be identified with the docket number found in brackets in the heading of this document. A copy of received information and comments is available for public examination in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: David Lynch, Center for Veterinary Medicine (HFV–11), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–295–8743.

SUPPLEMENTARY INFORMATION: CVM is conducting a study on animal drug user fees as required by section 108 of the Prescription Drug User Fee Act of 1992 (Pub. L. 102–571). The statute provides for the study to evaluate whether, and under what conditions, to impose user fees to supplement appropriated funds in order to improve the process of reviewing applications (including abbreviated and supplemental applications) for new animal drugs (as provided by section 512 of the Federal Food, Drug, and Cosmetic Act). The study must include: (1) An assessment of the overall review process for animal drugs including the number of applications received and the average time for interim and final decisions on each type of application; (2) examination of the current allocation of funds to the review process; (3) recommendations for the goals for decisionmaking times on applications and for additional resources required to meet the goals; and (4) recommendations for supplementing the resources for the animal drug review process through user fees. The study also will include means of making the overall review process for animal drugs more efficient.

The law directs the agency to consult with animal drug manufacturers and other interested persons on the study. CVM is providing this opportunity for interested persons to submit information and comments germane to the study. CVM also seeks suggestions for goals to improve the new animal drug application review process. Comments and information received will be used in developing a proposal regarding the assessment of user fees for animal drug applications. Pub. L. 102–571 requires that the results of the study be presented to specified congressional committees by January 4, 1994.

Interested persons may, on or before June 15, 1993, submit written comments on the animal drug user fee study to the Dockets Management Branch (address above). Comments should be submitted in duplicate (except that individuals may submit one copy), identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 23, 1993.

Michael R. Taylor,

Deputy Commissioner for Policy.

BILLING CODE 4160–01–F

[Docket No. 93D–0119]

FIS Program User Reference Guide and Installation Manual; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of a manual entitled "FIS Program User Reference Guide and Installation Manual." FIS stands for "File Interchange System." This manual is intended to enable new drug application sponsors and FDA to exchange biopharmaceutic data. This will aid in FDA's review of the biopharmaceutic data.

DATES: Written comments by July 28, 1993.

ADDRESSES: The "FIS Program User Reference Guide and Installation Manual" and the program disks may be ordered from National Technical Information Service.(NTIS), U.S. Department of Commerce, 5285 Port Royal Rd., Springfield, VA 22161. Orders must reference NTIS order number PB 93–502649 and include payment of $140 for each copy of the document and the program disks. Payment may be made by check, money order, charge card (American Express, VISA, or MasterCard), or billing arrangements made with NTIS. Charge card orders must include the charge card account number and expiration date. For telephone orders or further information on placing an order, call NTIS at 703–487–4650. Submit written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857. Comments should be identified with the docket number found in brackets in the heading of this document. The "FIS Program User Reference Guide and Installation Manual" and received comments are available for public examination in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: See-Yan Lam, Center for Drug Evaluation and Research (HFD–426), 5600 Fishers Lane, Rockville, MD 20857, 301–443–1640.

SUPPLEMENTARY INFORMATION: A biopharmaceutics task force comprised of members of FDA and the Pharmaceutical Manufacturers Association has developed a system called FIS for exchanging and manipulating data. The first of its two components is the FIS file specifications. The second, also referred to as FIS, is the program that enables the firm to create an FIS file and the FDA reviewer to extract and manipulate the data.

Members of FDA's Division of Biopharmaceutics, Center for Drug Evaluation and Research, and the Pharmaceutical Manufacturers Association's Drug Metabolism subsection worked for 3 years to develop FIS. It was created to facilitate the use of FIS files as a conduit to exchange biopharmaceutics data between pharmaceutical companies and FDA reviewers using a standardized format. The FIS program copyright has been transferred to FDA with full privilege to use and distribute.

Currently, FIS is designed so that biopharmaceutic data can be developed by a sponsor or third party without considering interfacing or adapting to FDA's environment in which it will be used. In addition, FIS was created to be available, affordable, and usable to any company without regard to size, resources, or computer sophistication.

The task force was aware of the array of computer skills among the people who would be using the system and designed it to be user-friendly, able to accept any data, hardware, software, and operating system. FIS can, therefore, accept any type of information contained in a file if the construction follows the specifications of the program.

The "FIS Program User Reference Guide and Installation Manual" defines specifically how to construct files. It also tells how to include comments in the file, which can provide further descriptive information. Therefore, a file conforming to FIS can be entirely self-documenting.

Interested persons may, on or before July 28, 1993, submit written comments to the Dockets Management Branch (address above) on the "FIS Program User Reference Guide and Installation Manual." FDA is requesting comments pertaining to the application and use of FIS files and the usability of the manual. FDA will consider these comments in determining whether further amendments to, or revisions of, the manual are warranted. Two copies of any comments are to be submitted, except that individuals may submit one copy.

Dated: April 22, 1993.

Michael R. Taylor,

Deputy Commissioner for Policy.

BILLING CODE 4160–01–F

Conference on the FDA Medical Products Reporting Program; Notice of Public Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the Commissioner's Conference on *MEDWatch*:the FDA Medical Products Reporting Program. The Commissioner of Food and Drugs will announce FDA's new approach to reporting adverse events and product problems.

DATES: The conference will be held on Thursday, June 3, 1993, 10 a.m. to 5 p.m.

ADDRESSES: The conference will be held at the Holiday Inn Crowne Plaza, 1750 Rockville Pike, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT: Peter H. Rheinstein, Office of Health Affairs (HFY–40), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–5470. Those persons interested in attending this conference, who have not already registered, should call the contact person listed above or fax their

VOL 58 ISS 81 AP 29 1993 UMI

registration, including firm name, address, and telephone number to 301–443–2446. It is suggested that interested persons register by May 21, 1993, because conference space is limited.

SUPPLEMENTARY INFORMATION: Reports from health professionals of adverse events or product quality problems are essential to ensuring the postmarketing safety of drugs, biologics, medical devices, and other products regulated by FDA. Because many health professionals may not appreciate how vital these reports are to protecting the public health, this is an area that warrants change. The purpose of the June 3, 1993, conference, will be for the Commissioner of Food and Drugs, in partnership with leaders of organizations representing health professionals and industry, to introduce MEDWatch, FDA's new reporting program. One component will be the use of a new single reporting form, a draft of which was published in the **Federal Register** of February 26, 1993 (58 FR 11768 at 11770 and 11771).

Dated: April 23, 1993.

Michael R. Taylor,

Deputy Commissioner for Policy.

Social Security Administration

[Social Security Acquiescence Ruling 93-1(4)]

Branham v. Heckler; Flowers v. U.S. Department of Health and Human Services; What Constitutes an Additional and Significant Work-Related Limitation of Function

AGENCY: Social Security Administration, HHS.

ACTION: Notice of revised Social Security Acquiescence Ruling.

SUMMARY: In accordance with 20 CFR 422.406(b)(2) published January 11, 1990 (55 FR 1012), the Principal Deputy Commissioner of Social Security gives notice of a revision to Social Security Acquiescence Ruling 92-3(4) through the issuance of Social Security Acquiescence Ruling 93-1(4).

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION: Darlynda K. Bogle, Esq., Litigation Staff, Social Security Administration, 6401 Security Blvd., Baltimore, MD 21235, (410) 965-4237.

SUPPLEMENTARY INFORMATION: We are publishing this revision to Social Security Acquiescence Ruling 92-3(4) in accordance with 20 CFR 422.406(b)(2).

A Social Security Acquiescence Ruling explains how we will apply a holding in a decision of a United States Court of Appeals that we determine conflicts with our interpretation of a provision of the Social Security Act or regulations when the Government has decided not to seek further review of that decision or is unsuccessful on further review.

On March 10, 1992, Acquiescence Ruling 92-3(4) was published in the **Federal Register** (57 FR 8463) to reflect the holdings in *Branham* v. *Heckler*, 775 F.2d 1271 (4th Cir. 1985) and *Flowers* v. *U.S. Department of Health and Human Services*, 904 F.2d 211 (4th Cir. 1990). The Acquiescence Ruling applied to claims involving allegations of mental impairment in which the claimant had a valid IQ score in the range of 60 through 69, where the claimant also had a physical or other mental impairment which prevented performance of past relevant work. Claimants meeting these conditions were considered under the Acquiescence Ruling to have established disability under section 12.05C of the Listing of Impairments.

On December 12, 1990, subsequent to the court's decisions, but before publication of Acquiescence Ruling 92-3(4), the Secretary revised his regulations at 20 CFR part 404, subpart P, appendix 1, Listing 12.05C, to extend the IQ Listing range from "60 through 69" to "60 through 70." (55 FR 51230) Because the current Ruling, AR 92-3(4), specifies that it applies to claimants who have IQ scores of 60 to 69 inclusive, and thus did not apply to claimants who have an IQ score of 70, we are revising the current Ruling, AR 92-3(4) to reflect the regulatory change We also have made several technical corrections in connection with this substantive revision.

We will apply the holding of the Court of Appeals decision as explained in this revised Social Security Acquiescence Ruling to claims at all levels of administrative adjudication within the Fourth Circuit. This revised Social Security Acquiescence Ruling will apply to all determinations and decisions made on or after April 29, 1993. If we made a determination or decision on your application for benefits between November 4, 1985, the date of the Court of Appeals' decision in *Branham* and April 29, 1993, the effective date of this Social Security Acquiescence Ruling, you may request application of the Social Security Acquiescence Ruling to your claim if you first demonstrate, pursuant to 20 CFR 404.985(b) or 416.1485(b), that application of the Ruling could change our prior determination or decision.

If this Social Security Acquiescence Ruling is later rescinded as obsolete, we will publish a notice in the **Federal Register** to that effect as provided for in 20 CFR 404.985(e), or 416.1485(e). If we decide to relitigate the issue covered by this Social Security Acquiescence Ruling as provided for by 20 CFR 404.985(c) or 416.1485(c), we will publish a notice in the **Federal Register** stating that we will apply our interpretation of the Act or regulations involved and explaining why we have decided to relitigate the issue.

(Catalog of Federal Domestic Assistance Programs Nos. 93.802 Social Security - Disability Insurance; 93.803 Social Security - Retirement Insurance; 93.805 Social Security Survivors Insurance; 93.806 - Special Benefits for Disabled Coal Miners; 93.807 - Supplemental Security Income.)

Louis D. Enoff

Principal Deputy Commissioner of Social Security.

Acquiescence Ruling 93-1(4)

Branham v. *Heckler*, 775 F.2d 1271 (4th Cir. 1985); *Flowers* v. *U.S. Department of Health and Human Services*, 904 F.2d 211 (4th Cir. 1990)—What constitutes an additional and significant work-related limitation of function—Titles II and XVI of the Social Security Act.

Issue

Whether a claimant for disability insurance benefits or for supplemental security income benefits based on disability who has an IQ score in the range covered by Listing 12.05C and who cannot perform his or her past relevant work because of a physical or other mental impairment has *per se* established the additional and significant work-related limitation of function requirement of Regulations 20 CFR part 404, subpart P, appendix 1, section 12.05C.

Statute/Regulation/Ruling Citation

Sections 223(d)(2)(A) and 1614(a)(3)(B) of the Social Security Act (42 U.S.C. 423(d)(2)(A) and 1382c(a)(3)(B); 20 CFR part 404, subpart P, appendix 1, section 12.05C.

Circuit

Fourth (Maryland, North Carolina, South Carolina, Virginia, West Virginia); *Branham* v. *Heckler*, 775 F.2d 1271 (4th Cir. 1985); *Flowers* v. *U.S. Department of Health and Human Services*, 904 F.2d 211 (4th Cir. 1990).

Applicability of Ruling

This ruling applies to determinations or decisions at all administrative levels (i.e., initial, reconsideration, administrative law judge (ALJ) hearing and Appeals Council).

Description of Case

Branham

The plaintiff, Larry R. Branham, filed his claim for disability benefits following a work-related injury allegedly sustained in October 1979, for which he received Workers' Compensation benefits. Mr. Branham claimed great back, hip, and neck pain associated with the injury; and he also complained of chest pain, disorientation, and bronchitis. The plaintiff had also been diagnosed as having a generalized anxiety disorder. He was taking medication for all of his ailments.

Mr. Branham's claim for disability benefits was denied initially and on reconsideration. After a hearing, the ALJ found that although the plaintiff could not return to his past relevant work, he had the ability to engage in light work and thus was not disabled. The ALJ therefore denied his request for benefits and the Appeals Council upheld the denial.

Upon review by the district court, the plaintiff submitted and the court accepted additional evidence of his emotional problems and vocational abilities, including the results of a test indicating an IQ of 63. The court remanded the case for further proceedings.

On remand, a second ALJ heard the plaintiff's claim and granted Mr. Branham benefits under section 12.05C of appendix 1 of 20 CFR part 404, subpart P. The ALJ found that Mr. Branham's IQ fit within this section, but referring to the finding of the first ALJ, held that the plaintiff's physical problems held no significant work-related limitation of function since Mr. Branham had the ability to do light work. The second ALJ did find, however, that Mr. Branham's psychotic disorder, agoraphobia, significantly limited his ability to work and was a mental impairment within section 12.05C. The ALJ consequently decided that the plaintiff was disabled as of January 15, 1983, the date the ALJ found the plaintiff's agoraphobia began. The Appeals Council adopted the decision of the second ALJ, awarding benefits on the basis of the plaintiff's IQ and mental impairment.

On review, the district court modified the Secretary's decision, changing the onset date of the plaintiff's disability from January 15, 1983 to December 17, 1982, the date the claimant took his first IQ test. The court found that Mr. Branham satisfied the physical impairment requirement of section 12.05C on account of the 1979 back injury which led to the termination of his employment and said that the claimant's inability to perform his past relevant work as a laborer constituted a significant work-related limitation of function. Mr. Branham appealed the onset date of disability set by the district court, alleging that he met the IQ requirement of section 12.05C prior to the time that he took his first IQ test.

Holding

The Court of Appeals held that the plaintiff's inability to do his past relevant work established the additional and significant work-related limitation of function required by the regulation and determined the onset of disability to be October 1979, the date of the injury to Mr. Branham's back.

The court stated that the additional and significant work-related limitation of function specified in section 12.05C need not be disabling in and of itself, reasoning that if the claimant's physical impairment were required to be independently disabling, section 12.05C would be rendered meaningless. The court affirmed the finding of the lower court that the plaintiff's back impairment was a significant work-related limitation of function and remanded the case for an award of benefits. The court cited for support an earlier decision, *Rainey* v. *Heckler*, 770 F.2d 408 (4th Cir. 1985).

Flowers

The plaintiff, Stroun A. Flowers, Jr., was born August 4, 1944. He completed the seventh grade. From 1970 to 1971, he worked as a flag man for a construction company and for the next seven years was a timberjack driver. He had not worked since July 15, 1978. Mr. Flowers filed a claim for supplemental security income payments. He alleged that he was disabled due to seizures and a hip problem and that he met the requirements of section 12.05C. The plaintiff had a verbal IQ of 72, a performance IQ of 66, and a full scale IQ of 68. Following the denial of his claim at the initial and reconsideration levels, the plaintiff requested and received a hearing before an ALJ. The ALJ agreed that the plaintiff met the first part of Listing 12.05C, i.e., he had an IQ between 60 and 69;[1] but he found that the plaintiff's seizure disorder did not satisfy the "significant work-related limitation of function" element. The ALJ also found that the plaintiff's low IQ and seizure disorder did not prevent him from performing his former work and, therefore, denied the plaintiff's request for supplemental security income. The denial was upheld by the district court.

Holding

The Court of Appeals held that the ALJ's finding that the plaintiff's seizure disorder did not prevent him from performing his former work was not supported by substantial evidence. In its holding, the Court of Appeals stated that it was following the Fourth Circuit rule announced in *Branham* that if a claimant cannot return to his past relevant work, he has established a work-related limitation of function that meets the requirement of section 12.05C. Accordingly, the court vacated the decision of the district court and remanded the case for an award of benefits.

Statement as to How Branham and Flowers Differ From Social Security Policy

At issue in *Branham* and in *Flowers* is the meaning of the term "additional and significant work-related limitation of function," as contained in section 12.05C. What constitutes a significant work-related limitation of function is not defined in the Secretary's

[1] At the time the ALJ issued his decision, Listing 12.05C was applicable to claimants with IQ scores of 60 to 69 inclusive.

VOL 58 ISS 81 AP 29 1993 UMI

regulations. Agency policy is that the adjudicator in each case decides whether an impairment constitutes a significant work-related limitation of function based on all evidence, including the requirements of a claimant's past work. The fact that a mentally retarded claimant has an IQ in the range specified in section 12.05C of the Listing of Impairments and is also unable to perform his or her past relevant work may or may not mean that the claimant is disabled. It depends upon the facts of the particular case. In the Fourth Circuit, the rule has evolved that an inability to do one's past relevant work due to the additional impairment meets the "additional and significant work-related limitation of function" requirement of section 12.05C of the regulations.

Explanation of How SSA Will Apply Branham and Flowers Within The Fourth Circuit

This ruling applies only where the claimant resides in Maryland, North Carolina, South Carolina, Virginia or West Virginia at the time of the determination or decision at any level of administrative review, i.e., initial, reconsideration, ALJ hearing or Appeals Council review. A claimant who is mentally retarded and has a valid verbal, performance, or full scale IQ in the range specified by section 12.05C of the Listing of Impairments and also has a physical or other mental impairment which prevents him or her from performing his or her past relevant work will be considered to have established the requirements of section 12.05C of the Listing of Impairments.

BILLING CODE 4190-29-F

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Exxon Valdez Oil Spill; Amendment of Public Advisory Group Charter

AGENCY: Office of the Secretary, Department of the Interior.

ACTION: Notice of amendment to public advisory group charter—*Exxon Valdez* Oil Spill.

SUMMARY: This notice is published in accordance with 41 CFR part 101-6, § 101-6.1031, Amendments to advisory committee charters.

Following the recommendation of the Exxon Valdez Oil Spill Public Advisory Group (the Public Advisory Group), and as approved by the Exxon Valdez Oil Spill Trustee Council, the Secretary of the Interior hereby amends the Public Advisory Group Charter to provide for the designation of an alternate to substitute for, and represent, a Public Advisory Group member at a meeting.

FOR FURTHER INFORMATION CONTACT: Douglas Mutter, Department of the Interior, Office of Environmental Affairs, 1689 C Street, Suite 119, Anchorage, Alaska, (907) 271-5011.

SUPPLEMENTARY INFORMATION: On March 24, 1989, the T/V *Exxon Valdez* ran aground on Bligh Reef in Prince William Sound in Alaska spilling approximately 11 million gallons of North Slope crude oil. Oil moved into the Gulf of Alaska, along the Kenai coast to Kodiak Island and the Alaska Peninsula—some 600 miles from Bligh Reef. Massive clean-up and containment efforts were initiated and continued to 1992. On October 8, 1991, an agreement was approved by the United States District Court for the District of Alaska that settled claims of the United States and the State of Alaska against the Exxon Corporation and the Exxon Shipping Company for various criminal and civil violations. Under the civil settlement, Exxon companies agreed to pay to the governments $900 million over a period of 10 years.

The Exxon Valdez Oil Spill Trustee Council was established to manage the funds obtained from the civil settlement of the *Exxon Valdez* Oil Spill. The Trustee Council is composed of three State of Alaska trustees (Attorney General; Commissioner, Department of Environmental Conservation; and Commissioner, Department of Fish and Game) and three Federal representatives appointed by the Federal Trustees (Secretary, U.S. Department of Agriculture; the Administrator of the National Oceanic and Atmospheric Administration; and the Secretary, U.S. Department of the Interior).

The Public Advisory Group was created by Paragraph V.A.4 of the Memorandum of Agreement and Consent Decree entered into by the United States of America and the State of Alaska on August 27, 1991, and approved by the United States District Court for the District of Alaska in settlement of *United States of America* v. *State of Alaska*, Civil Action No. A91-081 CV. The Public Advisory Group was chartered by the Secretary of the Interior in 1992 and functions solely as an advisory body, and in compliance with the provisions of the Federal Advisory Committee Act (5 U.S.C. App. (1988)).

The Public Advisory Group was established to advise the Trustee Council, and began functioning in October 1992. The Public Advisory Group consists of 17 members representing the following principal interests: sport hunting and fishing, environmental, public-at-large (5), recreation users, local government, science/academic, conservation, subsistence, commercial fishing, aquaculture, commercial tourism, forest products, and Native landowners. Members were appointed to serve a two-year term.

To carry out its advisory role, the Public Advisory Group makes recommendations to, and advises, the Trustee Council in Alaska on the following matters:

All decisions related to injury assessment, restoration activities, or other use of natural resource damage recovery monies obtained by the governments, including all decisions regarding:

a. Planning, evaluation and allocation of available funds;

b. Planning, evaluation and conduct of injury assessment; and

c. Planning, evaluation and conduct of restoration activities.

Trustee Council intentions regarding the importance of obtaining a diversity of viewpoints is stated in the Public Advisory Group Background and Guidelines (March 1993): "The Trustee Council carefully selected the members of the Public Advisory Group so that a wide spectrum of views and interests are available for the Council to consider as it evaluates, develops, and implements restoration activities. It is the Council's intent that the diversity of interests and views held by the Public Advisory Group members contribute to wide ranging discussions that will be of benefit to the Trustee Council."

In order to ensure that a broad range of public viewpoints are represented at Public Advisory Group meetings, the number of members required for a quorum was set at 12 of 17. Many members live and work in communities without road access to the principal meeting place in Anchorage, and they are sometimes unable to reach Anchorage to attend a meeting. Sometimes members are unable to attend meetings due to personal or business reasons. In order to best meet the intentions of the Trustee Council for obtaining information about the range of public input on restoration issues, the Public Advisory Group believes that the official designation of alternate members will assist in ensuring achievement of this goal.

The Public Advisory Group Charter, as it is currently filed, does not provide for the designation of alternate members. This amended Charter includes such a provision. The process for appointing alternates will follow that used for selection of the official members.

Certification

I hereby certify that the amendment to the Charter of the Public Advisory Group, an advisory committee to make recommendations to and advise the *Exxon Valdez* Oil Spill Trustee Council in Alaska, is necessary and in the public interest in connection with the performance of duties mandated by the settlement of *United States* v. *State of Alaska*, No. A91-081 CV, and is in accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended and supplemented.

Dated: April 22, 1993.

Bruce Babbitt,

Secretary of the Interior.

BILLING CODE 4310-10-M

Bureau of Land Management

[AZ-050-03-4333-01]

Arizona: Availability of the Ehrenberg-Cibola Recreation Area Management Plan and Environmental Assessment, Yuma District

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of the Ehrenbert-Cibola Recreation Area Management Plan and Environmental Assessment, Yuma District.

SUMMARY: In compliance with the Federal Land Policy and Management Act of 1976 and section 102(2)(c) of the National Environmental Policy Act of 1969, the Bureau of Land Management (BLM) has prepared a Draft Recreation Area Management and Environmental Assessment for the Ehrenberg-Cibola Special Recreation Management Area. The plan describes the recreation management practices the BLM intends to implement in the Ehrenberg-Cibola Special Recreation Management Area.

DATES: The review period will begin on May 1, 1993, and will run until May 31, 1993. After the review period, the comments received will be incorporated into a final plan and environmental assessment. Comments may be offered in writing to the Yuma Resource Area Office.

ADDRESSES: Send Comments to: Area Manager, Yuma Resource Area Office, Bureau of Land Management, 3150 Winsor Avenue, Yuma, Arizona 85365.

FOR FURTHER INFORMATION CONTACT: Outdoor Recreation Planner Todd Suess, Yuma Resource Area, Bureau of Land Management, 3150 Winsor Avenue, Yuma, Arizona 85365, telephone (602) 726-6300.

SUPPLEMENTARY INFORMATION: The Draft Ehrenber-Cibola Recreation Area Management Plan involves approximately 209,400 acres of land along the Colorado River in southeastern Arizona and California. The land lies within Imperial and Riverside Counties, California, and La Paz County, Arizona.

Among the management ections prescribed in the draft plan are off-highway route designations and 12 BLM project plans for redevelopment of current facilities and development of new facilities. The new facilities include a campground, two boat ramps, hiking trail systems, a Back Country Byway, interpretive overlooks, and fishing access. The plan also recognizes the need for open space and wildlife habitat.

Dated: April 19, 1993.

Michael A. Taylor,

Acting District Manager.

[FR Doc. 93-10018 Filed 4-28-93; 8:45 am]

BILLING CODE 4310-32-M

[NV-930-4210-05; Nev-065256]

Reconveyance and Opening Order; Nevada

April 16, 1993.

AGENCY: Bureau of land management, Interior.

ACTION: Notice.

SUMMARY: This notice identifies certain lands reconveyed to the United States and provides for opening the lands as specified below.

EFFECTIVE DATE: Upon publication of this notice in the **Federal Register**, a portion of the lands will be open only to disposal pursuant to secs. 203 and 209 of the Federal Land Policy and Management Act (43 U.S.C. 1713 and 1719). On June 1, 1993, the remainder of the reconveyed lands will be open to the operation of the public land laws and the mining laws.

FOR FURTHER INFORMATION CONTACT: Mary Clark, BLM Nevada State Office, 850 Harvard Way, P.O. Box 12000, Reno, NV 89520, 702-785-6530.

SUPPLEMENTARY INFORMATION: The following described lands were conveyed to Washoe County for recreation purposes on July 23, 1965, pursuant to the Recreation and Public Purposes Act, as amended (43 U.S.C. 869 to 869-4):

Mount Diablo Meridian, Nevada

T. 32 N., R. 23 E.,
sec. 15, lot 2;
sec. 16, lot 1, NE¼NE¼.

The area described contains 103.06 acres in Washoe County, Nevada. The lands are no longer needed for recreation purposes and they have been reconveyed to the United States. The Gerlach General Improvement District has expressed an interest in acquiring a portion of the reconveyed land pursuant to secs. 203 and 209 of the Federal Land Policy and Management Act (43 U.S.C. 1713 and 1719). That land, comprising 5 acres, is described as follows:

Mount Diablo Meridian, Nevada

T. 32 N., R. 23 E.,
sec. 16, S½SE¼NE¼NE¼.

At 10 a.m. on April 29, 1993, the above described land will be open only to disposal pursuant to secs. 203 and 209 of the Federal Land Policy and Management Act (43 U.S.C. 1713 and 1719), subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

At 10 a.m. on June 1, 1993, the remainder of the reconveyed lands will be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 1, 1993, shall be considered as simultaneously filed at that time.

Those received thereafter shall be considered in the order of filing. At 10 a.m. on June 1, 1993, the remainder of the reconveyed lands will also be open to location under the United States mining laws. Appropriation of the lands under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. Sec. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

All of the reconveyed lands described above have been and will remain open to the mineral leasing and material sale laws.

Billy R. Templeton,

State Director, Nevada.

Transfer of Administrative Jurisdiction; Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This Notice provides official publication of the transfer of administrative jurisdiction of a parcel of land known as the Indian Point Rescue Station, near Auke Bay, Alaska, from the United States Coast Guard to the Department of Commerce, National Oceanic and Atmospheric Administration (NOAA).

FOR FURTHER INFORMATION CONTACT: Sandra C. Thomas, BLM Alaska State Office, 222 W. 7th Avenue, No. 13, Anchorage, Alaska 99513-7599, 907-271-5477.

SUPPLEMENTARY INFORMATION: Subject to valid existing rights, the administrative jurisdiction of the following described parcel of land withdrawn by Public Land Order No. 3850, dated October 11, 1965, was transferred from the United States Coast Guard to NOAA, pursuant to Public Law 102-241, dated December 19, 1991. The transfer of land was accepted by NOAA and became effective on February 10, 1993.

Copper River Meridian

U.S. Survey No. 3811, Lot 2.

The area described contains 28.16 acres.

The terms and conditions of Public Land Order No. 3850 remain otherwise unchanged. The land described above remains withdrawn from all forms of appropriation under the public land laws, including the mining laws, but not from leasing under the mineral leasing laws.

Dated: April 9, 1993.

Sue A. Wolf

Chief, Branch of Land Resources

Realty Action, Sale of Public Land in North Dakota

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action, sale of public land in North Dakota.

SUMMARY: The following lands have been found suitable for sale under section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750, 43 U.S.C. 1713), at not less than the estimated Minimum Bid Price.

DATES: June 30, 1993.

ADDRESSES: 2933 Third Avenue West; Dickinson, North Dakota 58601.

FOR FURTHER INFORMATION CONTACT: William C. Monahan, Dickinson District Office, 701-225-9148.

SUPPLEMENTARY INFORMATION:

Parcel	Legal description fifth principal meridian
NDM82057	T. 154 N., R. 75 W., sec. 18: Lot 4, 38.22 acres, McHenry County, Minimum Bid Price $1,340.
NDM82058	T. 154 N., R. 75 W., sec. 18: SESW, 40.0 acres, McHenry County, Minimum Bid Price $1,400.
NDM82059	T. 154 N., R. 76 W., sec. 25: S2NE, 80.0 acres, McHenry County, Minimum Bid Price $2,800.
NDM82060	T. 154 N., R. 76 W., sec. 25: N2SE, 80.0 acres, McHenry County, Minimum Bid Price $2,800.
NDM82061	T. 155 N., R. 76 W., sec. 23: N2NW, 80.0 acres, McHenry County, Minimum Bid Price $2,800.
NDM82062	T. 155 N., R. 76 W., sec. 23: SENW, 40.0 acres, McHenry County, Minimum Bid Price $1,400.
NDM82063	T. 155 N., R. 76 W., sec. 23: NESW, 40.0 acres, McHenry County, Minimum Bid Price $1,400.
NDM82064	T. 155 N., R. 76 W., sec. 23: NWSE, 40.0 acres, McHenry County, Minimum Bid Price $1,400.
NDM82065	T. 155 N., R. 77 W., sec. 5: Lot 2, 40.42 acres, McHenry County, Minimum Bid Price $1,400.
NDM82066	T. 155 N., R. 77 W., sec. 5: SWNE, 40.0 acres, McHenry County, Minimum Bid Price $1,400.
NDM82067	T. 156 N., R. 77 W., sec. 28: NESW, 40.0 acres, McHenry County, Minimum Bid Price $1,400.
NDM82068	T. 156 N., R. 77 W., sec. 28: SWSW, 40.0 acres, McHenry County, Minimum Bid Price $1,400.
NDM82069	T. 156 N., R. 77 W., sec. 28: NWSE, 40.0 acres, McHenry County, Minimum Bid Price $1,400.

The lands described are hereby segregated from appropriation under the public land laws, including the mining laws, but not from sale, pending disposition of this section or 270 days from the date of publication of this Notice, whichever occurs first.

The lands will be offered for sale at public auction beginning at 10 a.m., MDT, on Wednesday, June 30, 1993, at 2933 Third Avenue West, Dickinson, North Dakota 58601. The sale will be by modified competitive procedures. Tract lessees or adjoining land owners must submit a bid the day of sale to retain preference rights. The sale will be by sealed bid only.

All sealed bids must be submitted to the BLM's Dickinson District Office at 2933 Third Avenue West, Dickinson, North Dakota 58601, no later than 4:30 p.m., MDT, on Tuesday, June 29, 1993. Bid envelopes must be marked on the left front corner with the parcel number and the sale date. Bids must be for not less than the appraised Minimum Bid Price specified in this Notice. Each sealed bid shall be accompanied by a certified check, postal money order, bank draft or cashier's check made payable to the United States Department of the Interior, BLM, for not less than 10 percent or more than 30 percent of the amount of the bid. Applicants should submit a Statement of Eligibility form with the bid.

Bids on unsold parcels will be opened each Wednesday after the date of the sale at 10 a.m., MDT, until the parcels are sold. The terms and conditions applicable to the sale are:

1. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals. A more detailed description of this reservation, which will be incorporated in the patent document, is available for review at this office.

2. A right-of-way is reserved for ditches and canals constructed by the authority of the United States under the authority of the Act of August 30, 1890, (26 Stat. 291; 43 U.S.C. 945).

3. The patents will be subject to all valid existing rights including rights-of-way.

Federal law requires that all bidders must be U.S. citizens 18 years old or older, or in the case of corporations, be subject to the laws of any State of the U.S. Proof of these requirements must accompany the bid.

Under modified competitive sale procedures, an apparent high bid will be declared at the public auction. The apparent high bidder, lessees and adjoining land owners will be notified. Lessees and adjoining land owners will have five (5) working days from the date of the sale to exercise the preference consideration given to meet the high bid. Refusal or failure to meet the highest bid shall constitute a waiver of such bidding provisions. Once the qualified high bidder is determined, the balance of the purchase price shall be paid within 180 days of the date of the sale. Failure to submit the full bid price prior to, but not including the 180th day following the day of sale, shall result in cancellation of the sale of the specific parcel and the deposit shall be forfeited and disposed of as other receipts of sale.

Detailed information concerning the sale, including the reservations, procedures for conditions of sale, and planning and environmental documents, is available at the Dickinson District Office, Bureau of Land Management, 2933 Third Avenue West, Dickinson, North Dakota 58601.

Comments

For a period of 45 days from the date of this Notice, interested parties may submit comments to the District Manager, Dickinson District, at the above address. In the absence of objections, this proposal will become the final determination of the Department of the Interior.

Dated: April 16, 1993.

Douglas J. Burger,

District Manager.

Notice of Realty Action, Recreation and Public Purposes; Lease or Sale of Public Land in San Juan County, Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice to Realty Action, UTU-70117, proposed recreation and public purposes lease or sale of public land in San Juan County, Utah; segregation of land from appropriation and operation under the public land laws, including the mining laws, excepting the mineral leasing laws.

SUMMARY: The following land is being evaluated for lease or sale under the Recreation and Public Purposes Act of June 14, 1926, as amended (44 Stat. 741; 43 U.S.C. 869 et. seq.):

Salt Lake Meridian, Utah

T. 39 S., R. 22 E.,
Sec. 3, S2N2, S2.
Sec. 4, S2SE.
Sec. 9, NE, S2SENW, E2SW, N2SE, SWSE, N2SESE, SWSESE.
Sec. 10, NW.

The above described land aggregates 1050 acres.

The land described is hereby segregated from appropriation and operation of the public land laws and the mining laws, excepting the mineral leasing laws, pending disposition of this action, or two hundred seventy (270) days from the date of publication of this notice in the **Federal Register**, whichever occurs first.

FOR FURTHER INFORMATION CONTACT: David L. Krouskop, Area Realty Specialist, San Juan Resource Area, 435 North Main, P.O. Conveyance of Public Lands; Order Providing for Opening of Lands; Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This action informs the public of the conveyance of 366.75 acres of public land out of Federal ownership. This action will also open 560 acres of reconveyed lands to surface entry and mining, and 700.40 acres to mineral leasing. The minerals in 640 acres are not in Federal ownership and will not be opened to mining and mineral leasing, and 140.40 acres are within a proposed withdrawal and will remain closed to surface entry and mining.

EFFECTIVE DATE: June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Linda Sullivan, BLM Oregon/Washington State Office, P.O. Box 2965, Portland, Oregon 97208, 503-280-7171.

SUPPLEMENTARY INFORMATION: 1. Notice is hereby given that in exchange of lands made pursuant to Section 206 of the Act of October 21, 1976, 43 U.S.C. 1716, a patent has been issued transferring 366.75 acres in King, Okanogan, San Juan, and Skagit Counties, Washington, from Federal ownership to private ownership.

2. In the exchange, the following described lands have been reconveyed to the United States:

Willamette Meridian

T. 22 N., R. 32 E.,
Sec. 16;
Sec. 36, W½NE¼, NW¼, and S½.
T. 34 N., R. 1 W.,
Sec. 16, NE¼SW¼ and S½SW¼.
T. 34 N., R. 2 W.,
Sec. 25, lots 1 and 2.

The areas described aggregate 1,340.40 acres in Lincoln and San Juan Counties.

3. At 8:30 a.m., on June 1, 1993, the W½NE¼, NW¼, and S½, Sec. 36, T. 22 N., R. 32 E., W.M., will be opened to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid existing applications received at or prior to 8:30 a.m., on June 1, 1993, will be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

4. At 8:30 a.m., on June 1, 1993, the land described in paragraph 3 will be opened to location and entry under the United States mining laws. Appropriation of land under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

5. At 8:30 a.m., on June 1, 1993, the following described lands will be opened to applications and offers under the mineral leasing laws:

Willamette Meridian

T. 22 N., R. 32 E.,
Sec. 36, W½NE¼, NW¼, and S½.
T. 34 N., R. 1 W.,
Sec. 16, NE¼SW¼ and S½SW¼.
T. 34 N., R. 2 W.,
Sec. 25, lots 1 and 2.

Dated: April 16, 1993.

Champ C. Vaughan,

Acting Chief, Branch of Lands and Minerals Operations.

Arizona; Notice of Filing of Plats of Survey

April 20, 1993.

1. The plats of survey of the following described lands were officially filed in the Arizona State Office, Phoenix, Arizona on the dates indicated:

A plat representing a dependent resurvey of a portion of the east boundary, Townships 14 and 15 North, Range 11 East, and a portion of the subdivisional lines; and the subdivision of section 6, and metes-and-bounds surveys in Township 14 North, Range 12 East, Gila and Salt River Meridian,

VOL 58 ISS 81 AP 29 1993 UMI

Arizona was accepted February 5, 1993, and was officially filed February 18, 1993

This plat was prepared at the request of the United States Forest Service, Coconino National Forest.

A supplemental plat showing amended lotting in the SE¼ of section 32, Township 12 North, Range 18 East, Gila and Salt River Meridian, Arizona, was accepted February 24, 1993, and was officially filed March 4, 1993.

This plat was prepared at the request of the United States Forest Service, Apache-Sitgreaves National Forest

A plat representing a dependent resurvey of a portion of the south boundary; and a survey of portions of the west and north boundaries and a portion of the subdivisional lines in Township 6 North, Range 23 East, Gila and Salt River Meridian, Arizona, was accepted January 26, 1993, and was officially filed February 4, 1993.

This plat was prepared at the request of the Bureau of Indian Affairs, Phoenix Area Office.

A plat representing a survey of the east and north boundaries, and the subdivisional lines of Township 30 North, Range 26 East, Gila and Salt River Meridian, Arizona, was accepted February 22, 1993, and was officially filed March 4, 1993.

This plat was prepared at the request of the Bureau of Indian Affairs, Navajo Area Office.

A plat, in 2 sheets, representing a dependent resurvey of a portion of the Fifth Standard Parallel North through Range 17 West, a portion of the subdivisional lines and a portion of Mineral Survey 2750; and the subdivision of section 4 in Township 20 North, Range 17 West, Gila and Salt River Meridian, Arizona, was accepted March 2, 1993, and was officially filed March 11, 1993.

This plat was prepared at the request of the Bureau of Land Management, Phoenix District Office.

A supplemental plat showing amended lotting created by the segregation of the right-of-way of U.S. Interstate Highway No. 40 in section 18, Township 16 North, Range 20 West, Gila and Salt River Meridian, Arizona, was accepted March 8, 1993, and was officially filed March 18, 1993.

A supplemental plat showing amended lotting created by the segregation of the right-of-way of U.S. Interstate Highway No. 40 in sections 15, 17, and 18, Township 16 North, Range 20 West, Gila and Salt River Meridian, Arizona, was accepted March 8, 1993, and was officially filed March 18, 1993.

A supplemental plat showing amended lotting created by the segregation of the right-of-way of U.S. Interstate Highway No. 40 in section 13, Township 16 North, Range 20½ West, Gila and Salt River Meridian, Arizona, was accepted March 8, 1993, and was officially filed March 18, 1993.

These plats were prepared at the request of the Bureau of Land Management, Kingman Resource Area, to facilitate a land exchange.

A plat representing a dependent resurvey of a portion of the subdivisional lines; and the subdivision and a metes-and-bounds survey in section 17, Township 22 South, Range 8 East, Gila and Salt River Meridian, Arizona, was accepted March 29, 1993, and was officially filed April 8, 1993.

This plat was prepared at the request of the United States Department of the Interior, Fish and Wildlife Service.

2. These plats will immediately become the basic records for describing the land for all authorized purposes. These plats have been placed in the open files and are available to the public for information only.

3. All inquiries relating to these lands should be sent to the Arizona State Office, Bureau of Land Management, P.O. Box 16563, Phoenix, Arizona 85011.

Lanny K. Talbot,

Acting Chief Cadastral Surveyor of Arizona.

[FR Doc. 93-10019 Filed 4-28-93; 8:45 am]

BILLING CODE 4310-32-M

[CA-940-4210-06; CACA 29698]

Notice of Proposed Withdrawal and Opportunity for Public Meeting; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Reclamation proposes to withdraw 359.19 acres of public land for protection of the Coachella Canal and appurtenant structures of the All-American Canal System, Boulder Canyon Project, near North Shore, California. This notice closes the land for up to 2 years from surface entry and mining. The land will remain open to mineral leasing.

DATES: Comments and requests for a public meeting must be received by July 28, 1993.

ADDRESSES: Comments and meeting requests should be sent to the California State Director, BLM, Federal Office Building, 2800 Cottage Way, room E-2845, Sacramento, California 95825.

FOR FURTHER INFORMATION CONTACT: Viola Andrade, BLM California State Office, 916-978-4820.

SUPPLEMENTARY INFORMATION: On April 14, 1993, a petition was approved allowing the Bureau of Reclamation to file an application to withdraw the following described public land from settlement, sale, location, or entry under the general land laws, including the mining laws, subject to valid existing rights:

San Bernardino Meridian

T. 7 S., R. 10 E.,
Sec. 18, lots 1 and 2 of NW¼, N½ lot 2 of SW¼ and NE¼.

The area described contains 359.19 acres in Riverside County.

The purpose of the proposed withdrawal is to protect the Coachella Canal and appurtenant structures of the All-American Canal System, Boulder Canyon Project.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the California State Director of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the California State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the land will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary uses which will be permitted during this segregative period are licenses, permits, cooperative agreements, or other discretionary land use authorizations of a temporary nature

The temporary segregation of the land in connection with a withdrawal application or proposal shall not affect administrative jurisdiction over the land, and the segregation shall not have the effect of authorizing any use of the land by the Bureau of Reclamation.

Dated: April 16, 1993

Nancy J. Alex,

Chief, Lands Section.

[FR Doc. 93-9966 Filed 4-28-93; 8:45 am]

BILLING CODE 4310-40-M

Fish and Wildlife Service

Notice of Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, *as amended* (16 U.S.C. 1531, *et seq.*):

Applicant: Rodney Graybill, Newark, NY, PRT-777253.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus dorcas dorcas*) culled from the captive-herd maintained by Mr. J.M. Mullins, Grahamstown, South Africa, for the purpose of enhancement of survival of the species.

Applicant: Philadelphia Zoological Garden, Philadelphia, PA, PRT-777503.

The applicant requests a permit to import three male and three female bicolored tamarins (*Sanfuinus b. bicolor*) which were captive-born at Rio de Janeiro Primate Center, Rio de Janeiro, Brazil, for enhancement of propagation.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203. Phone: (703/358-2104); FAX: (703/358-2281).

Dated: April 23, 1993.

Susan Jacobsen,

Acting Chief, Branch of Permits, Office of Management Authority.

BILLING CODE 4310-55-M

Notice of Availability of a Draft Recovery Plan for the Greenback Cutthroat Trout (Oncorhynchus clarki stomias) for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of a draft recovery plan for the greenback cutthroat trout (*Oncorhynchus clarki stomias*). This species occurs in the headwaters of the South Platte and Arkansas Rivers in central and north-central Colorado and a small segment of the South Platte River drainage in southern Wyoming. The Service solicits review and comment from the public on this draft plan.

DATES: Comments on the draft recovery plan must be received on or before June 28, 1993.

ADDRESSES: Persons wishing to review the draft recovery plan may obtain a copy by contacting the U.S. Fish and Wildlife Service, Ecological Services, 730 Simms Street, room 290, Golden, Colorado 80401. Written comments and materials regarding this draft recovery plan should be sent to the address given above. Comments and materials received are available on request for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Bruce Rosenland at the Golden, Colorado, Fish and Wildlife Service Office (see **ADDRESSES** above), telephone (303) 231-5280.

SUPPLEMENTARY INFORMATION:

Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the Fish and Wildlife Service's (Service) endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for conservation of the species, establish criteria for the recovery levels for downlisting or delisting them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to approval of each new or revised recovery plan. The Service and other Federal Agencies also will take these comments into account in the course of implementing approved recovery plans.

The greenback cutthroat trout is the only trout endemic to the headwaters of both the South Platte and the Arkansas Rivers in central and north-central Colorado and southern Wyoming. It is one of the most colorful subspecies of cutthroat trout.

The greenback cutthroat trout was listed as endangered on March 11, 1967, and as threatened on April 18, 1978. In 1973, only two small historic populations were known to exist. Since then, seven additional historic populations have been identified, and the fish has been reintroduced into numerous other locations within its historic range. Threats to this fish primarily occur from hybridization with or competition from nonnative trout species (brook, rainbow, and brown trout) that have been introduced into its habitat. Recovery efforts will include propagation and reintroduction of additional greenback cutthroat trout populations, control of nonnatives, and preparation of a long-term management plan to protect the species and its habitat after delisting.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified in the **DATES** section above will be considered prior to approval of the recovery plan.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: April 16, 1993.

Robert D. Jacobsen,

Acting Regional Director.

[FR Doc. 93-10020 Filed 4-28-93; 8:45 am]

BILLING CODE 4310-55-M

Geological Survey

Interagency Advisory Committee on Water Data; Intergovernmental Task Force on Monitoring Water Quality

AGENCY: Geological Survey, Department of the Interior.

VOL 58 ISS 81 AP 29 1993 UMI

ACTION: Notice of an open meeting of the Intergovernmental Task Force on Monitoring Water Quality in Fair Oaks, VA, and of the availability of a report on ambient water-quality monitoring for public review and comment.

SUMMARY: Notice is hereby given of a meeting of the Intergovernmental Task Force on Monitoring Water Quality (ITFM). This meeting is open to the public. The ITFM is chaired by the U.S. Environmental Protection Agency, and it includes representatives of Federal and non-Federal government agencies that are operational partners in water-quality monitoring. Its principal responsibility is to evaluate water-quality monitoring activities and to identify and initiate needed improvements. The ITFM is part of the implementation of the Water Information Coordination Program (WICP) of the Federal Government as required by Office of Management and Budget Memorandum No. 92–01. The U.S. Department of the Interior, through the U.S. Geological Survey, has lead responsibility for working with other Federal and non-Federal organizations to implement the WICP.

DATES: May 11, 1993.

ADDRESSES: Fair Oaks Holiday Inn, 11787 Lee Jackson Memorial Highway, Fairfax, Virginia 22033.

FOR FURTHER INFORMATION CONTACT: Nancy Lopez, Chief, Office of Water Data Coordination, 417 National Center, Reston, Virginia 22092, Telephone: (703) 648–5014 and Fax: (703) 648–6802.

SUPPLEMENTARY INFORMATION: The agenda includes presentations by representatives of the following water-quality monitoring communities: volunteers, industry and utilities, municipalities, and environmental organizations. These participants will provide information to the ITFM about the water-quality monitoring activities of their organizations. The information will include relationships to other water-quality monitoring efforts and decisionmaking. Discussions also will include comments on the first year report of the ITFM. It is entitled "Ambient Water-Quality Monitoring in the United States: First Year Review, Evaluation and Recommendations." The report is available for public review, and it can be obtained by writing or telephoning the Office of Water Data Coordination. The telephone number for requesting the report is (703) 648–5023. Comments on the report are requested by July 31, 1993. This is the first in a series of WICP meetings intended to facilitate outreach to public and private organizations interested in the efforts of the ITFM and water-quality monitoring. At the end of the day, some time will be available for public comments, and individual speakers may have up to 5 minutes. Those wishing to be placed on the agenda must provide a written request with a description of the general subject area to Nancy Lopez by noon May 10, 1993. Any member of the public may submit written information and/or comments on the report to Nancy Lopez for distribution to the ITFM.

Philip Cohen,

Chief Hydrologist.

[FR Doc. 93–10042 Filed 4–28–93; 8:45 am]

BILLING CODE 4310–91–M

Minerals Management Service

Outer Continental Shelf, Central and Western Gulf of Mexico, Proposed Gas and Oil Lease Sales 147, 150; Notice of Availability Proposed Notices of Sale

Gulf of Mexico Outer Continental Shelf (OCS); Notice of Availability of Proposed Notices of Sale for proposed Gas and Oil Lease Sale 147, Central Gulf of Mexico, and proposed Gas and Oil Lease Sale 150, Western Gulf of Mexico. This Notice of Availability is published, pursuant to 30 CFR 256.29(c), as a matter of information to the public.

With regard to oil and gas leasing on the OCS, the Secretary of the Interior, pursuant to section 19 of the OCS Lands Act, as amended, provides the affected States the opportunity to review the proposed Notices of Sale. The proposed Notices of Sale for proposed Sales 147 and 150 may be obtained by written request to the Public Information Unit, Gulf of Mexico Region, Minerals Management Service, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123–2394, or by telephone (504) 736–2519.

A study is underway to examine raising the rental rate on new leases from the current $3 as stated in the above referenced proposed Notices of Sale. The costs of administering the leasing programs have increased, but the rental rate has remained constant. The increase would be used to fund the Technical Information Management System (TIMS) which will improve the efficiency with which lease data are handled. If a decision is reached to increase the rate prior to the issuance of the final Notices of Sale, those Notices will reflect the new rental rate.

The final Notice of Sale will be published in the **Federal Register** at least 30 days prior to the date of bid opening. Bid opening for proposed Sale 147 is scheduled for March 1994, and for proposed Sale 150 bid opening is scheduled for August 1994.

Dated: April 23, 1993.

Thomas Gernhofer,

Acting Director, Minerals Management Service.

[FR Doc. 93–10029 Filed 4–28–93; 8:45 am]

BILLING CODE 4310–MR–M

Royalty Obligations on Contract Settlement Proceeds

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of meetings.

SUMMARY: The Royalty Management Program of the Minerals Management Service (MMS) hereby gives notice that it will hold informal meetings at the location and on the dates identified below, to discuss settlements reached by producers and pipeline companies to rescind, terminate, limit, or otherwise modify gas sales contracts under dispute. The purpose of the meetings is to discuss MMS policy on royalty obligations of proceeds paid in contract settlements.

Interested parties are invited to attend and participate at these meetings.

DATES: See Supplementary Information.

FOR FURTHER INFORMATION CONTACT: Ms. Virginia Renfrow of the Houston Area Audit Office, Houston, Texas, telephone (713) 987–6800.

SUPPLEMENTARY INFORMATION: The meeting will be held at the following address: Room No. 104, 4141 North Sam Houston Parkway, East, Houston, Texas; on the following dates and times: May 6, 1993—2 p.m.; May 7, 1993—9 a.m.

Dated: April 23, 1993.

Donald T. Sant,

Acting Associate Director for Royalty Management.

BILLING CODE 4310–MR–M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–337]

Commission Decision To Review Certain Limited Portions of an Initial Determination, and Schedule for the Filing of Written Submissions on the Issues Under Review, and on Remedy, the Public Interest, and Bonding

In the Matter of Certain Integrated Circuit Telecommunication Chips and Products Containing Same, Including Dialing Apparatus.

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to review certain limited portions of the initial determination (ID) issued on March 9, 1993, by the presiding administrative law judge (ALJ) in the above-captioned investigation.

FOR FURTHER INFORMATION CONTACT: Matthew T. Bailey, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202–205–3108.

SUPPLEMENTARY INFORMATION: SGS-Thomson Microelectronics Corporation (ST) filed a complaint March 5, 1992, under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) alleging that Winbond Electronics Corp., Winbond North America Corp., United Microelectronics Corp. (UMC), Hualon Microelectronics Corp. (Taiwan and U.S.) (HMC), Kingtel Telecommunication Corp., North American Foreign Trade, A&A Int'l, Inc., Conair Corp., Lonestar Technologies, Ltd., Spectra Merchandising Int'l, and Columbia Telecommunication Group, Inc. had sold for importation, imported into the United States, or sold in the United States after importation, certain telecommunication chips. The telecommunication chips were alleged to infringe various claims of U.S. Letters Patent Nos. 4,061,886, 4,315,108, and 4,446,436 owned by ST. The Commission instituted the subject investigation by notice published in the **Federal Register** on April 8, 1992, at 57 FR 11966–67. The Commission added additional respondents SMC Microtronic Co. Ltd. by notice published on July 29, 1992, at 57 FR 33520–21, and Tranbon by notice published on August 27, 1992, at 57 FR 38855–56.

On March 9, 1993, the presiding ALJ issued his final ID finding that there was a violation of section 337. The ALJ found that claims 2, 3, and 4 of U.S. Letters Patent 4,446,436 were valid, enforceable, and infringed and that a domestic industry exists with respect to that patent. The ALJ also found that the asserted claims of U.S. Letters Patent 4,315,108 were invalid under 35 U.S.C. 112 and not infringed, that the asserted claims of U.S. Letters Patent 4,061,886 were not infringed, and that no domestic industry exists with respect to either patent because complainant does not practice the asserted claims.

Complainant ST and respondents UMC and HMC filed petitions for review of the ID, as well as responses to those petitions for review. The Commission investigative attorney filed responses to both petitions for review.

Having examined the record in this investigation, including the ID, the Commission has determined not to review most issues relevant to the ALJ's findings and initial determination. However, the Commission has decided to review the issues of: (1) Whether the '108 patent is valid under the enablement and best mode provisions of 35 U.S.C. 112, first paragraph; (2) whether the ALJ properly construed the claims at issue of the '886 patent; (3) whether claims 1 and/or 6 of the '436 patent are invalid as obvious under 35 U.S.C. 103 and, if so, does a violation of section 337 exist as to those claims. With regard to the portions of the ID that will be reviewed, the Commission is interested only in the following issues:

1. Whether the ALJ properly defined the level of ordinary skill in the art with regard to the '108 patent in view of *In re Naquin*, 398 F.2d 863 (C.C.P.A. 1968). To what extent have the parties consented to the ALJ's definition of ordinary skill in the art? What effect does such consent, if any, have on the Commission's review of the level of ordinary skill with regard to the '108 patent?

2. Whether the ALJ properly construed independent claims 6 and 13 of the '886 patent with regard to the utility requirement under 35 U.S.C. § 101. Are the factual findings of the ALJ consistent with his claim interpretation of claims 6 and 13?

3. Whether the ALJ properly construed claims 1 and 6 of the '436 patent, especially in view of 35 U.S.C. § 112, ¶6 and *Valmont Indus., Inc.* v. *Reinke Mfg. Co.*, 983 F.2d 1039 (Fed. Cir. 1993). Did the ALJ properly determine that an equivalent structure for each of three means-plus-function elements recited in claim 1 of the '436 patent is present in the prior art? What is an appropriate range of equivalents for each of these three means-plus-function elements in claim 1 of the '436 patent?

In connection with final disposition of this investigation, the Commission may issue: (1) An order that could result in the exclusion of the subject articles from entry into the United States, and/or (2) cease and desist orders that could result in respondents being required to cease and desist from engaging in unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in receiving written submissions that address the form of remedy, if any, that should be ordered.

If the Commission contemplates some form of remedy, it must consider the effects of that remedy upon the public interest. The factors the Commission will consider include the effect that an exclusion order and/or cease and desist orders would have on: (1) The public health and welfare, (2) competitive conditions in the U.S. economy, (3) U.S. production of articles that are like or directly competitive with those that are subject to investigation, and (4) U.S. consumers. The Commission is therefore interested in receiving written submissions that address the aforementioned public interest factors in the context of this investigation.

The submissions requested above should be concise and thoroughly referenced to the record in this investigation, including references to specific exhibits and testimony. Initial submissions are limited to 20 pages on the issue of remedy, the public interest, and bonding, and 25 pages with respect to the patent issues. Response submissions are limited to 10 pages on the issues of remedy, the public interest, and bonding, and 15 pages with respect to the patent issues.

If the Commission orders some form of remedy, the President has 60 days to approve or disapprove the Commission's action. During this period, the subject articles would be entitled to enter the United States under a bond, in an amount determined by the Commission and prescribed by the Secretary of the Treasury. The Commission is therefore interested in receiving submissions concerning the amount of the bond that should be imposed.

WRITTEN SUBMISSIONS: The parties to the investigation are requested to file written submissions on the issues under review. Additionally, the parties to the investigation, interested government agencies, and any other interested persons are encouraged to file written submissions on the issues of remedy, the public interest, and bonding. Comments regarding remedy, the public interest, and bonding are particularly requested with respect to respondent Kingtel, which was found in default on January 13, 1993. See 58 FR 4181.

Complainant and the Commission investigative attorney are also requested to submit proposed remedial orders for the Commission's consideration. The written submissions and proposed remedial orders must be filed no later than the close of business on Thursday, May 6, 1993. Reply submissions must be filed no later than the close of business on Wednesday, May 12, 1993. No further submissions will be permitted unless otherwise ordered by the Commissions.

VOL 58 ISS 81 AP 29 1993 UMI

Persons filing written submissions must file with the Office of the Secretary the original document and 14 true copies thereof on or before the deadlines stated above. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request confidential treatment unless the information has already had been granted such treatment during the proceedings. All such requests should be directed to the Secretary of the Commission and must include a full statement of the reasons why the Commission should grant such treatment. See 19 CFR 201.6. Documents for which confidential treatment is granted by the Commission will be treated accordingly. All nonconfidential written submissions will be available for public inspection at the Office of the Secretary.

This action is taken under the authority of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and §§ 210.54–55 of the Commission's Interim Rules of Practice and Procedure (19 CFR §§ 210.54–55 (1989)).

Copies of the public version of the ID and all other nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone 202–205–2000. Hearing-impaired persons are advised that information on the matter can be obtained by contacting the Commission's TDD terminal on 202–205–1810.

Issued: April 27, 1993.

By order of the Commission.

Paul R. Bardos,

Acting Secretary.

BILLING CODE 7035–01–M

DEPARTMENT OF LABOR

Wage and Hour Division

[Administrative Order No. 661]

Special Industry Committee for All Industries in American Samoa; Appointment; Convention; Hearing

1. Pursuant to sections 5 and 6(a)(3) of the Fair Labor Standards Act (FLSA) of 1938, as amended (29 U.S.C. 205, 206(a)(3)), and Reorganization Plan No. 6 of 1950 (3 CFR, 1949–53 Comp., p. 1004) and 29 CFR part 511, I hereby appoint special Industry Committee No. 20 for American Samoa.

2. Pursuant to section 5, 6(a)(3) and 8 of FLSA, as amended (29 U.S.C. 205, 206(a)(3), and 208), reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and 29 CFR part 511, I hereby:

(a) Convene the above-appointed industry committee;

(b) Refer to the industry committee the question of the minimum rate or rates for all industries in American Samoa to be paid under section 6(a)(3) of FLSA, as amended; and,

(c) Give notice of the hearing to be held by the committee at the time and place indicated.

The industry committee shall investigate conditions in such industries, and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and function under FLSA.

The committee shall meet in executive session to commence its investigation at 9 a.m. and begin its public hearing at 11 a.m. on June 7, 1993, in Pago Pago, American Samoa.

3. The rate or rates recommended by the committee shall not exceed the rate prescribed by section 6(a) or 6(b) of FLSA, as amended by the Fair Labor Standards Amendments of 1989, of $4.25 an hour effective April 1, 1991.

The Committee shall recommend to the Administrator of the Wage and Hour Division of the Department of Labor the highest minimum rate or rates of wages for such industries that it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in such industries, and will not give any industry in American Samoa a competitive advantage over any industry in the United States outside of American Samoa.

4. Where the committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry than may be determined for other employees in the industry, the committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein and in 29 CFR 511.10, that will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within an industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following:

(a) Competitive conditions as affected by transportation, living, and production costs;

(b) Wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and,

(c) Wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

5. Prior to the hearing, the Administrator of the Wage and Hour Division, U.S. Department of Labor, shall prepare an economic report containing the information that has been assembled pertinent to the matters referred to the committee. Copies of this report may be obtained at the Office of the Governor, Pago Pago, American Samoa, and the National Office of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. Upon request, the Wage and Hour Division will mail copies to interested persons who make written request to the Wage and Hour Division. The committee will take official notice of the facts stated in this report. Parties, however, shall be afforded an opportunity to refute such facts by evidence received at the hearing.

6. The procedure of this industry committee will be governed by the provisions of title 29, Code of Federal Regulations, part 511. Copies of this part of the regulations will be available at the Office of the Governor, Pago Pago, American Samoa, and at the National Office of the Wage and Hour Division. The proceedings will be conducted in English but in the event a witness should wish to testify in Samoan, an interpreter will be provided. As a prerequisite to participation as a party, interested persons shall file six copies of a prehearing statement at the aforementioned Office of the Governor of American Samoa and six copies at the National Office of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. Each prehearing statement shall contain the data specified in 29 CFR 511.8 of the regulations and shall be filed not later than May 28, 1993. If such statements are sent by airmail between American Samoa and the mainland, such filing shall be deemed timely if postmarked within the time provided.

Signed at Washington, DC, this 23d day of April 1993.

Robert B. Reich,

Secretary of Labor.

BILLING CODE 4510–27–M

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Electrical and Communications Systems; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting.

Name: Special Emphasis Panel in Electrical and Communications Systems.

Date and Time: May 21, 1993; 8:30 a.m. to 5 p.m.

Place: Room 1133, 1800 G Street, NW., Washington, DC.

Type of Meeting: Closed.

Contact Person: Dr. Linton G. Salmon, Program Director, Division of Electrical and Communications Systems, rm. 1151, National Science Foundation, 1800 G St., NW., Washington, DC 20550. Telephone: (202) 357–9618.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate Solid State and Microstructures research proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: April 26, 1993.

M. Rebecca Winkler,

Committee Management Officer.

[FR Doc. 93–10067 Filed 4–28–93; 8:45 am]

BILLING CODE 7555–01–M

Special Emphasis Panel in Experimental Programs To Stimulate Competitive Research (EPSCoR); Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Experimental Programs to Stimulate Competitive Research (EPSCoR).

Date and Time: May 20–21, 1993; 2–9 p.m. and 8:30 a.m. to noon.

Place: The Latham Hotel, 3000 M St., NW., Washington, DC.

Type of Meeting: Closed.

Contact Person: Dr. Richard J. Anderson, Senior Project Director, EPSCoR, rm. 638, NSF, Washington, DC 20550, (202) 357–7560.

Purpose of Meeting: To provide advice and recommendations concerning support proposals submitted to NSF for financial support.

Agenda: To review and evaluate proposals submitted from states participating in the EPSCoR. Proposals requesting one-year Experimental Systemic Initiative grants are submitted in response to NSF EPSCoR solicitation 92–67.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c)(4) and (6) of the Government in the Sunshine Act.

Dated: April 26, 1993.

Advisory Panel for Genetics and Nucleic Acids; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting: Advisory Panel for Genetics (Panel B).

Date and Time: May 17–19, 1993 from 8:30 a.m. to 5 p.m.

Place: National Science Foundation, 1800 G Street, room 1242, Washington, DC 20550.

Type of Meeting: Closed.

Contact Person: Dr. DeLill Nasser, Program Director for Genetics, Division of Molecular and Cellular Biosciences, room 325, National Science Foundation, 1800 G St., NW., Washington, DC 20550. Telephone: (202) 357–0112.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate proposals submitted to the Genetics Program in the Division of Molecular & Cellular Biosciences at NSF as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: April 26, 1993.

Advisory Committee for Ocean Sciences (ACOS); Meeting

In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Ocean Sciences (ACOS).

Date and Time: May 20, 1993—8:30 a.m. to 5 p.m.

Place: Conference Center, One Washington Circle Hotel, One Washington Circle, NW., Washington, DC 20037.

Type of Meeting: Partially closed.

Contact Person: Dr. M. Grant Gross, Director, Division of Ocean Sciences, room 609, National Science Foundation, Washington, DC—Telephone: 202/357–9639.

Summary Minutes: May be obtained from the contact person.

Purpose of Committee: To provide advice and recommendations concerning oceanographic research and its support by the NSF Division of Ocean Sciences.

Agenda:

Open—8:30–1:30 p.m.

- Subcommittee Reports
- Planning for future oversight reviews
- Strategic Planning for Ocean Science
- Future ACOS activities

Closed 5/20—1:30 p.m. to 3.30 p.m.

To review and evaluate research proposals as part of the selection process for awards.

Open 4 p.m. to 5 p.m.

- Future advisory committee activities (continued)

Resume Discussions

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of U.S.C. 552b (c), Government in the Sunshine Act.

Dated: April 26, 1993.

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35).

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* 10 CFR Part 9: Public Records.

3. *The form number, if applicable:* Not applicable.

4. *How often the collection is required:* On occasion.

5. *Who will be required or asked to report:* Individuals requesting access to records under the Freedom of Information or Privacy Acts.

6. *An estimate of the number of responses annually:* 2,464.

7. *An estimate of the number of hours needed annually to complete the requirement or request:* 694 hours (an average of .3 hours per response).

8. *An indication of whether section 3504(h), Public Law 96–511 applies:* Not Applicable.

9. *Abstract:* 10 CFR part 9 establishes information collection requirements for individuals making requests for records under the Freedom of Information or Privacy Acts. It also contains requests to waive or reduce fees for searching for and reproducing records in response to FOIA requests. The information required from the public is necessary to identify the records they are requesting or to justify requests for waivers or reductions in searching or copying fees.

Copies of the submittal may be inspected or obtained for a fee from the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC.

Comments and questions can be directed by mail to the OMB reviewer: Ronald Minsk, Office of Information and Regulatory Affairs (3150–0043), Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395–3084.

The NRC Clearance Officer is Brenda Jo Shelton, (301) 492–8132.

Dated at Bethesda this 21st day of April 1993.

For the Nuclear Regulatory Commission.

Gerald F. Cranford,

Designated Senior Official for Information Resources Management.

[FR Doc. 93–10050 Filed 4–28–93; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–285]

Exemption

In the Matter of Omaha Public Power District (Fort Calhoun Station, Unit No. 1).

I

The Omaha Public Power District (OPPD/the licensee) is the holder of Facility Operating License No. DPR–40, which authorizes operation of the Fort Calhoun Station, Unit No. 1 (the facility), at steady state reactor core power levels not in excess of 1500 megawatts thermal. This facility is a pressurized water reactor located in Washington County, Nebraska. The licensee provides, among other things, that Fort Calhoun Station, Unit No. 1, is subject to all rules, regulations, and Orders of the Commission now or hereafter in effect.

II

Section 26.21(b) of title 10 of the Code of Federal Regulations requires that Fitness-For-Duty (FFD) refresher training be completed on a nominal 12-month frequency or more frequently where the need is indicated.

By letter dated February 12, 1993, the licensee of Fort Calhoun Station, Unit No. 1, requested a one-time exemption from the requirements of 10 CFR 26.21(b) to allow the licensee to consolidate its response to several training requirements by extending the time requirement for providing FFD refresher training to approximately 18 months.

III

The Commission has reviewed the licensee's rationale for a one-time exemption from 10 CFR 26.21(b) in order not to separate FFD refresher training from general employee requalification training (GERT).

Based on its review, the Commission finds the licensee has shown good cause for the requested exemption from 10 CFR 26.21(b). Therefore, the exemption to extend the time requirement for completing FFD refresher training is acceptable.

IV

Accordingly, the Commission has determined that, pursuant to 10 CFR 26.6, the exemption is authorized by law and will not endanger life or property or the common defense and security and are otherwise in the public interest and hereby grants an exemption from the time requirements of 10 CFR 26.21(b).

Pursuant to 10 CFR 51.32, the Commission has determined that the issuance of the Exemption will have no significant impact on the environment (58 FR 21480).

This exemption is effective upon issuance.

Dated at Rockville, Maryland this 22nd day of April 1993.

For the Nuclear Regulatory Commission.

Jack W. Roe,

Director, Division of Reactor Projects—III/IV/V, Office of Nuclear Reactor Regulation.

[FR Doc. 93–10049 Filed 4–28–93; 8:45 am]

BILLING CODE 7590–01–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–32196; File No. SR–Amex–93–05]

Self-Regulatory Organizations; Filing of Proposed Rule Changes by the American Stock Exchange, Inc.; Relating to Flexible Exchange Options ("FLEX Options")

April 22, 1993.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on February 4, 1993, the American Stock Exchange, Inc. ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule changes as described in Items I, II, and III below, which Items have been prepared by the Amex. The Commission is publishing this notice to solicit comments on the proposed rule changes from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Changes

The Amex has filed proposed rule changes to amend its rules to permit the listing and trading on the Exchange of large-size, customized index options, referred to as Flexible Exchange Options ("FLEX Options").

The text of the proposed rule changes is available at the Office of the Secretary, Amex, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

In its filing with the Commission, the Amex included statements concerning the purpose of and basis for the proposed rule changes and discussed any comments it received on the proposed rule changes. The text of these statements may be examined at the places specified in Item IV below. The Amex has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Changes

(1) Purpose

When standardized options commenced trading in 1973, many of the risks associated with the over-the-counter ("OTC") options market were eliminated by the creation of a centralized clearing entity, the Options Clearing Corporation ("OCC"). Organized to be the sole issuer and financial guarantor of option contracts traded on all U.S. exchanges, OCC's existence virtually eliminated counter-party risk while standardization of contract specifications for exchange-traded options eliminated the ability to customize options contract specifications.

In recent years, a substantial OTC market in index and equity options has developed primarily by institutional investors seeking the flexibility to customize basic option features, including size, expiration date, exercise style and exercise price. In order to meet the increasing needs of these investors, the Exchange proposes to provide for the trading of large-size customized index options ("FLEX Options"). These options would have the benefit of OCC issuance, clearance and guarantees not available in the OTC market. Recently, the Commission approved a Chicago Board Options Exchange, Inc. ("CBOE")

VOL 58 ISS 81 AP 29 1993 UMI

proposal to list and trade FLEX Options based on the Standard & Poor's Corporation ("S&P") 100 and 500 stock indexes.[1]

FLEX Options will differ from existing exchange-traded options both in terms of customization and size. Specifically, parties to a FLEX Option trade would establish through the negotiation process outlined below in proposed Rules 903G and 904G, the expiration date, exercise style (American, European or capped), exercise price, the cap interval (for capped-style FLEX Options) and the methodology for establishing a settlement value (i.e., based on opening or closing component prices on any given day or as an average over a period of time).

Initially, the Amex plans to introduce FLEX Options on the following indexes presently traded at the Exchange: (1) Major Market ("XMI"), (2) Institutional ("XII"), (3) Japan ("JPN"), and (4) S&P MidCap ("MID"). FLEX Option multipliers will be the same as non-FLEX Options while quotes for FLEX Options may be expressed in standard terms, or as a percentage of the underlying index value. Transactions in FLEX Options will be subject to many of the same rules that currently apply to options traded on the Exchange. However, to provide investors with the flexibility to designate certain terms and to accommodate other special features of FLEX Options and the way in which they are traded, several new rules are necessary.

The principal rules proposed by the Amex that are uniquely applicable to the FLEX market include a rule containing new definitions (Rule 900G), a rule regarding hours of trading FLEX Options (Rule 901G), a rule regarding trading rotations (Rule 902G), rules setting forth the special terms of FLEX contracts and certain special pieces of information that must be included in FLEX Requests for Quotes and responsive quotes (Rule 903G), rules prescribing the mechanics of initiating a FLEX Request for Quotes and bidding and offering in response thereto, rules setting forth the principles applicable to the formation of binding FLEX contracts, rules defining the applicable priority principles (Rule 904G), and special position limit and exercise limit rules (Rules 906G and 907G). Discussion of each of these new rules follows.

Proposed Rule 900G adopts nomenclature uniquely tailored to fit the special characteristics of FLEX Options and the FLEX market. For example, the term "Request Response Time" refers to the time interval, set by the Submitting Member in its Request for Quotes, during which responsive bidding and offering is to take place. Similarly, the term "FLEX Quote" has both its usual connotation—market-maker bids and offers—and a new connotation—brokers' orders to purchase and orders to sell—that is necessary in view of the unique mechanics of the FLEX exchange auction.

Proposed Rule 901G provides that FLEX trading will commence at 10 a.m. and close at 4:15 p.m. (New York time), although the Exchange may, from time to time, determine to amend the trading hours set for FLEX Options. The Amex believes that this one-half hour delay will promote smooth, liquid openings for both FLEX and non-FLEX Options and limit various burdens associated with the opening of trading each day during the initial phases of this program. As a complementary rule uniquely applicable to FLEX Options, Proposed Rule 902G specifies that there will be no trading rotations in FLEX Options, either at the opening or at the close of trading.

Proposed Rule 903G specifies the term elements and other informational ingredients that must be included in Requests for Quotes, FLEX Quotes submitted in response to such requests, and, ultimately, FLEX contracts that are the product of FLEX trading. As paragraph (b) of this proposed rule indicates, the content of certain terms of each FLEX contract is to be determined by the parties to the contract. Other terms, such as the level of the index multiplier and the nature of the rights and obligations of FLEX Option purchasers and sellers, are the same for FLEX as for non-FLEX index options.

More specifically, paragraph (b) of Proposed Rule 903G specifies the term elements that a Submitting Member must include in its Request for Quotes and indicates the content alternatives available for each term. Under this paragraph a Submitting Member must designate, among other terms, the day, month and year of the FLEX Option's expiration, subject to certain limitations designed to avoid the overlap of FLEX expirations with expirations of non-FLEX index options. To further ensure against any adverse market impact, expirations for FLEX Options may not fall within three business days (before or after) of conventional options expirations (generally the third Friday of the month). Similarly, a Submitting Member must identify the exercise price and the exercise settlement value of the FLEX Option, within stated parameters.

Paragraph (c) of this proposed rule lists certain additional categories of information that must be addressed by the Submitting Member in its Request for Quotes. In particular, a Submitting Member must indicate the type and form of quote sought, the Submitting Member's intention, if any, to cross a customer order or act as principal with respect to any part of the FLEX trade, and the length of the Request Response Time (i.e., the time interval during which FLEX-participating members may enter quotes responsive to the request).

Finally, paragraph (d) of this proposed rule specifies the maximum term and the minimum value size of any FLEX contract and provides that the ferm and size may be set, within the stated limits, at the discretion of the Submitting Member or the quoting party, as applicable. Under this paragraph, the maximum term of any FLEX Option is five years; the minimum value size (i.e., the aggregate underlying dollar value that is the subject of the option) for a FLEX Request for Quotes is $10 million in an opening transaction in a new FLEX option series and $1 million in an opening or closing transaction in any currently-opened FLEX series (or less in a closing transaction where the remaining underlying value is less than $1 million); and the minimum value size for quotes of Market-Makers in response to a Request for Quotes is $1 million or any lesser amount reflected in a Request for Quotes.

Proposed Rule 904G prescribes in some detail the mechanics of submitting Requests for Quotes and entering responsive bids and offers. These mechanics, described below, are designed to create a modified auction that takes into account the relatively small number of transactions that are likely to occur in this institutional, large-size market, while at the same time providing the FLEX market with the price improvement and transparency benefits of competitive Exchange floor bidding and offering, as compared with the OTC market. Proposed Rule 904G establishes time and price priority principles and contains special rules respecting the bidding and offering process and the method of allocating trades in instances in which the Submitting Member expresses an intention to cross or act as principal on a Request for Quotes. These proposed rules are designed to promote active bidding and offering that will generate the best price available, while also providing incentives to market-makers appointed to FLEX Options, floor participants, and upstairs firms alike to participate in the FLEX market.

[1] See Securities Exchange Act Release No. 31920 (February 24, 1993), 58 FR 12280.

In particular, paragraphs (a) and (b) of proposed Rule 904G indicate that the FLEX bidding and offering process is initiated once a Submitting Member has supplied a Request for Quotes in proper form and the FLEX Post Official has disseminated the terms of that request at the post and over FLEX communications facilities yet to be developed. Thereafter, FLEX Quotes in proper form must be entered, but may be modified or withdrawn (subject to special limitations imposed on appointed market-makers) by public outcry at any time during the Request Response Time. The length of the Request Response Time, which must fall within time parameters to be set by the Exchange, is to be specified in the Request for Quotes. At the expiration of the Request Response Time, the FLEX Post Official will determine the best bid and/or offer (the "BBO").

Proposed paragraphs (c)(i)-(ii) of Rule 904G provide that the BBO will be displayed at the post and over communication facilities and, at that point, or after further bidding and offering that occurs in certain specified circumstances, the Submitting Member will have the opportunity to accept or reject the BBO. The Submitting Member, however, has no obligation to accept the BBO. Thus, whenever the BBO is rejected the Request for Quotes expires, although FLEX-participating members other than the Submitting Member may accept the unfilled balance of the BBO. Similarly, whenever the BBO is accepted, the transaction (or transactions) will be executed in accordance with the crossing principles and priority principles set forth in paragraph (c)(ii), although, again FLEX-participating members may accept any unfilled balance of the BBO.

Proposed Rule 905G would permit a floor broker to purchase or sell an unspecified number of FLEX Options based on such floor broker's discretion. This rule would require discretionary authority to be granted by the customer in a manner approved by the Amex and reflected in a contemporaneously-prepared, time-stamped document prepared by the floor broker. A copy of this approving document would be promptly sent to the customer with an additional copy maintained by the floor broker for the full duration of the FLEX Option contract or the time required by the Commission under Rule 17a–4 of the Act, whichever is longer.

Proposed Rule 906G states position limits that will be unique to FLEX Options.[2] The Amex is proposing that FLEX Options shall be subject to position limits that in the aggregate do not exceed 200,000 contracts on the same side of the market in a given index.[3] The rule proposes that FLEX Options not be aggregated with option contracts in non-FLEX index options or with options on any stocks included in the index underlying FLEX Options. However, at the close of trading two business days prior to the last day of trading of the calendar quarter, positions in P.M.-settled FLEX Options (i.e., options having a settlement value that is determined by the level of the index at the close of trading on the last trading day before expiration), are to be aggregated with positions in quarterly index options ("QIXs") on the same index and subject to the position limits set forth in Rule 905C.

The Amex in proposed Rule 908G has required that registered options traders and floor brokers that effect transactions in FLEX Options satisfy the fidelity bond requirements set forth in Amex Rule 330.

(2) Basis

The Exchange believes that the proposed rule changes are consistent with section 6(b) of the Act, in general, and section 6(b)(5), in particular, in that they are designed to prevent fraudulent and manipulative acts and practices and to promote just and equitable principles of trade.

B. Self-Regulatory Organizotion's Statement on Burden on Competition

The Amex believes that the proposed rule changes will not impose a burden on competition.

C. Self-Regulatory Organization's Stotement on Comments on the Proposed Rule Changes Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule changes, or

(b) Institute proceedings to determine whether the proposed rule changes should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule changes that are filed with the Commission, and all written communications relating to the proposed rule changes between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to the file number in the caption above and should be submitted by May 20, 1993.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[4]

Margaret H. McFarland,

Deputy Secretary.

Self-Regulatory Organizations; Filing of Proposed Rule Change by Boston Stock Exchange, Inc. Relating to the Annual Meeting and the Annual Election

April 23, 1993.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on March 22, 1993, the Boston Stock Exchange, Incorporated ("BSE" or "Exchange") filed with the Securities and Exchange

VOL 58 ISS 81 AP 29 1993 UMI

Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. On April 13, 1993 the BSE submitted to the Commission Amendment No. 1 to the proposal.[1] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The BSE seeks to amend its Constitution to change the date of the Annual Meeting and the Annual Election.

II. Self-Regulatory Organization's Statement for the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the BSE Constitution changing the date of the annual meeting and the annual election from the last Monday in September to the last Monday in November in order to provide for the review of the complete fiscal year picture,[2] as well as to provide additional time for Nominating Committee deliberations.[3]

[1] See letter from Karen A. Aluise, Staff Attorney, BSE, to Diana Luka-Hopson, Branch Chief, Commission, dated April 12, 1993. Amendment No 1 clarified certain language in the proposal

[2] The Exchange's fiscal year runs from October 1 through September 30.

[3] The Nominating Committee currently is required to hold at least one meeting in the month of July for the purpose of suggesting nominees for the offices and positions that are to be filled at the annual election, and for members of the Nominating Committee for the ensuing fiscal year. See Article VI, Section 4 of the BSE Constitution. The proposed rule change would require the Nominating Committee to hold at least one meeting in the month of June to select a Chairman of the Committee, and to designate a meeting date in the month of July for the purpose of suggesting nominees for offices and positions to be filled at the annual election including members of the Nominating Committee for the ensuing calendar year.

2. Statutory Basis

The basis under the Act for the proposed rule change is section 6(b)(3) in that the rule is designed to assure a fair representation of members in the selection of directors, the selection process, and the administrative affairs of the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The proposed rule change was approved by the Board of Governors ("Board") of the Exchange on February 23, 1993. Notice of the proposed rule change was published to the membership as provided for in the Constitution on March 9, 1993. No protests were received nor objections raised.[4]

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the publication of this notice in the **Federal Register** or within such other period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve the proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the BSE. All submissions should refer to File No. SR-BSE-93-9 and should be submitted by May 20, 1993.

[4] Article XX, Section 1 of the BSE Constitution provides that any amendment to the Constitution which is adopted by the Board shall be submitted to Exchange members. If the amendment is not protested by fifteen Exchange members prior to the expiration of the seventh business day after the date of delivery or mailing of the proposed amendments, then the amendment is deemed approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Boston Stock Exchange, Incorporated

April 23, 1993.

The above named national securities exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder for unlisted trading privileges in the following securities:

Paragon Trade Brands, Inc.
Common Stock, $.01 Par Value (File No. 7-10583)
Starter Corp.
Common Stock, $.01 Par Value (File No. 7-10584)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before May 14, 1993, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

[FR Doc. 93-10087 Filed 4-28-93; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-32198; File No. SR-CBOE-93-15]

Self-Regulatory Organizations; Chicago Board Options Exchange, Inc.; Filing of Proposed Rule Change Relating to the Listing and Trading of Options on the Russell 2000 Index Expiring at the End of Each Calendar Quarter

April 23, 1993.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on March 9, 1993, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to list for trading quarterly index expiration options ("QIXs") on the Russell 2000 Index. The Commission has approved the listing and trading of QIX options on the Standard & Poor's Corporation ("S&P") 100 and 500 Stock Indexes ("OEX" and "SPX" respectively)[1] and stock index options based on the Russell 200 Index ("Russell 2000").[2]

The text of the proposed rule change in available at the Office of the Secretary, CBOE, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to permit the trading of QIXs based on the Russell 2000 index. Like CBOE's QIXs on the OEX and SPX indexes, QIXs on the Russell 2000 are proposed to be P.M.-settled.[3] Like regular Russell 2000 options, Russell 2000 QIXs will be European-style.

The Exchange is proposing to amend Rule 24.4 to provide that Russell 2000 QIXs will be subject to the 50,000 contract limit currently specified in the Rule for Russell 2000 index options, but without the 30,000 contract limit or "telescoping requirement" for the series with the nearest expiration date that applies to regular Russell 2000 options. This treatment is parallel to the treatment given in the Rule to QIXs on the S&P 100 index. For the purpose of this test, regular Russell 2000 options would be aggregated with the Russell 2000 QIXs. Regular Russell 2000 options would continue to be subject to a separate 50,000 contract limit with a 30,000 contract telescoping requirement.[4]

The proposed rule change is consistent with section 6(b) of the Act, in general, and furthers the objectives of section 6(b)(5), in particular, in that it makes a QIX option on an additional broad-based index available for trading. As a result, the proposed rule change offers an additional method of tailoring portfolio hedges that expire on the last day of the calendar quarter. The filing thereby removes an impediment to a free and open market, while applying the Exchange's existing programs and procedures to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The CBOE believes that the proposed rule change will not impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by May 20, 1993.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[5]

[1] See Securities Exchange Release No. 31800 (February 1, 1993), 58 FR 7274.

[2] See Securities Exchange Act Release No. 31382 (October 30, 1992), 57 FR 52802.

[3] "P.M." or closing price settlement is a manner of index options settlement whereby the exercise settlement value is based upon the index value derived from the closing prices of component securities on the last day of trading prior to expiration.

[4] The Committee notes that regular Russell 2000 options would be aggregated with QIX Options on the Russell 2000 for purposes of the position limit requirements noted above.

BILLING CODE 8010–01–M

[Release No. 34–32199; File No. SR–CBOE–93–16]

Self-Regulatory Organizations; Filing of Proposed Rule Change By Chicago Board Options Exchange, Inc. Relating to Flexible Exchange Options ("FLEX Options") on the Russell 2000 Index

April 23, 1993.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on March 9, 1993, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the CBOE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to amend its rules to provide for the listing and trading of Flexible Exchange Options ("FLEX Options") on the Russell 2000 Index ("Russell 2000" or "Index").

The text of the proposed rule change is available at the Office of the Secretary, CBOE and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared summaries, set forth in sections (A), (B) and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, Proposed Rule Change

The purpose of the proposed rule change is to enable the CBOE to expand the FLEX Option program to include FLEX Options on the Russell 2000.[1] Currently, FLEX Options can be listed and traded only on the Standard & Poor's Corporation ("S&P") 100 and 500 Stock Indexes ("OEX" and "SPX" respectively). The component stocks of the OEX and SPX consist of 100 and 500 high-capitalization companies. The component stocks of the Russell 2000 index, however, consists of 2,000 small-capitalization companies. Accordingly, through this rule change, CBOE member firms and their customers would have the opportunity to create and trade customized FLEX Options on a small capitalization stock index.

The proposed rule change includes an amendment to FLEX Option position limits.[2] The proposed amendment is designed to create a relationship between position limits in FLEX Options on the Russell 2000 versus position limits in FLEX Options on the OEX that is the same as the relationship that exists for the corresponding position limits in non-FLEX index options for these particular indexes. Under CBOE Rule 24.4 the position limits for non-FLEX options on the Russell 2000 are twice the size of the position limits for options on the OEX, reflecting the fact that the S&P 100 Index levels generally are reported at twice the level of the Russell 2000. Accordingly, it is proposed that position limits for FLEX Options on the Russell 2000 be set at 400,000 contracts on the same side of the market, with the limits for FLEX Options on the OEX remaining at 200,000 contracts. In addition, the special aggregation provisions in CBOE Rule 24A.7 for P.M.-settled FLEX Options and "comparable" quarterly expiration index options ("QIXs") would be extended to P.M.-settled FLEX Options on the Russell 2000 and comparable QIX options.[3] The position limits would be set at 50,000 contracts on the same side of the market—twice the level applicable to FLEX Options and comparable QIX options on the OEX.

The Exchange believes that the proposed rule change is consistent with and furthers the objectives of Section 6(b)(5) of the Act in that it is designed to include FLEX Options on the Russell 2000 in CBOE's existing FLEX Options program in a manner that promotes just and equitable principles of trade and protects investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The CBOE does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of CBOE. All submissions should refer to the file number in the caption above and should be submitted by May 20, 1993.

[1] The Commission approved the CBOE's FLEX Option framework on February 24, 1993 permitting the Exchange at that time to trade FLEX Options based on the OEX and SPX Indexes. See Securities Exchange Act Release No. 31920 (February 24, 1993), 58 FR 12280.

[2] Exercise limits for FLEX Options are equivalent to the FLEX position limits outlined in CBOE Rule 24A.7.

[3] The CBOE recently proposed to trade QIXs on the Russell 2000 Index. See File No. SR–CBOE–93–15.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[4]

[Rel. No. IC–19429; 812–8196]

Stagecoach Funds, Inc., et al.; Application for Exemption

April 22, 1993.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for exemption under the Investment Company Act of 1940 (the "Act").

VOL 58 ISS 81 AP 29 1993 UMI

APPLICANTS: Stagecoach Funds, Inc. ("Stagecoach"); Overland Express Funds, Inc. ("Overland"); WellsFunds Inc. ("WellsFunds"); and all other investment companies for which Wells Fargo Bank, N.A. acts in the future as investment adviser or Stephens Inc. acts in the future as principal underwriter (the "Funds"); Wells Fargo Bank, N.A. ("Wells Fargo"); and Stephens Inc. (the "Distributor").

RELEVANT ACT SECTIONS: Exemption requested under section 6(c) from the provisions of sections 2(a)(32), 2(a)(35), 18(f), 18(g), 18(i), 22(c), and 22(d) of the Act and rule 22c–1 thereunder.

SUMMARY OF APPLICATION: Applicants seek an order that would permit the Funds to issue an unlimited number of classes of shares representing interests in the same portfolio of securities, assess a contingent deferred sales charge ("CDSC") on certain redemptions of shares, and waive the CDSC in certain instances.

FILING DATE: The application was filed on December 1, 1992 and amended on March 11, 1993 and April 21, 1993.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on May 17, 1993 and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicants: Stagecoach Funds, Inc., Overland Express Funds, Inc., WellsFunds Inc., and Stephens Inc., 111 Center Street, Little Rock, Arkansas 72201; Wells Fargo Bank, N.A., 525 Market Street, 12th floor, San Francisco, California 94104.

FOR FURTHER INFORMATION CONTACT: Marc Duffy, Staff Attorney, (202) 272–2511, or C. David Messman, Branch Chief, (202) 272–3018 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicants' Representations

1. Stagecoach, Overland, and WellsFunds are Maryland corporations registered under the Act as open-end management investment companies. Each Fund is a series company with each series (a "Portfolio") having separate investment objectives and policies. Stagecoach presently consists of eleven Portfolios, Overland consists of fourteen Portfolios, and WellsFunds consists of seven Portfolios.

2. Shares of Stagecoach are sold primarily, but not exclusively, through Wells Fargo and its affiliates. Shares of Overland are sold primarily, but not exclusively, through broker-dealers and other financial institutions. WellsFunds has not yet commenced operations, but its shares will be sold primarily, but not exclusively, through Wells Fargo and its affiliates.

3. Wells Fargo, a national bank with its main office in San Francisco, California, serves as investment advisor to the Funds. Wells Fargo also serves as the transfer and dividend disbursing agent, and performs internal accounting functions for the Funds.

4. The Distributor, a full-service broker-dealer registered under the Securities Exchange Act of 1934, serves as the sponsor, distributor, and administrator to the Funds. The Distributor has entered into a distribution agreement with each Fund pursuant to which it has responsibility for distributing shares of the Funds. The Funds also have adopted distribution plans under rule 12b–1 of the Act.

5. Applicants propose to establish a multiple distribution system (the "Multi-Class System"). Under the Multi-Class System, the Funds intend to offer three classes of shares in some or all of the Portfolios: (a) A class offered in connection with a plan adopted pursuant to rule 12b–1 under the Act (the "12b–1 Class"), (b) a class offered in connection with a non-rule 12b–1 services plan (the "Non-12b–1 Class"), and (c) a trust class (the "Trust Class"). In addition, the Funds may create additional 12b–1 Class, Non-12b–1 Class, and Trust Class shares in each Portfolio that differ according to the characteristics described below.

6. The 12b–1 Class shares will be offered pursuant to a plan of distribution (the "12b–1 Plan") approved by the directors of a Fund in accordance with rule 12b–1 under the Act. Shares of the 12b–1 Class will be sold to investors purchasing directly from a Fund's distributor, or to clients of certain financial institutions that have entered into agreements with the Fund or the Fund's distributor to provide necessary distribution and administrative services with respect to the 12b–1 Class. Distribution activities financed in accordance with a 12b–1 Plan may include advertising and marketing expenses, printing costs for new prospectuses and sales literature, and payments to broker/dealers and others for distribution assistance

7. The Non-12b–1 Class will be offered pursuant to a non-rule 12b–1 servicing plan (the "Services Plan," and together with the 12b–1 Plans, the "Plans") approved by the board of directors of a Fund under which a Fund will enter into servicing agreements with qualified banks and other financial institutions ("Organizations") to provide necessary administrative support services to customers of Organizations who are the beneficial owners of Non-12b–1 Class shares. Services provided pursuant to a Services Plan may include subaccounting, establishing and maintaining accounts and records, aggregating and processing purchase and redemption orders; investing customers assets in shares of the Non-12b–1 Class, providing periodic statements; arranging for bank wires, processing dividend payments, answering routine inquiries; assisting customers in changing dividend options, account designations, and addresses; forwarding shareholder communications; and other similar services

8. The Trust Class will be sold primarily to financial institutions in their capacity as fiduciaries for certain accounts, such as living trusts, irrevocable trusts, foundations, endowments, retirement plans, and agency or custodial accounts. The financial institutions provide services for the beneficial owners of Trust Class shares, such as determining the appropriateness of investments, working with attorneys or accountants under the terms of a fiduciary relationship, providing tax information, preparing and sending account statements, responding to inquiries, forwarding shareholder communications, and establishing and maintaining account records. Trust Class shares will not be subject to 12b–1 Plans or Services Plans.

9. The services provided under the Plans will not duplicate the services provided by Wells Fargo, the Distributor, or the custodians. Applicants will comply with the recent amendments to Article III, Section 26, of the Rules of Fair Practice of the National Association of Securities Dealers, Inc. (the "NASD") regarding asset-based sales charges and service fees. See

Securities Exchange Act Release No. 30897 (July 7, 1992).

10. The Funds may in the future create one or more classes of shares that would bear higher ongoing distribution charges and/or services fees ("Class B shares") and that would automatically convert into shares of another class that bears lower ongoing distribution charges and/or services fees ("Class A shares") up to five years after the purchase of Class B shares. Shares purchased through the reinvestment of dividends and other distributions paid in respect of Class B shares also would be Class B shares. Such Class B shares, however, would convert, if convertible, to Class A shares on the earlier of: (i) Five years (or a shorter specified conversion period) from the date of such reinvestment purchase, or (ii) the conversion date of the most recently purchased Class B shares that were not acquired through the reinvestment of dividends or distributions.

11. The conversion of Class B shares into Class A shares would be subject to the availability of an opinion of counsel or Internal Revenue Service private letter ruling to the effect that the conversion of Class B shares does not constitute a taxable event under federal income tax law. The conversion may be suspended if such a ruling or opinion is not available. In that event, no further conversions would occur and Class B shares might be subject to a higher level of ongoing Class Expenses for an indefinite period.

12. In addition to expenses incurred under a 12b–1 Plan or Services Plan, each class of shares will bear certain expenses specifically attributable to the particular class as set forth in Condition 1 ("Class Expenses"). The determination of which Class Expenses will be allocated to a particular class and any subsequent changes thereto will be determined by a Fund's director in the manner described in Condition 3.

13. Each Portfolio of a Fund will be charged with the direct liabilities of that Portfolio and with a portion of the general liabilities of the Fund in the same proportion that the assets of the Portfolio bear to the assets of the Fund. In addition, all outstanding shares representing interests in the same Portfolio will bear the Portfolio expenses, which would first be allocated *pro rata* to each class on the basis of the relative net asset value of the respective class, and then further allocated on a per share basis within the class, except that each class will bear the Class Expenses applicable to such class.

14. Applicants also propose that the Funds be permitted to impose a CDSC on certain redemptions of shares and waive the CDSC in certain instances. The amount of the CDSC and timing of its imposition may vary.

15. No CDSC will be imposed with respect to redemptions attributable to increases in the value of an account above the net cost of the investment due to increases in the net asset value per share. No CDSC will be imposed on shares acquired through reinvestment of income dividends or capital gain distributions, or shares purchased a specified period of time prior to the redemptions. In determining whether a CDSC is payable, it will be assumed that shares, or amounts representing shares, that are not subject to a CDSC are redeemed first and that other shares or amounts are then redeemed in the order purchased. No CDSC will be imposed on any shares purchased prior to the effective date of the order.

16. Applicants intend to waive the CDSC on redemptions of shares in one or more of the following categories: (a) Following the death or disability (as defined in the Internal Revenue Code of 1986, as amended) of a shareholder; (b) representing a minimum required distribution from an IRA or other retirement plan to a shareholder who has reached age 70½; (c) incurred by current employees of Wells Fargo or by current or former directors of the Funds; or (d) resulting from a Fund's right to liquidate a shareholder's account if the aggregate net asset value of shares held in the account is less than the effective minimum account size. Applicants may waive the CDSC in the case of some, but not all, of these categories, provided that the selected waiver categories will be provided on a Portfolio-wide basis. Applicants' prospectuses will list all available waiver categories.

Applicants' Legal Analysis

1. Applicants request an exemptive order to the extent that the proposed Multi-Class System might be deemed to result in a "senior security" within the meaning of section 18(g) of the Act, and thus be prohibited by section 18(f)(1), and violate the equal voting provisions of section 18(i) of the Act.

2. Section 18 is intended to prevent investment companies from issuing excessive amounts of senior securities and thereby increasing unduly the speculative character of their junior securities, or from operating without adequate assets or reserves. The proposed Multi-Class System does not involve borrowings and does not affect the Funds' existing assets or reserves. Nor will the Multi-Class System increase the speculative character of the shares of a Fund, since all shares will participate *pro rata* in all of a Fund's income and expenses (with the exception of Class Expenses).

3. Applicants assert that the Multi-Class System will preserve mutuality of risk with respect to all shares of a Portfolio. Further, since all shares will be redeemable at all times, since no class of shares will have any preference or priority over any other class in a Portfolio in the usual sense (that is, no class will have distribution or liquidation preferences with respect to particular assets and no class will be protected by any reserve or other account), and since the similarities (and, with respect to Class Expenses and associated voting rights, dissimilarities) of the shares will be fully disclosed in the prospectuses for each class of a Portfolio, investors will not be given misleading impressions as to the safety or risk of the shares and the nature of the shares will not be rendered speculative.

4. Applicants also request an exemption from the provisions of sections 2(a)(32), 2(a)(35), 22(c), and 22(d) of the Act and rule 22c–1 thereunder to the extent necessary to permit the funds to assess a CDSC on certain redemptions of shares and waive the CDSC in certain instances. Applicants believe that the implementation of the CDSC in the manner and under the circumstances described above would be fair, in the public interest and the interest of the shareholders of the Funds, and would be consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants' Conditions

Applicants agree that the following conditions may be imposed in any order of the SEC granting the requested relief:

A. Conditions Relating to the Proposed Multi-Class System

1. Each class of shares representing interests in the same Portfolio of a Fund will be identical in all respects, except for differences related to: (a) The method of financing certain Class Expenses, which are limited to (i) transfer agent fees identified by the transfer agent as being attributable to a specific class of shares; (ii) printing and postage expenses related to preparing and distributing materials such as shareholder reports, prospectuses, reports, and proxies to current shareholders of a specific class or to regulatory agencies with respect to a specific class of shares; (iii) blue sky registration or qualification fees incurred by a class of shares; (iv) SEC

VOL 58 ISS 81 AP 29 1993 UMI

registration fees incurred by a class of shares; (v) the expense of administrative personnel and services as required to support the shareholders of a specific class of shares; (vi) different levels of 12b 1 Plan and/or Services Plan fees and expenses ("Plan Payments") incurred by a class of shares; (vii) litigation or other legal expenses relating solely to one class of shares; and (viii) directors' fees incurred as a result of issues relating to one class of shares: (b) priorities with respect to the payment of dividends and distributions and such priorities would reflect only the impact of Class Expenses properly allocated to one class; (c) the net asset values of the various classes of shares in a Portfolio that may differ as a result of the allocation of Class Expenses; (d) voting rights of the classes with respect to the Plans; (e) the different exchange privileges, if any, of such classes as described in the prospectuses (and statements of additional information) of the Portfolios and consistent with any order granted pursuant to this application; (f) class designation differences, and (g) the conversion of shares of one class to shares of a second class up to five years after the purchase of the shares of the first class, which classes differ with respect to the distribution services and administrative support fees payable by such classes of shares. Any additional incremental expenses not specifically identified above which are subsequently identified and determined to be properly allocated to one class of shares shall not be so allocated until approved by the SEC pursuant to an amended order.

2. The directors of a Fund, including a majority of the independent directors, will approve the creation of additional classes of shares from time to time by an affirmative vote prior to the creation of any such class. The minutes of the meetings of the directors regarding the deliberations of the directors with respect to the approvals necessary to create any additional class of shares will reflect in detail the reasons for the directors' determination that the creation is in the best interests of both the Fund involved and its shareholders.

3. The initial determination of the Class Expenses that will be allocated to a particular class and any subsequent changes thereto will be reviewed and approved by a vote of the directors of a Fund, including a majority of the directors who are not interested persons of the Fund. Any person authorized to direct the allocation and disposition of monies paid or payable by the Fund to meet Class Expenses shall provide to the directors, and the directors shall review, at least quarterly, a written report of the amounts so expended and the purposes for which such expenditures were made.

4. On an ongoing basis, the directors of a Fund, pursuant to their fiduciary responsibilities under the Act and otherwise, will monitor the Portfolios for the existence of any material conflicts between the interests of the classes of shares. The directors, including a majority of the independent directors, shall take such action as is reasonably necessary to eliminate any such conflicts that may develop. The Distributor and Wells Fargo will be responsible for reporting any potential or existing conflicts to the directors. If a conflict arises, the Distributor and Wells Fargo, at their own cost, will remedy such conflict up to and including establishing a new registered management investment company.

5. Any Services Plan will be adopted and operated in accordance with the procedures set forth in rule 12b–1 (b) through (f) as if the expenditures made thereunder were subject to rule 12b–1, except that shareholders of the Non-12b–1 class will not receive the voting rights specified in rule 12b–1.

6. The directors of a Fund will receive quarterly and annual statements concerning Plan Payments (including, in the case 12b–1 Plans, expenditures relating to distribution) complying with paragraph (b)(3)(ii) of rule 12b–1, as it may be amended from time to time. In the statements, only expenditures properly attributable to the sale (in the case of 12b–1 shares) or servicing of a particular class of shares will be used to justify any distribution (in the case of 12b–1 shares) or servicing fee charged to that class. Expenditures not related to a particular class will not be presented to the directors to justify any fee attributable to that class. The statements, including the allocations upon which they are based, will be subject to the review and approval of the independent directors in the exercise of their fiduciary duties.

7. Dividends or other distributions paid by a Fund with respect to each class of its shares, to the extent any dividends are paid, will be calculated in the same manner, at the same time, on the same day, and will be paid at the same dividend rate, except that any Plan Payments and other Class Expenses relating to a particular class of shares will be borne exclusively by the applicable class.

8. The methodology and procedures for calculating the net asset values, dividends, and distribution of the classes of shares and the proper allocation of expenses between those classes have been reviewed by an expert (the "Expert") who has rendered a report to applicants, which has been provided to the staff of the SEC, that such methodology and procedures are adequate to ensure that such calculations and allocations will be made in an appropriate manner. On an ongoing basis, the Expert, or an appropriate substitute Expert, will monitor the manner in which the calculations and allocations are being made and, based upon such review, will render at least annually a report to applicants that the calculations and allocations are being made properly. The reports of the Expert shall be filed as part of the periodic reports filed with the SEC pursuant to sections 30(a) and 30(b)(1) of the Act. The work papers of the Expert with respect to such reports, following request by a Fund (which the Fund agrees to provide), will be available for inspection by the SEC staff, upon the written request to the Fund for such work papers, by a senior member of the Division of Investment Management, limited to the Director, an Associate Director, the Chief Accountant, the Chief Financial Analyst, an Assistant Director and any Regional Administrators or Associate and Assistant Administrators. The initial report of the Expert is a "Special Purpose" report on the "Design of a System," as defined and described in SAS No. 44 of the AICPA, and the ongoing reports filed after March 31, 1993, will be "Reports on Policies and Procedures Placed in Operation and Tests of Operating Effectiveness" as defined and described in SAS No. 70 of the AICPA, as it may be amended from time to time, or in similar auditing standards as may be adopted by the AICPA from time to time.

9. Applicants have adequate facilities in place to ensure implementation of the methodology and procedures for calculating the net asset values, dividends and distributions of the classes of shares and the proper allocation of expenses between such classes of shares, and this representation has been concurred with by the Expert in the initial report referred to in Condition 8 above and will be concurred with by the Expert, or an appropriate substitute Expert, on an ongoing basis at least annually in the ongoing reports referred to in Condition 8 above. Applicants will take immediate corrective measures if this representation is not concurred in by the Expert or appropriate substitute Expert.

10. The prospectus for each Portfolio with more than one class will contain a statement to the effect that a salesperson and any other person entitled to receive compensation for selling or servicing shares may receive different compensation for selling or servicing one particular class of shares over another class in the same Portfolio.

11. The distributor of a Fund will adopt compliance standards as to when each class of shares may appropriately be sold to particular investors. Applicants will require all persons selling shares to agree to conform to such standards.

12. The conditions pursuant to which the exemptive order is granted and the duties and responsibilities of the directors of a Fund with respect to the Plans and related agreements will be set forth in guidelines which will be furnished to the directors of the Fund.

13. Each Portfolio will disclose the respective expenses, performance data, distribution arrangements, services, fees, transfer agency expenses, sales loads, deferred sales loads, conversion features, and exchange privileges applicable to each class of shares of such Portfolio in every prospectus, regardless of whether all classes of shares in the Portfolio are offered through the prospectus. Each Portfolio will disclose the respective expenses and performance data applicable to all classes of shares in every shareholder report. The shareholder reports will contain, in the statement of assets and liabilities and statement of operations, information related to the Portfolio as a whole generally and not on a per class basis. Each Portfolio's per share data, however, will be prepared on a per class basis with respect to all classes of shares of such Portfolio. To the extent any advertisement or sales literature describes the expenses or performance data applicable to any class of shares in a Portfolio, it will also disclose the respective expenses and/or performance data applicable to all classes of shares in each Portfolio. The information provided by a Fund for publication in any newspaper or similar listing of each Portfolio's net asset value and public offering price will present each class of shares separately.

14. Any class of shares with a conversion feature ("Purchase Class") will convert into another class ("Target Class") of shares on the basis of the relative net asset values of the two classes, without the imposition of any sales load, fee, or other charge. After conversion, the converted classes will be subject to an asset-based sales charge and/or service fee (as those terms are defined in Article III, Section 26 of the NASD's Rules of Fair Practice), if any, that in the aggregate are lower than the asset-based sales charge and service fee to which they were subject prior to the conversion.

15. If a Fund implements any amendment to its 12b–1 Plan (or, if presented to shareholders, adopts or implements any amendment of a Services Plan) that would increase materially the amount that may be borne by the Target Class shares under the plan, Purchase Class shares will stop converting into Target Class unless the holders of Purchase Class shares, voting separately as a class, approve the proposal. The directors of the Funds shall take such action as is necessary to ensure that existing Purchase Class shares are exchanged or converted into a new class of shares ("New Target Class"), identical in all material respects to Target Class shares as they existed prior to implementation of the proposal, no later than such shares previously were scheduled to convert into Target Class shares. If deemed advisable by the directors of the Funds to implement the foregoing, such action may include the exchange of all existing Purchase Class shares for a new class ("New Purchase Class"), identical to existing Purchase Class shares in all material respects except that New Purchase Class shares will convert into New Target Class shares. New Target Class shares or New Purchase Class shares may be formed without further exemptive relief. Exchanges or conversions described in this condition shall be effected in a manner that the directors of the Funds reasonably believe will not be subject to federal taxation. In accordance with condition 4, any additional cost associated with the creation, exchange, or conversion of New Target Class shares or New Purchase Class shares shall be borne solely by Wells Fargo and the Distributor. Purchase Class shares sold after the implementation of the proposal may convert into Target Class shares subject to the higher maximum payment, provided that the material features of the Target Class shares plan and the relationship of such plan to the Purchase Class shares are disclosed in an effective registration statement.

16. Applicants acknowledge that the grant of the exemptive order requested by this application will not imply SEC approval, authorization, or acquiescence in any particular level of payments that a Fund may make pursuant to a Plan in reliance on the exemptive order.

B. Condition Relating to the CDSC

Applicants will comply with the provisions of proposed rule 6c–10 under the Act (Investment Company Act Release No. 16619 (Nov. 2, 1988)), as such rule is currently proposed and as it may be reproposed, adopted, or amended.

For the SEC, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 93–10000 Filed 4–28–93; 8:45 am]

BILLING CODE 8010–01–M

[Rel. No. IC–19431; 812–8228]

Capital Value Fund, et al.; Notice of Application

April 23, 1993.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application for Exemption under the Investment Company Act of 1940 (the "Act").

APPLICANTS: Capital Value Fund, Inc. (the "Fund"), Investors Management Group, Ltd. ("IMG"), IMG Financial Services, Inc. ("IFS"), and Capital Value Corporation ("CVC").

RELEVANT ACT SECTIONS: Conditional order requested under section 6(c) of the Act for an exemption from sections 2(a)(32), 2(a)(35), 18(f), 18(g), 18(i), 22(c), and 22(d) of the Act and rule 22c–1 thereunder.

SUMMARY OF APPLICATION: Applicants seek a conditional order that would permit certain series of the Fund (a) to issue two classes of shares representing interests in the same portfolio of securities, one of which would convert into the other class after a specified period permitting investors to benefit from lower rule 12b–1 distribution fees, and (b) to assess a contingent deferred sales charge ("CDSC") on certain redemptions of shares of one of the classes and to waive the CDSC under certain circumstances.

FILING DATE: The application was filed on December 24, 1992, and amended on March 1, 1993 and April 20, 1993. Applicants have agreed to file an additional amendment, the substance of which is incorporated herein, during the notice period.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on May 17, 1993, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature

VOL 58 ISS 81 AP 29 1993 UMI

of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicants, 720 Liberty Building, 418 Sixth Street, Des Moines, Iowa 50309.

FOR FURTHER INFORMATION CONTACT: Robert A. Robertson, Staff Attorney, at (202) 504–2283, or C. David Messman, Branch Chief, at (202) 272–3018 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicant's Representations

A. The Dual Class Arrangement

1. The Fund is an open-end management investment company registered under the Act. It is a "series company" that will offer five different investment portfolios—the Equity Portfolio, the Total Return Portfolio, the Fixed Income Portfolio, the Short Term Government Portfolio, and the Prime Money Market Portfolio. Only the Equity Portfolio, the Total Return Portfolio, the Fixed Income Portfolio, and the Short Term Government Portfolio (the "Portfolios") are seeking the relief requested in the application.

2. CVC is a registered investment adviser under the Investment Advisers Act of 1940. It is an indirect wholly-owned subsidiary of IASD Health Services Corp. ("IASD"), which provides health insurance in the states of Iowa and South Dakota. IMG also is a registered investment adviser. The Fund has entered into an investment management agreement with CVC and a subadvisory agreement with IMG pursuant to which CVC and IMG will provide investment advisory services to the Fund. In addition, CVC will act as administrator to the Fund. IFS is a wholly-owned subsidiary of IMG and serves as principal underwriter for the Fund.

3. Applicants request that any relief granted in accordance with this application apply to any open-end management investment company that is advised by CVC that (a) hereafter becomes part of the same "group of investment companies" as that term is defined in rule 11a–3 under the Act, and (b) issues and sells two classes of shares with characteristics that are identical to the shares described in the application.

4. Applicants propose to offer two classes of shares for each Portfolio designated, respectively, as "Initial Shares" and "Select Shares." Initial Shares will be subject to a CDSC, and a rule 12b–1 distribution fee based on an annual rate of .50% of the average daily net assets of the Initial Shares. Initial Shares will be offered to the general public.

5. Select Shares, which will not be subject to a distribution fee, only will be available to the general public through conversion from Initial Shares, except in certain limited situations. Select Shares will be directly issued to only the following: Officers, trustees, directors and employees (including retirees) of the Fund, CVC, IMG, IFS, IASD and any subsidiary of IASD, for themselves or their spouses, children or parents; to registered representatives and employees of broker-dealers having selling group agreements with IFS; officers, directors and employees of service agents of the Fund, for themselves or their spouses or dependent children; to employees (including their spouses and dependent children) of banks and other financial services firms that provide administration services related to order placement and payment to facilitate transactions in shares of the Fund for their clients pursuant to a written agreement with IFS; to investment advisory clients of CVC or IMG; to any trust or pension, profit sharing or other benefit plan for any of such foregoing persons; in connection with the acquisition of the assets of or merger or consolidation with another investment company; and to shareholders in connection with the investment or reinvestment of income and capital gain dividends on Select Shares. All persons eligible to purchase Select Shares will not be permitted to purchase Initial Shares.

6. Each class of shares will represent interests in the same HP LaserJet III HPLASIII.PRSny shareholder meetings held solely to vote on matters concerning the rule 12b–1 plan ("12b–1 Plan Meeting Expenses"); (b) shareholders of the Initial Shares will have exclusive voting rights with respect to the rule 12b–1 plan; and (c) only the Initial Shares will have a conversion feature providing for the automatic conversion to Select Shares eight years after their issuance.

7. Under the Fund's rule 12b–1 plan for the Initial Shares, the Fund will be paying an annual rule 12b–1 fee to compensate IFS for payments made by IFS to various parties in connection with sale of the Initial Shares. A shareholder services plan will be adopted under which all Portfolios will pay a fee to CVC at the annual rate of .25% of average daily net assets of each Portfolio for various shareholder services. CVC will provide the various shareholder services or will contract with other financial services firms for the services. Only expenditures properly attributable to the sale or servicing of the Initial Shares will be used to justify any distribution or servicing fee charged to such class. Expenditures not related to the sale or servicing of a particular class will not be presented to the directors of the Fund to justify any fee attributable to that class under the rule 12b–1 plan or shareholder services plan.

8. Initial Shares, including shares attributable thereto that are purchased through the reinvestment of dividends and distributions, automatically will convert to Select Shares eight years after the Initial Shares are acquired. The purpose of the conversion feature is to relieve holders of the Initial Shares from the distribution fee when the Initial Shares have been outstanding long enough for IFS to have been compensated for distribution related expenses. The conversion of the Initial Shares to Select Shares may be subject to the continuing availability of an opinion of counsel, or other assurances acceptable to the Fund's board of directors, that (i) the assessment of the rule 12b–1 fee as to the Initial Shares and not the Select Shares does not result in the Fund's dividends constituting "preferential dividends" under the Internal Revenue Code of 1986, as amended, and (ii) the conversion of shares does not constitute a taxable event under the current federal income tax law. In the event that the conversion of Initial Shares does not occur, the Initial Shares would continue to be subject to the rule 12b–1 fee.

9. The net asset value will be calculated separately for each class of shares because each class will have different expenses. The net asset value of all outstanding Initial Shares and Select Shares representing interests in the same Portfolio will be calculated in the same manner, on the same day and at the same time. The net asset value for each class of shares will be calculated by dividing the ending total net assets applicable to a class by the number of shares outstanding of each class. Any difference between the net asset values of the Initial Shares and the Select Shares will be the result of the daily expense accruals of the rule 12b–1 fee and any 12b–1 Plan Meeting Expenses regarding the Initial Shares.

B. The CDSC

1. Applicants also propose that the Fund be permitted to assess a CDSC on redemptions of Initial Shares and to waive the CDSC under certain circumstances. Applicants plan to impose a CDSC of 4% declining to 0% of the original purchase price of only the Initial Shares redeemed in the first six years after the acceptance of a purchase order by the Fund.

2. The CDSC will not be imposed on any amount in the shareholder's account that represents an increase in the value of shares due to capital appreciation, or on shares purchased through the reinvestment of dividends or capital gains distributions. In determining the applicability and rate of any CDSC, it will be assumed that a redemption is made first of shares representing capital appreciation, next of shares representing reinvestment of dividends and capital gains, and finally of other shares held by the shareholder in the order purchased. This will result in the charge, if any, being imposed at the lowest possible amount.

3. Applicants also proposed to waive the CDSC (i) in the event of the total disability (as evidenced by a determination by the Social Security Administration) of a shareholder after purchase of the shares sought to be redeemed; (ii) in the event of the death of a shareholder; and (iii) in the case of redemptions made pursuant to a systematic withdrawal plan. Additionally, the CDSC will be waived in the case of redemptions held by employer sponsored benefit plans for (a) redemptions to satisfy participant loan advances; (b) redemptions in connection with retirement distributions as defined in the employer's plan (limited at any one time to 10% of the total value of plan assets invested in the Fund); (c) redemptions in connection with distributions qualifying under the hardship provisions of the Internal Revenue Code; (d) redemptions representing returns of excess contributions to such plans or to satisfy anti-discrimination tests, and (e) participant terminations upon certification from the plan trustee or its representatives.

Applicants' Legal Analysis

A. The Dual Class Arrangement

1. Applicants request an exemption under section 6(c) to the extent that the proposed issuance and sale of Initial Shares and Select Shares might be deemed (a) to result in the issuance of a "senior security" within the meaning of section 18(g) and thus be prohibited by section 18(f), and (b) to violate the equal voting provisions of section 18(i). Section 18(f)(1) provides in relevant part that it shall be unlawful for any registered open-end company to issue any class of senior security or to sell any senior security of which it is the issuer, and section 18(g) defines a "senior security" as any stock of a class having priority over any other class as to distribution of assets or payment of dividends. Section 18(i) provides in relevant part that every share of stock issued by a registered management company shall be a voting stock and have equal voting rights with every other outstanding voting stock.

2. The creation of Initial Shares and Select Shares may result in shares of a class having priority over another class as to payment of dividends because under the proposed arrangement the holders of Initial Shares will pay a distribution fee and the Select Shares will not. In addition, the creation of the two classes may result in the shares of a class having unequal voting rights because the Initial Shares would be entitled to exclusive voting rights with respect to the matters concerning their rule 12b–1 plan.

3. Section 6(c) provides in part that, upon application, the SEC may conditionally exempt any class of transactions from the provisions of the Act to the extent the exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicants believe that the requested exemption from section 18 meets the standards of section 6(c).

4. Applicants believe that the proposed allocation of expenses and voting rights relating to the rule 12b–1 plan is equitable and would not discriminate against any group of shareholders. While holders of Initial Shares would bear the distribution fee and 12b–1 Plan Meeting Expenses, they also would enjoy exclusive shareholder voting rights as to matters affecting the rule 12b–1 Plan. Because of the conversion feature, shareholders of Initial Shares will be relieved of these incremental expenses after a specified period of time. Moreover, because the rights and privileges of the two classes of shares are substantially identical, the possibility that their interests would ever conflict would be remove and, in any event, the interests of holders of the Initial Shares would be adequately protected.

5. The Fund is aware of the need for full disclosure in the Fund's prospectus (and to the extent necessary, the statement of additional information) of the differences between the Initial Shares and Select Shares. Financial information regarding the two classes of shares, including the per share table in the Fund's prospectus (and statement of additional information where applicable) based on actual operations will disclose the difference in expenses, CDSCs and exchange and reinvestment privileges applicable to the two classes of shares.

6. Applicants believe that the arrangement does not raise any of the legislative concerns that section 18 was designed to ameliorate. Mutuality of risk will exist as to both the Initial Shares and Select Shares insofar as each class of a Portfolio will represent, on a per share basis, an equal *pro rata* interest in the same investment portfolio and will be subject to the same investment risk as the other class of shares of the same Portfolio. Furthermore, no class of shares will have any preference or priority over any other class in the Portfolio in the usual sense (that is, no class will have distribution or liquidation preferences as to particular assets and no class will be protected by any reserve or other account).

B. The CDSC

1. Applicants also request an exemption under section 6(c) from section 2(a)(32), 2(a)(35), 22(c), and 22(d) and rule 22c–1 thereunder to the extent necessary to permit the Fund to assess a CDSC on certain redemptions of Initial Shares and to waive the CDSC in certain circumstances.

2. Section 2(a)(32) defines a "redeemable security" as any security, other than short-term paper, under the terms of which the holder, upon its presentation to the issuer is entitled to receive approximately his or her proportionate share of the issuer's current net assets, or the cash equivalent thereof. In addition, section 5(a)(1) defines as "open-end company," in relevant part, as a management company that offers for sale any redeemable security of which it is the issuer. To avoid any question regarding whether the CDSC would cause shares of any Fund not to be "redeemable securities," thereby jeopardizing the Fund's status as an open-end management company, applicants seek relief from section 2(a)(32) to the extent necessary to impose the CDSC.

3. Section 2(a)(35) defines the term "sales load" as the difference between the price of a security to the public and that portion of the proceeds from the sale of a security that is received and invested or held for investment by the issuer. Applicants believe that the CDSC is consistent with the intent of the

VOL 58 ISS 81 AP 29 1993 UMI

section 2(a)(35) definition to describe charges used to pay for sales of an investment company's shares. Nevertheless, because the timing of the deduction might be deemed to take the CDSC outside the definition of sales charge, applicants seek an exemption from section 2(a)(35) to the extent necessary to implement the CDSC.

4. Section 22(c) and rule 22c–1 thereunder require a registered investment company issuing redeemable securities to redeem those securities at a price based on the current net asset value of the securities that is next computed after receipt of the tender of the securities for redemption. When a redemption of Fund shares subject to the CDSC is effected, the price of the shares on redemption will be based on their current net asset value. The CDSC merely will be deducted from the redemption proceeds in arriving at the shareholder's net proceeds payable on redemption. However, to avoid any question about whether such a redemption would be at a price based on current net asset value, applicants seek relief from section 22(c) and rule 22c–1 to the extent necessary to permit the implementation of the CDSC.

5. Section 22(d) prohibits a registered investment company from selling its redeemable securities other than at a current public offering price described in the company's prospectus. Rule 22d–1 exempts an investment company from the provisions of section 22(d) to the extent necessary to permit the sale of those securities to particular classes of investors or in various kinds of transactions at prices that reflect scheduled variations in, or elimination of, the sales load. The requested exemptive relief would be consistent with the policies underlying rule 22d–1 because the Funds will disclose fully the CDSC and associated waivers in their prospectus. Applicants seek an exemption from section 22(d) to the extent necessary to implement the CDSC and waivers thereof as described above.

Applicants' Conditions

Applicants agree that the order granting the requested relief shall be subject to the following conditions:

A. Conditions Relating to the Dual Class Arrangement

1. Each class of shares (Initial or Select) will represent interests in the same portfolio of investments of the Fund and be identical in all respects, except as set forth below. The only differences between the classes of shares of the Fund will relate solely to: (a) The impact of the fees that will be charged to the Initial Shares under the rule 12b–1 plan; (b) the expenses of any shareholder meetings held solely to vote on matters concerning the rule 12b–1 plan that will be charged to the Initial Shares; (c) the fact that only the shareholders of the Initial Shares will vote on the Fund's rule 12b–1 distribution plan; (d) the fact that only the Initial Shares will have a conversion feature; and (e) the designation of each class of shares of the Fund.

2. The directors of the Fund, including a majority of the independent directors, will have approved the dual class structure. The minutes of the meetings of the directors of the Fund regarding the deliberations of the directors with respect to the approvals necessary to implement the dual class structure will reflect the reasons for the directors' determination that the proposed dual class structure is in the best interests of both the Fund and its shareholders.

3. On an ongoing basis the directors of the Fund, pursuant to their fiduciary responsibilities under the Act and otherwise, will monitor the Fund for the existence of any material conflicts between the interests of the two classes of shares. The directors, including a majority of the independent directors, shall take such action as is reasonably necessary to eliminate any such conflicts that may develop. CVC, IMG and IFS will be responsible for reporting any potential or existing conflicts to the directors. If a conflict arises CVC, IMG and IFS at their own cost will remedy such conflict up to and including establishing a new registered management investment company.

4. The conditions pursuant to which the exemptive order is granted and the duties and responsibilities of the directors of the Fund as to the dual class structure will be set forth in guidelines that will be furnished to the directors.

5. The shareholder services plan will be adopted in accordance with the procedures set forth in rule 12b–1 (b) through (f) as if the expenditures made thereunder were subject to rule 12b–1, except that shareholders will not enjoy the voting rights specified in rule 12b–1.

6. The directors of the Fund will receive quarterly and annual statements concerning distribution and shareholder servicing expenditures complying with paragraph (b)(3)(ii) of rule 12b–1, as it may be amended from time to time. In the statements, only expenditures properly attributable to the sale or servicing of a particular class of shares will be used to justify any distribution or servicing fee charged to that class. Expenditures not related to the sale or servicing of a particular class will not be presented to the directors to justify any fee attributable to that class. The statements, including the allocations upon which they are based, will be subject to the review and approval of the independent directors in the exercise of their fiduciary duties.

7. Dividends paid by a Portfolio with respect to its Initial and Select Shares, to the extent any dividends are paid, will be calculated in the same manner, at the same time, on the same day, and will be in the same amount, except that the distribution fee paid under the 12b-1 plan relating to Initial Shares and any 12b-1 plan Meeting Expenses will be borne exclusively by the Initial Shares.

8. The methodology and procedures for calculating the net asset value and dividends and distributions of the two classes and the proper allocation of expenses between the two classes has been reviewed by an expert (the "Expert") who has rendered a report to applicants that such methodology and procedures are adequate to ensure that such calculations and allocations would be made in an appropriate manner. On an ongoing basis the Expert, or an appropriate substitute Expert, will monitor the manner in which the calculations and allocations are being made and, based upon such review, will render at least annually a report to the Fund that the calculations and allocations are being made properly. The reports of the Expert shall be filed as a part of the periodic reports filed with the SEC pursuant to sections 30(a) and 30(b)(1) of the Act. The workpapers of the Expert with respect to such reports, following request by the Fund (which the Fund agrees to provide), will be available for inspection by the SEC staff upon the written request to the Fund by an authorized staff member. Authorized staff members would be limited to the Director of the Division of Investment Management, an Associate Director, the Chief Accountant, the Chief Financial Analyst, an Assistant Director and any Regional Administrator or an Associate or Assistant Regional Administrator. The initial report of the Expert is a "Special Purpose" report on the "Design of a System" as defined and described in Statement of Accounting Standards No. 44 of the American Institute of Certified Public Accounts ("AICPA"), and the ongoing reports filed subsequent to March 31, 1993, shall be "Reports on Policies and Procedures Placed in Operation" and "Tests of Operating Effectiveness" as defined and described in SAS 70 of AICPA, as it may be amended from time to time, or in similar auditing standards as may be adopted by the AICPA from time to time.

9. Applicants have adequate facilities in place to ensure implementation of the methodology and procedures for calculating the net asset values and dividends and distributions of the two classes of shares and the proper allocation of expenses between the two classes of shares; and this representation will have been concurred with by the Expert in the report referred to in Condition 8 above and will be concurred with by the Expert, or an appropriate substitute Expert, on an ongoing basis at least annually in the ongoing reports referred to in condition 8 above. Applicants agree to take immediate corrective measures if this representation is not concurred in by the Expert or appropriate substitute Expert.

10. The prospectus of the Fund will contain a statement to the effect that a salesperson and any other person entitled to receive compensation for selling or servicing Fund shares may receive different compensation with respect to one particular class of shares over another in the Fund.

11. IFS will adopt compliance standards as to when each class of shares may appropriately be sold to particular investors. Applicants will require all persons selling shares of the Fund to agree to conform to such standards. Such standards will require that all persons eligible to purchase Select Shares will be sold only Select Shares.

12. Initial Shares will convert into Select Shares on the basis of the relative net asset values of the two classes without the imposition of any sales load, fee or other charge to the shareholder. After conversion, the converted shares will be subject to an asset-based sales charge and/or service fee (as those terms are defined in Article III, Section 26 of the NASD's Rules of Fair Practice), if any, that in the aggregate are lower than the asset-based sales charge and service fee to which they were subject prior to the conversion.

13. The Fund will disclose the respective expenses, performance data, distribution arrangements, services, fees, sales loads, deferred sales loads, and exchange privileges applicable to each class of shares in every prospectus, regardless of whether all classes of shares are offered through each prospectus. The Fund will disclose the respective expenses and performance data applicable to all classes of shares in every shareholder report. The shareholder reports will contain, in the statement of assets and liabilities and statement of operations, information related to the Portfolio as a whole generally and not on a per class basis. Each Portfolio's per share data, however, will be prepared on a per class basis with respect to all classes of shares of such Portfolio. To the extent any advertisement or sales literature describes the expenses or performance data applicable to any class of shares, it will also disclose the respective expenses and/or performance data applicable to all classes of shares. The information provided by applicants for publication in any newspaper or similar listing of the Fund's net asset value and public offering price will present each class of shares separately.

14. If the Fund implements any rule 12b–1 plan for the Select Shares (or, if presented to shareholders, adopts or implements any amendment of a non-rule 12b–1 shareholder services plan that would increase materially the amount that may be borne by the Select Shares), existing Initial Shares will stop converting into Select Shares unless the shareholders holding Initial Shares, voting separately as a class, approve the proposal. The directors shall take such action as is necessary to ensure that existing Initial Shares are exchanged or converted into a new class of shares ("New Select Shares"), identical in all material respects to Select Shares existing prior to implementation of the proposal, no later than the date such shares previously were scheduled to convert into Select Shares. If deemed advisable by the directors to implement the foregoing, such action may include the exchange of all existing Initial Shares for a new class ("New Initial Shares"), identical to existing Initial Shares in all material respects except that New Initial Shares will convert into New Select Shares. New Select Shares or New Initial Shares may be created without further exemptive relief. Exchanges or conversions described in this condition shall be effected in any manner that the directors reasonably believe will not subject the Fund or shareholders to federal taxation. In accordance with condition 3 hereof, any additional cost associated with the creation, exchange or conversion of New Select Shares or New Initial Shares shall be borne solely by IMG, CVC and IFS. Initial Shares sold after the implementation of the proposal may convert into Select Shares subject to the higher maximum payment under the plans, provided that the material features of the Select Shares plan and the relationship of such plan to the Initial Shares are disclosed in an effective registration statement.

15. Applicants acknowledge that the grant of the exemptive order requested by this application will not imply SEC approval, authorization or acquiescence in any particular level of payments that the Fund may make pursuant to the 12b–1 plan or shareholder services plan in reliance on the exemptive order.

B. Condition Reloting to the CDSC

Applicants will comply with the provisions of proposed rule 6c–10 under the Act, Investment Company Release No. 16619 (November 2, 1988), as such rule is currently proposed and as it may be reproposed, adopted or amended.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #2639]

New York; Declaration of Disaster Loan Area

Cayuga County and the contiguous counties of Cortland, Onondaga, Oswego, Seneca, Tompkins, and Wayne in New York constitute a disaster area as a result of damages caused by flooding which began on April 2, 1993. Applications for loans for physical damage may be filed until the close of business on June 21, 1993 and for economic injury until the close of business on January 21, 1994 at the address listed below: U.S. Small Business Administration, Disaster Area 1 Office, 360 Rainbow Blvd. South, 3rd Floor, Niagara Falls, NY 14303, or other locally announced locations.

The interest rates are:

	Percent
For Physical Damage:	
Homeowners with credit available elsewhere	8.000
Homeowners without credit available elsewhere	4.000
Businesses with credit available elsewhere	8.000
Businesses and non-profit organizations without credit available elsewhere	4.000
Others (including non-profit organizations) with credit available elsewhere	7.625
For Economic Injury:	
Businesses and small agricultural cooperatives without credit available elsewhere	4.000

VOL 58 ISS 81 AP 29 1993 UMI

The number assigned to this disaster for physical damage is 263906 and for economic injury the number is 789000.

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008)

Dated: April 21, 1993.

DEPARTMENT OF STATE

[Public Notice 1796]

U.S. Organizations for the International Radio Consultative Committee (CCIR) and International Telegraph and Telephone Committee (CCITT); Meeting

The Department of State announces that the U.S. Organizations for the International Radio Consultative Committee (CCIR National Committee) and International Telegraph and Telephone Consultative Committee (CCITT National Committee) will hold a joint open meeting, May 21, 1993, in room 2925D (East Auditorium), at the Department of State, 2201 C Street NW., Washington, DC from 1:30–5 p.m.

Further, at 9:30 a.m., the two U.S. National Committees will hold separate open meetings—the CCIR sesion taking place in room 1107 and the CCITT meeting being convened in room 1408.

The CCIR and CCITT are permanent organs of the International Telecommunication Union (ITU), a specialized agency of the United Nations, established by the International Telecommunication Convention.

The agenda for the Joint U.S. meeting will consist of discussions relating to ITU development issues and a review of issues on the agenda of the June 4, Joint Meeting of the CCIR Ad Hoc Advisory Group and the new Telecommunication Standardization Advisory Group (TSAG). The primary agenda issue concerns the allocation of work between the Radiocommunication Sector (previously the CCIR) and the Telecommunication Standardization Sector (previously the CCITT). The agenda for the separate National Committee meetings will be devoted to preparations for the respective Advisory Committee meetings also scheduled during June.

Entrance to the Department of State is controlled but can be facilitated by making attendance arrangements in advance. Persons planning to attend the meeting should so advise this office at: (202) 647–0201 (fax (202) 647–7407), no later than two days before the meeting. Notification should include name, date of birth and Social Security number. All attendees must use the C Street entrance.

Dated: April 9, 1993.

Warren G. Richards,

Chairman, U.S. CCIR National Committee.

Earl S. Barbely,

Chairman, U.S. CCITT National Committee.

BILLING CODE 4710–45–M

Bureau of Politico-Military Affairs

[Public Notice 1795]

Suspension of Munitions Export Licenses to Zaire

AGENCY: Department of State.

ACTION: Public notice.

SUMMARY: Notice is hereby given that all licenses and other approvals to export or otherwise transfer defense articles or defense services to Zaire are suspended until further notice pursuant to Sections 2, 38 and 42 of the Arms Export Control Act.

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: David Shapiro, Office of Defense Trade Policy, Bureau of Political-Military Affairs, U.S. Department of State (202–647–4231).

SUPPLEMENTARY INFORMATION: Effective immediately, it is the policy of the U.S. Government to deny all applications for licenses and other approvals to export or otherwise transfer defense articles and defense services to Zaire. In addition, U.S. manufacturers and exporters and any other affected parties are hereby notified that the Department of State has suspended all previously issued licenses and approvals authorizing the export or other transfer of defense articles or defense services to Zaire. This action has been taken in view of the violence and death fueled by the actions of the regime of President Mobutu.

The licenses and approvals that have been suspended include any manufacturing licenses, technical assistance agreements, technical data, and commercial military exports of any kind subject to the Arms Export Control Act involving Zaire. This action also precludes the use in connection with Zaire of any exemptions from licensing or other approval requirements included in the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120–130).

This action has been taken pursuant to Sections 2, 38 and 42 of the Arms Export Control Act (22 U.S.C. 2752, 2778, and 2791) and § 126.7 of the ITAR in furtherance of the foreign policy of the United States.

In accordance with §§ 126.3 and 126.7 of the ITAR, affected persons desiring review of this decision with regard to a particular export may petition the Director, Office of Defense Trade Controls. Exceptions to this policy will be considered on a case-by-case basis.

Dated: April 19, 1993.

Robert L. Gallucci,

Assistant Secretary, Bureau of Political-Military Affairs, Department of State.

BILLING CODE 4710–25–M

Bureau of Administration

[Public Notice 1794]

Public Information Collection Requirement Submitted to OMB for Review

AGENCY: Department of State.

ACTION: The Department of State has resubmitted the following public information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1980, 44 U.S.C. chapter 35.

SUMMARY: Sections 207, 208, and 601 of Public Law 99–440, as amended, the Comprehensive Anti-Apartheid Act of 1986 (CAAA), require certain United States nationals operating businesses in South Africa to adhere to fair labor principles. The regulations implementing the CAAA (22 CFR parts 60–65) establish mechanisms whereby U.S. nationals meeting certain criteria must register with and unless they are bona fide participants in the signatory companies reporting and implementing system, make annual reports to the Department of State. The information collection submitted for review seeks reinstatement of the questionnaire developed to enable registered firms to describe their implementation of Fair Labor Principles. The following summarizes the information collection proposal submitted to OMB:

Type of request—Reinstatment.
Originating office—Bureau of African Affairs.
Title of information collection—South Africa and Fair Labor Standards Questionnaire.
Frequency—Annual.
Respondents—U.S. firms operating in South Africa.
Estimated number of respondents—27.
Average hours per response—30–40 hours.
Total estimated burden hours—1060–1330.

Existing rule containing this collection of information was published in the **Federal Register** on December 31, 1985 (50 FR 53308).

ADDITIONAL INFORMATION OR COMMENTS: Copies of the proposed forms and supporting documents may be obtained from Gail J. Cook, (202) 647–3538. Comments and questions should be directed to (OMB) Jefferson B. Hill, (202) 395–7340.

Dated: April 16, 1993.

Jerome F. Tolson, Jr.,

Acting Assistant Secretary for Administration.

[FR Doc. 92–9968 Filed 4–28–93; 8:45 am]

BILLING CODE 4710–24–M

Oceans and Fisheries Affairs

[Public Notice 1793]

Exporter's Declaration and Government Certification

SUMMARY: Notice is given of the intention of the United States to require that an Exporter's Declaration and Government Certification accompany certain shipments of shrimp from countries whose exports of shrimp to the United States would otherwise be banned under section 609 of Public Law 101–162. A copy of the Exporter's Declaration and Government Certification appears at the end of this notice

EFFECTIVE DATE: May 1, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. Bill Gibbons-Fly, Office of Fisheries Affairs, Bureau of Oceans and International Environmental and Scientific Affairs, Department of State, Washington, DC 20520–7818. Telephone: (202) 647–3940.

Definitions: The following definitions shall apply to terms used in this notice and in the Exporter's Declaration and Government Certification:

"Harvester" means the owner or operator of an aquaculture facility at which the shrimp in a particular shipment is raised and harvested; or, in the case of shrimp harvested in the ocean by a fishing vessel, the owner or operator of the harvesting vessel.

"Exporter" means the individual or company in the harvesting country who controls the shipment at the time it leaves the customs territory of the harvesting country. The exporter may or may not be the same individual or company as the harvester.

"Harvesting country" means either (1) the country in which the exported shrimp is raised in an aquaculture facility; or (2) the country into whose customs territory the shrimp is landed from a commercial fishing vessel, whether or not the flag of such vessel is the same as that of the country in which the shrimp is harvested and landed.

"Aquaculture" means the process of raising shrimp for harvest in large ponds where the shrimp spend at least 60 days in such ponds prior to being harvested.

SUPPLEMENTARY INFORMATION: Section 609 of Public Law 101–162 provides that shrimp harvested with technology that may adversely affect certain sea turtles may not be imported into the United States unless the President certifies to Congress by May 1, 1991, and annually thereafter, that the harvesting country has adopted a regulatory program to reduce the incidental capture of sea turtles in commercial shrimp trawl fisheries comparable to the program in effect in the United States. The President has delegated the authority for making the certification to the Department of State (Memorandum of December 19, 1990; 56 FR 357, January 4, 1991). Revised guidelines for making that certification were published by the Department of State in the **Federal Register** on February 18, 1993 (58 FR 9015).

Those guidelines provide, *inter alia*, that any ban on imports shall not apply to: (1) Harvested shrimp raised in an aquaculture facility from a country otherwise under embargo, since the harvesting of such shrimp does not pose a threat to sea turtles; and (2) shrimp harvested in waters beyond the geographic scope of section 609 of Public Law 101–162, *i.e.*, outside the Gulf of Mexico, the Caribbean or the western Atlantic Ocean, by a country otherwise under embargo.

As a result, some shipments of shrimp from a country whose shrimp is otherwise banned from import into the United States under section 609 of Public Law 101–162 will be admitted for entry into the United States, provided that, in addition to meeting all other applicable requirements for entry: (1) The shrimp was not harvested in the Gulf of Mexico, the Caribbean or western Atlantic Ocean but was instead harvested either in the Pacific Ocean or raised in an aquaculture facility; and (2) the import documents accompanying any such shipment include a completed Exporter's Declaration and Government Certification.

The Exporter's Declaration and Government Certification will require the following specific information: the harvesting country; the name and address of the harvester, the name and address of the exporter, and the name and address of the final consignee; applicable harmonized tariff schedule number; total weight, number of units (boxes/cases), and the species name of the shrimp in the shipment accompanying the form. In addition, the Exporter's Declaration and Government Certification will require that the exporter, the harvester and a responsible government official of the harvesting country each certify that the shrimp in

VOL 58 ISS 81 AP 29 1993 UMI

the relevant shipment was not harvested in the Caribbean, Gulf of Mexico, or western Atlantic but instead was either: (1) Harvested from an aquaculture facility; or (2) harvested in the Pacific Ocean. The certifying official of the exporting country may be any official designated by the government of the exporting nation for this purpose. However, any official so designated must be employed on a full time basis by the government of the exporting country. Such Government may not delegate the authority to certify the forms to a representative of the private sector or to a part-time government employee.

The Exporter's Declaration and Government Certification will only be required for shrimp imports from countries whose shrimp is otherwise banned from importation into the United States under section 609 of Public Law 101–162, and only while such ban is in effect. The Exporter's Declaration and Government Certification will be required for shipments exported from the embargoed countries on or after May 1, 1993, that include any products classifiable as follows (harmonized tariff systems (HTS) codes are specified):

Frozen shrimp and prawns: 0306.13.00
Shrimp and Prawns, not frozen:
0306.23.00
Shrimp and prawn products: 1605.20.05
Other prepared shrimp and prawns:
1605.20.10

The countries whose exports of shrimp will be subject to this entry requirement will be listed in the Federal Register on or about May 1, 1993. Those countries will be notified in advance. Shipments whose date of importation into the United States is on or after May 1, 1993, will be allowed entry without the Exporter's Declaration and Government Certification, provided that the import documents clearly show that the recorded date of export was prior to May 1, 1993. The exporter's Declaration and Government Certification will be available from all U.S. Embassies and Consulates in any country whose shrimp imports into the United States are otherwise prohibited under section 609 of Public Law 101–162. Three copies of the Exporter's Declaration and Government Certification must accompany each shipment. The Exporter's Declaration and Government Certification may be photocopied, but each user must ensure that any copy accompanying a shipment is clearly legible. Illegible copies will not be accepted.

As this notice makes clear, the Exporter's Declaration and Government Certification has been created to provide for the entry of shrimp into the United States from countries whose shrimp exports would otherwise be banned under section 609 of Public Law 101–162. As such, it is intended to mitigate the adverse economic impact on harvesters and exporters whose product is beyond the intended scope of any such ban. However, if falsification of the Exporter's Declaration and Government Certification or other abuses of this mechanism are determined to impair the ability of the Government to implement fully and effectively any ban required under section 609 of Public Law 101–162, the United States Government reserves the right to revoke the use of this form and to ban all shrimp imports into the United States from a harvesting nation otherwise under embargo.

Classification: As a matter relating to the foreign affairs function, this notice is exempt from the notice, comment, and delayed effectiveness provisions of the Administrative Procedures Act. This action is exempt from Executive Order 12291, and is not subject to the requirements of the Regulatory Flexibility Act.

Dated: April 16, 1993.

David A. Colson,

Deputy Assistant Secretary Oceans and Fisheries.

BILLING CODE 4710-09-M

U.S. DEPARTMENT OF STATE

OMB APPROVAL NO. 1405–0095
EXPIRATION DATE: 4–30–96
ESTIMATED BURDEN: 30 minutes*

EXPORTER'S DECLARATION AND GOVERNMENT CERTIFICATION

1. HARVESTING COUNTRY	2. HARVESTER *(Name and address)*
3. EXPORTER *(Name and address)*	4. FINAL CONSIGNEE *(Name and address)*

5. DESCRIPTION OF PRODUCT

U.S. Tariff Schedule Number	Number of Units	Weight in Kilograms	Species *(Scientific name)*

6 HARVESTER'S AND EXPORTER'S DECLARATION *(To be signed by a responsible agent of both the harvester and the exporter of the product.)*

I hereby declare that the shipment of shrimp accompanying this declaration was not harvested in the waters of the Gulf of Mexico, the Caribbean or the western Atlantic Ocean but instead was *(check one)*:

☐ Harvested from the aquaculture facility listed in block 2 above, where the shrimp spent at least 60 days in ponds at that facility prior to being harvested; or

☐ Harvested by a commercial shrimp trawl vessel operating exclusively in the Pacific Ocean owned and/or operated by the individual or company listed in block 2 above.

HARVESTER *(Name and title)*	ADDRESS / TELEX / FAX	SIGNATURE	DATE
EXPORTER *(Name and title)*	ADDRESS / TELEX / FAX	SIGNATURE	DATE

7 GOVERNMENT CERTIFICATION *(To be signed by a responsible Government official of the harvesting nation)*

I hereby declare that the statements signed above by the harvester and exporter of this shipment of shrimp are true and accurate to the best of my knowledge.

NAME, AGENCY, TITLE	ADDRESS / TELEX / FAX	SIGNATURE	DATE

THIS FORM MUST ACCOMPANY ALL SHIPMENTS OF SHRIMP FROM ANY COUNTRY WHOSE IMPORTS OF SHRIMP INTO THE UNITED STATES WOULD OTHERWISE BE PROHIBITED UNDER SECTION 609 OF PUBLIC LAW 101–162.

VOL 58 ISS 81 AP 29 1993 UMI

Office of Defense Trade Controls

[Public Notice 1798]

Statutory Debarment Under the International Traffic in Arms Regulations

AGENCY: Office of Defense Trade Controls, Department of State.

ACTION: Notice.

SUMMARY: Notice is hereby given that Delft Instruments', N.V., The Netherlands (Delft), defense related entities have been statutorily debarred pursuant to § 127.6(c) of the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120–130).

EFFECTIVE DATE: July 17, 1992.

FOR FURTHER INFORMATION CONTACT: Clyde G. Bryant Jr., Chief, Compliance Analysis Division, Office of Defense Trade Controls, Department of State (703–875–6650).

SUPPLEMENTARY INFORMATION: Section 38(g)(4)(A) of the Arms Export Control Act (AECA) prohibits the issuance of export licenses to a person, or any party to the export, who has been convicted of violating certain U.S. criminal statutes, including the AECA. The term "person," as defined in § 120.16 of the ITAR, means a natural person as well as a corporation, business association, partnership, society, trust, or any other entity, organization or group, including governmental entities. The ITAR, specifically § 126.7(e), defines the term "party to the export" to include the president, the chief executive officer, and other senior officers of the applicant; the freight forwarders or designated exporting agent of the applicant; and any consignee or end-user of any item to be exported. The statute permits certain limited exceptions to this prohibition to be made on a case-by-case basis. 22 U.S.C. 2778(g)(4).

The ITAR authorizes the Assistant Secretary of State for Political-Military Affairs to prohibit certain persons convicted of violating, or conspiring to violate, the AECA from participating directly or indirectly in the export of defense articles or in the furnishing of defense services. Such a prohibition is referred to as a "statutory debarment," which may be imposed on the basis of judicial proceedings that resulted in a conviction for violating, or of conspiring to violate, the AECA. 22 CFR 127.6(c).

Statutory debarment is based upon a conviction in a criminal proceeding conducted by a United States court. Thus, the administrative debarment procedures outlined in the ITAR, 22 CFR part 128, are not applicable in such cases.

Under the AECA, section 38(g)(4)(A), and the ITAR, § 127.8, the Assistant Secretary for Political-Military Affairs has statutorily debarred Delft's defense related entities based on its July 17, 1992, conviction of conspiring to violate and violating the AECA in the U.S. District Court for the District of Columbia.

Pursuant to a Consent Agreement, between Delft Instruments, N.V. (Delft) and the Department of State, and an Order signed by the Assistant Secretary of State for Politico-Military Affairs, Delft's period of debarment is three years with two years suspended starting from the date of conviction, July 17, 1992. Licensing privileges may be reinstated at the request of the debarred company following the necessary interagency consultations, after a thorough review of the circumstances surrounding the conviction and a finding that appropriate steps have been taken to mitigate any law enforcement concerns, as required by section 38(g)(4) of the AECA.

The Consent Agreement provides that the Department of State will give due consideration to applications for licenses or requests for approvals where the foreign end-user is identified as, and is determined to be, the Ministry of Defense of the Government of the Netherlands, the Ministry of Defense of the Government of Belgium, programs of the North Atlantic Treaty Organization (NATO), Ministries of Defense of the foreign governments that are members of NATO, and previously approved transactions that expired during the suspension period (January 25, 1991—July 16, 1992).

Pursuant to § 127.6(c) of the ITAR, the specific defense related entities within Delft noted herein, are being published in the **Federal Register**. Anyone who requires additional information to determine whether a person or company has been debarred should contact the Office of Defense Trade Controls.

In accordance with these authorities the following defense related entities within Delft Instruments, N.V. are debarred for a period of three years, with two years suspended, following Delft Instruments, N.V.'s conviction for conspiring to violate and violating § 38 of the AECA: Delft Instruments Defense, BV, Netherlands; Delft Instruments Electro-Optics, BV, (DIEO), Netherlands; Oldelft Electronic Instruments, Srl, Italy; Instrubel, NV, Belgium; Franke Systemtechnik, GmbH, Germany; OIP, NV, Belgium; and the defense related activities of BV Delft Electronische Producten, (DEP), Netherlands. Note that DEP is eligible to receive United States-origin defense articles covered by Category XII(e) and (f) of the U.S. Munitions List, 22 CFR 121.1, for civil applications.

This notice involves a foreign affairs function of the United States encompassed within the meaning of the military and foreign affairs exclusion of the Administrative Procedure Act. Because the exercising of this foreign affairs function is discretionary, it is excluded from review under the Administrative Procedure Act.

Dated: April 19, 1993.

William B. Robinson,

Director, Office of Defense Trade Controls, Department of State.

BILLING CODE 4710–25–M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Scenic Byways Advisory Committee; Public Meeting

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of public meeting.

SUMMARY: The FHWA announces a meeting of the Scenic Byways Advisory Committee, as authorized by the Scenic Byways Program (section 1047 of the Intermodal Surface Transportation Efficiency Act of 1991; Pub. L. 102–240, 105 Stat. 1914, 2068). The focus of the meeting will be to review the recommendations regarding minimum criteria and standards for use by State and Federal agencies in designating highways as Scenic Byways and all-American roads for the purpose of a national scenic byways program. Discussion topics as developed by the Committee will include: (1) Program structure recommendations; (2) funding structure recommendations; (3) designation process recommendations; (4) designation criteria recommendations; (5) documentation recommendations; and (6) incentive program recommendations.

DATES: The meeting will be June 2, 1993, 8:30 a.m. to 5 p.m., and June 3, 1993, 8:30 a.m. to 5 p.m. The meeting is open to the public.

ADDRESSES: The meeting will be held at Department of Transportation, 400 7th Street, SW., Conference Room 2230, NASSIF Building, Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: Mr. Eugene Johnson, Federal Highway Administration, Intermodal Planning Division, HEP–50, Room 3222, 400 Seventh St., SW., Washington, DC 20590, (202) 366–0150. Office hours are 7:30 a.m. to 4 p.m., e.t., Monday through Friday, except legal holidays.

Authority: 23 U.S.C. 315; 49 CFR 1.48; Sec. 1047, Pub. L. 102–240, 105 Stat. 1914, 1996.

Issued on: April 22, 1993.

E. Dean Carlson,

Executive Director.

[FR Doc. 93–10083 Filed 4–28–93; 8:45 am]

BILLING CODE 4910–22–P

Federal Transit Administration

Environmental Impact Statement on the Mission Valley East Light Rail Project in San Diego County, CA

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Federal Transit Administration (FTA), and the San Diego Metropolitan Transit Development Board (MTDB) intend to prepare an Environmental Impact Statement (EIS) in accordance with the National Environmental Policy Act (NEPA) on the proposed extension of light rail transit service in the Mission Valley East corridor. Mass transit improvements would occur from the Mission Valley West Light Rail Transit (LRT) alignment terminus near Interstate-15 to the Grossmont Station on the existing San Diego East LRT Line. MTDB, as local lead agency, will ensure that the EIS also satisfies the requirements of the California Environmental Quality Act (CEQA) and serves as the Environmental Impact Report (EIR) required by CEQA. In addition to two LRT alignments, the EIS/EIR will evaluate the No-Action and the Best Bus alternatives and any new alternatives generated through the scoping process. Scoping will be accompanied through correspondence with interested persons, organizations, and federal, state, and local agencies and through two public meetings.

DATES: *Comment Due Date:* Written comments on the scope of alternatives and impacts to be considered should be sent to MTDB by June 18, 1993. *Scoping Meetings:* Public scoping meetings will be held on Wednesday, May 19, 1993 at 3 p.m. in the MTD Board of Directors Room and at 7 p.m. at Lewis Junior High School. See **ADDRESSES** below.

ADDRESSES: *Written comments* on project scope should be sent to Ms. Toni Bates, Project Manager, MTDB, 1255 Imperial Avenue, Suite 1000, San Diego, CA 92101. *Scoping meetings* will be held at the following locations.

1. Wednesday, May 19, 1993—3 p.m., MTDB Board of Directors Room, 1255 Imperial Avenue, 10th Floor, San Diego, CA 92101
2. Wednesday, May 19, 1993—7 p.m., Lewis Junior High School, 5170 Greenbrier Avenue, San Diego, CA 92120.

FOR FURTHER INFORMATION CONTACT: Mr. Robert E. Hom, Director, Office of Program Development, Federal Transit Administration, Region 9, (415) 744–3116.

SUPPLEMENTARY INFORMATION:

I. Scoping

FTA and MTDB invite interested individuals, organizations and federal, state, and local agencies to participate in defining the alternatives to be evaluated in the EIS/EIR and identifying any significant social, economic, or environmental issues related to the alternatives. An information packet describing the purpose of the project, the proposed alternatives, the impact areas to be evaluated, the citizen involvement program, and the preliminary project schedule is being mailed to affected federal, state, and local agencies and to interested parties on record. Others may request the scoping materials by contacting Ms. Toni Bates at MTDB at the address above or by calling at (619) 231–1466. Scoping comments may be made verbally at either of the public scoping meetings or in writing. See the **DATES** and **ADDRESSES** sections above for locations and times. During scoping, comments should focus on identifying specific social, economic, or environmental impacts to be evaluated and suggesting alternatives which are less costly or less environmentally damaging while achieving similar transit objectives. Scoping is not the appropriate time to indicate a preference for a particular alternative. Comments on preferences should be communicated after the Draft EIS/EIR has been completed. If you wish to be placed on the mailing list to receive further information as the project develops, contact Ms. Toni Bates at MTDB as previously described.

II. Description of Study Area and Project Need

The Mission Valley East Corridor extends between I–15 and La Mesa generally along I–8. The corridor includes the San Diego communities of Grantville, Navajo, the San Diego State University (SDSU) campus, the College Area, and the City of La Mesa. The corridor roadways, especially I–8, experience substantial congestion for east/west travel during peak periods and throughout the day. Through travel is oriented to the commute patterns of east county residents into Mission Valley, Kearny Mesa, and Centre City San Diego. Travel within the corridor is composed of SDSU employees and students and corridor residents travelling to work or commercial areas. The proposed Mission Valley East project would improve transit accessibility through Mission Valley and compete a link of the regional LRT network. MTDB is presently doing Final Engineering and permitting on the Mission Valley West corridor from I–15 west to Old Town. The Mission Valley East project should improve regional air quality by providing an alternative to the automobile in the I–8 corridor, particularly to San Diego State University.

III. Alternatives

The alternatives proposed for evaluation include: No-Action which involves no change to transportation services or facilities in the corridor beyond already committed projects, the Best Bus which consists of supplementing and reconfiguring bus services and facilities to provide additional travel opportunities, including express/limited service and other improvements to the bus system to optimize service, and, two LRT alignments would be analyzed. The LRT alignments parallel I–8 with one option through the Grantville area and two options at San Diego State University, one on the north side of campus and one in a tunnel near the south side of campus. Bus service in either alternative would be realigned to feed the LRT. An extensive screening process has already evaluated and eliminated several other alignment variations as described in the information packet.

IV. Probable Effects

FTA and MTDB plan to evaluate the EIS/EIR all social, economic and environmental impacts of the alternatives. Among the primary issues are the expected increase in transit ridership, the capital outlays needed to construct the project, the cost of operating and maintaining the facilities created by the project, and the financial impacts on the funding agencies. Environmental and social impacts proposed for analysis include land use and neighborhood impacts, traffic and parking impacts near stations, visual impacts, impacts on cultural resources, and noise and vibration impacts. Impacts on natural areas, rare and

VOL 58 ISS 81 AP 29 1993 UMI

endangered species, air and water quality, groundwater and geologic forms will also be covered. Impacts will be evaluated both for the construction period and for the long-term period of operation. Measures to mitigate adverse impacts will be explored.

V. FTA Procedures

In accordance with the Federal Trade Act, as amended, and FTA policy, the Draft EIS/EIR will be prepared in conjunction with an Alternative Analysis, and the Final EIS/EIR in conjunction with Preliminary Engineering. After its publication, the Draft EIS/EIR will be available for the public and agency review and comment, and a public hearing will be held. On the basis of the Draft EIS/EIR and the comments received, MTDB will select a locally preferred alternative and seek approval from FTA to continue with Preliminary Engineering and preparation of the Final EIS/EIR.

Issued on April 23, 1993.

Stewart F. Taylor,

Regional Administration.

BILLING CODE 4910–57–M

National Highway Traffic Safety Administration

Highway Safety Programs; Amendment of Conforming Products List of Calibrating Units for Breath Alcohol Testers

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice.

SUMMARY: This notice amends the Conforming Products List for instruments which have been found to conform to the Model Specifications for Calibrating Units for Breath Alcohol Testing (49 FR 48865).

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Mrs. Robin Mayer, Office of Alcohol and State Programs, NTS–21, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590; Telephone: (202) 366–9825.

SUPPLEMENTARY INFORMATION: On August 19, 1975, (40 FR 36167), the National Highway Traffic Safety Administration (NHTSA) published the Standards for Calibrating Units for Breath Alcohol Testers. A Qualified Products List of Calibrating Units for Breath Alcohol Testers, of devices which met this standard, was first issued on November 30, 1976, (41 FR 53384). On December 14, 1984, (49 FR 48864), NHTSA converted this standard to Model Specifications for Calibrating Units for Breath Alcohol Testers, and published in Appendix B (49 FR 48872), a Conforming Products List (CPL) of calibrating units which were found to conform to the Model Specifications. Amendments to the CPL have been published in the **Federal Register** since that time.

Since the last publication of the CPL for calibrating units, one device, U.S. Alcohol Testing of America, Inc., Alco-Simulator 2000 was evaluated and found to meet the requirements of the specifications. In addition, the Intoximeters, Inc., Nalco Breath Alcohol Standard has been redesignated as Alco Breath Alcohol Standard. This is a name change only, and retesting of this device is not required.

The Conforming Products List is therefore amended to read as follows:

Conforming Products List of Calibrating Units for Breath Alcohol Testers (Manufacturer and Calibrating Unit)

1. Century Systems, Inc., Arkansas City, KA: Breath Alcohol Simulator BAS311.

2. CMI, Inc., Owensboro, KY: Toxitest II.

3. Federal Signal Corporation, CMI, Inc., Minturn, CO: Toxitest Model ABS 120.

4. Guth Laboratories, Inc., Harrisburg, PA: Model 34C Simulator; Model 34C Cal DOJ; Model 34C–FM; Model 34C–NPAS; and Model 10–4.

5. Intoximeters, Inc., St. Louis, MO: Alco Breath Alcohol Standard.

6. Luckey Laboratories, Inc., San Bernardino, CA: Simulator.

7. PLD of Florida, Inc., Rockledge, FL: BA 500.

8. Protection Devices, Inc./U.S. Alcohol Testing, Inc., Rancho Cucamonga, CA: LS34 Model 6100.

9. Smith & Wesson Electronic Co., Springfield, MA: Mark II–A Simulator.

10. Systems Innovation, Inc., Hallstead, PA: True-Test MD 901.

11. U.S. Alcohol Testing, Inc., Rancho Cucamonga, CA: Alco-Simulator 2000.

(23 U.S.C. 402; delegations of authority at 49 CFR 1.50 and 501.8)

Michael B. Brownlee,

Associate Administrator for Traffic Safety Programs.

[FR Doc. 93–10011 Filed 4–28–93; 9:34 am]

BILLING CODE 4910–59–M

Highway Safety Program; Amendment of Conforming Products List of Evidential Breath Testing Devices

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice.

SUMMARY: This notice amends the Conforming Products List for instruments that conform to the Model Specifications for Evidential Breath Testing Devices (49 FR 48854).

EFFECTIVE DATE: April 29, 1993.

FOR FURTHER INFORMATION CONTACT: Mrs. Robin Mayer, Office of Alcohol and State Programs, NTS–21, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590; Telephone: (202) 366–9825.

SUPPLEMENTARY INFORMATION: On November 5, 1973, the National Highway Traffic Safety Administration (NHTSA) published the Standards for Devices to Measure Breath Alcohol (38 FR 30459). A Qualified Products List of Evidential Breath Measurement Devices comprised of instruments that met this standard was first issued on November 21, 1974, (39 FR 41399).

On December 14, 1984 (49 FR 48854), NHTSA converted this standard to Model Specifications for Evidential Breath Testing Devices, and published in Appendix D to that notice (49 FR 48864), a Conforming Products List (CPL) of instruments that were found to conform to the Model Specifications. Amendments to the CPL have been published in the **Federal Register** since that time.

Since the last publication of the CPL, two devices were evaluated and found to meet specifications for mobile and non-mobile evidential breath test devices: CMI, Inc., Intoxilyzer 5000 with cooled detector; and CMI, Inc., Intoxilyzer 200. In addition, U.S. Alcohol Testing Inc./Protection Devices, has relocated to Rancho Cucamonga, CA. This change is noted on the Conforming Products List.

The Conforming Products List is therefore amended to read as follows:

Michael B. Brownlee,

Associate Administrator for Traffic Safety Programs.

[FR Doc. 93-9977 Filed 4-26-93; 9:33 am]

BILLING CODE 4910-59-M

[Docket No. 93-29; Notice 1]

Am-Safe, Inc., Receipt of Petition for Determination of Inconsequential Noncompliance

Am-Safe, Inc. (Am-Safe) of Phoenix, Arizona, has determined that some of its replacement seat belt assemblies fail to comply with 49 CFR 571.209, Federal Motor Vehicle Safety Standard (FMVSS) No. 209, "Seat Belt Assemblies," and has filed an appropriate report pursuant to 49 CFR part 573. Am-Safe has also petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) on the basis that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition is published under Section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Between January 1985 and the present, Am-Safe produced and distributed approximately 100,000 replacement seat belts which did not include the installation and maintenance instructions required by Standard No. 209.

Standard No. 209, Section S4.1(k) requires that "[a] seat belt assembly or retractor shall be accompanied by an instruction sheet providing sufficient information for installing the assembly in a motor vehicle except for a seat belt assembly installed in a motor vehicle by an automobile manufacturer. The installation instructions shall state whether the assembly is for universal installation or for installation only in specifically stated motor vehicles * * *." In addition, Section S4.1(l) requires that "[a] seat belt assembly or retractor shall be accompanied by written instructions for the proper use of the assembly, stressing particularly the importance of wearing the assembly snugly and properly located on the body, and on the maintenance of the assembly and periodic inspection of all components. The instructions shall show the proper manner of threading webbing in the hardware of seat belt assemblies in which the webbing is not permanently fastened."

Am-Safe supports its petition for inconsequential noncompliance with the following:

No evidence of incorrectly installed seat belts

[Am-Safe believes] the simplistic mounting design of these seat belts make it improbable that any incorrect installations exist. Am-Safe, Inc. is unaware of any suggestions or allegations, in regards to motor vehicle safety, from seat belts that were incorrectly installed.

Am-Safe sophisticoted part numbering system

Seat belts are identified by a nine or ten digit part number. A typical seat belt part number is 502293-401-6. The 502293 defines the basic belt configuration such as a retractable or non-retractable lap belt. The -401 specifies the dimensions of [the] web and component cover lengths. The -6 is the color code when applicable. Permanently affixed labels have pertinent information to ensure the proper seat belt is ordered for replacement. This label includes the part number, manufacturing date, and name and phone number of the manufacturer. This accurate numbering system can be confidently used for proper seat belt replacement.

Simple installotion procedures

The seat belts in question are attached to the vehicle anchorage holes with existing mounting hardware. These assemblies require only one bolt for attachment of the buckle half and one bolt for the attachment of the connector half. To accomplish the installation of a replacement seat belt, the existing seat belt must first be removed from the vehicle. These steps are then reversed for proper installation of the replacement seat belt. The majority of these replacements are performed by individuals acquainted with seat belt installation, i.e.; seat manufacturers, transit bus operators, and associated companies [which] perform seat belt installation on a regular basis. In addition, the design and construction characteristics of these seat belts reflect universal practices of operation and maintenance procedures.

Conclusion

There is no evidence that any of the subject seat belts are incorrectly installed. These seat belts have been installed and are currently in service without incident making a recall impractical. The complex part numbering system used by Am-Safe, Inc. leaves little chance for error when ordering a replacement seat belt. In the majority of cases, installation was performed by companies with experienced [personnel] familiar with correct procedures. [In i]nstances where seat belts are knowingly distributed to the general public, Am-Safe, Inc. has always supplied appropriate instructions. [As a] result of this noncompliance, Am-Safe, Inc. now includes these instructions with all seat belts unless otherwise instructed by the vehicle manufacturers. In conclusion, Am-Safe, Inc. believes that lack of instructions for seat belts that are currently in service is inconsequential as it relates to motor vehicle safety.

Interested persons are invited to submit written data, views, and arguments on the petition of Am-Safe, described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that six copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, the notice will be published in the **Federal Register** pursuant to the authority indicated below.

Comment closing date: June 1, 1993.

(15 U.S.C. 1417; delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on: April 23, 1993.

Barry Felrice,

Associate Administrator for Rulemaking.

BILLING CODE 4910-59-M

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review

April 23, 1993.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 3171 Treasury Annex, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Internal Revenue Service

OMB Number: 1545-0172.
Form Number: IRS Form 4562.
Type of Review: Revision.
Title: Depreciation and Amortization (Including Information on Listed Property).
Description: Taxpayers use Form 4562 to: (1) claim a deduction for depreciation and/or amortization; (2) make a section 179 election to expense depreciable assets, and (3) answer questions regarding the use of automobiles and other listed property to substantiate the business use under section 274(d).
Respondents: Individuals or households, Farms, Businesses or other for-profit, Non-profit institutions, Small businesses or organizations.
Estimated Number of Respondents/ Recordkeepers: 11,500,000.
Estimated Burden Hours Per Respondent/Recordkeeper:
Recordkeeping—38 hours, 35 minutes
Learning about the law or the form—4 hours, 10 minutes
Preparing and sending the form to the IRS—4 hours, 57 minutes
Frequency of Response: Annually.
Estimated Total Reporting Burden: 495,627,500 hours.
Clearance Officer: Garrick Shear (202) 622-3869, Internal Revenue Service, room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224.
OMB Reviewer: Milo Sunderhauf (202) 395-6880, Office of Management and Budget, Room 3001, New Executive Office Building, Washington, DC 20503.

Sunshine Act Meetings

Federal Register
Vol. 58, No. 81
Thursday, April 29, 1993

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FARM CREDIT ADMINISTRATION

Farm Credit Administration Board; Special Meeting

SUMMARY: Notice is hereby given, pursuant to the Government in the Sunshine Act (5 U.S.C. 552b(e)(3)), that the May 13, 1993 regular meeting of the Farm Credit Administration Board (Board) will not be held and that a special meeting of the Board is scheduled for Tuesday, May 4, 1993.

DATE AND TIME: The special meeting of the Board will be held at the offices of the Farm Credit Administration in McLean, Virginia, on May 4, 1993, from 10 a.m. until such time as the Board may conclude its business.

FOR FURTHER INFORMATION CONTACT: Curtis M. Anderson, Secretary to the Farm Credit Administration Board, (703) 883–4003, TDD (703) 883–4444.

ADDRESS: Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102–5090.

SUPPLEMENTARY INFORMATION: Parts of this meeting of the Board will be open to the public (limited space available), and parts of this meeting will be closed to the public. The matters to be considered at the meeting are:

OPEN SESSION

A. *Approval of Minutes*
B. *New Business*
1. *Regulations*
a. Accounting and Report Requirements—High-Risk Assets (Proposed)
b. Disclosure to Shareholders—Director Certification of Quarterly Reports (Final)

Closed Session *

A. *New Business*
1. *Enforcement Actions*

Date: April 27, 1993.

Curtis M. Anderson,

Secretary, Farm Credit Administration Board.

*Session Closed—Exempt pursuant to 5 U.S.C. 552b(c) (8), (9) and (10).

BILLING CODE 6705–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 10:00 a.m. on Tuesday, May 4, 1993, to consider the following matters:

Summary Agenda

No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Reports of actions approved by the standing committees of the Corporation and by officers of the Corporation pursuant to authority delegated by the Board of Directors.

Memorandum re: Final amendments to Part 353 of the Corporation's rules and regulations, entitled "Reports of Apparent Crimes Affecting Insured Nonmember Banks," which implement new procedures for completion and submission of the uniform multi-agency criminal referral form designed to facilitate financial institutions' compliance with criminal activity reporting requirements and enhance law enforcement agencies' ability to investigate the matters reported in criminal referrals.

Discussion Agenda

Memorandum and resolution re: Final amendments to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," which (1) eliminates section 329.3 that prescribes the rules governing advertisements of insured State nonmember banks and have it superseded by Regulation DD which has been enacted by the Board of Governors of the Federal Reserve System to implement the requirements of the Truth in Savings Act; and (2) withdraws the Corporation's Statement of Policy entitled "Information Regarding Computation of Interest and Dividends on Deposits," and General Counsel's Opinion No. 1, "Advertising of Interest or Dividends on Deposits," which will likewise be superseded upon the effective date of Regulation DD.

Memorandum and resolution re: Final amendments to the Corporation's rules and regulations in the form of a new Part 363 regarding independent annual audits and reporting requirements.

Memorandum and resolution re: Provisions on Contractor Fitness and Integrity and Statement of Policy on Contracting with Outside Firms.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, NW., Washington, DC.

The FDIC will provide attendees with auxiliary aids (e.g., sign language interpretation) required for this meeting. Those attendees needing such assistance should call (202) 898–6745 (Voice); (202) 898–3509 (TTY), to make necessary arrangements.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 898–6757.

Dated: April 27, 1993.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714–01–M

FEDERAL ELECTION COMMISSION

DATE AND TIME: Tuesday, May 4, 1993 at 10 a.m.

PLACE: 999 E Street, NW., Washington, DC.

STATUS: This meeting will be closed to the public.

ITEMS TO BE DISCUSSED:

Compliance matters pursuant to 2 U.S.C. § 437g.

Audits conducted pursuant to 2 U.S.C. § 437g, § 438(b), and Title 26, U.S.C.

Matters concerning participation in civil actions or proceedings or arbitration.

Internal personnel rules and procedures or matters affecting a particular employee.

DATE AND TIME: Thursday, May 6, 1993 at 10 a.m.

PLACE: 999 E Street, NW., Washington, DC (Ninth Floor).

STATUS: This meeting will be open to the public.

ITEMS TO BE DISCUSSED:

Correction and Approval of Minutes.

Advisory Opinion 1993–6: J. Breck Tostevin of Citizens for Congressman Panetta (continued from meeting of April 22, 1993).

Report from FEC Office of Personnel.

Administrative Matters.

PERSON TO CONTACT FOR INFORMATION: Mr. Fred Eiland, Press Officer, Telephone: (202) 219–4155.

Delores Hardy,

Administrative Assistant.

BILLING CODE 6715–01–M

NUCLEAR REGULATORY COMMISSION

DATES: Weeks of April 26, May 3, 10, and 17, 1993.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of April 26

Friday, April 30

2:00 p.m.
Affirmation/Discussion and Vote (Public Meeting)
a. Final Amendments to 10 CFR Parts 26, 70, and 73 to Establish Fitness-for-Duty Requirements for Licensees Authorized to Possess, Use, or Transport Formula Quantities of Strategic Special Nuclear Material (Tentative) (Postponed from 4/22) (Contact: Stanley Turel, 301–492–3739)

Week of May 3—Tentative

Monday, May 3

11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Week of May 10—Tentative

Friday, May 14

9:00 a.m.
Briefing on Options for Addressing Shutdown and Low Power Risk Issues (Public Meeting)
10:30 a.m.
Periodic Meeting with the Advisory Committee on Reactor Safeguards (ACRS) (Public Meeting) (Contact: John Larkins, 301–492–8049)
2:30 p.m.
Briefing on Evolutionary and Advanced Light-Water Reactor Design Issues (Public Meeting) (Contact: Richard Borchardt, 301–504–1193)
4:00 p.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Week of May 17—Tentative

Tuesday, May 17

10:00 a.m.
Briefing on Status of Action Plan for Fuel Cycle Facilities (Public Meeting) (Contact: Ted Sherr, 301-504-3371)
11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)
2:00 p.m.
Briefing on Turkey Point Lessons Learned (Public Meeting) (Contact: Fred Hebdon, 301–504–2024)

Note: Affirmation sessions are initially scheduled and announced to the public on a time-reserved basis. Supplementary notice is provided in accordance with the Sunshine Act as specific items are identified and added to the meeting agenda. If there is no specific subject listed for affirmation, this means that no item has as yet been identified as requiring any Commission vote on this date.

To verify the status of meeting call (Recording)—(301) 504–1292.

CONTACT PERSON FOR MORE INFORMATION: William Hill (301) 504–1661.

William M. Hill, Jr.,

SECY Tracking Officer, Office of the Secretary.

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

[Docket No. HM-206; Notice No. 93-10]

Hazardous Materials Transportation; Registration and Fee Assessment Program

AGENCY: Research and Special Programs Administration (RSPA), DOT.
ACTION: Notice of filing requirements.

SUMMARY: The 1993-94 registration year for the Hazardous Materials Registration Program begins July 1, 1993. This notice is intended to advise persons who offer for transportation or transport certain categories or quantities of hazardous materials of an annual requirement to file a registration statement and pay a fee to the Department of Transportation. In addition, this notice addresses certain recent rulemaking actions that expand the scope of persons subject to the registration requirements.

FOR FURTHER INFORMATION CONTACT: David W. Donaldson, Office of Hazardous Materials Planning and Analysis (202-366-4109), Hazardous Materials Safety, 400 Seventh Street SW., Washington, DC 20590-0001.

SUPPLEMENTARY INFORMATION: A final rule establishing a national registration program was published in the **Federal Register** on July 9, 1992 [57 FR 30620]. The provisions of the final rule and subsequent amendments are contained in the 1992 edition of Title 49, Code of Federal Regulations Part 107 Subpart G. The final rule requires that, after September 15, 1992, each person (as defined in 49 CFR 107.3 and 171.8) who offers for transportation or transports certain categories or quantities of hazardous materials must register annually and pay a fee. Collected fees will be used to fund emergency response planning and training grants to State, local, and Indian tribal governments.

A document revising certain registration requirements was issued on March 5, 1993 [58 FR 12543]. A revision, based on a provision contained in the Pipeline Safety Act of 1992, removed the requirement that persons who offer or transport smaller bulk packagings with capacities of less than 3,500 gallons or 468 cubic feet must register with RSPA after July 1, 1993. In addition, RSPA removed a recordkeeping requirement for persons to retain certain documents proving payment of the registration fee at their principal place of business. A copy of the registration statement and the Certificate of Registration still must be maintained at the principal place of business. Highway carriers also must maintain a copy of the current Certificate of Registration or another document bearing a current registration number on board each truck and truck tractor used to transport hazardous materials subject to the registration requirements.

Persons subject to the registration requirements include those who offer or transport in commerce any of the following materials:

A. Any highway route-controlled quantity of a Class 7 (radioactive) material;

B. More than 25 kilograms (55 pounds) of a Division 1.1, 1.2, or 1.3 (explosive) material in a motor vehicle, rail car, or freight container;

C. More than one liter (1.06 quarts) per package of a material extremely toxic by inhalation (Division 2.3, Hazard Zone A, or Division 6.1, Packing Group I, Hazard Zone A);

D. A hazardous material in a bulk packaging having a capacity equal to or greater than 13,248 liters (3,500 gallons) for liquids or gases or more than 13.24 cubic meters (468 cubic feet) for solids; or

E. A shipment, in other than a bulk packaging, of 2,268 kilograms (5,000 pounds) gross weight or more of a class of hazardous materials for which placarding of a vehicle, rail car, or freight container is required for that class.

Several recent rulemaking actions impose a mandatory compliance date of October 1, 1993. On and after this date, persons offering or transporting certain categories or quantities of materials previously not regulated under the Hazardous Materials Regulations (HMR) may be subject to the registration program. These rulemaking actions include:

A. An interim final rule published on February 2, 1993 [58 FR 6864] under Docket HM-214 designates, as hazardous materials, oils previously not regulated under the HMR. As a result, many offerors and transporters of bulk packagings containing oils, such as animal and vegetable oils, residual fuel oil, and lubricating oil, will be subject to the registration requirements after October 1, 1993.

B. A final rule issued under Docket HM-198A on October 2, 1991 [56 FR 49980] and revised January 8, 1993 [58 FR 3344], requires hazard classification, communication and packaging standards for elevated temperature materials, such as asphalt or molten metals. Persons who offer or transport these materials after October 1, 1993, may need to register because of the quantities being offered or transported.

C. Certain other materials will become subject to the HMR on October 1, 1993, as a result of being identified as a marine pollutant [Docket HM-211; 57 FR 52930, November 5, 1992] or meeting new hazard classification criteria adopted under Docket HM-181 [Performance Packaging Standards; 55 FR 52402, December 21, 1990].

Copies of these documents may be obtained by contacting the RSPA Dockets Unit (DHM-30), U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590-0001 [202-366-4511].

A formal interpretation relating to the registration requirements and clarifying the terms "offeror" and "transporter" was published on October 28, 1992 (57 FR 48739).

The 1993-94 registration year will begin July 1, 1993, and end June 30, 1994. Any person who engages in any of the specified activities during that period must file a registration statement for the 1993-94 registration year and pay the $300 fee by July 1, 1993, or before engaging in any covered activity, whichever is later.

RSPA strongly encourages persons subject to the registration requirements to register well in advance of the July 1, 1993, deadline. This will ensure timely receipt of a valid 1993-94 registration number to comply with recordkeeping requirements. A Certificate of Registration is generally mailed within three weeks of RSPA's receipt of a registration statement.

The registration statement has been revised to reflect amendments to the registration requirements and to collect certain information that more clearly characterizes the registrants' activities relating to the transportation of hazardous materials. Registrants are urged to use the revised registration statement to avoid submitting additional information at a later time. The revised registration statement, indicating a March 1993 revision date, is printed as an appendix to this notice and may be reproduced for use. Copies of the revised registration statement may be obtained by contacting the Office of Hazardous Materials Planning and Analysis (DHM-60), Hazardous Materials Safety, 400 Seventh Street SW., Washington, DC 20590-0001 (202-366-4109).

In April 1993, RSPA will mail a revised registration statement form and an informational brochure to all persons who registered for the 1992-93 registration year. This mailing will be addressed to the principal place of business indicated on the 1992-93

statement and to the attention of the person who signed that statement.

Any person who has engaged in a specified activity since September 16, 1992, but has not registered for the 1992-93 registration year, may be subject to civil penalties for each day a covered function is performed. The legal obligation to register for a year in which any specified activity was conducted does not end with the registration year. Registration after the completion of a registration year may also involve the imposition of interest, late-payment penalties, and administrative charges, in addition to a civil penalty.

Dated: April 21, 1993.

Alan I. Roberts,

Associate Administrator for Hazardous Materials Safety.

Cardholder acknowledges ordering goods or services in the amount of the total shown hereon and agrees to perform the obligations set forth in the Cardholder's agreement with the issuer. Credit card statement will list this payment as "US DOT Hazmat Regis."

NOTE. If completing an Expedited Registration, **do not** resubmit credit card information here.

Form DOT F 5800.2 (Revised 03/93) THIS FORM MAY BE REPRODUCED

7. PRIOR-YEAR SURVEY INFORMATION: Hazardous Materials Activities, and States in Which Activity was Conducted. Indicate those activities conducted by the registrant during the previous calendar year (e.g., 1992 for the 1993-94 Registration Year). Mark "A" through "E," as appropriate, to indicate the category or categories and the activity or activities (shipper, carrier, or other) in which the registrant acted. Check all categories and activities that apply. "Other" may be checked to indicate offeror activities not covered under the heading of shipper or carrier, such as freight forwarder or agent. Carriers should circle all states in which they operated as a hazardous materials carrier. Shippers and others engaged in offering hazardous materials should circle only those states from which they offered hazardous materials. They do not need to indicate to or through which states shipments were sent. A list of the states and their abbreviations appears in the accompanying brochure. Circle "48 Contiguous States," if appropriate, to indicate that the activity was conducted in all of the 48 contiguous states. If the registrant did not engage in activities covered by "A" through "E" during the previous year, but plans to do so in the current registration year, mark only "F."

A. ____ Offered or transported in commerce any highway route-controlled quantity of a Class 7 (radioactive) material.

DEPARTMENT OF DEFENSE

Department of the Army

33 CFR Part 334

Restricted Area in the Kuluk Bay Near Adak, Alaska

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Interim final rule.

SUMMARY: The U.S. Army Corps of Engineers is amending the regulations in 33 CFR 334.1320 to correct errors in the coordinates which established a restricted area in the waters of Kuluk Bay, Adak, Alaska. The area encompassed by the coordinates in 33 CFR 334.1320 does not exactly agree with the location of submarine cables the area was designed to protect. The regulations presently prohibit anchoring and the dredging of anchors within the restricted area, except in great emergency. Due to the possibility of damage to the existing submarine cables, fishing and trawling are also prohibited within the restricted area. This amendment is being published as an interim final rule with the opportunity for comment to coincide with the publication of a public notice concurrently being published by the Alaska District Engineer.

DATES: Interim Final Rule effective on April 29, 1993. Written comments must be received on or before June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Ms. Mary Weger at (907) 753–2716 or Mr. Ralph Eppard at (202) 272–1783.

SUPPLEMENTARY INFORMATION: The Commander, U.S. Navy Undersea Surveillance, U.S. Pacific Fleet, Pearl Harbor, Hawaii, has requested that the Corps amend the regulations in 33 CFR 334.1320, which established a naval restricted area in Kuluk Bay, near Adak, Alaska, (NOAA Nautical Chart No. 16475). The purpose of the amendment is to correct the coordinates which define the restricted area boundaries. The corrections will expand the area approximately 1.3 nautical miles east, and the northern boundary approximately 1/2 nautical mile north. These amendments also include placing a restriction on fishing and trawling activities, in addition to anchoring and dragging of anchors, as currently stated in the regulations. The naval restricted area regulations in 33 CFR 334.1320 were established in 1963 and last amended in 1977. Kuluk Bay, on the northeast side of Adak Island, Alaska, is about 4 miles long and 4 miles wide, and is one of the best natural harbors in the Aleutians. It is entered between Zeto Point on the north and Thunder Point on the south, and includes Kuluk Bay proper, Clam Lagoon, Sweeper Cove, Finger Bay, and Scabbard Bay. Tidal currents in the bay are weak and the flow appears to depend mainly upon the winds.

A notice of proposed rulemaking (NPRM) soliciting comments on these amendments was published in the **Federal Register** on February 2, 1993, with the comment period expiring on March 4, 1993. No comments were received. However, it was the Alaska District's intent to concurrently publish a public notice which would have been sent directly to Federal, State and local governments, navigation interests, fisheries and in general, all known interested parties. Due to a communication problem, the District was not aware of the date of publication of the NPRM and the public notice was not issued. In order to assure that all parties have had the opportunity to review these changes to the restricted area, the District is now publishing these proposed changes in a district public notice. This interim final rule is made effective on the date of publication in the **Federal Register** due to the existing potential for damage to Government-owned property in the area. We will, however, consider any comments or objections submitted and make any changes to the regulations we determine to be appropriate. It should be noted that it will be necessary to disestablish an explosives anchorage area, which is within the expanded boundary of the restricted area. Changes to the regulations (if any) which establish the explosives anchorage area is solely the responsibility of the U.S. Coast Guard. We have been informed that the Coast Guard has no objection to the elimination of the explosives anchorage area within the boundaries of the expanded naval restricted area. Accordingly, we will formally request that the Coast Guard take appropriate action to disestablish the explosives anchorage area.

Economic Assessment and Certification

This rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12291 do not apply. These rules have been reviewed under the Regulatory Flexibility Act (Pub. L. 96–354), which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small businesses (i.e., small businesses and small government jurisdictions.) It has been determined that this rule will not have a significant economic impact on a substantial number of small entities and that preparation of a regulatory flexibility analysis is not warranted.

List of Subjects in 33 CFR Part 334

Navigation (water), Transportation, Danger zones. In consideration of the above, the Corps is amending part 334 of title 33 to read as follows:

PART 334—DANGER ZONE AND RESTRICTED AREA REGULATIONS

1. The authority citation for part 334 continues to read as follows:

Authority: 40 Stat. 266; (33 U.S.C. 1) and 40 Stat. 892; (33 U.S.C. 3)

2. Section 334.1320 is revised to read as follows:

§ 334.1320 Kuluk Bay, Adak, Alaska; naval restricted area.

(a) *The area.* The northwest portion of Kuluk Bay bounded as follows: Beginning on shore at latitude 51° 55′ 00″ N, longitude 176° 33′ 09″ W; thence due east to latitude 51° 55′ 00″ N, longitude 176° 33′ 09″ W; thence due south to latitude 51° 51′ 55″ N longitude 176° 31′ 09″ W; thence due west to the shore at latitude 51° 51′ 00″ N, longitude 176° 37′ 43″ W; thence along the shoreline to the point of beginning.

(b) *The regulations.* (1) Except in great emergency, no vessel shall anchor in the restricted area described above.

(2) The dragging of anchors in or across the restricted area is prohibited and no object attached to a vessel shall be placed on or near the bottom.

(3) Fishing and trawling activities in the restricted area are prohibited.

(4) The regulation of this restricted area shall be enforced by the Commander, Patrol Wing, U.S. Pacific Fleet, Naval Air Station Moffett Field, California, and such agencies and he/she may designate.

Stanley G. Genega,

Brigadier General (P), USA Director of Civil Works.

HOME Investment Partnerships Program

AGENCY: Office of the Secretary, HUD.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend the existing interim rule for the HOME Investment Partnerships Program by implementing amendments enacted by the Housing and Community Development Act of 1992.

DATES: Comment due date: Comments on this proposed rule must be submitted on or before June 1, 1993.

ADDRESSES: Interested persons are invited to submit comments regarding this proposed rule to the Rules Docket Clerk, Office of General Counsel, room 10278, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410. Communications should refer to the above docket number and title. A copy of each communication submitted will be available for public inspection and copying between 7:30 a.m. and 5:30 p.m. weekdays at the above address. Faxed comments will not be accepted.

FOR FURTHER INFORMATION CONTACT: Mary Kolesar, Director, Program Policy Division, Office of Affordable Housing Programs, 451 Seventh Street SW., Washington, DC 20410, telephone (202) 708-2470, TDD (202) 708-2565. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION:

I. Paperwork Reduction Act Statement

The information collection requirements for the HOME Investment Partnerships Program have been approved by the Office of Management and Budget, under section 3504(h) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501-3520), and assigned OMB control number 2501-0013. This proposed rule does not contain additional information collection requirements.

II. Background

The HOME Investment Partnerships Program (HOME) was enacted under title II (42 U.S.C. 12701-12839) of the Cranston-Gonzalez National Affordable Housing Act (NAHA) (Pub. L. 101-625, approved November 28, 1990). On March 19, 1991, the Department published a proposed rule (56 FR 11592) to implement the HOME Program. The Department received 119 public comments in response to the proposed rule. After reviewing and considering these comments, HUD published an interim rule on December 16, 1991 (56 FR 65313), inviting additional comments on the program.

The Department received 118 public comments on the interim rule. In partial response to these comments and HUD's experience in implementing the program, an interim rule to make necessary changes on an expedited basis to the December 16, 1991 interim rule was developed. In addition, the Housing and Community Development Act of 1992 (HCDA 1992) (Pub. L. 102-550, approved October 28, 1992) included a substantial number of amendments to the HOME program. Some of the HCDA 1992 amendments that were determined to be immediately effective were included in the "necessary changes" interim rule, which was published on December 22, 1992 (57 FR 60960). Additional HCDA amendments determined to be immediately effective will be published in a new interim rule being developed by the Department.

Other HCDA 1992 changes were determined to require the publication of a proposed rule with an opportunity for public notice and comment before they could be implemented. This proposed rule fulfills that requirement. The discussion that follows provides a summary of these proposed HCDA 1992 changes to the HOME interim rule. In addition, this proposed rule would amend the method by which dwelling units are designated and counted as affordable housing units during the period of affordability, as discussed below, in this preamble.

Section 210 of HCDA 1992 amends the matching requirements of the HOME program in a number of ways. Section 210(a)(4) permits match credit for investment in housing that qualifies as affordable housing under the HOME program. Before this amendment, match credit was available only for investment in affordable housing actually assisted with HOME funds, as opposed to investment in housing that would qualify as "affordable" even though it receives no HOME funds. This proposed rule would allow match credit for contributions made with respect to housing that meets the HOME income targeting, rent or homeownership restrictions, and long-term affordability requirements at §§ 92.252 and 92.254. It is not sufficient for match purposes that the contribution be made to an entity that is engaged is developing affordable housing; rather, in every instance, the contribution must be made with regard to a specific project. "Affordable housing" does not include tenant-based rental assistance, and therefore, rental assistance that is not funded with HOME funds is not eligible for this match credit.

To implement the section 210(a)(4) amendment, conforming language changes would be made in §§ 92.218(a) and 92.219(a) to substitute "housing that qualifies as affordable housing under the HOME program" for "affordable housing assistance with HOME funds". Section 92.219 of the HOME rule would be further amended by redesignating paragraph (b) as paragraph (c), and adding a new paragraph (b) to require a written agreement between the participating jurisdiction, or its instrumentality, and the owner of the property to which match contributions are made. All of the affordability requirements from either § 92.252 or 92.254, whichever is applicable, the property standards requirements at § 92.252, and income determinations made in accordance with § 92.203 must be enumerated and imposed in the agreement. This agreement must be executed before the contribution to the housing may be counted for match purposes. The contribution itself may be for any eligible form of match, except those in § 92.220(a) (2) and (4) which, by statute, must be made for affordable housing assisted with HOME funds.

HCDA section 210 also adds as a new form of matching contribution a percentage of the proceeds from certain bond financing and allows the reduction of match requirements for State PJs in fiscal distress by up to 100 percent.

Permitting a percentage of the proceeds from bond financing repayable with revenues derived from a multifamily or single family affordable housing project as an eligible form of match would be implemented by revising § 92.220(a)(5). The current language pertaining to a match for administrative expenses would be deleted, in accordance with HCDA section 207(c) which eliminates administrative expenses as an eligible form of match, and replaced with language permitting a match for up to 50% of the bond proceeds loan amount to a multifamily affordable housing project owner, or up to 25% in the case of a single family project. Funds from both of these sources could not constitute more than 25% of a participating jurisdiction's total annual match contribution. Loans made bond proceeds in excess of 25 percent of a participating jurisdiction's total annual match contribution would not be

eligible match contributions and are not carried over to the following fiscal year as excess match. Section 92.221(b)(6) would be added to specify that if the contribution is made as a loan, the match credit is recognized at the time of the loan closing.

This proposed rule applies the statutory limitation (50% for multifamily housing, 25% for single family housing) to each loan made with bond proceeds rather than to the total bond proceeds for affordable housing. This approach is proposed for several reasons. Although match credit may only be given for loans from bond proceeds to housing that qualifies as affordable housing under the HOME program, the Department believes that the entire bond need not be issued for affordable housing. The Department recognizes that state and local governments issue bonds for housing, only some of which may qualify as affordable housing. (For example, the income limits for a single family housing bond issue may be 120% of median family income; however, many of the loans will be made to families who qualify as low-income families under the HOME program.) The total amount of the bond proceeds that are used for affordable housing will not be know until the entire bond proceeds are committed to specific housing projects.Therefore, instead of waiting until all bond proceeds are committed to affordable housing projects, the regulation gives the match credit (50% or 25%) for each loan to affordable housing. The Department also believes that crediting each loan, rather than determining the total bond proceeds amount committed to affordable housing and tracking each loan against the total amount, is administratively less burdensome for the participating jurisdictions.

HCDA 1992 section 210(c) amended the requirements for permitting a reduction of the match. To implement these amendments, the current match reduction procedures at § 92.222, permitting a percentage reduction of the match over a three year period, would be stricken, and would be replaced by procedures that require the reduction of the match on the basis of the fiscal distress of the PJ, with some variation depending upon whether a State or non-State PJ is involved. The procedures for a PJ other than a State require little or no regulatory elaboration by the Department beyond the language in the statute, and they are being implemented in a separate interim rule, although they are published here to provide for the continuity of the text in the revised § 92.222.

Regarding participating jurisdictions that are States, the statute provides: "In determining the degree to which a jurisdiction that is a State is distressed, the Secretary shall take into consideration the State's fiscal capacity and expenditure needs as determined by a national organization which compiles the relevant data."

In developing criteria to implement this provision, which is being proposed here as new paragraph § 92.222(a)(4), HUD consulted with the Advisory Commission on Intergovernmental Relations (ACIR), which was identified in the Senate Committee Report as the national organization. However, after the Department consulted with ACIR, it was determined that the data compiled by ACIR would not be appropriate for purposes of the statute because they were neither current nor regularly available.

The Department also consulted with the Bureau of the Census, the Bureau of Economic Analysis (BEA) and others with expertise in statistical indicators of fiscal stress; and conducted an empirical analysis of many potential indicators from several different sources. Among the factors examined and rejected were BEA's data series on Gross State Product (GSP), private sector GSP, earned income, and private sector earned income; and ACIR's Representative Tax System. Some of the factors failed to meet the selection criteria of being available from a single source, using a standard methodology, and being available on a timely and regular basis. Other factors had essentially the same results as the factors that were selected and were deemed to be redundant. Based on the foregoing, the Department has concluded:

—A State's fiscal distress may be a chronic condition resulting from long-term structural problems in the State economy, or it may be a short-term cyclical problem associated with recession or other slowing down of economic activity. Both types of fiscal distress ought to be used in considering whether to reduce the HOME match requirements.

—The indicators for chronic problems will be the percentage of families in poverty and per capita income, as determined by the Bureau of the Census. These are the same indicators that are required by the statute to be used to determine the match reduction for local jurisdictions. Furthermore, these same factors are used to determine the "relative fiscal incapacity" of participating jurisdictions under the basic HOME allocation formula.

—The indicator for short-term cyclical problems will be growth in personal income. Quarterly estimates of State and national personal income are prepared by the Bureau of Economic Analysis (BEA). The data are, thus, both timely and regularly available. The definitions underlying the State estimates are essentially the same as those underlying the national estimates of personal income, permitting State and national growth in personal income to be compared. The BEA procedure not only imparts the accuracy of the national totals to the State estimates but also yields an additive system where the State estimates sum to the national total. Estimates are seasonally adjusted at annual rates and are available approximately 90 days after the end of the quarter. For example, the data for the first quarter of 1992 were published in the July issue of the Survey of Current Business. Second quarter data are in the October issue.

Based upon the foregoing, there will be three factors—percentage of families in poverty, per capita income, and change in personal income—that will be used to identify States that are in fiscal distress. If a State has at least 2 of the 3 factors indicating distress, the State will be deemed to be in severe fiscal distress, and its match requirement will be reduced 100%. If any 1 of the 3 factors indicate distress, then the State will be deemed to be in fiscal distress, and its match requirement will be reduced by 50%.

The Department will publish its determinations of severe fiscal distress and fiscal distress, computed as described below, each year. In order to permit the full benefit of the match reduction to be taken into account for planning purposes by States, the reduction will be effective for the fiscal year in which the distress determination is published and for the next fiscal year. A 100% match reduction will, in every instance, be effective for this two year period. However, if in the second year of a 50% match reduction period the published distress determination indicates severe fiscal distress, a two year 100% match reduction period (for the fiscal year in which the determination of severe fiscal distress is made, and for the next fiscal year) becomes immediately effective, superseding the second year of the 50% match reduction.

For the FY 1993 HOME program, 1990 census data will be used to make determinations for the first two factors.

VOL 58 ISS 81 AP 29 1993 UMI

The growth reflected in BEA's State personal income estimates over the most current available four quarters will be used for the third factor. The same qualifying percentages for the first two factors will be applicable to States as provided in HCDA 1992 section 210 for local government participating jurisdictions. A State will meet the first factor if its percent of families in poverty is 125 percent or more of the United States average; and a State will meet the second criterion of distress if its per capita income is less than 75 percent of the United States average. Although the statute requires that the measurements of both poverty rate and per capita income be determined according to data compiled by the Bureau of the Census for the calendar year immediately preceding the jurisdiction's calendar year, these data are not available on such a timely basis. The Department will use the most current available data. A State will meet the slow quarterly personal income growth criterion in this proposed rule if its personal income growth rate is less than 75 percent of the personal income growth rate of the United States average, measured over the most currently available four quarters.

HCDA 1992 section 218 amends the definition of *housing* for purposes of the HOME program to include elder cottage housing opportunity (ECHO) units that are small, free-standing, barrier-free, energy-efficient, removable, and designed to be installed adjacent to an existing single-family dwelling (which will be referred to here as the "host property"). ECHO housing may be manufactured housing, modular housing, or built on site.

In addition to changing the *housing* definition at § 92.2, a new section § 92.259 would be added to subpart F—Project Requirements of the regulation to provide guidance on the use of HOME funds for ECHO housing units. The Department has identified two ECHO housing program models, and will make both options available for the use of HOME funds by participating jurisdictions. In the first model, the PJ may provide assistance directly to homeowners for the purchase and placement of ECHO units (including utility hook-ups) on their property. In this model, the owner of the host property owns the ECHO unit, which must be occupied by an eligible person(s). In the second model, the PJ or a nonprofit organization retains ownership of the ECHO unit(s) and identifies homeowners who provide the host property for the unit, which must be occupied by an eligible person(s).

ECHO housing occupants must meet HOME income targeting requirements, i.e., they must have an annual income at or below 60 percent of the area's median income. In addition, the occupant must qualify as an elderly family as defined in 24 CFR part 812, a regulation which defines terms as given in section 3 of the United States Housing Act of 1937 (1937 Act). This definition includes elderly, handicapped and disabled individuals. The HOME program is required by statute to use the same definition for "families" as is given in section 3 of the 1937 Act, and the Department believes it would be appropriate and consistent to use the 1937 Act definition of "elderly family" for the purpose of determining eligibility for ECHO housing. The Department chose this broader definition of elderly because, in addition to expanding the availability of affordable housing with the advantages of privacy, independence, and proximity of assistance provided by ECHO housing for older persons, it anticipates the need and desired use of these units for handicapped and disabled individuals.

HOME funds for an ECHO unit would only be available on a one-time initial purchase and placement basis, regardless of who (host property owner, PJ or nonprofit) would own it, since the Department wants to maximize the use of HOME funds for the creation of affordable housing units. ECHO unit owners—particularly participating jurisdictions and nonprofit organizations—are encouraged to set aside funds, which may be derived from unit rentals, to cover the expense of maintenance and subsequent removal and relocation of the units. Nonfederal funds used to remove and relocate ECHO units to accommodate eligible tenants would be permissible contributions for purposes of match requirements, and would be added to the list of eligible forms of matching contributions at § 92.220(c).

Because ECHO units are accessory units provided as an independent living space, the proposed rule would allow only one ECHO unit per host property. In addition, all of the project requirements of subpart F would apply, including the rent affordability provisions of § 92.252, and property standards provisions at § 92.251, unless otherwise noted in the proposed rule. Although rent need not be charged, if it is, it must meet HOME rent requirements and be set at the lesser of either the fair market rent (FMR) or 30 percent of 65 percent of median income.

The National Affordable Housing Act of 1990, section 215(a)(1)(E) requires that the housing assisted with HOME funds remain affordable for the "useful life of the property, as determined by the Secretary." The affordability period is to be "the longest feasible period of time consistent with sound economics and the purposes of this Act". For ECHO housing, the Department is proposing to require an affordability period in accordance with the rental housing requirements of § 92.252(a)(5). This means that if the original occupant no longer occupies the unit within the affordability period, the ECHO unit owner would have to either: (1) Rent the unit to another eligible occupant on site; (2) move the ECHO unit to another property for occupancy by an eligible occupant. However, if the owner of the ECHO unit is the host property owner, there is a third option: The participating jurisdiction can recapture the HOME subsidy (or net proceeds) from the host property owner. This flexibility in the applicable affordability provisions will accommodate the institutional and private homeowner use of ECHO units in a manner consistent with the statutory purposes of the HOME program.

The same ECHO housing requirements would be added to subpart M—HOME Funds for Indian Tribes in a new § 92.625.

The Department is also proposing to amend the procedure for housing project owners to designate those units in a property that are the HOME-assisted units. Currently, specific units are designated as the HOME units and that designation is fixed for the term of the affordability period. To provide more program flexibility, the Department is proposing to add new language to §§ 92.255 and 92.256 that would permit project owners to use a system of "floating" units that may be changed over the affordability period, so long as the total number of units remains the same and the substituted units are at least comparable in terms of size, features, and number of bedrooms to the originally designated HOME-assisted units. Comments are specifically solicited on this proposal.

To address a remaining issue arising out of section 220 of HCDA 1992, the Department is planning to publish, in the near future, a separate proposed rule to implement antidisplacement and relocation requirements in accordance with section 104(d) of the Housing and Community Development Act of 1974.

III. Findings and Certifications

Comment Period

The Department has limited the comment period on this proposed rule to 30 days in order to publish as timely as possible an effective rule within the time period specified in section 222 of the Housing and Community Development Act of 1992 (Pub. L. 102–550, approved October 28, 1992).

Environmental Review

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the Rules Docket Clerk at the above address.

Impact on the Economy

Although the HOME Program interim rule was found to be a "major rule" as that term is defined in Section 1(b) of the Executive Order on Federal Regulations issued by the President on February 17, 1981, and a regulatory impact analysis (RIA) was prepared, this amending proposed rule does not constitute a "major rule". Analysis of this proposed rule, which only makes limited adjustments to the interim rule for which a RIA was prepared, indicates that it would not: (1) Have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Impact on Small Entities

In accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), the undersigned hereby certifies that this proposed rule does not have a significant economic impact on a substantial number of small entities, because jurisdictions that are statutorily eligible to receive formula allocations are relatively larger cities, counties or States.

Regulatory Agenda

This proposed rule was listed as item number 1369 in the Department's Semiannual Agenda of Regulations published on November 3, 1992 (57 FR 51392) pursuant to Executive Order 12291 and the Regulatory Flexibility Act.

Federalism Impact

The General Counsel has determined, as the Designated Official for HUD under section 6(a) of Executive Order 12612, *Federalism*, that this proposed rule does not have federalism implications concerning the division of local, State, and federal responsibilities. While the HOME Program interim rule amended by this proposed rule was determined to be a rule with federalism implications and the Department submitted a Federalism Assessment concerning the interim rule to OMB, this proposed rule only makes limited adjustments to the interim rule and does not significantly effect any of the factors considered in the Federalism Assessment for the interim rule.

Impact on the Family

The General Counsel, as the designated official under Executive Order 12606, *The Family*, has determined that this proposed rule would not have significant impact on family formation, maintenance, and general well-being. Assistance provided under this proposed rule can be expected to support family values, by helping families achieve security and independence; by enabling them to live in decent, safe, and sanitary housing; and by giving them the means to live independently in mainstream American society. This proposed rule would not, however, affect the institution of the family, which is requisite to coverage by the Order. Even if this proposed rule had the necessary family impact, it would not be subject to further review under the Order, since the provision of assistance under this proposed rule is required by statute, and is not subject to agency discretion.

The Catalog of Federal Domestic Assistance Number for the HOME Program is 14.239.

List of Subjects in 24 CFR Part 92

Grant programs—housing and community development, Manufactured homes, Rent subsidies, Reporting and recordkeeping requirements.

Accordingly, the Department proposes to amend part 92 of title 24 of the Code of Federal Regulations as follows:

PART 92—HOME INVESTMENT PARTNERSHIPS PROGRAM

1. The authority citation for part 92 would continue to read as follows:

Authority: 42 U.S.C. 3535(d) and 12701–12839.

2. In § 92.2, the definitions of *housing* would be revised to read as follows:

§ 92.2 Definitions.

* * * * *

Housing includes manufactured housing and manufactured housing lots. Housing also includes elder cottage housing opportunity (ECHO) units that are small, free-standing, barrier-free, energy-efficient, removable, and designed to be installed adjacent to existing single-family dwellings.

* * * * *

3. In § 92.218, paragraph (a) would be revised to read as follows:

§ 92.218 Amount of matching contribution.

(a) Each participating jurisdiction must make contributions to housing that qualifies as affordable housing under the HOME program, throughout a fiscal year. The contributions must total not less than:

* * * * *

4. Section 92.219 would be revised to read as follows:

§ 92.219 Recognition of matching contribution.

(a) A contribution is recognized as a matching contribution if:

(1) It is made with respect to a tenant who is assisted with HOME funds, or

(2) It is made with respect to housing that qualifies as affordable housing under § 92.252 or § 92.254; or

(3) It is made with respect to any portion of a project (including a mixed-use project under § 92.256) not less than 50 percent of the dwelling units of which qualify as affordable housing under § 92.252 or § 92.254.

(b) To obtain credit for a match contribution that is made to housing that qualifies as affordable housing under § 92.252 or § 92.254, and that is not assisted with HOME funds, the participating jurisdiction, or its instrumentality, must execute, with the owner of the housing (or, if the participating jurisdiction is the owner, with the manager or developer), a written agreement that imposes and enumerates all of the affordability requirements from either § 92.252 or § 92.254, whichever is applicable, and the property standards requirements of § 92.251, and that requires income determinations to be made in accordance with § 92.203. This written agreement must be executed before any match contributions may be made.

(c) In addition to the requirements of paragraphs (a) and (b) of this section, a cash contribution is recognized as a matching contribution only if it is used for costs eligible under § 92.206 (except administrative costs and community housing development organization operating expenses) or § 92.301, or for the following costs (which are not

VOL 58 ISS 81 AP 29 1993 UMI

eligible costs for HOME funds): The cost of removing and relocating an ECHO housing unit to accommodate an eligible tenant, a project reserve account for replacements, a project reserve account for unanticipated increases in operating costs, operating subsidies, or costs relating to the portion of a mixed-income or mixed-use project not related to the affordable housing units.

5. In § 92.220, paragraphs (a)(1) and (a)(5) would be revised to read as follows:

§ 92.220 Form of matching contribution.

(a) • • •

(1) Cash contributions from nonfederal sources. Except for contributions made to affordable housing that is not assisted with HOME funds and bond proceeds to which the provisions of § 92.220(a)(5) are applicable, to be a cash contribution, funds must be contributed permanently to the HOME program, regardless of the form of investment the jurisdiction provides to a project. Therefore all repayment, interest, or other return on investment of the contribution must be deposited in the local account of the participating jurisdiction's HOME Investment Trust Fund to be used for eligible HOME activities in accordance with the requirements of this part. A cash contribution to affordable housing that is not assisted with HOME funds must be contributed permanently to the project.

• • • • •

(5) Proceeds from multifamily affordable housing and single-family project bond financing validly issued by a State or local government, or an agency, instrumentality, or political subdivision of a State, as follows:

(i) Up to 50 percent of the loan amount made from bond proceeds to a multifamily affordable housing project owner may qualify as match.

(ii) Up to 25 percent of the loan amount from bond proceeds made to a single-family affordable housing project owner may qualify as match.

(iii) Loans made from bond proceeds may not constitute more than 25 percent of a participating jurisdiction's total annual match contribution. Loans made from bond proceeds in excess of 25 percent of a participating jurisdiction's total annual match contribution are not eligible match contributions and are not carried over to the following fiscal year as excess match.

• • • • •

6. In § 92.221, paragraph (b)(6) would be added to read as follows:

§ 92.221 Match credit.

• • • • •

(b) • • •

(6) A loan made from bond proceeds under § 92.220(a)(5) is credited at the time of the loan closing.

• • • • •

7. § 92.222 would be revised to read as follows:

§ 92.222 Reduction of matching contribution requirement.

(a) *Reduction for fiscal distress.*

(1) *Distress criteria for local government participating jurisdictions.* As determined and published annually by HUD, if a local government participating jurisdiction satisfies both of the distress factors in paragraphs (a)(1) (i) and (ii) of this section, it is in severe fiscal distress and its match requirement will be reduced 100% for the period specified in paragraph (a)(3) of this section. If a local government participating jurisdiction satisfies either distress factor in paragraphs (a)(1) (i) or (ii) of this section, it is in fiscal distress and its match requirement will be reduced by 50 percent, for the period specified in paragraph (a)(4) of this section.

(i) *Poverty rate.* The average poverty rate in the participating jurisdiction was equal to or greater than 125 percent of the average national poverty rate during the calendar year for which the most recent data are available, as determined according to information of the Bureau of the Census.

(ii) *Per capita income.* The average per capita income in the participating jurisdiction was less than 75 percent of the average national per capital income, during the calendar year for which the most recent data are available, as determined according to information of the Bureau of the Census.

(2) *Distress criteria for participating jurisdiction that are States.* As determined and published annually by HUD, if a State has at least 2 of the 3 distress factors in paragraphs (a)(2) (i)–(iii) of this section, it will be deemed to be in severe fiscal distress and its match requirement will be reduced 100% for the period specified in paragraph (a)(3) of this section. If a State has any 1 of the 3 distress factors in paragraphs (a)(2) (i)–(iii) of this section, it will be deemed to be in fiscal distress and its match requirement will be reduced by 50%, for the period specified in paragraph (a)(4) of this section.

(i) *Poverty rate.* The average poverty rate in the State was equal to or greater than 125 percent of the average national poverty rate during the calendar year for which the most recent data are available, as determined according to information of the Bureau of Census.

(ii) *Per capita income.* The average per capita income in the State was less than 75 percent of the average national per capita income, during the calendar year for which the most recent data are available, as determined according to information of the Bureau of Census.

(iii) *Personal income growth.* The average personal income growth rate in the state over the most recent four quarters for which the data are available was less than 75 percent of the average national personal income growth rate during that period, as determined according to information of the Bureau of Economic Analysis.

(3) *Period of match reduction for severe fiscal distress.* A 100% match reduction is effective for the fiscal year in which the severe fiscal distress determination is published and for the following fiscal year.

(4) *Period of match reduction for fiscal distress.* A 50% match reduction is effective for the fiscal year in which the fiscal distress determination is published and for the following fiscal year, except that if a severe fiscal distress determination is published in that following fiscal year, the participating jurisdiction starts a new two-year match reduction period in accordance with the provisions of paragraph (a)(3) of this section.

(b) *Reduction of match for participating jurisdictions in disaster areas.* If a participating jurisdiction is located in an area in which a declaration of major disaster pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act is made, HUD may reduce the matching requirement specified in § 92.218 by up to 100 percent for the fiscal year in which the declaration of major disaster is made and the following fiscal year for a local participating jurisdiction, and for a State participating jurisdiction, by up to 100 percent for the fiscal year in which the declaration of major disaster is made and the following fiscal year with respect to any HOME funds expended in an area to which the declaration of major disaster applies. [Participating jurisdictions for which a declaration of major disaster was made in FY 1992 are permitted to request a match reduction for FY 1993 and FY 1994.] To request a reduction, a participating jurisdiction must submit to the local HUD Field Office a copy of the disaster declaration.

8. Section 92.255 would be revised to read as follows:

§ 92.255 Mixed-income project.

(a) Housing that accounts for less than 100 percent of the dwelling units in a project qualifies as affordable housing if the housing meets the criteria of § 92.252 or § 92.254. Each building in the project must contain housing that meets the requirements of § 92.252 or § 92.254. See § 92.219 for matching contribution requirements concerning mixed-income projects.

(b) For purposes of meeting affordable housing requirements for a project, the dwelling units counted as affordable housing may be changed over the affordability period, so long as the total number of affordable housing units remains the same, and the substituted units are, at a minimum, comparable in terms of size, features, and number of bedrooms to the originally designated affordable housing units.

[Approved by the Office of Management and Budget under OMB control number 2501–0013.]

9. In subpart F, a new § 92.259 would be added to read as follows:

§ 92.259 Elder cottage housing opportunity (ECHO) units.

(a) *General.* HOME funds may be used for the initial purchase and initial placement costs of elder cottage housing opportunity (ECHO) units that meet the requirements of this section, and that are small, free-standing, barrier-free, energy-efficient, removable, and designed to be installed adjacent to existing single-family dwellings.

(b) *Eligible owners.* The owner of a HOME-assisted ECHO unit may be—

(1) The owner of the single-family host property on which the ECHO unit will be located;

(2) A participating jurisdiction; or

(3) A non-profit organization.

(c) *Eligible tenants.* During the affordability period, the tenant of a HOME-assisted ECHO unit must be an elderly, handicapped or disabled family as defined in part 812 of this title, and must also be a low income family.

(d) *Applicable requirements.* The requirements of § 92.252 of this part apply to HOME-assisted ECHO units, except as specified in this section, including the following requirements:

(1) Only one ECHO unit may be provided per host property.

(2) The ECHO unit owner may choose whether or not to charge the tenant of the ECHO unit for rent, but if a rent is charged, it must meet the requirements of § 92.252.

(3) The ECHO housing must remain affordable for the period specified in § 92.252(a)(5). If within the affordability period the original occupant no longer occupies the unit, the ECHO unit owner must:

(i) Rent the unit to another eligible occupant on site;

(ii) Move the ECHO unit to another site for occupancy by an eligible occupant; or

(iii) If the owner of the ECHO unit is the host property owner, in accordance with requirements established by the participating jurisdiction and determined by HUD to be appropriate, the participating jurisdiction may recapture the full HOME subsidy, or if the ECHO unit is sold and the net proceeds are less than the full amount of the HOME subsidy, recapture the net proceeds to be used for additional HOME activities.

(4) The participating jurisdiction has the responsibility to enforce the project requirements applicable to ECHO units.

10. In subpart M, under the undesignated center heading "Project Requirements," a new § 92.625 would be added to read as follows:

§ 92.625 Elder cottage housing opportunity (ECHO) units.

(a) *General.* HOME funds may be used for the initial purchase and initial placement costs of elder cottage housing opportunity (ECHO) units that meet the requirements of this section, and that are small, free-standing, barrier-free, energy-efficient, removable, and designed to be installed adjacent to existing single-family dwellings.

(b) *Eligible owners.* The owner of a HOME-assisted ECHO unit may be—

(1) The owner of the single-family host property on which the ECHO unit will be located;

(2) An Indian tribe; or

(3) A non-profit organization.

(c) *Eligible tenants.* During the affordability period, the tenant of a HOME-assisted ECHO unit must be an elderly, handicapped or disabled family as defined in § 905.102 of this title, and must also be a low income family.

(d) *Applicable requirements.* The requirements of § 92.614 apply to HOME-assisted ECHO units, except as specified in this section, including the following requirements:

(1) Only one ECHO unit may be provided per host property.

(2) The ECHO unit owner may choose whether or not to charge the tenant of the ECHO unit for rent, but if a rent is charged, it must meet the requirements of § 92.614.

(3) The ECHO housing must remain affordable for the period specified in § 92.614(a)(5). If within the affordability period the original occupant no longer occupies the unit, the ECHO unit owner must:

(i) Rent the unit to another eligible occupant on site;

(ii) Move the ECHO unit to another site for occupancy by an eligible occupant; or

(iii) If the owner of the ECHO unit is the host property owner, in accordance with requirements established by the Indian tribe and determined by HUD to be appropriate, the Indian tribe may recapture the full HOME subsidy, or if ECHO unit is sold and the net proceeds are less than the full amount of the HOME subsidy, recapture the net proceeds for additional HOME activities.

(4) The Indian tribe has the responsibility to enforce the project requirements applicable to ECHO units.

Dated: March 5, 1993.

Henry G. Cisneros,

Secretary.

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 202–523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202–512–2470).

H.R. 1335/P.L. 103-24

Making emergency supplemental appropriations for the fiscal year ending September 30, 1993, and for other purposes. (Apr. 23, 1993; 107 Stat. 67; 1 page)

Last List April 21, 1993

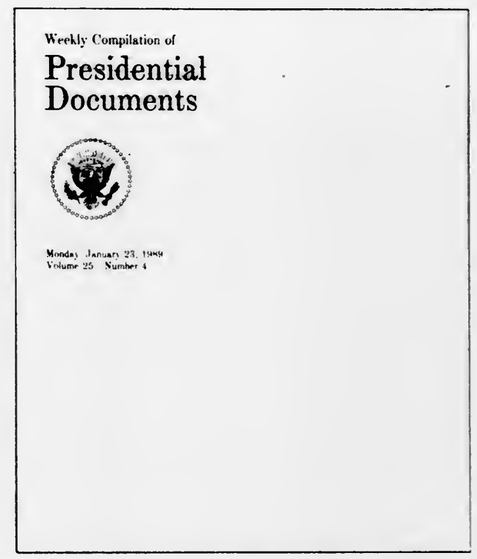
The Weekly Compilation of **Presidential Documents**



This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.

FEDERAL REGISTER SUBSCRIBERS: IMPORTANT INFORMATION ABOUT YOUR SUBSCRIPTION

After 6 years without an adjustment, it has become necessary to increase the price of the **Federal Register** in order to begin recovering the actual costs of providing this subscription service. Effective October 1, 1992, the price for the **Federal Register** will increase and be offered as follows:

(1) FEDERAL REGISTER COMPLETE SERVICE—Each business day you can continue to receive the daily **Federal Register**, plus the monthly **Federal Register Index** and **Code of Federal Regulations List of Sections Affected (LSA)**, all for **$415.00** per year.

(2) FEDERAL REGISTER DAILY ONLY SERVICE—With this subscription service, you will receive the **Federal Register** every business day for **$375.00** per year.

HOW WILL THIS AFFECT YOUR CURRENT SUBSCRIPTION?

You will receive your current complete **Federal Register** service for the length of time remaining in your subscription.

AT RENEWAL TIME

At renewal time, to keep this important subscription coming—you can continue to receive the complete **Federal Register** service by simply renewing for the entire package, or you can select and order only the parts that suit your needs:

- renew your entire **Federal Register Service** (complete service)

or select. . .

- the daily only **Federal Register** (basic service)
- and complement the basic service with either of the following supplements: the monthly **Federal Register Index** or the monthly **LSA**

When your current subscription expires, you will receive a renewal notice to continue the complete **Federal Register** service. At that time, you will also receive an order form for the daily **Federal Register** basic service, the **Federal Register Index**, and the **LSA**.

To know when to expect the renewal notice, check the top line of your subscription mailing label for the month and year of expiration as shown in this sample:

A renewal notice will be sent approximately 90 days before the end of this month.

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. **$19.00 per year.**

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1992

The GUIDE to record retention is a useful reference tool, compiled from agency regulations, designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche format and magnetic tape. The annual subscription price for the **Federal Register** paper edition is $375, or $415 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $353; and magnetic tape is $37,500. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $4.50 for each issue, or $4.50 for each group of pages as actually bound; or $1.50 for each issue in microfiche form; or $175.00 per magnetic tape. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 58 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC
WHEN: May 12 and June 15 at 9:00 am
WHERE: Office of the Federal Register, 7th Floor Conference Room, 800 North Capitol Street NW, Washington, DC (3 blocks north of Union Station Metro)
RESERVATIONS: 202-523-4538

PHILADELPHIA, PA
WHEN: May 25, at 1:00 pm
WHERE: William J. Green, Jr. Federal Building, Conference Room 6306-10, 600 Arch St. Philadelphia, PA

Rules and Regulations

Federal Register
Vol. 58, No. 82
Friday, April 30, 1993

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 92–ASW–47; Amendment 39–8515; AD 93–05–11]

Airworthiness Directives; Schweizer Aircraft Corp. and Hughes Helicopters, Inc. Model 269A, 269A–1, 269B and 269C Helicopters

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that is applicable to Schweizer Aircraft Corporation and Hughes Helicopters, Inc. Model 269A helicopters with fuel injected engines, all Model 269A–1 and 269B helicopters, and certain Model 269C helicopters. This action requires an inspection of the engine-driven fuel pump drain tube assembly (tub assembly) for correct length, security of attachment, and clearance from the engine throttle control linkage. This amendment is prompted by an incident in which the engine throttle travel was restricted due to tub assembly interference. The actions specified in this AD are intended to prevent a restriction to the movement of the engine throttle control linkage that could result in a loss of control of engine power and a forced landing of the helicopter.

DATES: Effective May 25, 1993.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of May 25, 1993

Comments for inclusion in the Rules Docket must be received on or before June 14, 1993

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Office of the Assistant Chief Counsel, Attention: Rules Docket No. 92–ASW–47, 4400 Blue Mound Road, Fort Worth, Texas 76106.

The service information referenced in this AD may be obtained from: Schweizer Aircraft Corporation, P.O. Box 147, Elmira, New York 14902. This information may be examined at the FAA, Office of the Assistant Chief Counsel, 4400 Blue Mound Road, Bldg. 3B, room 158, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Raymond Reinhardt, Aerospace Engineer, FAA, New York Aircraft Certification Office, Propulsion Branch, ANE–174, New England Region, 181 South Franklin Avenue, Valley Stream, New York 11581; telephone (516) 791–7421, fax (516) 791–9024.

SUPPLEMENTARY INFORMATION: Schweizer Aircraft Corporation (Schweizer) recently notified the FAA that an unsafe condition may exist on the Model 269A series helicopters with fuel injected engines; all Model 269A–1 and 269B helicopters; and Model 269C helicopters, with serial numbers (S/N) 0004 through 1480 and 1482 through 1486, equipped with an engine-driven fuel pump drain tube assembly (tube assembly), part number (P/N) 269A8326–95. Field reports indicate that it is possible for the tube assembly, which is not clamped or supported, to move out of position and contact and restrict movement of the throttle control linkage. One in-flight occurrence has been reported. This condition, if not corrected, could result in restriction of the throttle control linkage, which could result in a loss of control of engine power and a forced landing of the helicopter.

The FAA has reviewed and approved Schweizer Service Bulletin B–235.1, dated March 20, 1992, that describes procedures for a one-time inspection of the tube assembly for proper length, a daily check after initial inspection of the tube assembly, and instructions for installing a new longer tube assembly, P/N 269A8326–235, supported with a clamp, P/N MS21333–98, if the present tube length is less than 7.50 inches. It also provides instructions for tightening a loose unclamped tube assembly to ensure the tube assembly is not interfering with the throttle control linkage.

Since an unsafe condition has been identified that is likely to exist or develop on other Schweizer and Hughes Helicopters, Inc. Model 269 helicopters of the same type design, this AD is being issued to prevent a restriction to the movement of the engine throttle control linkage that could result in a loss of control of engine power and a forced landing of the helicopter. This AD requires inspection of all Model 269 series helicopters equipped with an unclamped tube assembly, P/N 269A8326–95, to ensure the tube assembly is the proper length and is not restricting operation of the engine throttle control linkage. The AD also requires replacement of the unclamped tube assembly with a longer clamped tube assembly within 6 months after the effective date of this AD The actions are required to be accomplished in accordance with the service bulletin described previously.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and opportunity for prior public comment hereon are impracticable, and that good cause exists for making this amendment effective in less than 30 days.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting flight safety and, thus, was not preceded by notice and an opportunity for public comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic,

VOL 58 ISS 82 AP 30 1993 UMI

environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this final rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-ASW-47." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that it is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. app. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

AD 93-05-11 Schweizer Aircraft Corporation and Hughes Helicopters, Inc.: Amendment 39-8515. Docket No. 92-ASW-47.

Applicability: Model 269A helicopters with fuel injected engines; all Model 269A-1 and 269B helicopters; and Model 269C helicopters, serial numbers (S/N) 0004 through 1480 and 1482 through 1486; equipped with an engine-driven fuel pump drain tube assembly (tube assembly), part number (P/N) 269A8326-95, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent a restriction to the movement of the engine throttle control linkage that could result in loss of control of engine power due to tube assembly interference, accomplish the following:

(a) Within 5 hours time in service after the effective date of this AD, perform a one-time inspection of the length of the tube assembly, P/N 269A8326-95, in accordance with Part I of Schweizer Aircraft Corporation (Schweizer) Service Bulletin B-235.1, dated March 20, 1992 (SSB). If the tube assemble length is less than 7.50 inches, before next flight, install tube assembly, P/N 269A8326-235, with a clamp, P/N MS21333-98, in accordance with Part III of the SSB.

(b) Within 5 hours time in service after the effective date of this AD, and thereafter at intervals not to exceed 25 hours time in service from the last check, check the tube assembly, P/N 269A8326-95, for security and clearance from the throttle linkage as follows:

(1) Move the throttle linkage from fully open to fully closed and verify that the tube assembly is not loose and does not interfere with movement of the throttle linkage.

(2) If the tube assembly interferes with movement of the throttle linkage, before next flight—

(i) Install tube assembly, P/N 269A8326-235, with a clamp, P/N MS21333-98, in accordance with Part III of the SSB; or

(ii) Secure tube assembly, P/N 269A8326-95, in accordance with Part II b of the SSB and conduct repetitive checks as prescribed by this paragraph.

(3) After the initial check, the repetitive check contained in this paragraph may be performed by the pilot and must be recorded in accordance with FAR 43.9.

(c) Within 6 months after the effective date of this AD, replace the tube assembly, P/N 269A8326-95, with an improved tube assembly, P/N 269A8326-235, and clamp, P/N MS21333-98, in accordance with Part III of the SSB.

(d) Installation of the improved tube assembly, P/N 269A8326-235, and clamp, P/N MS21333-98, constitutes terminating action for the requirements of this AD.

(e) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, New York Aircraft Certification Office, 181 South Franklin Avenue, room 202, Valley Stream, New York 11581. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, New York Aircraft Certification Office.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Manager, New York Aircraft Certification Office.

(f) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the helicopter to a location where the requirements of this AD can be accomplished.

(g) The inspections and modifications shall be done in accordance with Schweizer Service Bulletin B-235.1, dated March 20, 1992. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Schweizer Aircraft Corporation, P.O. Box 147, Elmira, New York 14902. Copies may be inspected at the FAA, Office of the Assistant Chief Counsel, 4400 Blue Mound Road, Bldg. 3B, room 158, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(h) This amendment becomes effective May 25, 1993.

Issued in Fort Worth, Texas, on March 11, 1993.

Henry A. Armstrong,

Acting Manager, Rotorcraft Directorate, Aircraft Certification Service.

[FR Doc. 93-10117 Filed 4-29-93; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 92-ANE-56; Amendment 39-8487; AD 93-02-05]

Airworthiness Directives; Textron Lycoming Fuel Injected Reciprocating Opposed Piston Engines

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that is applicable to certain Textron Lycoming fuel injected reciprocating opposed piston engines. This action requires inspection, and replacement, if necessary, of the fuel injector fuel lines. This amendment is prompted by reports of failures of fuel injector fuel lines that are missing support clamps. The actions specified in this AD are intended to prevent failure of the fuel injector fuel lines allowing fuel to spray into the engine compartment, resulting in an engine fire.

DATES: Effective June 14, 1993.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of June 14, 1993.

Comments for inclusion in the Rules Docket must be received on or before June 29, 1993.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), New England Region, Office of the Assistant Chief Counsel, Attention: Rules Docket No. 92-ANE-56, 12 New England Executive Park, Burlington, Massachusetts 01803-5299.

The service information referenced in this AD may be obtained from Textron Lycoming, Reciprocating Engine Division, 652 Oliver Street, Williamsport, Pennsylvania 17701. This information may be examined at the FAA, New England Region, Office of the Assistant Chief Counsel, 12 New England Executive Park, Burlington, Massachusetts; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Nick Minniti, Aerospace Engineer, New York Aircraft Certification Office, ANE-170, FAA, New England Region, 181 South Franklin Street, Valley Stream, New York 11581; telephone 516-791-7421; fax 516-791-9024.

SUPPLEMENTARY INFORMATION: The FAA has received reports of two fatal accidents caused by the failure of fuel injector fuel lines that are routed between the fuel manifold and the injector nozzles on Textron Lycoming TIO-540-S1AD fuel injected reciprocating opposed piston engines.

Investigation of these accidents revealed that the failed fuel injector fuel lines did not have the required support clamps.

On June 5, 1992, the FAA issued priority letter AD 92-12-10, applicable only to Textron Lycoming Model TIO-540-S1AD engines, which requires inspection, and replacement, if necessary, of the fuel injector fuel lines. Since issuance of that priority letter, the FAA has determined that a similar fuel injector fuel line configuration exists on other Textron Lycoming fuel injected engines. Fuel injector fuel line failures, however, have occurred at a lower rate on these other engines. This condition, if not corrected, can result in failure of the fuel injector fuel lines allowing fuel to spray into the engine compartment, resulting in an engine fire.

The FAA has reviewed and approved the technical contents of Textron Lycoming Service Bulletin (SB) No. 342A, dated May 26, 1992, that describes procedures for inspection, and replacement, if necessary, of the fuel injector fuel lines.

Since an unsafe condition has been identified that is likely to exist or develop on other Textron Lycoming engines of the same type design, this AD is being issued to prevent failure of the fuel injector fuel lines allowing fuel to spray into the engine compartment, resulting in an engine fire. This AD requires inspection of the fuel injector fuel lines for missing or damaged clamps. This AD also requires replacement of fuel injector fuel lines that show evidence of visual damage or fuel leakage, or where the supporting clamp is missing or has a loose, worn, or missing support sleeve or cushion. The actions are required to be accomplished in accordance with the service bulletin described previously.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and opportunity for prior public comment hereon are impracticable.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting flight safety and, thus, was not preceded by notice and an opportunity for public comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-ANE-56." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that it is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423, 49 U.S.C. 106(g); and 14 CFR 11.89.

VOL 58 ISS 82 AP 30 1993 UMI

§ 39.13 [AMENDED]

2. Section 39.13 is amended by adding the following new airworthiness directive:

93-02-05 Textron Lycoming: Amendment 39-8487. Docket 92-ANE-56.

Applicability: Textron Lycoming reciprocating opposed piston engines incorporating fuel injection lines as listed in Textron Lycoming Service Bulletin No. (SB) 342A, dated May 29, 1992, except for Model TIO-540-S1AD engines. Affected engine models are installed on but not limited to Piper PA-24 Comanche, PA-30 and PA-39 Twin Comanche, PA-28 Arrow, and PA-23 Aztec; Beech 60 Duke and 23 Musketeer; Mooney M20; and Cessna 177 Cardinal aircraft.

Note: Engines with an "I" in the prefix of the model designation incorporate fuel injection.

Compliance: Required as indicated, unless accomplished previously.

To prevent failure of the fuel injector fuel lines allowing fuel to spray into the engine compartment, resulting in an engine fire, accomplish the following:

(a) Within 25 hours time in service after the effective date of this AD, inspect the fuel injector fuel lines between the fuel manifold and the fuel injector nozzles in accordance with Textron Lycoming Service Bulletin No. 342A, dated May 26, 1992.

(b) Prior to further flight, replace any fuel injector fuel line that does not meet all the return to service conditions specified in Textron Lycoming SB No. 342A, dated May 26, 1992.

(c) Thereafter, at each annual inspection, at each 100-hour inspection, at each engine overhaul, and after any maintenance has been performed on the engine where the fuel injector fuel lines have been disconnected, moved, or loosened, reinspect the fuel injector fuel lines in accordance with Textron Lycoming SB No. 342A, dated May 26, 1992, and replace as necessary any fuel injector fuel line that does not meet all the return to service conditions specified in that SB.

(d) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, New York Aircraft Certification Office. The request should be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, New York Aircraft Certification Office.

Note: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the New York Aircraft Certification Office.

(e) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(f) The inspection, and replacement, if necessary of the fuel injector fuel lines shall be done in accordance with the following service document:

Document No.	Pages	Date
Textron Lycoming SB No. 342A. Total pages: 31	1-31	May 26, 1992.

This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Textron Lycoming Reciprocating Engine Division, 652 Oliver Street, Williamsport, Pennsylvania 17701. Copies may be inspected at the FAA, New England Region, 12 New England Executive Park, Burlington, Massachusetts; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(g) This amendment becomes effective on June 14, 1993.

Issued in Burlington, Massachusetts, on February 24, 1993.

Mark C. Fulmer,

Acting Manager, Engine and Propeller Directorate, Aircraft Certification Service.

[FR Doc. 93-10114 Filed 4-29-93; 8:45 am]

BILLING CODE 4910-13-P

14 CFR Part 39

[Docket No. 92-NM-219-AD; Amdt. 39-8558; AD 93-08-11]

Airworthiness Directives; Dassault Aviation Model Mystere-Falcon 900 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Dassault Aviation Model Mystere-Falcon 900 series airplanes, that requires modification of the upper part of frame 30 in the stiffener area between stringers 7 and 8. This amendment is prompted by the results of fatigue tests, which revealed cracking in the upper part of frame 30. The actions specified by this AD are intended to prevent fatigue cracking, which could lead to reduced structural integrity of the fuselage.

DATES: Effective June 1, 1993.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of June 1, 1993.

ADDRESSES: The service information referenced in this AD may be obtained from Falcon Jet Corporation, Customer Support Department, Teterboro Airport, Teterboro, New Jersey 07608. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Greg Holt, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055-4056; telephone (206) 227-2140; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Dassault Aviation Model Mystere-Falcon 900 series airplanes was published in the **Federal Register** on February 2, 1993 (58 FR 6742). That action proposed to require modification of the upper part of frame 30 in the stiffener area between stringers 7 and 8.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the single comment received.

The commenter supports the proposed rule. After careful review of the available data, including the comment noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

The FAA estimates that 7 airplanes of U.S. registry will be affected by this AD, that it will take approximately 29 work hours per airplane to accomplish the required actions, and that the average labor rate is $55 per work hour. Required parts will be provided by the manufacturer at no cost to operators. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $11,165, or $1,595 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979), and (3) will not have a significant economic impact, positive or negative, on a

substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "**ADDRESSES.**"

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

93-08-11 Dassault Aviation: Amendment 39-8558. Docket 92-NM-219-AD.

Applicability: Model Mystere-Falcon 900 series airplanes; serial numbers 1 through 14, inclusive; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent reduced structural integrity of the fuselage, accomplish the following:

(a) For airplanes having serial number 1: Prior to the accumulation of 3,750 total landings, or within 6 months after the effective date of this AD, whichever occurs later, modify the upper part of frame 30 in the stiffener area between stringers 7 and 8, in accordance with Dassault Aviation F900-93 Service Bulletin F900-53-14 and Appendix 1 to that service bulletin, both dated July 8, 1992.

(b) For airplanes having serial numbers 2 through 14, inclusive: Modify the upper part of frame 30 in the stiffener area between stringers 7 and 8, in accordance with Dassault Aviation F900-93 Service Bulletin F900-53-14 and Appendix 1 to that service bulletin, both dated July 8, 1992; and at the later of the times specified in paragraphs (b)(1) and (b)(2) of this AD.

(1) Prior to the accumulation of 3,750 total landings, or within 6 years since date of manufacture, whichever occurs first.

(2) Within 6 months after the effective date of this AD.

(c) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM-113.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch, ANM-113.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The modification shall be done in accordance with Dassault Aviation F900-93 Service Bulletin F900-53-14 and Appendix 1 to that service bulletin, both dated July 8, 1992. (**Note:** Appendix 1 contains pages 101 through 109.) This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Falcon Jet Corporation, Customer Support Department, Teterboro Airport, Teterboro, New Jersey 07608. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(f) This amendment becomes effective on June 1, 1993.

Issued in Renton, Washington, on April 20, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

14 CFR Part 39

[Docket No. 92-NM-178-AD; Amdt. 39-8539; AD 93-07-07]

Airworthiness Directives; Fokker Model F28 Mark 0100 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Fokker Model F28 Mark 0100 series airplanes, that requires an inspection of the auxiliary power unit (APU) fuel supply tube assembly to determine minimum clearance between the tube and the adjacent airplane structure, and replacement of the assembly, if necessary. This amendment is prompted by a report that the currently installed APU fuel supply tube shroud is positioned such that it can come in contact with the airplane structure. The actions specified by this AD are intended to prevent chafing in the area of the shroud and subsequent leaking from the fuel line couplings and the shroud, which could result in a fire within the rear fuselage area.

DATES: Effective June 1, 1993.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of June 1, 1993.

ADDRESSES: The service information referenced in this AD may be obtained from Fokker Aircraft USA, Inc., 1199 North Fairfax Street, Alexandria, Virginia 22314. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Tim Dulin, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055-4056; telephone (206) 227-2141; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Fokker Model F28 Mark 0100 series airplanes was published in the **Federal Register** on October 21, 1992 (57 FR 48003). That action proposed to require an inspection of the auxiliary power unit (APU) fuel supply tube assembly to determine minimum clearance between the tube and the adjacent airplane structure, and replacement of the assembly, if necessary.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter supports the rule as proposed.

One commenter requests that the compliance time for replacement of the APU fuel supply tube assembly, as would be required by paragraph (a)(1) of the proposal, be revised from the proposed compliance time of prior to further flight. The commenter suggests the following schedule: replacement within three months, if the shroud is not chafed through, but is touching the structure; and replacement within six months, if the shroud is not touching structure, but is within 3 mm of the structure. The commenter states that such scheduling is consistent with Fokker Service Bulletin SBF100-28-022, Revision 1, dated June 22, 1992,

VOL 58 ISS 82 AP 30 1993 UMI

and would allow replacement to be accomplished at a scheduled maintenance hold independent of the initial inspection. The commenter contends that replacement of an undamaged APU fuel supply tube assembly, prior to further flight, would result in unnecessary grounding of an inspected, airworthy airplane.

The FAA concurs in part with the commenter's request. Although Revision 1 of the referenced Fokker service bulletin, as well as Issue 2 of the related Netherlands Airworthiness Directive (BLA) 92–015 (dated June 26, 1992), provided selective extensions to the compliance schedule identical to those suggested by the commenter, the revised compliance schedule was predicated on a reported lack of available replacement units at the time those documents were released. However, the FAA has recently been advised that an ample number of replacement units will be available for modification of the U.S. fleet within the proposed compliance period. Notwithstanding the fact that parts are available, the FAA concurs with the commenter that an APU fuel supply tube assembly that is not chafed or touching adjacent structure should not be required to be replaced prior to further flight. The FAA has determined that, for these conditions, an extension of the compliance time for replacing the APU fuel supply tube assembly will not adversely impact safety. Paragraph (a) of the final rule has been revised to allow such replacement within three months after the inspection, provided that the APU fuel supply tube assembly is not chafed or touching adjacent structure.

One commenter requests that the proposal be revised to allow rework of the adjacent web plate as an option to the proposed replacement of the APU fuel tube assembly. Rework would involve trimming the web and the existing doubler such that a minimum of 2 diameters edge distance to all surrounding fasteners is maintained and the specified minimum clearance between the APU fuel tube assembly and airplane structure is gained. The commenter contends that such rework would provide an equivalent level of safety, and would be less costly to accomplish. The FAA cannot concur with the commenter's request, since sufficient data have not been submitted to substantiate that rework of the adjacent web plate would not affect the structural integrity of the airplane. However, the FAA may approve such rework as an alternative method of compliance, under the provisions of paragraph (b) of the final rule, if sufficient justification is presented to the FAA.

One commenter requests that the economic analysis information in the preamble to the proposal be revised to indicate that 8 work hours per airplane are required to accomplish the proposed actions, in lieu of 1 work hour as cited in the proposal. The commenter contends that it would take approximately 8 work hours to accomplish the replacement of the APU fuel tube assembly. The FAA does not concur with the commenter's request. The economic impact information is an estimate of the cost of actions actually required by the rule; it typically does not include the costs of "on condition" actions, i.e., "replacement, if necessary." In this case, the inspection, which takes 1 work hour to accomplish, is the required action; replacement of the APU fuel supply tube assembly is an "on condition" action, which only would be required if clearance between the tube assembly and aircraft structure is less than the specified limits. Such replacement would be required, regardless of AD action, in order to correct an unsafe condition identified in an airplane and to ensure operation of that airplane in an airworthy condition, as required by the Federal Aviation Regulations.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the change previously described. The FAA has determined that this change will neither increase the economic burden on any operator nor increase the scope of the AD.

The FAA estimates that 28 airplanes of U.S. registry will be affected by this AD, that it will take approximately 1 work hour per airplane to accomplish the required inspection, and that the average labor rate is $55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $1,540, or $55 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

93–07–07 Fokker: Amendment 39–8539. Docket 92–NM–178–AD.

Applicability: Model F28 Mark 0100 series airplanes; serial numbers 11244 through 11339, inclusive, and 11341 through 11351, inclusive; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent fuel leakage in the rear fuselage, accomplish the following:

(a) Within 6 months after the effective date of this AD, conduct an inspection of the auxiliary power unit (APU) fuel supply tube assembly to determine minimum clearance between the tube assembly and the aircraft structure, in accordance with Fokker Service Bulletin SBF100–28–022, dated December 13, 1991.

(1) If the APU fuel supply tube assembly is chafed or if it touches the aircraft structure, prior to further flight, replace the APU fuel supply tube assembly with a new assembly, in accordance with the service bulletin.

(2) If the clearance is less than 3 mm at any point, but the APU fuel supply tube assembly is not chafed and does not touch the aircraft structure: Within 3 months after accomplishing the inspection, replace the APU fuel supply tube assembly with a new assembly, in accordance with the service bulletin.

(3) If the clearance is 3 mm or more at all points, no further action is necessary.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM–113.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch, ANM–113.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The inspection and replacement shall be done in accordance with Fokker Service Bulletin SBF100–28–022, dated December 13, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Fokker Aircraft USA, Inc., 1199 North Fairfax Street, Alexandria, Virginia 22314. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on June 1, 1993.

Issued in Renton, Washington, on April 12, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

Airworthiness Directives; McDonnell Douglas Model DC–9–30, –40, and –50 Series Airplanes; and C–9 (Military) Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain McDonnell Douglas Model DC–9–30, –40, and –50 series airplanes; and C–9 (military) airplanes, that requires a one-time inspection of the main landing gear (MLG) wheel spacer retainer assemblies for correct hardness of the wheel spacer retainer assemblies and proper installation of the anti-rotation pin, and replacement of the wheel spacer retainer assembly, if necessary. This amendment is prompted by reports of failures of MLG wheel spacer retainer assemblies. The actions specified by this AD are intended to prevent MLG wheel assembly separation during wheel rotation.

DATES: Effective June 1, 1993.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of June 1, 1993.

ADDRESSES: The service information referenced in this AD may be obtained from McDonnell Douglas Corporation, P.O. Box 1771, Long Beach, California 90846–1771, Attention: Business Unit Manager, Technical Publications, C1–HDR (54–60). This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the FAA, Transport Airplane Directorate, Los Angeles Aircraft Certification Office (ACO), 3229 East Spring Street, Long Beach, California; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Andrew Gfrerer, Aerospace Engineer, Los Angeles Aircraft Certification Office, Mechanical/Environmental & Crashworthiness Section, ANM–131L, FAA, Transport Airplane Directorate, 3229 East Spring Street, Long Beach, California 90806–2425; telephone (310) 988–5338; fax (310) 988–5210.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain McDonnell Douglas Model DC–9–30, –40, and –50 series airplanes; and C–9 (military) airplanes was published in the Federal Register on October 19, 1992 (57 FR 47580). That action proposed to require a one-time inspection of the main landing gear (MLG) wheel spacer retainer assemblies for correct hardness of the wheel spacer retainer assemblies and proper installation of the anti-rotation pin, and replacement of the wheel spacer retainer assembly, if necessary.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

Several commenters support the rule as proposed.

Several commenters request that paragraph (a) of the proposal be revised to require inspection of spare MLG wheel spacer retainer assemblies as well as inspection of those assemblies currently-installed on the affected airplanes. The commenters state that by not addressing spares, the proposed inspection will be a continuous action and not a "one-time inspection" as indicated by paragraph (a). Since the assemblies are a replaceable unit, operators will have to continually inspect the assembly to ensure compliance with this AD. The FAA does not concur with the commenters' request to require inspection of spares. Part 39 ("Airworthiness Directives") of the Federal Aviation Regulations specifies that AD's are rules applicable only to aircraft, aircraft engines, propellers, and appliances; Part 39 makes no specific provisions for "spares" or parts not installed on aircraft. Although the FAA cannot require, by AD action, that operators inspect spares, operators are free to do so voluntarily. Additionally, the intent of paragraph (b) of the proposal is to ensure that no assembly is installed on an airplane unless the assembly first has been inspected in accordance with this AD; this requirement, in effect, addresses spare parts that eventually may be installed on an airplane. In order to clarify this specific requirement, the FAA has revised paragraph (b) of the final rule to require that any wheel spacer retainer assembly (which currently may be stocked as a "spare") must have been permanently marked with the marking "S/B 32–228" prior to its installation on an airplane; such marking indicates that the assembly has successfully passed a hardness test.

One commenter requests that the proposed inspection of the MLG wheel spacer retainer assemblies be limited to those series airplanes listed in the effectivity listing of McDonnell Douglas Service Bulletin 32–228, Revision 1, dated October 8, 1989. The commenter notes that wheel spacer retainer assemblies installed on Model DC–9–10 and –30 series airplanes are physically different and are manufactured from steel; therefore, these assemblies are not subject to the addressed unsafe condition. The FAA concurs, but notes that the applicability statement of this AD action does reference the service bulletin for a listing of affected airplanes. Neither the service bulletin nor the AD refer to Model DC–9–10 series airplanes as susceptible to the addressed unsafe condition. As for the Model DC–9–30, the FAA has determined that, based on a review of the type certificated design data, certain of these airplanes are equipped with

VOL 58 ISS 82 AP 30 1993 UMI

MLG wheel spacer retainer assembly, part number 3925768–501, and that this part is not constructed of steel. Therefore, the FAA has determined that these Model DC–9–30 series airplanes are susceptible to the addressed unsafe condition. The effectivity listing of the service bulletin does include these Model DC–9–30 series airplanes and, therefore, this AD is applicable to them as well.

Two commenters note that the manufacturer uses inconsistent language in its service bulletin when referring to the wheel gear assembly. The commenters state that McDonnell Douglas Service Bulletin 32–228, Revision 1, dated October 6, 1989, is somewhat ambiguous because it alternatively refers to the subject part (part number 3925768–501) as a "spacer retainer assembly", "spacer", "retainer", or "retainer assembly." The commenters further state that this inconsistent terminology could cause confusion for operators because the axle nut installed on Model DC–9–30 series airplanes is also referred to as the retainer. The FAA acknowledges that the manufacturer's service bulletin refers to the subject part using a variety of terms. The FAA considers that the correct term for part number 3925768–501 is "wheel spacer retainer assembly." Therefore, in order to be clear and consistent, the FAA refers to this part throughout the final rule as "wheel spacer retainer assembly."

Several commenters request that paragraph (a)(1) of the proposal be revised to include specific part marking procedures. The commenters note that penetration-type marking of structural parts generally requires engineering evaluation in order to determine the marking location and the marking method; this will minimize detrimental "stress concentration" effects. The FAA concurs with the commenters' request to provide more specific part marking procedures. The FAA has determined that the proposed stamping procedure may cause potential stress concentration effects; however, the wheel spacer retainer assembly installed on Model DC–9 series airplanes is only minimally stressed in the area around the anti-rotation hole. The best area to permanently mark the wheel spacer retainer assembly would be on the outside diameter at least 2 inches from the anti-rotation hole. The FAA acknowledges acceptable alternative ways to permanently mark the wheel spacer retainer assembly, such as electro-chemical etch. Paragraph (a)(1) of the final rule has been revised to allow for an alternative method of marking and also to suggest a more precise location of the marking.

The FAA notes that throughout the notice, McDonnell Douglas Model C–9 (military) airplanes are incorrectly referred to as "series airplanes." On their type certification data sheet, these airplanes are designated only as "C–9 (military) airplanes;" there are no "series" of this model. Therefore, all references to the Model C–9 airplanes in the final rule have been changed to be congruent with the type certification data sheet.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 236 McDonnell Douglas Model DC–9–30, –40, and –50 series airplanes, and C–9 (military) airplanes, of the affected design in the worldwide fleet. The FAA estimates that 114 airplanes of U.S. registry will be affected by this AD, that it will take approximately 1 work hour per airplane to accomplish the required actions, and that the average labor rate is $55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $6,270, or $55 per airplane. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

93–07–14 McDonnell Douglas: Amendment 39–8546. Docket 92–NM–171–AD.

Applicability: Model DC–9–33F, –34, –34F, –41, and –51 series airplanes, and C–9 (military) airplanes; as listed in McDonnell Douglas DC–9 Service Bulletin 32–228, Revision 1, dated October 6, 1989; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent main landing gear wheel assembly separation during wheel rotation, accomplish the following:

(a) Within 2,000 landings or 18 months after the effective date of this AD, whichever occurs first: Conduct a one-time inspection of the main landing gear (MLG) wheel spacer retainer assemblies for correct hardness of the wheel spacer retainer assemblies and proper installation of the anti-rotation pin, in accordance with McDonnell Douglas DC–9 Service Bulletin 32–228, Revision 1, dated October 6, 1989.

(1) If hardness of the wheel spacer retainer assembly is within limits specified in the service bulletin, and the anti-rotation pin is properly installed, as described in the service bulletin, prior to further flight, permanently mark the wheel spacer retainer assembly with the marking "S/B 32–228."

Note: Operators may use any marking procedure that does not create significant stress concentration effects. Acceptable methods include stamping or electro-chemical etch. An appropriate area to mark is the outside diameter of the wheel spacer retainer assembly, at least 2 inches away from the anti-rotation pin.

(2) If hardness of the wheel spacer retainer assembly is not within limits specified in the service bulletin or the anti-rotation pin is not properly installed, as described in the service bulletin, prior to further flight, replace the wheel spacer retainer assembly, in accordance with McDonnell Douglas DC–9 Service Bulletin 32–228, Revision 1, dated October 6, 1989. After accomplishing this replacement, permanently mark the wheel spacer retainer assembly with the marking "S/B 32–228."

(b) As of the effective date of this AD, only wheel spacer retainer assemblies marked "SB 32–228" may be installed on any airplane.

(c) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Los Angeles Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Los Angeles ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Los Angeles ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The inspection and replacement shall be done in accordance with McDonnell Douglas DC–9 Service Bulletin 32–228, Revision 1, dated October 6, 1989. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from McDonnell Douglas Corporation, P.O. Box 1771, Long Beach, California 90846–1771, Attention: Business Unit Manager, Technical Publications, C1–HDR (54–60). Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the FAA, Transport Airplane Directorate, Los Angeles Aircraft Certification Office (ACO), 3229 East Spring Street, Long Beach, California; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(f) This amendment becomes effective on June 1, 1993.

Issued in Renton, Washington, on April 13, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 93–10116 Filed 4–29–93; 8:45 am]

BILLING CODE 4910–13–P

14 CFR Part 39

[Docket No. 92–NM–129–AD; Amendment 39–8541; AD 93–07–09]

Airworthiness Directives; McDonnell Douglas Model DC–10 Series Airplanes and KC–10A (Military) Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to all McDonnell Douglas Model DC–10 series airplanes and KC–10A (military) airplanes, that requires inspections to detect fatigue cracking in the area of the fuselage station Y=595.000 pressure bulkhead and repair of cracked webs. This amendment is prompted by reports of cracking found in the web and tee cap of the fuselage station Y=595.000 pressure bulkhead (a portion of the fuselage structure identified as a Principal Structural Element (PSE)). The actions specified by this AD are intended to prevent failure of the fuselage station Y=595.000 pressure bulkhead, which could reduce the structural integrity of the airplane.

DATES: Effective June 1, 1993.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of June 1, 1993.

ADDRESSES: The service information referenced in this AD may be obtained from McDonnell Douglas Corporation, P.O. Box 1771, Long Beach, California 90846–1771, Attention: Business Unit Manager, Technical Publications—Technical Administrative Support, C1–L5B. This information may be examined at the Federal Aviation Administration (FAA), Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the FAA, Los Angeles Aircraft Certification Office (ACO), 3229 East Spring Street, Long Beach, California; or at the Office of the Federal Register, 800 North Capitol Street NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Ms. Maureen Moreland, Aerospace Engineer, Airframe Branch, ANM–121L, Los Angeles Aircraft Certification Office, FAA, Transport Airplane Directorate, 3229 East Spring Street, Long Beach, California 90806–2425; telephone (310) 988–5238; fax (310) 988–5210.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain McDonnell Douglas Model DC–10 series airplanes was published in the **Federal Register** on August 27, 1992 (57 FR 38799). That action proposed to require inspections to detect fatigue cracking in the area of the pressure bulkhead at fuselage station Y=595.000, and repair of cracked webs.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

Two commenters support the proposed rule.

The Air Transport Association (ATA) of America, on behalf of one of its members, requests that the FAA review the need to proceed with this AD rulemaking, since the McDonnell Douglas Report Number L26–012, "DC–10 Supplemental Inspection Document (SID)" AD [reference AD 92–02–08, Amendment 39–8144, (57 FR 3931, February 3, 1992)], already provides sufficient inspection and repair requirements for the fuselage station Y=595.000 pressure bulkhead. One member notes that, since implementation of the SID program, only two cracks and no corrosion has been detected in this principal structural element (PSE). The FAA does not concur. AD 92–02–08 requires inspection of the fuselage station Y=595.000 pressure bulkhead, designated as PSE numbers 53.10.037 and 53.10.038, only on a sampling basis. The inspections of this PSE, as required by AD 92–02–08, are conducted under the "fleet leader operator sampling (FLOS)" criteria, with a fatigue life threshold (N_{th}) of 34,849 landings. Upon finding of a fatigue crack in a FLOS PSE, inspection of the entire fleet is required to ensure that all cracking is detected. Therefore, inspection requirements beyond those mandated by AD 92–02–08 are required by this AD to ensure that fatigue cracking in this PSE is detected before it reaches a critical length. Six instances of cracking in the area of this PSE have occurred on airplanes having accumulated between 16,549 and 23,315 total landings. The FAA has determined that inspections of this area after the accumulation of 10,000 total landings will ensure that fatigue cracking is detected before it reaches a critical length.

In the event that a final rule is issued, ATA, on behalf of one of its members, requests clarification that this AD "supersedes" the SID program requirements of AD 92–02–08; and requests removal or modification of the SID program to reflect the provisions of this AD. The FAA concurs that clarification is necessary. This AD does not supersede AD 92–02–08. However, accomplishment of the inspection and repair requirements of this AD satisfy the requirements of AD 92–02–08 for PSE numbers 53.10.037 and 53.10.038. Since the FAA does not intend to have dual inspection and repair requirements, paragraph (b) has been added to the final rule to clarify that compliance with the inspection and repair requirements of this AD satisfy the inspection and repair requirements of AD 92–02–08 for this PSE.

ATA, on behalf of two of its members, also requests extension of the compliance time for the initial inspection from the proposed 6 months

VOL 58 ISS 82 AP 30 1993 UMI

to 24 months after the effective date of this AD, in the event a final rule is issued. Such an extension would preclude special scheduling at considerable expense. One member requests removal of the proposed 6 month compliance time altogether, since corrosion has not been found during any of the inspections; therefore, this is not a calendar related problem. Another member requests an increase in the compliance time for the initial inspection from the proposed 6 months to 18 months, in order to accomplish the first inspection during scheduled heavy maintenance visits, and avoid disruption of passenger flights. The FAA partially concurs. Upon consideration of the information provided by the commenters, the FAA acknowledges that the proposed compliance time for the initial inspection may place an undue burden on affected operators.

Additionally, since the phenomenon of crack initiation and growth in this area is cycle-dependent, rather than time-dependent, an inspection threshold based upon operating cycles is more appropriate than an inspection threshold based upon calendar time. The FAA has determined that a compliance time of 1,000 landings will allow the majority of affected operators sufficient time to schedule and accomplish the initial inspection during regularly scheduled maintenance. Based on the average utilization rate of these airplanes in the U.S. fleet, this compliance time of 1,000 landings will provide a slightly longer interval prior to initial compliance with the rule than would the previously proposed compliance time of 6 months; however, the FAA has determined this extended interval will have no significant adverse impact on safety. Paragraph (a) of the final rule has been revised accordingly.

One commenter implies that Model DC–10–30 and –40 series airplanes should be deleted from the applicability statement of the final rule, since cracks have not been reported on these airplanes. The FAA does not concur. Since the fuselage station Y=595.000 pressure bulkhead design on all Model DC–10 series airplanes is similar in design, all Model DC–10 series airplanes are susceptible to cracking in this area. Therefore, the FAA has determined that the applicability statement, as proposed, is appropriate.

Two commenters note that several U.S.-registered airplanes have already been inspected in accordance with McDonnell Douglas Alert Service Bulletin A53–158, dated May 29, 1992. One commenter notes that 16 of its airplanes have been inspected. The other commenter notes that 11 of its airplanes have been inspected. The FAA has taken this updated information into consideration and has revised the economic analysis information below, accordingly.

Since issuance of the proposal, the FAA has reviewed and approved McDonnell Douglas Alert Service Bulletin A53–158, Revision 1, dated January 22, 1993, that describes procedures for inspections to detect fatigue cracking in the area of the fuselage station Y=595.000 pressure bulkhead and repair of cracked webs. This service bulletin is essentially identical to the original issue, but recommends a compliance time for the initial inspection of 1,000 landings, rather than 6 months, as was cited in the original issue. Paragraphs (a), (a)(1), and (a)(2) of the final rule have been revised to include the revised service bulletin as an additional source of service information.

The applicability statement of the final rule has been revised to clarify that the affected Model DC–10 series airplanes include all derivatives of the Model DC–10 series, including freighter and military configurations.

The economic impact information, below, has been revised to specify that the current number of affected U.S.-registered airplanes is 269. (The economic information in the preamble to the notice indicated that, at that time, the number of affected U.S.-registered airplanes was 231.) This information was provided recently to the FAA by the manufacturer, based on the most current data available.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 426 McDonnell Douglas Model DC–10 series airplanes and KC–10A (military) airplanes of the affected design in the worldwide fleet. The FAA estimates that 269 airplanes of U.S.-registry will be affected by this AD, that it will take approximately 4 work hours per airplane to accomplish the inspection, and that the average labor rate is $55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $59,180, or $220 per airplane.

The FAA has been advised that 27 U.S.-registered airplanes have been inspected in accordance with the requirements of this AD. Therefore, the future economic cost impact of this rule on U.S. operators is now only $53,240.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES.**

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

93–07–09 McDonnell Douglas: Amendment 39–8541. Docket 92–NM–129–AD.

Applicability: All Model DC–10–10, –10F, –15, –30, –30F, –40 and –40F series airplanes; and KC–10A (military) airplanes; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent failure of the fuselage station Y=595.000 pressure bulkhead, which could reduce the structural integrity of the airplane, accomplish the following:

(a) Unless accomplished within the last 4,350 landings prior to the effective date of this AD: Prior to the accumulation of 10,000 total landings, or within 1,000 landings after the effective date of this AD, whichever occurs later, conduct a visual and eddy current inspection of the fuselage station Y=595.000 pressure bulkhead web and conduct an eddy current inspection of the fuselage station Y=595.000 pressure bulkhead tee cap, PSE 53.10.037 (left side) and 53.10.038 (right side), in accordance with McDonnell Douglas Alert Service Bulletin A53–158, dated May 29, 1992, or Revision 1, dated January 22, 1993.

(1) If any crack is detected that is within the limits specified in either service bulletin, prior to further flight, repair the crack in accordance with that service bulletin. After repair, repeat the inspections at intervals not to exceed 4,350 landings, in accordance with a method approved by the Manager, Los Angeles Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate.

(2) If any crack is detected that exceeds the limits specified in either service bulletin, prior to further flight, repair the crack in accordance with a method approved by the Manager, Los Angeles ACO, FAA, Transport Airplane Directorate.

(3) If no cracking is detected, repeat the inspections at intervals not to exceed 4,350 landings.

Note: The McDonnell Douglas service bulletins specified in this paragraph include references to inspection procedures contained in McDonnell Douglas Report No. L26–012, "DC–10 Supplemental Inspection Document (SID)," dated May 1990.

(b) Compliance with the inspection and repair requirements of paragraph (a) of this AD are considered to constitute compliance with the inspection, repair, and reporting requirements of paragraphs (b) and (c) of AD 92–02–08, Amendment 39–8144, for Principal Structural Element (PSE) numbers 53.10.037 and 53.10.038.

(c) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Los Angeles ACO, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Los Angeles ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Los Angeles ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The inspections and repairs shall be done in accordance with McDonnell Douglas Alert Service Bulletin A53–158, dated May 29, 1992; or McDonnell Douglas Alert Service Bulletin A53–158, Revision 1, dated January 22, 1993. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from McDonnell Douglas Corporation, P.O. Box 1771, Long Beach, California 90846–1771, Attention: Business Unit Manager, Technical Publications—Technical Administrative Support, C1–L5B. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the FAA, Los Angeles ACO, 3229 E. Spring Street, Long Beach, California; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(f) This amendment becomes effective on June 1, 1993.

Issued in Renton, Washington, on April 12, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

29 CFR Parts 2200, 2201, 2203, 2205, and 2400

Change of Address and Phone Numbers

AGENCY: Occupational Safety and Health Review Commission.

ACTION: Final rule.

SUMMARY: On May 3, 1993, the Occupational Safety and Health Review Commission is moving to new offices. This document revises references to the Commission's address and phone number throughout its various regulations and rules of procedure to reflect the agency's relocation.

EFFECTIVE DATE: These amendments will take effect on May 3, 1993. All documents, filings, and other correspondence to be filed with the Commission on or after that date should be sent to the Commission's new address.

FOR FURTHER INFORMATION CONTACT: Earl R. Ohman, Jr., General Counsel, (202) 634–4015 or, as of May 3, 1993, (202) 606–5410.

SUPPLEMENTARY INFORMATION: On May 3, 1993 the Review Commission will be moving to a new location. This document amends the Commissions rules of procedure and other regulations to reflect its new address. The Commission's new address will be: Occupational Safety and Health Review Commission, One Lafayette Centre, 1120 20th St., NW., 9th Floor, Washington, DC 20036–3419.

List of Subjects

29 CFR Part 2200

Administrative practice and procedure, Hearing and appeal procedures.

29 CFR Part 2201

Freedom of information, Records.

29 CFR Part 2203

Sunshine Act, Information, Public meetings.

29 CFR Part 2205

Blind, Civil rights, Deaf, Disabled, Discrimination against handicapped, Equal employment opportunity, Federal buildings and facilities, Handicapped, Nondiscrimination, Physically handicapped.

29 CFR Part 2400

Privacy, Records.

For the reasons set forth in the preamble, title 29, chapter XX, parts 2200, 2201, 2203, 2205, and 2400 are amended as set forth below:

PART 2200—RULES OF PROCEDURE

1. The authority for part 2200 continues to read in part as follows:

Authority: 29 U.S.C. 661(g).

2. Part 2200 is amended as follows:

§ 2200.7 [Amended]

In 29 CFR 2200.7(g) remove the words "1825 K Street NW., Washington, DC 20006–1246" and add, in their place, the words "One Lafayette Centre, 1120–20th Street, NW., Suite 980, Washington, DC 20036–3419".

§ 2200.8 [Amended]

In 29 CFR 2200.8(b) remove the words "1825 K Street, NW., Suite 401, Washington, DC 20006" and add, in their place, the words, "One Lafayette Centre, 1120–20th Street NW., Suite 980, Washington, DC 20036–3419".

§§ 2200.57, 2200.96, and 2200.106 [Amended]

In 29 CFR part 2200 remove the words: "1825 K Street NW., Washington, D.C. 20006" and add, in their place, the words "One Lafayette Centre, 1120–20th Street NW., 9th Floor, Washington, DC 20036–3419" in the following places:

(a) Section 2200.57(a);
(b) Section 2200.96; and
(c) Section 2200.106.

PART 2201—REGULATIONS IMPLEMENTING THE FREEDOM OF INFORMATION ACT

1. The authority for part 2201 continues to read as follows:

VOL 58 ISS 82 AP 30 1993 UMI

Authority: 29 U.S.C. 661(g); 5 U.S.C. 552.

2. Part 2201 is amended as follows:

§ 2201.5 [Amended]

In 29 CFR 2201.5(a) remove the words "OSHRC, Public Information Specialist, 1825 K Street, NW., room 414, Washington, DC 20006–1246. Telephone 202–634–7943" and add, in their place, the words "OSHRC, Public Information Specialist, One Lafayette Centre, 1120–20th Street NW., room 900, Washington, DC 20036–3419. Telephone 202–606–5398."

PART 2203—REGULATIONS IMPLEMENTING THE GOVERNMENT IN SUNSHINE ACT

1. The authority for part 2203 continues to read as follows:

Authority: 29 U.S.C. 661(g); 5 U.S.C. 552b(d)(4); 5 U.S.C.b(3).

2. Part 2203 is amended as follows:

Section 2203.4 is amended by revising the first four sentences of paragraph (c) to read as follows:

§ 2203.4 Procedures applicable to regularly-scheduled meetings.

* * * * *

(c) *Announcements.* Regularly-scheduled meetings of the Commission will be held at 10 a.m. every Thursday, except for legal holidays, in the Hearing Room (Suite 965) of the Commission's national office at One Lafayette Centre, 1120–20th Street NW., Washington, DC 20036–3419. If a regularly-scheduled meeting is scheduled, public announcement of the time, date and place of the meeting will be made at the earliest practicable time by posting a notice in a prominent place at the Commission's national office. If a regularly-scheduled meeting is cancelled, a notice of cancellation will be posted in the same manner. Information about the subject of each regularly-scheduled meeting will be made available in the Office of the General Counsel, telephone number (202) 606–5410, at the earliest practicable time. * * *

* * * * *

§ 2203.7 [Amended]

In 29 CFR 2203.7(b) remove the words "Room 402–A, 1825 K Street, NW., Washington, DC 20006" and add, in their place, the words "Room 941, One Lafayette Centre, 1120–20th Street NW., Washington, DC 20036–3419".

PART 2205—ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN PROGRAMS OR ACTIVITIES CONDUCTED BY THE OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

1. The authority for part 2205 continues to read as follows:

Authority: 29 U.S.C. 794.

2. Part 2205 is amended as follows:

§ 2205.170 [Amended]

In 29 CFR 2205.170(c) remove the words "1825 K Street NW, Washington, DC 20006" and add, in their place, the words "One Lafayette Centre, 1120–20th Street NW., 9th Floor, Washington, DC 20036–3419".

PART 2400—REGULATIONS IMPLEMENTING THE PRIVACY ACT

1. The authority for part 2400 continues to read as follows:

Authority: 29 U.S.C. 552a(f); 5 U.S.C. 553.

2. Part 2400 is amended as follows:

§§ 2400.6, 2200.7 [Amended]

In 29 CFR part 2400 remove the words "1825 K Street NW., Washington, DC 20006" and add, in their place, the words "One Lafayette Centre, 1120–20th Street NW., 9th Floor, Washington, DC 20036–3419" in the following places:

(a) Section 2400.6(a)(1); and

(b) Section 2400.7(c)(1).

Dated: April 27, 1993.

Earl R. Ohman, Jr.,

General Counsel.

BILLING CODE 7600–01–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 161

[CGD 91–032]

RIN 2115–AD79

Prince William Sound Automated Dependent Surveillance System; Equipment Carriage Requirement

AGENCY: Coast Guard, DOT.

ACTION: Final Rule: change of compliance date.

SUMMARY: On July 17, 1992, the Coast Guard published a final rule in the **Federal Register** (57 FR 31660). This final rule amended the Prince William Sound Vessel Traffic Service (VTS) regulations by incorporating the use of Automated Dependent Surveillance (ADS) using Differential Global Positioning System (DGPS). The regulation will require tank vessels of 20,000 DWT or more, transiting Prince William Sound (PWS), to carry operating Automated Dependent Surveillance Shipborne Equipment (ADSSE). The compliance date for this rule is August 1, 1993. As a result of delays in awarding the contract for the development and implementation of the ADS system, the Coast Guard has decided to delay this compliance date. The Coast Guard has determined that the ADS system will be completed and fully operational by mid 1994 and is amending the final rule to require compliance by July 1, 1994.

EFFECTIVE DATE: This regulation is effective April 30, 1993.

FOR FURTHER INFORMATION CONTACT: Irene Hoffman, Project Manager, Vessel Traffic Services Division. The telephone number is 202–267–6277.

SUPPLEMENTARY INFORMATION: Section 5004 of the Oil Pollution Act of 1990, (the Act), as codified in 33 U.S.C. 2374, directed the Coast Guard to acquire, install, and operate additional equipment, as necessary, to provide surveillance of tank vessels carrying oil from the Trans-Alaskan Pipeline through Prince William Sound.

While endeavoring to meet the requirements of the Act, the Coast Guard investigated various types of surveillance systems, including radar and dependent surveillance systems.

The Coast Guard determined an ADS system that uses DGPS will meet the Coast Guard's requirements without being cost prohibitive to the Government and the user. The shipboard portion of the system, the ADSSE, includes a 12 channel all-in-view DGPS receiver, a marine radiobeacon band receiver capable of receiving DGPS error correction messages, a VHF/FM transceiver using Digital Selective Calling (DSC), and a control unit.

The amended regulations will require tank vessels of 20,000 DWT or more to carry an operating ADSSE while transiting Prince William Sound.

Regulatory Evaluation

The small entities, collection of information, federalism and environmental considerations discussed in the final rule (57 FR 31660) are unaffected. This notice is merely delaying the compliance date and does not make any substantive changes.

List of Subjects in 33 CFR Part 161

Harbors, Incorporation by Reference, Navigation (water), Vessels, Waterways.

For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 161 as follows:

PART 161—VESSEL TRAFFIC MANAGEMENT

1. The authority citation for part 161 continues to read as follows:

Authority: 33 U.S.C. 1231, 2734; 49 CFR 1.46.

§ 161.376 [Amended]

2. In § 161.376(a)(5) introductory text, remove the words "August 1, 1993" and add, in its place, the words "July 1, 1994".

Dated: April 26, 1993.

W. J. Ecker,

Rear Admiral, U.S. Coast Guard, Chief, Office of Navigation Safety and Waterway Services.

BILLING CODE 4910–14–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 80

[FRL–4619–8]

Final Approval of Colorado's Petition To Relax the Federal Reid Vapor Pressure Volatility Standard for Colorado in 1992 and 1993

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: This action promulgates a revision of the federal Reid Vapor Pressure (RVP) standard applicable to gasoline introduced into commerce from June 1 to September 15 in the Denver-Boulder ozone nonattainment area.[1] This revision relaxes the RVP standard from 7.8 pounds per square inches (psi) to 9.0 psi until 1994. Federal Phase II voletility standards were promulgated by EPA on June 11, 1990 and revised on December 12, 1991, pursuant to section 211(h) of the Clean Air Act, as amended by the Clean Air Act Amendments of 1990 (the Act). EPA's decision is in response to a petition by the State of Colorado and is based on evidence that the Denver-Boulder area does not need the 7.8 psi standard to maintain ozone attainment in the near term and that the 7.8 psi standard would impose significant costs on industry and consumers.

EFFECTIVE DATE: This regulation is effective June 1, 1993.

[1] The Denver-Boulder area was designated by EPA as a transitional nonattainment area in the **Federal Register** on November 6, 1991 (56 FR 56694, 56735).

ADDRESSES: Materials relevant to this rulemaking have been placed in Docket A–92–08 by EPA. The docket is located at the Air Docket Section (LE–131), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC. 20460, in room M–1500 Waterside Mall and may be inspected from 8:30 a.m. to 12:00 p.m. and from 1:30 p.m. to 3:30 p.m. Monday through Friday. A reasonable Fee may be charged for copying docket material.

FOR FURTHER INFORMATION CONTACT: Michael L. Ball, Regional/State/Local Coordination Section, Field Operations and Support Division (6406J), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. Telephone: (202) 233–9005.

SUPPLEMENTARY INFORMATION:

I. Introduction

This final rule approves Colorado's request to change the federal Reid Vapor Pressure (RVP) standard of 7.8 psi to 9.0 psi in the Denver-Boulder ozone nonattainment area from June 1 to September 15 until 1994. The remainder of this notice is divided into three parts. Section II provides the background for this action. Section III describes today's action. Finally, Section IV summarizes public comments and EPA's responses.

II. Background

A. Previous EPA Rulemakings Concerning Summer Gasoline Volatility

On August 19, 1987, EPA proposed a two-phase national program to reduce summertime gasoline volatility.[2] The Agency published a Notice of Final Rulemaking on March 22, 1989 that promulgated Phase I of the program.[3] The Phase II volatility standards were finalized on June 11, 1990.[4] These volatility standards went into effect on May 1, 1992.

The final rule for the Phase I program established a federal volatility standard in Colorado of 10.5 psi for the month of May, and 9.5 for June through September 15. The Phase II rule required a further reduction in the volatility standard to 9.0 psi for May and 7.8 psi for June 1 through September 15 beginning in 1992. The Phase I and Phase II standards were applicable on a statewide basis.

On December 12, 1991[5] EPA finalized the Phase II summer ozone volatility standards to reflect the new section 211(h) requirements of the Act.[6] In that notice, the RVP standard was changed to 9.0 psi in all attainment areas. For areas that have been designated as nonattainment, the original Phase II standards published on June 11, 1990 remain in effect. For a more detailed discussion of previous EPA rulemakings concerning gasoline volatility, see the Notice of Proposed Rulemaking (NPRM) for this rulemaking.[7]

B. Colorado's Petition

On October 16, 1991, EPA received a petition from Governor Roy Romer of Colorado requesting that EPA amend the federal RVP standards for the Denver-Boulder ozone nonattainment area. The specific change requested was to relax the 7.8 psi standard for the Denver-Boulder nonattainment area to 9.0 psi for 1992 and 1993 only.

The State of Colorado's request resulted from a resolution from the Colorado Air Quality Control Commission (the Commission) recommending a relaxation of the federal RVP standard. The Commission's recommendation was based on information received at a public hearing held on August 15, 1991, and after consideration of the environmental and economic impact of the more restrictive federal standard. At the public hearing the Air Pollution Control Division (APCD) of the Colorado Department of Health testified that the Denver-Boulder nonattainment area had not violated the National Ambient Air Quality Standard (NAAQS) for ozone for the period from January 1, 1987 to December 31, 1989. APCD also stated that the available data for 1990 and 1991 indicated that there were no days in those years in which ozone levels exceeded the federal standard. Moreover, the APCD noted that gasoline volatility standard for the Denver-Boulder area from 1989–1991 was 9.5 psi, which was higher than the 9.0 psi standard APCD recommended. On that basis, the APCD concluded that the Denver-Boulder nonattainment area would likely be classified as a transitional area under Clean Air Act section 185(A)[8] and that the area would not require the 7.8 psi standard to maintain compliance with ozone NAAQS at least until 1994.[9] The public

VOL 58 ISS 82 APR 30 1993 UMI

hearing is discussed in detail in the NPRM.

The Commission's recommendation also stated that an ozone maintenance plan for the Denver-Boulder area was scheduled to be developed and submitted to EPA by June 1993 and that the projected cost of lowering the volatility standard in the Denver-Boulder area would be $5–10 million per year.

III. Description of Today's Action

On May 12, 1992, EPA proposed to approve the State of Colorado's petition to relax until 1994 the gasoline volatility standard for the Denver-Boulder nonattainment area.[10] EPA received three comments in response to this proposal. For the reasons discussed below, (and in greater detail in the NPRM), EPA today is approving the State of Colorado's petition.

EPA has reviewed the State of Colorado's petition and has found that the request to relax the federal volatility standard for the Denver-Boulder nonattainment area until 1994 from the current standard of 7.8 psi to 9.0 psi is justified based on the petition itself, the evidence submitted on behalf of Governor Romer, and EPA's own analysis of the costs of implementation of the 7.8 psi standard and the environmental need for the 7.8 psi standard. The petition and available evidence sufficiently demonstrate that retention of the 7.8 psi standard would impose significant costs on consumers and industry relative to a 9.0 psi standard,[11] and that the 7.8 psi standard is not necessary for emission control at this time in light of the current transitional status of the Denver-Boulder area. The relaxation is therefore justified under section 211(h) of the Act.[12]

The Denver-Boulder area's record of compliance with the ozone NAAQS[13] provides adequate assurance that the Denver-Boulder area will not need the 7.8 standard in the near term to comply with the current ozone standard. Further, Colorado has indicated that it intends to submit an ozone maintenance plan for the Denver-Boulder area by June 1993. Submittal of such a plan is required within twelve months after EPA determines that a transitional area attained the NAAQS by December 31, 1991. This maintenance plan would show how the ozone NAAQS will be maintained for ten years. Such a plan must be submitted for the area to be redesignated as being in attainment. The two year relaxation of the 7.8 psi standard provides Colorado with sufficient time for development of the maintenance plan.

EPA is imposing a 9.0 psi standard until 1994 to avoid burdening consumers and industry with costs that are unnecessary in light of current and past ozone monitoring data. In order to permanently change the Phase II volatility standard from 7.8 psi to 9.0 psi for 1994 and beyond, the Governor must formally petition EPA for such a change.

IV. Summary of Public Comments and EPA's Responses

A Notice of Proposed Rulemaking, "Proposed Approval of Colorado s Petition to Relax the Federal Reid Vapor Pressure Volatility Standard for Colorado in 1992 and 1993" was published in the **Federal Register** on May 12, 1992.[14] In this notice EPA proposed to relax it's volatility regulations from 7.8 psi to 9.0 psi for Colorado. Only three comments were submitted in response to this proposal.

One commenter has expressed concern that a relaxation in the RVP standard from 7.8 psi to 9.0 psi would be detrimental to the long term air quality of the Denver-Boulder nonattainment area. The commenter does not oppose the approval of Colorado's petition for 1992 and 1993 but is concerned about 1994 and beyond.

The commenter stated that 9.0 psi fuel at high altitude produces a combination of 144% more running loss and hot soak vapors than such fuel at sea level, and 34% more diurnal vapor than at sea level. Current vehicles are certified on 9.0 psi fuel at sea level. By operating vehicles on 9.0 psi fuel at high altitude, Colorado will lose some of the air quality benefits of the vehicle's evaporative emissions controls. According to the commenter, higher RVP standards beyond 1993 may jeopardize the ability of the Denver-Boulder area to maintain the ozone NAAQS.

EPA has given close consideration to the concerns raised regarding the performance of evaporative emission controls at high altitudes. Despite EPA's own concerns regarding the performance of vehicles at high altitudes, as well as a growing vehicle population, and the projected increase in vehicle miles travelled, EPA believes that, given the short-term nature of this rulemaking, the Denver-Boulder area's long-term achievement of the ozone NAAQS is not endangered by today's decision. EPA shares the commenter's concerns regarding a long-term relaxation of the 7.8 psi standard. Any petition from the State of Colorado for a permanent relaxation of the volatility standard beyond 1993 will have to address these concerns.

A second commenter believes that the proposed rulemaking was not properly certified under the Regulatory Flexibility Act (RFA) as having a positive economic impact. The commenter stated that the RFA requires that an analysis must be performed in cases where a regulation has been deemed as having a positive economic impact. The commenter stated that the agency must identify possible alternatives that would be even more beneficial to small businesses than what was intitially proposed. According to the commenter, an analysis is required in this case unless the beneficial impact is not significant or would not affect a substantial number of small business entities.

Today's rulemaking is limited to the Denver-Boulder area and does not impact a substantial amount of small business entities. The RFA requires a regulatory flexibility analysis for regulations that have a significant economic impact on a substantial number of small entities. EPA certifies that these regulations will not have a significant impact on a substantial number of small business entities. Therefore, a regulatory flexibility analysis is not required as part of this rulemaking. Today's rulemaking should have a positive economic benefit due to an estimated cost savings of one cent per gallon of gasoline when relaxing the volatility standard from 7.8 psi to 9.0 psi. EPA is not required to prepare a regulatory flexibility analysis for a regulation that does not have a significant economic impact.

The final commenter expressed concern that amendments to the Phase I or Phase II volatility standards which relaxed volatility standards might cause safety problems for automobiles. The commenter noted that based upon their safety investigations that they concluded that the RVP of gasoline increased approximately one psi for every 1,000 feet of increase in elevation. The commenter was concerned about a situation where gasoline purchased at lower elevations becomes extremely volatile when the vehicle is driven to higher elevations. The commenter stated that higher volatility fuels generate excessive vapor and might cause canister breakthrough and associated safety problems when using higher RVP fuels in the Denver area.

EPA has given close consideration to the safety concerns raised by the commenter. Prior to 1992, the Denver-Boulder nonattainment area Phase I volatility level was set at 9.5 psi. Implementation of a 9.0 psi standard in the Denver-Boulder nonattainment area represents a 0.5 psi decrease from the Phase I level. There is nothing in the record to indicate that there was a significant safety problem in the Denver-Boulder area resulting from the 9.5 psi standard. Also, there is nothing in the record that indicates there was a significant safety problem at the 9.0 psi standard for the 1992 control season. Under section 211(h) of the CAA, the national RVP standard for gasoline sold in attainment areas is set at 9.0 psi. As a result, attainment areas with geographic and meteorological conditions similar to the Denver-Boulder area are currently supplied with 9.0 psi gasoline. EPA believes that the reduction in volatility from 9.5 psi to 9.0 psi will enhance air quality and vehicle safety.

V. Environmental Impact

This rulemaking is not expected to have any adverse environmental effects. The Denver-Boulder six county nonattainment area has met the NAAQS since 1984. Air quality is expected to be further enhanced by a 9.0 psi standard which represents a 0.5 psi reduction in the Phase I levels.

VI. Economic Impact

The proposed relaxation of the 7 8 psi standard to 9 0 psi will result in a cost reduction in refining, and increase summertime gasoline supply levels. For each summer, this translates into approximately a 1.1 cent per gallon cost savings to consumers at the pump.

VII. Administrative Requirements

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601 through 612, whenever an agency is required to publish a general notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis which describes the impact of the rule on small entities (i.e., small businesses, small organizations and small governmental jurisdictions). The Administrator may certify, however, that the rule will not have a significant impact on a substantial number of small entities. In such circumstances, a regulatory flexibility analysis is not required.

Under section 605 of the Regulatory Flexibility Act, I certify that these regulations will not have a significant impact on a substantial number of small entities. As discussed previously, this rule is estimated to save approximately 1 cent per gallon of gasoline. Due to the nature of this relaxation of the regulatory standard, a regulatory flexibility analysis is not required.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement that a Regulatory Impact Analysis be prepared. Major regulations have an annual effect on the economy in excess of $100 million, have a significant adverse impact on competition, investment, employment or innovation, or result in a major price increase. This action does not constitute a major rule according to the established criteria. In fact, as discussed above, this action will reduce the cost of compliance with Federal requirements in this area. Therefore, I have determined that this final rule does not constitute a "major" rule.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291. No written comments were received from OMB.

Under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501, EPA must obtain OMB clearance for any activity that will involve collecting substantially the same information from 10 or more non-Federal respondents. This final rule does not create any new information requirements or contain any new information collection activities.

The statutory authority for this action is granted to EPA by sections 114, 211, and 301 of the Clean Air Act as amended (42 U.S.C. 7414, 7545, 7601(a), and 7607).

List of Subjects in 40 CFR Part 80

Administrative practice and procedure, Air pollution control, Environmental protection, Fuel additives, Gasoline, Motor vehicle and motor vehicle engines, Motor vehicle pollution, Penalties, Reporting and recordkeeping requirements.

Dated: April 26, 1993.

Carol M. Browner,

Administrator.

For the reasons set forth in the preamble, part 80 of title 40 of the Code of Federal Regulations is amended as follows:

PART 80—REGULATION OF FUELS AND FUEL ADDITIVES

1. The authority citation for part 80 continues to read as follows:

Authority: Secs. 114, 211, and 301(a) of the Clean Air Act, as amended (42 U.S.C. 7414, 7545, and 7601(a)).

2. Section 80.27 is amended by revising the entry for "Colorado" in the table in paragraph (a)(2) to read as follows:

§ 80.27 Controls and prohibitions on gasoline volatility.

(a) * * *

(2) * * *

APPLICABLE STANDARDS[1] 1992 and Subsequent Years

State	May	June	July	August	September
Colorado[2]	9.0	7.8	7.8	7.8	7.8

[1] Standards are expressed in pounds per square inch (psi).

[2] The standard for 1992 and 1993 in the Denver-Boulder nonattainment area will be 9.0 for June 1 through September 15.

Radio Broadcasting Services; Allouez and Sheboygan Falls, WI

AGENCY: Federal Communications Commission.

ACTION: Final rule.

"transitional area". 56 FR 56694 (November 6, 1991).

[10] 57 FR 23234. Also on May 12, 1992, EPA issued a temporary direct final rule relaxing the gasoline volatility standard in the Denver-Boulder area to 9.0 psi for the 1992 summer ozone season. 57 FR 20202 (May 12, 1992).

[11] EPA believes that it will cost refiners an additional $3,500,000 to $4,000,000 per year to reduce volatility from 9.0 psi to 7.8 psi gasoline for the Denver-Boulder area during the summer ozone season. The analysis underlying this estimate is set forth in a memorandum to the docket titled "Colorado Phase II Implementation: Industry Cost Analysis."

[12] Under section 211(h), EPA must set a national summertime gasoline volatility standard of 9.0 psi beginning in 1992. EPA must also establish more stringent volatility standards "in a nonattainment area as the Administrator finds necessary to generally achieve comparable evaporative emissions (on a per-vehicle basis) in nonattainment areas taking into consideration the enforceability of such standards, the need of an area for emission control and economic factors."

[13] EPA monitoring data indicate that the Denver-Boulder area has not violated the ozone NAAQS since 1984. Data for the 1990 and 1991 summer ozone seasons indicate that no violations occurred in 1990 or 1991. During this entire period, standards for gasoline volatility in the Denver-Boulder area were less stringent than the 9.0 psi standard that will go into effect as a result of this decision. From the data available to date no violations of the ozone NAAQS were measured during the 1992 ozone season with this lower volatility limit in place.

VOL 58 ISS 82 AP 30 1993 UMI

SUMMARY: This document allots Channel 294C3 to Allouez, Wisconsin, in response to a petition filed by Michael R. Walton. The coordinates for Channel 294C3 are 44–30–50 and 88–02–57. There is a site restriction 7.2 kilometers (4.4 miles) north of the community. In response to a counterproposal filed by Julian Jetzer d/b/a Sheboygan Falls Broadcasting, we will allot Channel 293A to Sheboygan Falls, Wisconsin. The coordinates for Channel 293A are 43–42–44 and 87–42–50. There is a site restriction 7.9 kilometers (4.9 miles) east of the community. The counterproposal filed by Wheeler Broadcasting, Inc. and Midwest Dimensions, Inc. is dismissed. With this action, this proceeding is terminated.

DATES: Effective June 7, 1993. The window period for filing applications for Channel 294C3 at Allouez, Wisconsin, and Channel 293A at Sheboygan Falls, Wisconsin, will open on June 8, 1993, and close on July 8, 1993.

49 CFR Part 24

[FHWA Docket No. 92–36]

RIN 2125–AD02

Uniform Relocation Assistance and Real Property Acquisition Regulation for Federal and Federally Assisted Programs

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This rule amends several sections of 49 CFR part 24 which set forth governmentwide requirements for implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act (Uniform Act), 42 U.S.C. 4601–4655. These amendments were the result of a review of part 24 that was aimed at reducing the burdens of government regulation. The FHWA, as lead agency for implementing the Uniform Act, is making several amendments that would assist small business and eliminate unnecessary regulation provisions. This rule will apply to the Uniform Act activities of 18 Federal agencies including the Department of Transportation.

EFFECTIVE DATE: June 1, 1993.

FOR FURTHER INFORMATION CONTACT: Marshall Schy, Chief, Policy Development Branch, Office of Right-of-Way, HRW–11, (202) 366–2035, or Reid Alsop, Office of Chief Counsel, HCC–31, (202) 366–1371. The address is Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:30 a.m. to 4 p.m., e.t., Monday through Friday, except legal Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

The governmentwide single rule (49 CFR part 24) implementing the Uniform Act was published in the **Federal Register** on March 2, 1989 (54 FR 8912). During the almost four years that this comprehensive regulation has been in effect, the FHWA, as the lead agency responsible for the development and issuance of this regulation with the active cooperation of the Department of Housing and Urban Development (HUD) and sixteen other Federal agencies, has become aware of the need to amend the regulation for purposes of clarification and simplification.

On January 28, 1992, the President issued a Memorandum For Certain Department and Agency Heads entitled "Reducing the Burden of Government Regulation" which called upon Departments and agencies to review their existing regulations in order to determine whether changes should be made to promote economic growth, create jobs, or eliminate unnecessary costs or other burdens on the economy.

While the monetary relocation assistance benefits provided in the regulation are primarily established by the Uniform Act, there is some administrative discretion, particularly with regard to determining moving and related expenses provided to businesses by section 202 of the Uniform Act (42 U.S.C. 4622).

The FHWA, as a result of its review of this regulation, has identified several amendments that it believes would enhance the relocation assistance benefits provided to displaced businesses, thus increasing their chances of a successful relocation, and would reduce the regulatory burden imposed on such businesses as well as on State and local governments implementing the regulation.

A notice of proposed rulemaking (NPRM) proposing these changes was published for comment on July 27, 1992 (57 FR 33164). The background of the amendments is discussed further in the NPRM.

As noted in the NPRM the FHWA anticipates cooperating with HUD and other Federal agencies to identify additional changes to this regulation which will be the subject of a future NPRM.

Amendments

Section 24.2(g)(2)(x) is amended to correct and clarify the application of the two statutes cited therein. Section 24.2(t), the definition of "small business," is amended to remove the requirement that there be at least one employee working at the site being acquired, a requirement which operated to deny eligibility for reestablishment costs to some businesses that would, otherwise have qualified for a reestablishment payment. Section 24.304 is amended by deleting several unnecessary restrictions upon payment of the reestablishment payment. Sections 24.602 and 24.603 of subpart G are amended to substitute an abbreviated process for obtaining a certification application and proceeding to certification approval, and to clarify related reporting requirements.

An additional technical amendment, not mentioned in the NPRM, is made to § 24.101(a) to reflect statutory

provisions (in 42 U.S.C. 4633(c)) added in part by the Intermodal Surface Transportation Efficiency Act of 1991 (Pub. L. 102–240, 105 Stat. 1914), which exclude the Rural Electrification Administration and the Tennessee Valley Authority from the real property acquisition provisions in subpart B of part 24.

Cross References

Part 24 of title 49, CFR, constitutes the governmentwide regulation implementing the Uniform Act. The regulations of seventeen other Federal departments and agencies contain cross references to this part, and this amendment of part 24 would be directly applicable to the relocation assistance activities of these departments and agencies. Those departments and agencies, and the parts of the Code of Federal Regulations which contain cross references to this part, are listed below:

Department of Agriculture
7 CFR Part 21
Department of Commerce
15 CFR Part 11
Department of Defense

38 CFR Part 25

Comments Received in Response to the NPRM

In response to the NPRM, the FHWA received a total of 5 comments, one from a Federal agency and four from State departments of transportation.

Section 24.2 Definitions

Section 24.2(g)(2)(x). No comments were received on the technical amendment of § 24.2(g)(2)(x).

Section 24.2(t). Small business. Two comments were fully supportive of the extension of entitlement for the reestablishment payment to certain small businesses that do not have at least one employee working at the site being acquired or displaced. One comment agreed with a limited extension of these benefits to such businesses, but did not believe it should include minor businesses such as vending machine operators or, possibly, landlords with small amounts of personal property.

Two commenters were concerned that either the amended definition of "small business" or the amended language of § 24.304, or both, would inequitably provide entitlement for a reestablishment payment to landlords whose "business is * * * operated at a displacement dwelling solely for the purpose of renting such dwelling to others" (23 CFR 24.306(2)(4)) and who, by statute and regulation, may not receive a fixed payment in lieu of moving expenses. The comments assumed that the Uniform Act and the implementing regulations deny such a person entitlement to both the reestablishment payment and the fixed payment. This is not correct. These are separate and distinct relocation benefits. While the Uniform Act clearly denies entitlement to a fixed payment to this type of business, it does not deny this type of business entitlement to a reestablishment payment. This type of business was only excluded from entitlement to a reestablishment payment in the regulation, as originally written, by virtue of the more narrow definition of small business, which required at least one employee to be working at the site. While the amended definition of "small business" may now include a business operated at the displacement dwelling solely for the purpose of renting the dwelling to others, this does not, automatically, meet all the criteria for entitlement. Such a business is entitled to a reestablishment payment if it meets the criteria to qualify for that payment, i.e., the expenses must be actually incurred and they must be reasonable and necessary as determined by the agency.

The FHWA does not consider that amending the definition of "small business" creates an inequity with respect to businesses of this type. In addition, the Department of Housing and Urban Development has supported making such businesses eligible for the reestablishment payment.

One additional comment from the Wisconsin Department of Transportation indicated that it considered the inclusion of certain owners of rental property within the definition of "small business" to be inequitable and, in addition, to conflict with its law. We have examined the relevant provisions of Wisconsin law and they appear to be virtually identical to comparable provisions of the Uniform Act. Accordingly, we assume any potential conflict exists in the State regulations, which could be revised to reflect the changes made by this rule. We encourage the Wisconsin DOT, or any other governmental body, to provide further comments if there is a serious compliance problem.

The new definition of "small business" should provide more assistance to small businesses that are displaced by Federal or federally-assisted projects and, we believe, better implements the objectives of the Uniform Act. The statute is clear that payments are available for "actual reasonable expenses necessary to reestablish a * * * small business * * *" The FHWA believes that sufficient control rests with the displacing agency in terms of its determination of the actual, reasonable, and necessary criteria to prevent abuse of this provision.

Section 24.304 Reestablishment expenses—nonresidential moves.

Two comments were fully in agreement with the removal of the dollar limitations placed on certain expenditures that are considered in determining the total reestablishment payment.

Section 24.602 Certification application. Only one comment, a favorable one, was received.

Section 24.603 Monitoring and corrective action. Only one comment, a favorable one, was received.

Rulemaking Analyses and Notices

Executive Order 12291 (Federal Regulation) and DOT Regulatory Policies and Procedures

The FHWA has determined that this document does not contain a major rule under Executive Order 12291, nor is it a significant rule under the policies and procedures of the Department of Transportation relating to regulations. The rulemaking would not affect the level of funding available in Federal or federally assisted programs covered by the Uniform Act, or otherwise have a significant economic impact on the nation's economy. Accordingly, a full regulatory evaluation is not required.

Regulatory Flexibility Act

In compliance with the Regulatory Flexibility Act (Pub. L. 96–354), the

VOL 58 ISS 82 AP 30 1993 UMI

agency has evaluated the effects of this rule on small entities and hereby certifies that this action will not have a significant economic impact on a substantial number of small entities since it makes only relatively small changes to existing regulatory provisions.

Environmental Impacts

The FHWA has also analyzed this action for the purpose of the National Environmental Policy Act (42 U.S.C. 4321 et seq.), and has determined that this action would not have any effect on the human environment.

Executive Order 12612 (Federalism Assessment)

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this action does not have sufficient federalism implications to warrant the preparation of a federalism assessment. This action, in effect, both clarifies and simplifies current regulatory requirements.

Paperwork Reduction Act

This rule is not subject to the Paperwork Reduction Act (44 U.S.C. 3501, et seq.), since it does not require the collection or retention of any new data.

Regulation Identification Number

A regulation identification number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN contained in the heading of this document can be used to cross reference this action with the Unified Agenda.

List of Subjects in 49 CFR Part 24

Real property acquisition, Relocation assistance, Reporting and recordkeeping requirements, Transportation.

Issued on: April 20, 1993.

E. Dean Carlson,

Executive Director.

In accordance with the foregoing, part 24 of title 49, Code of Federal Regulations, is amended as set forth below.

PART 24—[AMENDED]

1. The authority citation for 49 CFR part 24 continues to read as follows:

Authority: 42 U.S.C. 4601 *et seq.*; 49 CFR 1.48(cc).

§ 24.2 [Amended]

2. In § 24.2, paragraphs (g)(2)(x) and (t) are revised to read as follows:

§ 24.2 Definitions.

* * * * *

(g) * * *

(2) * * *

(x) An owner who retains the right of use and occupancy of the real property for a fixed term after its acquisition by the Department of the Interior under Public Law 93–477 or Public Law 93–303, except that such owner remains a displaced person for purposes of subpart D of this part; or

* * * * *

(t) *Small business.* A business having not more than 500 employees working at the site being acquired or displaced by a program or project, which site is the location of economic activity. Sites occupied solely by outdoor advertising signs, displays, or devices do not qualify as a business for purposes of § 24.304.

* * * * *

§ 24.101 [Amended]

3. In § 24.101 a new paragraph (a)(5) is added to read as follows:

§ 24.101 Applicability of acquisition requirements.

(a) * * *

(5) Acquisition for a program or project which is undertaken by, or receives Federal financial assistance from, the Tennessee Valley Authority or the Rural Electrification Administration.

* * * * *

§ 24.304 [Amended]

4. Section 24.304 is amended by revising the introductory text of the section, the introductory text of paragraph (a), paragraphs (a)(3), (a)(8), and (a)(10); by removing paragraph (a)(13); and by removing paragraph (b)(3), then redesignating paragraphs (b)(4) and (b)(5) as paragraphs (b)(3) and (b)(4), respectively.

§ 24.304 Reestablishment expenses—non-residential moves.

In addition to the payments available under § 24.303 of this subpart, a small business, as defined in § 24.2(t), farm or nonprofit organization is entitled to receive a payment, not to exceed $10,000, for expenses actually incurred in relocating and reestablishing such small business, farm or nonprofit organization at a replacement site.

(a) *Eligible expenses.* Reestablishment expenses must be reasonable and necessary, as determined by the Agency. They include, but are not limited to, the following:

* * * * *

(3) Construction and installation costs for exterior signing to advertise the business.

* * * * *

(8) Advertisement of replacement location.

* * * * *

(10) Estimated increased costs of operation during the first 2 years at the replacement site for such items as:

* * * * *

§ 24.602 [Amended]

5. Section 24.602 is revised to read as follows:

§ 24.602 Certification application.

An agency wishing to proceed on the basis of a certification may request an application for certification from the lead agency [Director, Office of Right-of-Way, HRW–1, Federal Highway Administration, 400 Seventh St. SW., Washington, DC 20590]. The completed application for certification must be approved by the governor of the State, or the governor's designee, and must be coordinated with the Federal funding agency, in accordance with application procedures.

§ 24.603 [Amended]

6. In § 24.603, paragraph (d) is revised to read as follows:

§ 24.603 Monitoring and corrective action.

* * * * *

(d) The lead agency may require periodic information or data from affected Federal or State agencies.

BILLING CODE 4910–22–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 675

[Docket No. 921185–3021]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing the directed fishery for Pacific cod by vessels using trawl gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary because the total 1993 Pacific halibut bycatch mortality allowance for the trawl Pacific cod fishery in the BSAI has been reached.

EFFECTIVE DATES: Effective 12 noon, Alaska local time (A.l.t.), April 28, 1993, through 12 midnight, A.l.t., December 31, 1993.

FOR FURTHER INFORMATION CONTACT: Andrew N. Smoker, Resource Management Specialist, Fisheries Management Division, NMFS, 907–586–7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the BSAI exclusive economic zone is managed by the Secretary of Commerce according to the Fishery Management Plan for the Groundfish Fishery of the BSAI (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 675.

The 1993 Pacific halibut bycatch mortality allowance for the trawl Pacific cod fishery, which is defined at § 675.21(b)(1)(iii)(E), is 1,000 metric tons (58 FR 14524, March 18, 1993).

The Director of the Alaska Region, NMFS, has determined, in accordance with § 675.21(c)(1)(iv), that the Pacific halibut bycatch mortality allowance for the trawl Pacific cod fishery has been reached. Therefore, NMFS is prohibiting directed fishing for Pacific cod by vessels using trawl gear in the BSAI from 12 noon, A.l.t., April 28, 1993, through 12 midnight, A.l.t., December 31, 1993.

Directed fishing standards for applicable gear types may be found in the regulations at § 675.20(h).

Classification

This action is taken under § 675.21 and complies with E.O. 12291.

Proposed Rules

Federal Register
Vol. 58, No. 82
Friday, April 30, 1993

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 92-NM-179-AD]

Airworthiness Directives; Boeing Model 767 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the supersedure of an existing airworthiness directive (AD), applicable to all Boeing Model 767 series airplanes, that currently requires functional checks of the leading edge slat shutoff valve, the trailing edge flap drive bypass valve, the leading edge slat long term shutoff control, and the leading edge inboard and outboard slat drive mechanical rigging. That action was prompted by a report of an uncommanded slat extension during cruise, and several instances of an inoperative trailing edge flap bypass valve motor. This action would require repetitive functional checks of the leading edge slat long term shutoff control and the leading edge inboard and outboard slat drive mechanical rigging; would require installation of a modification as terminating action for the functional checks; and would limit the applicability of the rule. The actions specified by the proposed AD are intended to prevent uncommanded deployment of the leading edge slats, which could result in structural damage to the wing and consequent degradation of flight control.

DATES: Comments must be received by June 25, 1993.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-179-AD, 1601 Lind Avenue SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: David Herron, Aerospace Engineer, Seattle Aircraft Certification Office, Systems and Equipment Branch, ANM-130S, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2672; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule.

All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-NM-179-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-179-AD, 1601 Lind Avenue SW., Renton, Washington 98055-4056.

Discussion

On December 1, 1989, the FAA issued AD 89-26-04, Amendment 39-6423 (54 FR 51195, December 13, 1989), applicable to all Model 767 series airplanes, to require repetitive functional checks of the leading edge slat shutoff valve, and the trailing edge flap drive bypass valve; a one-time functional check of the leading edge slat long term shutoff control, and the leading edge inboard and outboard slat drive mechanical rigging; and replacement of failed parts, if necessary. That action was prompted by a report of an uncommanded slat extension during cruise, and several instances of an inoperative trailing edge flap bypass valve motor. The requirements of that AD are intended to prevent uncommanded deployment of leading edge slats and to ensure trailing edge flap shutdown protection and trailing edge flap alternate mode availability.

Since the issuance of that AD, the FAA has determined, based on service history, that the leading edge slat long term shutoff control and the leading edge inboard and outboard slat drive mechanical rigging must be checked repetitively to ensure that the flap lever rotary variable differential transformer (RVDT) and outboard slat power drive unit (PDU) remain properly rigged. Such action is necessary to prevent the unsafe condition presented by uncommanded deployment of the leading edge slats.

The FAA has reviewed and approved Boeing Alert Service Bulletin 767-27A0094, Revision 4, dated October 22, 1992, that describes procedures for functional checks of the leading edge slat shutoff valve, the trailing edge flap drive bypass valve, the leading edge slat long term shutoff control, and the leading edge inboard and outboard slat drive mechanical rigging. The service bulletin also limits the effectivity listing to include airplanes having line positions 001 through 402, inclusive.

Additionally, since the issuance of that AD, the FAA has approved design modifications that will prevent uncommanded leading edge slat extension and will ensure trailing edge flap shutdown protection and trailing edge flap alternate mode availability. The FAA has approved the installation of these design modifications as terminating action for the requirements of AD 89-26-04. These design modifications include installation of (1) a pressure switch to monitor slat shutoff valve position; (2) a modified RVDT; (3) a modified flap/slat electrical unit (FSEU) to monitor this new equipment and initiate a maintenance level message, "SLAT ISLN VAL," if the slat shutoff valve does not operate properly; and (4) a modified bypass valve module with a hermetically sealed bypass valve motor. These design modifications have been incorporated in production on Model 767 series airplanes, line positions 403 and subsequent.

The FAA has reviewed and approved Boeing Alert Service Bulletin 767-27-0096, dated April 23, 1992, which describes procedures for installation of a modified bypass valve module with a hermetically sealed bypass valve motor. The service bulletin limits the effectivity listing to include airplanes having line positions 001 through 402, inclusive.

The FAA has also reviewed and approved Boeing Alert Service Bulletin 767-27-0108, Revision 1, dated October 1, 1992, which describes procedures for installation of a pressure switch and replacement of a RVDT and the FSEU. The service bulletin also limits the effectivity listing to include airplanes having line positions 001 through 402, inclusive.

Since an unsafe condition has been identified that is likely to exist or develop on other products of this same type design, the proposed AD would supersede AD 89-26-04. It would continue to require repetitive functional checks of the leading edge slat shutoff valve and the trailing edge flap drive bypass valve, and the replacement of failed parts, if necessary. However, this proposed action also would require repetitive functional checks of the leading edge slat long term shutoff control, and of the leading edge inboard and outboard slat drive mechanical rigging. It also would limit the applicability of the rule to include only those airplanes having line positions 001 through 402, inclusive.

This proposed AD also would require installation of the design modifications described previously; such installation would constitute terminating action for the proposed repetitive functional checks.

There are approximately 402 Model 767 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 143 airplanes of U.S. registry would be affected by this proposed AD. The FAA estimates that it would take approximately 12 work hours per airplane to accomplish the proposed functional checks, and an average of 60 work hours per airplane to accomplish the proposed terminating action. The average labor rate is $55 per work hour. Required parts would cost approximately $4,200 per airplane. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $1,166,880, or $8,160 per airplane. This total cost figure assumes that no operator has yet accomplished the proposed requirements of this AD action.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES.**

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety. The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. app. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-6423 (54 FR 51195, December 13, 1989), and by adding a new airworthiness directive (AD), to read as follows:

Boeing: Docket 92-NM-179-AD. Supersedes AD 89-26-04, Amendment 39-6423.

Applicability: Model 767 series airplanes, line positions 001 through 402, inclusive; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

Note 1: Paragraph (a) of this AD restates the requirement for repetitive functional checks contained in paragraph A. of AD 89-26-04. The first functional check required by this AD must be performed within the specified repetitive inspection interval after the last inspection performed in accordance with paragraph A. of AD 89-26-04.

Note 2: Paragraph (b) of this AD restates the requirements of paragraph B. of AD 89-26-04. As allowed by the phrase, "unless accomplished previously," if the requirements of paragraph B. of AD 89-26-04 have been accomplished previously, paragraph (b) of this AD does not require that they be repeated.

To prevent uncommanded deployment of the slats and to ensure trailing edge flap shutdown protection and trailing edge flap alternate mode availability, accomplish the following:

(a) Within the next 25 days after December 27, 1989 (the effective date of AD 89-26-04, amendment 39-6423), and thereafter at intervals not to exceed 400 hours time-in-service, conduct a functional check of the leading edge slat shutoff valve and the trailing edge flap drive bypass valve in accordance with Boeing Alert Service Bulletin 767-27A0094, dated September 28, 1989; or Revision 4, dated October 22, 1992.

(b) Within the next 25 days after December 27, 1989, conduct a functional check of the leading edge slat long term shutoff control and the leading edge inboard and outboard slat drive mechanical rigging in accordance with Boeing Alert Service Bulletin 767-27A0094, dated September 28, 1989.

(c) Within 4,000 flight hours after the effective date of this AD, and thereafter at intervals not to exceed 4,000 hours time-in-service, conduct a functional check of the leading edge slat long term shutoff control and the leading edge inboard and outboard slat drive mechanical rigging, in accordance with Boeing Alert Service Bulletin 767-27A0094, Revision 4, dated October 22, 1992.

(d) If any failed parts are detected by the functional checks required by paragraphs (a), (b), or (c) of this AD, prior to further flight, replace the failed part in accordance with the Boeing 767 Maintenance Manual.

(e) Within 12,000 flight hours after the effective date of this AD, accomplish the requirements of paragraphs (e)(1) and (e)(2) of this AD. Accomplishment of these requirements constitutes terminating action for the repetitive functional checks required by paragraphs (a) and (c) of this AD.

(1) Install a pressure switch and replace the rotary variable differential transformer

VOL 58 ISS 82 AP 30 1993 UMI

(RVDT) and the flap/slat electrical unit (FSEU) in accordance with Boeing Alert Service Bulletin 767-27-0108, Revision 1, October 1, 1992,

(2) Replace the bypass valve motor in accordance with Boeing Alert Service Bulletin 767-27-0096, dated April 23, 1992.

(f) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(g) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on April 26, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 93-10149 Filed 4-29-93; 8:45 am]

BILLING CODE 4910-13-P

---

14 CFR Part 39

[Docket No. 93-NM-32-AD]

Airworthiness Directives; Canadair Model CL-215-1A10 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain Canadair Model CL-215-1A10 series airplanes. This proposal would require modification of the right aileron and aileron tab. This proposal is prompted by an updated flutter analysis performed by the manufacturer, which revealed a potential flutter condition on certain Canadair Model CL-215-1A10 series airplanes. The actions specified by the proposed AD are intended to prevent potential flutter of the rudder-aileron interconnect tab, which could result in reduced controllability of the airplane.

DATES: Comments must be received by June 25, 1993.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-32-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Bombardier, Inc., Canadair, Aerospace Group, P.O. Box 6087 Station A, Montreal, Quebec H3C 3G9, Canada. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the FAA, Engine and Propeller Directorate, New York Aircraft Certification Office, 181 South Franklin Avenue, room 202, Valley Stream, New York.

FOR FURTHER INFORMATION CONTACT: Jeff Casale, Aerospace Engineer, Airframe Branch, ANE-172, FAA, Engine and Propeller Directorate, New York Aircraft Certification Office, 181 South Franklin Avenue, room 202, Valley Stream, New York 11581; telephone (516) 791-6220; fax (516) 791-9024.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 93-NM-32-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 93-NM-32-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

Discussion

Transport Canada Aviation, which is the airworthiness authority for Canada, recently notified the FAA that an unsafe condition may exist on certain Canadair Model CL-215-1A10 series airplanes. Transport Canada Aviation advises that an updated flutter analysis, performed by Canadair during the development of the Model CL-215-6B11 turboprop airplane, revealed that a potential flutter condition affecting the rudder-aileron interconnect tab could occur on certain Canadair Model CL-215-1A10 series airplanes. (The Model CL-215-6B11 is a Model CL-215-1A10 that has been converted from piston engine power to turbopropeller power.) This flutter analysis further revealed that, if the rudder-aileron interconnect mechanism fails, a flutter condition could occur at pressure altitudes above 10,000 feet. This condition, if not corrected, could result in reduced controllability of the airplane.

Canadair has issued Model CL-215-1A10 Alert Service Bulletin 215-A435, dated August 14, 1990, that describes procedures for installing weights to the aileron balance weight mounting channel and installing washers to the interconnect tab mass balance arms. This modification will maintain an aileron control surface mass balance within specified limits. Transport Canada Aviation classified this service bulletin as mandatory and issued Canadian Airworthiness Directive CF-90-11, dated June 26, 1990, in order to assure the continued airworthiness of these airplanes in Canada.

This airplane model is manufactured in Canada and is type certificated for operation in the United States under the provisions of Section 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, Transport Canada Aviation has kept the FAA informed of the situation described above. The FAA has examined the findings of Transport Canada Aviation, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of the same type design registered in the United States, the proposed AD would require modification of the right aileron and aileron tab. The actions would be required to be accomplished in accordance with the service bulletin described previously.

Currently, there are no Canadair Model CL-215-1A10 series airplanes on the U.S. Register. However, should an affected airplane be imported and placed on the U.S. Register in the future, it would require approximately 20 work hours to accomplish the required actions, at an average labor charge of $55 per work hour. Based on these figures, the total cost impact of this AD would be $1,100 per airplane.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES.**

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. app. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Canadair: Docket 93-NM-32-AD.

Applicability: Model CL-215-1A10 series airplanes; serial number 1001 to 1125, not equipped with powered ailerons; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent potential flutter of the rudder-aileron interconnect tab, which could result in reduced controllability of the airplane, accomplish the following:

(a) Within 12 months after the effective date of this AD, on the right wing install weights to the aileron balance weight mounting channel and washers to the interconnect tab mass balance arms, in accordance with Canadair Model CL-215-1A10 Alert Service Bulletin 215-A435, dated August 14, 1990.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, New York Aircraft Certification Office (ACO), FAA, Engine and Propeller Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, New York ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the New York ACO.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on April 26, 1993.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Part 656

RIN 1205-AA87

Labor Certification Process for the Permanent Employment of Aliens in the United States; Labor Market Information Pilot Program

AGENCY: Employment and Training Administration, Labor.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: This document reopens the period for filing comments regarding the proposed rule to implement the labor market information pilot program. This action is taken to permit additional comment from interested parties.

DATES: Comments shall be submitted by June 1, 1993.

ADDRESSES: Submit comments to: Carolyn M. Golding, Acting Assistant Secretary, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210; Attention: United States Employment Service, Division of Foreign Labor Certifications, room N-4456.

FOR FURTHER INFORMATION CONTACT: Flora Richardson, Chief, Division of Foreign Labor Certifications, United States Employment Service. Telephone: (202) 219-5263 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 19, 1993 (58 FR 15242), the Department of Labor published a proposed rule to amend the labor certification process for the permanent employment of immigrant aliens under the Immigration and Nationality Act. See 8 U.S.C. 1182 (a)(5)(A). These amendments are necessary in order to implement the labor market information pilot program provided for in section 122(a) of the Immigration Act of 1990. Public Law 101-649, 104 Stat. 4978. Interested parties were requested to submit comments on or before April 19, 1993.

Because of the continuing interest in this proposal, the agency believes that it is desirable to reopen the comment period for all interested parties. Numerous commenters have requested such an extension including, but not limited to: The Subcommittee on Employment, Housing, and Aviation of the U.S. House of Representatives' Committee on Government Operations; the AFL-CIO; the American Chemical Society; the American Association of Engineering Societies; and the National Association of Computer Consultant Businesses.

Therefore, the comment period for the proposed rule, FR Doc. 93-6363, published at 58 FR 15242 (March 19, 1993), to amend 20 CFR part 656, is reopened for the period described above in **DATES.**

Signed at Washington, DC this 27th day of April, 1993.

Carolyn M. Golding,

Acting Assistant Secretary of Labor.

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 904

Arkansas Abandoned Mine Land Reclamation Plan

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing on proposed amendment.

SUMMARY: OSM is announcing receipt of a proposed amendment to the Arkansas abandoned mine land reclamation plan (hereinafter, the "Arkansas plan") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed amendment consists of revisions to the Arkansas Surface Coal Mining and Reclamation Act of 1979 pertaining to the Arkansas plan as discussed in "SUPPLEMENTARY INFORMATION," II. Proposed Amendment. The amendment is intended to revise the Arkansas plan to be consistent with the corresponding Federal standards.

This document sets forth the times and locations that the Arkansas plan and proposed amendment to that plan are available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed regarding the public hearing, if one is requested.

DATES: Written comments must be received by 4 p.m., c.d.t. June 1, 1993. If requested, a public hearing on the proposed amendment will be held on May 25, 1993. Requests to present oral testimony at the hearing must be received by 4 p.m., c.d.t. on May 17, 1993.

ADDRESSES: Written comments should be mailed or hand delivered to James H. Moncrief at the address listed below.

Copies of the Arkansas plan, the proposed amendment, and all written comments received in response to this notice will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one free copy of the proposed amendment by contacting OSM's Tulsa Field Office.

James H. Moncrief, Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, 5100 East Skelly Drive, suite 550, Tulsa, Oklahoma 74135–6548, Telephone: (918) 581–6430.

Arkansas Department of Pollution Control and Ecology, Surface Mining and Reclamation Division, P.O. Box 8913, Little Rock, Arkansas 72209–8913, Telephone: (501) 562–7444.

FOR FURTHER INFORMATION CONTACT: James H. Moncrief, Telephone: (918) 581–6430.

SUPPLEMENTARY INFORMATION:

I. Background on Arkansas Plan
II. Proposed Amendment
III. Public Comment Procedures
IV. Procedural Determinations

I. Background on the Arkansas Plan

On May 2, 1983, the Secretary of the Interior approved the Arkansas plan. General background information on the Arkansas plan, including the Secretary's findings, the disposition of comments, and the approval of the Arkansas plan can be found in the May 2, 1983, Federal Register (48 FR 19710). Subsequent actions concerning Arkansas' plan and plan amendments can be found at 30 CFR 904.20.

II. Proposed Amendment

By letter dated March 31, 1993 (Administrative Record No. AAML–02), Arkansas submitted a proposed amendment to its plan pursuant to SMCRA. Arkansas, at its own initiative, submitted the proposed amendment to make its statute consistent with section 404 of SMCRA as amended by the Abandoned Mined Land Reclamation Act of 1990 (Pub. L. 101–508 title VI, subtitle A, Nov. 5, 1990, effective Oct. 1, 1991). Arkansas proposes to amend section 6 of the Arkansas Surface Coal Mining and Reclamation Act of 1979 relating to the eligibility of project sites for abandoned mined land fund expenditures. The amendment revises the definition of "lands eligible" thereby providing funds for reclamation of certain mine sites where the mining occurred after August 3, 1977. These sites would include (1) those sites affected between August 4, 1977 and November 21, 1980 (interim program sites), for which available funds were insufficient for adequate reclamation, and (2) sites affected between August 4, 1977 and March 5, 1993, where bond forfeiture funds were insufficient for adequate reclamation. Previously, Arkansas's plan provided funds only for reclamation of sites that were mined or affected by mining and abandoned or left in an inadequate reclamation status prior to August 3, 1977, and for which there was no continuing reclamation responsibility under State or Federal law.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 884.15(a), OSM is seeking comments on whether the proposed amendment satisfies the applicable plan approval criteria of 30 CFR 884.14. If the amendment is deemed adequate, it will become part of the Arkansas plan.

1. Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Tulsa Field Office will not necessarily be considered in the final rulemaking or included in the administrative record.

2. Public Hearing

Persons wishing to testify at the public hearing should contact the person listed under "FOR FURTHER INFORMATION CONTACT" by 4 p.m., c.d.t. on May 17, 1993. The location and time of the hearing will be arranged with those persons requesting the hearing. If no one requests an opportunity to testify at the public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to testify have been heard. Persons in the audience who have not been scheduled to testify, and who wish to do so, will be heard following those who have been scheduled. The hearing will end after all persons scheduled to testify and persons present in the audience who wish to testify have been heard.

3. Public Meeting

If only one person requests an opportunity to testify at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting by contacting the person listed under "FOR FURTHER INFORMATION CONTACT." All such meetings will be open to the public and, if possible, notices of meetings will be posted at the locations listed under "ADDRESSES." A written summary of each meeting will be made a part of the administrative record.

IV. Procedural Determinations

1. Executive Order 12291

On March 30, 1992, the Office of Management and Budget (OMB) granted OSM an exception from sections 3, 4, 7, and 8 of Executive Order 12291 for actions related to approval or disapproval of State abandoned mine land reclamation plans and revisions thereof. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

2. Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State abandoned mine land reclamation plans and revisions thereof since each such plan is drafted and promulgated by a specific State, not by OSM. Decisions on proposed State abandoned mine land reclamation plans and revisions thereof submitted by a State are based on a determination of whether the submittal meets the requirements of title IV of SMCRA (30 U.S.C. 1231–1243) and the applicable Federal regulations at 30 CFR parts 884 and 888.

3. National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State abandoned mine land reclamation plans and revisions thereof are categorically excluded from compliance with the National Environmental Policy Act (42 U.S.C. 4332) by the Manual of the Department of the Interior (516 DM 6, appendix 8, paragraph 8.4B(29)).

4. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Peperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements established by SMCRA or previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions in the analyses for the corresponding Federal regulations.

BILLING CODE 4310–05–M

30 CFR Part 950

Wyoming Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; reopening and extension of comment period and opportunity for public hearing.

SUMMARY: OSM is announcing the receipt of additional information pertaining to a previously proposed amendment to the Wyoming permanent regulatory program (hereinafter, the "Wyoming program") under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed amendment would establish shrub density standards and working definitions applicable to all lands.

This document sets forth the times and locations that the Wyoming program and proposed amendment to that program are available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and procedures that will be followed regarding the public hearing, if one is requested.

DATES: Written comments must be received by 4 p.m., m.d.t. June 1, 1993. If requested, a public hearing on the proposed amendment will be held on May 25, 1993. Requests to present oral testimony at the hearing must be received by 4 p.m., m.d.t. on May 17, 1993.

ADDRESSES: Written comments should be mailed or hand delivered to Guy V. Padgett at the address listed below.

Copies of the Wyoming program, the proposed amendment, the additional information, and all written comments received in response to this document will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one free copy of the proposed amendment by contacting OSM's Casper Field Office.

Guy V. Padgett, Director; Casper Field Office; Office of Surface Mining Reclamation and Enforcement; 100 East B Street, room 2128; Casper, Wyoming 82601–1918. Telephone: (307) 261–5776.

Dennis Hemmer, Director; Wyoming Department of Environmental Quality; Herschler Building; 122 West 25th Street; Cheyenne, Wyoming 82002. Telephone: (307) 777–7758.

FOR FURTHER INFORMATION CONTACT: Guy V. Padgett, Director, Telephone: (307) 261–5776.

SUPPLEMENTARY INFORMATION:

I. Background on the Wyoming Program

On November 26, 1980, the Secretary of the Interior conditionally approved the Wyoming program. General background information on the Wyoming program, including the Secretary's findings, the disposition of comments, and conditions of approval of the Wyoming program can be found in the November 26, 1980 Federal Register (45 FR 78637). Subsequent actions concerning Wyoming's program and program amendments can be found at 30 CFR 950.12, 950.15, and 950.16.

II. Proposed Amendment

By letter dated January 6, 1993, (Administrative Record No. WY–21–1) Wyoming submitted the shrub density rules as a proposed amendment to its permanent program pursuant to SMCRA. The Wyoming proposed amendment is a State response designed to establish a shrub density standard applicable to all lands (excluding cropland and pastureland) used jointly by livestock and wildlife. The changes to the regulatory rule package are also reflected in changes made to Appendix A, Vegetation Sampling Methods and Reclamation Success Standards for Surface Coal Mining Operations.

OSM published a notice in the March 22, 1993 Federal Register (58 FR 15318) announcing receipt of the amendment and inviting public comment on the adequacy of the proposed amendment. The public comment period ended April 21, 1993. During the public comment period Wyoming submitted additional

VOL 58 ISS 82 AP 30 1993 UMI

information regarding this amendment. Wyoming submitted additional information on April 13, 1993, regarding shrub density legislation, Enrolled Act No. 86 (Senate File No. 39) (Administrative Record No. WY-21-21). The proposed legislation amends W.S. 35-11-103(e) by creating new paragraphs (xxviii) through (xxx); modifying the paragraph at W.S. 35-11-402(b); and creating a new subsection (c) at W.S. 35-11-402.

The proposed W.S. 35-11-103(e) would define at (xxviii) "agricultural Lands" to mean cropland, pastureland, hayland or grazingland; (xxix) "criteria habitat" to mean only that fish and wildlife habitat designated as critical by the United States Secretary of the Interior or Secretary of Commerce, for the survival and recovery of listed threatened and endangered species; (xxx) "important habitat" or "crucial habitat" to mean that fish and wildlife habitat, exclusive of agricultural lands, which in limited availability, increases the species diversity of a localized area and fulfills one (1) or more of the essential living requirements of important wildlife species.

Currently W.S. 35-11-402(b) provides for the establishment of standards for consultation and approval by state wildlife agencies regarding surface mining lands to be reclaimed for fish and wildlife habitat and that fish and wildlife habitat is defined in W.S. 35-11-103(e)(xxvi) and does not include grazingland as defined in W.S. 35-11-103(e)(xxvii). The proposed modification would additionally require that in establishing reclamation standards pursuant to this section and applicable federal law or regulation the council shall apply the definitions of W.S. 35-11-103(e) (xxvi) through (xxx).

The proposed W.S. 35-11-402(c) would require that for the reclamation of grazingland, operators shall be required to reestablish shrubs on ten percent (10%) of the affected surface at a density of one (1) shrub per nine (9) square meters, or to a pre-mining density, whichever is less. The shrubs used for reestablishment shall be those native to the general area, and shall include those found pre-mining, but the pre-mining dominant shrub need not be the dominant shrub in the post-mining reclamation.

III. Public Comment Procedures

OSM is reopening the comment period on the proposed Wyoming program amendment to provide the public an opportunity to reconsider the adequacy of the amendment in light of the additional materials submitted. In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Wyoming program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commentor's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Casper Field Office will not necessarily be considered in the final rulemaking or included in the administrative record.

Public Hearing

Persons wishing to testify at the public hearing should contact the person listed under "FOR FURTHER INFORMATION CONTACT" by 4 p.m., m.d.t. May 17, 1993. The location and time of the hearing will be arranged with those persons requesting the hearing. If no one requests an opportunity to testify at the public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to testify, and who wish to do so, will be heard following those who have been scheduled. The hearing will end after all persons scheduled to testify and persons present in the audience who wish to testify have been heard.

Public Meeting

If only one person requests an opportunity to testify at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting at the OSM office listed under "FOR FURTHER INFORMATION CONTACT." All such meetings will be open to the public and, if possible, notices of meetings will be posted at the locations listed under "ADDRESSES." A written summary of each meeting will be made a part of the administrative record.

BILLING CODE 4310-05-M

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 4

RIN 2900-AF02

Schedule for Rating Disabilities; Hemic and Lymphatic Systems

AGENCY: Department of Veterans Affairs.

ACTION: Proposed Rule.

SUMMARY: The Department of Veterans Affairs (VA) is proposing to amend its rating schedule regarding evaluation of hemic and lymphatic conditions. This amendment is necessary in order to comply with a General Accounting Office (GAO) study, which recommended that medical criteria in the rating schedule be reviewed and updated. The intended effect is to update the portion of the Schedule for Rating Disabilities pertaining to the hemic and lymphatic systems to ensure that it uses current medical terminology and unambiguous criteria for evaluating these disabilities and reflects recent medical advances.

DATES: Comments must be received on or before June 1, 1993. Comments will be available for public inspection until June 9, 1993. This change is proposed to be effective 30 days after the date of publication of the final rule.

ADDRESSES: Interested persons are invited to submit written comments, suggestions, or objections regarding this change to the Secretary of Veterans Affairs (271A), Department of Veterans Affairs, 810 Vermont Ave., NW., Washington, DC 20420. All written comments received will be available for public inspection only in the Veterans Services Unit, room 170, at the above address between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays), until June 9, 1993.

FOR FURTHER INFORMATION CONTACT: John L. Roberts, Consultant, Regulations Staff, Compensation and Pension Service, Veterans Benefits Administration, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington DC 20420, (202) 233-3005.

SUPPLEMENTARY INFORMATION: In response to the advance notice of

proposed rulemaking published in the Federal Register on May 2, 1991, we received a number of comments and suggestions from VA medical doctors, VA Rating Specialists and other concerned individuals. We have also received a report from a consulting firm contracted to suggest revisions to this portion of the Rating Schedule.

The comments included suggestions that we delete several diagnostic codes, include diagnostic codes for additional conditions, and change evaluation criteria for a number of conditions. We have considered all of these suggestions and implemented several as explained in the following proposal.

When medical terminology in the rating schedule is outdated, it is difficult for rating specialists to accurately compare medical evidence to the proper evaluation criteria. For that reason, we propose to update the medical terms which identify diseases of the hemic and lymphatic systems so that the schedule uses the same terms used in current medical practice. Primary polycythemia (diagnostic code 7704) will be changed to polycythemia vera, purpura hemorrhagica (7705) will be changed to thrombocytopenia, primary, idiopathic or immune, and lymphogranulomatosis (7709) to Hodgkin's disease.

The disabilities currently under codes 7701, secondary anemia, and 7713, secondary adenitis, are commonly accepted as symptoms of other, more specific diseases, according to medical advice we have received. In accordance with the basic premise of the rating schedule that disabilities due to injuries or diseases are to be rated, not symptoms or findings, we propose to delete these two conditions from the schedule.

We propose to amend diagnostic code 7700 to include hypochromic-microcytic and megaloblastic forms of anemia, such as iron-deficiency or pernicious anemias, to indicate that the criteria under that code apply to more conditions than the currently specified pernicious anemia. Evaluation criteria under diagnostic code 7700 currently are divided into four levels of 100, 70, 60, and 30 percent according to subjective indicators such as "rapidly progressive," "severe impairment of health," and "definite departures from normal blood count." We propose to substitute objective evaluation criteria based primarily on specific hemoglobin counts, which can be measured through standard laboratory tests. We will retain evaluation levels of 100, 70, and 30 percent, but we propose to eliminate the 60 percent level since the differences in hemoglobin levels between 70 and 60 percent would be so slight as to be meaningless for rating purposes. A 0 percent evaluation will be assigned for hemoglobin counts of 10 grams per milliliter or above since people with these concentrations are typically free of disabling symptoms.

The deficiency anemias described under diagnostic code 7700 are usually reversible with proper management. In contrast, aplastic anemias are a diverse group of potentially severe bone marrow disorders. We propose to add a new diagnostic code, 7716, for aplastic anemia which will be rated according to frequency of transfusions and occurrence of infections. A 100 percent evaluation will be assigned when a veteran is admitted for marrow transplant as treatment for this disease; this evaluation will continue indefinitely, but with a mandatory VA examination six months after hospital discharge. The results of this examination will be reviewed by a rating board and, if a reduction in evaluation is warranted, it would be implemented under 38 CFR 3.105(e). This method ensures that no evaluation is reduced without current medical evidence, offers veterans prior notice of any proposed action and provides an opportunity to present evidence showing that the action should not be taken.

The code for acute agranulocytosis (7702) is currently followed by an instruction to rate according to criteria under diagnostic code 7700 (anemia). The clinical manifestations of this disease more closely resemble the criteria describing transfusions and infections proposed under aplastic anemia (7716). For this reason, we propose to include under diagnostic code 7702 the same criteria as for aplastic anemia.

Although leukemia (7703) is currently rated as 100 percent disabling when treatment such as radiation or transfusion is required, there is no provision for a period of convalescence following such treatment. In order to be consistent with rules regarding the rating of other malignancies in the schedule, we propose to continue the total evaluation indefinitely but to examine the veteran six months after treatment is discontinued. If the results of this or any subsequent examination warrant a reduction in evaluation, the reduction would be implemented under the provisions of 38 CFR 3.105(e).

When treatment other than radiation or transfusion is required, the instruction under the code for leukemia currently directs that the disease be rated as anemia under diagnostic code 7700. We propose that leukemia be rated either under diagnostic code 7700, or as aplastic anemia (7716), whichever results in the greater benefit. This makes a broader range of evaluations available which in turn will allow for more accurate assignment of percentages according to the facts of each case.

The code for what is currently called primary polycythemia and what we propose to call polycythemia vera (7704) is currently followed by an instruction to rate as pernicious anemia. Polycythemia is the presence of increased numbers of red blood cells and is not comparable to pernicious anemia. Polycythemia is treated with phlebotomy or medications, and possible complications include stroke or thrombotic disease. For this reason, we propose to establish separate rating criteria for polycythemia with evaluations of 40 percent while treatment is required, and 0 percent when the disease is stable without need for treatment. An instruction to rate any complications of the disease will be included.

The current evaluation criteria under diagnostic code 7705 for what is currently called purpura hemorrhagica and what we propose to call thrombocytopenia are based upon the frequency and severity of attacks. These criteria are subjective and inconsistently interpreted. We propose to substitute objective criteria based primarily on blood platelet count, which is quantifiable through standard laboratory techniques. As under diagnostic code 7700, disability levels of 100, 70, 60, and 30 percent are currently provided for diagnostic code 7705. We propose to eliminate the 60 percent level because it is clinically indistinguisheble from the 70 percent level for rating purposes. In addition to levels of 100, 70, and 30 percent, a 0 percent level will be established for stable platelet counts of 100,000 or above if there is no bleeding. Under these circumstances the condition is not disabling to any significant degree.

A 30 percent evaluation is currently assigned under diagnostic code 7706 for a splenectomy. Although the spleen is a component in the body's defense against infection, its loss does not result in a significant impairment of earning capacity. The medical advice that we received indicates that the administration of antibiotics effectively compensates for any increased susceptibility to infection. Accordingly, we propose that removal of the spleen be rated as 10 percent disabling instead of 30 percent.

The instruction under diagnostic code 7707 currently directs that a healed injury of the spleen be rated "as

VOL 58 ISS 82 AP 30 1993 UMI

peritoneal adhesions." While peritoneal adhesions may result from an injury to the spleen, other complications are possible, and we propose to amend the note accordingly.

The evaluation criteria following the diagnostic code for Hodgkin's disease (7709) currently provide percentage levels of 100, 60, and 30 percent. We propose to remove these criteria and instead assign a 100 percent evaluation during the period of active disease or treatment, a change which is consistent with criteria for most other malignancies listed in the schedule. The 100 percent evaluation currently provides a total evaluation for one year of convalescence following the end of treatment for Hodgkin's disease. This provision is applied at the time of rating by assigning a one year total evaluation with a prospective reduction. A decision to reduce an evaluation should be based on medical findings rather than a regulatory assumption that there will be an improvement. We therefore propose to continue the total evaluation indefinitely after treatment is discontinued, but to examine the veteran six months later. Any reduction would be effected under 38 CFR 3.105(e) in the same manner as proposed for diagnostic code 7703 (leukemia) and 7716 (aplastic anemia). We intend to retain that portion of the Note instructing to rate on residuals.

The code for non-Hodgkin's lymphoma (7715) is currently followed by an instruction to rate as Hodgkin's disease (7709). For the convenience of those using the schedule, we propose to simply repeat the criteria instead of directing the rater to another code.

Active or inactive tuberculous adenitis is currently classified under three diagnostic codes: 7710, cervical adenitis; 7711, axillary adenitis; and 7712, inguinal adenitis. Since these conditions have become relatively uncommon, we propose to consolidate all forms of tuberculous adenitis under a single diagnostic code, 7710, and to continue rating the condition under the provisions of §§ 4.88b or 4.89, whichever is applicable, deleting the redundant reference to evaluating the disease 100 percent disabling while active.

The words "pronounced," "severe," "moderately severe," and "mild" now precede the evaluation criteria for compensable evaluations under diagnostic code 7714, Sickle cell anemia. These descriptions do not materially help to explain or clarify the specific evaluation criteria they precede. For that reason, we propose to delete these labels. Other editorial changes are included which are intended to clarify the rating criteria and represent no substantive amendment.

The Secretary hereby certifies that this regulatory amendment will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. The reason for this certification is that this amendment would not directly affect any small entities. Only VA beneficiaries could be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), this amendment is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

In accordance with Executive Order 12291, Federal Regulation, the Secretary has determined that this regulatory amendment is non-major for the following reasons:

(1) It will not have an annual impact on the economy of $100 million or more.

(2) It will not cause a major increase in costs or prices.

(3) It will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Catalog of Federal Domestic Assistance numbers are 64.104 and 64.109.

List of Subjects in 38 CFR Part 4

Handicapped, Pensions, Veterans.

Approved: April 8, 1993.

Jesse Brown,

Secretary of Veterans Affairs.

For the reasons set out in the preamble, 38 CFR part 4, subpart B, is proposed to be amended as set forth below:

PART 4—SCHEDULE FOR RATING DISABILITIES

Subpart B—Disability Ratings

1. The authority citation for part 4 continues to read as follows:

Authority: 72 Stat. 1125, 38 U.S.C. 1155.

2. Section 4.117 is revised to read as follows:

§ 4.117 Schedule of ratings—hemic and lymphatic systems.

	Rating
7700 Anemia, hypochromic-microcytic and megaloblastic, such as iron-deficiency and pernicious anemia:	
Hemoglobin less than 5 gm/100ml, progressive, no remissions	100
Hemoglobin 5–7 gm/100ml, chronic	70
Hemoglobin 8–9 gm/100ml	30
Hemoglobin 10 gm/100ml or more	0
7702 Agranulocytosis, acute:	
Requiring bone marrow transplant, or; requiring transfusion of platelets or red cells at least once every six weeks, or; infections recurring at least once every six weeks	100
Requiring transfusion of platelets or red cells at least once every 3 months, or; infections recurring at least once every 3 months	50
Requiring no transfusion of platelets or red cells, and no recurring infections	0
Note: The 100 percent rating for bone marrow transplant shall be assigned as of the date of hospital admission and shall continue with a mandatory VA examination six months following hospital discharge. Any change in evaluation shall be subject to the provisions of § 3.105(e) of this chapter.	
7703 Leukemia:	
Requiring intensive treatment such as periodic irradiation or transfusion	100
Otherwise rate as anemia (code 7700) or aplastic anemia (code 7716), whichever would result in the greater benefit.	
Note: Following the cessation of surgical, X-ray, antineoplastic chemotherapy or other therapeutic procedure, the rating of 100 percent shall continue with a mandatory VA examination at the expiration of six months. Any change in evaluation based upon that or any subsequent examination shall be subject to the provisions of § 3.105(e) of this chapter.	
7704 Polycythemia vera:	
Requiring treatment, phlebotomy or medication	40
Stable, not requiring treatment	0

	Rating
Note: Rate complications such as stroke or thrombotic disease, if present.	
7705 Thrombocytopenia, primary, idiopathic or immune:	
Platelet count of less than 20,000, requiring treatment with medication and transfusions	100
Platelet count between 20,000 and 70,000, not requiring treatment, without bleeding	70
Stable platelet count between 70,000 and 100,000, without bleeding	30
Stable platelet count of 100,000 or more, without bleeding	0
7706 Splenectomy	10
7707 Spleen, injury of, healed.	
Rate for any residuals.	
7709 Hodgkin's disease:	
With active disease or during a treatment phase	100
Note: Following the cessation of surgical, X-ray, antineoplastic chemotherapy or other therapeutic procedure, the rating of 100 percent shall continue with a mandatory VA examination at the expiration of six months. Any change in evaluation based upon that or any subsequent examination shall be subject to the provisions of § 3.105(e) of this chapter. If there has been no local recurrence or invasion of other organs, the rating will be made on residuals.	
7710 Adenitis, tuberculous, active or inactive.	
Rate under §§ 4.88b or 4.89, whichever is appropriate.	
7714 Sickle cell anemia:	
With repeated painful crises, occurring in skin, joints, bones or any major organs caused by hemolysis and sickling of red blood cells, with anemia, thrombosis and infarction, with symptoms precluding even light manual labor	100
With painful crises several times a year or with symptoms precluding other than light manual labor	60
Following repeated hemolytic sickling crises with continuing impairment of health	30
Asymptomatic, established case in remission, but with identifiable organ impairment	10
Note: Sickle cell trait alone, without a history of directly attributable pathological findings, is not a ratable disability. Cases of symptomatic sickle cell trait will be forwarded to the Director, Compensation and Pension Service, for consideration under § 3.321(b)(1) of this chapter.	
7715 Non-Hodgkin's lymphoma:	
With active disease or during a treatment phase	100
Note: Following the cessation of surgical, X-ray, antineoplastic chemotherapy or other therapeutic procedure, the rating of 100 percent shall continue with a mandatory VA examination at the expiration of six months. Any change in evaluation based upon that or any subsequent examination shall be subject to the provisions of § 3.105(e) of this chapter. If there has been no local recurrence or invasion of other organs, the rating will be made on residuals.	
7716 Aplastic anemia:	
Requiring bone marrow transplant, or; requiring transfusion of platelets or red cells at least once every six weeks, or; infections recurring at least once every six weeks	100
Requiring transfusion of platelets or red cells at least once every 3 months, or; infections recurring at least once every 3 months	50
Requiring no transfusion of platelets or red cells, and no recurring infections	0
Note: The 100 percent rating for bone marrow transplant shall be assigned as of the date of hospital admission and shall continue with a mandatory VA examination six months following hospital discharge. Any change in evaluation based upon that or any subsequent examination shall be subject to the provisions of § 3.105(e) of this chapter.

BILLING CODE 8320–01–M

38 CFR Part 4

RIN 2900–AE95

Schedule for Rating Disabilities; Systemic Conditions

AGENCY: Department of Veterans Affairs.

ACTION: Proposed rule.

SUMMARY: The Department of Veterans Affairs (VA) is proposing to amend its rating schedule regarding evaluation of systemic conditions. This amendment is necessary in order to comply with a General Accounting Office (GAO) study, which recommended that medical criteria in the rating schedule be reviewed and updated. The intended effect is to update the systemic conditions portion of the Schedule for Rating Disabilities to ensure that it uses current medical terminology and unambiguous criteria for evaluating these disabilities.

DATES: Comments must be received on or before June 29, 1993. Comments will be available for public inspection until July 9, 1993. This change is proposed to be effective 30 days after the date of publication of the final rule.

ADDRESSES: Interested persons are invited to submit written comments, suggestions, or objections regarding this change to the Secretary of Veterans Affairs (271A), Department of Veterans Affairs, 810 Vermont Ave., NW., Washington, DC 20420. All written comments received will be available for public inspection only in the Veterans Services Unit, room 170, at the above address between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays), until July 9, 1993.

FOR FURTHER INFORMATION CONTACT: John L. Roberts, Consultant, Regulations Staff, Compensation and Pension Service, Veterans Benefits Administration, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington DC 20420, (202) 233–3005.

SUPPLEMENTARY INFORMATION: In response to the advance notice of proposed rulemaking published in the **Federal Register** on January 25, 1991, we received a number of comments and suggestions from private and VA medical doctors, VA Rating Specialists and other concerned individuals. We have also received a report from a consulting firm contracted to suggest revisions to this portion of the Rating Schedule.

The comments included suggestions that we rename this section of the Schedule, delete several diagnostic codes, include diagnostic codes for additional conditions, and change evaluation criteria for a number of conditions. We have considered all of these suggestions and implemented several as explained in the following proposal.

VOL 58 ISS 82 AP 30 1993 UMI

One finding of the GAO study was that the current schedule contains ambiguous rating criteria. We determined that a number of grammatical changes would be helpful in eliminating ambiguity and ensuring that the schedule presents the rating criteria for listed disabilities as precisely as possible. We are thus proposing editorial changes, primarily in syntax and punctuation, throughout this portion of the schedule. These changes, which will not be addressed individually, are intended to clarify the rating criteria and represent no substantive amendment.

This portion of the Rating Schedule is currently entitled "Systemic Conditions" and it includes diagnostic codes for infectious diseases and immune disorders as well as nutritional deficiencies. The title "systemic conditions," however, does not adequately depict the range of conditions which this section addresses. We propose to amend this title to read "Infectious Diseases, Immune Disorders and Nutritional Deficiencies." The title of § 4.88a will be changed in the same manner.

We propose to change the terminology describing several of the conditions in this section for clarity and in order to reflect current medical terminology. Lymphatic filariasis is the accepted term for filariasis and we propose to use it for the heading of diagnostic code 6305. The term "visceral leishmaniasis" is the medically preferred term for "kala-azar" and we propose to use it as the heading for diagnostic code 6301. Similarly, "Bartonellosis" is the medically preferred term for "Oroya fever," and we propose to use it as the heading for diagnostic code 6306. We propose to expand diagnostic code 6310 to include other treponemal infections as well as syphilis to reduce reliance on the practice of rating by analogy. Use of the term "military", under code 6311, is a typographical error. We will correct this to read "miliary tuberculosis." We propose to delete the phrase "Malta or undulant fever" from the code for brucellosis (6316) since these formerly common names are outdated and no longer used.

Many of the infectious diseases listed in this section are evaluated as 100 percent disabling during episodes of active infection, and some have instructions to rate thereafter according to chronic residuals. General instructions to rate either as active disease or residuals are included after these codes but are inconsistently worded. We propose to word all of these instructions in the same manner: "Thereafter rate residuals such as . . . under the appropriate system," with examples of common residuals inserted in the space. This will provide the rater consistency in instructions and a basic guideline for evaluating residuals; however, it is not to imply that these are the only possible residuals. Diagnostic code 6310 (syphilis) currently directs that only the "tertiary complications" of syphilitic infections be rated. Since disabling residuals of syphilis and other treponemal infections can occur at any stage, we propose removal of the word "tertiary" to permit the rating of all complications. The provision for rating residuals under an appropriate alternate system has also been added to diagnostic codes 6301, 6305 and 6307.

Under diagnostic codes 6300 (Asiatic cholera), 6306 (Bartonellosis, currently termed Oroya fever), and 6317 (scrub typhus), a 100 percent evaluation is currently provided for six months of convalescence after active infection has resolved. The medical advice that we received indicates that when treated in a straightforward manner, the active phase of the diseases resolves quickly and need for convalescence is typically much less than six months. We are thus proposing a three-month period of convalescence instead of six.

Immediately following diagnostic code 6300 (Asiatic cholera), the schedule lists hemoglobinuric fever as a complication of malaria. We propose to delete this reference since it is not related to cholera but was carried forward from earlier editions of the rating schedule in which some symptoms of diseases were listed without diagnostic codes. It is not a separate disease entity and does not warrant assignment of a diagnostic code.

A 100 percent evaluation is currently provided for one year of convalescence after active infection has resolved for diagnostic codes 6301 (visceral leishmaniasis) and 6302 (leprosy). The medical advice that we have received shows that current treatment regimens for these diseases, in the form of antibacterial chemotherapy, are very effective and significant periods of convalescence are seldom if ever necessary. We therefore propose to remove the provisions for convalescence following the active phases of these diseases altogether.

The Note which follows diagnostic code 6302 currently states that the rating criteria apply to active contagious leprosy requiring institutional care and that noncontagious cases will be rated under such schedules as "The Skin." Since all forms of leprosy are totally disabling during their active phase, we propose to delete this Note and instead rate active leprosy as 100 percent disabling regardless of its contagious potential.

Although the majority of the infectious diseases listed in this portion of the schedule are evaluated as 100 percent disabling while active, five are rated according to criteria requiring certain signs or symptoms: 6304 (malaria), 6305 (filariasis), 6309 (rheumatic fever), 6316 (brucellosis), and 6318 (melioidosis). Since active infection generally results in total disability, it is not necessary for the schedule to require specific signs and symptoms, and we propose to delete them in favor of an instruction to rate these conditions as 100 percent disabling while they are active. For the sake of consistency, the instruction under diagnostic code 6308 (relapsing fever) to rate as 100 percent disabling "as active febrile disease" will be amended to state simply "As active disease." The term "febrile" is redundant in describing the disease.

Section 4.88, which currently prefaces this portion of the rating schedule, describes the criteria for acceptable diagnosis of malaria and subsequent relapses. The first and second Notes following diagnostic code 6304 (malaria) also describe acceptable evidence of active malaria, and regulate application of the evaluation criteria under this code. These notes will be replaced by a single NOTE allowing service connection for malaria when service is in an endemic area and diagnosis is based on a clinical description of malarial symptoms. Compensable evaluations for relapses, however, will require confirmation of malaria parasites by blood smear. Laboratory identification is now widely available and well-accepted procedure in the diagnosis of malarial episodes.

We propose to add two diagnostic codes to the classification of infectious diseases: diagnostic codes 6319 for Lyme disease, and 6320 for Parasitic diseases not otherwise specified. Lyme disease has been clearly identified as a distinct disease entity, with sufficient occurrence in the veteran population to warrant a separate diagnostic code. Assigning a code for other parasitic diseases not otherwise specified provides a category for diseases which would otherwise require confusing or ambiguous analogous ratings. We propose to provide a 100 percent evaluation while these diseases are active, with instructions to rate any residuals which may result.

We propose minor changes in the nutritional disorders currently listed as avitaminosis (6313), beriberi (6314), and pellagra (6315). Rather than helping to explain or clarify the specific evaluations, the terms "pronounced," "severe," "moderately severe," "moderate," and "mild" which precede each evaluation level in the current criteria for beriberi and pellegra inject an element of ambiguity not otherwise present. For this reason, we propose to delete them. Other minor wording changes have been made for clarity without substantive amendments. Under the current rating schedule, avitaminosis (diagnostic code 6313) instructs the rating specialist to rate as pellagra, according to severity. For the convenience of those using the schedule, we propose to duplicate the rating criteria under diagnostic code 6313 rather than forcing users to refer to another code (6315) to find them.

We propose to eliminate the 10% evaluation for moderate residuals under beriberi (code 6314) and replace it with the instruction to rate any residuals under the appropriate diagnostic code. This will provide the rater latitude in evaluating all residuals without limiting the evaluation to the 10% level, in the absence of clinical symptoms of the actual disease. This instruction is commonly used in the schedule for this reason. We propose to add an example of ordinary activity to the evaluation criteria for the 30 percent level, to help clarify the difference between the 30 percent and the 60 percent evaluations.

The criteria for systemic lupus erythematosus (diagnostic code 6350) in the current schedule provide for percentage evaluations of 100, 80, 60, 30, and 10 percent. The intermediate range of evaluations depends on criteria which produce impaired health described as "severe" for 80 percent, "moderately severe" for 60 percent, and "moderate" for 30 percent. A 30 percent evaluation is also allowed if exacerbations lasting a week or more occur two or three times a year. For the 10 percent level, exacerbations of a shorter duration once or twice a year, or symptomatology during the past two years, are required.

Systemic lupus typically requires protracted treatment and is more disabling than the current criteria suggest. The 60 percent and 80 percent levels of the disability described in the schedule are clinically indistinguishable, and they are, in fact, severe enough to warrant a 100 percent evaluation. Similarly, the criteria for the 30 percent evaluation more nearly approximate a 60 percent disability. We propose to expand the 100 percent evaluation to include the criteria currently required for the 60 and 80 percent levels. An evaluation for 100 percent will thus be assigned for any frequent exacerbations producing severe impairment of health. Similarly, two or three exacerbations per year of a week or more will qualify for a 60 percent evaluation instead of 30 percent. The 10 percent level will remain unchanged.

The Note which currently follows diagnostic code 6350 instructs that residuals of the disease such as joint, renal, and pleural involvement are to be separately rated. We propose to add drug reactions and neurological complications, because these are frequent residuals of the disease.

We propose no substantive change in the criteria for diagnostic code 6351, HIV-related illness, as amended on March 24, 1992 (see 57 FR 10134). No change is proposed in §§ 4.88b or 4.89, which provide for evaluations of nonpulmonary tuberculosis.

The Secretary hereby certifies that this regulatory amendment will not cause a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601–612. The reason for this certification is that this amendment would not directly affect any small entities. Only VA beneficiaries could be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), this amendment is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

In accordance with Executive Order 12291, Federal Regulation, the Secretary has determined that this amendment is non-major for the following reasons:

(1) It will not have an annual impact on the economy of $100 million or more.

(2) It will not cause a major increase in costs or prices.

(3) It will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Catalog of Federal Domestic Assistance numbers are 64.104 and 64.109.

List of Subjects in 38 CFR Part 4

Handicapped, Pensions, Veterans.

Approved: April 8, 1993.

Jesse Brown,

Secretary of Veterans Affairs.

For the reasons set out in the preamble, 38 CFR part 4, subpart B, is proposed to be amended as set forth below:

PART 4—SCHEDULE FOR RATING DISABILITIES

Subpart B—Disability Ratings

1. The authority citation for part 4 continues to read as follows:

Authority: 72 Stat. 1125; 38 U.S.C. 1155.

2. The undesignated center heading appearing before § 4.88 is revised to read as follows:

Infectious Diseases, Immune Disorders and Nutritional Deficiencies

§ 4.88 [Removed]

3. Section 4.88 is removed.

4. Section 4.88a is revised to read as follows:

§ 4.88a Schedule of ratings—infectious diseases, immune disorders and nutritional deficiencies.

	Rating
6300 Cholera, Asiatic:	
As active disease, and for 3 months convalescence	100
Thereafter rate residuals such as renal necrosis under the appropriate system	
6301 Visceral Leishmaniasis:	
As active disease	100
Thereafter rate residuals such as liver damage or lymphadenopathy under the appropriate system	
6302 Leprosy (Hansen's Disease):	
As active disease	100
Thereafter rate residuals such as skin lesions or peripheral neuropathy under the appropriate system	
6304 Malaria:	
As active disease	100

VOL 58 ISS 82 AP 30 1993 UMI

	Rating
Note: The diagnosis of malaria depends on the identification of the malarial parasites in blood smears. If the veteran served in an endemic area and presents signs and symptoms compatible with malaria, the diagnosis may be based on clinical grounds alone. If no malarial parasites can be demonstrated in blood smears in patients upon recurrent attacks, the diagnosis of active disease cannot be supported. Relapses must be confirmed by the presence of malarial parasites in blood smears	
Thereafter rate residuals such as liver or spleen damage under the appropriate system	
6305 Lymphatic Filariasis:	
As active disease	100
Thereafter rate residuals such as epididymitis or lymphangitis under the appropriate system.	
6306 Bartonellosis:	
As active disease, and for 3 months convalescence	100
Thereafter rate residuals such as skin lesions under the appropriate system	
6307 Plague:	
As active disease	100
Thereafter rate residuals such as lymphadenopathy under the appropriate system	
6308 Relapsing Fever:	
As active disease	100
Thereafter rate residuals such as liver or spleen damage or central nervous system involvement under the appropriate system	
6309 Rheumatic fever:	
As active disease	100
Thereafter rate residuals such as heart damage under the appropriate system	
6310 Syphilis, and other treponemal infections:	
Rate the complications of nervous system, vascular system, eyes or ears	
6311 Tuberculosis, miliary:	
As active disease	100
Inactive: See §§ 4.88b and 4.89	
6313 Avitaminosis:	
Marked mental changes, moist dermatitis, inability to retain adequate nourishment, exhaustion, and cachexia	100
With the symptoms listed below, plus mental symptoms and impaired bodily vigor	60
Stomatitis, persistent diarrhea, and symmetrical dermatitis	40
Stomatitis, or achlorhydria, or recurring diarrhea	20
Digestive disturbances, loss of appetite and weight, slight diarrhea, headache, and vertigo	10
6314 Beriberi:	
History of limited nourishment, edema, weakness, cardiac enlargement or murmurs, peripheral neuropathy or other manifestations not responding to therapy	100
With some of the symptoms listed above precluding other than strictly sedentary activity	60
With some of the symptoms listed above precluding other than ordinary activity such as climbing stairs or walking at a normal pace	30
Rate any residuals under the appropriate diagnostic code	
6315 Pellagra:	
Marked mental changes, moist dermatitis, inability to retain adequate nourishment, exhaustion, and cachexia	100
With the symptoms listed below, plus mental symptoms and impaired bodily vigor	60
Stomatitis, persistent diarrhea, and symmetrical dermatitis	40
Stomatitis, or achlorhydria, or recurring diarrhea	20
Digestive disturbances, loss of appetite and weight, slight diarrhea, headache, and vertigo	10
6316 Brucellosis:	
As active disease	100
Thereafter rate residuals such as liver or spleen damage or meningitis under the appropriate system.	
6317 Typhus, scrub:	
As active disease, and for 3 months convalescence	100
Thereafter rate residuals such as spleen damage or skin conditions under the appropriate system	
6318 Melioidosis:	
As active disease	100
Thereafter rate residuals such as arthritis, lung lesions or meningitis under the appropriate system	
6319 Lyme Disease:	
As active disease	100
Thereafter rate residuals such as arthritis under the appropriate system	
6320 Parasitic diseases otherwise not specified:	
As active disease,	
Thereafter rate residuals such as spleen or liver damage under the appropriate system	
6350 Lupus erythematosus, systemic (disseminated):	
Not to be combined with ratings under diagnostic code 7809	
Acute, with frequent exacerbations, producing severe impairment of health	100
Exacerbations lasting a week or more, 2 or 3 times per year	60
Exacerbations once or twice a year or symptomatic during the past two years	10
Note: Rate residuals such as adverse drug reactions, joint, renal, pleural or neurological complications under the appropriate system, not to be combined with ratings under code 6350. Assign the higher evaluation	
6351 HIV-Related Illness:	
AIDS with recurrent opportunistic infections or with secondary diseases afflicting multiple body systems; HIV-related illness with debility and progressive weight loss, without remission, or few or brief remissions	100
Refractory constitutional symptoms, diarrhea, and pathological weight loss; or minimum rating following development of AIDS-related opportunistic infection or neoplasm	60
Recurrent constitutional symptoms, intermittent diarrhea, and on approved medication(s), or; minimum rating with T4 cell count less than 200, or Hairy Cell Leukoplakia, or Oral Candidiasis	30
Following development of definite medical symptoms, T4 cell count of 200 or more and less than 500, and on approved medication(s), or; with evidence of depression or memory loss with employment limitations	10
Asymptomatic, following initial diagnosis of HIV infection, with or without lymphadenopathy or decreased T4 cell count	0
Note (1): The term "approved medication(s)" includes medications prescribed as part of a research protocol at an accredited medical institution	
Note (2): Psychiatric or central nervous manifestations, opportunistic infections, and neoplasms may be rated separately under appropriate codes if higher overall evaluation results, but not in combination with percentages otherwise assignable above

BILLING CODE 8320-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 61

[CC Docket No. 93-55; FCC 93-134]

Metric Conversion of Tariff Publications and Supporting Information

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to amend the rules regarding the filing of tariffs and supporting documentation to incorporate metric units of measurement. The amendment advances the goal of the Metric Conversion Act and acknowledges the increased use of metric units of measurement. The amendment will aid in bringing the United States telecommunications industry into conformance with the International System of units that is increasingly becoming the preferred system of weights and measures in this country, as well as abroad.

DATES: Comments shall be filed on or before May 26, 1993; Reply comments shall be filed no later than June 10, 1993.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Carol Canteen, Tariff Division, Common Carrier Bureau, (202) 632-6312.

SUPPLEMENTARY INFORMATION: On April 8, 1993, the Commission released a Notice of Proposed Rulemaking, proposing to amend the rules to establish the metric system of measurement as the preferred system of weights and measures for the United States trade and commerce. In keeping with the recommendations and procedures outlined in the Metric Handbook for Federal Officials developed by the Interagency Committee, the Commission's proposed amendment offers the industry three options. The first option would require a carrier to provide in the general rules section of a tariff publication, a table for converting non-metric units and corresponding rates to metric units. The second option would allow the carrier to state in the applicable rate section of the tariff publication and in supporting information, the metric unit and corresponding rate in parenthesis beside the non-metric unit and rate. The third option would require a carrier to provide in its tariff a conversion table for converting non-metric units and corresponding rates into metric units and rates.

The Commission recognizes that any conversion to metric measure would impose some burden on carriers and their customers. The Commission believes that it would be consistent with the national metric policy that it places such burdens on carriers and customers. The proposal to let carriers select from among three options how they will meet this obligation, should go far toward minimizing such burdens. The Commission proposes to allow carriers a period of two years to make the necessary conversions as they routinely file tariff revisions. The Commission proposed amending part 61 of the rules by adding § 61.37, Use of Metric Measurement, as set forth below.

The following collection of information contained in this proposed rule has been submitted to Office of Management and Budget for review under section 3504(h) of the Paperwork Reduction Act (44 U.S.C. 3504(h)). Copies of this submission may be purchased from the Commission's copy contractor, International Transcription Services, 2100 M Street, NW., suite 140, Washington, DC 20037, (202) 857-3800. Persons wishing to comment on this collection of information should direct their comments to Jonas Neihardt, (202) 395-4814, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503. A copy of any comments filed with the Office of Management and Budget should also be sent to the following address at the Commission: Federal Communications Commission, Records Management Division, room 234, Paperwork Reduction Project, Washington, DC 20554. For further information contact Judy Boley, (202) 632-7513.

Title: Proposed § 61.37—Use of Metric Measurement

OMB Number: None.

Action: New Collection.

Respondents: Businesses or other for Profit, including small businesses.

Frequency of Response: On Occasion and Other.

Estimated Annual Burden: 1500 respondents; 106 hours per response (average); 159,000 hours total annual burden.

Needs and Uses: 47 CFR 61 is designed to ensure that all tariffs filed by common carriers are formally sound, well organized, and provide sufficient information to determine the justness and reasonableness as required by the Communications Act, of the rates, terms and conditions in tariffs. The Notice of Proposed Rulemaking solicits public comment to amend 47 CFR 61 regarding the filing of tariffs and supporting documentation to incorporate metric units of measurement. The proposed amendment advances the goal of the Metric Conversion Act.

List of Subject in CFR Part 61

Communications common carriers; Reporting and recordkeeping requirements; Telegraph; and Telephone

Amendment to the Code of Federal Regulations

Part 61 of title 47 of the Code of Federal Regulations is proposed to be amended as follows:

Part 61—TARIFFS

1. The authority citation for Part 61 continues to read as follows:

Authority: Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply Sec. 203, 48 Stat. 1070; 47 U.S.C. 203.

2. Section 61.37 is added to read as follows:

§ 61.37 Use of metric measurement.

All general rules, regulations, exceptions, conditions, and rates contained in a tariff publication and in supporting information that are measurement sensitive must employ one of the following options relating to the use of metric measurement. A

VOL 58 ISS 82 APR 30 1993 UMI

carrier may employ only one option throughout all tariff publications and supporting information filed by that carrier. A carrier may choose to provide a conversion table for converting non-metric units and corresponding rates to metric units and rates in the general rules section of a tariff publication. A carrier may choose to state in the applicable rate section of the tariff publication and in supporting information, the metric unit and corresponding rate in parenthesis simultaneously with the non-metric unit and rate. A carrier may choose to provide a conversion table for converting the non-metric units and corresponding rates contained in a tariff publication and in supporting information filed with the Commission to metric units and rates. The resulting metric unit and corresponding rate must be shown in the tariff publication and in the supporting information filed with the Commission.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

BILLING CODE 6712-01-M

---

47 CFR Part 73

[MM Docket No. 93-112, RM-8210]

Radio Broadcasting Services; Buckeye, AZ

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition for rule making filed on behalf of Mobley Broadcasting, Inc., licensee of Station KMJK (FM), Channel 295A, Buckeye, Arizona, seeking the substitution of Channel 295C2 for Channel 295A and modification of its license accordingly to specify operation on the higher powered channel. Coordinates for this proposal are 33-21-03 and 112-52-41. Mexican concurrence will be requested for this allotment.

Petitioner's modification proposal complies with the provisions of § 1.420(g) of the Commission's Rules. Therefore, we will not accept competing expressions of interest in the use of Channel 295C2 at Buckeye, or require the petitioner to demonstrate the availability of an additional equivalent class channel.

DATES: Comments must be filed on or before June 14, 1993, and reply comments on or before June 29, 1993.

ADDRESSES: Secretary, Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner's counsel, as follows: Philip L. Malet, Esq., Steptoe & Johnson, 1330 Connecticut Avenue, NW., Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 93-112, adopted April 5, 1993, and released April 26, 1993. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, Inc., (202) 857-3800, 2100 M Street, NW., suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

47 CFR Part 73

[MM Docket No. 93-111, RM 8204]

Radio Broadcasting Services; Reedsport, OR

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by Colleen E. and Rodney B. Fafara seeking the substitution of Channel 258C3 for Channel 258A at Reedsport, Oregon, and the modification of Station KRBZ's construction permit to specify operation on the higher class channel. Channel 258C3 can be allotted to Reedsport in compliance with the Commissions' minimum distance separation requirements with a site restriction of 2.5 kilometers (1.6 miles south to accomodate petitioners' desired transmitter site, at coordinates North Latitude 43-40-40 and West Longitude 124-06-36. In accordance with § 1.420(g) of the Commission's Rules, we will not accept competing expressions of interest in use of the channel at Reedsport or require the petitioners to demonstrate the availability of an additional equivalent class channel for use by such parties.

DATES: Comments must be filed on or before June 14, 1993, and reply comments on or before June 29, 1993.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Colleen E. and Rodney B. Fafara, 825 E. Evelyn Avenue #532, Sθννναλε, Ψαλιφορνια 94086 (Πεππονερσ).

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 93-111, adopted April 5, 1993, and released April 26, 1993. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcript Services, Inc., (202) 857-3800, 2100 M Street, NW., suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

47 CFR Part 73

[MM Docket No. 93-104, RM-8209]

Radio Broadcasting Services; Greenwood, MS

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition filed by Team Broadcasting Co., Inc., proposing the substitution of Channel 282C2 for Channel 282C3 at Greenwood, Mississippi, and modification of the construction permit for Station WGNL (FM). The coordinates for Channel 282C2 are 33-28-50 and 90-09-35. We shall propose to modify the construction permit for Channel 282C3 in accordance with § 1.420(g) of the Commission's Rules and will not accept competing expressions of interest for the use of the channel or require petitioner to demonstrate the availability of an additional equivalent class channel for use by such parties.

DATES: Comments must be filed on or before June 14, 1993, and reply comments on or before June 29, 1993.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner's counsel as follows: Mark N. Lipp, Mullin, Rhyne, Emmons and Topel, P.C., 1000 Connecticut Avenue, suite 500, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MM Docket No. 93-104 adopted April 1, 1993, and released April 26, 1993. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Services, Inc., 2100 M Street, NW., suite 140, Washington, DC 20036, (202) 857-3800.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

47 CFR Part 73

[MM Docket No. 93-103, RM-8206]

Radio Broadcasting Services; Minetto, NY

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by Francis C. Toce seeking the allotment of Channel 293A to Minetto, New York, as the community's first local aural transmission service. Channel 293A can be allotted to Minetto in compliance with the Commission's minimum distance separation requirements with a site restriction of 2.6 kilometers (1.6 miles) northwest to avoid a short-spacing to Station WPCX, Channel 295B, Auburn, New York, at coordinates North Latitude 43-25-18 and West Longitude 76-28-54. The proposed Minetto allotment is short-spaced to unoccupied and unapplied-for Channel 293A at Brockville, Ontario, Canada. However, we believe that no prohibited interference will result from the allotment since the protected contour of a Brockville station and the interference contour of the Minetto station will not overlap. Concurrence by the Canadian government, as a specially negotiated allotment, has been requested since Minetto is located within 320 kilometers (200 miles) of the U.S.-Canadian border.

DATES: Comments must be filed on or before June 14, 1993, and reply comments on or before June 29, 1993.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: James L. Oyster, Esq., Rt. 1, Box 203A, Castleton, Virginia 22716 (Counsel to petitioner).

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 93-103, adopted April 1, 1993, and released April 26, 1993. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Services, Inc., (202) 857-3800, 2100 M Street, NW., suite 140, Washington, DC 20037.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 611

[Docket No. 930362–3062]

Pelagic Fisheries of the Western Pacific Region

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Proposed rule.

SUMMARY: NMFS proposes to remove Federal regulations governing foreign longline fishing for pelagic species, other than tuna, in the exclusive economic zone (EEZ) off the Commonwealth of the Northern Mariana Islands (CNMI) and the west coast of the U.S. mainland. Foreign fishing in these areas is governed by the Preliminary Fishery Management Plan for Pacific Billfish, Oceanic Sharks, Wahoo, and Mahimahi (PMP). The Fishery Management Plan for the Pelagic Fisheries of the Western Pacific Region (FMP), which manages all domestic and most foreign fishing for pelagic species off the coasts of Hawaii and U.S. territories of the western Pacific, has largely replaced the PMP. Withdrawing the PMP and its implementing rules will reduce the complexity caused by having two separate management approaches for foreign fishing.

DATES: Written comments must be received by June 14, 1993.

ADDRESSES: Comments on the proposed withdrawal of the PMP and the proposed rule to delete its implementing regulations should be addressed to Dr. Gary C. Matlock, Acting Regional Director, Southwest Region, NMFS, 501 W. Ocean Blvd., suite 4200, Long Beach, CA 90802–4213.

FOR FURTHER INFORMATION CONTACT: James J. Morgan, NMFS, at (310) 980–4036; or Alvin Z. Katekaru, NMFS, at (808) 955–8831.

SUPPLEMENTARY INFORMATION: The PMP was implemented on April 1, 1980 (45 FR 14581), to allow and manage otherwise prohibited foreign longline fishing for pelagic species within the EEZ of the Pacific Ocean, excluding the EEZ off Alaska. Alaska is well beyond the range of these pelagic species. At that time, there was some interest in foreign longline fishing for billfish in the EEZ. Subsequently, the WPFMC prepared an FMP for the same species to manage both foreign and domestic fishing within the EEZ of the western Pacific Ocean, except for those portions of the EEZ off the CNMI and the west coast of the U.S. mainland (52 FR 5984, February 27, 1987). Since the CNMI had chosen not to participate as a member of the WPFMC, the FMP did not include conservation and management measures applicable to the EEZ around the CNMI in the management area of the FMP. The Pacific Fishery Management Council (PFMC) decided not to prepare a plan for the west coast because the State of California regulations were considered sufficient for managing pelagic species fisheries off the west coast. Therefore, the PMP now only covers foreign longline fishing for pelagic species within the EEZ off the CNMI and the west coast of the U.S. mainland. However, there has been no foreign fishing in either of these two areas since the PMP was implemented.

In the geographic area each presently covers, the PMP and FMP take different approaches to managing foreign fishing. The PMP regulations restrict the amount of billfish and other fish that may be retained in each area, establish zones in which retention of billfish and other species is prohibited, and require that vessel operators release any prohibited species without bringing them on board the vessel. The PMP does not include tuna in the management unit. It also prohibits foreign fishing within 12 nautical miles of the baseline from which the territorial sea is measured. There is a non-retention zone between 12 and 100 nautical miles off the west coast of the U.S. mainland and between 12 and 50 nautical miles off the coast of the CNMI. Billfish and associated species may be retained by permitted foreign fishing vessels beyond these distances. The FMP does not limit the catch by foreign vessels so long as the regulations are followed, while the PMP defines total allowable level of foreign fishing and the amount of reserve for each species for each area.

Since implementation of the Magnuson Fishery Conservation and Management Act (Magnuson Act), foreign longliners have not fished for pelagic species within the EEZ of the Pacific Ocean. Apparently, the expense of taking an observer and meeting the other requirements is not justified when measured against the uncertainty of the potential harvest. Opportunities to harvest these highly migratory species extend well beyond the EEZ.

If foreign fishermen decide to seek access to pelagic species in either the EEZ of the CNMI or the west coast of the U.S. mainland, those requests could be dealt with appropriately by the PFMC or the WPFMC.

Because the Magnuson Act prohibits foreign fishing in the absence of a PMP or FMP, removing the PMP prevents foreign longline fishing for pelagic species in the EEZ off the CNMI and the west coast of the U.S. mainland; however, no foreign fishing has occurred and none is likely. Since the management unit species can be harvested beyond the EEZ and potential foreign fishing can still occur in the areas of the EEZ managed by the FMP, removing the PMP will not affect total catch and effort on the stocks. Therefore, there are no anticipated biological, economic, or social impacts.

The PMP is unnecessary. The regulations governing foreign fishing, which coexist with the FMP regulations in § 611.81, create needless complexity. In view of the above, the PMP and its implementing rules are proposed to be withdrawn. This proposed rule would amend 50 CFR 611.81 by removing paragraphs that implemented the PMP, i.e., paragraphs (i), (j)(1), and (k); if these paragraphs are deleted, several other paragraphs in § 611.81 need to be redesignated, or revised to correct cross-references.

Classification

The Assistant Administrator for Fisheries, NOAA (Assistant Administrator), has determined that the PMP and its implementing regulations are not necessary for the conservation and management of the pelagic fisheries in the EEZ of the CNMI and the west coast of the U.S. mainland. Withdrawing the PMP and issuing this proposed rule to remove its implementing regulations are consistent with the Magnuson Act and other applicable law.

The Assistant Administrator has determined that this proposed rule is categorically excluded from the requirements to prepare an environmental impact statement (EIS) or environmental assessment (EA) under paragraph 6.02c. (3)(f) of NOAA Administrative Order 215–1. This action would affect total catch and effort on management unit species.

This proposed rule is not a "major rule" requiring a regulatory impact analysis under E.O. 12291. The rule would have no impacts on domestic or foreign fishing vessels, as no foreign longlining has been conducted, or is expected in the future under the PMP.

The Assistant Administrator has determined that this rule is consistent to the maximum extent practicable with the approved coastal zone management programs of the Commonwealth of the Northern Mariana Islands, and the States of California, Oregon, and Washington. Letters have been sent to the Commonwealth and the States requesting their review and comment.

The General Counsel for the Department of Commerce has certified to the Small Business Administration that this proposed rule, if adopted, would not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act. This rule removes Federal regulations governing foreign longlining fishing for pelagic species, other than tuna, in the EEZ off the CNMI and the west coast of the U.S. mainland. Since there has been no foreign fishing in these areas since the regulations went into effect in 1980, there should be no economic impact.

This proposed rule contains no collection-of-information requirement subject to the Paperwork Reduction Act.

This proposed rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under E.O 12612.

List of Subjects in 50 CFR Part 611

Fisheries, Foreign relations, Reporting and recordkeeping requirements.

Dated: April 26, 1993.

Samuel W. McKeen,

Program Management Officer, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 611 is proposed to be amended as follows:

PART 611—FOREIGN FISHING

1. The authority citation for part 611 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*, 16 U.S.C. 971 *et seq.*, 22 U.S.C. 1971 *et seq.*, and 16 U.S.C. 1361 *et seq.*

2. In § 611.81, the definition of "non-retention zone" in paragraph (b) is revised; paragraphs (i) and (k) are removed and paragraph (j) is redesignated paragraph (i); redesignated paragraph (i)(1) is removed and redesignated paragraphs (i)(2) through (i)(9) are redesignated paragraphs (i)(1) through (i)(8), respectively; redesignated paragraphs (i) heading, (i)(3)(i), (i)(3)(ii), (i)(3)(iv) first sentence, (i)(5) introductory text, (i)(6)(i) first sentence, and (i)(6)(ii) first sentence are revised; and in newly redesignated paragraphs (i)(1), (i)(2), and (i)(7), the words "FMP Management Area Group" are removed and the words "FMP Management Area" are added in their place to read as follows:

§ 611.81 Pacific pelagic species fishery.

* * * * *

(b) * * *

Non-retention zone means that area of the EEZ in which all billfish, oceanic sharks, wahoo, and mahimahi caught by longline gear from an FFV must be returned to the sea in accordance with the requirements of paragraph (i)(3) of this section.

* * * * *

(i) *Other management measures*—

* * * * *

(3) * * *

(i) There is no limit to the amount of Pacific pelagic management unit species that may be caught by the operator of an FFV in the retention zones described in Table 1 of paragraph (i)(1) of this section.

(ii) No operator of an FFV may fish with longline gear to catch and retain Pacific billfish, oceanic sharks, mahimahi, or wahoo within the non-retention zone set out in Table 1 of paragraph (i)(1) of this section.

* * * * *

(iv) No operator of an FFV may fish for Pacific pelagic management unit species in the closed areas set out in Table 1 of paragraph (i)(1) of this section. * * *

* * * * *

(5) *Factors considered.* Factors that will be considered by the Regional Director in making any determination described in paragraph (i)(4) of this section will include the following:

* * * * *

(6) * * *

(i) The Secretary will publish a notice of any proposed determination described in paragraph (i)(4) of this section in the **Federal Register** for public comment, unless the Secretary finds good cause that such notice and public review are impracticable or contrary to the public interest. * * *

(ii) If the Secretary determines, for good cause, that a determination described in paragraph (i)(4) of this section must be issued without affording a prior opportunity for public comment, public comments on the notice will be received by the Secretary for a period of 15 days after the effective day of the notice. * * *

* * * * *

BILLING CODE 3510–22–M

50 CFR Part 651

Northeast Multispecies Fishery: Public Hearings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

ACTION: Notice of public hearings on Amendment 5 to the Northeast

VOL
58
ISS
82
AP
30
1993
UMI

Multispecies Fishery Management Plan and request for comments.

SUMMARY: The New England Fishery Management Council (Council) announces that it will hold public hearings to receive comments on Amendment 5 to the Northeast Multispecies Fishery Management Plan (FMP). The Council also seeks information to assess the potential effects of a program to eliminate overfishing on stocks of cod, haddock and yellowtail flounder that would reduce fishing effort by 50 percent, and on alternative measures to reduce the take of harbor porpoise in the Gulf of Maine sink gillnet fishery. Scoping sessions will be held in conjunction with the public hearings. This notice is to alert the interested public of the hearings and to provide for public participation in compliance with environmental documentation requirements.

DATES: Written comments should be submitted on or before May 28, 1993. See **SUPPLEMENTARY INFORMATION** for times and dates of the public hearings; testimony may be presented at any of the hearings.

ADDRESSES: Written comments should be sent to Douglas G. Marshall, Executive Director, New England Fishery Management Council, 5 Broadway (Route 1), Saugus, MA 01906. Copies of the public hearing draft of Amendment 5 and the Draft Supplemental Environmental Impact Statement (DSEIS) may be obtained from this address. Clearly mark the outside of the envelope "Request for Amendment 5 public hearing document." See **SUPPLEMENTARY INFORMATION** for locations of public hearings.

FOR FURTHER INFORMATION CONTACT: Douglas G. Marshall, Executive Director, (617)–231–0422.

SUPPLEMENTARY INFORMATION: The scoping process for Amendment 5 was formally started on April 29, 1992 (57 FR 18132), and initial public hearings were held between April 30 and May 14, 1992. Public comments were received and reviewed by the Council. Frequent scoping meetings were held over the course of the intervening year, and adjustments were made to the initial proposals.

Background and Purpose of the Amendment

The Council proposes to amend the FMP because all of the principal stocks comprising the fishery are overexploited. Abundance levels, catch rates and total landings for many of these stocks have been steadily declining and are at all-time low levels. The current management system regulates the size of fish caught, through mesh size and minimum fish size, and provides temporary protection for concentrations of juvenile or spawning fish, through seasonally closed areas, but does not regulate the total effort exerted on the fishery. Without direct controls on the rate at which fish are caught, occasional large year classes of a particular stock are almost fully caught within a year or two of becoming susceptible to the gear. In addition, a significant portion of each year class must be discarded because the fish are caught before they reach the minimum legal size.

The Council's management policy, adopted in 1983, identified two main considerations: Minimum regulatory intervention, and preventing a failure in recruitment (incoming year classes) by maintaining certain minimum stock conditions. In 1988, the Council's Technical Monitoring Group (TMG), established by the FMP, evaluated the effectiveness of the FMP and recommended improvements. The TMG concluded that the FMP was making only limited progress towards its objectives, and that the overall management system, including the FMP, did not meet many of the resource maintenance and rebuilding needs.

According to the definitions of overfishing adopted by the Council and approved by the Secretary of Commerce (Secretary), the stocks of cod, haddock and yellowtail flounder are severely overfished, and are being fished at a rate more than twice that which will enable the stocks to maintain themselves over the long term. According to Federal guidelines, if a stock is overfished, the Council must establish a program and schedule to eliminate that condition and rebuild the stock over a period of time specified by the Council and acceptable to the Secretary.

The technical description of overfishing and of the status of stocks relative to that definition are contained in the DSEIS for Amendment 5. In simpler terms, the annual removal rate from individual groundfish stocks that would allow them to maintain themselves over the long term ranges from about one-quarter to one-half of the population (depending on the stock). According to the most recent assessments, fishing currently removes from one-half to three-quarters of each stock annually, and in some cases, at a rate more than twice the stock can sustain over the long term. Consequently, the Council intends to reduce overall fishing mortality rates by 50 percent.

In addition, NMFS, under the authority of the Marine Mammal Protection Act, has asked the Council to develop measures to reduce the take of harbor porpoise in the sink gillnet fishery and incorporate them into this amendment.

Amendment Objectives

The Council has adopted the following objectives for Amendment 5:

1. To eliminate overfishing on cod and yellowtail flounder in 5 years and on haddock in 10 years.

2. To rebuild the haddock spawning stock biomass, in addition to reducing the rate at which haddock are fished, by preventing an increase in the fishing effort directed at haddock.

3. To improve and enhance enforcement and administration of management measures.

4. To protect concentrations of fish below the minimum legal size from capture and excessive discard mortality.

5. To reduce the annual take of harbor porpoise in the sink gillnet fishery by the end of year 4 after implementation to 2 percent of the population, based on the best available estimates of abundance and bycatch.

Specific Measures Proposed

A. Moratorium

In order to qualify under the moratorium, a vessel would have to have been permitted as of February 21, 1991, or renewed a permit in 1991, and have a history of landing any multispecies fish. Vessels under construction or under contract for construction as of the control date could also qualify. The Council published notice of the control data in the Federal Register on May 17, 1991 (56 FR 22846).

There are proposed exceptions to the moratorium, and the owner of any vessel that does not automatically qualify for a permit would have the right to an appeal. The two exceptions to the moratorium under the preferred alternative would enable any vessel either to obtain a "maximum possession limit" permit, which would allow the vessel to retain up to a fixed amount of large-mesh groundfish species, currently proposed to be 500 pounds (227 kg), or to obtain a "hook-gear-only" permit, which would enable any vessel to fish for groundfish (no weight limit), provided that vessel fished for groundfish exclusively with fewer than 4,500 hooks set per day.

The Council is also taking to public hearings alternatives to the proposed moratorium. One alternative would

enable the Council to allow a controlled number of new permits on an annual basis after reviewing the effort-reduction program. Under one of the effort-reduction alternatives, which uses quotas, mesh size increases and monthly blocks out of the fishery, there is a no-moratorium alternative.

B. Fishing Effort Reductions

The Council is considering three effort-reduction alternatives: (1) All vessels (with exceptions) declaring time out of groundfishing and taking layover days while fishing for groundfish (the Council's preferred alternative); (2) choice of either a fleet-wide allocation or individual allocation of days at sea based on vessel history of fishing for groundfish; or (3) a system of aggregated quotas (combined landings of 10 large-mesh species), mesh size increases and monthly blocks out of groundfishing with the region divided into three quota allocation areas. The Council also proposes an exemption from effort-reduction requirements for boats under 30 feet (9.1 m) and hook-gear-only boats. Additionally, any vessel at any time may possess up to 500 pounds (227 kg) of groundfish, even though the vessel has no effort allocation. Further explanation of the alternatives follows.

Alternative 1: Under this preferred alternative, every qualifying vessel would be required to declare time out of groundfishing in blocks of no less than 20 days, including one block during the period March through May. The amount of time required off groundfishing would be increased incrementally over time. While fishing for groundfish, vessels would be required to layover at the dock 1 day for every 2 (24-hour) days at sea, except that no layover would be required for 1-day trips. The effort-reduction requirements for vessels engaged in pair trawling would be applied at a ratio of four-to-one in comparison to single-trawl vessels.

During the first 2 years, all groundfishing vessels would be required to declare 80 days out of the fishery, in addition to taking the layover days. In year 3, vessels would be required to declare 128 days out. In the fourth year, vessels would be required to declare 165 days out of groundfishing. In that year, the Council would consider making adjustments to any future reduction schedules based on the success of the program during the first 3 years and the status of the stocks relative to the amendment objectives. During the fifth year, vessels would be required to declare 200 days out of groundfishing.

Alternative 2: Under the second proposed alternative, vessels would have the option to take either the fleet-wide allocation of time out of groundfish described above, or individual allocations of days at sea based on historical performance as defined in the NMFS weighout file or as can be demonstrated with logbooks or other records.

Under the individuals allocation option, there would be no layover day requirement, but each vessel would still be required to declare 20 days out of groundfishing during the March through May period. The annual allocation of days at sea would be based on reductions of 10 percent per year from the initial baseline. Vessels fishing under an individual allocation would have to carry an electronic vessel tracking device.

Under this alternative, a vessel would have the opportunity to switch between the individual allocation group and the fleet-wide allocation group one time before the end of year 2, provided the switch is made at the end of the permit period (year).

The individual allocation would be based on the average number of groundfishing days that appear in the NMFS weighout files during 1988–1990, with the year of fewest days fished, and all years in which there is no record of fishing, removed from the calculation. A vessel would be able to appeal that allocation, and to continue fishing under the fleet-wide allocation pending the outcome of the appeal.

Alternative 3: This alternative would use three principal measures, which could be adjusted periodically in order to meet the amendment objectives: Aggregated quarterly quotas, mesh size increases, and assigned monthly blocks of time out of groundfishing. The Northeast Region would be divided into three areas: Gulf of Maine, Georges Bank, and Southern New England and south.

The time out of groundfishing would be allocated as follows. All vessels would be assigned random months out of the fishery during which vessels would be prohibited from retaining more than 500 pounds (227 kg) of groundfish. During the first 2 years, each vessel would be assigned 2 months out of the fishery, based on the last digit of the vessel permit. A vessel would not be assigned 2 consecutive months out, or more than 1 month per year that is the first month in a quarter.

Further time out of the fishery would result when the quota is reached and would apply to all vessels fishing in the area, regardless of the months that are assigned, as needed, in the third and fifth years of the plan.

C. Mesh Size Increase

Minimum legal mesh size for fishing for groundfish would be increased to 6 inches (15.2 cm), square or diamond, to be applied (phased-in) throughout the range of groundfish. Vessels would be required either to carry only legal mesh on board, or possibly to obtain a special permit to carry properly stowed small mesh while groundfishing.

D. Gillnet Vessels

An interim program is proposed for gillnet vessels to reduce both fishing effort and harbor porpoise bycatch, using blocks of time when all gear is out of the water, beginning with 4 days each month, and increasing incrementally to 16 days each month in year 5. There is also a mechanism to change or replace the interim proposal with a more effective or more acceptable management system as quickly as possible.

E. Mandatory Data Collection

Amendment 5 includes mandatory reporting systems for the collection of landings data and for monitoring effort. These include electronic vessel tracking systems (VTS) and a magnetic-strip card ("mag-card") call-in program.

F. Pair Trawling

The Council is considering measures either to control pair trawling for groundfish with a pro-rated effort control system, or to prohibit it.

G. Minimum Fish Sizes

Minimum fish sizes would be set appropriate to the increased mesh size, and to reduce discards (except for winter flounder, which would be set at 12 inches (30.5 cm), consistent with state regulations).

H. Juvenile Fish Protection

There are proposed measures to protect concentrations of juvenile cod on Stellwagen Bank and Jeffreys Ledge (required use of square mesh at certain times) and juvenile yellowtail in the vicinity of Nantucket Lightship (a closure to protect occasional large year classes).

I. Haddock Protection and Rebuilding

To protect and rebuild haddock stocks, Amendment 5 includes an expansion of Area II (by 20' longitude to the west and 15' latitude to the south), extension of the season (to January through June), and a suspension (for mobile gear) of the Area I closure. There is also a proposed possession limit of 2,500 pounds (1,134 kg) of haddock, or 5,000 pounds (2,268 kg) under effort reduction Alternative 3.

VOL 58 ISS 82 AP 30 1993 UMI

J. Inshore Night Fishing Ban

The Council seeks public comment on a prohibition on night fishing with mobile gear within 12 miles of shore (a non-preferred alternative).

K. Permits

Amendment 5 would require permits for all vessel operators and all dealers. A permit sanction could be the penalty for a violation of the regulations.

L. Overfishing Definitions

In accordance with Federal guidelines, the Council also is proposing measurable definitions of overfishing for those stocks in the plan for which overfishing has not yet been defined: Red hake, white hake, ocean pout, windowpane flounder, and pollock.

Public Comments Invited

Following these hearings, the Council will review all comments and prepare the final amendment. When the Council submits the amendment to the Secretary, the public will be notified and have further opportunity to comment. The Council encourages all interested members of the public to provide comments, questions and suggestions on the measures proposed in Amendment 5 as summarized in this summary document. Further detail on the background of Amendment 5, discussion and comparison of alternatives, and projected economic and environmental impacts are provided in the DSEIS, which is also available (see **ADDRESSES**).

Public Hearing Schedule

The public hearings will be held as follows:

1. May 3, 1993, 1 p.m.—Dutch Inn, Great Island Road, Galilee, RI (401) 789–9341.

2. May 4, 1993, 1 p.m.—The Frank Jones Center, 400 Route 1 Bypass, Portsmouth, NH (603) 433–2345.

3. May 5, 1993, 1 p.m.— Seaport Inn, 110 Middle Street, Fairhaven, MA (508) 997–1281.

4. May 6, 1993, 7 p.m.— Holiday Inn (Downtown), 88 Spring Street, Portland, ME (207) 775–2311.

5. May 7, 1993, 1 p.m.— Holiday Inn, U.S. Routes 1 & 3, Ellsworth, ME (207) 667–9341.

6. May 14, 1993, 7 p.m.— Sadler Function Hall, 30 Sadler Street Extension, Gloucester, MA (508) 281–8655.

7. May 19, 1993, 7 p.m.— Holiday Inn, 290 Highway 37 East, Toms River, NJ (908) 244–4000.

8. May 20, 1993, 7:30 p.m.— Holiday Inn, Exit 72–L.I. Expressway and Route 25, Riverhead, NY (516) 369–2222.

9. May 21, 1993, 2 p.m.— Sheraton Tara Hyannis, West End Circle, Hyannis, MA (508) 775–7775.

(**Authority:** 16 U.S.C. 1801 *et seq.*)

Dated: April 26, 1993.

David S. Crestin,

Acting Director, Office of Fisheries Conservation and Management National Marine Fisheries Service.

Federal Register

Vol. 58, No. 82

Friday, April 30, 1993

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 93–049–1]

Availability of Environmental Assessments and Findings of No Significant Impact Relative to Issuance of Permits to Field Test Genetically Engineered Organisms

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that seven environmental assessments and findings of no significant impact have been prepared by the Animal and Plant Health Inspection Service relative to the issuance of permits to allow the field testing of genetically engineered organisms. The environmental assessments provide a basis for our conclusion that the field testing of these genetically engineered organisms will not present a risk of introducing or disseminating a plant pest and will not have a significant impact on the quality of the human environment. Based on its findings of no significant impact, the Animal and Plant Health Inspection Service has determined that environmental impact statements need not be prepared.

ADDRESSES: Copies of the environmental assessments and findings of no significant impact are available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect those documents are encouraged to call ahead on (202) 690–2817 to facilitate entry into the reading room.

FOR FURTHER INFORMATION CONTACT: Dr. Arnold Foudin, Deputy Director, Biotechnology Permits, BBEP, APHIS, USDA, room 850, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–7612. For copies of the environmental assessments and findings of no significant impact, write to Mr. Clayton Givens at the same address. Please refer to the permit numbers listed below when ordering documents.

SUPPLEMENTARY INFORMATION: The regulations in 7 CFR part 340 (referred to below as the regulations) regulate the introduction (importation, interstate movement, and release into the environment) of genetically engineered organisms and products that are plant pests or that there is reason to believe are plant pests (regulated articles). A permit must be obtained before a regulated article may be introduced into the United States. The regulations set forth the procedures for obtaining a limited permit for the importation or interstate movement of a regulated article and for obtaining a permit for the release into the environment of a regulated article. The Animal and Plant Health Inspection Service (APHIS) has stated that it would prepare an environmental assessment and, when necessary, an environmental impact statement before issuing a permit for the release into the environment of a regulated article (see 52 FR 22906).

In the course of reviewing each permit application, APHIS assessed the impact on the environment that releasing the organisms under the conditions described in the permit application would have. APHIS has issued permits for the field testing of the organisms listed below after concluding that the organisms will not present a risk of plant pest introduction or dissemination and will not have a significant impact on the quality of the human environment. The environmental assessments and findings of no significant impact, which are based on data submitted by the applicants and on a review of other relevant literature, provide the public with documentation of APHIS' review and analysis of the environmental impacts associated with conducting the field tests.

Environmental assessments and findings of no significant impact have been prepared by APHIS relative to the issuance of permits to allow the field testing of the following genetically engineered organisms:

Permit No.	Permittee	Date issued	Organisms	Field test location
92–359–01	Monsanto Agricultural Company.	03–26–93	Soybean plants genetically engineered to express tolerance to the phosphinothricin class of herbicides.	Alabama, Illinois, Indiana, Iowa, Maryland, Michigan, Missouri, Ohio, South Dakota.
92–365–04, renewal of permit 91–317–01, issued on 01–22–92, renewal of permit 90–332–02, issued on 03–12–91.	Dekalb Plant Genetics, Incorporated.	04–01–93	Corn plants genetically engineered to express tolerance to the phosphinothricin class of herbicides.	Hawaii.
93–053–06, renewal of permit 91–077–01, issued on 06–18–91.	Harris Moran Seed Company.	04–01–93	Cantaloupe plants genetically engineered to express resistance to cucumber mosaic virus.	California.
93–011–02, renewal of permit 91–347–03, issued on 04–14–92.	Monsanto Agricultural Company.	04–05–93	Cotton plants genetically engineered to express a delta-endotoxin from *Bacillus thuringiensis* ssep. *kurstaki* for resistance to lepidopteran insects.	North Carolina.

VOL 58 ISS 82 AP 30 1993 UMI

Permit No.	Permittee	Date issued	Organisms	Field test location
93-011-03, renewal of permit 92-037-02, issued on 06-03-92.	Monsanto Agricultural Company.	04-05-93	Soybean plants genetically engineered to express tolerance to the phosphinothricin class of herbicides.	North Carolina.
93-077-04, renewal of permit 92-212-01, issued on 11-16-92.	Pioneer Hi-Bred International, Incorporated.	04-05-93	Corn plants genetically engineered to be male sterile and to express a marker gene for tolerance to the phosphinothricin class of herbicides.	Hawaii.
93-012-03	Monsanto Agricultural Company.	04-06-93	Cotton plants genetically engineered to express tolerance to the phosphinothricin class of herbicides.	Alabama, Arizona, Arkansas, California, Georgia, Louisiana, Mississippi, Texas.

The environmental assessments and findings of no significant impact have been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*), (2) Regulations of the Council on Environmental Quality for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500–1508), (3) USDA Regulations Implementing NEPA (7 CFR part 1b), and (4) APHIS Guidelines Implementing NEPA (44 FR 50381–50384, August 28, 1979, and 44 FR 51272–51274, August 31, 1979).

Done in Washington, DC, this 26th day of April 1993.

Lonnie J. King,

Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 93-10198 Filed 4-29-93; 8:45 am]

BILLING CODE 3410-34-P

Forest Service

Middle Fork Ecosystem Management Project, Flathead National Forest, Hungry Horse Range District, Flathead County, MT

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: The USDA, Forest Service, will prepare an Environmental Impact Statement (EIS) to analyze and disclose the environmental impacts of a proposal to sustain the natural diverse characteristics of ecosystems in the Middle Fork watershed upstream from West Glacier. This area, to be more approximate, lies between Glacier National Park and the Great Bear Wilderness Area, on the Hungry Horse Ranger District, Flathead County, Montana. Part of the proposed project activities are within the Bear-Marshall-Scapegoat-Swan (#1485) Roadless Area. To help sustain these ecosystems, prescribed burns in natural openings and harvesting of timber with some new road construction would be included in the proposal.

This EIS will tier to the Flathead National Forest Land and Resource Management Plan (LRMP) and EIS of January, 1986, which provide overall guidance in achieving the desired future condition for the area. To help achieve the purpose of sustaining natural ecosystems, the following has been identified as needs: to manage for the loss of vigor and increased mortality from a number of insect and disease organisms; to contribute to the short term supply of timber; to provide for conservation of biological diversity by maintaining or enhancing long term landscape linkages; to provide for wildlife habitat diversity and security; and to improve fish habitat.

Extensive scoping had been done for this project during the initial stages of analysis and during the development of alternatives over the past thirteen months. It has now been determined that an EIS will be prepared for this project. The Forest Service is seeking information and comments from Federal, State, and local agencies and other individuals or organizations who may now be interested in or affected by the proposed actions. This input will be used in preparing the Draft EIS. This process will include:

1. Identification of potential issues.
2. Identification of major issues to be analyzed in depth.
3. Elimination of minor issues or those which have been covered by a relevant previous environmental analysis.
4. Identification of additional reasonable alternatives.
5. Identification of potential environmental effects of the proposed action and the alternatives (i.e. direct, indirect, and cumulative effects).
6. Determination of potential cooperating agencies and task assignments.

The agency invites written comments and suggestions on the issues and management opportunities in the area being analyzed.

DATES: Comments concerning the scope of the analysis should be received on or before June 14, 1993.

ADDRESSES: Submit written comments and suggestions on the proposed management activities or a request to be placed on the project mailing list to Allen L. Christophersen, District Ranger, Hungry Horse Ranger District, P.O. Box 340, Hungry Horse, MT 59919.

FOR FURTHER INFORMATION CONTACT: Heidi Trechsel, Middle Fork Interdisciplinary Team Leader, or Allen L. Christophersen District Ranger, at (406) 387-5243.

SUPPLEMENTARY INFORMATION:

Management activities under consideration would occur in an area encompassing approximately 22,430 acres of National Forest lands in the Dickey Cr., Paola Cr., Pinnacle Cr., Tunnel Cr., and Disbrow Cr. drainages of the Middle Fork Geographic Unit, located on the Hungry Horse Ranger District, as delineated in the Flathead LRMP. This area lies south of the Middle Fork of the Flathead River, west of the Continental Divide and north of the Great Bear Wilderness.

Wildlife habitat would be improved on 146 acres in the Dickey Cr. drainage, 100 acres in the Paola Cr. drainage, and 136 acres in the Tunnel Cr. drainage. This part of the proposal would involve forage enhancement through prescribed burning of natural openings.

Fish habitat would be improved in the Dickey, Paola, and Tunnel Creek drainages by removing barriers, improving bank and over-pool cover, and developing more clean gravel for spawning.

Harvest of timber and reforestation activities would occur on up to 500 acres in the project area. The areas for treatment are composed of even-aged lodgepole stands and mixed species stands. Management activities may include construction of approximately 1.3 miles of permanent road, and restoration of approximately 3.9 miles of existing roads. The proposed timber harvest would take place in up to 22 units, varying in size from 4 to 40 acres. Seventeen of the units would be harvested with a seed tree with reserves silvicultural system (retention of up to 10 trees per acre). Two of the units would be harvested with a shelterwood with reserves silvicultural system (retention of up to 20 trees per acre). The remaining units would be harvested with a selection silvicultural system. Thirteen of the units would be harvested using a helicopter logging system and the remaining nine units would be harvested using a ground based logging system. Half of the units would be prescribed burned following logging to treat the heavy slash accumulations and prepare the site for reforestation. The remaining units would be mechanically scarified.

The LRMP for the Flathead National Forest provides the overall guidance for management activities in the potentially affected area through its goals, objectives, standards and guidelines, and management area direction. The proposal was designed to meet the Forest Plan standards and guidelines and ecosystem management goals.

Areas of proposed harvest and road construction for the Middle Fork project are within Management Area (MA) 15, 16, and 7. LRMP plan direction states that Management Area 15 consists of lands where timber management with roads is economical and feasible. The management goal is to manage those lands suitable for timber production for the long-term growth and production of commercially valuable wood products as well as provide for soil and water protection, wildlife habitat, and roaded recreation opportunities.

Management Area 7 includes forested lands in areas of high scenic value. One of the primary goals consists of maintaining a pleasing, natural-appearing landscape in which management activities are not dominant. All resources will be managed with a partial retention visual quality objective.

Management Area 16 includes lands where timber management is feasible through the use of aerial logging systems. Roadless logging methods will be used, unless site specific analysis determines that a roaded system is economically and environmentally prudent.

Management Area 2A/2B consists of unroaded lands that offer a variety of dispersed recreation opportunities. Dispersed recreation opportunities will meet a Recreation Opportunity Spectrum classification of semi-primitive non-motorized for MA 2A and semi-primitive motorized for MA 2B. These management areas will provide wildlife and fish habitat, including security from human disturbance.

The Forest Service will consider a range of alternatives. The proposed action and the alternatives all respond in part to the purpose and need by addressing to varying degrees biodiversity, wildlife diversity and security, forest health and other needs. The analysis will also consider the "no action" alternative, in which none of the proposed activities would be implemented. As a result of the scoping and analysis that has taken place to date, alternatives to the proposed action would include;

(1) An alternative that focuses more on the conservation of biological diversity by maintaining or enhancing long term landscape linkages between the Bob Marshall Wilderness Complex and Glacier National Park. Wildlife burns would occur on 479 acres and timber harvest on 613 acres with some access provided by the construction of 0.3 miles of road and restoration of 3.9 miles of existing road. Fishery improvement work would be the same as in the proposed action.

(2) An alternative that would allow no harvesting or prescribed burning in inventoried roadless lands. 54 acres would be harvested from existing roads, with no new road construction or road restoration. Fishery improvement work would be the same as in the proposed action.

(3) An alternative that would include no harvesting of old growth. Wildlife burns would occur on 382 acres and timber harvest on 422 acres with some access provided by the construction of 1.3 miles of road and restoration of 3.9 miles of existing road. Fishery improvement work would be the same as in the proposed action.

Alternative analysis has examined various levels and locations of timber harvest and road construction to provide emphasis on differing mixes of timber and non-timber resource values.

The Forest Service has analyzed and will document the direct, indirect, and cumulative environmental effects of the alternatives. As appropriate, the EIS will disclose the site specific features that reduce or eliminate potential environmental impacts. Past, present, and projected activities on both private and National Forest lands will be considered. The EIS will disclose the analysis of site-specific mitigation measures and their effectiveness.

Public participation has been emphasized at several points of the analysis. People have visited Forest Service officials at various times during the analysis. Several open houses were provided in and adjacent to the project area during the initial scoping process. In addition, the public is encouraged to visit with Forest Service officials at any time during the analysis and prior to the decision.

The Fish and Wildlife Service, Department of the Interior, has been and will be informally consulted throughout the analysis. To meet the requirements of the Endangered Species Act, the Fish and Wildlife Service will review the EIS and biological evaluation and if necessary, render a formal Biological Opinion of the effects on the Threatened and Endangered Species including grizzly bear, gray wolf, and bald eagle.

The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review in late June 1993. At that time the EPA will publish a notice of availability of the draft EIS in the Federal Register. The public comment period on the draft EIS will be 45 days from the date the EPA's notice of availability appears in the Federal Register.

The Forest Service believes it is important to give reviewers notice at this early stage because of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. [*Vermont Yankee Nuclear Power Corp.* versus *NRDC, 435 U.S. 519, 553 (1978)*]. Also, environmental objections that could be raised at the draft environmental impact stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. [*Wisconsin Heritage, Inc.* versus *Harris*], 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when the agency can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in

VOL 58 ISS 82 AP 30 1993 UMI

the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points).

The preliminary issues from initial scoping within the agency and public comments are listed below.

Effects to Threatened and Endangered Species.

Effects to snags due to potential high fuel loadings.

Management activities may affect cover/forage ratio and distribution.

Insect and disease organisms have effects upon stands, ecosystems, and area's relationship to fire.

Effects on short and long term timber supply.

Effects of site preparation activities on shrub component and subsequent regeneration.

Effects of even-age management on wildlife, visuals, and other resources.

Effects to riparian values, sensitive plants, Pacific yew, air quality, roadless, recreation use, visuals, water yield and quality, soil productivity, slope stability, bull trout and other fish, and old growth habitat.

Noxious weeds.

Effects of potential risk of escape from prescribed burn.

Effects of road use restrictions on recreation use and values.

Effects to economic efficiency.

Following this comment period, the comments received will be analyzed, considered and responded to by the Forest Service in the final environmental impact statement (FEIS). The FEIS is scheduled to be completed by September 1993. The District Ranger for the Hungry Horse Ranger District, Flathead National Forest is the responsible official for the preparation of this EIS and will make a decision regarding this proposal considering the comments and responses, environmental consequences discussed in the FEIS, and applicable laws, regulations, and policies. The decision and rationale for the decision will be documented in a Record of Decision. That decision will be subject to appeal under applicable Forest Service regulations.

Dated: April 15, 1993.

Allen L. Christophersen,

District Ranger, Hungry Horse Ranger District, Flathead National Forest.

[FR Doc. 93-9434 Filed 4-29-93; 8:45 am]

BILLING CODE 3410-11-M

Advisory Council Meeting; Allegheny Wild and Scenic River, Allegheny National Forest, PA

AGENCY: Forest Service, USDA.

ACTION: Notice of meetings.

SUMMARY: A joint meeting of the Southern and Northern Advisory Councils for the Allegheny Wild and Scenic River will be held at 6:30 p.m., Wednesday, May 12, 1993, in the meeting room of St. John's Catholic Church, Tidioute, PA.

A videotape made by Council Member Lew Weingard will be shown of a trip down the Allegheny River on a replica 19th century packet boat which discusses the historical importance of the river.

Other topics include:

(1) Discussing common goals and objectives for the Northern and Southern Councils, (2) Beginning development of recommended management guidelines, and (3) discussing June river clean-up efforts.

The meeting is open to the public. A sign language interpreter will be provided if requested by May 3, 1993.

FOR FURTHER INFORMATION CONTACT: Lionel Lemery, Wild and Scenic River Coordinator, Allegheny National Forest, 222 Liberty Street, Warren, Pennsylvania 16365, 814/723-5150 or 814/726-2710 (TTY).

Dated: April 19, 1993.

Lionel A. Lemery,

Wild and Scenic River Coordinator.

[FR Doc. 93-10178 Filed 4-29-93; 8:45 am]

BILLING CODE 3410-11-M

Soil Conservation Service

Argyle Lake Watershed, McDonough County, IL

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to section 102(2) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR part 1500); and the Soil Conservation Service Regulations (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Argyle Lake Watershed, McDonough County, Illinois.

FOR FURTHER INFORMATION CONTACT: Charles Whitmore, State Conservationist, Soil Conservation Service, 1902 Fox Drive, Champaign, IL 61820, 217/398-5267.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicated that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Charles Whitmore, State Conservationist, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project purpose is to improve water quality by trapping sediment, chemicals, and nutrients. The elements included in this plan are:

1. Two upland sediment basins, one 37' high and one 40' high
2. Two 4' high in-lake wetlands (rock weirs across upper reaches)
3. Required land treatment

The notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state and local agencies and interested parties. A limited number of copies of the FONSI are available for filling single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Charles Whitmore.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation for state and local officials.)

Charles Whitmore,

State Conservationist.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

Agency Forms Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposals for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of Economic Analysis (BEA).

Title: Annual Survey of Reinsurance and Other Insurance Transactions by U.S. Insurance Companies with Foreign Persons.

Agency Form Number: BE-48.

OMB Approval Number: 0608-0016.

Type of Request: Revision.

Burden: 1,600 hours.

Number of Respondents: 400.

Avg Hours Per Response: 4 hours.

Needs and Uses: This survey obtains data on transactions between U.S. insurance companies and foreign persons. The information gathered is needed to support U.S. trade policy initiatives, including trade negotiations, and to compile the U.S. balance of payments and the national income and product accounts.

Affected Public: U.S. insurance companies, brokers, or groups engaging in reinsurance or other insurance transactions with foreign persons.

Frequency: Annual.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Paul Bugg, (202) 395-7340, room 3228, New Executive Office Building, Washington, DC 20503.

Agency: Bureau of Economic Analysis (BEA).

Title: Annual Survey of Construction, Engineering, Architectural, and Mining Services Provided by U.S. Firms to Unaffiliated Foreign Persons.

Agency Form Number: BE-47.

OMB Approval Number: 0608-0015.

Type of Request: Revision.

Burden: 675 hours.

Number of Respondents: 135.

Avg Hours Per Response: 5 hours.

Needs and Uses: This survey obtains data on U.S. sales to unaffiliated foreign persons of construction, engineering, architectural, and mining services. The information is needed to support U.S. trade policy initiatives, including trade negotiations, and to compile the U.S. balance of payments and the national income and product accounts.

Affected Public: U.S. businesses or other for-profit institutions providing construction, engineering, architectural, and mining services to unaffiliated foreign persons.

Frequency: Annual.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Paul Bugg, (202) 395-7340, room 3228, New Executive Office Building, Washington, DC 20503.

Agency: Bureau of Economic Analysis (BEA).

Title: Annual Survey of Royalties, License Fees, and Other Receipts and Payments for Intangible Rights Between U.S. and Unaffiliated Foreign Persons.

Agency Form Number: BE-93.

OMB Approval Number: 0608-0017.

Type of Request: Revision.

Burden: 2,080 hours.

Number of Respondents: 520.

Avg Hours Per Response: 4 hours.

Needs and Uses: This survey obtains data on royalties, license fees, and other receipts and payments for intangible rights between U.S. and unaffiliated foreign persons. The information is needed to support U.S. trade policy initiatives, including trade negotiations, and to compile the U.S. balance of payments and the national income and product accounts.

Affected Public: U.S. businesses or other for-profit institutions receiving royalties and license fees from, or paying royalties and license fees to, unaffiliated foreign persons.

Frequency: Annual.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Paul Bugg, (202) 395-7340, room 3228, New Executive Office Building, Washington, DC 20503.

Agency: National Institute of Standards and Technology (NIST).

Title: National Voluntary Laboratory Accreditation Program (NVLAP) Information Collection System.

Agency Form Number: NIST-1144.

OMB Approval Number: 0693-0003.

Type of Request: Extension of the expiration date of a currently approved collection.

Burden: 3,600 recordkeeping/reporting hours.

Number of Respondents: 1,200.

Avg Hours Per Response: 2 hours for reporting/1 hour for recordkeeping.

Needs and Uses: Information is required of laboratories applying for accreditation under NVLAP. The information is used in conjunction with on-site assessments to determine if a laboratory is eligible for accreditation.

Affected Public: State or local governments, businesses or other for-profit institutions, federal agencies, non-profit institutions and small businesses or organizations.

Frequency: On occasion, annually, recordkeeping.

Respondent's Obligation: Required to obtain or retain a benefit.

OMB Desk Officer: Maya A. Bernstein, (202) 395-3785, room 3235, New Executive Office Building, Washington, DC 20503

Copies of the above information collection proposals can be obtained by calling or writing Edward Michals, DOC Forms Clearance Officer, (202) 482-3271, Department of Commerce, room 5327, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collections should be sent to the respective OMB Desk Officer listed above.

Dated: April 26, 1993.

BILLING CODE 3510-CW-F

Bureau of Export Administration

Regulations and Procedures Technical Advisory Committee; Partially Closed Meeting

A meeting of the Regulations and Procedures Technical Advisory Committee will be held May 19, 1993, at 9:30 a.m., in the Herbert C. Hoover Building, room 1617M(2), 14th Street and Pennsylvania Avenue, NW., Washington, DC. The Committee advises the Office of Technology and Policy Analysis on implementation of the Export Administration Regulations (EARS), and provides for continuing review to update the EARS as needed.

Agenda

General Session

1. Opening remarks by the Chairman.
2. Presentation of papers or comments by the public.
3. Status report on working group projects:
   - Nonproliferation control regimes
   - Reconciliation of regimes
   - Regulations review.
4. Presentation by Jim Dearlove, Senior Intelligence Officer for the Defense Intelligence Agency, on DOD view of future technology transfer controls.

Executive Session

5. Discussion of matters properly classified under Executive Order 12356, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting will be open to the public and a limited number of seats will be available. To the extent that time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, to facilitate the distribution of public presentation materials to the Committee members, the Committee suggests that presenters forward the public presentation materials two weeks prior to the meetings date to the following address: Ms. Lee Ann Carpenter, TAC Unit/OAS/EA/BXA, room 1621, U.S. Department of Commerce, 14th & Pennsylvania Ave., NW., Washington, DC 20230.

The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on January 18, 1993, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, that the series of meetings or portions of meetings of the Committee and of any Subcommittees thereof,

VOL 58 ISS 82 AP 30 1993 UMI

dealing with the classified materials listed in 5 U.S.C. 552(c)(1) shall be exempt from the provisions relating to public meetings found in section 10(a)(1) and (a)(3), of the Federal Advisory Committee Act. The remaining series of meetings or portions thereof will be open to the public.

A copy of the Notice of Determination to close meetings or portions of meetings of the Committee is available for public inspection and copying in the Central Reference and Records Inspection Facility, room 6020, U.S. Department of Commerce, Washington, DC. For further information, call Lee Ann Carpenter at (202) 482–2583.

Dated: April 26, 1993.

Lee Ann Carpenter,

Acting Director, Technical Advisory Committee Unit.

[FR Doc. 93–10125 Filed 4–29–93; 8:45 am]

BILLING CODE 3510–DT–M

Transportation and Related Equipment Technical Advisory Committee; Partially Closed Meeting

A meeting of the Transportation and Related Equipment Technical Advisory Committee will be held May 20, 1993, 9:30 a.m., in the Herbert C. Hoover Building, room 1617M(2), 14th Street & Pennsylvania Avenue, NW., Washington, DC. The Committee advises the Office of Technology and Policy Analysis with respect to technical questions which affect the level of export controls applicable to transportation and related equipment or technology.

Agenda: General Session

1. Opening Remarks by the Chairman or Commerce Representative.
2. Introduction of Members and Visitors.
3. Presentation of Papers or Comments by the Public.
4. Discussion of recent revisions to the Export Administration Regulations.
5. Discussion of upcoming COCOM List Review.
6. Discussion of recent Missile Technology Control Regime Guidelines and Annex changes.

Executive Session

7. Discussion of matters properly classified under Executive Order 12356, dealing with the U.S. and COCOM control programs and strategic criteria related thereto.

The General Session of the meeting will be open to the public and a limited number of seats will be available. To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, in order to facilitate distribution of public presentation materials to the Committee members, the Committee suggests that you forward your public presentation materials two weeks prior to the meeting to the below listed address: Ms. Lee Ann Carpenter, TAC Unit/OAS/EA/IIXA, room 1621, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW., Washington, DC 20230.

The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on January 18, 1993, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, that the series of meetings or portions of meetings of the Committee and of any Subcommittee thereof, dealing with the classified materials listed in 5 U.S.C. 552(c)(1) shall be exempt from the provisions relating to public meetings found in section 10(a)(1) and (a)(3), of the Federal Advisory Committee Act. The remaining series of meetings or portions thereof will be open to the public.

A copy of the Notice of Determination to close meetings or portions of meetings of the Committee is available for public inspection and copying in the Central Reference and Records Inspection Facility, room 6020, U.S. Department of Commerce, Washington, DC. For further information or copies of the minutes call 202–482–1583.

Dated: April 26, 1993.

Lee Ann Carpenter,

Acting Director, Technical Advisory Committee Unit.

International Trade Administration

[A–475–703]

Granular Polytetrafluoroethylene Resin From Italy; Final Affirmative Determination of Circumvention of Antidumping Duty Order

AGENCY: International Trade Administration/Import Administration Department of Commerce.

ACTION: Notice of final affirmative determination of circumvention of antidumping duty order.

SUMMARY: On September 18, 1992, the Department of Commerce published a preliminary affirmative determination of circumvention of the antidumping duty order on granular polytetrafluoroethylene (PTFE) resin from Italy. The inquiry into the possible circumvention of this order covers one Italian manufacturer/exporter of the subject merchandise, and a related party in the United States (respondents). This inquiry covers the period July 1, 1990, through October 31, 1991.

We afforded interested parties an opportunity to comment on the preliminary affirmative determination of circumvention. We also requested certain additional factual information from respondents after the issuance of our preliminary determination. Based on our analysis of the factual information submitted, the comments received on our preliminary determination, and the arguments presented at the public hearing on the preliminary determination, we have determined that respondents are circumventing this order.

As a result, we have determined that PTFE wet raw polymer, the imported product subject to this inquiry, falls within the scope of the antidumping duty order on granular PTFE resin from Italy.

EFFECTIVE DATE: April 30, 1993.

FOR FURTHER INFORMATION CONTACT: David S. Levy, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone (202) 482–4733.

SUPPLEMENTARY INFORMATION:

Background

On September 18, 1992, the Department of Commerce (the Department) published in the **Federal Register** (57 FR 43218) a preliminary affirmative determination of circumvention of the antidumping duty order on granular PTFE resin from Italy and a consequent finding that the imported product subject to the inquiry, PTFE wet raw polymer, fell within the scope of this order. Pursuant to this determination, the Department instructed the U.S. Customs Service (Customs) to suspend liquidation of, and require cash deposits on, all entries of the imported product, PTFE wet raw polymer. In accordance with section 781(e) of the Tariff Act of 1930, as amended (the Tariff Act), the Department also notified the International Trade Commission (ITC) of its preliminary determination that the imported product fell within the scope of the order. In response, the ITC notified the Department that consultations between the Department and the ITC regarding the Department's preliminary determination were unnecessary.

The Department has now completed this inquiry in accordance with section 781(a) of the Tariff Act.

Scope of the Antidumping Duty Order

The antidumping duty order covers granular PTFE resins, filled or unfilled. The order explicitly excludes PTFE dispersions in water and PTFE fine powders. During the period covered by the anti-circumvention inquiry, such merchandise was classified under item number 3904.61.90 of the Harmonized Tariff Schedule (HTS). We are providing this HTS number for convenience and customs purposes only. The written description of scope remains dispositive.

Scope of the Anti-circumvention Inquiry

This anti-circumvention inquiry covers one Italian company, Montefluos, S.p.A. (Montefluos), and a related company in the United States, Ausimont, U.S.A. (Ausimont). The product subject to this anti-circumvention inquiry is PTFE wet raw polymer manufactured in, and exported from, Italy. PTFE wet raw polymer is the intermediate product from which Ausimont produces granular PTFE resin in the United States. Our period of inquiry was July 1, 1990, through October 31, 1991. However, our examination of qualitative factors and of the pattern of imports of the finished and intermediate products subject to this inquiry is based, in part, on data and events from outside this period.

Nature of the Anti-circumvention Inquiry

As set forth in our preliminary determination, we examined whether (1) granular PTFE resin sold in the United States is of the same class or kind of merchandise as that covered by the antidumping duty order on granular PTFE resin from Italy, (2) granular PTFE resin sold in the United States was completed or assembled from material imported from Italy, and (3) the difference between the value of granular PTFE resin and the value of PTFE wet raw polymer manufactured in and imported from Italy was small, as required by section 781(a)(1) of the Tariff Act. In reaching a conclusion as to whether the difference in value was small, we analyzed the nature of respondents' production processes, the extent of their U.S. production facilities, and their level of U.S. investment. Further, in determining whether to include the imported parts or components within the scope of the order, we analyzed the pattern of trade, the relationship between the respondents, and the volume of imports of PTFE wet raw polymer, pursuant to section 781(a)(2) of the Tariff Act. (See Granular Polytetrafluoroethylene Resin from Italy; Preliminary Affirmative Determination of Circumvention of Antidumping Duty Order, 57 FR 43218, 43219 (1992) (PTFE Preliminary).)

I. Statutory Criteria

Class or Kind and U.S. Assembly From Imported Components

Neither petitioner nor respondents challenged our preliminary determinations that the granular PTFE resin produced in the United States was of the same class or kind of merchandise as that imported from Italy, and that the subject granular PTFE resin was processed in the United States from PTFE wet raw polymer imported from Italy, the country to which the antidumping duty order applies. Therefore, we reaffirm our preliminary determinations regarding these two criteria.

Difference in Value

In our preliminary difference in value analysis, we used our customary method in attempting to calculate the value of granular PTFE resin and the value of PTFE wet raw polymer for the purpose of determining the difference in value between them. In calculating the value of PTFE wet raw polymer, we first calculated profit or loss in the United States by deducting (1) processing costs and general expenses incurred in the United States and (2) the relevant costs and expenses incurred in the home market from the U.S. selling price of the granular PTFE resin produced in the United States. We then allocated a portion of the resulting loss and a portion of respondents' U.S. general expenses to the cost of production of PTFE wet raw polymer to calculate its estimated value. Finally, we deducted the estimated value of PTFE wet raw polymer from the value of granular PTFE resin and divided the result by the value of granular PTFE resin to calculate a ranged difference in value of 38 to 55 percent. (*Id.*)

However, we determined that the result of the calculation significantly overstated the actual difference in value because respondents incurred losses during the period of inquiry that were due, at least in part, to the fact that respondents' newly-established U.S. production facility did not operate at full capacity during the inquiry period. We also noted that the calculated difference in value decreased significantly if we did not allocate respondents' losses to the cost of production of PTFE wet raw polymer. As a result, we concluded that 38 to 55 percent did not provide a realistic measure of the true difference in value between PTFE wet raw polymer and granular PTFE resin. (*Id.*)

In our preliminary determination, we also analyzed the nature of respondents' U.S. production process, the extent of their U.S. production facilities, and the level of their U.S. investment. Based on the descriptions of the various stages of the production of granular PTFE resin, and on the fact that respondents did not add any materials to or fundamentally alter the nature of PTFE wet raw polymer through processing in the United States, we determined that respondents' U.S. production process was not complex relative to the production process for PTFE wet raw polymer. We also determined that we lacked sufficient evidence regarding the extent of respondents' U.S. facility and the level of their U.S. investment to conclude that respondents had established substantial production facilities in the United States. (*Id.*) Based on these conclusions, and on our conclusion that the calculated difference in value did not provide a realistic measure of the difference between the value of PTFE wet raw polymer and granular PTFE resin, we preliminarily determined that the difference in value between granular PTFE resin and PTFE wet raw polymer was small. (*Id.*)

Subsequent to our preliminary determination, we requested that respondents provide us with data on the costs of finishing operations in Italy, detailed descriptions of the production processes for PTFE wet raw polymer and granular PTFE resin that respondents employ in Italy, and data on investment, employment, and output at respondents' current and former U.S. facilities as well as their Italian facility. We requested this information in order to conduct a more detailed analysis of the extent of respondents' U.S. production facility and the level of respondents' investment in this facility, and to provide a basis for further evaluation of our conclusions regarding the results of our preliminary difference in value calculation. Our analysis of this additional factual information is set forth below.

Final Calculation of Difference in Value: Respondents provided us with descriptions of their post-treatment process, which produces granular PTFE resin from PTFE wet raw polymer, in both Italy and the United States. Based on our analysis of these descriptions, we conclude that the production processes employed by respondents in the United

VOL 58 ISS 82 AP 30 1993 UMI

States and Italy are substantially similar. Further, our evaluation of production capacity and capacity utilization data reveals that the Italian facility is an established operation whose level of capacity utilization was not affected by the same factors that affected capacity utilization at respondents' U.S. facility. Finally, we found that a comparison of per-unit costs for post-treatment in the United States with those incurred at respondents' Italian facility, which operated under more typical conditions during the inquiry period, provided further evidence that respondents' U.S. losses were due, at least in part, to the fact that their U.S. facility did not operate at full capacity during the period of inquiry. For these reasons, we reaffirm our preliminary conclusion that the difference in value calculated in our preliminary analysis did not provide a reliable measure of the difference between the value of granular PTFE resin and PTFE wet raw polymer. Moreover, we have determined that data on the costs that respondents incurred for post-treatment of PTFE wet raw polymer in Italy provide a reasonable basis for assessing the contribution of the post-treatment process to the total value of granular PTFE resin under more typical conditions. (See Affirmative Final Determination of Circumvention of Antidumping Duty Order on Granular PTFE Resin from Italy—Final Difference in Value Analysis, Memorandum for the File from Case Analyst, April 20, 1993 (Final Analysis Memo))

Having established that we could rely on data regarding respondents' post-treatment costs in Italy as an appropriate surrogate for their post-treatment costs in the United States, we used these data to calculate the difference between the value of granular PTFE resin and the value of PTFE wet raw polymer. As in our preliminary determination, we computed the absolute difference in value by deducting the value of PTFE wet raw polymer from the value of granular PTFE resin. We then calculated the percentage difference in value by dividing the absolute difference in value by the value of granular PTFE resin.

Value of Completed Merchandise

As in our preliminary determination, we used respondents' weighted-average, monthly, ex-factory U.S. selling price of granular PTFE resin on a grade-specific basis to represent the value of granular PTFE resin. Where applicable, we deducted U.S. inland freight from the reported selling prices to derive the ex-factory price of the granular PTFE resin.

Value of Imported Material

In calculating the value of PTFE wet raw polymer for this final determination, we substituted data on respondents' Italian post-treatment costs for those on their U.S. post-treatment costs. Thus, we calculated profit or loss by deducting (1) the general expenses incurred in the United States and (2) the total manufacturing cost in Italy for granular PTFE resin and any relevant expenses incurred in Italy from the U.S. selling price of the granular PTFE resin. We then allocated a portion of the resulting profit or loss and a portion of respondents' U.S. general expenses to the cost of production of PTFE wet raw polymer to calculate its estimated value. Finally, we deducted the estimated value of PTFE wet raw polymer from the value of granular PTFE resin and divided the result by the value of granular PTFE resin to calculate a difference in value of 10 to 20 percent (because the actual figure is business proprietary information, the stated percentages are approximated within plus or minus ten percentage points of the calculated figure).

Nature of Processing

As we stated in our preliminary determination, we believe that the production of tetrafluoroethylene (TFE) monomer and the suspension polymerization of this monomer into PTFE wet raw polymer are complicated processes, and that these processes impart the basic physical characteristics that distinguish granular PTFE resin from other forms of PTFE resin. (See PTFE Preliminary at 43220.) An analysis of respondents' descriptions of their monomer production and suspension polymerization processes indicate they conform to the descriptions that we used in our preliminary determination. (See Final Analysis Memo.) Further, our comparison of respondents' U.S. and Italian post-treatment processes supports our preliminary conclusion that post-treatment processes are not complex relative to the processes required to produce PTFE wet raw polymer, and do not fundamentally alter the nature of the product. (*Id.*) As a result, we reaffirm our preliminary determination that, within the context of the overall production process for granular PTFE resin, the processes that respondents currently perform in the United States are relatively simple.

Extent of Production Facilities

Respondents indicated in their submissions subsequent to the preliminary determination that the U.S. production facility that they closed in 1988 was an integrated facility that performed all processes required to produce granular PTFE resin. After closing this facility, respondents then supplied their U.S. customers with imported granular PTFE resin that was also produced in an integrated facility. However, the U.S. production facility that we examined during this inquiry performs only the final, post-treatment stages of the production process. Because respondents are currently performing in the United States only a fraction of the production steps that they previously performed in the United States, and currently perform in Italy, we conclude that respondents' current U.S. production facility is not extensive relative to their other granular PTFE resin production facilities.

Level of Investment

We evaluated the level of respondents' investment in the United States within the context of the level of investment required for an integrated facility for the production of granular PTFE resin. The data from respondents' Italian facility clearly establish that the plant and equipment required for the production of granular PTFE resin represent only a fraction of the equipment required for the production of TFE monomer and the suspension polymerization of this monomer. Respondents' estimates of the investment required to construct monomer production and polymerization facilities in the United States demonstrate a similar relationship. Accordingly, we determine that, in comparison to the investment required to establish an integrated production facility for granular PTFE resin, respondents' investment in the United States is relatively minor.

In previous anti-circumvention inquiries, we determined that the difference between the value of imported parts and components and the value of finished products was not "small" because (1) respondents performed a variety of complex processing steps and added numerous materials to the imported components that fundamentally altered their nature, (2) the extent of respondents' U.S. facilities was similar to that of their home market facilities, and (3) respondents made a significant investment in U.S. production facilities comparable in scale to production facilities in the home market. (PTFE Preliminary at 43220.) However, in this case, we find that the processing performed in the United States is not complex, that respondents' U.S. facilities are not extensive, and that respondents' U.S. investment is relatively minor. Therefore, we determine that respondents' U.S. operations are mere finishing operations that constitute only a "slight change[s] in methods of production or shipment." (S. Rep. No. 71, 100th Cong., 1st Sess. at 101 (June 12, 1987)("Senate Report").) Based on this conclusion, we determine that the ranged difference in value of 10 to 20 percent is "small."

II. Factors

We did not request additional information regarding the pattern of trade, the relationship between the parties, and the volume of imports of PTFE wet raw polymer subsequent to our preliminary determination. Based on our analysis of the comments received on our conclusions regarding these factors, we reaffirm our preliminary determinations that (1) the data on the pattern of trade indicates a shift from sales in the United States of granular PTFE resin imported from Italy toward sales of granular PTFE resin processed in the United States from PTFE wet raw polymer imported from Italy, (2) respondents are related parties, and (3) imports of PTFE wet raw polymer increased subsequent to the issuance of the antidumping duty order.

Analysis of Comments Received

We invited interested parties to comment on our preliminary affirmative determination. We received comments from the respondents, from E. I. Du Pont de Nemours & Company (Du Pont), the petitioner in this inquiry, and from ICI Americas, Inc., a domestic producer of granular PTFE resin. We received rebuttals from respondents and petitioner. On December 18, 1992, we held a public hearing.

Comment 1: Respondents state that the statute requires the Department to calculate the difference between the value of imported parts and components and the value of finished products in anti-circumvention inquiries. According to respondents, the Department failed to calculate the difference between the value of granular PTFE resin and the value of PTFE wet raw polymer in its preliminary determination. Rather, respondents assert that the Department appears to have rendered its preliminary determination that the difference between the respective values of the two products was "small" based on an analysis of qualitative factors alone, without actually having established the value of PTFE wet raw polymer, the value of granular PTFE resin, or the quantitative difference between their values.

Respondents argue that the terminology used in the statute indicates that Congress intended that the Department conduct a quantitative analysis of the difference between the value of an imported article and the value of the finished product produced in the United States from the imported article. Respondents assert that the term "value" has been given a clear quantitative meaning throughout the trade laws and the Department's application of those laws, and that the Department has consistently assigned numeric values to such terms as "small" and "insignificant" in administering other portions of the Tariff Act. Thus, respondents conclude that the Department must calculate the specific difference in value in this inquiry.

Petitioner states that the statute neither defines the term "small," nor requires that the Department reach a conclusion regarding the difference between the values of imported parts and finished products based on a fixed method of analysis or the calculation of a specific number. According to petitioner, the legislative history of section 781(a) of the Tariff Act indicates that Congress deliberately refrained from incorporating such definitions and instructions into the statute in order to provide the Department with broad discretion and maximum flexibility in conducting its analysis of the difference between the value of imported parts or components and the value of the finished product. Therefore, petitioner concludes that the Department's preliminary determination was in accordance with the statute.

Department's Position: We agree with petitioner that we are not required to use a fixed method of analysis or to calculate a specific number in rendering determinations pursuant to section 781(a)(1)(C) of the Tariff Act. In recognizing that different cases would present different factual situations, Congress drafted the statute and the accompanying legislative history with the intention of affording the Department a reasonable degree of flexibility in reaching conclusions pursuant to section 781(a)(1)(C) of the Tariff Act. Specifically, Congress stated in the legislative history that:

> New sections [781(a) and 781(b)] of the 1930 Act apply when the difference between the merchandise sold, or imported into, the United States and its parts and components is small * * * While these subsections grant the Commerce Department substantial discretion in * * * invoking these measures, so as to allow it the flexibility to apply the provisions in an appropriate manner, the Committee expects the Commerce Department to use this authority to the fullest extent possible to combat diversion and circumvention of the antidumping and countervailing duty laws.

(see Senate Report at 100.) When our customary methods yield unreliable results, we believe that we have the discretion to employ alternative methods in reaching conclusions pursuant to section 781(a)(1)(C) of the Tariff Act.

We encountered such a situation in this inquiry. As explained in our preliminary determination, the available data did not yield a reliable measure of the difference between the value of PTFE wet raw polymer and the value of granular PTFE resin. Therefore, we placed greater emphasis on the nature of respondents' U.S. processing, the extent of their U.S. production facilities, and the level of their U.S. investment in reaching our preliminary conclusion that the difference between PTFE wet raw polymer and granular PTFE resin was "small." (See PTFE Preliminary at 43219–43221.)

Although we were able to render our preliminary determination in the absence of a reliable quantitative measure of the difference between the value of PTFE wet raw polymer and granular PTFE resin, we believe nonetheless that it is useful to attempt to calculate a reliable quantitative measure of the difference in value because such a quantitative measure provides a tangible expression of the production process that is the subject of our analysis. Therefore, whenever possible, we will attempt to obtain a reliable quantitative measure or estimate of the value of the imported parts or components and the value of the finished product for the purpose of establishing the difference between those values.

For the final determination, as set forth in the "Difference in Value" section of this notice, we concluded that the data on respondents' Italian post-treatment costs could reasonably be used to perform a quantitative assessment of the difference between the value of PTFE wet raw polymer and granular PTFE resin. Therefore, we have incorporated the results of this quantitative assessment in our final analysis.

Comment 2: Respondents contend that the Department failed to provide an objective standard by which it reached its preliminary conclusion that respondents' losses on their U.S. granular PTFE operations were of sufficient magnitude to render the customary calculation of the difference in value unreliable. In this context, respondents contend that their U.S. facility operated during the period of inquiry at levels consistent with an industry in recession. Thus, in the absence of an objective basis for its

VOL 58 ISS 82 AP 30 1993 UMI

conclusion regarding the level of respondents' capacity utilization and operating losses at their U.S. facility, and in light of the overall condition of the PTFE industry, respondents assert that the Department's preliminary conclusions about the operating performance of their U.S. facility are not supported by substantial evidence. Furthermore, respondents' claim that there is no suggestion in any previous anti-circumvention inquiry that the magnitude of profits or losses affects the manner in which the Department accounts for them in its calculations. Accordingly, respondents argue that the Department cannot disregard the 38 to 55 percent figure that it calculated in its preliminary analysis.

Petitioner argues that the results of respondents' U.S. operations, and the ratio of respondents' investment in their U.S. facility to the facility's output, illustrate that respondents' U.S. operations defy economic rationality. In this context, petitioner rejects respondents' contention that their U.S. facility operated in a manner consistent with an industry in recession. According to petitioner, its own data indicate that respondents' economic performance was not consistent with that of the U.S. industry during the period of inquiry. Thus, petitioner states that the Department was correct in determining that respondents' economic performance rendered the customary method of calculating the diffe ence in value unreliable in this case.

Department's Position: We disagree with respondents. Because this is the first anti-circumvention inquiry in which we have encountered losses of the type and magnitude at issue, we have not had to evaluate the effect of respondents' profit or loss on our analysis in previous inquiries. As set forth below in response to Comment 3, we believe that we must consider the causes and the extent of a respondent's losses in reaching conclusions regarding the difference in value in an anti-circumvention inquiry. Otherwise, losses resulting from factors unrelated to the nature of the production process that is the subject of an anti-circumvention inquiry would distort our quantitative analysis by artificially inflating the calculated difference between the value of imported parts or components and the value of a finished product. This would prevent an accurate measure of the extent to which a production process contributes to the difference in value and the extent to which a process represents a change in a respondent's method of production or shipment. In this context, it would be illogical to assume that Congress intended that the outcome of anti-circumvention inquiries should be determined by factors that are unrelated to the nature of the production process being evaluated. Therefore, it is both necessary and appropriate for us to determine the effect that such factors may have on our difference in value analysis and, when such factors distort our analysis, to use a method that more accurately reflects the nature of the production process that is the subject of the inquiry.

Given that we had not previously encountered losses of the type and magnitude incurred by respondents in this inquiry, we had no established practice for determining whether these losses rendered the results of our customary calculation method unreliable as a measure of the difference in value. Nonetheless, the record in this inquiry demonstrates that we had a reasonable basis for our preliminary determination that respondents' losses distorted the results of our customary difference in value calculation.

As we stated in our preliminary determination, we evaluated the 38 to 55 percent figure within the context of the respondents' U.S. production operation. Based on our analysis of the available information, we preliminarily concluded that the production of granular PTFE resin from PTFE wet raw polymer was relatively simple in comparison to the production of TFE monomer and the suspension polymerization of TFE monomer into PTFE wet raw polymer. Because this conclusion was inconsistent with the 38 to 55 percent figure that we calculated, we concluded that the calculation was distorted in such a way as to provide an artificially inflated measure of the difference between the value of PTFE wet raw polymer and granular PTFE resin. (See PTFE Preliminary at 43219–21.)

In evaluating the data that we used for our preliminary determination, we found that respondents incurred losses during the period of inquiry. Because of the extent of those losses, we believed that it was appropriate to attempt to isolate the effect of those losses on our results by performing a calculation in which we did not allocate them to the cost of production of the imported product. Based on the magnitude of the difference between the result of this calculation and the 38 to 55 percent figure, we concluded that respondents' losses had a significant impact on our calculation. (*Id.*)

Having established the magnitude of respondents' losses, we evaluated the factors underlying respondents' operating performance during the period of inquiry. Based on our analysis of the types of costs that respondents incurred at their U.S. facility, we concluded that respondents' losses could reasonably be attributed, at least in part, to the fact that their U.S. facility did not operate at full capacity during the period of inquiry. In turn, we recognized that the level of capacity utilization was influenced by the fact that we were examining a new facility that had recently commenced operations. As a result, we concluded that the 38 to 55 percent figure was distorted, and, therefore, did not provide a reasonable measure of the difference between the value of PTFE wet raw polymer and granular PTFE resin. (*Id.*)

The information regarding respondents' Italian facility that we obtained after the preliminary determination further supports our conclusion regarding the lack of reliability of our 38 to 55 percent calculation. As explained in the "Difference in Value" section of this notice, we found that the production processes employed by respondents in the United States and Italy are substantially similar. Additionally, the Italian facility is an established operation whose level of capacity utilization was not affected by the same factors that temporarily affected capacity utilization at respondents' U.S. facility. Finally, a comparison of data taken from respondents' Italian facility with those taken from respondents' U.S. facility indicates that, during the period of inquiry, the post-treatment costs incurred in Italy comprised a significantly smaller percentage of the total cost of manufacturing granular PTFE resin than did the U.S. post-treatment costs, which we determined to be distorted.

For these reasons, we believe that the information pertaining to respondents' Italian operations further justifies our decision to place greater emphasis on qualitative factors in preliminarily determining that the difference in value was "small." Therefore, we reject respondents' arguments that we failed to provide a basis for our conclusions regarding the operating performance of their U.S. facility and the lack of reliability of the difference in value calculated using manufacturing cost data from that facility. Moreover, based on our analysis of the information pertaining to respondents' Italian facility, we believe that the costs that respondents incurred for post-treatment of PTFE wet raw polymer in Italy provide a reasonable basis for a quantitative assessment of the contribution of this process to the total

value of granular PTFE resin under more typical conditions, and that the results of our revised difference in value calculation using these data provide a reasonable measure of the difference in value between granular PTFE resin and PTFE wet raw polymer.

Comment 3: Respondents argue that the Department's rejection of the 38 to 55 percent difference in value that it calculated in the preliminary determination represents an arbitrary departure from established practice in both anti-circumvention inquiries and in Exporter's Sales Price (ESP) calculations involving further manufacturing in the United States. Respondents contend that the Department has consistently equated the methods used to calculate the difference in value in anti-circumvention inquiries and the adjustment to ESP for further manufacturing in the United States. Citing Final Results of Antidumping Duty Administrative Review; Color Picture Tubes from Japan, 55 FR 37915 (1990), respondents assert that the Department has rejected attempts to distinguish ESP calculations involving further manufacturing from difference in value calculations in anti-circumvention inquiries. Therefore, respondents conclude that the Department cannot reject the 38 to 55 percent difference in value that it calculated in its preliminary analysis using this method.

Petitioner argues that the Department's method of adjusting ESP for expenses incurred for further manufacturing in the United States in the calculation of dumping margins is not relevant to an anti-circumvention inquiry. According to petitioner, the calculation of dumping margins does not shed light on the depth of U.S. production operations, which is a primary concern of an anti-circumvention inquiry. Therefore, petitioner contends that the Department's method of calculating dumping margins is not binding upon the Department in its calculation of the difference between the value of imported parts or components and the value of the finished product in an anti-circumvention inquiry.

Department's Position: We agree with petitioner. Contrary to respondents' assertions, in Final Results of Antidumping Duty Administrative Review; Color Picture Tubes from Japan, 55 FR 37915 (1990), the Department did not reject a distinction between ESP calculations and calculations performed in anti-circumvention inquiries; rather, the Department simply rejected respondent's argument regarding certain deductions from ESP. Based on our analysis of the relevant portions of the statute and the legislative history, we conclude that the statutory provisions of section 772 of the Tariff Act that govern the calculation of ESP serve a fundamentally different purpose from the statutory provisions of section 781(a), which govern the conduct of anti-circumvention inquiries. Therefore, as we stated in Color Picture Tubes From Canada, Japan, the Republic of Korea & Singapore; Negative Final Determinations of Circumvention of Antidumping Duty Orders (56 FR 9667, 9671 (1991) (CPTs Final)), we believe that the statutory provisions concerning ESP and the methods used in the calculation of ESP are not relevant to this inquiry.

The primary purpose of an anti-circumvention inquiry conducted pursuant to section 781(a) of the Tariff Act is to prevent foreign companies from selling subject merchandise in the United States free of antidumping duties by performing minor assembly or finishing of this merchandise in the United States from parts or components imported from the country to which an antidumping duty order applies. In contrast, the purpose of a calculation of ESP pursuant to sections 772(d) and 772(e) of the Tariff Act is to obtain the "United States Price" (USP) of the subject merchandise that can be compared to the foreign market value of such or similar merchandise for the purpose of determining whether a foreign company is selling the subject merchandise at less than fair value in the United States.

In order to achieve the purposes of these two portions of the statute, we must consider different factors in administering each. On the one hand, in order to effect the fundamental purpose of section 781(a), we must assess the extent to which the parts or components imported from the country to which an antidumping duty order applies comprise the content of the subject merchandise assembled or completed in the United States. (See, *e.g.*, H.R. 3, H.R. Rep. No. 40, Pt. 1, 100th Cong., 1st Sess. (1987).) We must also assess the depth and nature of assembly or production in order to determine the extent to which it contributes to the difference between the value of the imported parts or components and the value of the finished product and, for example, whether it represents a "slight change[] in [respondents'] methods of production or shipment." (Senate Report at 101.)

Section 781(a)(1)(C) expresses these considerations (as does section 781(b)(1)(C) governing circumvention through third-country assembly) by requiring the Department to conclude that the difference between the value of the imported parts or components and the value of the finished product is "small" as a necessary condition for a finding of circumvention. Thus, in conducting anti-circumvention inquiries, we attempt to measure the value of the imported parts or components and the value of the finished product. We use these values not only to assess the extent to which a finished product is comprised of parts or components from the country to which an antidumping duty order applies, but also as an expression of the depth and complexity of the process required to produce the finished product from the parts or components.

In order to reach meaningful conclusions regarding these factors, we must have reliable, objective measures of the value of the imported parts or components and of the value of the finished product that are not distorted by extraneous factors or temporary phenomena. (See CPTs Final at 9671.) This is especially true in such cases as this. Here, the intermediate product is the sole material input used in the production of the finished product; thus, any difference between the value of the intermediate product and the value of the finished product will be the result of the processing of the intermediate product into the finished product.

Whenever possible, we prefer to measure value using market prices. (Brass Sheet and Strip From Canada; Affirmative Preliminary Determination of Circumvention of Antidumping Duty Order, 58 FR 6615, 6617 (1992).) To the extent that we must estimate the value of the imported parts or components in the absence of market prices, we typically do so using data on total manufacturing costs and market prices for the product finished in the United States. However, in doing so we must use manufacturing cost data that are not anomalous and that provide a reasonably accurate reflection of the market price of the finished product. Otherwise, we will not obtain a meaningful estimate of either the value of the imported parts or components, or the difference between the value of those parts or components and the value of a finished product.

In this anti-circumvention inquiry, because we did not have market prices for the intermediate product, we attempted to estimate the value of imported parts or components, as described in the "Difference in Value" section of this notice. However, unlike previous anti-circumvention inquiries, we found that respondents in this inquiry sold the finished product

VOL 58 ISS 82 AP 30 1993 UMI

processed in the United States at a loss. Therefore, as explained in our preliminary determination and in response to Comment 2 above, we determined that the actual manufacturing cost data, which included cost data from respondents' U.S. facility, did not provide a reasonably accurate reflection of the price of the product processed in the United States from imported material. Because of the distorted relationship between cost and price in this case, we determined that any estimation of the value of the imported product based on a profit or loss calculated using the actual U.S. manufacturing costs would be unreliable. Therefore, we did not use the manufacturing cost data from respondents' U.S. facility in attempting to estimate the value of the PTFE wet raw polymer.

In contrast, the statute does not require that we consider such factors as the depth of production or assembly in establishing USP for the purpose of calculating dumping margins. Section 731 of the Tariff Act establishes that merchandise is sold in the United States at less than "fair" value if the foreign market value (FMV) of the merchandise exceeds the USP of such or similar merchandise. In order to determine whether respondents are selling merchandise in the United States at prices below FMV, the Department must have the most accurate measure possible of a respondent's current pricing practices in the United States as well as in the foreign market. In this context, the fundamental purpose of section 772 of the Tariff Act is to ensure that the calculation of USP provides the most probative measure possible of a respondent's pricing practices in the United States.

Section 772(c) of the Tariff Act establishes that when sales made to the first unrelated party occur after the importation of the merchandise into the United States, they are to be considered ESP sales, and that the Department is to use the price at which merchandise is sold to the first unrelated party as the basis for ESP. Having established that a particular U.S. sale is to be considered an ESP transaction, section 772(e) of the Tariff Act instructs the Department to make certain downward adjustments to the selling price, including an adjustment for any further processing performed on the imported merchandise after its importation but prior to its sale as a finished product in the United States. The purpose of these adjustments is to permit an estimation of the foreign port price of merchandise that has been further processed in the United States, based on the U.S. selling price of the finished product. See *Brother Industries, Ltd.* v. *United States*, 3 CIT 125, 140–41 (1982), *aff'd sub nom., Smith-Corona Group* v. *United States*, 713 F.2d 1568 (Fed. Cir. 1983), *cert. denied*, 465 U.S. 1022 (1984).

In making adjustments for further manufacturing pursuant to section 772(e)(3) of the Tariff Act, the Department deducts manufacturing expenses incurred in the United States, and a portion of the profit or loss incurred on the U.S. sale of the finished product, from the selling price of the finished product. In order to calculate the profit or loss on specific U.S. sales, the Department deducts all manufacturing costs and general expenses associated with the sale in question from the selling price of the merchandise subject to that sale. The Department then allocates a portion of the profit or loss on the sale of the finished product to the further processing operation in the United States and deducts that portion from the selling price of the finished product, thereby ascribing the remaining profit or loss to the estimated foreign port price of the merchandise prior to processing.

Because the Department is attempting to obtain the most accurate measure possible of a respondent's pricing practices at a given point in time, we have interpreted the statute as requiring the use of actual expenses and actual profits or losses in making adjustments to ESP pursuant to section 772(e)(3) of the Tariff Act. In this context, we believe that adjusting the U.S. selling price of the finished product for actual U.S. manufacturing costs incurred and the relevant portion of U.S. profit or loss realized on the specific sale in question provides the most accurate estimate of what the foreign port price of the merchandise would be at that point in time. Using anything other than actual U.S. manufacturing costs and expenses would obscure the relationship that the respondent had established between the U.S. selling price and the costs and expenses associated with that sale and, therefore, would yield an estimate of the foreign port price of merchandise destined for further processing in the United States that would not be reflective of the respondent's current pricing practices for sales to consumers in the United States. Because the Department is concerned with the accurate measurement of a respondent's pricing practices for sales to the United States in calculating ESP, the Department does not attempt to determine whether the results of ESP calculations involving further manufacturing provide the type of "objective" measures of value required for an anti-circumvention analysis.

For the foregoing reasons, we believe that we must use actual U.S. expenses in calculating adjustments to ESP pursuant to section 772(e)(3) of the Tariff Act; any alternative method would, by obscuring a respondent's actual pricing practices, frustrate the fundamental purpose of section 772 of the Tariff Act. However, because the purpose of this section of the Tariff Act differs from that of section 781(e), we believe that we are not similarly constrained in any quantitative analysis of the difference in value that we perform in anti-circumvention inquiries; had we relied on the actual manufacturing cost data from respondents' U.S. facility in this case, we would have obtained an unreliable measure of the difference in value that would have frustrated the intent of Congress in enacting section 781(a) of the Tariff Act. Therefore, we reject respondents' arguments that we must rely on the 38 to 55 percent figure calculated using a method identical to that used for ESP transactions involving further manufacturing for purposes of this final determination.

Comment 4: Respondents argue that the Department improperly recalculated the difference between the value of PTFE wet raw polymer and the value of granular PTFE resin using a skewed and insupportable method in which it allocated general expenses incurred in the United States to the imported article, but failed to similarly allocate losses. According to respondents, the allocation of profits and losses is necessary because the statute mandates a comparison of values; in this context, failure to allocate losses would result in an inappropriate comparison of values to costs. Respondents further contend that the Department's decision not to allocate losses in this inquiry conflicts directly with the Department's established practice in previous anti-circumvention inquiries.

According to petitioner, the statute focuses on the value added to imported parts or components through processing in the United States. Thus, petitioner asserts that it is appropriate to allocate any profits earned by a respondent on its U.S. operations, because such operations have added value to the imported products. However, petitioner contends that when a respondent incurs losses on its U.S. operations, the Department should not allocate those losses because the respondent has not added any value to the imported product in such situations. Under these circumstances, an allocation of losses would lower artificially the calculated value of the imported product. Therefore, petitioner asserts that the Department properly determined not to allocate respondents' losses in this instance. Petitioner further asserts that, in not allocating losses, the Department did not depart from its practice in previous anti-circumvention cases because, in those cases, respondents realized profits on their U.S. operations.

Department's Position: Contrary to respondents' claim, we did not state that the result of our hypothetical calculation without the allocation of losses represented an accurate measure of the difference between PTFE wet raw polymer and granular PTFE resin in our preliminary determination. (*See PTFE Preliminary* at 43219–20.) Rather, we used the result of our hypothetical calculation solely as a means of establishing a context within which to reach a conclusion regarding the 38 to 55 percent figure that we calculated in our preliminary analysis. (*Id.*)

Furthermore, we reject petitioner's argument that it is appropriate not to allocate losses in this case. As described in the "Difference in Value" section of this notice, we conducted a quantitative analysis of respondents' Italian data using our customary calculation method, which requires the allocation of a portion of a respondent's operating results to the imported product. In this context, we believe that, just as a portion of the profits earned through the sale of a finished product may be attributed to its constituent parts or components, so too may a portion of any loss that a respondent incurs on the sale of that product. Further, as we have stated in previous anti-circumvention inquiries, we believe that, to the extent that we attempt to quantify the difference in value using the method employed in this case, we must allocate both profit or loss in order to avoid making an inappropriate comparison of value to cost. (See Certain Internal-Combustion, Industrial Forklift Trucks from Japan; Negative Final Determination of Circumvention of Antidumping Duty Order 55 FR 6028, 6029 (1990) (Forklifts Final).) Therefore, we have allocated both profits and losses to the cost of production of PTFE wet raw polymer for purposes of estimating its value for this final determination.

Comment 5: Petitioner argues that data on the cost of post-treatment operations at respondents' plant in Italy corroborate the Department's finding that the 38 to 55 percent difference in value calculated in the preliminary analysis in this case is significantly overstated. According to petitioner, the difference in value calculated by deducting the manufacturing cost of PTFE wet raw polymer from the total costs incurred to manufacture granular PTFE resin in Italy is virtually identical to the difference in value that the Department calculated when it did not allocate respondents' U.S. losses to the base value of the imported PTFE wet raw polymer. Based on these calculations, petitioner asserts that, on an industry-wide basis, the costs of finishing PTFE wet raw polymer into granular PTFE resin are relatively minor, and that the Department properly determined that the difference in value between the finished product and the imported merchandise is small in this case.

Department's Position: We agree with petitioner. *See* our response to Comment 2.

Comment 6: Respondents argue that the Department cannot compare their U.S. facility to any other facility. Citing Portable Electric Typewriters from Japan; Negative Final Determination of Circumvention of Antidumping Duty Order (56 FR 58031, 58037, November 15, 1991)(*PETs Final*), *aff'd, Smith-Corona Corp.* v. *United States*, Slip Op. 93–11 (CIT January 27, 1993), respondents assert that the Department has rejected a comparative analysis of various companies involved in the manufacture of the product at issue. Respondents further assert that a comparison of their U.S. operations with their Italian operations is inappropriate, because the Italian facility produces a full range of products with a different cost structure and different economies of scale.

Petitioner responds that respondents' objections are misplaced. According to petitioner, the Department, in previous anti-circumvention inquiries, declined to compare respondents' operations to those of petitioners. However, in this instance, petitioners state that the Department would be comparing facilities operated by the same company. As a result, petitioner contends that a comparative analysis is appropriate in this case.

Department's Position: We agree with petitioner. In previous anti-circumvention inquiries, we have declined to compare respondents' operations with those of petitioners, because we determined that respondents' facilities need not be comparable to those of petitioner in order for them to be more than mere completion or assembly operations. (See Forklifts Final at 6029; PETs Final at 58036–37.) However, we have not established in previous anti-circumvention cases that a comparison of facilities operated by the same company or related companies is, on its face, inappropriate.

Although we acknowledge that differences between production facilities may, in certain instances, render a comparison of facilities operated by the same company or related companies invalid, we find that comparison of respondents' U.S. and Italian facilities is meaningful in this case. After comparing respondents' descriptions of their post-treatment processes in Italy and the United States, we determine that the processes used in each plant are sufficiently similar to warrant comparison of the two facilities. (See Questionnaire Response, October 19, 1992, at 12–14 and Exhibit 2.) Further, while we recognize that respondents produce other products in addition to granular PTFE resin at their Italian facility, we have focused our analysis only on those portions of respondents' Italian operations related to the production of granular PTFE resin. Therefore, we believe that a comparison of respondents' U.S. and Italian facilities is appropriate in this case for purposes of evaluating the nature and operating performance of respondents' U.S. operations.

Comment 7: Petitioner argues that the difference in value that the Department calculated is overstated, because the Department erroneously included certain U.S. costs in its analysis. According to petitioner, respondents sell a variety of grades of granular PTFE resin that are produced within a continuum of processing, including fine-cut granular PTFE resin and presintered granular PTFE resins that require further processing. Petitioner asserts that, because of the relative location of these types of granular PTFE resin on the continuum of processing, only those costs associated with producing fine-cut granular PTFE resin should be included in the Department's analysis. Petitioner also asserts that the Department should exclude packing costs incurred in the United States from its analysis, because packing is not a processing activity that adds value to the imported product.

Respondents state that petitioner's arguments conflict with the plain meaning of the statute and with Department precedent. According to respondents, the statute requires the Department to compare the value of "such" merchandise sold in the United States with the value of the imported product. Therefore, in calculating the difference in value for sales of presintered resin in the United States, respondents argue that the Department is required to use that product and its associated costs in its calculation of the

VOL 58 ISS 82 AP 30 1993 UMI

difference in value. Respondents further argue that the Department has consistently used the packed ex-factory price of the finished product in its difference in value calculation, and has never deducted U.S. packing costs from the value of the finished product. Thus, respondents argue that there is no basis in this case for the Department to deduct U.S. packing costs from the value of the granular PTFE resin.

Department's Position: We agree with respondents. In calculating the difference in value in this inquiry, we used monthly, weighted-average prices for each grade of granular PTFE resin to represent the value of the finished product in the United States. Because we used product-specific prices in our calculation of the difference in value, we believe that it is appropriate to use all costs associated with those specific products in the calculations. Accordingly, we included the costs associated with producing presintered resin in our calculations of the difference in value for presintered resin. We also note that the prices that we used in our calculations were packed, ex-factory prices. Because packing is built into the ex-factory price of the finished product, we did not exclude costs associated with packing from our analysis.

Comment 8: Respondents argue that construction of the statute prohibits the Department from using qualitative factors in determining whether the calculated difference in value is "small" in anti-circumvention inquiries. Thus, respondents assert that the Department's reliance on qualitative analysis in rendering its preliminary determination that the difference in value was "small" was contrary to law.

According to respondents, the Department's authority to use qualitative factors in making a determination of circumvention stems exclusively from section 781(a)(2) of the Tariff Act. However, respondents contend that section 781(a)(2) of the Tariff Act permits the use of qualitative factors to determine whether an affirmative determination of circumvention is warranted only if and after the Department has determined that the three threshold conditions set forth in section 781(a)(1) of the Tariff Act are present. Thus, respondents assert that the Department must determine, *inter alia*, that the calculated difference between the value of the imported parts and components and the value of the finished product completed and sold in the United States is "small" before it can analyze any qualitative factors.

Citing the PETs Final, respondents assert that the Department has rejected petitioners' claims that qualitative factors should influence a determination regarding the difference in value. Respondents also cite the CPTs Final, in which the Department specifically refused to analyze such factors as the level of investment and the nature of the production process because the three threshold criteria set forth in section 781(a)(1) of the Tariff Act were dispositive of whether circumvention was occurring. Thus, respondents contend that the Department has consistently acknowledged that the statute requires a determination that the difference in value is "small" before the Department can consider other factors in rendering a determination in an anti-circumvention inquiry.

Petitioner rejects respondents' because neither the statute nor the legislative history defines "small," or provides specific instructions regarding the manner in which the Department is to reach conclusions regarding the magnitude of the difference in value in anti-circumvention inquiries. According to petitioner, Congress deliberately declined to provide more specific guidance in the statute because Congress, having recognized that the facts of circumvention vary from case to case, intended to provide the Department with the flexibility to adapt its analysis to the specific circumstances of a given case. In the absence of specific instructions from Congress regarding the methods to be used in reaching determinations pursuant to section 781(a)(1)(C) of the Tariff Act, petitioner argues that the Department's use of qualitative analysis in its determination regarding the difference in value does not constitute the use of extrinsic evidence, and, therefore, was within the Department's discretionary authority.

Petitioner further argues that the Department's use of qualitative analysis in this case was consistent with its analysis of qualitative factors in previous anti-circumvention cases. Petitioner states that the Department did not use the three qualitative factors specifically enumerated in the statute in making its determination that the difference in value is small. Rather, the Department relied on other factors relating directly to the difference in value that it also had analyzed in previous anti-circumvention inquiries.

Department's Position: We agree with petitioner. We reject respondents' assertion that the statute compels us to perform an exclusively quantitative analysis of the difference between the value of imported parts or components and finished products on the basis that it prohibits consideration of qualitative factors in determining whether the threshold conditions set forth in section 781(a)(1) of the Tariff Act have been met.

In this regard, the absence of specific guidance in the language of section 781(a)(1), coupled with the expressions of Congressional intent in the legislative history of the anti-circumvention provisions, afford the Department substantial discretion in determining whether the difference between the value of imported parts or components and the value of a finished product. Because the statute does not define "small" or provide guidance regarding the manner in which we are to make this determination, we have the authority to use qualitative factors in rendering a determination regarding the difference in value.

Similarly, although we agree with respondents that any conclusion regarding a difference in value calculation cannot be based upon the three factors specifically enumerated in section 781(a)(2) of the Tariff Act, we disagree with their assertion that the authority to consider qualitative factors in anti-circumvention inquiries stems exclusively from section 781(a)(2). (See PETs Final at 58033–34.) In this regard, our statement in Portable Electric Typewriters from Japan; Negative Preliminary Determination of Circumvention of Antidumping Duty Order (56 FR 46594 (1991) (PETs Preliminary)) was unduly narrow in concluding that "the legislative history of section 781(a)(2) of the Act indicates that other (qualitative) factors may properly be considered before rendering an anti-circumvention determination." (See PETs Preliminary at 46595.) In fact, a review of the legislative history accompanying section 781(a) (as well as section 781(b)) clearly demonstrates that Congress did not limit the consideration of qualitative factors to section 781(a)(2). To the contrary, the report of the Senate Finance Committee speaks very broadly when it states that:

> New sections [781(a) and 781(b)] of the 1930 Act apply when the difference between the merchandise sold, or imported into, the United States and its parts and components is small. The Committee has not attempted to develop a precise meaning for the term "small" as used in these sections, principally in recognition that different cases present different factual situations. The Committee does not, however, intend that the term "small" be interpreted as insignificant. While these subsections grant the Commerce Department substantial discretion in interpreting these terms, and invoking these measures, so as to allow it the flexibility to apply the provisions in an appropriate manner, the Committee expects the Commerce Department to use this authority to the fullest extent possible to combat diversion and circumvention of the antidumping and countervailing duty laws. Senate Report at 100.

While this legislative pronouncement does not expressly state that qualitative factors may be relied upon in determining whether the difference in value is "small," Congress plainly did not intend to limit the Department's discretion to consider them if necessary. Because Congress intended that we reach conclusions regarding the difference in value on a case-by-case basis, we believe that we may examine qualitative factors in order to adapt our analysis to the circumstances of individual cases.

Furthermore, we note that respondents' references to our previous refusals to use qualitative factors in our analysis of the difference in value are misplaced. For example, our refusal to analyze qualitative factors in the PETs Final related specifically to the use of the three factors specifically enumerated in section 781(a)(2) of the statute. (See PETs Final at 58033–34.) However, we did not rely on these factors in rendering our preliminary determination regarding the difference in value in this inquiry. As we stated in the preliminary determination, we based our conclusion regarding the "difference in value" on a qualitative analysis of the nature of the processing that respondents perform in the United States, the extent of respondents' U.S. facilities, and the level of respondents' investment in the United States. (See PTFE Preliminary at 43220.) As we further stated in our preliminary determination, this analysis is consistent with our analysis in previous anti-circumvention inquiries. (*Id.*)

Similarly, the situation described in the CPTs Final and cited by respondents is distinguishable from the present proceeding. In the first instance, because the Department determined that the threshold requirement regarding the class or kind of merchandise was not satisfied, no analysis of any qualitative factors was necessary. (See CPTs Final at 9669–70.) Nonetheless, the Department did render a determination that the difference in value was not "small" in that case. In reaching this conclusion, we stated that:

> The difference in value for all respondents ranged from 55 to 70 percent * * *. These differences in value indicate that for all respondents, *the non-CPT value of the CTV exceeds the value of the picture tube itself. Given the facts of this case,* we cannot consider these differences in value to be "small."

CPTs Final at 9668–69 (emphasis supplied). Thus, in the CPTs Final, the Department reached its conclusion regarding the difference in value based on the fact that, for all respondents, the value of the non-subject merchandise exceeded the value of the subject merchandise incorporated into the finished product. Under the circumstances present in the CPTs Final, the Department was able to reach its conclusion regarding the difference in value without analyzing the additional qualitative factors. The Court of International Trade (CIT) agreed, finding "substantial evidence on the record in support of that determination." *Int'l Assoc. of Machinists & Aerospace Workers v. United States*, 797 F. Supp. 1012 (CIT 1992).

Thus, contrary to respondents' assertions, neither the Department nor the CIT indicated that the determination in the CPTs Final precluded the Department from using qualitative analysis in reaching conclusions regarding a calculation of the difference in value in anti-circumvention inquiries. Given that our precedent has not established that we cannot resort to qualitative analysis in reaching conclusions regarding the difference in value, that the statute and the legislative history confer substantial discretion upon the Department, and the fact the we must adapt our analysis to the facts of specific cases, we reject respondents' arguments against our use of qualitative analysis in reaching a conclusion regarding the difference in value.

Comment 9: Respondents argue that the difference in value that the Department calculated in its preliminary determination is not small. Respondents suggest that the Department should attempt to develop a numerical standard for determining whether a particular quantification of the difference in value between imported components and articles finished in the United States is small. Respondents state that the calculated difference in value for this inquiry is comparable to, and, in certain instances, greater than, the calculated differences in value that the Department determined were not small in previous anti-circumvention inquiries. Respondents also state that this difference in value exceeds the 30 percent figure that petitioner acknowledged would be "not small" in requesting this anti-circumvention inquiry.

Department's Position: We disagree with respondents. The legislative history of section 781(a) clearly establishes that Congress intended the Department to make determinations regarding circumvention on a case-by-case basis in recognition that the facts of individual cases and the nature of specific industries vary widely. (See Senate Report at 100; CPTs Final at 9668–69.) Thus, we believe that any attempt to establish a uniform numerical standard would be contrary to the intent of Congress.

Furthermore, we have consistently stated in previous anti-circumvention inquiries that any determination regarding the difference in value would not necessarily be controlling for determinations to be rendered in future anti-circumvention inquiries. (See PETs Final at 58040.) Therefore, although both petitioner and respondents turned to previous anti-circumvention determinations in attempting to define the term "small," we have not rendered our determination regarding the calculated difference in value in this inquiry on the basis of our determinations regarding the difference in value in other anti-circumvention inquiries. Rather, we have determined that the difference in value, ranged between 10 and 20 percent, is "small" for the reasons articulated in the "Difference in Value" section of this notice.

Comment 10: Respondents argue that the Department's analysis of the nature of the processing performed at respondents' U.S. facility is flawed. Respondents contend that the Department neglected respondents' description of their U.S. production process. According to respondents, the Department based its analysis on descriptions provided by the International Trade Commission and the Kirk-Othmer Encyclopedia of Chemical Technology. Because the descriptions of the production process contained in these sources differ significantly from the descriptions that respondents provided, respondents assert that the Department's analysis is not supported by the record evidence.

Petitioner rejects respondents' assertions that the Department ignored respondents' descriptions of their U.S. production process in making the preliminary determination. According to petitioner, the Department's use of these sources in its preliminary determination was appropriate, given the business proprietary nature of respondents' descriptions of their U.S. production process. Additionally, petitioner notes that the Department, in its preliminary determination, made reference only to the general similarity between respondents' operations and those described in the public source materials; the Department did not state

VOL
58
ISS
82
AP
30
1993
UMI

that these sources described the exact nature of respondents' U.S. operations. Petitioner also states that there is no evidence that the Department used the public source materials as a substitute for respondents' own descriptions of their U.S. production process.

Department's Position: We agree with petitioner. Because respondents designated their descriptions of their production processes as business proprietary, we could not use these descriptions in our notice of preliminary determination. Therefore, as we stated in our preliminary determination notice, we used publicly available information to provide a general description of the nature of post-treatment operations in relation to the overall, integrated process for the production of granular PTFE resin. We did not proffer these descriptions as a substitute for information that respondents submitted during the course of this inquiry. (See PTFE Preliminary at 43220.)

Moreover, as noted by petitioner, we requested information regarding respondents' production processes both before and after the issuance of our preliminary determination. We relied on this information in assessing the nature of respondents' monomer production and polymerization operations, and in comparing respondents' post-treatment operations in the United States and Italy. (See, e.g., Department's Position in response to Comment 6 above.) Therefore, we believe that our analysis of respondents' production processes is supported by substantial evidence in the record.

Comment 11: Respondents contend that an examination of their descriptions of the production process reveal that the processing that they perform in the United States is substantial. According to respondents, the operations performed at their U.S. facility require sophisticated and complex machinery in order to maintain strict environmental and process controls on the production process. Moreover, respondents note that the International Trade Commission report cited by the Department in its preliminary determination recognized the significance of post-treatment operations, and described such operations as being a key component of the price of granular PTFE resin. Respondents further contend that, given the nature of their U.S. operations, their failure to add any materials to the imported article is irrelevant. Because there is virtually no market for PTFE wet raw polymer, respondents claim that they must substantially transform the PTFE wet raw polymer in order to produce a saleable product.

Petitioner asserts that respondents' U.S. facility performs minimal finishing operations that add no new materials to the imported merchandise and do not alter the basic chemical composition of the product. In this context, petitioner asserts that a respondent may accomplish the production of a saleable product through such insignificant operations as the attachment of an electric cord to an imported appliance.

Petitioner further asserts that respondents' U.S. operations are insignificant within the context of the overall production process for granular PTFE resin. According to petitioner, the production of TFE monomer and the suspension polymerization of this monomer into PTFE wet raw polymer are complex, capital-intensive operations. Additionally, petitioner notes that these steps require investment in equipment and procedures for handling hazardous and explosive materials. In this context, petitioner argues that the steps required to finish PTFE wet raw polymer are insignificant, and, therefore, that the Department properly determined that respondents' post-treatment operations were not complex.

Department's Position: We agree with petitioner. We acknowledge that the production of granular PTFE resin from PTFE wet raw polymer may require sophisticated machinery to maintain the process and environmental controls required to produce a saleable product. However, the production of a saleable product, in and of itself, is not dispositive of the depth and complexity of a process that produces a saleable product from components or intermediate products. Although respondents correctly noted that there is virtually no market for PTFE wet raw polymer, this does not relate to the complexity of respondents' production process.

Furthermore, in order to evaluate the extent to which respondents' current U.S. operations represent a change in their method of production or shipment, we must develop a context within which to examine the depth and complexity of respondents' U.S. operations. Given that respondents, between 1988 and 1991, supplied their U.S. customers exclusively with imported granular PTFE resin produced in an integrated facility in Italy, and continued to do so in part during the period of inquiry, we believe that it is appropriate to analyze the complexity of respondents' current U.S. operations within the context of the overall production process for granular PTFE resin performed at an integrated production facility. Based on such an analysis, we believe that respondents' U.S. operations, which currently consist only of the post-treatment of PTFE wet raw polymer, are relatively minor.

We believe that the production of TFE monomer and the suspension polymerization of this monomer into PTFE wet raw polymer are complicated processes, and that these processes impart the basic physical characteristics that distinguish granular PTFE resin from other forms of PTFE resin. (See PTFE Preliminary at 43220.) Respondents' descriptions of their monomer production and suspension polymerization processes do not differ significantly from those that we cited in our preliminary determination. (Compare Questionnaire Response, October 19, 1992, at 10–11 with PTFE Preliminary at 43220.) As a result, we reaffirm our preliminary determination that, within the context of the overall production process for granular PTFE resin, the processes that respondents currently perform in the United States are the type that Congress intended to address in enacting the anti-circumvention statute.

Comment 12: Respondents argue that the record in this inquiry demonstrates that their U.S. production facilities are extensive, and that the level of their investment in these facilities is significant. In addition, respondents state that they have made significant additional investments in their current U.S. production facility since its initial construction, and have expanded the range of products produced at this facility. As a result, respondents contend that their failure to build an integrated facility for the production of granular PTFE resin should not be dispositive of circumvention.

Respondents further assert that their level of investment is comparable to that of respondents in the Department's anti-circumvention inquiry on portable electric typewriters from Japan, in which the Department rendered a negative final determination. Respondents add that the value of their current U.S. investment exceeds that for the comparable production stages at their previous U.S. facility and at their Italian facility, and permits them to produce a wider range of products than was the case at their previous U.S. facility.

Petitioner asserts that changes in the scale of respondents' current U.S. facilities since their commencement of operations is not the appropriate benchmark in anti-circumvention cases. Petitioner further argues that respondents' current U.S. facility, which performs only post-treatment operations, represents a major reduction in their U.S. operations in comparison with their previous U.S. facility, which was an integrated facility that performed all phases of the production of granular PTFE resin. Similarly, petitioner notes that respondents' Italian facility is a fully integrated facility, and that the value of the plant and equipment related to the production of granular PTFE resin in Italy substantially exceeds the value of the plant and equipment at respondents' current U.S. facility.

Petitioner further argues that respondents' estimates of the cost of constructing an integrated facility for the production of granular PTFE resin support a determination that the level of their current investment is relatively minor. According to petitioner, the investment required to construct the facilities required for production of TFE monomer and the suspension polymerization of this monomer vastly exceeds the level of investment in respondents' current U.S. facility, even if respondents' subsequent additions are considered.

Department's Position: We agree with petitioner. For reasons similar to those contained in our response to Comment 6, a comparative analysis of respondents' current U.S. facility with other facilities operated by respondents is both meaningful and appropriate. In addition, we believe that a comparative analysis provides the best means of evaluating the extent to which a respondent's operations represent a change in its method of production or shipment. (See Senate Report at 101.) Therefore, a comparison of respondents' current U.S. facility with their other integrated facilities is appropriate in order to evaluate the extent of respondents' U.S. production and the level of their U.S. investment.

In this context, the data from respondents' Italian facility clearly establish that the plant and equipment required for the production of granular PTFE resin represent only a fraction of the equipment required for the production of TFE monomer and the suspension polymerization of this monomer. Respondents' estimates of the investment required to construct monomer production and polymerization facilities in the United States demonstrate a similar relationship. Accordingly, we determine that, in comparison to the investment required to establish an integrated production facility for granular PTFE resin, respondents' investment in the United States is relatively minor and, therefore, consistent with a finding of circumvention.

Comment 13: Respondents contend that the Department's analysis of the pattern of trade and level of imports is inaccurate in several respects. First, respondents contend that the Department overstated the rate of increase of imports of PTFE wet raw polymer by basing its determination on a comparison of a four-month period in 1990 with a ten-month period in 1991. According to respondents, adjustment of the data on a monthly basis reduces significantly the rate of increase of imports of PTFE wet raw polymer. Second, respondents state that the level of imports of granular PTFE resin from Italy decreased before respondents sold any granular PTFE resin produced at respondents' current U.S. production facility. As a result, respondents further contend that the Department erroneously ascribed the reduction in imports of the finished product to the operations of respondents' current U.S. production facility. Finally, respondents argue that the Department failed to note that some of the PTFE wet raw polymer imported from Italy is used in the production of non-subject merchandise, and, therefore, overstated the amount of PTFE wet raw polymer that respondents imported for the manufacture of granular PTFE resin.

Department's Position: We disagree with respondents. We recognize that imports of granular PTFE resin began to decline before respondents commenced sales of granular PTFE resin produced in the United States, and that the rate of increase of imports of PTFE wet raw polymer is reduced if the data are adjusted on a monthly basis. However, the pattern of trade still indicates a shift away from U.S. sales of imported granular PTFE resin toward U.S. sales of granular PTFE resin processed in the United States from imported PTFE wet raw polymer since the issuance of the antidumping duty order. Further, although we acknowledge that respondents used some of the imported PTFE wet raw polymer to produce a product outside the scope of the antidumping duty order, we note that production of this product is not the primary purpose of PTFE wet raw polymer. During the period of inquiry, respondents imported another intermediate product for use in the production of the non-subject merchandise in question and, therefore, used only a small amount of PTFE wet raw polymer in the production of the non-subject merchandise.

Despite their objections, respondents do not dispute our basic conclusions regarding the pattern of trade and level of imports of the finished and intermediate products. Because the facts cited by respondents do not alter our basic determination that, since the issuance of the antidumping duty order on granular PTFE resin, the pattern of trade indicates a shift away from sales of imported granular PTFE resin to sales of domestically-produced granular PTFE resin, and that imports of PTFE wet raw polymer have increased while imports of the finished product have declined, we reaffirm our preliminary determination that the pattern of trade and increase in imports of PTFE wet raw polymer are consistent with a finding of circumvention.

Comment 14: Respondents argue that the pattern of trade, the increase in imports of PTFE wet raw polymer, and the nature of their U.S. investment do not warrant an affirmative determination of circumvention. According to respondents, the legislative history of section 781(a) refers to "circumvention schemes" that were specifically "designed to evade" antidumping duty orders. This indicates that Congress was concerned with producers who, in response to an antidumping duty order, modified their production process to permit the sale of the subject merchandise in the United States without the imposition of antidumping duties. Thus, respondents argue that the Department can find circumvention only if it determines that respondents intentionally substituted the importation of parts and components not subject to an antidumping duty order for imports of the finished subject merchandise.

In this instance, respondents claim that the pattern of trade and level of imports are consistent with respondents' business decisions to close their previous integrated U.S. production facility and import granular PTFE resin into the United States until the opening of their current U.S. production facility for granular PTFE resin. Thus, respondents assert that these factors are not indicative of circumvention because the pattern of trade and level of imports in this case would have been the same absent the antidumping petition and subsequent order on granular PTFE resin from Italy.

Respondents further argue that because they planned to build their U.S. facility before the filing of Du Pont's antidumping petition in November 1987, they could not have been acting in response to the antidumping investigation. Moreover, respondents assert that they had numerous legitimate business reasons for constructing a post-treatment facility. Accordingly, respondents argue that they did not construct their current U.S. facility for the purpose of evading the antidumping

UMI

duty order on granular PTFE resin from Italy. Petitioner responds that, in anti-circumvention inquiries, the Department is not required to ascertain the intent of respondents in evaluating a particular pattern of trade, level of imports, or production facility. Petitioner further argues that pre-existing plans cannot preclude the Department from rendering affirmative determinations of circumvention, and that, in the CPTs Final, the Department specifically declined to consider respondents' arguments regarding pre-existing business plans.

Department's Position: We agree with petitioner. Section 781(a) of the Tariff Act, as well as other sections concerning circumvention, do not require the Department to determine that a respondent in an anti-circumvention inquiry deliberately acted to circumvent an order. Congress's apparent concern about counteracting "schemes" intended to circumvent the effectiveness of U.S. unfair trade remedies does not mean that it was only concerned about so-called deliberate schemes, or that it expected that the laws should be enforced only against those parties who could be proved to be engaged in such schemes. Just as a demonstration of intent is not a prerequisite to a determination of dumping, neither is it a prerequisite to a finding of circumvention. Further, given the difficulty of determining such intent, respondents' interpretation of the statute and the legislative history would not only place an unreasonable burden on the Department, but would effectively eviscerate the anti-circumvention provisions of the Tariff Act.

Therefore, in rendering this final determination, we have not attempted to assess the reasons why respondents shifted their pattern of trade or constructed their current U.S. production facility. Rather, in accordance with the statute and the legislative history, we have attempted to evaluate the depth and complexity of respondents' current U.S. processing facility, and the extent to which the pattern of trade and level of imports of PTFE wet raw polymer have changed since the issuance of the antidumping duty order. As stated in the "Difference in Value" section of this notice, we have determined that these factors are consistent with an affirmative determination of circumvention.

Final Affirmative Determination of Circumvention

We determine that respondents Montefluos and Ausimont are circumventing the antidumping duty order on granular PTFE resin from Italy. The merchandise produced in the United States, granular PTFE resin, is of the same class or kind of merchandise as that subject to the order, and is completed from an intermediate product imported from Italy, the country to which the order applies. Further, based on our analysis of information in the record and the comments received on our preliminary determination, we determine that the difference in value between the imported and finished products is small. We also determine that the pattern of trade, increase in imports of the intermediate product, and relationship between the parties subject to this inquiry are consistent with an affirmative determination of circumvention. We note that our analysis of the difference in value and resulting determination of "small" in this case are not necessarily synonymous with such determinations that the Department will formulate in future anti-circumvention inquiries since Congress has directed us to make determinations regarding the difference in value on a case-by-case basis.

Based on this final affirmative determination of circumvention, we have determined that PTFE wet raw polymer falls within the scope of the antidumping duty order on granular PTFE resin from Italy. We will inform Customs of this decision, and will instruct it to continue to suspend liquidation of, and require cash deposits, at the applicable rate, on all entries of PTFE wet raw polymer manufactured in Italy.

Interested parties may request disclosure within five days of the date of publication of this notice.

This final affirmative determination of circumvention is in accordance with section 781(a) of the Tariff Act (19 U.S.C. 1677j(a)) and 19 CFR 353.29(e).

Dated: April 20, 1993.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

[FR Doc. 93-10222 Filed 4-29-93; 8:45 am]

BILLING CODE 3510-DS-P

[A-570-822]

Notice of Preliminary Determination of Sales at Less Than Fair Value: Certain Helical Spring Lock Washers From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: April 30, 1993.

FOR FURTHER INFORMATION CONTACT: Bill Crow, Office of Antidumping Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0116.

PRELIMINARY DETERMINATION: We preliminarily determine that certain helical spring lock washers are being, or are likely to be, sold in the United States at less than fair value, as provided in section 733 of the Tariff Act of 1930, as amended (the Act). The estimated margin is shown in the "Suspension of Liquidation" section of this notice.

Case History

Since the initiation of this investigation on September 28, 1992, (57 FR 45765, October 5, 1992), the following events have occurred:

On October 14, 1992, and November 3, 1992, the Department sent facsimiles to the American Embassy in Beijing, China, requesting information on the value and quantity of sales to the United States by Chinese companies for the period April 1, 1992 to September 30, 1992.

On November 10, 1992, we received a response from the American Embassy in China, listing the names and addresses of several potential respondents. On October 6, 1992, Hangzhou Spring Washer Plant (Hangzhou) and the American Association of Fastener Importers (AAFI) sent a joint letter of appearance as interested parties in this proceeding.

On October 16, 1992, the Department sent petitioner and Hangzhou letters which solicited publicly available published information (PI) to be used to value the factors of production in the investigation. On October 23, 1992, the International Trade Commission (ITC) notified us of its preliminary determination that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of helical spring lock washers that are allegedly sold at less than fair value in the United States. Petitioner submitted information it considered PI on December 14, 1992. Hangzhou submitted data it considered PI on December 15, 1992.

On December 30, 1992, the Department sent Hangzhou the antidumping questionnaire. We also served questionnaires on the Embassy of the People's Republic of China (PRC), and on the Ministry of Foreign Economic Relations & Trade (MOFERT). On January 7, 1993, the Department sent Hangzhou and the PRC embassy supplementary questionnaires to determine whether critical circumstances exist.

On January 13, 1993, Hangzhou submitted its response to section A of the questionnaire. No PRC government body replied to our questionnaire. On January 14, 1993, Hangzhou submitted the full translation of the Regulations Regarding State Enterprises, promulgated by the State Council of the People's Republic of China. Petitioner submitted additional information for consideration as PI on January 19, 1993, for data covering Indian labor. On January 22, 1993, the Department sent Hangzhou a section A deficiency questionnaire.

On January 26, 1993, the Department postponed the preliminary determination because the issues involved in this investigation were found to be extraordinarily complicated. On January 27, 1993, Hangzhou requested a one week extension for responding to sections C and D of the Department's questionnaire. This request was granted. On January 28, 1993, the Department extended the deadline for submission of PI until February 5, 1993. On February 5, 1993, Hangzhou submitted its response to the section A deficiency questionnaire. On February 5, 1993, Hangzhou submitted its response to sections C and D. On February 22, 1993, petitioner commented on Hangzhou's February 5, 1993, submissions.

On March 2, 1993, the Department sent Hangzhou the first section C and D deficiency questionnaire. On March 16, 1993, Hangzhou submitted its response to the first section C and D deficiency questionnaire. On March 30, 1993, the Department sent Hangzhou a second section C and D deficiency questionnaire. On March 30, petitioner submitted comments on Hangzhou's March 16, 1993, submission. On April 6, 1993, Hangzhou submitted its response to the second section C and D deficiency questionnaire.

On April 19, 1993, Hangzhou submitted more legible copies of previously submitted sales documentation and noted revisions it had submitted in its April 8, 1993, computer disks, but had failed to fully discuss in the narrative accompanying the disks. Hangzhou also raised an objection to what it perceived as double-counting in petitioner's cost estimate for steel wire rods in calculating margins in the petition. On April 8, 1993, petitioner responded that Hanghzou incorrectly interpreted the petition estimate for converting green wire rod into processed wire, and that no double-counting was involved.

Scope of Investigation

For purposes of this investigation, certain helical spring lock washers (HSLWs) are circular washers of carbon steel, of carbon alloy steel, or of stainless steel, heat-treated or non heat-treated, plated or non-plated, with ends that are off-line. HSLWs are designed to: (1) Function as a spring to compensate for developed looseness between the component parts of a fastened assembly; (2) distribute the load over a larger area for screw or bolts; and (3) provide a hardened bearing surface. The scope does not include internal or external tooth washers, nor does it include spring lock washers made of other metals, such as copper. The lock washers subject to this investigation are currently classifiable under subheading 7318.21.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this investigation is dispositive.

Period of Investigation

The period of investigation (POI) is from April 1, 1992, through September 30, 1992.

Market-Oriented Industry Status

In its December 7, 1992, submission and in subsequent filings with the Department, Hangzhou has argued that the Department should consider the Chinese lock washer industry as a market-oriented industry (MOI). Petitioner has objected to classifying the lock washer industry of the PRC as market-oriented. As outlined in the Amendment to Final Determination of Sales at Less Than Fair Value and Amendment to Antidumping Order: Chrome-Plated Lug Nuts from the People's Republic of China 57 FR 15052 (April 24, 1992), the Department considers three criteria in establishing whether an industry in a non-market economy should be classified as market-oriented: (1) For merchandise under investigation, there must be virtually no government involvement in setting prices or amounts to be produced (*e.g.*, state-required production or allocation of production of the merchandise, whether for export or domestic consumption in the non-market economy, would be an almost insupereble barrier to finding a market-oriented industry); (2) the industry producing the merchandise under investigation should be characterized by private or collective ownership (there may be state-owned enterprises in the industry but substantial state ownership would weigh heavily against finding a market-oriented industry); and (3) market-determined prices must be paid for all significant inputs, whether material or non-material (e.g., labor and overhead), and for an all but insignificant proportion of all the inputs accounting for the total value of the merchandise under investigation. For example, an input price will not be considered market-determined if the producers of the merchandise under investigation pay a state-set price for the input or if the input is supplied to the producers at government direction. Moreover, if there is any state-required production in the industry producing the input, the share of state-required production must be insignificant.

As recorded in a January 19, 1993, memorandum from David Binder to Richard Moreland, the Department has determined that the Chinese lock washer industry does not have MOI status. As regards the first criterion, the record is not sufficient to determine the degree and nature of control exercised in the lock washer industry by the central and regional government bodies of the PRC. As regards criterion two, the December 7, 1992, PRC embassy submission indicated that a significant portion of total PRC production comes from state-owned factories, a factor indicating "substantial state ownership." As regards criterion three, the PRC submissions neither stated nor documented that market-determined prices are paid for all significant inputs.

Separate Rates

In its December 7, 1992, submission and in subsequent filings with the Department, Hangzhou has argued that a separate, company-specific rate should be calculated in this investigation. In order to determine whether a company-specific dumping margin should be calculated in this investigation, we asked respondent to provide information on company ownership and relationships, sources of inputs, manufacturing processes, distribution channels, involvement of trading companies, controls on external trade, profit retention, and other facets of its production and sale of the subject merchandise. As stated in the Final Determination of Sales at Less than Fair Value: Sparklers from the People's Republic of China (56 FR 20588, May 6, 1991) (Sparklers), we will issue separate rates if a respondent can demonstrate both a *de jure* and *de facto* absence of central control. Evidence supporting, though not requiring, a finding of *de jure* absence of central control would include: (1) An absence of restrictive stipulations associated with an individual exporter's business and

VOL 58 ISS 82 AP 30 1993 UMI

export licenses; and (2) any legislative enactments devolving central control of export trading companies. Evidence supporting a finding of *de facto* absence of central control with respect to exports would include: (1) Whether each exporter sets its own export prices independently of the government and other exporters; and (2) whether each exporter can keep the proceeds from its sales.

Petitioner has argued that Hangzhou does not qualify for a separate rate because Hangzhou has not adequately explained its relationship to the People's Congress and to the state-owned trading companies through which it makes a significant number of sales to the United States.

Based on a review of Hangzhou's submissions regarding its relationships with PRC government and trade entities, we believe that there is sufficient evidence of *de facto* and *de jure* control by the People's Congress to cause us to question Hangzhou's assertions regarding the complete independence of its business operations. Moreover, as petitioner has pointed out, the PRC government apparently has some degree of control over state trading companies. This further calls into question the independence of Hangzhou. In evaluating Hangzhou's claim to have satisfied the separate rates test from Sparklers, these above concerns cause us to reject Hangzhou's claim for purposes of the preliminary determination, as recorded in our April 19, 1993, memorandum from Richard Moreland to Joseph Spetrini.

Best Information Available

The PRC government did not supply the consolidated questionnaire response requested for all producers/exporters other than Hangzhou. Further, Hangzhou has not demonstrated that it qualifies for a separate rate. Therefore, we are using best information available (BIA) to calculate the margin for all exporters from the PRC. As BIA, we are using the highest single margin calculated in the petition, a margin of 128.63 percent.

Fair Value Comparisons

To determine whether sales of HSLWs from the PRC to the United States were made at less than fair value, we compared the United States price (USP) to the foreign market value (FMV), as specified in the "United States Price" and "Foreign Market Value" sections of this notice.

United States Price

We based USP on the information contained in the petition. Petitioner based U.S. price (USP) on observed price quotes of helical spring lock washers by producers of the subject merchandise from the PRC. Petitioner made deductions from USP for U.S. duty and freight charges.

Foreign Market Value

We based FMV on the methodology contained in the petition. Petitioner contends that the FMV of PRC-produced imports subject to this investigation must be determined in accordance with section 773(c) of the Act, which concerns non-market economy (NME) countries. The PRC is presumed to be an NME within the meaning of section 771(18)(C) of the Act, and the Department has treated it as such in previous investigations (see, Final Determination of Sales at Less Than Fair Value: Sulfanilic Acid from the PRC, 57 FR 29705 (July 6, 1992)).

In accordance with section 773(c) of the Act, FMV in NME cases is based on NME producers' factors of production (valued in a market economy country). Petitioner calculated FMV on the basis of the valuation of the factors of production. In valuing the factors of production, petitioner used India as a surrogate country. In our initiation, we accepted India as having a comparable economy and being a significant producer of comparable merchandise, pursuant to section 773(c)(4) of the Act.

In accordance with the hierarchy for preferred input values as set forth in the notice of Final Determination of Sales at Less Than Fair Value: Certain Carbon Steel Butt-Weld Pipe Fittings From the People's Republic of China (PRC), 57 FR 21058 (May 18, 1992) (Comment 4), petitioner first used Indian published, publicly available information to value the factors of production before resorting to unclassified information contained in U.S. government cables or to its own costs of production.

Petitioner obtained and valued the factors of production in the PRC as follows: For carbon steel, petitioner used pricing in U.S. dollars contained in a published report. Petitioner used the cost in the United States for processing rod into finished wire. For labor, petitioner estimated the costs based on cable information from a U.S. consulate in India. For depreciation, petitioner estimated costs of its own equipment using the value of such equipment available in the United States, Taiwan, and Japan. For energy, petitioner valued the factor using its own costs. Petitioner used comparable equipment and valued electricity costs using cable information from a U.S. consulate in India and natural gas prices from published information. For tooling, petitioner used its own actual costs. For selling, general, and administrative expenses (SG&A), petitioner used the statutory minimum of ten percent of the cost of manufacture. For profit, petitioner used the statutory minimum of eight percent of the cost of manufacture plus SG&A expenses. For packing, petitioner estimated the cost as a percentage of the cost of production based on its own experience.

Petitioner calculated margins for both plain and plated carbon steel lock washers. Petitioner obtained and valued the plating factors of production using its own chemical costs, adjusted for one percent weste. For plating labor, petitioner estimated the costs based on cable information from a U.S. consulate in India. For plating equipment depreciation, petitioner estimated costs of its own equipment using the value of such equipment available in the United States. For plating energy, petitioner used its own cost per pound. For plating SG&A, petitioner used the statutory minimum of ten percent of the cost of manufacture. For plating profit, petitioner used the statutory minimum of eight percent of the cost of manufacture plus SG&A expenses.

The range of dumping margins of HSLWs from the PRC based on a comparison of USP to CV alleged by petitioner is 92.30 percent to 128.63 percent. For purposes of this preliminary determination, we are applying the highest margin of 128.63 percent as BIA.

Verification

As provided in section 776(b) of the Act, we will verify the information used in reaching our final determination.

Critical Circumstances

Petitioner alleges that "critical circumstances" exist with respect to imports of the subject merchandise from the PRC. Section 733(e)(1) of the Act provides that the Department will preliminarily determine that critical circumstances exist if we determine that there is a reasonable basis to believe or suspect that:

(A)(i) there is a history of dumping in the United States or elsewhere of the class or kind of merchandise which is the subject of the investigation, or

(ii) the person by whom, or for whose account, the merchandise was imported knew or should have known that the exporter was selling the merchandise which is the subject of the investigation at less than its fair value, and

(B) there have been massive imports of the class or kind of merchandise which is the subject of the investigation over a relatively short period.

Under 19 CFR 353.16(f), we normally consider the following factors in determining whether imports have been massive over a short period of time: (1) the volume and value of the imports; (2) seasonal trends (if applicable); and (3) the share of domestic consumption accounted for by imports.

In determining knowledge of dumping, we normally consider margins of 15 percent or more sufficient to impute knowledge of dumping under section 733(e)(1)(A)(ii) for exporters sales price sales, and margins of 25 percent or more for purchase price sales. (See, e.g., Final Determination of Sales at Less Than Fair Value; Tapered Roller Bearings and Parts Thereof, Finished or Unfinished, from Italy, 52 FR 24198, June 29, 1987). Since the preliminary margin for HSLWs from the PRC is above 25 percent, we determine in accordance with section 733(e)(1)(A)(ii) of the Act that there is a reasonable basis to believe or suspect that knowledge of dumping existed for HSLWs from the PRC.

Because the Department did not receive responses to its questionnaire from the PRC government on behalf of all producers other than Hangzhou, and since we are not calculating separate rates for purposes of the preliminary determination, we have relied upon BIA for determining whether there have been massive imports of HSLWs from the PRC. As BIA we are making the adverse assumption that imports were massive over a relatively short period of time in accordance with section 733(e)(1)(B) of the Act. Therefore, we find that there is a reasonable basis to believe or suspect that imports of HSLWs from the PRC have been massive over a relatively short period of time. Based on our analysis, we determine that there is a reasonable basis to believe or suspect that critical circumstances exist for imports of HSLWs from the PRC.

Suspension of Liquidation

In accordance with sections 733(d)(1) and 733(c)(2) of the Act, we are directing the Customs Service to suspend liquidation of all entries of certain helical spring lock washers from the PRC that are entered, or withdrawn from warehouse, for consumption on or after the date 90 days prior to the publication of this notice in the **Federal Register**. The Customs Service shall require a cash deposit or posting of a bond equal to 128.63 percent on all entries of certain HSLWs from the PRC. This suspension of liquidation will remain in effect until further notice. The estimated dumping margins are as follows:

Manufacturer/producer/exporter	Margin percentage
All PRC Manufacturers, Producers and Exporters	128.63

ITC Notification

In accordance with section 733(f) of the Act, we have notified the ITC of our determination. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

Public Comment

In accordance with 19 CFR 353.38, case briefs or other written comments in at least ten copies must be submitted to the Assistant Secretary for Import Administration no later than June 16, 1993, and rebuttal briefs, no later than June 23, 1993. In accordance with 19 CFR 353.38(b), we will hold a public hearing, if requested, to afford interested parties an opportunity to comment on arguments raised in case or rebuttal briefs. Tentatively, the hearing will be held on June 29, 1993, at 9:30 a.m. at the U.S. Department of Commerce, room 3708, 14th Street and Constitution Avenue, NW., Washington, DC 20230. Parties should confirm by telephone the time, date, and place of the hearing 48 hours before the scheduled time.

Interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, U.S. Department of Commerce, room B–099, within ten days of the publication of this notice. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. In accordance with 19 CFR 353.38(b), oral presentations will be limited to issues raised in the briefs.

This determination is published pursuant to section 733(f) of the Act and 19 CFR 353.15(a)(4).

Dated: April 26, 1993.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.

Live Swine From Canada; Amendment to Final Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of amendment to final results of countervailing duty administrative review.

SUMMARY: On July 20, 1992, in accordance with the Binational Panel's May 19, 1992 remand, the Department of Commerce ("the Department") submitted its final results of redetermination to the Panel for the fourth administrative review covering the period April 1, 1988 through March 31, 1989. Following a challenge, the Panel remanded the final results of redetermination to the Department and directed the Department to readdress several issues and findings. On November 19, 1992, the Department submitted a second final results of redetermination to the Panel. The Panel affirmed this redetermination on December 21, 1992. Following the United States' challenge of the Panel's decision before an Extraordinary Challenge Committee, the Committee upheld the Panel's order affirming the November 19, 1992 redetermination. Pursuant to this conclusive decision, we are therefore amending, for purposes of this review, the countervailing duty rate on live swine from Canada.

EFFECTIVE DATE: April 30, 1993.

FOR FURTHER INFORMATION CONTACT: Stephanie Moore or Maria MacKay, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 482–2786.

SUPPLEMENTARY INFORMATION:

Background

On June 21, 1991 (56 FR 28531), the Department published the final results of its fourth administrative review of the countervailing duty order on Live Swine from Canada covering the period April 1, 1988 through March 31, 1989. These results were challenged by the Government of Canada and other Canadian parties before a Binational Panel pursuant to Article 1904 of the U.S.-Canada Free Trade Agreement (FTA) and 19 U.S.C. 1516a(g) (1988). The Panel issued its decision on May 19, 1992, and therein remanded certain issues to the Department for reconsideration. Live Swine from Canada, USA–91–1904–03. Pursuant to this remand order, on July 20, 1992, the

VOL 58 ISS 82 AP 30 1993 UMI

Department submitted to the Panel its final results of redetermination. In its redetermination, the Department provided further argumentation for its determination that Canada's National Tripartite Stabilization Scheme for hogs (Tripartite) and Quebec's Farm Income Stabilization Insurance program (FISI) were de facto specific in accordance with 19 U.S.C. 1677(5). The Department also requested a second remand to reopen the record in order to include two Canadian documents which supported the Department's estimate of the universe of agricultural commodities produced in Canada, in accordance with the Panel's previous order. The Government of Canada and other Canadian parties challenged the Department's basis for its specificity determination on remand and the Department's request to reopen the record.

On October 30, 1992, the Panel held that the Department was to (1) determine Tripartite and FISI to be non-specific and therefore "not countervailable" and (2) grant "weanlings" a separate, product-based countervailing duty rate. Live Swine from Canada, USA–91–1904 (October 30, 1992). The Panel also denied the Department's request to reopen the administrative record. The Department complied with the Panel's instructions on November 19, 1992, and on December 21, 1992, the Panel issued an order affirming the second determination on remand.

On January 21, 1993, pursuant to Article 1904.13 and Annex 1904.13 of the FTA, the United States filed a request for an Extraordinary Challenge Committee to review the decision of the Binational Panel with respect to the de facto specificity determination. The United States argued that the Panel had failed to apply the appropriate standard of review under U.S. countervailing duty law in determining that the Department had not applied "the appropriate test" to determine specificity.

On April 8, 1993, the Extraordinary Challenge Committee held that the alleged errors by the Panel did not meet the test for a successful extraordinary challenge as set forth in article 1904.13. Live Swine from Canada, ECC–93–1904–01 USA (April 8, 1993). Although the Committee indicated that "the Panel may have erred" with respect to its substantive decision regarding whether the Department's approach to specificity was in accordance with U.S. law, the Committee found that it could not say, based upon that record, "that the Panel did not conscientiously apply the appropriate standard of review."

Accordingly, the Committee dismissed the United States' request for an extraordinary challenge and affirmed the Panel's order affirming the Department's second redetermination, dated December 21, 1992.

Based upon the Panel's order affirming the determination on remand and in accordance with the Extraordinary Challenge Committee's conclusive decision affirming that order, for purposes of this review period only, the Department has removed both the Tripartite and FISI benefits paid to producers of live swine in Canada and Quebec from the calculation of the subsidy rate. In addition, in conformance with the Panel's order, the Department has calculated a separate rate for weanlings.

The subsidy rates contained herein are those determined by the Department in its November 19, 1992 second redetermination. They are: CAN$ 0.0040 per pound for slaughter sows and boars; CAN$ 0.0005 per pound for weanlings; and CAN$ 0.0051 per pound for all other live swine.

Amended Final Results of Review

The Department will instruct the Customs Service to assess countervailing duties of CAN$ 0.0040 per pound for slaughter sows and boars; CAN$ 0.0005 per pound for weanlings; and CAN$ 0.0051 per pound for all other live swine, exported on or after April 1, 1988, and on or before March 31, 1989.

The Customs Service will continue to collect a cash deposit of estimated countervailing duties of CAN$ 0.0049 per pound for slaughter sows and boars and CAN$ 0.0932 for all other live swine. These rates were established in the final results of the fifth countervailing duty administrative review of this order (April 1, 1989 through March 31, 1990) (56 FR 59585; October 7, 1991).

This amended notice of final results is published in accordance with 19 U.S.C. 1675(a)(1), 19 U.S.C. 1516e(g)(5)(B), 19 CFR 355.22 (1992) and 19 CFR 356.8(e).

Dated: April 19, 1993

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–P

[Docket No. 930360–3060]

Trade Fair Certification Program: Support for Privately Organized International Trade Fairs

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of revisions to the Trade Fair Certification Program: Support for privately organized international trade fairs.

SUMMARY: This notice sets forth the revised objectives, procedures, and application review criteria associated with the U.S. Department of Commerce's Trade Fair Certification Program, which recognizes and endorses selected, privately organized, U.S. participation in foreign trade fairs.

The revised program criteria contained in this notice include the following principal additions, changes, and clarifications to the current program:

- A $1,500 non-refundable contribution is required upon Certification.
- Fairs occurring in cities or locales where the U.S. Department of Commerce (Commerce) has no U.S. and Foreign Commercial Service (US&FCS) office, or where the US&FCS representative responsible for the industry theme of such a fair is based off-site, may incur additional expense for the applicant.
- First-time fairs are not eligible for Certification.
- Applicants applying for Certification of an existing trade fair must have experience in recruiting U.S. exhibitors for that show or another show with the same industry theme.
- Applications for Certification must include satisfactory documentation, in English, of the commitment of necessary exhibit space by the owner or lessor of the facility in which the fair will be held. Documentation should consist of: (1) A lease or letter from the owner or lessor stating that the applicant holds the necessary exhibition space, or a letter demonstrating an offer of specific exhibition space by the owner or lessor of the facility; and (2) a letter indicating the applicant's acceptance of the terms.
- Applications must be received no later than 270 days prior to the commencement of the fair for which Certification is sought, but no earlier than the conclusion of the prior event.
- Only applications submitted by U.S. persons or entities will be considered. For this purpose, the U.S. subsidiary, branch or agent of a foreign firm is considered a U.S. person or entity. Applications for fairs in which the designated organizer's U.S.-based office or agent does not lease space directly must be submitted by the foreign fair organizer and co-signed by the U.S.-based agent or recruiter.
- Certified fair organizers must provide a list of recruited U.S. participants to the Commerce project officer and to the appropriate U.S. and Foreign Commercial Service office 30 days prior to the event.
- All products to be exhibited by recruited U.S. participants must (1) be manufactured or produced in the United States, or (2) if manufactured or produced outside of the United States, be marketed under the name of a U.S. firm and have U.S. content representing at least fifty-one percent of the value of the finished good or service.

DATES: These revised administrative procedures are effective on the date of publication in the **Federal Register**.

ADDRESSES: Trade Fair Certification Program, room 2116, Export Promotion Services, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Paul Bucher, Manager, Trade Fair Certification, U.S. Department of Commerce, room 2116, 14th and Constitution Avenue, NW., Washington, DC 20230. Tel: (202) 482–2525 Fax: (202) 482–0115 (for communication purposes only; facsimile applications will not be accepted).

SUPPLEMENTARY INFORMATION:

Trade Fair Certification Program Background

This **Federal Register** notice replaces, in full, the **Federal Register** notices of August 4, 1987, 52 FR 28934–28936, and May 12, 1983, 48 FR 21520–21522.

Per the Mutual Educational and Cultural Exchange Act of 1961 (MECEA) (22 U.S.C. 2455(f)), Commerce established the Trade Fair Certification Program in 1983 to encourage qualified private sector organizers to recruit U.S. exhibitors for overseas trade fairs. The revised program set forth in this notice provides the private sector with greater opportunities to work with Commerce in support of their participation in overseas trade fairs.

In lieu of Commerce, private sector organizers assume the responsibilities of organizing Certified Trade Fairs, or U.S. participation in them. Certification assures Commerce recognition and support of the efforts of private sector trade fair organizers, as well as trade associations and other export promotion organizations, to recruit U.S. exporters for specific oversees fairs recognized by the Department as good export opportunities.

Certification provides a means for the exporter to verify that a particular trade fair will be a good promotional medium. Prospective U.S. exhibitors at Certified Trade Fairs know that Commerce personnel will be available to assist them and to counsel them about export matters that may arise before, during and after the show. Certification thus indirectly serves the U.S. manufacturer or service provider seeking export opportunities.

The private sector organizer usually takes the initiative to request Certification of a fair; however, on occasion, Commerce may identify a fair as a potential candidate for Certification. In those instances where there is no known private sector entity in the United States recruiting for the fair, Commerce will notify organizers of fairs that have been Certified during the preceding two years about such opportunities and place a similar notice in the **Federal Register**.

With the exception of catalog exhibitions, Commerce will not Certify a fair for which it is also recruiting or intends to recrujt exhibitors.

Certification is for one fair only; organizers of fairs that have been Certified previously, must, nevertheless, apply for Certification of the currently anticipated event in order to permit Commerce to evaluate current market conditions.

Commerce does not provide any financial assistance to organizers or to exhibitors at Certified Trade Fairs. The Certified organizer contributes $1,500 to assist in defraying Commerce expenses incurred in supporting the organizer and the fair. Commerce may provide additional services, for which the applicable post's Senior Commercial Officer will determine, subject to review by US&FCS in Washington, any additional contribution required of the organizer.

Certification indicates that Commerce has found the applicable fair to be a good market opportunity warranting participation by U.S. exporters. Certification indicates that the fair and the organizer have met basic criteria and that the organizer is qualified to perform in a manner supportive of Commerce's objectives. However, Certification does not constitute a guarantee of the fair's success or of the organizer's performance.

Commerce limits Certification to those fairs that, in its judgment, most clearly meet its program objectives and selection criteria. A decision not to Certify a fair does not mean that the event should not be considered as a promotional tool by U.S. firms.

Trade Fair Criteria for Awarding Certification

Subject to Commerce's budgetary and resource constraints, Certification will be granted to those fairs which, in the judgment of Commerce, most clearly and best meet the following criteria:

(a) The fair must be a good market opportunity for the featured industry or industries.

In applying this criterion, Commerce will consider such factors as:

(i) Whether the fair's industry theme is included on Commerce's Best Prospect or Best Market list. Information about the Best Prospect and Best Market lists is available from the Trade Fair Certification staff, Commerce District Offices and US&FCS sections oversees;

(ii) The degree to which the fair provides promise of foreign market exposure for the latest technology or techniques in an industry or in a commercially recognized category of goods or services;

(iii) Whether the fair provides a unique opportunity for export promotion within a particular market;

(iv) The appropriateness of the fair for a minimum of 10 U.S. industry participants, ideally located in an identifiable U.S. pavilion within the show; and

(v) Whether such participants are likely to exhibit goods or services representing U.S. industry in the particular field involved.

(b) The fair must have good potential for export promotion.

In applying this criterion, Commerce will consider:

(i) Whether the industry or target market of the fair promises to attract foreign customers for U.S. goods or services; and

(ii) The "marketability" of the overall industry goods or services likely to be exhibited, i.e., the sales potential in the market area and the suitability of the goods or services as identified in the application for Certification.

(c) The fair must be one for which recognition and support would be consistent with Commerce's overall export promotion program and its priorities for allocation of its resources and name association.

In applying this criterion, Commerce will consider such factors as:

(i) Whether the fair is a first-time event. First time fairs are not eligible for Certification. A first-time fair is a distinctly separate and uniquely titled trade show that has not been held before in the applicable country. The term "first-time event" does not refer to a

VOL 58 ISS 82 AP 30 1993 UMI

show different in name only from a previous identical fair. A fair developed as a "breakout" show from an existing fair will be considered a first-time fair;

(ii) Whether an existing fair has occurred in the applicable country prior to the submission of an application for Certification. Applications for a fair that occurs in different countries on a rotating basis under the same title will be considered provided the fair has occurred in the relevant country during the preceding five years;

(iii) Whether Commerce is recruiting or intends to recruit exhibitors for the fair. With the exception of catalog exhibitions, Commerce will not Certify a fair for which it also is recruiting or intends to recruit exhibitors; and

(iv) The theme, timing and location of the fair; previous exhibitors' assessment of the fair; the past experience of the organizer with the event; the post's familiarity with the fair (and, if applicable, the post's recommendation in its end-of-show report for the previous event); and whether Commerce's support would contribute to the enhancement of the participants' export potential.

Application Procedures

(a) Applications must be received no later than 270 days prior to the first day of the fair, and no earlier than the conclusion of the prior occurrence of the event.

(b) Only a U.S. person may apply for Certification. For purposes of this paragraph, "U.S. person" means a U.S. citizen, an entity (such as a corporation, partnership, association or other entity) created under the laws of the United States or of any state, and the U.S. branch or agent of a foreign person. Applications for fairs in which the designated organizer's U.S.-based office or agent does not lease space directly must be submitted by the foreign fair organizer and co-signed by the U.S.-based agent or recruiter.

(c) Applications that are received within 30 days of the receipt of the first application with respect to a fair will be considered concurrently with the first application. Applications received more than 30 days after receipt of the first application will be considered, in order of receipt, but only if no prior application has been accepted for Certification.

(d) Applications for all fairs must include satisfactory documentation, in English, of the commitment of necessary exhibit space by the owner or lessor of the facility in which the fair will be held. Documentation should consist of: (1) A lease or letter *from* the owner or lessor stating that the applicant holds the necessary exhibition space, or a letter demonstrating an offer of specific exhibition space by the owner or lessor of the facility; and (2) a letter indicating the applicant's acceptance of the terms.

(e) Applications will be deemed received only if they are complete, i.e., all questions on the application [Form ITA 4100P] are addressed and documentation of lease arrangements, as provided in paragraph (d) above, is included. The collection of this information has been approved by the Office of Management and Budget, OMB Control Number 0625–0130. Applications deemed incomplete will be returned to the applicant. The 30-day period referred to in paragraph (c) will commence when Commerce first deems an application complete and received.

(f) Application form ITA–4100P can be obtained by contacting the Manager for Trade Fair Certification listed in this notice.

Applicant Criteria for Certification

The applicant must demonstrate or provide:

(a) Financial capability and personnel resources sufficient to plan and implement a successful fair and organize a U.S. pavilion or exhibitor group, including, but not limited to, having a U.S. office or appropriate U.S. representative for recruitment of participants and the capability to provide exhibition and sundry trade services to exhibitors;

(b) Experience in trade fair management and evidence of successful recruitment of U.S. exhibitors for that show or another show with the same industry theme;

(c) A high-level management commitment to develop and execute the trade fair and/or organization of the U.S. pavilion or group of U.S. exhibitors;

(d) Documentation showing a firm agreement committing both the applicant and the owner or lessor of exhibit space at the fair per paragraph (d) in the preceding section;

(e) A commitment to recruit at least 10 U.S. companies to participate in the fair;

(f) The ability and commitment to provide a comprehensive show and/or U.S. pavilion or exhibitor group management and marketing effort, including the ability to identify, and seek participation by, infrequent exporters and small- and medium-sized companies; and

(g) The ability and commitment to satisfy U.S. exhibitors' needs by arranging or providing exhibition services, including, but not limited to, booth design and construction, transportation of display, cleaning services and market promotion.

Specific responsibilities of the Certified show organizer/recruiter:

(a) Make a $1,500 non-refundable contribution to Commerce within 30 days of notice that the fair has been Certified.

(b) Designate an individual on the organizer's staff to work on all aspects of the show with Commerce personnel assigned to coordinate activities for the exhibition.

(c) Provide the following exhibition services:

(i) Display space comparable with industry standards for trade events;

(ii) Forwarding and exhibit set-up services including, but not limited to, unloading participants' equipment at the exhibition site, delivery to the participants' booths, unpacking, placement in display area, storing packing crates, repacking and loading for onward shipment, customs clearance, and any other services required to assure the prompt and orderly receipt and dispatch of materials in and out of the exhibition site;

(iii) Installation of a display system, chairs, tables, standard company identification and standard agent identification signs;

(iv) Normal utilities and hook-up services; and

(v) Assistance in hiring interpreters, clerical personnel or booth attendants required by participants. All fees to be charged to participants for standard and supplementary services must be stated in the organizer's application and be within a reasonable range of such charges in the market as can be verified by Commerce's post in-country.

(d) Undertake, as appropriate, a comprehensive promotional campaign, such as in-country pre-show press conferences and meetings to reach importers, distributors, agents, buyers and end-users.

(e) If required by the Senior Commercial Officer, provide at no cost to the post, space and/or furnished booth for use as a Business Information Office (BIO). If a U.S. pavilion is utilized, the BIO should be co-located with the exhibitors in the U.S. pavilion.

(f) In keeping with Commerce's mandate, show evidence of efforts to target infrequent exporters (new-to-market firms) and small and medium-sized firms in its recruitment efforts.

(g) If the fair is located at a site where there is no US&FCS Section or where the US&FCS representative responsible for the show's industry theme is based off-site, pay per diem and travel-related expenses, subject to Commerce guidelines and the post's utilization of its allocation of the Certification fee.

(h) Subject to Departmental guidelines, pay per diem and travel-related expenses for U.S. Department of Commerce employee(s) whom the organizer has requested to attend the fair.

(i) Provide a list of recruited U.S. participants to the Commerce project officer and to the appropriate US&FCS office 30-days prior to commencement of the fair.

(j) Ensure that recruited U.S. participants' exhibited products:

(1) Are manufactured or produced in the United States; or

(2) if manufactured or produced outside of the United States, are marketed under the name of a U.S. firm and have U.S. content representing at least 51 percent of the value of the finished good or service.

(k) Prominently display the Trade Fair Certification logo on event promotional materials, on all exhibition booth fascia, and throughout the U.S. pavilion, if one is organized.

(l) Provide an after show report (Form 4103–P supplied by Commerce) to the Senior Commercial Officer at post and to the Commerce project officer within 14 days of the show's closing. This report will be incorporated into an overall report completed by the post for use in evaluating: The fair; the effectiveness of support provided by Commerce; and the organizer's performance.

Commerce reserves the right to "decertify" a fair at any time after Certification is granted if, in the opinion of Commerce, the organizer has not or is not likely to fulfill its obligations as established by the Certification criteria. In such an event, the organizer shall remain solely responsible for its obligations to the recruited U.S. participants. Commerce may withdraw all assistance and support, including the right of the organizer to use the Trade Fair Certification logo.

Department of Commerce Services and Responsibilities

The support provided for Certified Trade Fairs will generally be identical, but minor variances may exist, depending on the specific needs of the organizer and of Commerce.

For Certified Trade Fairs, Commerce will:

(a) Provide the successful applicant with a certificate designating the fair as being Certified by the U.S. Department of Commerce;

(b) Authorize the use of Commerce's "Trade Fair Certification" logo and other Commerce-approved references that indicate the U.S. Government recognizes and supports the fair, pursuant to and in accordance with such terms and conditions, including the US&FCS Logotype Style Manual, as Commerce might prescribe;

(i) The Trade Fair Certification Program of the U.S. Department of Commerce is the principal program used to support private sector-recruitment and organization of overseas trade fairs. Use of the Trade Fair Certification logo for Certified Trade Fairs is conditioned on it being the dominant logo to promote the fair to U.S. exhibitors;

(ii) If other U.S. Government or non-government logos are used, they must appear in smaller versions and not be co-mingled with the Trade Fair Certification logo;

(iii) All promotional material using the Trade Fair Certification logo should be sent to the project officer for file-keeping purposes. Advance review of the materials is not required, unless the show organizer has questions about proper use of the logo; and

(iv) Failure to abide by the regulations regarding proper use of the Trade Fair Certification logo may result in the fair being de-certified. A copy of the proper guidelines for using the Trade Fair Certification logo is supplied to the organizer upon Certification.

(c) Provide a designated project officer to assist the organizer;

(d) Make a general announcement to appropriate Commerce units (District Offices, US&FCS overseas, etc.) that Commerce supports the show and the U.S. organizer's recruitment efforts;

(e) Place an ongoing announcement about the fair in Commerce's biweekly export promotion magazine Business America, the Export Promotion Calendar, and relevant ITA newsletters up to the date of the event;

(f) Provide a suggested news release designating the show as a Certified Trade Fair for the organizer to use in its recruitment campaign;

(g) Provide the organizer, upon request, with relevant existing international marketing reports;

(h) To the extent resources allow, coordinate with other Commerce units in obtaining relevant mailing lists or mailing labels in support of the organizer's recruitment and promotional activities related to the specific Certified Trade Fair, to be provided on a one-time basis only;

(i) Encourage potential exhibitors, through Commerce's normal course of counseling or through contacts with business and trade associations, to consider participation in the Certified Trade Fair and refer inquiries to the show organizer; and

(j) Upon request and to the extent available, arrange counseling for exhibitors by District Office Trade Specialists, International Economic Policy country desk officers and Trade Development industry officers.

The US&FCS Section Abroad will:

(a) Furnish the organizer with a list of key local government entities, associations, distributors, agents, and other relevant information;

(b) Promote the fair locally by including an announcement of the event in its commercial newsletter or equivalent;

(c) Upon request by the post and subject to the availability of resources, provide staff at a Business Information Office to counsel U.S. exhibitors, facilitate contacts between exhibitors and visitors, and promote the services of the individual post. The BIO cannot be used for any other purpose, unless agreed to by the post and the US&FCS Export Promotion Services (EPS) office; and

(d) Upon request by the organizer and subject to the availability of resources, provide additional services, including, but not limited to the following: An exhibitor briefing; reception; promotional mailing; ribbon-cutting ceremony; and press conference.

The costs of these additional services, over and above the post's allocation of the Certification fee, shall be assumed by the organizer. Such costs will be determined by the Senior Commercial Officer, subject to review by EPS and US&FCS management.

Dated: April 21, 1993.

Ann H. Watts

Director, Cooperative Events Division, Export Promotion Services, U.S. and Foreign Commercial Service, International Trade Administration, U.S. Department of Commerce.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Docket No. 921225–3038

RIN 0625–AA06

Allocation of Duty-Exemptions for Calendar Year 1993 Among Watch Producers Located in the Virgin Islands

AGENCY: Import Administration, International Trade Administration, Department of Commerce; and Office of the Secretary, Department of the Interior.

VOL 58 ISS 82 AP 30 1993 UMI

ACTION: Notice.

SUMMARY: This action allocates 1993 duty-exemptions for watch producers located in the Virgin Islands pursuant to Public Law 97–446.

FOR FURTHER INFORMATION CONTACT: Faye Robinson, (202) 482–1660.

SUPPLEMENTARY INFORMATION: Pursuant to Public Law 97–446, the Departments of the Interior and Commerce (the Departments) share responsibility for the allocation of duty exemptions among watch assembly firms in the U.S. insular possessions and the Northern Mariana Islands. In accordance with § 303.3(a) of the regulations (15 CFR part 303), this action establishes the total quantity of duty-free insular watches and watch movements for 1993 at 5,580,000 units and divides this amount among the three insular possessions of the United States and the Northern Mariana Islands.

Of this amount, 4,080,000 units may be allocated to Virgin Islands producers, 500,000 to Guam producers, 500,000 to American Samoa producers and 500,000 to Northern Mariana Islands producers (58 FR 21347).

The criteria for the calculation of the 1993 duty-exemption allocations among insular producers are set forth in § 303.14 of the regulations.

The Departments have verified the data submitted on application form ITA–334P by producers in the territories and inspected the current operations of all producers in accordance with § 303.5 of the regulations.

The verification established that in calendar year 1992 the Virgin Islands watch assembly firms shipped 2,113,216 watches and watch movements into the customs territory of the United States under Public Law 97–446. The dollar amount of creditable corporate income taxes paid by Virgin Islands producers during calendar year 1992 plus the creditable wages paid by the industry during calendar year 1992 to residents of the territory totalled $5,001,851.

There are no producers in American Samoa or the Northern Mariana Islands. The only producer in Guam ceased assembly operations during 1992. Publication of the Guam data would disclose competitively sensitive information.

The calendar year 1993 Virgin Islands annual allocations set forth below are based on the data verified by the Departments in the Virgin Islands. The allocations reflect adjustments made in data supplied on the producers' annual application forms (ITA Form–334P) as a result of the Departments' verification; and reallocation of duty-exemptions which have been voluntarily relinquished by some producers pursuant to § 303.6(b)(2) of the regulations.

The duty-exemption allocations for calendar year 1993 in the Virgin Islands are as follows:

Name of firm	Annual allocation
Belair Quartz, Inc	500,000
Hampden Watch Co., Inc	300,000
Progress Watch Co., Inc	400,000
Unitime Industries, Inc	500,000
Tropex, Inc	500,000
Timex V.I., Inc	791,200

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Ruth G. Van Cleve,

Acting Assistant Secretary for Territorial and International Affairs.

Adjustment of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in the United Arab Emirates

April 26, 1993.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs reducing limits.

EFFECTIVE DATE: May 4, 1993.

FOR FURTHER INFORMATION CONTACT: Anne Novak, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927–5850. For information on embargoes and quota re-openings, call (202) 482–3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limits for certain categories are being reduced for carryforward used during 1992.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 57 FR 54976, published on November 23 1992). Also see 57 FR 53887, published on November 13, 1992.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

April 26, 1993.

Commissioner of Customs,

Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 6, 1992, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in the United Arab Emirates and exported during the twelve-month period which began on January 1, 1993 and extends through December 31, 1993.

Effective on May 4, 1993, you are directed to amend the directive dated November 6, 1992 to adjust the limits for the following categories, as provided under the terms of the current bilateral agreement between the Governments of the United States and the United Arab Emirates:

Category	Adjusted twelve-month limit [1]
340/640	273,934 dozen.
341/641	226,293 dozen.
347/348	326,447 dozen of which not more than 164,122 dozen shall be in Categories 347–T/348–T [2].

[1] The limits have not been adjusted to account for any imports exported after December 31, 1992.

[2] Category 347–T: only HTS numbers 6103.19.2015, 6103.19.4020, 6103.22.0030, 6103.42.1020, 6103.42.1040, 6103.49.3010, 6112.11.0050, 6113.00.0038, 6203.19.1020, 6203.19.4020, 6203.22.3020, 6203.42.4005, 6203.42.4010, 6203.42.4015, 6203.42.4025, 6203.42.4035, 6203.42.4045, 6203.49.3020, 6210.40.2035, 6211.20.1520, 6211.20.3010 and 6211.32.0040; Category 348–T: only HTS numbers 6104.12.0030, 6104.19.2030, 6104.22.0040, 6104.29.2034, 6104.62.2010, 6104.62.2025, 6104.69.3022, 6112.11.0060, 6113.00.0042, 6117.90.0042, 6204.12.0030, 6204.19.3030, 6204.22.3040, 6204.29.4034, 6204.62.3000, 6204.62.4005, 6204.62.4010, 6204.62.4020, 6204.62.4030, 6204.62.4040, 6204.62.4050, 6204.69.3010, 6204.69.9010, 6210.50.2035, 6211.20.1550, 6211.20.6010, 6211.42.0030 and 6217.90.0050.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–F

Denial of Participation in the Special Access and Special Regime Programs

April 26, 1993.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs denying the right to participate in the Special Access and Special Regime Programs.

EFFECTIVE DATE: May 1, 1993.

FOR FURTHER INFORMATION CONTACT: Lori E. Goldberg, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–3400.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The Committee for the Implementation of Textile Agreements (CITA) has determined that the I. Appel Corporation is in violation of the requirements set forth for participation in the Special Access and Special Regime Programs.

In the letter published below, the Chairman of CITA directs the Commissioner of Customs, effective on May 1, 1993, to deny the I. Appel Corporation the right to participate in the Special Access and Special Regime Programs, for a period of three months, from May 1, 1993 through July 31, 1993.

Requirements for participation in the Special Access Program are available in **Federal Register** notices 51 FR 21208, published on June 11, 1986; 52 FR 26057, published on July 10, 1987; and 54 FR 50425, published on December 6, 1989.

Requirements for participation in the Special Regime Program are available in **Federal Register** notices 53 FR 15724, published on May 3, 1988; 53 FR 32421, published on August 25, 1988; 53 FR 49346, published on December 7, 1988; and 54 FR 50425, published on December 6, 1989.

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

April 26, 1993.

Commissioner of Customs,

Department of the Treasury, Washington, DC 20229.

Dear Commissioner: The purpose of this directive is to notify you that the Committee for the Implementation of Textile Agreements has determined that the I. Appel Corporation is in violation of the requirements for participation in the Special Access and Special Regime Programs.

Effective on May 1, 1993, you are directed to prohibit the I. Appel Corporation from further participation in the Special Access and Special Regime Programs, for a period of three months, from May 1, 1993 through July 31, 1993. Goods accompanied by Form ITA–370P which are presented to U.S. Customs for entry under the Special Access and Special Regime Programs will no longer be accepted. In addition, for the period May 1, 1993 through July 31, 1993, you are directed not to sign ITA–370P forms for export of U.S.-formed and cut fabric for the I. Appel Corporation.

Sincerely,

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 93–10171 Filed 4–29–93; 8:45 am]

BILLING CODE 3510–DR–F

Establishment of an Export Visa Arrangement for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Lesotho

April 23, 1993.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing export visa requirements.

EFFECTIVE DATE: May 15, 1993.

FOR FURTHER INFORMATION CONTACT: Janet Heinzen, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

On December 9, 1992, the Governments of the United States and the Kingdom of Lesotho agreed to establish an export visa arrangement for certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Lesotho and exported from Lesotho on and after May 15, 1993.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 57 FR 54976, published on November 23, 1992).

Interested persons are advised to take all necessary steps to ensure that textile products that are entered into the United States for consumption, or withdrawn from warehouse for consumption, will meet the visa requirements set forth in the letter published below to the Commissioner of Customs.

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

April 23, 1993.

Commissioner of Customs,

Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on December 9, 1992; pursuant to the Export Visa Arrangement of December 9, 1992 between the Governments of the United States and the Kingdom of Lesotho; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on May 15, 1993, entry into the Customs territory of the United States (i.e., the 50 states, the District of Columbia and the Commonwealth of Puerto Rico) for consumption and withdrawal from warehouse for consumption of cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products in Categories 200–239, 300–369, 400–469, 600–670 and 800–899, including merged (338/339/638/639 and 347/348/647/648) and part categories, produced or manufactured in Lesotho and exported from Lesotho on and after May 15, 1993, for which the Government of the Kingdom of Lesotho has not issued an appropriate export visa fully described below. Should additional categories, merged categories or part categories be added to the bilateral agreement, the entire category(s) or part category(s) shall be included in the coverage of this arrangement on an agreed effective date.

A visa must accompany each commercial shipment of the aforementioned textile products. A circular stamped marking in blue ink will appear on the front of the original commercial invoice. The original visa shall

VOL 58 ISS 82 AP 30 1993 UMI

not be stamped on duplicate copies of the invoice. The original invoice with the original visa stamp will be required to enter the shipment into the United States. Duplicates of the invoice and/or visa may not be used for this purpose.

Each visa stamp shall include the following information:

1. The visa number. The visa number shall be in the standard nine digit letter format, beginning with one numerical digit for the last digit of the year of export, followed by the two character alpha country code specified by the International Organization for Standardization (ISO) (the code for Lesotho is "LS"), and a six digit numerical serial number identifying the shipment; e.g., 3LS123456.

2. The date of issuance. The date of issuance shall be the day, month and year on which the visa was issued.

3. The signature and printed name of the issuing official.

4. The correct category(s), merged category(s), part category(s), quantity(s) and unit(s) of quantity in the shipment as set forth in the U.S. Department of Commerce Correlation and the U.S. Harmonized Tariff Schedules (HTS) (e.g., "Cat. 343–210 DOZ").

Quantities must be stated in whole numbers. Decimals or fractions will not be accepted. Merged category quota merchandise may be accompanied by either the appropriate merged category visa or the correct category visa corresponding to the actual shipment (e.g., Categories 347/348 may be visaed as 347/348 or if the shipment consists solely of 347 merchandise, the shipment may be visaed as "Cat. 347," but not as "Cat. 348"). If, however, a merged quota category such as 340/640 has a quota sublimit on Category 340, then there must be a "Cat. 340" visa for the shipment if it includes Category 340.

U.S. Customs shall not permit entry if the shipment does not have a visa, or if the visa number, date of issuance, signature, printed name of the signer, category, quantity or units of quantity are missing, incorrect or illegible, or have been crossed out or altered in any way. If the quantity indicated on the visa is less than that of the shipment, entry shall not be permitted. If the quantity indicated on the visa is more than that of the shipment, entry shall be permitted and only the amount entered shall be charged to any applicable quota.

The complete name and address of a company actually involved in the manufacturing process of the textile product covered by the visa shall be provided on the textile visa document.

If the visa is not acceptable then a new visa must be obtained from the Government of the Kingdom of Lesotho, or a visa waiver may be issued by the U.S. Department of Commerce at the request of the Government of the Kingdom of Lesotho, and presented to the U.S. Customs Service before any portion of the shipment will be released. The waiver, if used, only waives the requirement to present a visa with the shipment. It does not waive the quota requirement.

If import quotas are in force, U.S. Customs Service shall charge only the actual quantity in the shipment to the correct category limit.

If a shipment from Lesotho has been allowed entry into the commerce of the United States with either an incorrect visa or no visa, and redelivery is requested but cannot be made, U.S. Customs shall charge the shipment to the correct category limit whether or not a replacement visa or visa waiver is provided.

Merchandise imported for the personal use of the importer and not for resale, regardless of value, and properly marked commercial sample shipments valued at U.S.$250 or less, do not require a visa for entry and shall not be charged to agreement levels.

A facsimile of the visa stamp and a list of officials authorized to issue export visas are enclosed with this letter (Annex A).

The actions taken concerning the Government of the Kingdom of Lesotho with respect to imports of textiles and textile products in the foregoing categories have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1). This letter will be published in the **Federal Register**.

Sincerely,

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–P

VOL 58 ISS 82 AP 30 1993 UMI

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List Additions

AGENCY: Committee for Purchase from People Who Are Blind or Severely Disabled.

ACTION: Additions to Procurement List.

SUMMARY: This action adds to the Procurement List commodities and services to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: June 1, 1993.

ADDRESSES: Committee for Purchase from People Who Are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202–3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman, (703) 603–7740.

SUPPLEMENTARY INFORMATION: On February 26, March 5 and 12, 1993, the Committee for Purchase from People Who Are Blind or Severely Disabled published notices (58 FR 11590, 12580 and 13586) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodities and services, fair market price, and impact of the additions on the current or most recent contractors, the Committee has determined that the commodities and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities and services to the Government.

2. The action will not have a severe economic impact on current contractors for the commodities and services.

3. The action will result in authorizing small entities to furnish the commodities and services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the commodities and services proposed for addition to the Procurement List.

Accordingly, the following commodities and services are hereby added to the Procurement List:

Commodities

Napkin, Table, Paper
8540–00–285–7001
8540–01–056–2897

Services

Janitorial/Custodial, Buildings 2103, 2151, 2157, 2159, 2170, 2178, 2180, 2182, 2188, 2206, 2208, 2209, 2301, 2303, 2303T, 865, 2104, 2131, 2133, 2135, 2137, 2150, 2172, 2174, 2176, 2205, 2207, 2430, 2435, Fort Campbell, Kentucky

Janitorial/Custodial, Federal Building and U.S. Post Office, 104 West Magnolia, Bellingham, Washington

Janitorial/Grounds Maintenance, East Totten Trail Recreation Area, Lake Sakakawea, Riverdale, North Dakota

This action does not affect contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

[FR Doc. 93–10204 Filed 4–29–93; 8:45 am]

BILLING CODE 6820–33–P

Procurement List; Addition

AGENCY: Committee for Purchase from People who are Blind or Severely Disabled.

ACTION: Addition to Procurement List.

SUMMARY: This action adds to the Procurement List a service to be furnished by a nonprofit agency employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: June 1, 1993.

ADDRESSES: Committee for Purchase from People who are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202–3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 603–7740.

SUPPLEMENTARY INFORMATION: On March 5, 1993, the Committee for Purchase from People who are Blind or Severely Disabled published notice (58 FR 12580) of the proposed addition to the Procurement List.

During the development phase of this addition to the Procurement List, the Committee received comments from the current contractor for this service. The contractor indicated that addition to the Procurement List of this service and another janitorial service which the same contractor was performing for the Government would severely impact its sales and cause a hardship for the contractor.

To lessen the impact of its action on the contractor, the Committee has discontinued processing the proposed addition of the other service to the Procurement List.

After consideration of the material presented to it concerning the capability of a qualified nonprofit agency to provide the service, fair market price, and the impact of the addition on the current or most recent contractor, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.6.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service to the Government.

2. The action will not have a severe economic impact on current contractors for the service.

3. The action will result in authorizing small entities to furnish the service to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the service proposed for addition to the Procurement List.

Accordingly, the following service is hereby added to the Procurement List:

Janitorial/Custodial, Federal Complex, 1500 E. Bannister Road and 9240 Troost, Kansas City, Missouri.

This action does not affect contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

[FR Doc. 93–10205 Filed 4–29–93; 8:45 am]

BILLING CODE 6820–33–P

Procurement List Proposed Additions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed Additions to Procurement List.

SUMMARY: The Committee has received proposals to add to the Procurement List commodities and services to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

COMMENTS MUST BE RECEIVED ON OR BEFORE: June 1, 1993.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202–3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 603–7740.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government (except as otherwise indicated) will be required to procure the commodities and services listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities and services to the Government.

2. The action does not appear to have a severe adverse impact on the current contractors for the commodities and services.

3. The action will result in authorizing small entities to furnish the commodities and services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the commodities and services proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

It is proposed to add the following commodities and services to the Procurement List for production by the nonprofit agency listed:

Commodities

Side Rack, Vehicle
2510–00–571–6968
Nonprofit Agency: Northwest Alabama Easter Seal Children's Clinic-Rehabilitation Center, Muscle Shoals, Alabama

Gasket and Preformed Packing Set
5330–00–884–4807
Nonprofit Agency: Charleston Vocational Rehabilitation Center, Charleston Heights, South Carolina

Carrier Wheel Assembly
5340–01–000–8752
Nonprofit Agency: Beaufort Vocational Rehabilitation Center, Beaufort, South Carolina

Pad, Executive Message Recording
7510–01–357–6829
7510–01–357–6830
Nonprofit Agency: Arkansas Lighthouse for the Blind, Little Rock, Arkansas

Pad, Comfort, Helmet, Ground Troops and Parachutists
8470–01–364–7074
Nonprofit Agency: South Texas Lighthouse for the Blind, Corpus Christi, Texas

Services

Grounds Maintenance, Bureau of Reclamation, New Melones Lake Visitors Center, 6850 Studhorse Flat Road, Sonora, California
Nonprofit Agency: Tuolumne/Calaveras Association for Handicapped, Inc., Standard, California

Janitorial/Custodial, Fort Ritchie, Maryland
Nonprofit Agency: Hagerstown Goodwill Industries, Inc. Hagerstown, Maryland

Repair of Shoe Lasts, Defense Personnel Support Center, Philadelphia, Pennsylvania
(50% of the Government requirement)
Nonprofit Agency: Cleveland Skilled Industries, Cleveland, Ohio at its facility in Elyria, Ohio

Beverly L. Milkman,

Executive Director.

BILLING CODE 6820–33–P

COMMISSION ON IMPROVING THE EFFECTIVENESS OF THE UNITED NATIONS

Hearing

AGENCY: United States Commission on Improving the Effectiveness of the United Nations.

ACTION: Notice of public hearing.

SUMMARY: In accordance with section 10(a)(2) of the Federal Advisory Committee Act, Public Law No. 92–463, as amended [5 U.S.C. app. II, (1982)], the U.S. Commission on Improving the Effectiveness of the United Nations gives notice of a public hearing. The purpose of this hearing is to obtain information on the subject of United Nations reform and U.S. policy toward the United Nations, and to conduct other Commission business. The hearing will be open to the public.

DATES: Friday, May 14, 1993, 9:30 a.m. to 5 p.m.

ADDRESSES: The hearing will be held at the Council on Foreign Relations, 58 E. 68th Street, New York, NY.

FOR FURTHER INFORMATION CONTACT: Kathleen O'Leary, Administrative Officer, 1825 Connecticut Avenue, Suite 1011, Washington, DC 20009; telephone: (202) 673–5012; telefax: (202) 673–5007.

SUPPLEMENTARY INFORMATION: Space and facilities for accommodeting the public are limited. Persons interested in attending the hearing are asked to call the U.S. Commission on Improving the Effectiveness of the United Nations by May 12 to reserve a space. Any member of the public may file a written testimony with Kathleen O'Leary, Administrative Officer, at the hearing.

The U.S. Commission on Improving the Effectiveness of the United Nations was established by Public Law 100–204, 101 Stat. 1934 (22 USC 287 note). The Commission is charged with preparing and submitting to the President and Congress a report containing a detailed statement of its findings, conclusions and recommendations regarding reform of the United Nations system and the role of the United States in the United Nations system. The Commission is bipartisan and is privately funded.

Dated: April 28, 1993.

Gregory Wierzynski,

Executive Director.

Appendix A—Settlement Agreement and Order

In the Matter of Newco Inc., a corporation. CPSC Docket No. 93–C0007.

1. This Settlement Agreement and Order, entered into between Newco Inc., a corporation (hereinafter, "Newco"), and the staff of the Consumer Product Safety Commission (hereinafter, "staff"), is a compromise resolution of the matter described herein, without a hearing or determination of issues of law and fact.

I. The Parties

2. Newco is a corporation organized and existing under the laws of the State of Wisconsin with its principal corporate offices located in Janesville, Wisconsin.

3. The "Staff" is the staff of the Consumer Product Safety Commission (hereinafter, "Commission"), an independent federal regulatory agency established by Congress pursuant to section 4 of the Consumer Product Safety Act (hereinafter, "CPSA"), 15 U.S.C. 2053.

II. Jurisdiction

4. Newco manufactured certain Swing-N-Slide belted swing seats with "V" brackets, identified further in paragraphs 6 and 7 below (hereinafter, "swing seats"), (a) for sale to a consumer for use in or around a permanent or temporary household or residence, or (b) for the personal use, consumption or enjoyment of a consumer in or around a permanent or temporary household or residence. These swing seats are "consumer products" within the meaning of section 3(a)(1) of the CPSA, 15 U.S.C. 2052(a)(1).

5. Newco manufactured and sold these swing seats at major home supply and building material centers throughout the United States. Newco, therefore, is a "manufacturer" of a "consumer product" which is "distributed in commerce," as those terms are defined in sections 3(a)(1), (4) and (11) of the CPSA, 15 U.S.C. §§ 2052(a)(1), (4) and (11).

III. The Product

6. Newco manufactured approximately 500,000 swing seats between 1986 and 1992.

7. The swing seats were sold separately and also with the Scout and the Pioneer models of Newco swing set kits.

IV. Staff Allegations Concerning the Swing Seats and of a Failure by NEWCO to Comply With the Reporting Requirements of Section 15(b) of the CPSA

8. The swing seats are defective in that the "V" shaped bracket which connects the swing seat to the swing chain is difficult for a consumer to close completely. Failure to completely close the "V" bracket during installation may and has resulted in serious lacerations to children.

9. On June 20, 1990, Newco received its first report of a "V" bracket incident concerning an eight year old girl who was injured when the subject bracket became imbedded two inches inside her leg.

10. Newco learned of another "V" bracket occurrence on July 2, 1990, in which a young boy was injured and required 26 stitches when he caught his leg in an uncrimped bracket.

11. Newco received notice of two additional "V" bracket injuries on July 16 and July 27, 1990.

12. On September 10, 1990, and in December, 1990, Newco became aware of a fifth and sixth "V" bracket incident. These occurrences involved a young boy who required eight stitches to close a laceration in his scrotum, and another young male who necessitated emergency room surgery to remove a "V" bracket from his testicles.

13. On February 12, 1991, Newco began production of a newly designed "V" bracket. The new bracket was designed to prevent hook-end lacerations even if the bracket is not completely closed. The general public was neither notified of the redesign, nor the reason for this action.

14. Newco learned of a seventh "V" bracket incident on June 6, 1991.

15. Newco had received sufficient information by September 10, 1990, to reasonably support the conclusion that the swing seats described in paragraphs 6 and 7 above, contained a defect which could create a substantial product hazard, or created an unreasonable risk of serious injury or death. Nonetheless, the company failed to report such information to the Commission as required by section 15(b) of the CPSA, 15 U.S.C. 2064(b). Section 15(b) requires a manufacturer of consumer products who obtains information that reasonably supports the conclusion that its product contains a defect which could create a substantial product hazard, or creates an unreasonable risk of serious injury or death, to immediately inform the Commission of the defect, or of such risk.

V. Response of NEWCO

16. NEWCO denies that its swing seats contain a defect which creates or which could create a substantial product hazard within the meaning of section 15(a) of the CPSA, 15 U.S.C. 2064(a), or creates an unreasonable risk of serious injury or death, and further denies an obligation to report information to the Commission under section 15(b) of the CPSA, 15 U.S.C. 2064(b), with respect to these swing seats.

VI. Agreement of the Parties

17. Newco and the staff agree that the Commission has jurisdiction in this matter for purposes of entry and enforcement of this Settlement Agreement and Order.

18. Newco agrees to pay the Commission a civil penalty in the amount of one hundred fifteen thousand dollars ($115,000), payable within twenty (20) days after service of the Final Order of the Commission accepting this Settlement Agreement. This payment is made in settlement of allegations by the staff that Newco violated the reporting requirements of section 15(b) of the CPSA, 15 U.S.C. 2064(b), with regard to the swing seats manufactured and sold by Newco.

19. For purposes of section 6(b) of the CPSA, 15 U.S.C. 2055(b), this matter shall be treated as if a complaint had issued.

20. Upon provisional acceptance of this Settlement Agreement and Order by the Commission, this Settlement Agreement and Order shall be placed on the public record and shall be published in the **Federal Register** in accordance with the procedure set forth in 16 CFR 1118.20(e). If the Commission does not receive any written request not to accept the Settlement Agreement and Order within 15 days, the Settlement Agreement and Order will be deemed finally accepted on the 16th day after the date it is published in the **Federal Register**, in accordance with 16 CFR 1118.20(f).

21. Upon final acceptance of this Settlement Agreement and Order by the Commission, Newco knowingly, voluntarily and completely waives any rights it may have (1) to an administrative or judicial hearing with respect to the Commission's claim for a civil penalty, (2) to judicial review or other challenge or contest of the validity of the Commission's action with regard to its claim for a civil penalty, (3) to a determination by the Commission as to whether a violation of Section 15(b) of the CPSA, 15 U.S.C. 2064(b), has occurred, and (4) to a statement of findings of fact and conclusions of law with regard to the Commission's claim for a civil penalty.

22. Newco agrees to inform the Commission if it learns of any additional swing seat incidents or any other relevant information affecting the safety of these swing seats.

23. The parties further agree that the incorporated Order be issued under the CPSA, 15 U.S.C. 2051 *et seq.*, and that a violation of the Order will subject Newco to appropriate legal action.

24. No agreement, understanding, representation, or interpretation not contained in this Settlement Agreement and Order may be used to vary or to contradict its terms.

Newco Inc.

Dated: January 14, 1993.

Tom Baer,

President, Newco Inc.

THE CONSUMER PRODUCT SAFETY COMMISSION

David Schmeltzer,

Associate Executive Director, Office of Compliance and Enforcement.

Eric L. Stone,

Acting Director, Division of Administrative Litigation, Office of Compliance and Enforcement.

Dated: January 18, 1993.

Ronald G. Yelenik,

Trial Attorney, Division of Administrative Litigation, Office of Compliance and Enforcement.

Order

In the Matter of Newco Inc., a corporation. CPSC Docket No. 93–C0007.

Upon consideration of the Settlement entered into between respondent Newco Inc., a corporation, and the staff of the Consumer Product Safety Commission; and the Commission having jurisdiction over the subject matter and Newco Inc.; and it appearing the Settlement Agreement is in the public interest, it is

Ordered, that the Settlement Agreement be and hereby is accepted, as indicated below; and it is

Further ordered, That upon final acceptance of the Settlement Agreement, Newco Inc. shall pay to the order of the Consumer Product Safety Commission a civil penalty in the amount of one hundred fifteen thousand dollars ($115,000), within twenty (20) days after receipt of the Final Order and Decision in this matter.

Provisionally accepted and Provisional Order issued on the 26th day of April, 1993.

By Order of the Commission.

Sheldon D. Butts,

Acting Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–M

DEPARTMENT OF DEFENSE

Office of the Secretary

DoD Government-Industry Technical Data Committee

AGENCY: Office of the Under Secretary of Defense (Acquisition).

ACTION: Notice.

SUMMARY: Pursuant to section 807 of Public Law 102–120, the National Defense Authorization Act for Fiscal Years 1992 and 1993, a Government-Industry Technical Data Committee has been formed. The committee will make recommendations to the Secretary of Defense for the final regulations required by subsection (a) of 10 U.S.C. 2320, "Rights in Technical Data."

The next committee meetings are scheduled for May 19 and 20, 1993, from 9:30 a.m. to 4 p.m. at 400 Army-Navy Drive, suite 120, Arlington, Virginia. These meetings will be open to the public. For more information, please contact the Committee Executive Secretary, Angelena Moy at (703) 693–5639.

Dated: April 27, 1993.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 93–10159 Filed 4–29–93; 8:45 am]

BILLING CODE 5000–04–M

Scientific Advisory Group on Effects (SAGE) Meeting

SUMMARY: The Scientific Advisory Group on Effects announces a closed session meeting.

DATES: The meeting will be held at 0830, Monday thru Wednesday, 24–26 May 1993.

ADDRESSES: Tyndall Air Force Base, Panama City, Florida 32403.

FOR FURTHER INFORMATION CONTACT: Ms. Elizabeth Marcellino, Defense Nuclear Agency, 6801 Telegraph Road, Alexandria, VA 22310 (telephone (703) 325–2813).

SUPPLEMENTARY INFORMATION: The mission of the SAGE is to provide the Director, Defense Nuclear Agency with technical advice on matters related to nuclear weapons effects. The group reviews and evaluates long-range plans for the development and improvement of nuclear weapons effects data and the adequacy of current DNA RDT&E programs.

In accordance with 5 U.S.C. app 2 section 10(d) (Supp. 1993), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1977) and that, accordingly, this meeting will be closed to the public.

Dated: April 27, 1993.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 93–10160 Filed 4–29–93; 8:45 am]

BILLING CODE 5000–04–M

DEPARTMENT OF EDUCATION

Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Information Resources Management Service, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1980.

DATES: Interested persons are invited to submit comments on or before June 1, 1993.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Dan Chenok: Desk Officer, Department of Education, Office of Management and Budget, 726 Jackson Place, NW., room 3208, New Executive Office Building, Washington, DC 20503. Requests for copies of the proposed information collection requests should be addressed to Cary Green, Department of Education, 400 Maryland Avenue, SW., room 5624, Regional Office Building 3, Washington, DC 20202–4651.

FOR FURTHER INFORMATION CONTACT: Cary Green, (202) 708–5174. Individuals who are hearing impaired may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC, 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early

VOL 58 ISS 82 AP 30 1993 UMI

opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director of the Information Resources Management Service, publishes this notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Frequency of collection; (4) The affected public; (5) Reporting burden; and/or (6) Recordkeeping burden; and (7) Abstract. OMB invites public comment at the address specified above. Copies of the requests are available from Cary Green at the address specified above.

Dated: April 26, 1993.

Cary Green,

Director, Information Resources Management Service.

Office of Vocational and Adult Education

Type of Review: New
Title: Applications for Noncompeting Continuation Grants for the Cooperative Demonstration Program (Corrections) and the Adult Education for the Homeless Program
Frequency: Annually
Affected Public: State or local governments; Small businesses or organizations
Reporting Burden:
Responses: 39
Burden Hours: 1,755
Recordkeeping Burden:
Recordkeepers: 0
Burden Hours: 0
Abstract: The Cooperative Demonstration Program (Correctional Education) provides improved access to quality vocational education programs for incarcerated individuals. Adult Education for the Homeless provides literacy training for adult homeless individuals. Data is used to make awards for non-competing continuation grants.

Office of Postsecondary Education

Type of Review: Emergency
Title: Federal Pell Grant Program—Information Collection—State Report on Postsecondary Education Assistance Provided to Incarcerated Students
Abstract: Federal Grants, Federal Student Financial Aid Programs section 401(b)(8) of the Higher Education Act of 1965, as amended requires that incarcerated students shall only be awarded a Federal Pell Grant in a state if the grants are used to supplement and not supplant the level of postsecondary education assistance provided by that state to incarcerated individuals in fiscal year 1988. The Annual State Report on Postsecondary Education Assistance Provided to Incarcerated Students will be used to collect this information.
Additional Information: In order to implement the statutory change to the Federal Pell Grant Program, it is necessary to receive emergency approval from the Office of Management and Budget by April 30, 1993.
Frequency: Annually
Affected Public: Individuals or households; State or local governments; Businesses or other for-profit; and Non-profit institutions
Reporting Burden:
Responses: 57
Burden Hours: 2,280
Recordkeeping Burden:
Recordkeepers: 57
Burden Hours: 57

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Office of Arms Control and Nonproliferation Policy; Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation between the Government of the United States of America and the Government of the Republic of Korea Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried our under the above-mentioned agreement involves a joint determination that safeguards may be effectively applied to the Post-Irradiation Examination Facility of the Korea Advanced Energy Research Institute and the approval of the United States to the alteration in form or content of irradiated fuel elements from the KORI–1, 2, 3 and 4, the Yonggwang 1 and 2, and the Ulchin 1 and 2 reactors. The aforementioned determination will be made, and the approval of the United States for the post-irradiation examination of irradiated fuel elements from the above-mentioned reactors granted following publication of this notice, for the period ending December 31, 1996.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it had been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Issued in Washington, DC on April 26, 1993.

Edward T. Fei,

Acting Director, Office of Nonproliferation Policy.

[FR Doc. 93–10218 Filed 4–29–93; 8:45 am]
BILLING CODE 6450–01–M

Office of Arms Control and Nonproliferation Policy; Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation between the Government of the United States of America and the European Atomic Energy Community (EURATOM) concerning Peaceful Uses of Atomic Energy, as amended, and the Agreement for Cooperation between the Government of the United States of America and the Government of Finland concerning Civil Uses of Atomic Energy.

The subsequent arrangement to be carried out under the above-mentioned agreements involves approval for the following retransfer: RTD/FI(EU)–2 for the transfer from Belgium to Finland of 11 milligrams of uranium–233, 1.05 milligrams of plutonium–242, and 10.07 milligrams of plutonium–244 for use as standard reference material for mass spectrometer measurements.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Issued in Washington, DC on April 26, 1993.

Edward T. Fei,

Acting Director, Office of Nonproliferation Policy.

[FR Doc. 93–10219 Filed 4–29–93; 8:45 am]
BILLING CODE 6450–01–M

San Francisco Operations Office; Inviting Applications for Collaborative Research and Development Projects To Advance High Performance Parallel Processor Computing

AGENCY: Department of Energy (DOE).

ACTION: Notice inviting applications.

SUMMARY: The San Francisco Operations Office, U. S. Department of Energy, hereby announces its interest in receiving Applications for projects that will advance the technology for High Performance Parallel Processor (HPPP) computers. These computers harness the power of multiple processors operating in parallel and include but are not limited to, scalable and/or massively parallel systems. Total combined DOE funding for these projects is expected to range from approximately $25 million to $30 million, to be obligated over a period of up to three years. Cost sharing among proposed project participants is expected.

DATES: In order to receive the application forms required and to keep interested parties advised concerning this solicitation, a Notice of Intent to Submit Applications (Att. 1) from potential applicants mailed to the address shown on the form is requested by May 12, 1993. A pre-Application conference will be held on May 26, 1993 at the Oakland Convention Center, room 201, Broadway at 10th Street, Oakland, CA 94607. The purpose of the conference will be to expand upon and clarify information included in this solicitation. Written questions are requested by May 17, 1993 so that answers may be prepared and delivered at the pre-Application conference. Minutes of the conference along with any amendments to this notice will be provided by mail to parties which have apprised DOE of interest. Applications must be received on or before 3 p.m. on July 16, 1993.

ADDRESSES: Mail the original and five copies of the Application which must be received on or before 3 p.m., July 16, 1993, to: U.S. Department of Energy, San Francisco Operations Office, Oakland Federal Building, 1301 Clay Street, 7th floor, room 700N, Oakland, CA 94612–5208. Reference: Solicitation No. DE–SA03–93DP00030.

FOR FURTHER INFORMATION CONTACT: The Department of Energy, San Francisco Operations Office, 1301 Clay Street, Oakland, CA 94612–5208, Jean Macrusky, Contracting Officer, Telephone: (510) 637–1894.

SUPPLEMENTARY INFORMATION: Today's notice is Inviting Applications for Collaborative Research and Development Projects to Advance High Performance Parallel Processor Computing (These projects will be funded by Financial Assistance (governed by 10 CFR part 600) and/or Cooperative Research and Development Agreements (governed by the Stevenson-Wydler Technology Innovation Act of 1980 (as amended).)

CFDA No.: 81.511

Note to Applicants

This notice contains information and instructions needed to apply for a cooperative agreement under this competition. This Application package includes the important dates, estimated funding, and the Notice of Intent (Att. 1) form necessary to receive the application form to apply for an award(s) under this program. The estimates of the funding level in this notice do not bind the DOE to make awards in any of the categories, or to any specific number of awards or funding level.

Applicable Regulations—10 CFR part 600—Financial Assistance Rules, subparts A, C, and E, modified as applicable.

Many segments of U.S. industry are facing strong competition from foreign companies in both the domestic and world markets. These industrial segments range from manufacturing to service industries. One means of increasing the U.S. industrial competitiveness is to develop high performance computers and applications to decrease design and production costs and to provide enhanced services. High performance computers also offer the potential to allow U.S. industry to become more responsive to environmental concerns. High performance computer simulation models will allow industry to understand and minimize adverse environmental impacts of design decisions.

DOE and many industry observers recognize that high performance computing is entering a critical stage. Supercomputer designers are facing increased challenges in developing systems with significantly greater performance. Many computer vendors are turning to HPPP computers as a means to achieve increased performance. HPPP computer designers and manufacturers face significant challenges in the areas of hardware, operating systems and compilers. In most cases, the HPPP systems also require the development of applications software designed for these types of computers. As part of its technology transfer mission, DOE is interested in Applications that will serve to address the issues of HPPP computer development and will enhance U.S. competitiveness by developing applications for these types of computers.

DOE recognizes that a range of potential users exists. These include the high-end users working on grand-challenge-scale applications (e.g. vector supercomputer users) to middle range users (e.g. main-frame users) to lower-end users (e.g. workstations). DOE is interested in soliciting Applications to address any or all parts of the range of potential beneficiaries of HPPP computing. The technologies that may address these problems include, but are not limited to, massively parallel systems, multi-processor systems and workstation distributed processing.

In order to illustrate the range of potential users, DOE has identified two examples of objectives that Applications may address. These objectives are intended as examples of issues facing U.S. industry. Potential Applicants are encouraged to suggest alternative objectives and are invited to address one or both of the example objectives. If appropriate, Applicants may either submit one or several Applications to address multiple objectives.

Example Objective A (High-end users): To evolve rapidly the base of U.S. industrial and defense supercomputing to exploit the technical promise of HPPP computing in pursuing grand-challenge-scale applications (these applications may span computational science from atmospheric chemistry, to molecular dynamics, to structural mechanics to plasma etching.)

Example Objective B (Middle to lower-end users): To exploit the technical promise of HPPP computing to develop software environment and applications in a timely and cost effective manner benefiting a broad range of U.S. industries, including those that have not traditionally used high-end supercomputers.

This solicitation will be substantially funded by the Department of Energy's Defense Program (DP) technology transfer activities. Accordingly, the dual use potential of the technology will be a consideration. Dual use is considered to be the ability of the technology transfer activities to support both industrial and DOE weapons laboratories advanced technologies needs. In many cases, the development

VOL 58 ISS 82 AP 30 1993 UMI

of new software environments, enhanced applications or the opportunity for DOE laboratory scientists to maintain competency meets the DOE requirements for dual use. Because of the dual use aspect of this solicitation, applicants are required to form a teaming relationship with one or more of the DP National Laboratories listed below. Contacts at the DP National Laboratories are as follows:

Lawrence Livermore	Eugene Brooks	(510) 423–7341
Los Alamos	Charles Slocumb.	(505) 667–6164
Martin Marrietta Energy System (Y–12)	Ed Oliver	(615) 576–4666
Sandia	Sudip Dosanjh	(505) 845–7018

DOE anticipates the potential of awarding Financial Assistance Cooperative Agreements. This funding mechanism requires substantial involvement of DOE in the project to be funded. Teaming with DP National Laboratories will generally meet this requirement. Applicants may also team with other HPPP suppliers, other DOE National Laboratories, or other federal laboratories.

Potential Applicants are also encouraged, but are not required, to form teaming relationships with industrial users. A major goal of this project is to move HPPP computing out of research and development and into practical Applications to enhance U.S. competitiveness. One means of doing this is to work on HPPP software environments that directly support solutions to the problems of U.S. industry and the Department of Energy Defense Program National Laboratories.

DOE is soliciting Applications that will have a significant impact on both developers and users of HPPP computers. While the measures of success for research and development projects are difficult to establish, certain measures are necessary to allow proper evaluation of Applications. Applications submitted in response to this solicitation should include suggested measures of success and a description of the Application's potential to advance these measures of success. The suggested measures of success should also be measurable during the life of the project. Examples of these measures of success may include:

Example Measure A: The increase in the number and speed of applications running on a HPPP system during and at the end of the project.

Example Measure B: The performance increase of the HPPP systems (as measured by standard benchmarks) during and at the end of the project.

Example Measure C: The market effect of the project (i.e. the number of products or services introduced or enhanced as a result of HPPP computing as supported by the project.)

Further information on the format of Applications, funding arrangements and evaluation criteria are found in the following sections of this Notice.

(a) Eligible Applicants

The purpose of this solicitation is to generate Applications for projects that will provide important benefits to computer vendors and industrial users and that will ultimately enhance U.S. industrial competitiveness. For this reason, the following limits will be placed on Applications submitted under this solicitation.

Location of Projects

Applicants must identify the proposed principle location of the projects which must be within the 50 States of the United States. Information provided must include the state, county, and municipality (if applicable) in which the project will be located.

U.S. Economic Benefit

Applicants must show that the results of projects funded by the Department of Energy will have significant U.S. economic benefit. One means of doing this is to show that substantial manufacturing of the technology will take place in the United States.

Export Restriction

Applicants must understand that materials resulting from the performance of projects resulting from this solicitation may be subject to export control laws and any other similar restrictions and the Applicant will be responsible for compliance with such laws.

(b) Evaluation Process

(1) General

Applications will be evaluated by an Application Evaluation Board (AEB) which will follow the procedures of the Source Evaluation Board (SEB) Handbook, modified to meet the requirements of this Solicitation Announcement, and applicable DOE Financial Assistance policies and procedures.

The following evaluation criteria will be used to evaluate Applications. DOE may fund one or more or none of the projects proposed in response to this solicitation. These criteria have been established so that Applicants are able to identify the relevant issues in moving U.S. industry to HPPP computing and then propose work to address those issues.

(2) Evaluation Criteria

Criterion 1
Adequacy and relevance of the objectives chosen to enhance U.S. industrial competitiveness by advancing HPPP technology and providing applications software. Weight: 10%

Criterion 2
Adequacy and relevance of the technical issues identified in the Application and the ability of the proposed scope of work to address those issues. This includes the overall technical feasibility of the proposed project to further the state of the art in HPPP computing. Weight: 15%

Criterion 3
Significance of the HPPP applications issues identified in the Application and the feasibility of the Applicant's approach to address those issues. Weight: 15%

Criterion 4
Adequacy and relevance of the chosen measures of success and the ability of the Application to achieve significant gains in the chosen measures of success in a timely fashion. Weight: 10%

Criterion 5
The dual use benefit to DOE Defense Programs of the technology to be developed. Weight: 15%

Criterion 6
The capabilities, related experience, facilities, or techniques which are considered to be integral factors for achieving the objectives of the project. This includes the qualifications, capabilities, experience and availability of the proposed key personnal. Weight: 20%

Criterion 7
The realism of the proposed budget and project and financial plans for management of the activities. This includes the adequacy of proposed arrangements among all participants, and the ability of the applicant to provide the necessary financial support. Weight: 15%

(3) Program Policy Factors and Evaluation

Program policy factors are those factors which, while not appropriate indicators of a project's individual merit (e.g., technical excellence, Applicant's ability, cost, etc.) are relevant and essential to the process of choosing which of the Applications received will, taken together, best achieve the DOE program objectives.

After the Applications have been evaluated and ranked, the DOE Source Selection Official (SSO) will select, for negotiation leading to award, all or any part of those Applications which provide the maximum opportunity of advancing program objectives within the funds available. In making this selection, the SSO will consider the following Program Policy Factors:

1. Projects that affect the broadest range of potential HPPP users.

2. The ability to leverage DOE assistance funds to create optimum economic impact.

(4) Funding and Duration

The Department of Energy anticipates total combined funding for projects ranging from approximately $25 million to $30 million obligated over a three year period. Funding mechanisms for these projects can take several forms. These include:

1. Financial Assistance Cooperative Agreements—This mechanism allows DOE to provide funds directly to project participants. Cost sharing among participants will be expected. A Cooperative Agreement may also include the contribution of resources by the National Laboratories (financed by DOE) to the project.

2. Cooperative Research and Development Agreements (CRADA's)—This mechanism is executed between DOE National Laboratories and industry. The DOE funds cannot be provided directly to industry, but the contribution of laboratory resources (financed by DOE) is allowed. In general, 50% cost sharing is required and funds provided by industry to the laboratory are allowed.

3. Other Mechanisms—These include Work for Others, where industry provides funding to DOE National Laboratories for work to be performed.

DOE will consider Applications structured on any one or a combination of the above funding mechanisms. Applicants should discuss funding mechanisms alternatives with their National Laboratory teaming partners. The following are requirements for the funding structure of the Applications.

1. DOE will provide funds for Financial Assistance Cooperative Agreement, and/or CRADA's, and/or other mechanisms equal to one half or less of the total project funding.

2. The remaining funding for the project will come from the HPPP supplier(s) and industrial users (if any). (The HPPP supplier(s) will be expected to provide a greater amount of funding than the industrial users.)

3. Funds provided directed by DOE to any project participant cannot be used as the matching in-kind contribution by the participant.

(Note: Mechanisms 2 and 3 listed here are not financial assistance mechanisms and are not governed by 10 CFR part 600 (Financial Assistance Rules))

For purposes of this solicitation, the terms in-kind contribution, cost sharing, and cost participation are interchangeable. Cost participation may be in various forms or combinations which include but are not limited to cash outlays, use of facilities needed for the project, personal property or services, cost matching, foregone fee or other in-kind participation.

Instructions for Submission of Applications

(a) Applicant shall—

(1) Mail the original and five copies of the Application which must be received on or before 3 p.m. July 16, 1993, to: Mailed To: U.S. Department of Energy, San Francisco Operations Office, Oakland Federal Building, 1301 Clay Street, 7th floor, Room 700N, Oakland, CA 94612–5208. Reference: Solicitation No. DE-SA03–93DP400010.

Notice to DOE Mail Room: Do Not Open; This is an Application Under the above identified Solicitation.

(2) Hand-carried Applications should be delivered directly to Mail and Records, Oakland Federal Building, 1301 Clay Street, 7th floor, Room 700N, Oakland, CA and shall be marked as shown above.

(b) Any Application received at the office designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made and it—

(1) Was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of bids (e.g. an Application submitted in response to a solicitation requiring receipt of Applications by the 20th of the month must have been mailed by the 15th); or

(2) Was sent by mail or, if authorized by the solicitation, was sent by telegram or via facsimile, and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation; or

(3) Was sent by U.S. Postal Service Express Mail Next Day Service—Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of Applications. The term "working days" excludes weekends and U.S. Federal holidays.

(4) Is the only Application received.

(c) Any amendment or withdrawal of an Application is subject to the same conditions as in paragraph (a) of this provision.

(d) The only acceptable evidence to establish the date of mailing of a late Application, modification, or withdrawal sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S. or Canadian Postal Service. Both postmarks must show a legible date or the Application, modification, or withdrawal shall be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise place impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, Applicants should request the postal clerk to place a legible hand cancellation bull's-eye postmark on both the receipt and the envelope or wrapper.

(e) The only acceptable evidence to establish the time of receipt at the government installation is the time/date stamp of that installation on the bid wrapper or other documentary evidence of receipt maintained by the installation.

(f) DOE shall not consider and shall return any Application that does not meet the requirements of the preceding paragraphs.

VOL 58 ISS 82 AP 30 1993 UMI

(g) If necessary, DOE may extend an established Application deadline by publishing a timely notice of the extension in the same manner as the solicitation was publicized. The extension of time shall apply to all Applicants.

Application Forms and Instructions

The appendix to this Application is divided into three parts. These parts are organized in the same manner that the submitted Application should be organized. These parts are as follows:

Part I: Application for Federal Assistance Standard Form 424 (Rev. 4–88) and instructions.

Part II: A budget with supporting justification. (Use budget formats duplicated in the DOE Uniform Reporting System for Federal Assistance.) This solicitation is subject to the Source Evaluation Process. Due to the potential dollar value involved, DOE may require that Applicants, other than governmental entities, submit budget information in a different format and in enough detail to enable evaluation under the SEB process.

Part III: Application Narrative (Proposed scope of work).

Before preparing the Application Narrative, the Applicant should carefully read the description of the program, the information regarding the priorities, and the evaluation criteria to be used to evaluate Applications.

The narrative should encompass each function or activity for which funds are being requested and should—

1. Begin with an Abstract; that is, a summary of the proposed project;

2. Describe the proposed project in light of each of the evaluation criteria in the order in which the criteria are listed in this Application notice. The following is a sample outline.

- Objective(s) addressed by the Application
- Technology to be developed/enhanced by the Application

—Existing technical issues
—Proposed work on those issues
—Potential effect on stated objectives
- Software applications to be developed/enhanced

—Existing issues
—Proposed work on those issues
—Potential effect on stated objectives
- Measures of Success

—Suggested measures of success (quantify if possible)
—How the Application will perform against suggested measures of success (quantify if possible)
- Capabilities, key personnel, facilities, and/or techniques
- Teaming arrangement(s) (if any)

—National Laboratories
—U.S. Industrial users
—Potential effect on stated objectives
- Financial Plan
- Management Plan; and

3. Include any other pertinent information that might assist the Selection Official in reviewing the Application.

4. Be limited to no more that 100 double spaced, typed pages (on one side only).

5. Include a curriculum vitae of key personnel, and a budget, as well as the Assurances forms included in this package.

Additional Materials

Assurances

Certification Regarding Lobbying; Debarment, Suspension, Assurance of Compliance and Other Responsibility Matters; and Drug-Free Workplace Requirements

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion; Lower-Tier Covered Transactions

Disclosure of Lobbying Activities (Standard Form LLL) (if applicable) and instructions; and Disclosure of Lobbying Activities Continuation Sheet (Standard Form LLL-A)

An Applicant may submit information on a photostatic copy of the Application and budget forms, the assurances, and the certifications. However, the Application form, the assurances, and the certifications must each have an original signature. No Cooperative Agreement may be awarded unless a completed Application form has been received.

Authority: Stevenson-Wydler Technology Innovation Act of 1980 (as amended) (15 U.S.C. 3710 (a)); Section 3132 (b) of Public Law 101–189; Chapter 18 of title 35, U.S.C., commonly referred to as the Bayh-Dole Act (35 U.S.C. 200 et seq.); Section 152 of the Atomic Energy Act of 1954 (as amended) (42 U.S.C. 200 et seq.); Section 9 of the Federal Non-nuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908; Executive Order 12591 of April 10, 1987, Public Law 102–486, the Energy Policy Act of 1992, Public Law 95–91 the Department of Energy Organization Act and the Federal Grant and Cooperative Agreement Act of 1977.

Appendix

Application Forms and Instructions

Applicants are advised to submit the attached notice of intent to receive the application forms referenced in this section.

Issued in Oakland, CA April 22, 1993.

Joan Macrusky, Chief

ER/DP/EM Branch.

Federal Energy Regulatory Commission

[Project No. 6349-004 California]

Golden West Power; Surrender of Exemption

April 26, 1993.

Take notice that Golden West Power, exemptee for the unconstructed Mill Creek Power Project No. 6349 located on Mill Creek in Tehama County, California, has requested that its exemption from licensing be vacated. The exemption was issued on April 11, 1984. The exemptee states that restrictions imposed by the U.S. Fish and Wildlife Service and the California Department of Fish and Game are too prohibitive to allow economical construction and profitable operation of the project.

The exemption for Project No. 6349 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday or holiday as described in 18 CFR 385.007, in which case the exemption shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR part 4, may be filed on the next business day.

Lois D. Cashell,

Secretary.

[FR Doc. 93-10128 Filed 4-29-93; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. ER93-554-000, et al.]

Southern California Edison Co., et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

April 22, 1993.

Take notice that the following filings have been made with the Commission:

1. Southern California Edison Company

[Docket No. ER93-554-000]

Take notice that on April 9, 1993, Southern California Edison Company (Edison) tendered for filing a Notice of Cancellation of FERC Rate Schedule No. 246.10.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

2. Pepperell Power Associates Limited Partnership

[Docket No. ER93-323-000]

Take notice that on April 16, 1993, Pepperell Power Associates Limited Partnership (Pepperell) tendered for filing an amendment to its original filing in the above-referenced docket. The amendment provides a formula cap for the rates chargeable under Rate Schedule FERC No. 1.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

3. Pacific Gas and Electric Company

[Docket No. ER93-569-000]

Take notice that on April 15, 1993, Pacific Gas and Electric Company (PG&E) tendered for filing as a rate schedule change without a rate increase, a request for termination of an Agreement Between Pacific Gas and Electric Company and Western Area Power Administration (Western) for Interim Transmission Service, dated January 2, 1991 (Agreement). The Agreement, Rate Schedule FERC No. 133, was accepted by the Commission for filing on February 1, 1991 in FERC Docket No. ER91-198-000.

The Agreement provides for transmission and other specified services (energy losses, Replacement Energy, and administration service) to be provided to Western during a period when the Central Valley Project Upgrade Segment (CVP Upgrade Segment) of Western's transmission system was to be removed from service for reconstruction and conversion as part of the 500 kV AC California-Oregon Transmission Project (COTP).

Since the reconstruction and conversion of Western's CVP Upgrade Segment line is now completed and Western no longer requires the services provided under the Agreement, PG&E requests Rate Schedule FERC No. 133 be terminated accordingly.

Copies of this filing were served upon Western, Transmission Agency of Northern California, the California Public Utilities Commission, and the California Public Utilities Commission.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

4. Northeast Utilities Service Company

[Docket No. ER93-417-000]

Take notice that on April 19, 1993, Northeast Utilities Service Company (NUSCO), on behalf of Public Service Company of New Hampshire (PSNH), tendered for filing supplemental information regarding the sale to Fitchburg Gas and Electric Company (FG&E) of System Capacity and Energy.

NUSCO states that the supplemental information was filed in response to a request from the Commission.

NUSCO states that copies of this information have been mailed or delivered to each of the parties.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

5. Interstate Power Company

[Docket No. ER93-574-000]

Take notice that on April 19, 1993, Interstate Power Company (IPW) tendered for filing Amendment 1 to the Transmission Utilization Agreement between Cooperative Power Association and Company. This amendment revises the transmission loss factors.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

6. Florida Power Corporation

[Docket No. ER93-443-000]

Take notice that Florida Power Corporation (Florida Power), on April 19, 1993 tendered for filing an Amendment to its March 11, 1993 filing in this docket (1) to clarify that Florida Power does not serve any other customers other than Kissimmee Utility Authority (KUA) through the transmission 69 kV line connecting KUA's airport and Florida Power's Lake Bryan substation, (2) to clarify that the transmission line is the only interconnection that Florida Power has with KUA, and (3) to submit a map of the Florida Power's transmission facilities in and around the Kissimmee area.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this document.

7. Southern California Edison Company

[Docket No. ER93-576-000]

Take notice that on April 20, 1993, Southern California Edison Company (Edison) tendered for filing, as an initial rate schedule, the following agreement, executed on February 19, 1993, by the respective parties:

Winter Power Sale Agreement between Southern California Edison Company (Edison) and PacifiCorp

The Agreement provides the terms and conditions whereby Edison shall make available and PacifiCorp shall purchase a minimum of 222 MW and a maximum of 422 MW of Contract Capacity and Associated Energy during each Delivery Season.

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

8. PacifiCorp

[Docket No. ER93-577-000]

Take notice that on April 20, 1993, PacifiCorp tendered for filing, in accordance with 18 CFR part 35 of the Commission's Rules and Regulations, a Power Purchase Agreement plus amendments between Sunnyside Cogeneration Associates and PacifiCorp.

Copies of this filing have been supplied to Sunnyside Cogeneration Associates, the Public Utility Commission of Oregon and the Utah Public Service Commission.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

9. PSI Energy, Inc.

[Docket No. ER93-351-000]

Take notice that on April 8, 1993, PSI Energy, Inc. (PSI) tendered for filing a supplemental filing in the above-referenced docket. On April 15, 1993, PSI submitted revisions to its April 8, filing in this docket.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

10. Niagara Mohawk Power Corporation

[Docket No. ER93-565-000]

Take notice that on April 14, 1993, Niagara Mohawk Power Corporation (Niagara) tender for filing a Notice of Cancellation of Contract No. 154 with Boston Edison Company.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

11. Niagara Mohawk Power Corporation

[Docket No. ER93-566-000]

Take notice that on April 14, 1993, Niagara Mohawk Power Corporation (Niagara) tendered for filing a Notice of Cancellation of Contract No. 155 with Vermont Public Power Supply Authority.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

12. Niagara Mohawk Power Corporation

[Docket No. ER93-553-000]

Take notice that on April 9, 1993, Niagara Mohawk Power Corporation (Niagara) tendered for filing its Initial Rate Schedule Supplements—Marcy-South Facilities Agreement with the Power Authority of the State of New York.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

13. Consolidated Edison Company of New York, Inc.

[Docket No. ER93-568-000]

Take notice that on April 12, 1993, Consolidated Edison Company of New York, Inc. (Con Edison) tendered for filing an Interconnection Agreement among Con Edison, KIAC Partners and the Port Authority of NY and NJ—Interconnection Between JFK Congeneration Project and Jamaica 138-kV Substation.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

14. The Detroit Edison Company

[Docket No. ER93-91-001]

Take notice that on April 15, 1993, The Detroit Edison Company (Detroit Edison) submitted to the Commission its letter of acceptance of the Commission's March 16, 1993 order along with a revised rate sheet to comply with the modifications imposed by the order. Detroit Edison states that the filing was served on all parties to the proceeding, jurisdictional customers, and the Michigan Public Service Commission.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

15. Cambria CoGen Company

[Docket No. QF87-93-005]

On April 20, 1993, Cambria CoGen Company tendered for filing a supplement to its filing in this docket.

The supplement pertains to the ownership structure and technical aspects of its small power production facility. No determination has been made that the submittal constitutes a complete filing.

Comment date: May 13, 1993, in accordance with Standard Paragraph E at the end of this document.

16. Delmarva Power & Light Company

[Docket No. ER93-564-000]

Take notice that on April 14, 1993, Delmarva Power & Light Company (DPL) tendered for filing as an initial rate under Section 205 of the Federal Power Act and part 35 of the regulations issued thereunder, an Agreement between DPL and Orange and Rockland Utilities, Inc. (O&R) dated March 26, 1993.

DPL states that the Agreement sets forth the terms and conditions for the sale of short-term energy which it expects to have available for sale from time to time and the purchase of which will be economically advantageous to O&R. DPL requests that the Commission waive its standard notice period and allow this Agreement to become effective on May 10, 1993.

DPL states that a copy of this filing has been sent to O&R and will be furnished to the New Jersey Board of Regulatory Commissioners, the New York Public Utility Commission, the Delaware Public Service Commission, the Maryland Public Service Commission, and the Virginia State Corporation Commission.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

17. Public Service Company of New Mexico

[Docket No. ER93-549-000]

Take notice that on April 7, 1993, Public Service Company of New Mexico tendered for filing San Juan Project Agreements Between Tucson Electric Power Company and Public Service Company of New Mexico and Related Agreements.

Comment date: May 7, 1993, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-4625]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

VOL 58 ISS 82 AP 30 1993 UMI

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before June 1, 1993.

For further information, or to obtain a copy of this ICR, contact Sandy Farmer at EPA (202) 260–2740.

SUPPLEMENTARY INFORMATION:

Office of Pesticides and Toxic Substances

Title: TSCA Inspection Related Forms (EPA ICR No.: 0163.05 OMB No.: 2070–0007). This is a request for extension of the expiration date of a currently approved collection.

Abstract: To verify compliance with the Toxic Substances Control Act (TSCA), section 11 authorizes EPA to inspect establishments used to manufacture, process, or store chemicals. Manufacturers, processors and storers of chemicals, are notified of upcoming EPA inspections and are requested to read certain forms which are the subject of this collection request.

In the past, the Agency has used four (4) forms to notify owners of facilities, or their representatives, of the scope of an inspection. Two of the forms, "TSCA Notice of Inspection" and "TSCA Inspection Confidentiality Notice," are not true collections of information and, therefore, are not subject to the Paperwork Reduction Act (PRA). The Agency is removing these two forms from the ICR.

Two forms remain subject to the PRA. The first is "Receipt for Samples and Documents," which is completed by the EPA inspector during, or at the conclusion of, an inspection. This form constitutes the official record of all information belonging to the firm obtained by EPA through an official inspection. It also serves as the official record of data submission for the purpose of making claims of TSCA Confidential Business Information (CBI). The second form is "Declaration of Confidential Business Information". This form serves as the mechanism by which the owner, or representative in charge of a facility, may designate documents and samples taken during an inspection that are entitled to confidential treatment. The form is optional and the company may choose other written mechanisms for making CBI claims. The Agency uses these forms to ensure that inspections are conducted legally.

Burden Statement: The estimated public reporting burden for this collection of information is 45 minutes per response per respondent annually. This estimate includes the time to review instructions, and complete and review the collection of information.

Respondents: Chemical manufacturers, processors, and storers.

Estimated No. of Respondents: 3,900.

Estimated No. of Responses Per Respondent: 2.

Estimated Total Annual Burden on Respondents: 4,992 hours.

Frequency of Collection: On occasion.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM 223Y), 401 M Street, SW., Washington, DC 20460,

and

Matthew Mitchell, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW., Washington, DC 20503.

Dated: April 23, 1993.

Paul Lapsley,

Director, Regulatory Management Division.

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before June 1, 1993.

For further information, or to obtain a copy of this ICR, contact Sandy Farmer at EPA, (202) 260–2740.

SUPPLEMENTARY INFORMATION:

Office of Pesticides and Toxic Substances

Title: Suspended and Cancelled Pesticide Products: Claim for Indemnification (EPA ICR No: 1241.05; OMB No: 2070–0071) This is a request for extension of the expiration date of a currently approved collection.

Abstract: In compliance with section 15 of the Federal Insecticide, Fungicide, Rodenticide Act (FIFRA), the EPA is required to indemnify owners for the value of their suspended and cancelled pesticide products. To accomplish this, sellers (e.g., manufacturers, dealers and distributors) and end users (e.g., farmers, householders) must submit their claim to the EPA. The submission includes owner and product identifiers, documentation of product cost, location and ownership, and, where appropriate, documentation of power of attorney and assignment of claim by original owner. The respondents are required to keep records of their claim(s). Based on this information the Agency determines the eligibility of the owner, or the authority of the respondent, to file the claim as well as the eligibility of the product. In addition, the EPA establishes the amount of indemnification and ensures nonduplication of claims.

Burden Statement: The public burden for this collection of information is estimated to average 2 hours per response for reporting and 30 minutes for recordkeeping annually. This estimate includes the time needed to review instructions, search existing data sources, gather and maintain the data needed, and complete and review the collection of information.

Respondents: Pesticide sellers and users.

Estimated No. of Respondents: 100.

Estimated No. of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 250 hours.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden to:

BILLING CODE 6560–50–M

[ER–FRL–4620–1]

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared April 12, 1993 through April 16, 1993 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 260–5076.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 9, 1993 (58 FR 18392).

Draft EISs

ERP No. D–AFS–K65144–CA Rating EC2, 1992 Cleveland Watershed/Fire Recovery Project, Eldorado National Forest, South Fork American River, Eldorado, Alpine and Amador Counties, CA.

Summary: EPA expressed environmental concerns and requested that the FEIS describe the affected environment in greater detail and evaluate an alternative that harvests less timber on less acreage, to minimize impacts to water quality and other natural resources.

ERP No. D–COE–K35035–CA Rating EO2, San Gabriel Canyon Sediment Management Plan, Dredging and Disposal of Sediments, COE Section 404 Permit, Special Use Permit and Right-of-Entry Issuance, Angeles National Forest, San Gabriel River, Los Angeles, CA.

Summary: EPA expressed environmental objections due to the sediment management plan's potential for significant environmental degradation. EPA was especially concerned with the scope of the alternatives analysis that focuses on sediment removal options without upstream sediment management; the potential significant adverse impacts to riparian habitat, aquatic biota and air quality; insufficient analysis of the potential impacts of the alternatives; and the minimal discussion of mitigation measures. EPA recommended that the plan be corrected by project modification or other feasible alternatives

ERP No. D–UAF–D11021–PA Rating LO, Institute for Advanced Science and Technology (IAST) Site Selection and Construction, Funding, University of Pennsylvania, Philadelphia, PA.

Summary: EPA expressed a lack of objections to the project. However, EPA suggested that the FEIS include traffic data on existing and proposed levels of service.

Final EISs

ERP No. F–BLM–K65132–CA South Coast Planning Area, Land and Resource Management Plan, Implementation, California Desert District, San Diego, Riverside, San Bernardino, Los Angeles, and Orange Counties, CA.

Summary: EPA still expressed concerns regarding the disclosure of water quality and soil resources impacts. EPA requested that the Record of Decision include specific commitment to ensure the protection of surface water, groundwater soils and other natural resources.

ERP No. F–TVA–E99014–00 Tennessee River Chip Mill Barge Terminals, Construction and Operation, Issuance of Barge Terminal Permit, Section 10 and 404 Permits, several Counties, AL and TN.

Summary: EPA concurred with the preferred alternative selected by TVA and notes the additional information provided in the FEIS.

ERP No. F–USN–G11007–TX Chase Field Naval Air Station Disposal and Reuse, Implementation, Permits and Approval, City of Beeville, Bee County, TX.

Summary: Review of the Final EIS was not deemed necessary. No formal letter was sent to the preparing agency.

ERP No. FS–COE–L91008–00 1992 Columbia/Snake Rivers Salmon Flow Measures, Updated Information concerning Water Management Activities, Implementation, WA, ID and OR.

Summary: EPA expressed concerns about the lack of a comprehensive water quality monitoring program. EPA requested the development of a comprehensive interagency approach to monitoring.

Dated: April 27, 1993.

Richard E. Sanderson,

Director, Office of Federal Activities.

State FIFRA Issues Research and Evaluation Group (SFIREG) Working Committees on Enforcement Certification and Reregistration Classification

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The State FIFRA Issues Research and Evaluation Group (SFIREG) Working Committees on Enforcement Certification and Registration Classification will hold a 3–day meeting, beginning on May 17, 1993, and ending on May 19, 1993. This notice announces the location and times for the meeting and sets forth tentative agenda topics.

DATES: The SFIREG Working Committee on Enforcement Certification will meet on Monday, May 17, 1993, from 8:30 a.m. to 5 p.m. The SFIREG Working Committee on Registration Classification will meet on Wednesday, May 19, 1993, from 8:30 a.m. to approximately 5 p.m. On Tuesday, May 18, 1993, the two SFIREG Working Committees will meet together in joint session for the entire day starting at 8:30 a.m. and adjourning at approximately 5 p.m.

ADDRESSES: The meetings will be held at: Sheraton Old Town Hotel, 800 Rio Grande Boulevard, NW., Albuquerque, NM 87104, (505) 843–6300.

FOR FURTHER INFORMATION CONTACT: By mail: Shirley M. Howard, Office of Pesticide Programs (H7506C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 1109, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305–7371.

SUPPLEMENTARY INFORMATION: The tentative agenda of the SFIREG Working Committee on Enforcement Certification includes the following:

1. Discussion of Lawn Care Guidelines vs. AAPCO Model Regulations.
2. Update on Recordkeeping for Private Applicators.
3. Status of the AAPCO-SFIREG Drift Taskforce.
4. Status of Issue Paper entitled "Indoor Use of Structural Pesticides."
5. Discussion of Criteria for Use Enforcement Actions.
6. Update on Laboratory Issues.
7. Priorities for Laboratory Equipment Fund.
8. Status Reports on Agency's Policies and Regulations.
9. Discussion of Designing PREP Compliance Management Program for 1994.
10. New Committee Appointments.
11. Other topics as appropriate.

The Agenda for the joint session of the SFIREG Working Committees on Enforcement Certification and Registration Classification will include:

1. Discussion of Implementation Plan for Worker Protection Standards.
2. Discussion of Issues Associated with Using MSDS as Labeling.
3. Update on Plantback Enforcement Issue Paper: Review of Language.
4. Status of Issues Associated with Ephemeral Stream Definition in Atrazine Risk Reduction Measures Document.
5. Other topics as appropriate.

The agenda for the SFIREG Working Committee on Registration Classification includes the following:

1. Subcommittee Report on AAPCO/SFIREG 24(c) Survey.
2. Update on Label Coding Project.
3. Update on EPA's Reduced Risk Pesticide Policy.
4. Discussion of the Impact of GLP and QA Requirements on Minor Use Registrations.
5. Update on Delaney Clause Court Ruling as it Applies to Section 18.
6. Other topics as appropriate.

Dated: April 26, 1993.

Douglas D. Campt,

Director, Office of Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Approved by Office of Management and Budget

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collection pursuant to the Paperwork Reduction Act of 1980, Public Law 96–511. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 632–6934.

Federal Communications Commission

OMB Control No.: 3060–0318

Title: Notification of Status of Facilities, FCC Form 489

Expiration Date: 02/28/96

Description: FCC Form 489 is a multi-purpose form used by common carriers subject to 47 CFR part 22 to notify the Commission of completion of construction, of minor modifications and to request an extension of time to complete constructions. FCC Form 489 is used by Commission personnel to verify compliance with construction requirements and to update the database. FCC Form 489 is being updated to display the 02/28/96 expiration date. A Public Notice will be issued to announce the availability of the updated edition of the FCC Form 489 and the deadline for filing the current 1991 edition of the form.

OMB Control No.: 3060–0319

Title: Application for Assignment or Transfer of Control, FCC Form 490

Expiration Date: 02/28/96

Description: FCC Form 490 is filed to solicit Commission approval to assign or transfer control of radio stations licensed under 47 CFR part 22. The information is used by Commission personnel to determine whether the proposed sale of a common carrier station and the qualifications of the new carrier are in compliance with the requirements of FCC rules and regulations. FCC Form 490 is being updated to display the 02/28/96 expiration date. A Public Notice will be issued to announce the availability of the updated edition of the FCC Form 490 and the deadline for filing the current 1991 edition of the form.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

FEDERAL TRADE COMMISSION

[Dkt. 9254]

Alliant Techsystems Inc.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, a Minnesota-based defense systems contractor that provides ammunition, for a 10-year period, to obtain Commission approval before: acquiring the assets or stock of any company engaged in systems contracting for certain tank or lightweight ammunition; or selling or transferring Alliant's stock or assets to a company engaged in systems contracting for certain types of ammunition. In addition, the order requires the respondent to terminate its proposed acquisition of certain Olin Corporation assets.

DATES: Complaint issued December 7, 1992. Order issued March 16, 1993.[1]

FOR FURTHER INFORMATION CONTACT: Laura Wilkinson, FTC/S–2308, Washington, DC 20580. (202) 326–2830.

SUPPLEMENTARY INFORMATION: On Wednesday, January 6, 1993, there was published in the **Federal Register**, 58 FR 554, a proposed consent agreement with analysis In the Matter of Alliant Techsystems Inc., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of the order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 45, 18)

CC Pollen Co., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order prohibits, among other things, a Phoenix-based firm, and its owners, from making false claims about the effect consumption of their bee pollen products has in regard to allergies, aging, impotence, sexual dysfunction, weight loss and antibiotic treatment, and requires that they have scientific evidence to support any other health-benefit claims they make about any food or other product for human consumption, in the future. In addition, the respondents are prohibited from producing or distributing any advertisement that is represented to be something other than a paid ad, and are required to prominently disclose in all future infomercials they create that the programs are paid ads. Finally, the respondents are required to pay $200,000 as disgorgement of profits.

DATES: Complaint and Order issued March 16, 1993.[1]

FOR FURTHER INFORMATION CONTACT: Brinley Williams, Cleveland Regional Office, Federal Trade Commission, 668 Euclid Avenue, Suite 520–A, Cleveland, OH 44114, (216) 522–4210.

SUPPLEMENTARY INFORMATION: On Wednesday, January 6, 1993, there was published in the **Federal Register**, 58 FR 557, a proposed consent agreement with analysis In the Matter of CC Pollen Company, et al., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of the order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention (CDC)

National Institute for Occupational Safety and Health

[Program Announcement Number 314]

Research, Prevention Education, and Clinical Services in Occupational Safety and Health Clinics; Notice of Availability of Funds for Fiscal Year 1993

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1993 funds for a cooperative agreement for research, prevention education, surveillance, and clinical services in occupational safety and health clinics.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Occupational Safety and Health. (For ordering a copy of Healthy People 2000 see the section Where To Obtain Additional Information.)

Authority

This program is authorized under section 20(a) of the Occupational Safety and Health Act of 1970 [29 U.S.C. 669(a)].

Eligible Applicant

Eligible applicants include non-profit and for-profit organizations. Thus, universities, colleges, research institutions, hospitals, other public and private organizations, state and local health departments or their bona fide agents or instrumentalities, and small minority and/or women-owned businesses are eligible for this cooperative agreement.

Availability of Funds

Approximately $100,000 is available in FY 1993 to fund one cooperative agreement. The award is expected to begin on or before July 31, 1993, for a 12-month budget period within a project period between three to five years. Funding estimates may vary and are subject to change.

Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

Purpose

The purpose of this cooperative agreement is to enhance the network of clinical facilities which provide prevention education, conduct provider-based surveillance, upgrade knowledge and awareness of therapy, treatment, or remediation of occupational safety and health problems, serve as a referral resource, and provide community-based worker education.

Objectives aimed at achieving this overall purpose are to:

1. Enhance training of health professionals in prevention of work-related diseases and injuries within an established clinical setting.
2. Enhance knowledge and skills of health professionals in activities relating to occupational health surveillance and statistics so that they may better identify and evaluate sentinel health events.
3. Expand the variety of field experiences for health professionals at the community and state level, such as investigating outbreaks of known or suspected occupational diseases.
4. Create a referral resource through the network of clinicians.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient shall be responsible for the activities under A., below, and CDC shall be responsible for conducting activities under B., below:

A. Recipient Activities

1. Increase clinic communication with a goal of establishing a network between the clinics across the fifty states and the American Territories and possessions.
2. Develop, publish, and continually update clinic directory indicating personnel, resources and practice, and listing individual clinics.
3. Provide technical assistance to clinicians through visits or presentations at grand rounds, residency programs, medical conferences and other venues. Make available slide talks, teaching modules and other materials focused on patient education and disease prevention from a lending library maintained for that purpose.
4. Organize and present clinically-focused conferences, symposia or workshops for regional or national conferences. These will focus on issues of local or topical concern such as lead poisoning, repetitive motion disorders and occupational asthma.
5. Refine and expand participation in the collection of clinical database containing demographic information, current and most relevant occupations, industries, exposures, and the diagnoses of suspected or confirmed diseases related to occupational or environmental factors.
6. Provide reliable sources to which the NIOSH 800-Hotline can refer workers or employers with specific questions relating to occupational health or a need for clinical services.
7. Provide information dissemination and technical assistance to employers and employees and educate physicians and other occupational safety and health professionals regarding the Americans with Disabilities Act.

B. CDC/NIOSH Activities

1. Collaborate in strengthening a network of communication between clinics and expanding coverage through outreach programs, including technical support for regional conferences.
2. Collaborate in refining and expanding the clinical database program.
3. Collaborate in defining and providing technical assistance to improve standards of occupational health care, including technical support to establish and maintain quality assurance policies that will provide a national standard for occupational medicine.
4. Establish and provide a core information package for dissemination through clinics.

Evaluation Criteria

The application will be reviewed and evaluated according to the following criteria:

1. Responsiveness to the objectives of the cooperative agreement including: (a) Applicant's understanding of the objectives of the proposed cooperative agreement and, (b) the relevance of the proposal to the objectives. (20%)
2. Ability to provide the staff, knowledge, and other resources required to perform the applicant's responsibilities in this project, and describe the approach to be used in carrying out those responsibilities. (20%)
3. Steps proposed in planning and implementing this project, and the respective responsibilities of the applicant for carrying out those steps. (20%)
4. Schedule proposed for accomplishing the activities to be carried out in this project, and a method for evaluating the accomplishments. (20%)
5. The qualification and time allocation of the professional staff to be assigned to this project and the facilities, equipment and other resources available for performance of this project. (20%)
6. The budget will be evaluated to the extent that it is reasonable, clearly justified, and consistent with the intended use of funds. (Not Scored)

Executive Order 12372 Review

The application is not subject to review by Executive Order 12372, Intergovernmental Review of Federal Programs.

Public Health System Reporting Requirements

This program is not subject to the Public Health System Reporting Requirements.

Catalog of Federal Domestic Assistance Number (CFDA)

The Catalog of Federal Domestic Assistance Number for this program is 93.283.

Other Requirements

Projects that involve the collection of information from 10 or more individuals and funded by the cooperative agreement will be subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

Application Submission and Deadline

The original and two copies of the application PHS Form 5161-1 must be submitted to Henry S. Cassell, III, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., room 300, Mailstop E-13, Atlanta, Georgia 30305, on or before June 30, 1993.

1. Deadline

Applications shall be considered as meeting the deadline if they are:

(a) Received on or before the deadline date; or

(b) Sent on or before the deadline date and received in time for submission to the objective review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

2. Late Applications

Applications which do not meet the criteria in 1.(a) or 1.(b) above are

VOL 58 ISS 82 AP 30 1993 UMI

considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

Where To Obtain Additional Information

To receive additional written information call (404) 332–4561. You will be asked to leave your name, address, and phone number and will need to refer to Announcement Number 314. You will receive a complete program description, information on application procedures and application forms.

If you have questions after reviewing the contents of all the documents, business management technical assistance may be obtained from Opple Byrd, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., room 300, Atlanta, Georgia 30305, (404) 842–6546. Programmatic technical assistance may be obtained from John E. Parker, National Institute for Occupational Safety and Health, Division of Respiratory Disease Studies, 944 Chestnut Ridge Road, Mailstop 122, Morgantown, West Virginia 26505, (304) 291–4301.

Please refer to Announcement Number 314 when requesting information and submitting an application.

Potential applicants may obtain a copy of Healthy People 2000 (Full Report, Stock No. 017–001–00474–0) or Healthy People 2000 (Summary Report, Stock No. 017–001–00473–1) referenced in the Introduction through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325, telephone: (202) 783–3238.

Dated: April 23, 1993.

Richard A. Lemen,

Acting Director, National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4160–19–P

Workshops on Community Epidemiologic Studies Near the Former Feed Materials Processing Center (FMPC) in Fernald, OH; Public Meetings

The National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC), announces the following meetings.

Name: Workshops on Community Epidemiologic Studies Near the Former FMPC in Fernald, Ohio.

Date: May 19, 1993.

Time: 1 p.m.–5 p.m.

Place: Sheraton Springdale Hotel, 11911 Sheraton Lane, Cincinnati, Ohio 45246.

Date: May 19, 1993.

Time: 7:30 p.m.-10 p.m.

Place: Crosby Elementary School, 8382 New Haven Road, Harrison, Ohio 45030.

Date: May 20, 1993.

Time: 8 a.m.-12 noon.

Place: Sheraton Springdale Hotel, 1191 Sheraton Lane, Cincinnati Ohio 45246.

Status: Open to the public for observation and comment, limited only by space available. Seating space for 50 individuals will be available at each meeting.

Purpose: Under a Memorandum of Understanding with the Department of Energy (DOE), the Department of Health and Human Services has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use. The FMPC located in Fernald, Ohio, operated under contract for DOE from 1951 until production was suspended in 1988. The plant produced uranium metal products for use as feed materials for reactors located at other DOE sites. During operations radioactive material migrated off the plant site. The goal of an analytic epidemiologic study would be to determine the potential health effects to community residents from exposure to radioactive material released to the environment from the plant.

Matters to be Discussed: An invited group of epidemiologists, statisticians, public health professionals, physicians, and members of the community will discuss steps for assessing appropriate analytic epidemiologic studies at the former FMPC. The discussions will focus on evaluation of various study designs, determination of methods for power calculations, utilization of dose estimates, and involvement of the community in the study process. Invited participants will provide CDC with their individual advice and comments. Information provided by the participants will be used by CDC in planning the epidemiologic research projects for the community near the former FMPC.

At the conclusion of the meetings, all attendees will have an opportunity to provide oral and/or written comments for the record.

For a period of 15 days following the meetings, through June 4, 1993, the official record of the meetings will remain open in order that additional material or comments may be submitted to be made part of the record of the meetings.

Agenda items are subject to change as priorities dictate.

BILLING CODE 4160–18–M

Food and Drug Administration

[Docket No. 93E–0087]

Determination of Regulatory Review Period for Purposes of Patent Extension; AMBIEN®

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has determined the regulatory review period for AMBIEN® and is publishing this notice of that determination as required by law. FDA has made the determination because of the submission of an application to the Commissioner of Patents and Trademarks, Department of Commerce, for the extension of a patent which claims that human drug product.

ADDRESSES: Written comments and petitions should be directed to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Karin L. Bolte, Office of Health Affairs (HFY–20), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1382.

SUPPLEMENTARY INFORMATION: The Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98–417) and the Generic Animal Drug and Patent Term Restoration Act (Pub. L. 100–670) generally provide that a patent may be extended for a period of up to 5 years so long as the patented item (human drug product, animal drug product, medical device, food additive, or color additive) was subject to regulatory review by FDA before the item was marketed. Under these acts, a product's regulatory review period forms the basis for determining the amount of extension an applicant may receive.

A regulatory review period consists of two periods of time: a testing phase and an approval phase. For human drug products, the testing phase begins when the exemption to permit the clinical investigations of the drug becomes effective and runs until the approval phase begins. The approval phase starts with the initial submission of an application to market the human drug product and continues until FDA grants permission to market the drug product. Although only a portion of a regulatory review period may count toward the actual amount of extension that the Commissioner of Patents and Trademarks may award (for example, half the testing phase must be subtracted as well as any time that may have occurred before the patent was issued), FDA's determination of the length of a regulatory review period for a human drug product will include all of the testing phase and approval phase as specified in 35 U.S.C. 156(g)(1)(B).

FDA recently approved for marketing the human drug product AMBIEN®. AMBIEN® (zolpidem tartrate) is indicated for the short-term treatment of insomnia. Subsequent to this approval, the Patent and Trademark Office received a patent term restoration application for AMBIEN® (U.S. Patent No. 4,382,938) from Synthelabo, and the Patent and Trademark Office requested FDA's assistance in determining this patent's eligibility for patent term restoration. FDA, in a letter dated March 11, 1993, advised the Patent and Trademark Office that this human drug product had undergone a regulatory review period and that the approval of AMBIEN® represented the first commercial marketing of the product. Shortly thereafter, the Patent and Trademark Office requested that FDA determine the product's regulatory review period.

FDA has determined that the applicable regulatory review period for AMBIEN® is 2,713 days. Of this time, 1,296 days occurred during the testing phase of the regulatory review period, while 1,417 days occurred during the approval phase. These periods of time were derived from the following dates:

1. *The date an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act became effective:* July 15, 1985. The applicant claims November 15, 1984, as the date the investigational new drug application (IND) became effective. However, FDA records indicate that the IND was placed on clinical hold on December 10, 1984, and was removed from clinical hold on July 15, 1985. Therefore, the IND effective date is July 15, 1985.

2. *The date the application was initially submitted with respect to the human drug product under section 505(b) of the Federal Food, Drug, and Cosmetic Act:* January 30, 1989. The applicant claims January 26, 1989, as the date the new drug application (NDA) for AMBIEN® (NDA 19–908) was initially submitted. However, FDA records indicate that NDA 19–908 was initially submitted on January 30, 1989.

3. *The date the application was approved:* December 16, 1992. FDA has verified the applicant's claim that NDA 19–908 was approved on December 16, 1992.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 5 years of patent term extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before June 29, 1993, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before October 27, 1993, for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation. (See H. Rept. 857, part 1, 98th Cong., 2d sess., pp. 41–42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 16, 1993.

Stuart L. Nightingale,

Associate Commissioner for Health Affairs.

BILLING CODE 4160–01–F

Health Resources and Services Administration Advisory Council

Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), announcement is made of the following National Advisory bodies scheduled to meet during the month of June 1993.

Name: Advisory Commission on Childhood Vaccines.

Date and Time: June 7, 1993, 9 a.m.–5 p.m.; June 8, 1993, 8:30 a.m.–12 p.m.

Place: Conference Rooms G&H, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857.

The meeting is open to the public.

Purpose: The Commission: (1) advises the Secretary on the implementation of the Program, (2) on its own initiative or as the result of the filing of a petition, recommends changes in the Vaccine Injury Table, (3) advises the Secretary in implementing the Secretary's responsibilities under section 2127 regarding the need for childhood vaccination products that result in fewer or no significant adverse reactions, (4) surveys Federal, State, and local programs and activities relating to the gathering of information on injuries associated with the administration of childhood vaccines, including the adverse reaction reporting requirements of section 2125(b), and advises the Secretary on means to obtain, compile, publish, and use credible data related to the frequency and severity of adverse reactions associated with childhood vaccines, and (5) recommends to the Director of the National Vaccine Program research related to vaccine injuries which should be conducted to carry out the National Vaccine Injury Compensation Program.

Agenda: The first day of the meeting will consist of simultaneous meetings of the Commission's Working Subcommittees. The full commission will meet commencing at 9 a.m. until 2:45 p.m. and from 8:30 a.m. to 12 p.m. on Tuesday, June 8. Agenda items will include, but not be limited to, routine Program reports, reports from the National Vaccine Program and the National Vaccine Advisory Committee (NVAC), reports from the ACCV Subcommittees.

Name: Scientific Review Subcommittee of the Advisory Commission on Childhood Vaccines.

Date and Time: June 7, 1993, 3 p.m.–5 p.m.

VOL 58 ISS 82 AP 30 1993 UMI

Place: Conference Room G, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857.

The meeting is open to the public.

Purpose: This Subcommittee will review statistics from all sources (the Compensation System, Vaccine Adverse Events Reporting System (VAERS), the U.S. Claims Court, etc.) that can give any reason for any alterations (additions, subtractions, or revisions) in the Vaccine Injury Table. The Subcommittee will consider any applications for inclusion of additional vaccines and associated events to the table and make recommendations on these to the Commission. All recommendations by the Subcommittee will be considered by the full Commission and, if accepted, will be forwarded to the Secretary. This Subcommittee will also be the first line of study for all outside studies and literature reports with subjects affecting the Vaccine Injury Table.

Agenda: This Subcommittee will receive updates on VAERS and on the IOM Section 313 study.

Name: Financial Review Subcommittee of the Advisory Commission on Childhood Vaccines.

Date and Time: June 7, 1993, 3 p.m.–5 p.m.

Place: Conference Room H, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857.

The meeting is open to the public.

Purpose: The Subcommittee reviews quarterly with the administrative staff, the financing of the Vaccine Injury Compensation Trust Fund, the output of funds resulting from each vaccine and each adverse event, and the relationship of each vaccine and each adverse event to the rate of depletion of the Trust Fund. If these studies justify any increase or any decrease of surtax for each vaccine, these recommendations can be made to the full commission and if accepted, can be forwarded to the Secretary.

Agenda: The Subcommittee will discuss and review the status of funding and spending on pre-1988 awards and the status of the Trust Fund.

Public comment will be permitted at the respective subcommittee meetings on June 7 before they adjourn in the evening; before noon and at the end of the full Commission meeting on June 7; and also before noon of the second day on June 8. Oral presentations will be limited to 5 minutes per public speaker. Persons interested in providing an oral presentation should submit a written request, along with a copy of their presentation to Mr. Matthew Barry, Division of Vaccine Injury Compensation, Bureau of Health Professions, Health Resources and Services Administration, room 702, 6001 Montrose Road, Rockville, Maryland 20852, Telephone (301) 443–6593.

Requests should contain the name, address, telephone number, and any business or professional affiliation of the person desiring to make an oral presentation. Groups having similar interests are requested to combine their comments and present them through a single representative. The allocation of time may be adjusted to accommodate the level of expressed interest. The Division of Vaccine Injury Compensation will notify each presenter by mail or telephone of their assigned presentation time. Persons who do not file an advance request for presentation, but desire to make an oral statement, may sign up in Conference Rooms G & H before 10 a.m. June 7 and 8. These persons will be allocated time as time permits.

Anyone requiring information regarding the subject Commission should contact Mr. Matthew Barry, Principal Staff Liaison, Division of Vaccine Injury Compensation, Bureau of Health Professions, room 7–02, 6001 Montrose Road, Rockville, Maryland 20852, Telephone (301) 443–6593.

Agenda items are subject to change as priorities dictate.

Dated: April 26, 1993.

Jackie E. Baum,

Advisory Committee Management Officer, HRSA.

BILLING CODE 4160–15–P

National Institutes of Health

National Heart, Lung, and Blood Institute Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the following Heart, Lung, and Blood Special Emphasis Panel.

The meeting will be closed in accordance with the provisions set forth in section 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. and section 10(d) of Public Law 92–463, for the review, discussion and evaluation of individual grant applications, contract proposals, and/or cooperative agreements. These applications and/or proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications and/or proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Panel: NHLBI SEP for the Review of a Institutional National Research Service Award (NRSA)—Telephone Conference Call.

Dates of Meeting: May 10, 1993

Time of Meeting: 2 p.m.

Place of Meeting: Westwood Building, room 550 (Telephone Conference Call).

Agenda: To review and evaluate grant applications.

Contact Person: Dr. Kathryn W. Ballard, 5333 Westbard Avenue, room 550, Bethesda, Maryland 20892, (301) 594–7450.

(Catalog of Federal Domestic Assistance Program Nos. 93.837, Heart and Vascular Diseases Research; 93.838, Lung Diseases Research; and 93.839, Blood Diseases and Resources Research, National Institutes of Health)

Dated: April 23, 1993.

Public Health Service

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Public Health Service (PHS) publishes a list of information collection requests it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). The following requests have been submitted to OMB since the list was last published on Friday, April 23, 1993.

(Call PHS Reports Clearance Officer on 202–690–7100 for copies of package)

1. Medwatch: FDA's Medical Product Reporting Program—New—This new form will be used for reporting adverse events and product problems with medications, devices, and other products (such as dietary supplements) that are regulated by the Food and Drug Administration. It replaces existing approved forms. *Respondents:* Businesses or other for-profit, non-profit institutions, small businesses or organizations; *Number of Respondents:* 67,140; *Number of Responses Per Respondent:* 4; *Average Burden per Response:* 1 hour; *Estimated Annual Burden:* 257,182 hours.

OMB Desk Officer: Shannah Koss.

Written comments and recommendations for the proposed information collections should be sent within 30 days of this notice directly to the OMB Desk Officer designated above at the following address: Human Resources and Housing Branch, New Executive Office Building, room 3002, Washington, DC 20503.

Dated: April 26, 1993.

James Scanlon,

Division of Data Policy, Office of Health Planning and Evaluation.

BILLING CODE 4190–29–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N–93–1917; FR–3350–N–29]

Federal Property Suitable as Facilities to Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

ADDRESSES: For further information, contact James N. Forsberg, room 7262, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410; telephone (202) 708–4300; TDD number for the hearing- and speech-impaired (202) 708–2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1–800–927–7588.

SUPPLEMENTARY INFORMATION: In accordance with 56 FR 23789 (May 24, 1991) and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless* versus *Veterans Administration*, No. 88–2503–OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Judy Breitman, Division of Health Facilities Planning, U.S. Public Health Service, HHS, room 17A–10, 5600 Fishers Lane, Rockville, MD 20857; (301) 443–2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 56 FR 23789 (May 24, 1991).

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1–800–927–7588 for detailed instructions or write a letter to James N. Forsberg at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (*i.e.*, acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: GSA: Leslie Carrington, Federal Property Resources Services, GSA, 18th and F Streets NW., Washington, DC 20405; (202) 208–0619; Dept. of Transportation: Ronald D. Keefer, Director, Administrative Services & Property Management, DOT, 400 Seventh St. SW., room 10319, Washington, DC 20590; (202) 366–4246; U.S. Air Force: Bob Menke, USAF, Bolling AFB, SAF–MIIR, Washington, DC 20332–5000; (202) 767–6235; Dept. of Veterans Affairs: Michael Reynolds, Management Analyst, Dept. of Veterans Affairs, room 414 Lafayette Bldg., 811 Vermont Ave. NW., Washington, DC 20420; (202) 233–5026; Dept. of Energy: Tom Knox, Realty Specialist, AD223.1, 1000 Independence Ave. SW., Washington, DC 20585; (202) 586–1191; (These are not toll-free numbers).

Dated: April 23, 1993.

Don I. Patch,

Acting Deputy Assistant Secretary for Grant Programs.

BILLING CODE 4210–29–M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CO–030–93–4350–09]

Closure of Public Lands; Red Cloud Peak Area of Critical Environmental Concern, Hinsdale County, CO

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of closure.

SUMMARY: Notice is hereby given in accordance with 43 CFR 8365.1–5(C), 8365.1–6, and 8365.1–5(A)(1) that the following described public lands within the Redcloud Peak Area of Critical Environmental Concern (ACEC) in Hinsdale County, Colorado, are closed to the collecting, possessing, killing, or transporting of butterflies or any part of their life cycle.

New Mexico Principal Meridian

T. 43 N., R. 5 W.,
Secs. 20 to 23, inclusive,
Secs. 26 to 29, inclusive,
Secs. 32 to 35, inclusive.

The BLM may approve scientific research by qualified persons, which could include limited collecting, if this research is deemed important and is compatible with the preservation of the species.

EFFECTIVE DATE: July 1, 1993.

ADDRESSES: For further information, contact Barry Tollefson, Bureau of Land Management (BLM), Gunnison Resource Area Office, 216 North Colorado, Gunnison, Colorado 81230; (303) 641–0471.

SUPPLEMENTARY INFORMATION: The Uncompahgre fritillary butterfly was listed as a federally endangered species on June 24, 1991 (56 FR 28712). This butterfly has the smallest known total range of any North American butterfly species. Its habitat is limited to two verified sites and two possible sites in the San Juan Mountains and southern Sawatch Range in Gunnison, Hinsdale, and Chaffee counties in southwestern

VOL 58 ISS 82 AP 30 1993 UMI

Colorado. The only known remaining major colony is the Redcloud Peak population discovered in 1982 on public lands administered by the Bureau of Land Management. Despite numerous attempts to locate other major populations, none have been identified.

Because this species is one of the few new North American butterfly species identified in the last half century, it is attractive to collectors. Overcollection is considered to be the greatest human-caused threat to the species. Although the Uncompahgre fritillary butterfly is protected under the Endangered Species Act, this closure would help prevent individuals from attempting to collect the Uncompahgre fritillary butterfly under the pretense of collecting other butterflies that are found in the area.

Penalties

Violations of supplementary rules authorized by 43 CFR title 43, chapter II, part 8360, subpart 8365.1–6 are punishable by a fine not to exceed $1,000 and/or imprisonment not to exceed 12 months.

Alan L. Kesterke,

District Manager.

BILLING CODE 4310–HC–M

Bureau of Land Management

[UT–060–4140–03–OSHL; UTU–71207]

Realty Action; Lands/Surface Facilities Available for Competitive Lease, White River Oil Shale Tracts Ua and Ub

AGENCY: Bureau of Land Management, Interior

ACTION: Notice of realty action; lands/surface facilities available for competitive lease (White River Oil Shale Tracts Ua and Ub).

SUMMARY: Notice is hereby given that the following described public lands, located in Uintah County, Utah have been found suitable for competitive lease pursuant to section 302 of the Federal Land Policy and Management Act of October 21, 1976 and 43 CFR part 2920:

T. 10 S., R. 24 E., SLM, Utah.
Sec 12, S½, S½N½;
Secs. 13 and 14, All;
Secs. 19, E½;
Secs. 20–24, All;
Secs. 25, W½W½;
Secs. 26–29, All;
Secs. 30, E½;
Secs. 33, N½;
Secs. 34, N½.
T. 10 S., R. 25 E.,
Secs. 18 and 19, All.

All or part of the above described 10,240 acres, including the existing facilities and surface improvements located on the White River prototype oil shale tracts Ua and Ub will be made available through competitive lease to qualified bidders. All proposals will be considered provided the proposed use does not preclude or interfere with the future development of the oil shale Leasing of the site is in conformance with the Book Cliffs Resource Management Plan; additional uses, facilities, or surface disturbing activities will require further NEPA review prior to approval.

Issuance of a lease to the successful bidder will be subject to the following terms and conditions:

(1) The lessee will be required to post a bond in an amount to be determined by the authorized officer and based on the proposed use of the tract. In no event shall the required bond amount be set less than $100,000.

(2) The lessee will be required to assume the costs for the operation and maintenance of the facilities including but not limited to:

(a) Site security.

(b) Electrical power contracted from Moon Lake Electric Association for the entire facility, including the underground mine workings, headframe, and hoist building to be reserved by the United States.

(c) Maintenance and/or repair of the facilities under lease.

(3) The lessee will be required to pay annual rental in an amount equal to or greater than fair market value as determined by appraisal and established by subsequent bid.

(4) The lessee will be required to prepare a site-specific plan of development/operation detailing the type of proposed land use, facility upgrades required, *et cetera*. The plan will be subject to BLM review for conformance with NEPA. The cost of plan development and subsequent NEPA analysis of which would be borne by the lessee.

(5) The oil shale stockpiles will be made available to the lessee at a negotiated sales price. Only those amounts identified in the lessee's plan of development and approved by the authorized officer may be utilized in connection with the lease.

(6) Rights to the mine shaft, underground workings, and related facilities and the oil shale resources will be reserved by the Bureau of Land Management. The lease conveys no preference right to the lessee to obtain a subsequent mineral lease allowing for the development of the oil shale resources.

(7) The lease will be issued for an initial five-year period. Renewal of the lease at the end of five years will be at the discretion of the authorized officer and dependent upon the prevailing interest to develop the oil shale resources under a mineral lease.

(8) Any additional terms deemed necessary by the authorized officer through the environmental analysis process specific to the applicant's proposed use and plan of operation.

Applications from qualified bidders will be accepted by the Vernal District Office, 170 South 500 East, Vernal, Utah 84078 for a period of thirty days from publication of this notice in the **Federal Register**. All applications must refer to the **Federal Register** Notice and serial number UTU–71207. All bids submitted must be equal to or greater than the fair market value set at $50/acre or fraction thereof plus an additional $500 for utilization of the facilities.

Each application must include a plan of operation/development which contains sufficient detail to allow the authorized officer to evaluate the feasibility of the proposed land use, the environmental impacts, possible threats to public health and safety, the public/other benefits from the land use, and the approximate cost of the proposed land use. The plan of operation must clearly identify the proposed use and associated activities, a description of all facilities for which authorization is sought, and any additional facilities or improvements necessary for the intended use and the applicant's proposal for providing site security. Applicants may be required to submit additional information to the authorized officer.

The successful bidder will be required to reimburse the United States for the administrative and other costs incurred by the United States in processing the application. These costs, determined in accordance with 43 CFR 2920.6, will include preparation of the necessary documents required by the National Environment Policy Act and monitoring of the construction, continued operation, and termination/rehabilitation of the facilities authorized under lease.

All bids will be evaluated on the basis of the public benefit to be provided, the financial and technical capability of the bidder to undertake the project, and the bid amount including any offers to contribute funds to the BLM to assist in maintaining the integrity of the mine estimated to be about $25,000/year.

For a period of 30 days from the date of publication of this notice, interested parties may submit comments to the Vernal District Manager, Bureau of Land Management, 170 South 500 East, Vernal, Utah 84078. Any adverse comments will be evaluated by the District Manager who may vacate or modify this Realty Action and issue a final determination. In the absence of any action by the District Manager, this realty action will become the final determination of the Bureau.

SUPPLEMENTARY INFORMATION: Additional information concerning this action can be obtained from the Vernal District Office by contacting Joy Wehking, Realty Specialist (801) 789–1362.

Dated: April 21, 1993.

Howard Cleavinger,

Acting Vernal District Manager.

[NV–050–03–4333–04; 43 CFR 8364.1]

Red Rock Canyon National Conservation Area; Restriction Order for the Solicitation of Funds

April 20, 1993.

AGENCY: Bureau of Land Management, DOT.

ACTION: Restriction Order for the Solicitation of Funds within the Red Rock Canyon National Conservation Area, Bureau of Land Management, Las Vegas District, Nevada.

SUMMARY: This Restriction Order is being issued for the purposes of public health and safety. The Red Rock Canyon National Conservation Area (RRCNCA) Visitor Center entrance area sidewalks were designed for the singular purpose of providing pedestrian access to the building. The area was not designed with space in mind for soliciting activities, naturalist talks, kiosks or displays.

EFFECTIVE DATE: April 30, 1993.

FOR FURTHER INFORMATION CONTACT: Dave Wolf, Red Rock Canyon National Conservation Area Manager, Bureau of Land Management, Las Vegas District Office, P.O. Box 26569, Las Vegas, Nevada 89126. Telephone: 702–647–5000.

SUPPLEMENTARY INFORMATION: Beginning in early 1992, soliciting by a non-profit organization began at the RRCNCA Visitor Center and continues as of April 1993. The solicitor sets up his/her table on the sidewalk which all visitors must use to access the Visitor Center doors. At least one visitor injury has been attributed to a visitor's attention being drawn to the solicitor and as a result tripping over the landscaping rocks.

A second organization began soliciting funds in early 1993 at the same Visitor Center location. This had the effect of blocking the access to the building and creating an increased safety hazard.

The designated area has been selected because it is the closest area to the Visitor Center entrance which is not in the path of visitors entering the building.

This order does not apply to the distributing of leaflets or literature by individuals who are not associated with a soliciting organization and not using a booth or table. Nor does this order apply to organizations operating under a Recreation Use Permit or Use Authorization for activities such as walk-a-thons, bike rally's or foot races where the entrance fee or donation is paid on-site the day of the event

In accordance with 43 CFR 8364.1 the following restrictions on the solicitation of funds in the Red Rock Canyon National Conservation Area, Clark County, Nevada are adopted.

1. All persons and organizations soliciting funds must be recognized and/or permitted as non-profit organizations according to applicable State of Nevada and/or Clark County, Nevada ordinances, regulations and requirements.

2. Soliciting for funds is allowed at the Red Rock Canyon NCA Visitor Center subject to the following stipulations.

Soliciting activities must take place within an area designated by the NCA Manager. The designated area is described as a six (6) foot by twenty (20) foot area located on the left side of the Visitor Center entrance directly in front of the flagpole. The designated area will be marked on the sidewalk with painted corners and lines. Solicitors may not leave the designated area to approach visitors or set up tables or displays outside of the designated area.

Organizations soliciting funds must provide a sign indicating the name of the organization conducting the solicitation. Sign letters should be 2" or greater in size.

The remaining area within ¼ mile of the Visitor Center, including the parking lot and all associated trails and facilities, is closed to the solicitation of funds.

3. The Scenic Drive including all pull offs and parking areas, the Red Spring Day Use Area and the "Dedication Site" are closed to the soliciting of funds.

4. This restriction order shall remain in force until such time as the authorized officer determines it should be modified or rescinded.

5. Violations of this order are subject to a fine not to exceed $1,000 and/or imprisonment not to exceed 12 months (43 CFR 8360.0–7).

Billy R. Templeton,

State Director, Nevada.

Proposed Withdrawal and Opportunity for Public Meeting; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposes to withdraw 258.42 acres of non-Federal lands in Jackson County, which will be acquired through exchange, for protection of the Mariposa Botanical Area and the Lower Table Rock Parking/Staging Area. This notice closes the lands for up to 2 years from surface entry and mining. The lands would be opened to mineral leasing.

DATES: Comments and requests for a public meeting must be received by July 29, 1993.

ADDRESSES: Comments and meeting requests should be sent to the Oregon State Director, BLM, P.O. Box 2965, Portland, Oregon 97208–2965.

FOR FURTHER INFORMATION CONTACT: Donna Kauffman, BLM, Oregon State Office, 503–280–7162.

SUPPLEMENTARY INFORMATION: On April 5, 1993, a petition was approved allowing the Bureau of Land Management to file an application to withdraw the following described lands, which will be acquired by the United States, from settlement, sale, location, or entry under the public land laws, including the United States mining laws (30 U.S.C. Ch. 2), subject to valid existing rights:

Williamette Meridian

Tract A, Mariposa Botanical Area

T. 41 S., R. 2 E.,
Sec. 8, those portions of the W½NE¼, NW¼, and N½SW¼ lying westerly of Interstate 5 and excepting lands now owned by the State of Oregon as more particularly identified and described in the official records of the Bureau of Land Management, Oregon State Office.

The area described contains approximately 220.77 acres in Jackson County.

Tract B, Lower Table Rock Parking/Staging Area

T. 36 S., R. 2 W.,
Sec. 4, that portion of the NE¼SW¼ described as follows:

Commencing at ¾-inch iron pipe monumenting the West quarter corner of Sec. 4, T. 36 S., R. 2 W., Thence on a radial line towards the center of a 50.00-foot radius cul-de-sac S. 87°21'03" E., 883.26 feet to a ⅝-inch iron pin located on the arc of said 50.00-foot radius curve; Thence in a Southeasterly counter-clockwise direction along said 50.00-foot radius curve to the left (the long chord to which bears N. 85°33'22" E., 99.24 feet) an arc length of 169.46 feet to a ⅝-inch iron pin; Thence East 277.01 feet to a ⅝-inch iron pin; Thence along the arc of an 80.00-foot radius curve to the right (the long chord to which bears S. 80°54'09" E., 25.30 feet) an arc length of 25.41 feet to a ⅝-inch iron pin being a point of reverse curve; Thence along the arc of a 120.00-foot radius curve to the left (the long chord to which bears S. 80°50'04" E., 37.67 feet) an arc length of 37.82 feet to a ⅝-inch iron pin; Thence S. 89°51'50" E., 35.00 feet to a ⅝-inch iron pin for the point of beginning; Thence continue S. 89°51'50" E., 1,165.88 feet to a ⅝-inch iron pin; Thence S. 00°21'45" E., 65.00 feet to a ⅝-inch iron pin; Thence S. 89°51'50" E., 100.00 feet to a ⅝-inch iron pin; Thence N. 00°21'45" W., 64.00 feet to a ⅝-inch iron pin witness monument; Thence continue N. 00°21'45" W., 1.00 foot; Thence S. 89°51'50" E., 2.00 feet to a point located on the North-South centerline of said Sec. 4; Thence S. 00°21'45" E., along said North-South centerline 1,282.37 feet to a brass cap monumenting the Southeast corner of the N½SW¼ of said Sec. 4; Thence N. 89°49'49" W., along the South boundary of said North half 1,283.37 feet to a point that bears S. 00°28'30" E., from a ⅝-inch iron pin witness monument; Thence leaving said South boundary N. 00°28'30" W., 10.00 feet, more or less, to said ⅝-inch iron pin witness monument; Thence continue N. 00°28'30" W., 1,271.64 feet to the point of beginning. Excepting therefrom the following: Commencing at a ¾-inch iron pipe monumenting the West quarter corner of Sec. 4, T. 36 S., R. 2 W., Thence on a radial line towards the center of a 50.00-foot radius cul-de-sac S. 87°21'03" E., 883.26 feet to a ⅝-inch iron pin located on the arc of said 50.00-foot radius curve; Thence in a Southeasterly, counter-clockwise direction, along said 50.00-foot radius curve to the left (the long chord to which bears N. 85°33'22" E., 99.24 feet), an arc length of 169.46 feet to a ⅝-inch iron pin; Thence East 277.01 feet to a ⅝-inch iron pin; Thence along the arc of an 80.00-foot radius curve to the right (the long chord to which bears S. 80°54'09" E., 25.30 feet) an arc length of 25.41 feet to a ⅝-inch iron pin being a point of reverse curve; Thence along the arc of a 120.00-foot radius curve to the left (the long chord to which bears S. 80°50'04" E., 37.67 feet) an arc length of 37.82 feet to a ⅝-inch iron pin; Thence S. 89°51'50" E., 35.00 feet to a ⅝-inch iron pin; Thence continue S. 89°51'50" E., 1,165.88 feet to a ⅝-inch iron pin and the true point of beginning; Thence S. 00°21'45" E., 65.00 feet to a ⅝-inch iron pin; Thence S. 89°51'50" E., 100.00 feet to a ⅝-inch iron pin; Thence N. 00°21'45" W., 64.00 feet to a ⅝-inch iron pin witness monument; Thence continue N. 00°21'45" W., 1.00 foot; Thence S. 89°51'50" E., 20.00 feet to a point located on the North-South centerline of said Sec. 4; Thence S. 00°21'45" E., 75.00 feet; Thence West 521.3 feet; Thence N. 00°21'45" W., 75.0 feet, more or less, to a point on the South line of Cornerstone Lane (a dedicated way) as shown on Minor Land Partition filed August 8, 1988, in Volume 8, Page 59, of Minor Land Partition Records of Jackson County, Oregon; Thence S. 89°51'50" E., along said South line, 401.3 feet, more or less, to the true point of beginning.

The area described contains approximately 0.76 acre in Jackson County. The areas described aggregate approximately 258.42 acres in Jackson County.

The purpose of the proposed withdrawal is to protect the special botanical area and developed recreational site.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the State Director at the address indicated above.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested parties who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the State Director at the address indicated above within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the lands will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. No temporary land uses would be permitted by the authorized officer during the period of temporary segregation because any of these uses would interfere with the management of the parcels for the purposes for which they are being acquired.

Dated: April 21, 1993.

Champ C. Vaughan,

Acting Chief, Branch of Lands and Minerals Operations.

Meeting of the Committee on Mining and Mineral Resources Research

The Advisory Committee on Mining and Mineral Resources Research will meet from 8 a.m. to 5 p.m. (or completion of business) on Thursday, June 10, 1993, in the Randolph Room, Faculty House, Columbia University, New York City, New York. The proposed agenda is:

1. Welcome and introductions.
2. Approval of the minutes of the meeting of July 16, 1992.
3. Review of congressional actions affecting the Mineral Institute Program.
4. Review of funding applications and approval of grant awards.
5. Administrative plan for the next grant award cycle.
6. Presentation of the organization, administration, and activities of the Mine Land Reclamation Center.
7. Review of the activities of the State of New York Mining and Mineral Resources Research Institute.
8. Review of audit results on grants issued to the Universities of Mississippi and Hawaii.
9. Consideration of the application of the University of Hawaii to be designated a Mineral Institute.
10. Discussion of the next Update to the National Plan.
11. New Business.

This meeting is open to the public. Written statements concerning agenda subjects are welcome and should be sent to the Office of Mineral Institutes, Bureau of Mines, Mail Stop 1020, 810 Seventh Street, NW., Washington, DC 20241, telephone 202–501–9295, Internet mininsts@gwuvm.gwu.edu, no later than 4 p.m., Tuesday, June 8, 1993.

Dated: April 26, 1993.

BILLING CODE 4310–53–M

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; Availability of a Draft Recovery Plan for the Chisos Mountain Hedgehog Cactus for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of a draft recovery plan for the Chisos Mountain hedgehog cactus (*Echinocereus chisoensis* var. *chisoensis*) which the Service listed as a threatened species on September 30, 1988 (53 FR 38543). This plant has a very limited distribution in Brewster County, Texas, and may possibly extend into Mexico. All known plants occur on Federal lands. The Service solicits review and comment from the public on this draft plan.

DATES: Comments on the draft recovery plan must be received on or before June 29, 1993 to receive consideration by the Service.

ADDRESSES: Persons wishing to review the draft recovery plan may obtain a copy by contacting the U.S. Fish and Wildlife Service, Austin Ecological Services Field Office, 611 E. Sixth Street, room 407, Austin, Texas 78701; Telephone (512) 482–5436. Written comments and materials regarding the plan should be addressed to the State Administrator at the above address. Comments and materials received will be available on request for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Kathryn Kennedy, Fish and Wildlife Service Botanist; telephone (512) 482–5436, or at the above address.

SUPPLEMENTARY INFORMATION:

Background

Restoring an endangered or threatened plant or animal to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the U.S. Fish and Wildlife Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe site-specific management actions considered necessary for conservation and survival of the species, establish objective, measurable criteria for the recovery levels for downlisting or delisting species, and estimate time and cost for implementing recovery measures needed.

The Endangered Species Act of 1973(Act), as amended (16 U.S.C. 1531 *et seq.*) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to approval of each new or revised recovery plan. The Service and other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

The Chisos Mountain hedgehog cactus is a threatened species that grows on alluvia flats in Chihuahuan Desert scrub vegetation. All known populations occur on Federal lands. The Chisos Mountain hedgehog cactus is threatened because of illegal collecting activities. Development and maintenance activities on Federal lands could also have a damaging impact. It is possible that past land management practices and changing climatic conditions have caused habitat degradation and loss of habitat and plants. The small population that remains may have low viability and reduced recruitment.

The objective of a recovery plan is to restore the species to the point that its continued existence is no longer threatened and it can be delisted. Delisting criteria are given in the draft recovery plan. Recovery efforts outlined in the recovery plan include site protection, habitat management, public education and information. Other recovery efforts set forth in the plan include establishing a conservation seed bank and cultivated population, conducting research on the biological and ecological requirements of the species, searching for additional populations, examining the feasibility of reintroduction to habitats within the species historic range, and providing protection from harm as provided by the Endangered Species Act.

The Chisos Mountain hedgehog cactus recovery plan has undergone technical review. The plan will be finalized and approved following incorporation of comments and materials received during this comment period.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of the plan.

Authority

The Authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: April 26, 1993.

John G. Rogers,

Regional Director.

BILLING CODE 4310–55–M

VOL 58 ISS 82 AP 30 1993 UMI

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731-TA-646-649 (Preliminary)]

Steel Wire Rod From Brazil, Canada, Japan, and Trinidad and Tobago

AGENCY: United States International Trade Commission.

ACTION: Institution and scheduling of preliminary antidumping investigations.

SUMMARY: The Commission hereby gives notice of the institution of preliminary antidumping investigations Nos. 731-TA-646-649 (Preliminary) under section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Brazil, Canada, Japan, and Trinidad and Tobago of certain steel wire rod,[1] provided for in subheadings 7213.31.30, 7213.31.60, 7213.39.00, 7213.41.30, 7213.41.60, 7213.49.00, 7213.50.00, 7227.20.00, and 7227.90.60 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value. The Commission must complete preliminary antidumping investigations in 45 days, or in this case by June 7, 1993.

For further information concerning the conduct of these investigations and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and B (19 CFR part 207).

EFFECTIVE DATE: April 23, 1993.

FOR FURTHER INFORMATION CONTACT: Brad Hudgens (202-205-3189), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000.

SUPPLEMENTARY INFORMATION:

Background

These investigations are being instituted in response to a petition filed on April 23, 1993, by Connecticut Steel Corp., Wallingford, CT; North Star Steel Texas, Inc., Beaumont, TX; Keystone Steel & Wire Corp., Peoria, IL; Raritan River Steel Company, Perth Amboy, NJ (except for the investigation concerning Brazil); and Georgetown Steel Corp., Georgetown, SC.

Participation in the Investigations and Public Service List

Persons (other than petitioners) wishing to participate in the investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in sections 201.11 and 207.10 of the Commission's rules, not later than seven (7) days after publication of this notice in the **Federal Register**. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to these investigations upon the expiration of the period for filing entries of appearance.

Limited Disclosure of Business Proprietary Information (BPI) Under an Administrative Protective Order (APO) and BPI Service List

Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI gathered in these preliminary investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made not later than seven (7) days after the publication of this notice in the **Federal Register**. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Conference

The Commission's Director of Operations has scheduled a conference in connection with these investigations for 9:30 a.m. on May 14, 1993, at the U.S. International Trade Commission Building, 500 E Street SW., Washington, DC. Parties wishing to participate in the conference should contact Brad Hudgens (202-205-3189) not later than May 11, 1993, to arrange for their appearance. Parties in support of the imposition of antidumping duties in these investigations and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference. A nonparty who has testimony that may aid the Commission's deliberations may request permission to present a short statement at the conference.

Written submissions

As provided in sections 201.8 and 207.15 of the Commission's rules, any person may submit to the Commission on or before May 19, 1993, a written brief containing information and arguments pertinent to the subject matter of the investigations. Parties may file written testimony in connection with their presentation at the conference no later than three (3) days before the conference. If briefs or written testimony contain BPI, they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules.

In accordance with sections 201.16(c) and 207.3 of the rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Authority: These investigations are being conducted under authority of the Tariff Act of 1930, title VII. This notice is published pursuant to section 207.12 of the Commission's rules.

Issued: April 26, 1993.

By order of the Commission.

Paul R. Bardos,

Acting Secretary.

[FR Doc. 93-10155 Filed 4-29-93; 8:45 am]

BILLING CODE 7020-02-P

[1] For purposes of these investigations, steel wire rod is defined as hot-rolled, semifinished steel mill products produced on a rod mill from carbon steel or certain alloy steel, of solid circular cross section, between 5.5 mm (0.20 inch) and 19.0 mm (0.75 inch) in diameter, in irregularly wound coils, and intended for the production of wire and wire products. Steel wire rod of free-machining steel is excluded; i.e., any steel product which contains by weight any of the following elements is not subject to these investigations:

—0.03 percent or more of lead,
—0.05 percent or more of bismuth,
—0.08 percent or more of sulfur,
—more than 0.4 percent of phosphorus,
—more than 0.05 percent of selenium, and/or
—more than 0.01 percent of tellurium.

INTERSTATE COMMERCE COMMISSION

Intent To Engage in Compensated Intercorporate Hauling Operations

This is to provide notice as required by 49 U.S.C. 10524(b)(1) that the named corporations intend to provide or use compensated intercorporate hauling operations as authorized in 49 U.S.C. 10524(b).

A. 1. Parent corporation and address of principal office: Flynn Ready-Mix Concrete Co., East 12th Street Extension, Dubuque, IA 52001.

2. Wholly owned subsidiaries which will participate in the operations and State(s) of incorporation:

(i) Aggregate Materials Co.—Iowa Corporation
(ii) Century Concrete Co.—Iowa Corporation
(iii) Green Valley Ready-Mix, Inc.—Wisconsin Corporation

B. 1. Parent Corporation: Herman Miller, Inc., 855 East Main Avenue, P.O. Box 302, Zeeland, MI 49464-0302.

2. Wholly-owned subsidiaries:
Miltech/IMT, Incorporated in Michigan
Meridian, Inc., Incorporated in Michigan
Milcare, Inc., Incorporated in Michigan
Phoenix Designs, Inc., Incorporated in Michigan
Powder Coat Technologies, Incorporated in Michigan

BILLING CODE 7035-01-M

[Docket No. AB-6 Sub-No. 342X]

Burlington Northern Railroad Company—Abandonment; Exemption—in Snohomish County, WA

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Commission exempts from the prior approval requirements of 49 U.S.C. 10903-10904 the abandonment by Burlington Northern Railroad Company of its 26.66-mile line of railroad between milepost 8.19, at Arlington, and milepost 34.86, at Darrington, in Snohomish County, WA, subject to environmental, public use, interim trail use/rail banking, and standard employee protective conditions.

DATES: Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on April 30, 1993. Formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2)[1] must be filed by May 10, 1993. Petitions to stay must be filed by May 17, 1993. Petitions to reopen must be filed by May 25, 1993. Requests for public use conditions must be filed by May 20, 1993.

ADDRESSES: Send pleadings, referring to Docket No. AB-6 (Sub-No. 342X) to:

(1) Office of the Secretary, Case Control Branch Interstate Commerce Commission, Washington, DC 20423. and

(2) Petitioner's representative: Sarah J. Whitley, 3800 Continental Plaza, 777 Main Street, Ft. Worth, TX 76102.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder, (202) 927-5610. [TDD for hearing impaired: (202) 927-5721]

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dynamic Concepts, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289-4357/4359. [Assistance for the hearing impaired is available through TDD services (202) 927-5721.]

Decided: April 22, 1993.

By the Commission, Chairman McDonald, Vice Chairman Simmons, Commissioners Phillips, Philbin, and Walden.

Sidney L. Strickland, Jr.,

Secretary.

[Docket No. AB-6 Sub-No. 345X]

Burlington Northern Railroad Company—Abandonment; Exemption—in Pacific and Lewis Counties, WA

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Exemption.

SUMMARY: Under 49 U.S.C. 10505, the Commission exempts from the prior approval requirements of 49 U.S.C. 10903-04 the abandonment by Burlington Northern Railroad Company of a 56.35-mile rail line between milepost 0.00, at Chehalis, and milepost 56.35, at South Bend, in Pacific and Lewis Counties, WA, subject to environmental, interim trail use/rail banking, and standard labor protective conditions.

DATES: Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on May 30, 1993. Formal expressions of intent to file an offer of financial assistance[1] under 49 CFR 1152.27(c)(2) must be filed by May 10, 1993, petitions to stay must be filed by May 17, 1993, and petitions for reconsideration must be filed by May 25, 1993. Requests for public use conditions must be filed by May 20, 1993.

ADDRESSES: Send pleadings referring to Docket No. AB-6 (Sub-No. 345X) to:

(1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423, and

CSX Corp., Control, Chessie System, Inc. and Seaboard Coastline Industries, Inc.; Norfolk Southern Corp., Control, Norfolk and Western Railway Co. and Southern Railway Co. (Arbitration Review)

AGENCY: Interstate Commerce Commission.

ACTION: Request for comments; extension of comment due date.

SUMMARY: By decision served March 31, 1993 (58 FR 16848, March 31, 1993), the Commission granted an extension of the reply comment due date to May 3, 1993. By motion filed April 22, 1993, the Brotherhood Railway Carmen Division of the Transportation Communications International Union, AFL-CIO (Carmen) requests an extension to June 2, 1993, for all parties to file reply comments in this proceeding. Carmen seeks this extension due to scheduling conflicts with other cases. Counsel states it has contacted CSX Transportation, Inc., the Norfolk and Western and Norfolk Southern Railway Companies, the Railway Labor Executives' Association, and American Train Dispatchers' Association and no party has objected to the extension request. The request is reasonable and will be granted.

DATES: Replies are due on June 2, 1993.

ADDRESSES: Send pleadings referring to Finance Docket Nos. 28905 (Sub-No. 22) and 29430 (Sub-No. 20) to: Office of the Secretary, Case Control Branch,

[Finance Docket No. 32279]

Norfolk and Western Railway Co.—Petition for Declaratory Order—Lease of Line in Cook and Will Counties, IL to Commuter Rail Division of the Regional Transportation Authority of Northeast Illinois; Correction

AGENCY: Interstate Commerce Commission.

ACTION: Correction to notice of institution of proceeding and request for comments.

SUMMARY: On April 21, 1993, at 58 FR 21475, the Commission published a notice of institution of proceeding and request for comments. The purpose of this notice is to insert nine words that were inadvertently omitted from that notice.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder, (202) 927-5610 (TDD for hearing impaired: (202) 927-5721).

SUPPLEMENTARY INFORMATION: In paragraph 2 of "**SUPPLEMENTARY INFORMATION,**" the first two sentences should read: NW states that, since 1979, it has been providing commuter rail service on the Joint Line for METRA under a Purchase of Service Agreement. Over the years, the suburbs southwest of Chicago, where the Joint Line runs, have grown and commuter service has expanded.

Decided: April 27, 1993.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035-01-M

Motor Passenger Carrier or Water Carrier Finance Applications Under 49 U.S.C. 11343-11344

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties of, or acquire control of motor passenger carriers or water carriers under 49 U.S.C. 11343-11344. The applications are governed by 49 CFR part 1182, as revised in Pur., Merger & Cont.—Motor Passenger & Water Carriers, 5 I.C.C.2d 786 (1989). The findings for these applications are set forth at 49 CFR 1182.18. Persons wishing to oppose an application must follow the rules under 49 CFR part 1182, subpart B. If no one timely opposes the application, this publication automatically will become the final action of the Commission.

MC-F-20317, filed March 29, 1993. John G. Van Der Aa, Terry L. Van Der Aa, and Vancom, Inc.,—Continuance in Control—Vancom-Michigan, Inc., Vancom-Ohio, Inc., Vancom Transportation-Missouri, Inc., ATC/Vancom of Illinois, Inc., d/b/a Huskie Lines, and ATC/Vancom, Inc. Applicants' representative: Arnold L. Burke, 180 N. LaSalle Street, suite 2025, Chicago, IL 60601. Applicants John G. Van Der Aa and Terry L. Van Der Aa, both non-carrier individuals, and Vancom, Inc. (Vancom), a common carrier authorized to transport passengers under MC-163845, seek approval to continue to control Vancom-Michigan, Inc. (MC-256505); Vancom-Ohio, Inc. (MC-257630); Vancom Transportation-Missouri, Inc. (MC-259771); ATC/Vancom of Illinois, Inc., d/b/a Huskie Lines (MC-258853); and ATC/Vancom, Inc. (MC-260911) who have pending initial applications to transport passengers in charter and special operations between points in the United States (except Alaska and Hawaii). The business address of all of the above is One River Place, South Holland, IL 60473.

Messrs Van Der Aa and Vancom also control Indiana Bus Service, Inc., (MC-141600); American Transit Corp., d/b/a Huskie Line (MC-168387); American Transit Corp., d/b/a Valley Coach (MC-205760); Vancom-Illinois, Inc., (MC-167816); Royal American Charter Lines, Inc., (MC-165919); and Vancom-Connecticut, Inc., (MC-219430). These various control relationships previously were exempted by the Commission in Docket Nos. MC-F-14359 and 20086.

Decided: April 27, 1993.

By the Commission, the Motor Carrier Board.

Sidney L. Strickland, Jr.,

Secretary.

DEPARTMENT OF JUSTICE

Antitrust Division

Notice Pursuant to the National Cooperative Research Act of 1984—Bell Communications Research, Inc.

Notice is hereby given that, on March 8, 1993, pursuant to section 6(a) of the National Cooperative Research Act of 1984, 15 U.S.C. 4301 *et seq.* ("the Act"), Bell Communications Research, Inc. ("Bellcore") filed a written notification on behalf of Bellcore and American Telephone and Telegraph Company ("AT&T") simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notification was filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties are Bellcore, Livingston, NJ; and AT&T, Basking Ridge, NJ. Bellcore and AT&T entered into an agreement effective as of December 3, 1992 to engage in cooperative research directed to exploring technologies for interface issues involving video dialtone services, to better understand the application of such technologies for exchange and exchange access services, including prototype fabrication for experimental demonstration of such technologies.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

BILLING CODE 4410-01-M

Foreign Claims Settlement Commission

Claims Against Iran

AGENCY: Foreign Claims Settlement Commission of the United States, Department of Justice.

ACTION: Notice.

SUMMARY: The persons listed in the information section of this notice have claims pending against the Islamic Republic of Iran which are before the Foreign Claims Settlement Commission (FCSC) for adjudication. The claims are among a total of approximately 3,100 claims of under $250,000 which were settled under an agreement between the United States and Iran which took effect on June 22, 1990. However, these claimants have failed to inform the FCSC of their current addresses, and despite its efforts, the FCSC has been unable to locate or contact these claimants. The purpose of this notice is to publicize the names, claim numbers, and last known addresses of these claimants, and to inform them that unless they furnish their current addresses to the FCSC by September 1, 1993 their claims will be dismissed from further consideration.

DATES: The deadline for providing an updated address is September 1, 1993.

FOR FURTHER INFORMATION CONTACT: David E. Bradley, Chief Counsel, Foreign Claims Settlement Commission of the United States, 601 D Street, NW., room 10430, Washington, DC 20579, (202) 208-7730 or FAX (202) 208-2816.

SUPPLEMENTARY INFORMATION: The Foreign Claims Settlement Commission of the United States (FCSC) hereby gives notice that it has been unable to locate the following named claimants, whose last known addresses and claim numbers also appear below, who have claims pending before the FCSC for property and financial losses alleged to have been caused by the Government of Iran. These claims are among the approximately 3,100 claims of under $250,000 each which were settled en bloc under an agreement between the United States and the Government of Iran which took effect on June 22, 1990. *Settlement Agreement in Claims of Less than $250,000, Case No. 86 and Case No. B38,* Award No. 483 (1990). The FCSC has been given authority to adjudicate the claims under Title V of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987 (Pub. L. 99-93, approved August 16, 1985, 99 Stat. 437 (50 U.S.C. 1701 note)).

Further, the FCSC hereby gives notice to each of these claimants that it will dismiss their claims from further consideration, regardless of their potential validity, unless it receives notification of the claimant's current address on or before the deadline of September 1, 1993.

Dated at Washington, DC, on April 26, 1993.

James H. Grossman,

Chairman.

Immigration and Naturalization Service

RIN 1115–AD39

[INS No. 1601–92]

Guidelines on Producing Master Exhibits for Asylum Applications

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Notice.

SUMMARY: This notice provides information: On how to obtain guidelines on submitting Master Exhibits to the Resource Information Center for use in asylum applications; on what Master Exhibits are currently available; and on how to obtain them from submitting organizations.

FOR FURTHER INFORMATION CONTACT:
John D. Evans, Director, or Lorraine Eide, Resource Information Officer; Resource Information Center, Office of International Affairs; Immigration and Naturalization Service, 425 I Street NW., Washington, DC 20536, Attn: ULLICO, T536 Attn: ULLICO, Third Floor; Telephone (202) 633–1040, Telefax (202) 633–1320.

EFFECTIVE DATE: April 30, 1993.

SUPPLEMENTARY INFORMATION:
Responding to the suggestion of many nongovernmental and legal assistance agencies, the Immigration and Naturalization Service (INS) Resource Information Center is now soliciting submissions of "Master Exhibits" in support of asylum applications. Master Exhibits are compilations of documents (including articles from international and regional news media, human rights reports, academic articles, and maps) concerning the status of one specific "population at risk" in one particular country, such as Guatemalan Kanjobal Indians, Salvadoran trade unionists, Jews in Georgia, Iranian Baha'is, Chinese pro-democracy activists, etc. Master Exhibits may also address legal issues related to asylum applications, such as the issue of statelessness and Palestinians, or the legal concept of firm resettlement. Master Exhibits are used as one means by which credible information on a given group deemed "at risk" is presented to Asylum and Immigration Officers to support individual applications for asylum.

Organizations Interested in Submitting Master Exhibits

Any private voluntary organization, law firm, or other group or individual willing and able to meet obligations outlined in Master Exhibit guidelines is eligible to submit Master Exhibits. Obligations include preparing information in stipulated format, and either providing copies of the Master Exhibits to the general public as requested, or making arrangements with another group or agency for such distribution. The Resource Information Center strongly suggests that interested persons and/or groups call before starting work on a Master Exhibit to ensure the efforts of another organization are not duplicated, and that format and submission procedures are clear.

Each Master Exhibit must follow specific guideline requirements which include submission of a Table of Contents which clearly identifies the source of each document in the Master Exhibit, and a brief annotated summary of each article contained in the Master Exhibit which explains why the article is relevant for an application for asylum. To obtain more specific guidance on format and submission procedures, please request a copy of the Master Exhibit Guidelines from the Resource Information Center (telephone number and address above).

Obtaining Master Exhibits

The following list of Master Exhibits is now available to Asylum Officers. The list includes the address of the organization which submitted or is distributing each Master Exhibit. A list of new Master Exhibits and the addresses from which to order them will be published quarterly in the **Federal Register**. The Resource Information Center only distributes Master Exhibits to INS Asylum Officers and other INS personnel. Copies of Master Exhibits are not currently available to the public for review at the INS Asylum Offices. Members of the public interested in obtaining Master Exhibits must contact the individual organization which prepared or is distributing the document. A fee to cover postage and handling may be charged by that organization.

Master Exhibits Now Available

El Salvador: Documentation on Post Peace Accord: March–May 1992, [ME/SLV/92.001], August 1992. Produced and distributed by: University of San Francisco Refugee/Human Rights Clinic, Kendrick Hall, 2130 Fulton Street, San Francisco, CA 94117.

Guatemala: Death Squads/Security Forces: MLN (National Liberation Movement, [ME/GTM/93.003], October 1992. Produced and distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin, TX 78768.

Guatemala: Departure/Safe Haven, [ME/GTM/93.002], October 1992. Produced and distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin, TX 78768.

Guatemala: Forced Recruitment/Army, [ME/GTM/92.003], August 1992. Produced and distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin, TX 78768.

Guatemala: Forced Recruitment/Civil Patrols, [ME/GTM/92.002], August 1992. Produced and distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin, TX 78768.

Guatemala: Persecution of Indigenous People, including: Kanjobales and model villages, [ME/GTM/92.001], August 1992. Produced and distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin, TX 78768.

Guatemala: Persecution of Popular Movements: Students and Teachers, [ME/GTM/92.004], August 1992. Produced and distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin, TX 78768.

Guatemala: Sexual Violence Against Women. [ME/GTM/93.001], October 1992. Produced and distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin, TX 78768.

Haiti, [ME/HTI/92.001], August 1992. Produced and distributed by: the Catholic Legal Immigration Network, Inc. (CLINIC), 3211 4th Street, NE., Washington, DC 20017.

Haiti, [ME/HTI/93.001], December 1992. Produced and distributed by: the Catholic Legal Immigration Network, Inc. (CLINIC), 3211 4th Street, NE., Washington, DC 20017.

Peru: A Decade of Violence: [ME/PER/93.001], October 1992, Produced by Jorge Gonzales Lara, and Patrick Young of CARECEN. Distributed by: Documentation Exchange (formerly Central America Resource Center), P.O. Box 2327, Austin , TX 78768.

Syria: Persecution of Syrian Jews: [ME/SYR/93.001], November 1992, Produced and distributed by: HIAS 333 Seventh Avenue, New York, NY 10001–5004.

Using Master Exhibits to support asylum applications: Each Master

VOL 58 ISS 82 AP 30 1993 UMI

Exhibit will provide publicly available information, analyses, or comment. All sources will be cited. Updates to a Master Exhibit may be made from time to time. A Master Exhibit, however, will not be, and will not purport to be, either exhaustive with regard to the country surveyed, or conclusive as to the merits of any particular claim to refugee status or asylum. It will be for the Asylum Officer adjudicating a particular case to determine what evidentiary weight to give to the information in any Master Exhibit.

The inclusion of a Master Exhibit in the Service collection of Master Exhibits will not constitute an endorsement of the information in the Master Exhibit. The views expressed in any Master Exhibit, therefore, will not necessarily represent statements of policy of the United States Government, nor will a Master Exhibit submitted by an entity other than an agency of the United States Government reflect foreign policy concerns of the United States Government.

Attorneys, legal assistants, community-based organizations, and asylum applicants who wish to use Master Exhibits in support of an asylum application should refer to the Master Exhibit by title, document number, and data (for instance: Master Exhibit Series: Guatemala: Persecution of Indigenous People, including: Kanjobales and model villages, [ME/GTM/92.001], August 1992). Applicants are strongly encouraged to be as specific as possible by identifying those particular documents in the Master Exhibit which are most relevant to the applicant's personal situation. Applicants may also want to point out particularly important pages or paragraphs within a document in the Master Exhibit to support their application for asylum. These should be referred to by item number, citation, and page number (for instance: Item II., Brook Larmer, "Guatemala's Indians Become the Battlefield," The Christian Science Monitor, 4 September 1990 (as reported in the Information Services on Latin America [ISLA], Oakland, California, #998)., pp. 4–5 [see especially page 4, paragraphs 10 through 12]).

Applicants who refer to a Master Exhibit in their applications are not required to submit copies of it to the Asylum Office. However, the asylum applicant may include photocopies of the cover page, annotated Table of Contents, or important documents, and may highlight or otherwise identify important paragraphs or sentences within the Table of Contents or documents if the asylum applicant prefers to do so.

Dated: April 12, 1993.

Chris Sale,

Acting Commissioner, Immigration and Naturalization Service.

BILLING CODE 4410–10–M

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Coal Miners, Inc.

[Docket No. M–93–49–C]

Coal Miners, Inc., Rt 2, Box 130, Equality, Illinois 62934 has filed a petition to modify the application of 30 CFR 75.360(b)(6) (preshift examination) to its Eagle Valley Mine (I.D. No. 11–02846) located in Gallatin County, Illinois. The petitioner proposes to test for methane and oxygen deficiency during the preshift examination at each main split of air to each working section and examine at least one entry of the intake air course once a week. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

2. Consolidation Coal Company

[Docket No. M–93–50–C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241–1421 has filed a petition to modify the application of 30 CFR 75.364(b)(2) (weekly examination) to its Blacksville No. 2 Mine (I.D. No. 46–01968) located in Monongalia County, West Virginia. Due to deteriorating roof conditions, certain areas of the return air course cannot be safely traveled. The petitioner proposes to establish evaluation check points to monitor the quantity and quality of air entering and leaving the affected area. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

3. U.S. Steel Mining Company, Inc.

[Docket No. M–93–51–C]

U.S. Steel Mining Company, Inc., has filed a petition to modify the application of 30 CFR 75.1700 (oil and gas wells) to its Gary No. 50 Mine (I.D. No. 46–01816) located in Wyoming County, West Virginia. The petitioner proposes to plug and mine through oil and gas wells. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

4. Manalapan Mining Company, Inc.

[Docket No. M–93–52–C]

Manalapan Mining Company, Inc., Rt 1, Box 374, Evarts, Kentucky 40828 has filed a petition to modify the application of 30 CFR 75.364(b)(2) to its Mine No. 1 (I.D. No. 15–05423) located in Harlan County, Kentucky. Due to deteriorating roof conditions, certain areas of the return air course cannot be safely traveled. The petitioner proposes to travel the return air course to the fall area, travel in the adjacent belt entry until reaching the next door and then return to the return air course, by passing the fall area. The petitioner states that traveling the fall area would result in a diminution of safety.

5. Gridner Mining Company

[Docket No. M–93–53–C]

Gridner Mining Company, P.O. Box 1328, Barbourville, Kentucky 40906–7328 has filed a petition to modify the application of 30 CFR 75.342 (methane monitors) to its No. 2 Mine (I.D. No. 15–17288) located in Knox County, Kentucky. The petitioner proposes to use hand-held continuous-duty methane and oxygen indicators instead of machine mounted methane monitors on permissible three-wheel tractors with drag bottom buckets.

6. Trapper Mining, Inc.

[Docket No. M–93–54–C]

Trapper Mining, Inc., P.O. Box 187, Craig, Colorado 81626 has filed a petition to modify the application of 30 CFR 77.1304(a) (blasting agents; special provisions) to its Trapper Mine (I.D. No. 05–02838) located in Moffat County, Colorado. The petitioner requests that certain provisions in items 3, 4(a)(c) and (e), 6, 14, 17(b), 18(b), 20, and 21 in MSHA's December 9, 1991, Decision and Order, docket number M–91–13–C be amended. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

7. Windsor Coal Company

[Docket No. M–93–55–C]

Windsor Coal Company, P.O. Box 39, West Liberty, West Virginia 26074 has filed a petition to modify the application of 30 CFR 75.364(a) (weekly examination) to its Windsor Mine (I.D. No. 46–01286) located in Brooke County, West Virginia. Due to deteriorating roof conditions, certain areas of the return air course cannot be safety traveled. The petitioner proposes to establish evaluation check points to monitor the quantity and quality of air entering and leaving the affected area. The petitioner asserts that the proposed alternate method would provide at least the same measure of protection as would the mandatory standard.

8. Tanglewood Energy, Inc.

[Docket No. M–93–56–C]

Tanglewood Energy, Inc., P.O. Box 129, Summersville, West Virginia 26651–0129 has filed a petition to modify the application of 30 CFR 75.380(d)(4) (escapeways; bituminous and lignite mines) to its Tanglewood No. 2 Mine (I.D. No. 46–06329) located in Mineral County, West Virginia. The petitioner proposes to maintain a wide clearance of less than 6 feet between crosscuts No. 8 and No. 9 adjacent to two cribs, between crosscuts No. 10 and No. 11 adjacent to one crib, and between crosscuts No. 11 and No. 12 adjacent to one crib and timber. The petitioner states that it would be hazardous to attempt to relocate the cribs.

9. Usibelli Coal Mine, Inc.

[Docket No. M–93–57–C]

Usibelli Coal Mine, Inc., P.O. Box 1000, Healy, Alaska 99743 has filed a petition to modify the application of 30 CFR 75.1605(k) (loading and haulage equipment; installations) to its Usibelli Mine (I.D. No. 50–00030) located in Yukon River County, Alaska. Due to climatic weather conditions and permafrost which causes hazardous conditions to roadways and vehicular traffic, the petitioner requests permission to use certain safety precautions as an alternative to berms and guardrails on haulage roads. The petitioner asserts that the proposed rule would provide at least the same measure of protection as would the mandatory standard.

Request for Comments

Persons interested in these petitions may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before June 1, 1993. Copies of these petitions are available for inspection at that address.

Dated: April 22, 1993.

Patricia W. Silvey,

Director, Office of Standards, Regulations and Variances.

Employment and Training Administration

[TA–W–27,290 Dallas, TX and TA–W–27,291 Midland, TX]

Enserch Exploration, Inc., A/K/A EP Operating Co.; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on July 17, 1993, applicable to the workers of the subject firm.

At the request of the State Agency, the Department reviewed the certification for workers of the subject firm. The investigation findings show that Enserch Exploration, Inc., is a managing general partner of EP Operating Limited Partnership and a wholly owned subsidiary of Enserch Corporation.

Also, the findings show that the claimants' wages were paid under a predecessor unemployment insurance (UI) account number bearing the name: EP Operating Company. In September, 1992 EP Operating Company became the EP Operating Company, LTD., and in October 1992 it became EP Operating Limited Partnership.

Accordingly, the Department is amending the certification to properly reflect the correct UI tax status for the above certified worker group.

The amended notice applicable to TA–W–27,290 and TA–W–27,291 is hereby issued as follows:

All workers of Enserch Exploration, Inc., also known as EP Operating Company, Dallas, Texas who became totally or partially separated from employment on or after May 12, 1991 and all workers of Enserch Exploration, Inc., also known as EP Operating Company, Midland, Texas who became totally or partially separated from employment on or after May 15, 1991 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC, this 22nd day of April 1993.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510–30–M

Employment Standards Administration Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any

VOL 58 ISS 82 AP 30 1993 UMI

modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., room S-3014, Washington, DC 20210.

Modification to General Wage Determination Decisions

The number of decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.

General Wage Determination Publication

General Wage Determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783-3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, this 23rd Day of April 1993.

Alan L. Moss,

Director, Division of Wage Determinations.

BILLING CODE 4510-27-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 93-033]

NASA Advisory Council (NAC), Aeronautics Advisory Committee (AAC); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NAC, Aeronautics Advisory Committee Task Force on General Aviation Transportation.

DATES: May 17, 1993, 8:30 a.m. to 5:30 p.m.; and May 18, 1993, 8:30 a.m. to 4:30 p.m.

ADDRESSES: Wichita State University, National Institute for Aviation Research, Dwane Wallace Conference Room, 1845 Fairmount Drive, Wichita, KS 67260-0093.

FOR FURTHER INFORMATION CONTACT: Mr. Bruce J. Holmes, National Aeronautics and Space Administration, Langley Research Center, Hampton, VA 804/864-6048.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

—General Aviation Competitiveness
—University and Non-NASA Related Research
—Technology Development Process and Facilities
—Aeronautical Systems
—Propulsion, Noise, Emissions
—Structures and Materials
—Aerodynamics
—General Aviation Research Plan
—Facilities: New Capabilities and Upgrade Plans
—Facilities Tour

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.

Dated: 26 April 1993.

Danalee Green,

Chief, Management Controls Office.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Agency Information Collection Activities Under OMB Review

AGENCY: National Endowment for the Arts, NFAH.

ACTION: Notice.

SUMMARY: The National Endowment for the Arts (NEA) has sent to the Office of Management and Budget (OMB) a request for clearance of the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATES: Comments on this information collection must be submitted by June 1, 1993.

ADDRESSES: Send comments to Mr. Steve Semenuk, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, NW., room 3002, Washington, DC 20503; (2050395-7316). In addition, copies of such comments may be sent to Ms. Judith E. O'Brien, National Endowment for the Arts, Administrative Services Division, room 203, 1100 Pennsylvania Avenue, NW., Washington, DC 20506; (202-682-5401).

FOR FURTHER INFORMATION CONTACT:

Ms. Judith E. O'Brien, National Endowment for the Arts, Administrative Services Division, room 203, 1100 Pennsylvania Avenue, NW., Washington, DC 20506; (202-682-5401).

SUPPLEMENTARY INFORMATION: The Endowment requests the review of a revision of a currently approved collection of information. This entry is issued by the Endowment and contains the following information:

(1) The title of the form; (2) how often the required information must be reported; (3) who will be required or asked to report; (4) what the form will be used for; (5) an estimate of the number of responses; (6) the average burden hours per response; (7) an estimate of the total number of hours needed to prepare the form. This entry is not subject to 44 U.S.C. 3504(h).

Title: FY 95 Literature Program Application Guidelines.

Frequency of Collection: One time.

Respondents: Individual artists, nonprofit organizations, and state and local arts agencies.

Use: Guideline instructions and applications elicit relevant information from individual artists and arts organizations that apply for funding in the Literature Program. This information is necessary for the accurate, fair and thorough consideration of competing proposal in the review process.

Estimated Number of Respondents: 2,720.

Average Burden Hours Per Response: 19.84.

Total Estimated Burden: 54,225.

Judith E. O'Brien,

Management Analyst, Administrative Services Division, National Endowment for the Arts.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Meetings; Expansion Arts Advisory Panel

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Expansion Arts Advisory Panel (Rural Arts Initiative Section) to the National Council on the Arts will be held on May 18, 1993 from 9 a.m.-5:30 p.m. in room 730 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

Portions of this meeting will be open to the public from 9 a.m.-9:30 a.m. and 4:30 p.m.-5:30 p.m. for introductory remarks and policy discussion.

The remaining portion of this meeting from 9:30 a.m.-4:30 p.m. is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of November 24, 1992, this session will be closed to the public pursuant to subsection (c) (4), (6), and (9)(B) of section 552b of title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels which are open to the public, and may be permitted to participate in the panel's discussions at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, 202/682-5532, TTY 202/682-5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682-5439.

Yvonne M. Sabine,

Director, Panel Operations, National Endowment for the Arts.

BILLING CODE 7537-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-293]

Boston Edison Co; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering the approval of a procedure for on site relocation of 79,000 cubic feet of sand, silt, and rough stone containing very low levels of radioactivity at the Pilgrim Nuclear Power Station (PNPS), pursuant to 10 CFR 20.302(a), as requested by the Boston Edison Company (the licensee). PNPS is located in Plymouth, Massachusetts.

Environmental Assessment

Identification of Proposed Action

The proposed action would approve the on site relocation of controlled backfill grading soil placed at its present site during original plant construction.

The Need for the Proposed Action

The location where the material has been stored since original plant construction is planned for a parking lot to support the influx of employees when the new engineering building is completed and for additional contractor parking during maintenance outages. The licensee will relocate the material outside the fenced area to a location within the licensee's controlled area.

Environmental Impacts of the Proposed Action

The Commission has evaluated the environmental impact of the proposed action and has determined that the proposed procedures for the relocation of the construction soil at Pilgrim Nuclear Power Station will minimize the risk of unexpected exposure. The licensee proposal was evaluated against the staff guidelines for on site disposal and found to be acceptable. The potential exposure pathways to members of the general public from the radionuclides in the soil is determined to be less than 1mrem/year. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed soil relocation.

With regard to potential nonradiological impacts, the proposed approval would not affect nonradiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that their is no significant nonradiological environmental impacts

VOL 58 ISS 82 AP 30 1993 UMI

associated with the proposed soil relocation.

Alternative to the Proposed Action

Since the Commission has concluded that the environmental effects of the proposed action are not significant, any alternative with equal or greater environmental impact need not be evaluated.

The principal alternative would be to deny the requested approval. This would not reduce the environmental impact attributable to this facility.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the pilgrim Nuclear Power Station, dated May 1972

Agencies and Persons Consulted

The NRC staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

Based upon the foregoing environmental assessment, the Commission concludes the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to this action, see the request for approval dated January 15, 1993, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, and at the local public document room located at the Plymouth Public Library, 11 North Street, Plymouth, Massachusetts 02360.

Dated at Rockville, Maryland, this 26th day of April 1993.

For the Nuclear Regulatory Commission.

Charles L. Miller,

Acting Assistant Director for Region I Reactors, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 93–10169 Filed 4–29–93; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards; Joint Meeting of the Subcommittees on Thermal Hydraulic Phenomena and Core Performance; Meeting

The ACRS Subcommittees on Thermal Hydraulic Phenomena and Core Performance will hold a joint meeting on May 12, 1993, in room P–110, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed to discuss information deemed proprietary to the General Electric Company pursuant to 5 U.S.C. 552b(c)(4).

The agenda for the subject meeting shall be as follows: *Wednesday, May 12, 1993—8:30 a.m. until the conclusion of business.*

The Subcommittees will continue their review of the issues pertaining to BWR core power stability. Also, they will discuss the status of issues associated with BWR vessel water level instrumentation. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairmen; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those sessions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittees, their consultants, and staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittees, along with any of their consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittees will then hear presentations by and hold discussions with representatives of the NRC staff and its contractors, BWR Owners Group and its contractors, and other interested persons regarding this review.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff engineer, Mr. Paul Boehnert (telephone 301/492–8558) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: April 22, 1993.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch

[FR Doc. 93–10164 Filed 4–29–93; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards Subcommittee on Planning and Procedures; Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on May 12, 1993, room P–422, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance, with the exception of a portion that will be closed to discuss the qualifications of candidates nominated for appointment to the ACRS. This session will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy per 5 U.S.C. 552b(c)(6). The purpose of this meeting will be to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

The agenda for the subject meeting shall be as follows: *Wednesday, May 12, 1993—3 p.m. until 5:30 p.m.*

The Subcommittee will discuss proposed ACRS activities, practices and procedures for conduct of Committee business, and related matters Qualifications of candidates nominated for appointment to the ACRS will also be discussed.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff engineer, Dr. John T. Larkins (telephone 301/492–4516) between 7:30 a.m. and 4:15 p.m., EDT. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: April 22, 1993.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

[FR Doc. 93–10165 Filed 4–29–93; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards; Subcommittee on Probabilistic Risk Assessment; Meeting

The ACRS Subcommittee on Probabilistic Risk Assessment will hold a meeting on May 11, 1993, in room P–110, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows: Tuesday, May 11, 1993—8:30 a.m. Until the Conclusion of Business.

The Subcommittee will discuss the report of the PRA Working Group that summarizes activities of this Group and provides guidance for the staff regarding the application of PRA. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those sessions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, the nuclear industry, its respective consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff engineer, Mr. Dean Houston (telephone 301/492–9521) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: April 21, 1993.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

[FR Doc. 93–10166 Filed 4–29–93; 8:45 am]

BILLING CODE 7590–01–M

Boston Edison Co; Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

[Docket No. 50–293]

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR–35, issued to Boston Edison Company (the licensee) for operation of the Pilgrim Nuclear Power Station, located in Plymouth County, Massachusetts.

The proposed amendment would increase the allowed fuel assembly storage cells from 2320 to 3859, and change the maximum loeds allowed to travel over the spent fuel assemblies from 1000 lbs. to 2000 lbs., and change the limiting characteristics of assemblies to be stored in the spent fuel from a maximum $K_{infinity} \leq 1.35$ to a maximum $K_{infinity} \leq 1.32$ and a maximum lattice average Uranium enrichment of ≤4.6% by weight.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The proposed amendment does not involve a significant increase in the probability or consequences of an accident previously evaluated.

The analyses performed by HOLTEC demonstrate the acceptability of the proposed Spent Fuel Storage expansion from a variety of perspectives. The analyses demonstrate K_{eff} will remain within acceptable limits even if an abnormal event, such as a fuel assembly misloading or assembly drop, should occur. It also has been demonstrated the spent fuel pool cooling system will continue to provide acceptable cooling of the stored assemblies, and there is sufficient time to take appropriate corrective action should all cooling be inadvertently lost. The racks are designed to seismic Class I requirements. An assembly inadvertently dropped on the racks would not prohibit the racks from performing their design function. The radiological consequences of a fuel handling accident remains within previously-established limits.

Movement of fuel assemblies and racks necessary for rack installation will be performed in accordance with our commitments to NUREG 0612, entitled: "Control of Heavy Loads at Nuclear Power Plants." Thus, the probability of an accident involving assembly damage will not be significantly increased. Based on these considerations, the probability or consequences of a previously evaluated accident is not significantly increased by installation activities.

To support the above conclusion, BECo has considered the following potential scenarios:

- A spent fuel assembly drop in the spent fuel pool.
- A loss of spent fuel pool cooling system flow.
- A seismic event.
- [An installation] * * * accident.

As detailed in Section 4 of HOLTEC Report HI–92925, BECo evaluated the consequences of a spent fuel assembly drop in the spent fuel pool and found the criticality acceptance criterion, $K_{eff} \leq 0.95$, is not violated. Also, there is no significant change in the radiological consequences of a fuel assembly drop from the previous analyses since the calculated doses are well within 10 CFR Part 100 guidelines. Analysis shows that dropping a spent fuel assembly on the racks will not prohibit the racks from performing their safety function. Thus, the consequences of this type of accident are not significantly changed from the previously evaluated spent fuel assembly drops.

Certain racks in the pool will be equipped with overhead storage platforms. These platforms are flat plate structures. They serve to store miscellaneous items and protect the fuel assemblies stored underneath from damage. Dropping the platform from a height of 4 inches above the rack (a possible situation if the platform is ever moved in the pool) was analyzed. It was determined that dropping spent fuel from 4" above the racks

VOL 58 ISS 82 AP 30 1993 UMI

is a more severe event than a 4" drop of the platform with an assumed dry weight of 2000 lbs. Therefore, the fuel drop scenarios bound the platform drop condition.

During refueling activities, when the heat load in the pool is greatest, an intertie is available between the fuel pool cooling system and either loop of the Residual Heat Removal (RHR) system. The RHR pump and heat exchanger configuration provides greater cooling capacity for full core off-loads and as a backup to the normal fuel pool cooling system. This system will function during a loss of offsite power by utilizing emergency diesel generator AC power. The analysis in Section 5 of HOLTEC Report HI–92925 determined cooling capacities and maximum temperatures as well as the time-to-boil without cooling. The calculations show that if cooling is lost at the instant when the pool water reaches its maximum value during a full core off-load, there is a minimum of 6.4 hours before bulk boiling can occur.

During reactor power operation, the normal fuel pool cooling system is used with either of the two pumps and heat exchangers capable of maintaining the fuel pool well below boiling. In the event of a loss of offsite power, a temporary AC power interconnection is used to operate one or both pumps. Due to lower spent fuel pool heat loads during plant operation, more than 16 hours are available before bulk boiling can occur. Thus, the consequences of this event type are not significantly increased from previously-evaluated loss of cooling system flow events.

The consequences of a seismic event have been evaluated. The additional new racks will meet design and fabrication requirements of applicable NRC Regulatory Guides and industry standards. Seismic analyses on the new and existing racks were performed using both single rack 3–D (opposed phase motion) and Whole Pool Multi-Rack (WPMR) models The results of these analyses indicate a large margin of kinematic and stress safety. The kinematic margin against rack-to-rack impact is at least 1⅞ inches or rack-to-wall impact is at least 2⅞₁₆ inches for all racks in the pool. Likewise, the maximum rack primary stresses under the Safe Shutdown Earthquake (SSE) condition are less than 50% of the allowable ASME Code value. Finally, the maximum bending moments and through-thickness shear in the supporting pool structure under factored load conditions are less than 80% of the respective allowables. The new free-standing racks are designed, as are the existing free-standing racks, so that the integrity of the racks and the pool structure is maintained during and after a seismic event. Thus, the consequences of a seismic event are not increased from previously evaluated events.

The consequences of [an installation] * * * accident have been considered. A heavy load will not be carried in the spent fuel pool area until all fuel in the pool has decayed for a minimum of three months. Per NUREG 0612 this provides sufficient time for the decay of gaseous radionuclides in the fuel (gap activity) such that an assumed accidental release of gasses from damage to all stored fuel assemblies results in a potential offsite dose less than 10CFR100 limits. In addition, there is no equipment essential to the safe shutdown of the reactor or employed to mitigate the consequences of an accident beneath, adjacent to, or otherwise within the area of influence of any loads to be handled during this expansion modification. Therefore, the consequences of [an installation] * * * accident are not significantly increased from previously evaluated events.

NUREG–0554, entitled: "Single-Failure-Proof Cranes for Nuclear Power Plants", provides guidance tor the design, fabrication, installation and testing of new cranes that are of a high reliability design. NUREG–0612, Appendix C, entitled: "Modification of Existing Cranes", provides guidelines on the implementation of NUREG–0554 at operating plants. An evaluation of storage rack movements to be performed by the PNPS Reactor Building crane demonstrated the probability of a drop of a storage rack is extremely small. The Reactor Building crane has a rated capacity of 100 tons and incorporates a design safety factor of five. The maximum weight of any existing or replacement storage rack and its associated handling tool is 15 tons. Therefore, there is an ample safety factor margin for movements of the storage racks by the Reactor Building crane.

Therefore, it is concluded that the proposed amendment supporting the addition of spent fuel racks in the spent fuel pool does not involve a significant increase in the probability or consequences of any accident previously evaluated.

2. The proposed amendment does not create the possibility of a new or different kind of accident from any accident previously evaluated.

No unproven technology is involved either in the installation process or in the analtytical techniques necessary to justify the planned fuel storage expansion. The basic technology for fuel pool expansion has been developed and demonstrated in over 80 applications for fuel pool capacity increases previously approved by the NRC.

HOLTEC has evaluated the proposed modification in accordance with the guidance of an NRC position paper entitled: "OT Position for Review and Acceptance of Spent Fuel Storage and Handling Applications," with appropriate NRC Regulatory Guides, with NRC Standard Review Plans, and with industry codes and standards. In addition, BECo has reviewed several previous NRC Safety Evaluation Reports for rack installation applications similar to this proposed modification.

Based upon the foregoing, the proposed rack installation does not create the possibility of a new or different of accident from any accident previously evaluated.

3. The proposed amendment does not involve a significant reduction in a margin of safety.

The HOLTEC report demonstrates the acceptability of adding new racks from a variety of perspectives including criticality, thermal-hydraulic, radiological, seismic and structural considerations. The results of these analyses provide the basis for our conclusion that the changes do not involve a significant reduction in a margin of safety.

The established acceptance criterion for criticality is that the effective neutron multiplication factor in spent fuel pools shall be less than or equal to 0.95, including all uncertainties, under all conditions. This margin of safety has been adhered to in the criticality analysis methods in developing the new rack design.

The methods used in the criticality analysis conform to the applicable portions of the appropriate NRC guidance and industry codes, standards, and specifications In meeting the acceptance criteria for criticality in the spent fuel pool such that K_{eff} is always less than or equal to 0.95, including uncertainties at a 95%/95% probability/confidence level, the proposed amendment does not invoive a significant reduction in the margin of safety for nuclear criticality

It is recognized that a one-to-one correspondence between the $K_{INFINITY}$ of a bundle in the standard core geometry and the K_{eff} in the fuel [rack] does not exist. The effect of higher fuel enrichments on the neutron energy spectrum is to reduce the $K_{INFINITY}$ [in the spent fuel rack]. In order to provide a complete specification of fuel that can be stored in the PNPS pool, the criteria for both $K_{INFINITY}$ and fuel enrichment needs to be prescribed. Calculations have been performed to demonstrate that all fuel assemblies of up to 4.9% wt planar-average U–235 enrichment with a $K_{INFINITY}$ of 1.32 or less can be stored in the PNPS spent fuel pool with K_{eff} less than or equal to 0.95.

Conservative methods were used to calculate the maximum fuel temperature and the increase in temperature of the water in the spent fuel pool. The thermal-hydraulic evaluation used methods previously employed for evaluations of the present spent fuel racks to demonstrate the temperature margins of safety are maintained. The proposed modification will increase the heat load in the spent fuel pool. The evaluation shows the existing spent fuel cooling system will maintain the bulk pool water temperature at or below 142°F during refueling.

The evaluation also shows that maximum local water temperatures along the hottest fuel assembly are below the nucleate boiling condition value. Thus, there is no significant reduction in the margin of safety caused by thermal-hydraulic or spent fuel cooling concerns.

The main safety function of the spent fuel pool and racks is to maintain the spent fuel assemblies in a safe configuration through all normal or abnormal loadings. Abnormal loadings that have been considered are the effect of an earthquake, the drop of a spent fuel assembly, or the drop of any other heavy object. The mechanical, material, and structural design of the new spent fuel racks is in accordance with NRC guidance. The rack materials used are compatible with the spent fuel pool and the spent fuel assemblies. The structural considerations of the new racks and existing racks address margins of safety to preclude tilting, deflection or movement, thereby ensuring the racks do not impact each other during postulated seismic events. In addition the spent fuel assemblies remain intact and no criticality concerns exist. Thus, the margin of safety is not significantly reduced by the proposed rack additions.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to room P–223, Phillips Building, 7920 Norfolk Avenue, Bethesda, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555.

The filing of requests for hearing and petitions for leave to intervene is discussed below.

By June 1, 1993, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the local public document room located at the Plymouth Public Library, 11 North Street, Plymouth, Massachusetts 02360. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, by the above date. Where petitions are filed during the last 10 days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1–(800) 248–5100 (in Missouri 1–(800) 342–6700). The Western Union operator should be given Datagram Identification Number

VOL 58 ISS 82 AP 30 1993 UMI

N1023 and the following message addressed to Walter R. Butler: petitioner's name and telephone number, date petition was mailed, plant name, and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to W. S. Stowe, Esquire, Boston Edison Company, 800 Boylston Street, 36th Floor, Boston, Massachusetts 02199, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

The Commission hereby provides notice that this is a proceeding on an application for a license amendment falling within the scope of section 134 of the Nuclear Waste Policy Act of 1982 (NWPA), 42 U.S.C. 10154. Under section 134 of the NWPA, the Commission, at the request of any party to the proceeding, must use hybrid hearing procedures with respect to "any matter which the Commission determines to be in controversy among the parties." The hybrid procedures in section 134 provide for oral argument on matters in controversy, preceded by discovery under the Commission's rules, and the designation, following argument, of only those factual issues that involve a genuine and substantial dispute, together with any remaining questions of law, to be resolved in an adjudicatory hearing. Actual adjudicatory hearings are to be held on only those issues found to meet the criteria of section 134 and set for hearing after oral argument.

The Commission's rules implementing section 134 of the NWPA are found in 10 CFR part 2, subpart K, "Hybrid Hearing Procedures for Expansion of Spent Nuclear Fuel Storage Capacity at Civilian Nuclear Power Reactors" (published at 50 FR 41670, October 15, 1985) to 10 CFR 2.1101 *et seq.* Under those rules, any party to the proceeding may invoke the hybrid hearing procedures by filing with the presiding officer a written request for oral argument under 10 CFR 2.1109. To be timely, the request must be filed within 10 days of an order granting a request for hearing or petition to intervene. (As outlined above, the Commission's rules in 10 CFR part 2, subpart G, and § 2.714 in particular, continue to govern the filing of requests for a hearing or petitions to intervene, as well as the admission of contentions.) The presiding officer may grant an untimely request or oral argument only upon showing of good cause by the requesting party for the failure to file on time and after providing the other parties an opportunity to respond to the untimely request. If the presiding officer grants a request for oral argument, any hearing held on the application shall be conducted in accordance with the hybrid hearing procedures. In essence, those procedures limit the time available for discovery and require that an oral argument be held to determine whether any contentions must be resolved in adjudicatory hearing. If no party to the proceedings requests oral argument, or if all untimely requests for oral argument are denied, then the usual procedures in 10 CFR part 2, subpart G, apply.

For further details with respect to this action, see the application for amendment dated February 11, 1993, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the local public document room located at the Plymouth Public Library, 11 North Street, Plymouth, Massachusetts 02360.

Dated at Rockville, Maryland, this 23rd day of April 1993.

For the Nuclear Regulatory Commission.

Ronald B. Eaton, Sr.,

Project Manager, Project Directorate I–3, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 93–10170 Filed 4–29–93; 8:45 am]

BILLING CODE 7510–01–M

[Docket No. 50–298]

Cooper Nuclear Station; Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR–46, issued to the Nebraska Public Power District (the licensee), for operation of the Cooper Nuclear Station (CNS), located in Nemaha County, Nebraska.

The proposed amendment would remove Section 3/4.5.H, "Engineered Safeguards Compartments Cooling," and the associated Bases section from the CNS Technical Specifications (TS). These requirements are redundant to the definition of OPERABILITY in the CNS TS, which requires that all necessary attendant instrumentation, controls, normal and emergency electrical power sources, cooling or seal water, lubrication or other auxiliary equipment that are required for a safety-related system to perform its safety function are also capable of performing their related support function(s). Therefore, removal of TS 3/4.5.H will not adversely affect the assurance of Emergency Core Cooling System pump operability, and will make the CNS TS consistent with the Boiling Water Reactor (BWR) Standard Technical Specifications in this regard.

During the performance of the licensee's ongoing Design Basis Reconstitution Program, the licensee determined that under certain accident conditions (a pipe break postulated to occur in the Core Spray System discharge line, combined with a loss of off-site power and with a failure of one Emergency Diesel Generator), there could be fewer than the required number of low-pressure Emergency Core Cooling System (ECCS) pumps available to respond to the accident than was assumed in the CNS accident analysis. This scenario would occur, in part, as a result of the loss of the Engineered Safeguards Compartment Coolers that are powered by the Emergency Diesel Generator that is assumed to fail.

Although the licensee is currently making a plant design change to ensure the operability of the residual heat removal (RHR) pumps without the RHR pump area coolers, the CNS TS still require these coolers to be "in service," hence, OPERABLE; otherwise the associated pumps, in this case the RHR pumps, must be declared INOPERABLE. However, the plant design change will allow the RHR pumps to perform their safety function and thus be OPERABLE without the coolers being in service. Thus, without approval of this proposed change, the required number of ECCS pumps needed for ASME Class I pressure testing and for plant operation would not be available and plant startup could not occur.

The licensee has stated that the proposed TS change is needed prior to Class I ASME pressure testing and reactor startup following the current refueling outage, currently scheduled for May 10, 1993. Thus, the Commission must act quickly and time does not permit the publication of a **Federal Register** notice allowing 30 days for prior public comment.

As stated above, the need for the proposed TS change was found during the course of the licensee's ongoing Design Basis Reconstitution effort. This situation was identified and reported to the NRC under 10 CFR 50.72 on March 26, 1993, and thus could not have been submitted in a more timely manner so as to avoid an exigent TS change.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

Pursuant to 10 CFR 50.91(a)(6) for amendments to be granted under exigent circumstances, the NRC staff must determine that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

Evaluation

The proposed Technical Specification changes associated with removal of the Limiting Conditions for Operation and Surveillance Requirements for the Engineered Safeguards Compartments Cooling do not constitute a significant increase in the probability or consequences of an accident previously evaluated. These area coolers provide cooling for the Emergency Core Cooling System (ECCS) pumps, and were originally provided in the CNS plant design to ensure that the ECCS pump areas were maintained below a specified temperature to ensure operability of the ECCS pumps. The District is currently performing a design change to improve the natural air circulation characteristics in the RHR pump areas which will eliminate the need for these coolers to assure RHR pump operability.

The removal of the Technical Specifications associated with the ECCS pump unit coolers will not impact the determination of operability for those pumps which will still require the coolers to assure operability, namely the Core Spray System pumps, and the HPCI [high-pressure coolant injection] and RCIC [reactor core isolation coolant] pumps. These specifications were included in the original version of the Technical Specifications when CNS was licensed. Since that time, the definition of OPERABILITY in the CNS Technical Specifications was revised with Amendment No. 99 to include the following requirements:

* * * all attendant instrumentation, controls, normal and emergency electrical power sources * * * cooling or seal water, lubrication or other auxiliary equipment that are required for the system, subsystem, train, component or device to perform its function(s) are also capable of performing their related support function(s).

Therefore, the presence of dedicated Technical Specifications for the ECCS pump area coolers are not required and are redundant to the existing Technical Specification requirements for the ECCS, given the above definition of OPERABILITY. For those areas which will still require the area coolers to assure pump operability (Core Spray, HPCI, and RCIC areas), the definition of OPERABILITY will provide the necessary controls, and appropriate actions will be taken in accordance with their individual Technical Specifications should their area coolers become inoperable for any reason.

Based on the above discussion, the requirement for adequate equipment cooling will still be maintained within the CNS Technical Specifications to ensure operability of the ECCS. The design change being performed will ensure that an adequate number of RHR pumps will remain available to respond to the postulated Core Spray System line break accident. Further, the ECCS pump area coolers will continue to be surveillance tested and maintained through plant procedural controls. Therefore, this change will not result in a significant increase in the consequences of an accident previously evaluated. The physical plant changes being made to correct this situation consists of removing the RHR pump compartment hatches, replacing the hatches with grating, and providing curbing around the hatch opening to eliminate flooding concerns. These changes do not impact plant piping, instrumentation and controls, or other components. Review and evaluation under the District's design change process has determined that the design changes associated with this amendment request will not result in a significant increase in the probability of an accident previously evaluated.

2. Does the proposed change create the possibility for a new or different kind of accident from any accident previously evaluated?

Evaluation

This proposed change will only remove requirements from the CNS Technical Specifications which are redundant to other controls already provided for within the CNS Technical Specifications. These controls are provided in Section 1.0.N of the Definitions portion of the CNS Technical Specifications, which require that all attendant support systems or components necessary for a given system or component to perform its function are also capable of performing their related support functions. Therefore, this change to the CNS Technical Specifications will only remove a redundant requirement. In addition, plant procedural controls will ensure that the ECCS area coolers will continue to be adequately surveillance tested and maintained.

The plant change associated with this proposed Technical Specification change consists of removal of the RHR compartment equipment hatches to provide for improved natural circulation cooling. No changes to plant piping or instrumentation and controls are associated with this design change. These changes have been evaluated under the District's design change process which has determined that these physical modifications will not create the possibility for a new or different kind of accident from those previously evaluated.

3. Does the proposed change create a significant reduction in the margin of safety?

Evaluation

The proposed Technical Specifications changes will not create a significant reduction in the margin of safety. Section 3.5.H and 4.5.H, and their associated Bases section are redundant to the controls provided in the CNS Technical Specifications Definitions section for the determination of operability. Therefore, their removal from the CNS Technical Specifications will not create a reduction in equipment availability and will not create a significant reduction in the margin of safety. The physical plant changes associated with this proposed Technical Specifications change will remove an ECCS pump operability concern, and will therefore, not create a significant reduction in the margin of safety.

Additional Basis for No Significant Hazards Determination

The definition of OPERABILITY in the CNS Technical Specifications is consistent with the corresponding definition of OPERABILITY provided in the BWR/4 Standard Technical Specifications (NUREG–1433). This document was the result of extensive development and review by both the NRC Staff and the industry. These Standard Technical Specifications do not contain dedicated requirements for secondary plant support systems, including ECCS pump area coolers. This support function is accounted for within the definition of OPERABILITY as given within the Standard Technical Specifications. This proposed change would move CNS more in line with the Standard Technical Specifications in this respect.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 15 days of the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 15-day notice period. However, should circumstances change

UMI

during the notice period, such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 15-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room P–223, Phillips Building, 7920 Norfolk Avenue, Bethesda, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555.

The filing of requests for hearing and petitions for leave to intervene is discussed below.

By June 1, 1993, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Guilding, 2120 L Street, NW., Washington, DC 20555 and at the local public document room located at the Auburn Public Library, 118 15th Street, Auburn, Nebraska 68305. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If the amendment is issued before the expiration of the 30-day hearing period, the Commission will make a final determination on the issue of no significant hazards consideration. If a hearing is requested, the final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, by the above date. Where petitions are filed during the last 10 days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1–(800) 248–5100 (in Missouri 1–(800) 342–6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to John Pellet, Acting Director, Project Directorate 4–1, U.S. Nuclear Regulatory Commission, Washington, DC 20555: petitioner's name and telephone number; date petition was mailed; plant name; and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Mr. G.D. Watson, Nebraska Public Power District, Post Office Box 499, Columbus, Nebraska 68602–00499, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated April 23, 1993, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, and at the local public document room, located at the Auburn Public Library, 118 15th Street, Auburn, Nebraska 68305.

Dated at Rockville, Maryland, this 27th day of April 1993.

For the Nuclear Regulatory Commission.

Harry Rood,

Senior Project Manager, Project Directorate IV–1, Division of Reactor Projects–III/IV/V, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

[Docket Nos. 50–275–OLA–2, 50–323–OLA–2, ASLBP No. 92–669–03–OLA–2, Construction Period Recovery]

Atomic Safety and Licensing Board

April 23, 1993.

Prehearing Conference

In the Matter of Pacific Gas and Electric Company (Diablo Canyon Nuclear Power Plant, Units 1 and 2), Facility Operating Licenses No. DPR–80 and DPR–82. Before Administrative Judges: Charles Bechhoefer, Chairman, Dr. Jerry R. Kline, Frederick J. Shon.

Notice is hereby given that, in accordance with the Atomic Safety and Licensing Board's Memorandum (Questions for Parties), dated April 16, 1993, a prehearing conference in this proceeding involving the proposed extensions of the operating licenses for the Diablo Canyon Nuclear Power Plant, Units 1 and 2, to recover or recapture the period of construction of the reactors, will commence at 2 p.m. on Tuesday, May 11, 1993, at the Main Conference Room of the Commission's Region V office, 1450 Maria Lane, Walnut Creek, California 94596–5368. The conference will continue, to the extent necessary, on Wednesday, May 12, 1993, beginning at 9 a.m., at the same location.

The conference is being held to consider three late-filed contentions filed by the San Luis Obispo Mothers for Peace, an intervenor in the proceeding. Also to be considered are various outstanding discovery matters, schedules for forthcoming filings, and such other matters as may aid in the orderly disposition of the proceeding.

Members of the public are invited to attend this conference, although the Licensing Board will not hear oral limited appearance statements. (Parking at the Region V office is available; parking passes must be obtained from the NRC receptionist.)

Documents relating to this application are on file at the Local Public Document Room, located at the California Polytechnic State University, Robert E. Kennedy Library, Government Documents and Maps Department, San Luis Obispo, California 93407, as well as at the Commission's Public Document Room, the Gelman Building, 2120 L St., NW., Washington, DC 20037.

Dated: April 23, 1993.

For the Atomic Safety and Licensing Board.

Charles Bechhoefer,

Chairman, Administrative Judge.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. IC–19432; 811–3396]

Bison Money Market Fund; Application for Deregistration

April 23, 1993.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application for Deregistration under the Investment Company Act of 1940 (the "Act").

APPLICANT: Bison Money Market Fund.

RELEVANT ACT SECTIONS: Section 8(f).

SUMMARY OF APPLICATION: Applicant seeks an order declaring that it has ceased to be an investment company.

FILING DATE: The application on Form N–8F was filed on March 31, 1993.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on May 18, 1993, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 5th Street, NW., Washington, DC 20549. Applicant, Bellevue Corporate Center, 103 Bellevue Parkway, Wilmington, Delaware 19809.

FOR FURTHER INFORMATION CONTACT: James J. Dwyer, Staff Attorney, at (202) 504–2920, or Elizabeth G. Osterman, Branch Chief, at (202) 272–3016 (Office of Investment Company Regulation, Division of Investment Management).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicant's Representations

1. Applicant is an Indiana business trust and is an open-end diversified management company. On February 3, 1982, applicant filed a notification of registration on Form N–8A. On February 5, 1982, applicant filed a registration statement on Form N–1 under the Securities Act of 1933 and section 8(b) of the Act. The registration statement was declared effective on June 14, 1982, and applicant's initial public offering commenced on or about that date.

2. On October 15, 1992, the parent of Bison's subadviser merged with and into a wholly-owned subsidiary of the parent of the investment adviser of The Woodward Funds ("Woodward"), a Massachusetts business trust. This merger resulted in applicant and Woodward becoming affiliated persons of each other, pursuant to section 2(a)(3)(C).

3. At a meeting held on October 20, 1992, applicant's board of trustees approved an agreement and plan of reorganization (the "Plan"). Under the Plan, applicant would transfer all of the assets of its Money Market and Tax-Exempt Money Market Portfolios, and all of the assets and liabilities of its Treasury Money Market Portfolio, to corresponding investment portfolios of Woodward. In reviewing the proposal, applicant's board considered the potential impact of the reorganization on shareholders, including, among other things, the elimination of duplicative costs, the improvement of operational efficiencies, the reduction of certain fixed costs, and the performance of each of the funds. The boards of applicant and Woodward, including their non-interested members, determined that the proposed reorganization would be in the best interests of the shareholders of applicant and Woodward, respectively, and that the interests of existing shareholders of applicant and Woodward, respectively, would not be diluted as a result of such reorganization.

VOL 58 ISS 82 AP 30 1993 UMI

4. On November 30, 1992, applicant sent a combined proxy statement and prospectus to its shareholders in connection with the proposed transfer and reorganization. Applicant's shareholders approved the transfer on December 31, 1992.

5. On January 1, 1993, pursuant to the Plan, applicant transferred all of the assets of each of its portfolios, and the liabilities of its Treasury Money Market Portfolio, to the corresponding Woodward series. On that date, pursuant to the Plan, applicant's portfolios made liquidating distributions to their shareholders of Woodward shares so that shareholders received that number of Woodward shares with an aggregate net asset value equal to the aggregate net asset value of their shares of applicant's portfolios.

6. Pursuant to the Plan, NBD Bank, N.A., which provides investment advisory services to Woodward, assumed the liabilities for all fees and expenses in connection with the reorganization.

7. At the time of the application, applicant had no shareholders, assets, or liabilities. Applicant is not a party to any litigation or administrative proceeding. Applicant is not presently engaged in, nor does it propose to engage in, any business activities other than those necessary for the winding up of its affairs. Applicant plans to surrender its authority to do business in Indiana by taking the actions required by Indiana law.

For the SEC, by the Division of Investment Management, under delegated authority

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Release No. 35-25804; International Release No. 538]

Filings Under the Public Utility Holding Company Act of 1935 ("Act")

April 23, 1993.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated thereunder. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendments thereto is/are available for public inspection through the Commission's Office of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by May 17, 1993 to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After said date, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

UtiliCorp United Inc. (31-902)

UtiliCorp United Inc. ("UtiliCorp"), 911 Main Street, Suite 3000, Kansas City, Missouri 64105, a Delaware public-utility holding company claiming exemption from registration under rule 10 of the Act, has filed an application requesting an order under section 3(b) and rules 10 and 11 thereunder in connection with its proposed indirect acquisition of an interest in WEL Energy Group Limited ("WEL"), a New Zealand electric utility company.

UtiliCorp is a publicly traded corporation which engages primarily, through divisions, in the sale and distribution of gas and electricity to retail and wholesale customers in nine states and in British Columbia. UtiliCorp is a public-utility holding company by reason of its ownership of West Kootenay Power and Light Company, Limited, a Canadian public-utility company.[1] As of December 31, 1992, UtiliCorp had operating revenues of $1,298,900,000 and assets of more than $2,522,800,000.

UtiliCorp proposes to acquire indirectly an ownership interest in WEL for $20,732,037.[2] WEL is engaged in the retail distribution and sale of electricity to approximately 60,000 customers in the Waikato region of New Zealand. WEL is currently owned by Waikato Electricity Authority ("Waikato"), a New Zealand regional governmental authority. As part of a proposed privatization program, Waikato has entered into a Subscription Agreement dated December 22, 1992, as amended and restated ("Subscription Agreement") with UtiliCorp and WEL, pursuant to which UtiliCorp will acquire, initially, 33.33% of the issued and outstanding share capital ("WEL Interest") of WEL.[3]

UtiliCorp proposes to effect the acquisition of the WEL Interest through one or more special purpose subsidiaries pursuant to one of two possible acquisition structures.[4] Under the first structure, UtiliCorp would form a single special purpose Delaware subsidiary that would be deemed a resident of New Zealand under New Zealand law ("D-NZ Sub") to acquire the WEL Interest. Under the alternative structure, UtiliCorp would form a Delaware subsidiary ("Delaware Sub") which would, in turn, form a special purpose New Zealand wholly owned subsidiary ("New Zealand Sub") to acquire the WEL Interest. D-NZ Sub and New Zealand Sub are each referred to herein as "UtiliCorp Sub." UtiliCorp Sub and, if applicable, Delaware Sub, will maintain separate books of account from UtiliCorp and will commit to provide access to such books and records to each state commission with retail rate jurisdiction, to the extent not already required under state law.

As of the time of the acquisition of the WEL Interests, D-NZ Sub, under the first structure, or Delaware Sub, under the second structure, will be a wholly owned subsidiary of UtiliCorp.

[1] See UtiliCorp United Inc., Holding Co. Act Release No. 24204 (Sept. 24, 1986). UtiliCorp claims exemption under rule 10 from its obligations under the Act as a holding company.

[2] Based upon an exchange rate as of March 29, 1993 of 1.6751 New Zealand dollars for 1 United States dollar.

[3] UtiliCorp will also have the right under the Subscription Agreement to acquire up to an additional 15.67% of the share capital of WEL on the open market, for a total of 49% of such shares. New Zealand law currently would prohibit ownership of more than 49% of the ordinary shares of stock of WEL by UtiliCorp.

[4] UtiliCorp states that the selection of the acquisition structure depends upon the advice of corporate and tax counsel.

Thereafter, UtiliCorp may seek one or more non-affiliate investors to acquire an equity interest of up to 25% in D-NZ Sub, under the first structure, or in Delaware Sub, under the second structure. Prior to the closing of the transactions, UtiliCorp will assign its rights to acquire the WEL Interest under the Subscription Agreement to UtiliCorp Sub.

It is anticipated that UtiliCorp Sub will have one full-time management-level employee resident in New Zealand.

As a result of the proposed transactions, WEL will be a public-utility subsidiary company of UtiliCorp within the meaning of section 2(a)(8) of the Act. UtiliCorp requests an unqualified order under section 3(b) of the Act exempting WEL from all provisions of the Act. UtiliCorp states that WEL may engage in the sale of certain goods and services within the United States, but will not engage in the generation, transmission or distribution of electric energy for sale within the United States.

The application states that, if an unqualified exemption under section 3(b) is granted, UtiliCorp and its subsidiary companies which are parent entities of WEL will rely upon rule 10(a)(1) to provide an exemption insofar as each is a holding company; and UtiliCorp and its subsidiary companies will rely upon rule 11(b)(1) to provide an exemption from the approval requirements of sections 9(a)(2) and 10 to which they would otherwise be subject.

UtiliCorp has received orders approving the acquisition of the WEL Interest from the Public Service Commission of the State of Missouri, the Utilities Board of the State of Iowa and the Public Service Commission of the State of West Virginia. In addition, the Public Utilities Commission of the State of Colorado and the Kansas Corporation Commission have each certified to this Commission that such commission has the authority and resources to protect the ratepayers of UtiliCorp subject to its jurisdiction and that it intends to exercise that authority. UtiliCorp has requested similar certifications from the public utility commissions of the States of Minnesota and Michigan.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8025-01-M

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. 93-10; Notice 2]

Determination That Nonconforming 1988 Mercedes-Benz 500SE Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of determination by NHTSA that nonconforming 1988 Mercedes-Benz 500SE passenger cars are eligible for importation.

SUMMARY: This notice announces the determination by NHTSA that 1988 Mercedes-Benz 500SE passenger cars not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because they are substantially similar to a vehicle originally manufactured for importation into and sale in the United States and certified by its manufacturer as complying with the safety standards (the 1988 Mercedes-Benz 300SE), and they are capable of being readily modified to conform to the standards.

DATES: The determination is effective as of the date of its publication in the **Federal Register.**

FOR FURTHER INFORMATION CONTACT: Ted Bayler, Office of Vehicle Safety Compliance, NHTSA (202-366-5306).

SUPPLEMENTARY INFORMATION:

Background

Under section 108(c)(3)(A)(i) of the National Traffic and Motor Vehicle Safety Act (the Act), 15 U.S.C. 1397(c)(3)(A)(i), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards must be refused admission into the United States on and after January 31, 1990, unless NHTSA has determined that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under section 114 of the Act, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily modified to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility determinations may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA determines, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this determination in the **Federal Register.**

ICI International Inc. of Orlando, Florida (Registered Importer R-90-003) petitioned NHTSA to determine whether 1988 Mercedes-Benz 500SE passenger cars are eligible for importation into the United States. NHTSA published notice of the petition on March 3, 1993 (58 FR 12310) to afford an opportunity for public comment. The reader is referred to that notice for a thorough description of the petition. No comments were received in response to the notice. Based on its review of the information submitted by the petitioner, NHTSA has determined to grant the petition.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final determination must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP 35 is the vehicle eligibility number assigned to vehicles admissible under this notice of final determination.

Final Determination

Accordingly, on the basis of the foregoing, NHTSA hereby determines that a 1988 Mercedes-Benz 500SE (Model ID 126.036) is substantially similar to a 1988 Mercedes-Benz 300SE (Model ID 126.024) originally

VOL 58 ISS 82 AP 30 1993 UMI

manufactured for importation into and sale in the United States and certified under section 114 of the National Traffic and Motor Vehicle Safety Act, and is capable of being readily modified to conform to all applicable Federal motor vehicle safety standards.

Authority: 15 U.S.C. 1397(c)(3)(A)(i)(I) and (C)(ii); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: April 21, 1993.

William A. Boehly,

Associate Administrator for Enforcement.

BILLING CODE 4910–59–M

[Docket No. 93–26; Notice 1]

Receipt of Petition for Determination That Nonconforming 1993 BMW 750IL Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for determination that nonconforming 1993 BMW 750IL passenger cars are eligible for importation.

SUMMARY: This notice announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a determination that a 1993 BMW 750IL that was not originally manufactured to comply with all applicable Federal motor vehicle safety standards is eligible for importation into the United States because (1) it is substantially similar to a vehicle that was originally manufactured for importation into and sale in the United States and that was certified by its manufacturer as complying with the safety standards, and (2) it is capable of being readily modified to conform to the standards.

DATES: The closing date for comments on the petition is June 1, 1993.

ADDRESSES: Comments should refer to the docket number and notice number, and be submitted to: Docket Section, room 5109, National Highway Traffic Safety Administration, 400 Seventh St., SW., Washington, DC 20590. (Docket hours are from 9:30 a.m. to 4 p.m.)

FOR FURTHER INFORMATION CONTACT: Ted Bayler, Office of Vehicle Safety Compliance, NHTSA (202–366–5306).

SUPPLEMENTARY INFORMATION:

Background

Under section 108(c)(3)(A)(i) of the National Traffic and Motor Vehicle Safety Act (the Act), 15 U.S.C. 1397(c)(3)(A)(i), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States on and after January 31, 1990, unless NHTSA has determined that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under section 114 of the Act, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily modified to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility determinations may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the Federal Register of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA determines, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this determination in the Federal Register.

Liphardt & Associates Inc. of Ronkonkoma, New York (Registered Importer R–90–004) has petitioned NHTSA to determine whether 1993 BMW 750IL passenger cars that were originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States. The vehicle which Liphardt believes is substantially similar is the 1993 BMW 750IL manufactured for importation into and sale in the United States and certified by its manufacturer, Bayerische Motoren-Werke A.G., as conforming to all applicable Federal motor vehicle safety standards.

The petitioner states that it has carefully compared the non-U.S.-certified version of the 750IL to its U.S.-certified counterpart, and found the two vehicles to be substantially similar with respect to most applicable Federal motor vehicle safety standards.

Liphardt submitted information with its petition intended to demonstrate that the non-U.S.-certified version of the 1993 model 750IL, as originally manufactured, conforms to many Federal motor vehicle safety standards in the same manner as its U.S.-certified counterpart, or is capable of being readily modified to conform to those standards.

Specifically, the petitioner claims that the non-U.S.-certified 1993 model 750IL is identical to the U.S.-certified version of that vehicle with respect to compliance with Standards Nos. 102 *Transmission Shift Lever Sequence * * **, 103 *Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 105 *Hydraulic Brake Systems*, 106 *Brake Hoses*, 107 *Reflecting Surfaces*, 109 *New Pneumatic Tires*, 111 *Rearview Mirrors*, 113 *Hood Latch Systems*, 116 *Brake Fluid*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 124 *Accelerator Control Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 203 *Impact Protection for the Driver From the Steering Control System*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 211 *Wheel Nuts, Wheel Discs and Hubcaps*, 212 *Windshield Retention*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

Petitioner also contends that the vehicle is capable of being readily modified to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays:* (a) Substitution of a lens marked "Brake" for a lens with an ECE symbol on the brake failure indicator lamp; (b) installation of a seat belt warning lamp; (c) recalibration of the speedometer/odometer from kilometers to miles per hour.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:* (a) Installation of U.S.-model headlamp assemblies which incorporate sealed beam headlamps and front sidemarkers; (b) installation of a high mounted stop lamp.

Standard No. 110 *Tire Selection and Rims:* Installation of a tire information placard.

Standard No. 114 *Theft Protection:* Installation of a warning buzzer in the steering lock electrical circuit.

Standard No. 115 *Vehicle Identification Number:* Installation of a VIN plate that can be read from outside the left windshield pillar, and a VIN reference label on the edge of the door or latch post nearest the driver.

Standard No. 208 *Occupant Crash Protection:* Installation of a seat belt warning buzzer. The petitioner states that the non-U.S. certified version of the 1993 model 750Il is equipped with a driver side air bag assembly identical to that found in its U.S.-certified counterpart, except for the fact that a horn symbol has not been molded into the air bag housing cover. The petitioner proposes to permanently affix such a symbol to the air bag housing cover. Additionally, the petitioner states that a knee bolster and mounting hardware must be installed in the non-U.S. certified 1993 model 750IL to conform with this standard in the same manner as its U.S.-certified counterpart.

Standard No. 214 *Side Door Strength:* Installation of reinforcing beams.

Additionally, the petitioner states that the bumpers on the non-U.S.-certified 1993 model 750IL must be fitted with U.S.-approved impact absorbers to comply with the Bumper Standard found in 49 CFR part 581.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the Federal Register pursuant to the authority indicated below.

Comment closing date: June 1, 1993.

Authority: 15 U.S.C. 1397(c)(3)(A)(i)(I) and (C)(ii); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: April 23, 1993.

William A. Boehly,

Associate Administrator for Enforcement.

BILLING CODE 4820–02–M

[Treasury Order Number 102–15]

Delegation of Authority To Invoke National Security Emergency Preparedness Treatment for Telecommunications Services

Dated: April 22 1993.

By virtue of the authority vested in the Secretary of the Treasury, including the authority vested by 31 U.S.C. 321(b); Executive Order 12472, dated April 3, 1984; 47 CFR Part 64, Appendix A; and National Communications Systems (NCS) Directive 3-1 dated July 5, 1990, it is hereby ordered that:

1. The Deputy Assistant Secretary (Information Systems) and the Director, Office of Telecommunications Management, are each delegated authority to invoke National Security Emergency Preparedness treatment for the priority provisioning of telecommunications services from the Manager, NCS, and from concerned service vendors, on behalf of the Department or any of its bureaus; and

2. Upon issuance of this Order, and thereafter whenever required pursuant to NCS directives, the Assistant Secretary (Management) shall prepare, for execution by the appropriate official, the necessary correspondence notifying NCS of the individuals authorized to invoke National Security Emergency Preparedness treatment.

Lloyd Bentsen,

Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Rural Telephone Bank Meetings

AGENCY: Rural Telephone Bank, USDA.

ACTION: Privatization Committee meeting.

TIME AND DATE: 10 a.m., Thursday, May 6, 1993.

PLACE: Room 5066-South Building, Department of Agriculture, 14th and Independence Avenue, SW., Washington, DC.

STATUS: Open.

MATTERS TO BE DISCUSSED: General discussion involving privatization planning.

ACTION: Prepayment Committee meeting.

TIME AND DATE: 11 a.m., Thursday, May 6, 1993.

PLACE: Room 5066-South Building, Department of Agriculture, 14th and Independence Avenue, SW., Washington, DC.

STATUS: Open.

MATTERS TO BE DISCUSSED: General issues regarding RTB's prepayment premium policy.

ACTION: Staff Briefing for the Board of Directors.

TIME AND DATE: 2 p.m., Thursday, May 6, 1993.

PLACE: Room 5066-South Building, Department of Agriculture, 14th and Independence Avenue, SW., Washington, DC.

STATUS: Open.

MATTERS TO BE DISCUSSED: The staff briefing will consist of matters relating to proposed program budget and the new equity account.

ACTION: Regular Meeting of the Board of Directors.

TIME AND DATE: 9 a.m., Friday, May 7, 1993.

PLACE: Lafayette Room, Loews L'Enfant Plaza Hotel, 480 L'Enfant Plaza, SW., Washington, DC.

STATUS: Open.

MATTERS TO BE CONSIDERED: The following matters have been placed on

BILLING CODE 6750–06–M

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:29 a.m. on Tuesday, April 27, 1993, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider the following:

Application for Federal Deposit Insurance: First Financial Bank, Atlanta, Georgia, a proposed new bank to be located at 3 Corporate Square, Suite 700, Atlanta, Georgia.

Matters relating to the probable failure of certain insured banks.

Matters relating to the Corporation's corporate and supervisory activities.

Recommendation regarding the liquidation of a depository institution's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Memorandum re: American Diversified Savings Bank, Costa Mesa, California, Case No. 000–00015–93–BOD.

Matters relating to an assistance agreement with an insured bank.

In calling the meeting, the Board determined, on motion of Director Jonathan L. Fiechter (Acting Director, Office of Thrift Supervision), seconded by Director Eugene A. Ludwig (Comptroller of the Currency), concurred in by Acting Chairman Andrew C. Hove, Jr., that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10)).

The meeting was held in the Board Room of the FDIC Building located at 550—17th Street, NW., Washington, DC.

Dated: April 27, 1993.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Deputy Executive Secretary.

SECURITIES AND EXCHANGE COMMISSION

Agency Meeting

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Public Law 94–409, that the Securities and Exchange Commission will hold the following open meeting during the week of May 3, 1993.

An open meeting will be held on Tuesday, May 4, 1993, at 2:30 p.m., in Room 6059.

The subject matter of the open meeting scheduled for Tuesday, May 4, 1993, at 2:30 p.m., will be:

1. Consideration of whether to issue a concept release that seeks comment on the appropriate net capital treatment of various over-the-counter ("OTC") derivative instruments, including OTC options, forwards, futures, and swaps. For further information, please contact Michael A. Macchiaroli at (202) 272–2904.

2. Consideration of whether to propose for comment new exceptions to Rules 10b–6, 10b–7, and 10b–8 under the Securities Exchange Act of 1934 in connection with distributions of Rule 144A eligible foreign securities, if such securities are offered or sold in the United States solely to "qualified institutional buyers" in transactions exempt from registration pursuant to Section 4(2) of or Rule 144A or Regulation D under the Securities Act of 1933. For further information, please contact Diane Mege Roberts at (202) 504–2938.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Steve Luparello at (202) 272–2100.

Dated: April 27, 1993.

Jonathan G. Katz,

Secretary.

DEPARTMENT OF THE INTERIOR
MINERALS MANAGEMENT SERVICE
Gulf of Mexico OCS Region

Proposed 1995 Lease Sales

Call for Information and Nominations
and
Notice of Intent to Prepare an Environmental Impact Statement

CALL FOR INFORMATION AND NOMINATIONS
(Responses Due in 45 Days)

Purpose of Call

The purpose of the Call is to gather information for Outer Continental Shelf (OCS) Lease Sale 152 in the Central Gulf of Mexico (CGOM) Planning Area, tentatively scheduled for March 1995, and OCS Lease Sale 155 in the Western Gulf of Mexico (WGOM) Planning Area, tentatively scheduled for August 1995.

Information and nominations on gas and oil leasing, exploration, and development and production within the Central and Western Gulf of Mexico Planning Areas are sought from all interested parties. This early planning and consultation step is part of the Area Evaluation and Decision Process and is important for ensuring that all interests and concerns are communicated to the Department of the Interior for future decisions in the leasing process pursuant to the OCS Lands Act, as amended (OCSLAA) (43 U.S.C. 1331-1356 (1988)), and regulations at 30 CFR Part 256. This Call does not indicate a preliminary decision to lease in the area described below. Final delineation of the area for possible leasing will be made at a later date and in compliance with applicable laws including all requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), as amended, and the OCSLAA. Established departmental procedures will be employed.

Description of Area

The general area of this Call covers the entire central and western portions of the Gulf of Mexico between approximately 88 degrees W. longitude on the east and approximately 97 degrees W. longitude on the west and extends from the Federal-State boundaries seaward to the provisional maritime boundary between the United States and Mexico. The entire Call area is offshore the States of Texas, Louisiana, Mississippi, and Alabama. This area is divided into two planning areas.

The CGOM Planning Area is bounded on the east by approximately 88 degrees W. longitude. Its western boundary begins at the offshore boundary between Texas and Louisiana and proceeds southeasterly to approximately 28 degrees N. latitude, thence east to approximately 92 degrees W. longitude, thence south to the provisional maritime boundary with Mexico which constitutes the southern boundary of the area. The northern part of the area is bounded by the Federal-State boundary offshore Louisiana, Mississippi, and Alabama. The area available for nominations and comments consists of about 47.8 million acres.

The WGOM Planning Area is bounded on the west and north by the Federal-State boundary and on the east by the CGOM Planning Area. The area extends south to the provisional maritime boundary with Mexico. The area is offshore Texas and, in deeper water, offshore Louisiana. The area available for nominations and comments consists of about 35.9 million acres.

A standard Call for Information Map depicting each planning area on a block-by-block basis is available without charge from:

Minerals Management Service
Public Information Unit
1201 Elmwood Park Boulevard
New Orleans, Louisiana 70123-2394
Telephone: (504) 736-2519

Areas Deferred from this Call (Western Gulf)

High Island Area, East Addition, South Extension, (Flower Gardens), Block A-375 and Block A-398 (WGOM).

Area Under Ongoing Discussions with the Navy (Western Gulf)

The Corpus Christi Naval Operations Area has been deferred from leasing in Western Gulf Sales 135 and 141 in accordance with a 1990 agreement with the Navy. The area has also been deferred from leasing in Sales 143 and 150 in accordance with a 1992 agreement with the Navy. (The precise block listing involved has varied slightly.) This Naval Operations Area is not being deferred from this Call. The Minerals Management Service (MMS) will institute a review of the area to take into account possible changes in nearby gas and oil discovery and development patterns and will continue discussions with the Navy and industry representatives regarding future activities.

BILLING CODE 4310-MR-M

Instructions on Call

Indications of interest and comments must be received no later than 45 days following publication of this document in the Federal Register in envelopes labeled "Nominations for Proposed 1995 Lease Sales in the Gulf of Mexico" or "Comments on the Call for Information and Nominations for Proposed 1995 Lease Sales in the Gulf of Mexico." The standard Call for Information Map and indications of interest and/or comments must be submitted to the Regional Supervisor, Leasing and Environment, Gulf of Mexico OCS Region, at the address stated above.

The standard Call for Information Map delineates the Call area all of which has been identified by the MMS as having potential for the discovery of accumulations of gas and oil. Respondents are requested to indicate interest in and comment on any or all of the Federal acreage within the boundaries of the Call area that they wish to have considered for inclusion in proposed Sale 152 in the CGOM and proposed Sale 155 in the WGOM.

Although individual indications of interest are considered to be privileged and proprietary information, the names of persons or entities indicating interest or submitting comments will be of public record. Those indicating such interest are requested to do so on the standard Call for Information Map by outlining the areas of interest along block lines.

Respondents should rank areas in which they have expressed interest according to priority of their interest (e.g., priority 1 (high), 2 (medium), or 3 (low)). Respondents are encouraged to be specific in indicating blocks by priority, as blanket nominations on large areas are not useful in the analysis of industry interest. Areas where interest has been indicated but on which respondents have not indicated priorities will be considered priority 3 (low).

Respondents may also submit a detailed list of blocks nominated (by Official Protraction Diagram and Leasing Map designations) to ensure correct interpretation of their nominations. Specific questions may be directed to the Chief, Leasing Activities Section at (504) 736-2761. Official Protraction Diagrams and Leasing Maps can be purchased from the Public Information Unit referred to above.

Comments are sought from all interested parties about particular geological, environmental, biological, archaeological, and socioeconomic conditions or conflicts, or other information which might bear upon the potential leasing and development of particular areas. Comments are also sought on possible conflicts between future OCS gas and oil activities that may result from the proposed sales and State Coastal Management Programs (CMP's).

If possible, these comments should identify specific CMP policies of concern, the nature of the conflict foreseen, and steps that the MMS could take to avoid or mitigate the potential conflict. Comments may either be in terms of broad areas or restricted to particular blocks of concern. Those submitting comments are requested to list block numbers or outline the subject area on the standard Call for Information Map.

Use of Information from Call

Information submitted in response to this Call will be used for several purposes. First, responses will be used to help delineate the areas of potential for gas and oil development upon which an Environmental Impact Statement (EIS) will be prepared. Second, comments on possible environmental effects and potential use conflicts will be used in the analysis of environmental conditions in and near the Call area. This information will be used to make a preliminary determination of the potential advantages and disadvantages of gas and oil exploration and development to the region and the Nation. A third purpose of this Call is to use the comments collected to initiate the scoping process for the EIS and develop a proposed action and alternatives to the proposed action. Fourth, comments may be used in developing lease terms and conditions to ensure safe offshore operations. Fifth, comments may be used to point out potential conflicts between offshore gas and oil activities and a State CMP.

Existing Information

Preceding this Call in the sale planning process was an Information Base Review (IBR). The purpose of an IBR is to evaluate the status of pertinent information and the information acquisition efforts. This IBR constituted an assessment of the quality and adequacy of the information available which has been found sufficient for the decision to proceed with the Call.

An extensive environmental studies program has been underway in this area since 1973. The emphasis, including continuing studies, has been on environmental characterization of biologically sensitive habitats, physical oceanography, ocean-circulation modeling, and ecological effects of gas and oil activities. A complete listing of available study reports, and information for ordering copies, can be obtained from the Public Information Unit referenced above. The reports may also be ordered, for a fee, from the U.S. Department of Commerce, National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161, or telephone (703) 487-4650. In addition, a program status report for continuing studies in this area can be obtained from the Chief, Environmental Studies Section, Gulf of Mexico OCS Region (see address under "Description of Area"), or telephone (504) 736-2896.

UMI

Summary Reports and Indices and technical and geological reports are available for review at the MMS, Gulf of Mexico OCS Region. Copies of the Gulf of Mexico OCS Regional Summary Reports may be obtained from the OCS Information Program, Office of Offshore Information and Publications, Minerals Management Service, at 381 Elden Street, Herndon, Virginia 22070.

Tentative Schedule

The following is a list of tentative milestone dates preceding CGOM Sale 152 and WGOM Sale 155:

	CGOM Sale 152	WGOM Sale 155
Comments due on the Call	June 1993	June 1993
Notice Of Intent Comments Due (Scoping)	June 1993	June 1993
Area Identification	July 1993	July 1993
Draft EIS published	April 1994	April 1994
Proposed Notice Issued	April 1994	April 1994
Public Hearings held on Draft EIS	June 1994	June 1994
Governors' Comments Due on Proposed Notice	July 1994	July 1994
Final EIS published	December 1994	December 1994
CZM Consistency Determination	December 1994	April 1995
Final Notice of Sale published	February 1995	July 1995
Sale Date	March 1995	August 1995

NOTICE OF INTENT TO PREPARE AN ENVIRONMENTAL IMPACT STATEMENT
(Comments Due in 45 Days)

Purpose of Notice of Intent (NOI)

Pursuant to the regulations (40 CFR 1501.7) implementing the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), the MMS is announcing its intent to prepare an EIS on the gas and oil leasing proposals known as Sale 152 in the CGOM, and Sale 155 in the WGOM, off the States of

Texas, Louisiana, Mississippi, and Alabama. The NOI also serves to announce the scoping process that will be followed for this EIS. Throughout the scoping process, Federal Agencies and State and local governments and other interested parties have the opportunity to aid the MMS in determining the significant issues and alternatives to be analyzed in the EIS.

The EIS analysis will focus on the potential environmental effects of leasing, exploration, and development of the blocks included in the areas defined in the Area Identification procedure as the proposed areas of the Federal actions. Alternatives to the proposal which may be considered for each sale are to delay the sale, cancel the sale, or modify the sale.

Instructions on NOI to Prepare an EIS

Federal Agencies and State and local governments and other interested parties are requested to send their written comments on the scope of the EIS, significant issues which should be addressed, and alternatives that should be considered to the Regional Supervisor, Leasing and Environment, Gulf of Mexico OCS Region, at the address stated under "Description of Area." Comments should be enclosed in an envelope labeled "Comments on the NOI to Prepare an EIS on the proposed 1995 Lease Sales in the Gulf of Mexico." Comments are due no later than 45 days from publication of this Notice. Scoping meetings will be held in appropriate locations to obtain additional comments and information regarding the scope of the EIS.

Acting Director, Minerals Management Service
Thomas Gernhofer

Department of Education

Training in Early Childhood Education and Violence Counseling; Notice Inviting Applications for New Awards for Fiscal Year 1993

VOL 58 ISS 82 AP 30 1993 UMI

DEPARTMENT OF EDUCATION

[CFDA NO.: 84.266]

Training In Early Childhood Education and Violence Counseling; Notice Inviting Application for New Awards for Fiscal Year (FY) 1993

AGENCY: Department of Education.

ACTION: Notice inviting applications for new awards for fiscal year (FY) 1993.

Note to Applicants: This notice is a complete application package. Together with the statute authorizing the program and the Education Department General Administrative Regulations (EDGAR), the notice contains all of the information, application forms, and instructions needed to apply for a grant under this competition.

Purpose of Program: To enable institutions of higher education to establish innovative programs to recruit and train students for careers in early childhood development or violence counseling.

Eligible Applicants: Institutions of higher education.

Deadline For Transmittal Of Applications: June 14, 1993.

Deadline For Intergovernmental Review: August 13, 1993.

Available Funds: $4,960,000.

Range Of Awards: $500,000 to $1,000,000.

Estimated Average Size Of Awards: $750,000.

Estimated Number Of Awards: 7.

Note: The Department is not bound by any estimates in this notice.

Project Period: 3–5 years.

Applicable Regulations:

Education Department General Administrative Regulations (EDGAR) as follows:

(1) 34 CFR Part 74 (Administration of Grants to Institutions of Higher Education, Hospitals, and Nonprofit Organizations).

(2) 34 CFR Part 75 (Direct Grant Programs).

(3) 34 CFR Part 77 (Definitions that Apply to Department Regulations).

(4) 34 CFR Part 79 (Intergovernmental Review of Department of Education Programs and Activities).

(5) 34 CFR Part 82 (New Restrictions on Lobbying).

(6) 34 CFR Part 85 (Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants)).

(7) 34 CFR Part 86 (Drug-Free Schools and Campuses).

Description of Program: Section 596 of the Higher Education Amendments of 1992 (Pub. L. 102–325) authorizes grants to institutions of higher education (IHEs) to enable them to establish innovative programs to recruit and train students for careers in one or both of the following (1) early childhood development and care, or preschool programs; or (2) counseling to young children from birth to 6 years of age who have been affected by violence and to adults who work with these children.

Applications: A grant may be made only to an IHE that submits an application to the Secretary. The application must—

(1) Describe the activities and services for which assistance is sought;

(2) Contain a comprehensive plan for the recruitment, retention, and training of students for careers in early childhood development or violence counseling;

(3) Demonstrate that the institution has the capacity to implement the plan; and

(4) Provide assurances that the plan was developed in consultation with agencies and organizations that will assist the institution in carrying out the plan.

The comprehensive plan must include a description of—

(1) Specific strategies for reaching students at secondary schools, community colleges, undergraduate institutions, or other agencies and institutions from which students are to be drawn for participation in the program, including any partnerships with the institutions;

(2) Specific strategies for retaining students in the program, such as summer sessions, internships, mentoring, or other activities;

(3) Methods that will be used to ensure that students trained pursuant to the plan will find employment in early childhood education, development and care, or violence counseling;

(4) The goals, objectives, and timelines to be used in assessing the success of the plan and of the activities assisted under the grant award;

(5) The curriculum and training leading to the degree or credential that prepares students for the careers described in the plan;

(6) The special plans, if any, to ensure that students trained pursuant to the plan will be prepared for serving in economically disadvantaged areas; and

(7) Sources of financial aid to ensure that the training program is available to all qualified students.

Priority: Under 34 CFR Part 105(c)(3) and section 596(d) of the authorizing statute, the Secretary will fund under this competition only applications from institutions that—(1) prepare students for work in economically disadvantaged areas; (2) plan to focus their recruitment, retention, and training efforts on disadvantaged students; and (3) have demonstrated effectiveness in providing the type of training for which the institution seeks assistance.

Selection Criteria:

(a) (1) The Secretary uses the following selection criteria to evaluate applications for grants under this competition.

(2) The maximum score for all of these criteria is 100 points.

(3) The maximum score for each criterion is indicated in parentheses.

The regulations in 34 CFR 75.210 (a) and (c) provide that the Secretary may award up to 100 points for the selection criteria including distribution of an additional 15 points among the criteria in 34 CFR 75.210(b). For this competition, the Secretary distributes the additional 15 points as follows: 5 points to selection criterion 34 CFR 75.210(b)(2) (Extent of need for the project) for a possible total of 25 points; 5 points to selection criterion 34 CFR 75.210(b)(3) (Plan of operation) for a possible total of 20 points); 5 points to selection criterion 34 CFR 75.210(b)(6) for a possible total of 10 points).

(b) *The criteria*—(1) *Meeting the purposes of the authorizing statute.* (30 points) The Secretary reviews each application to determine how well the project will meet the purpose of section 596 of the Higher Education Amendments of 1992, including consideration of—

(i) The objectives of the project; and

(ii) How the objectives of the project further the purposes of the authorizing statute.

(2) *Extent of need for the project.* (25 points) The Secretary reviews each application to determine the extent to which the project meets specific needs recognized in the authorizing statute including consideration of—

(i) The needs addressed by the project;

(ii) How the applicant identified those needs;

(iii) How those needs will be met by the project; and

(iv) The benefits to be gained by meeting those needs.

(3) *Plan of operation.* (20 points) The Secretary reviews each application to determine the quality of the plan of operation for the project, including—

(i) The quality of the design of the project;

(ii) The extent to which the plan of management is effective and ensures proper and efficient administration of the project;

(iii) How well the objectives of the project relate to the purpose of the program;

(iv) The quality of the applicant's plan to use its resources and personnel to achieve each objective; and

(v) How the applicant will ensure that project participants who are otherwise eligible to participate are selected without regard to race, color, national origin, gender, age, or handicapping condition.

(4) *Quality of key personnel.* (7 points)

(i) The Secretary reviews each application to determine the quality of key personnel the applicant plans to use on the project, including—

(A) The qualifications of the project director (if one is to be used);

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(4)(i)(A) and (B) will commit to the project; and

(D) How the applicant, as part of the nondiscriminatory employment practices, will ensure that its personnel are selected for employment without regard to race, color, national origin, gender, age, or handicapping condition.

(ii) To determine personnel qualifications under paragraphs (b)(4)(i)(A) and (B), the Secretary considers—

(A) Experience and training in fields related to the objectives of the project; and

(B) Any other qualifications that pertain to the quality of the project.

(5) *Budget and cost effectiveness.* (5 points) The Secretary reviews each application to determine the extent to which—

(i) The budget is adequate to support the project; and

(ii) Costs are reasonable in relation to the objectives of the project.

(6) *Evaluation plan.* (10 points) The Secretary reviews each application to determine the quality of the evaluation plan for the project, including the extent to which the applicant's methods of evaluation—

(i) Are appropriate to the project; and

(ii) To the extent possible, are objective and produce data that are quantifiable. (Cross-reference: See 34 CFR 75.590 Evaluation by the grantee.)

(7) *Adequacy of resources.* (3 points) The Secretary reviews each application to determine the adequacy of the resources that the applicant plans to devote to the project, including facilities, equipment, and supplies.

Intergovernmental Review of Federal Programs: This program is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the Executive order is to foster an intergovernmental partnership and to strengthen federalism by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance.

Applicants must contact the appropriate State Single Point of Contact to find out about, and to comply with, the State's process under Executive Order 12372. Applicants proposing to perform activities in more than one State should immediately contact the Single Point of Contact for each of those States and follow the procedure established in each State under the Executive order. If you want to know the name and address of any State Single Point of contact, see the list published in the **Federal Register** on September 21, 1992 (57 FR 43525 and 43526).

In States that have not established a process or chosen a program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from State, areawide, regional, and local entities must be mailed or hand-delivered by the date indicated in this notice to the following address: The Secretary, E.O. 12372, U.S. Department of Education, Room 4161, 400 Maryland Avenue SW., Washington, D.C. 20202–0125.

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, DC time) on the date indicated in this notice.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS COMPLETED APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS. INSTRUCTIONS FOR TRANSMITTAL OF APPLICATIONS:

(a) If an applicant wants to apply for a grant, the applicant shall—

(1) Mail the original and two copies of the application on or before the deadline date to: U.S. Department of Education, Application Control Center, Attention: (CFDA 84.266), Washington, DC 20202–4725 or

(2) Hand deliver the original and two copies of the application by 4:30 p.m. (Washington, D.C. time) on or before the deadline date to: U.S. Department of Education, Application Control Center, Attention: (CFDA 84.266), Room 3633, Regional Office Building #3, 7th and D Streets SW., Washington, DC 20202.

(b) An applicant must show one of the following as proof of mailing:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary.

(c) If an application is mailed through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing:

(1) A private metered postmark.

(2) A mail receipt that is not dated by the U.S. Postal Service.

Notes: (1) The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

(2) The Application Control Center will mail a Grant Application Receipt Acknowledgement to each applicant. If an applicant fails to receive the notification of application receipt within 15 days from the date of mailing the application, the applicant should call the U.S. Department of Education Application Control Center at (202) 708–9494.

(3) The applicant must indicate on the envelope and—if not provided by the Department—in Item 10 of the Application for Federal Assistance (Standard Form 424) the CFDA number—and suffix letter, if any—of the competition under which the application is being submitted.

Application Instructions and Forms: The appendix to this application is divided into three parts plus a statement regarding estimated public reporting burden and various assurances and certifications. These parts and additional materials are organized in the same manner that the submitted application should be organized. The parts and additional materials are as follows:

Part I: Application for Federal Assistance (Standard Form 424 (Rev. 4–88)) and instructions.

PART II: Budget Information—Non-Construction Programs (Standard Form 424A) and instructions.

PART III: Application Narrative.

Additional Materials:

Estimated Public Reporting Burden.

Assurances—Non-Construction Programs (Standard Form 424B).

Certifications regarding Lobbying; Debarment, Suspension, and Other Responsibility Matters; and Drug-Free Workplace Requirements (ED 80–0013).

Certification regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion: Lower Tier Covered

VOL 58 ISS 82 AP 30 1993 UMI

Transactions (ED 80–0014, 9/90) and instructions. (NOTE: ED 80–0014 is intended for the use of grantees and should not be transmitted to the Department.)

Disclosure of Lobbying Activities (Standard Form LLL) (if applicable) and instructions; and Disclosure of Lobbying Activities Continuation Sheet (Standard Form LLL–A).

An applicant may submit information on a photostatic copy of the application and budget forms, the assurances, and the certifications. However, the application form, the assurances, and the certifications must each have an original signature. No grant may be awarded unless a completed application form has been received.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Alexander, Compensatory Education Programs, Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, SW., (Room 2025), Washington, DC 20202–6132. Telephone: (202) 401–1692. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1–800–977–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

Program Authority: Pub. L. 102–325, Higher Education Amendments of 1992, section 596.

Dated: April 23, 1993.

Mary Jean LeTendre,

Acting Assistant Secretary for Elementary and Secondary Education.

INSTRUCTIONS FOR THE SF 424

This is a standard form used by applicants as a required facesheet for preapplications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to Executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant's submission.

Item: Entry:

1. Self-explanatory.
2. Date application submitted to Federal agency (or State if applicable) & applicant's control number (if applicable).
3. State use only (if applicable).
4. If this application is to continue or revise an existing award, enter present Federal identifier number. If for a new project, leave blank.
5. Legal name of applicant, name of primary organizational unit which will undertake the assistance activity, complete address of the applicant, and name and telephone number of the person to contact on matters related to this application.
6. Enter Employer Identification Number (EIN) as assigned by the Internal Revenue Service.
7. Enter the appropriate letter in the space provided.
8. Check appropriate box and enter appropriate letter(s) in the space(s) provided.
   - "New" means a new assistance award.
   - "Continuation" means an extension for an additional funding/budget period for a project with a projected completion date.
   - "Revision" means any change in the Federal Government's financial obligation or contingent liability from an existing obligation.
9. Name of Federal agency from which assistance is being requested with this application.
10. Use the Catalog of Federal Domestic Assistance number and title of the program under which assistance is requested.
11. Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.

Item: Entry:

12. List only the largest political entities affected (e.g., State, counties, cities).
13. Self-explanatory.
14. List the applicant's Congressional District and any District(s) affected by the program or project.
15. Amount requested or to be contributed during the first funding/budget period by each contributor. Value of in-kind contributions should be included on appropriate lines as applicable. If the action will result in a dollar change to an existing award, indicate *only* the amount of the change. For decreases, enclose the amounts in parentheses. If both basic and supplemental amounts are included, show breakdown on an attached sheet. For multiple program funding, use totals and show breakdown using same categories as item 15.
16. Applicants should contact the State Single Point of Contact (SPOC) for Federal Executive Order 12372 to determine whether the application is subject to the State intergovernmental review process.
17. This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include delinquent audit disallowances, loans and taxes.
18. To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for you to sign this application as official representative must be on file in the applicant's office. (Certain Federal agencies may require that this authorization be submitted as part of the application.)

INSTRUCTIONS FOR THE SF-424A

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A,B,C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A,B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary
Lines 1-4, Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in *Column* (a) and the respective catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g.)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

Lines 1-4, Columns (c) through (g.) (continued)

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 — Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Lines 6a-i — Show the totals of Lines 6a to 6h in each column.

Line 6j - Show the amount of indirect cost.

Line 6k - Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

INSTRUCTIONS FOR THE SF-424A *(continued)*

Line 7 - Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program narrative statement the nature and source of income. The estimated amount of program income may be considered by the federal grantor agency in determining the total amount of the grant.

Section C. Non-Federal-Resources

Lines 8-11 - Enter amounts of non-Federal resources that will be used on the grant. If in-kind contributions are included, provide a brief explanation on a separate sheet.

Column (a) - Enter the program titles identical to Column (a), Section A. A breakdown by function or activity is not necessary.

Column (b) - Enter the contribution to be made by the applicant.

Column (c) - Enter the amount of the State's cash and in-kind contribution if the applicant is not a State or State agency. Applicants which are a State or State agencies should leave this column blank.

Column (d) - Enter the amount of cash and in-kind contributions to be made from all other sources.

Column (e) - Enter totals of Columns (b), (c), and (d).

Line 12 — Enter the total for each of Columns (b)-(e). The amount in Column (e) should be equal to the amount on Line 5, Column (f), Section A.

Section D Forecasted Cash Needs

Line 13 - Enter the amount of cash needed by quarter from the grantor agency during the first year.

Line 14 - Enter the amount of cash from all other sources needed by quarter during the first year.

Line 15 - Enter the totals of amounts on Lines 13 and 14.

Section E. Budget Estimates of Federal Funds Needed for Balance of the Project

Lines 16 - 19 - Enter in Column (a) the same grant program titles shown in Column (a), Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20 - Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Section F. Other Budget Information

Line 21 - Use this space to explain amounts for individual direct object-class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

Line 22 - Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Line 23 - Provide any other explanations or comments deemed necessary.

BILLING CODE 4000-01-C

Instructions for Part III Application Narrative

Before preparing the Application Narrative an applicant should read carefully the description of the program, the information regarding priorities, and the selection criteria the Secretary uses to evaluate applications.

The narrative should encompass each function or activity for which funds are being requested and should—

1. Begin with an Abstract; that is, a summary of the proposed project;
2. Describe the proposed project in light of each of the selection criteria in the order in which the criteria are listed in this application; and
3. Include any other pertinent information that might assist the Secretary in reviewing the application.

The Secretary strongly requests the applicant to limit the Application Narrative to no more than 20 double-spaced, typed (on one side only), although the Secretary will consider applications of greater length. The Department has found that successful applications for similar programs generally meet this page limit.

Instructions for Estimated Public Reporting Burden

Under terms of the Paperwork Reduction Act of 1980, as amended, and the regulations implementing that Act, the Department of Education invites comment on the public reporting burden in this collection of information.

Public reporting burden for this collection of information is estimated to average six hours per response, including the time for reviewing and instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, Information Management and Compliance Division, Washington, DC 20202–4651; and to the Office of Management and Budget, Paperwork Reduction Project, OMB 1810–0562, Washington, DC 20503.

(Information collection approved under OMB control number 1810–0562. Expiration date: 4/94.)

OMB Approval No. 0348-0040

ASSURANCES — NON-CONSTRUCTION PROGRAMS

Note: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply with the provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), the Copeland Act (40 U.S.C. § 276c and 18 U.S.C. §§ 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction subagreements.

Standard Form 424B (4-88)
Prescribed by OMB Circular A-102

Authorized for Local Reproduction

10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.
11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 et seq.); (f) conformity of Federal actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clear Air Act of 1955, as amended (42 U.S.C. § 7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).
12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§ 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.).
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. 2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations and policies governing this program.

VOL 58 ISS 82 AP 30 1993 UMI

CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 34 CFR Part 82, "New Restrictions on Lobbying," and 34 CFR Part 85, "Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Education determines to award the covered transaction, grant, or cooperative agreement.

1. LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 CFR Part 82, for persons entering into a grant or cooperative agreement over $100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement,

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants, contracts under grants and cooperative agreements, and subcontracts) and that all subrecipients shall certify and disclose accordingly.

2. DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS

As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 CFR Part 85, for prospective participants in primary covered transactions, as defined at 34 CFR Part 85, Sections 85.105 and 85.110 –

A. The applicant certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default; and

B. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

3. DRUG-FREE WORKPLACE (GRANTEES OTHER THAN INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 –

A. The applicant certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about–

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will–

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W. (Room 3124, GSA Regional Office Building No. 3), Washington, DC 20202-4571. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted–

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

_____

_____

_____

Check ☐ if there are workplaces on file that are not identified here.

DRUG-FREE WORKPLACE (GRANTEES WHO ARE INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 –

A. As a condition of the grant, I certify that I will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant; and

B. If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, I will report the conviction, in writing, within 10 calendar days of the conviction, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W. (Room 3124, GSA Regional Office Building No. 3), Washington, DC 20202-4571. Notice shall include the identification number(s) of each affected grant.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certifications.

VOL 58 ISS 82 AP 30 1993 UMI

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion -- Lower Tier Covered Transactions

This certification is required by the Department of Education regulations implementing Executive Order 12549, Debarment and Suspension, 34 CFR Part 85, for all lower tier transactions meeting the threshold and tier requirements stated at Section 85.110.

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion--Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification

(1) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

(2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

    (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).
11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503

IMPORTANT NOTICE TO PROSPECTIVE PARTICIPANTS IN USDE CONTRACT AND GRANT PROGRAMS

GRANTS

Applicants for grants from the U.S. Department of Education (USDE) have to compete for limited funds.

Deadlines assure all applicants that they will be treated fairly and equally, without last minute haste.

For these reasons, USDE must set strict deadlines for grant applications. Prospective applicants can avoid disappointment if they understand that -

Failure to meet a deadline will mean that an applicant will be rejected without any consideration whatever.

The rules, including the deadline, for applying for each grant are published, individually, in the Federal Register. A one-year subscription to the Register may be obtained by sending $340.00 to: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20202-9371. (Send check or money order only, no cash or stamps.)

The instructions in the Federal Register must be followed exactly. Do not accept any other advise you may receive. No USDE employee is authorized to extend any deadline published in the Register.

Questions regarding submission of applications may be addressed to:

U.S. Department of Education
Application Control Center
Washington, D.C. 20202-4725

CONTRACTS

Competitive procurement actions undertaken by the USDE are governed by the Federal Procurement Regulations and implementing ED Procurement Regulations.

Generally, prospective competitive procurement actions are synopsized in the Commerce Business Daily (CBD). Prospective offerors are therein advised of the nature of the procurement and where to apply for copies of the Request for Proposals (RFP).

Offerors are advised to be guided solely by the contents of the CBD synopsis and the instructions contained in the RFP. Questions regarding the submission of offers should be addressed to the Contracting Specialist identified on the face page of the RFP.

Offers are judged in competition with others, and failure to conform with any substantive requirements of the RFP will result in rejection of the offer without any consideration whatever.

Do not accept any advice you receive that is contrary to instructions contained in either the CBD synopsis or the RFP. No USDE employee is authorized to consider a proposal which is non-responsive to the RFP.

A subscription to the CBD is available for $208.00 per year via second class mailing or $251.00 per year via first class mailing. Information included in the Federal Acquisition Regulations is contained in Title 48, Code of Federal Regulations, Chapter 1 ($49.00). The forgoing publication may be obtained by sending your check or money order only, no cash or stamps, to:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402-9371

In an effort to be certain this important information is widely disseminated, this notice is being included in all USDE mail to the public. You may, therefore, receive more than one notice. If you do, we apologize for any annoyance it may cause you.

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Proposed rule.

SUMMARY: This proposed rule would adopt, in accordance with 5 U.S.C. 552, the Administrative Procedure Act, the following Use of Materials Bulletins (UMs): 39b-Aluminum Fenestration Products; 44d-Carpet; 59b-Wood Fenestration Products; 71a-Polystyrene Foam Insulation Board; 72a-Carpet Cushion; 82a-Sealed Insulating Glass Units; 85a Poly (vinyl chloride) (PVC) Fenestration Products; 89-Steel Insulated Door Systems; and 100-Solar Water Heating Systems. This document also references related national voluntary consensus standards.

In accordance with 24 CFR 200.935, these Use of Materials Bulletins would also provide a labeling and third party certification procedure to assure that the building products used in HUD programs meet the appropriate national voluntary consensus standards. The proposed rule would also supplement the HUD Building Product Standards and Certification Program by requiring that additional information be included on the label, tag, or mark that each manufacturer would affix to a certified product. It would also specify the frequency with which products must be tested in order to be acceptable to HUD.

DATES: Comments must be received by June 29, 1993.

ADDRESSES: Interested persons are invited to submit comments regarding this rule to the Rules Docket Clerk, Office of the General Counsel, room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410–0500. Facsimile (FAX) are not acceptable.

Communication should refer to the above docket number and title, and should identify the particular UM Bulletin to which the comment pertains. A copy of each communication submitted will be available for public inspection and copying between 7:30 a.m. and 5:30 p.m. weekdays at the above address.

FOR FURTHER INFORMATION CONTACT: Mailing address: Leslie Breden, Manufactured Housing and Construction Standards Division, Mailroom B133, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410–8000; Office location: 490 East L'Enfant Plaza, suite 3214, Washington, DC 20410; telephone, voice: (202) 755–7440; (TDD) (202) 708–4594. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: Pursuant to HUD's Building Product Standards and Certification Program, which is authorized by section 521 of the National Housing Act, 12 U.S.C. 1735e, the Department issues Use of Materials Bulletins (UMs). The Ums are issued to provide HUD standards that establish minimum acceptable qualities for certain materials and products to be used in properties subject to mortgages insured by the Department. A UM is also used as a means of promulgating a labeling and certification program, to assure that the product used meets the appropriate standard.

The Department has evaluated technical standards for Use of Materials Bulletins 39b-Aluminum Fenestration Products; 44d-Carpet; 59b-Wood Fenestration Products; 71a-Polystyrene Foam Insulation Board; 72a-Carpet Cushion; 82a-Sealed Insulating Glass Units; 85a Poly (vinyl chloride) (PVC) Fenestration Products; 89-Steel Insulated Door Systems; and 100-Solar Water Heating Systems, and plans to adopt these standards by incorporating them by reference into the UMs. The UMs adoption would also augment the labeling requirements of 24 CFR 200.935(d)(6).

The text of the UMs is not being produced in the proposed rule, because the substance is embodied in new sections of 24 CFR part 200 set forth below. However, copies of the UMs are available for public inspection during regular business hours in the Standards and Products Branch, 490 East L'Enfant Plaza, suite 3214, Washington, DC 20410, and in the Office of the Rules Docket Clerk, Office of General Counsel, room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410–0500.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(c), of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 et seq. The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the Rules Docket Clerk at the above address.

Executive Order 12291

This proposed rule does not constitute a "major rule" as that term is defined in section 1(b) of the Executive Order, on Federal Regulations issued by the President on February 17, 1981. An analysis of the proposed rule indicates that it does not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies; and (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

The Secretary in approving this proposed rule for publication, certifies in accordance with 5 U.S.C. 605(b), the Regulatory Flexibility Act, that this proposed rule would not have a significant economic impact on a substantial number of small entities. These UMs would adopt standards that are nationally recognized throughout the affected industry, and their adoption will not create a burden on manufacturers, which are currently meeting the standards.

Semiannual Agenda

This proposed rule was listed as item 1395 in the Department's Semiannual Agenda of Regulations published on November 3, 1992 (57 FR 51392, 51412) under Executive Order 12291 and the Regulatory Flexibility Act.

Family Impact

The General Counsel, as the Designated Official under Executive Order 12606, the Family, has determined that this proposed rule does not have potential significant impact on family formation, maintenance, and general well-being; therefore, it is not subject to review under this order.

Federalism

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, Federalism, has determined that the policies contained in this rule would not have federalism implications and thus, are not subject to review under the order. The standards incorporated in this proposed rule were developed in the private sector and are expected to be used generally by the

industry nationwide. This proposed rule will not interfere with or preempt State or local government functions.

List of Subjects in 24 CFR Part 200

Administrative practices and procedures, Claims, Equal employment opportunity, Fair housing, Housing standards, Incorporation by reference, Lead poisoning, Loan programs—housing and community development, Minimum property standards, Mortgage insurance, Organization and functions (Government agencies), Penalties, Reporting and recordkeeping requirements, Social security, Unemployment compensation, Wages.

Accordingly, 24 CFR part 200 would be amended to read as follows:

PART 200—INTRODUCTION

1. The authority citation for 24 CFR part 200 would continue to read as follows:

Authority: 12 U.S.C. 1701–1715z–18; 42 U.S.C. 3535(d).

2. Section 200.938 would be revised to read as follows:

§ 200.938 Supplementary specific requirements under the HUD building product standards and certification program for aluminum fenestration products.

(a) *Applicable standards.* All aluminum fenestration products shall be designed, manufactured, and tested in compliance with the following American National Standards Institute standards:

ANSI/AAMA 101–88—Specification for Aluminum Prime Windows and Sliding Patio Doors
ANSI/AAMA 1102.7–90—Specification for Aluminum Storm Doors
ANSI/AAMA 1002.10–83—Specification for Aluminum Storm Windows and Sliding Glass Doors
ANSI/AAMA 1600–90—Specification for Skylights

(b) *Labeling.* Under the procedures set forth in 24 CFR 200.935(d)(6) concerning labeling of a product, the administrator's validation mark and the manufacturer's certification of compliance with the applicable standards are required to be on the certification label issued by the Administrator to the manufacturer. Each aluminum fenestration product shall be marked as conforming to UM 39b. The label shall be located on each aluminum fenestration product so that it is available for inspection. The label shall include the manufacturer's name and plant location.

(c) *Periodic tests and quality assurance inspections.* Under the procedure set forth in 24 CFR 200.935(d)(8) concerning periodic tests and quality assurance inspections, the frequency of testing for product shall be described in the specific building product certification program. In the case of aluminum fenestration products, testing and inspection shall be conducted as follows:

(1) At least once every four years, the administrator shall visit the manufacturer's facility to select a sample, of the maximum size commercially available, for testing in a laboratory approved by the administrator.

(2) The administrator also shall review the quality assurance procedures twice a year to assure that they are being followed by the manufacturer.

3. Section 200.939 would be revised to read as follows:

§ 200.939 Supplementary specific requirements under the HUD building product standards and certification program for wood fenestration products.

(a) *Applicable standards.* All wood fenestration products shall be designed, manufactured, and tested in compliance with the following American National Standards Institute standards:

ANSI/NWWDA IS 2–87—Wood Windows
ANSI/NWWDA IS 3–88—Wood Sliding Doors

(b) *Labeling.* Under the procedures set forth in § 200.935(d)(6) concerning labeling of a product, the Administrator's validation mark and the manufacturer's certification of compliance with the applicable standards is required to be on the certification label issued by the Administrator to the manufacturer. Each wood fenestration product shall be marked as conforming to UM 59b. The label shall be located on each wood fenestration product so that it is available for inspection. The label shall include the manufacturer's name and plant location.

(c) *Periodic tests and quality assurance inspections.* Under the procedures set forth in § 200.935(d)(8) concerning periodic tests and quality assurance inspections, the frequency of testing for a product shall be described in the specific building product certification program. In case of wood fenestration products, testing and inspection shall be conducted as follows:

(1) At least once every four years, the administrator shall visit the manufacturer's facility to select a sample, of the maximum size commercially available, for testing in a laboratory approved by the administrator.

(2) The administrator also shall review the quality assurance procedures twice a year to assure that they are being followed by the manufacturer.

4. A new § 200.945 would be added to read as follows:

§ 200.945 Supplementary specific requirements under the HUD building product standards and certification program for carpet.

(a) *Applicable standards.* All carpet shall be designed, manufactured, and tested in compliance with the following standards:

(1) ASTM D418–89—Methods of Testing Woven and Tufted Pile Floor Coverings
(2) ASTM D1335–90—Test method for Tuft Bind of Pile Floor Covering
(3) ASTM D2646–89—Test Method for Testing Backing Fabrics
(4) ASTM D3936–91—Test Method for Delamination Strength of Secondary Backing of Pile Floor Coverings
(5) AATCC 24–85—Test for Resistance of Textiles to Insects
(6) AATCC 16e–90—Test for Colorfastness to Light
(7) AATCC 8–86—Test for Crocking
(8) ASTM D3676–91—Test Method for Weight per Unit Area of Woven Fabric
(9) ASTM D3574–91—Method of Testing Flexible Cellular Materials
(10) ASTM D297–90—Method for Testing Rubber Products

(b) *Labeling.* Under the procedures set forth in § 200.935(d)(6) concerning labeling of a product, the administrator's validation mark and the manufacturer's certification of compliance with UM 44d are required to be on the certification label issued by the Administrator to the manufacturer. The label shall be placed on each carpet every six feet not less than one foot from the edge.

(c) *Periodic tests and quality assurance inspection.* Under the procedure set forth in § 200.935(d)(8), testing and inspection shall be conducted as follows:

(1) Every six (6) months, three (3) samples and 1 annual field sample of carpet shall be submitted to the Administrator for testing in laboratory accredited by the National Voluntary Laboratory Accreditation Program of the U.S. Department of Commerce.

(2) The administrator also shall rview the quality assurance procedures every six months to assure that they are being followed by the manufacturer.

5. A new § 200.946 would be added, to read as follows:

VOL 58 ISS 82 AP 30 1993 UMI

§ 200.946 Building product standards and certification program for polystyrene foam insulation board.

(a) *Applicable standards.* All polystyrene foam insulation board shall be designed, manufactured, and tested in compliance with the American Society for Testing and Materials (ASTM) standard C–578–87, "Preformed Cellular Polystyrene Thermal Insulation."

(b) *Labeling.* Under the procedures set forth in § 200.935(d)(6) concerning labeling of a product, the administrator's certification of compliance with the applicable standards, and the type of board are required to be on the certification label issued by the administrator to the manufacturer.

(c) *Periodic tests and quality assurance inspection.* Under the procedure set forth in § 200.935(d)(8), testing and inspection shall be conducted as follows:

(1) At least every six months, the administrator shall visit the manufacturer's facility to select a sample of each certified polystyrene foam insulation board for testing by a laboratory approved by the administrator.

(2) The administrator also shall review the quality assurance procedures every six months to assure that they are being followed by the manufacturer.

6. A new § 200.947 would be added to read as follows:

§ 200.947 Building product standards and certification program for carpet cushion.

(a) *Applicable standards.* All carpet cushion shall be designed, manufactured, and tested in compliance with standards in UM–72a.

(b) *Labeling.* Under the procedures set forth in § 200.935(d)(6) concerning labeling of a product, the administrator's validation mark, the manufacturer's certification of compliance with the applicable standards, and the type and class all are required to be on the certification label issued by the administrator to the manufacturer.

(c) *Periodic tests and quality assurance inspection.* Under the procedure set forth in § 200.935(d)(8), testing and inspection shall be conducted as follows:

(1) At least every six months, the administrator shall visit the manufacturer's facility to select a sample of each certified carpet cushion for testing by a laboratory approved by the administrator.

(2) The administrator also shall review the quality assurance procedures every six months to assure that they are being followed by the manufacturer.

7. Section 200.940 would be revised to read as follows:

§ 200.940 Supplementary specific requirements under the HUD building product standards and certification program for sealed insulating glass units.

(a) *Applicable standards.* All sealed insulating glass units shall be designed, manufactured, and tested in compliance with the following American Society for Testing & Materials standards:

ASTM E–774–88—Specification for Sealed Insulating Glass Units

(b) *Labeling.* Under the procedures set forth in § 200.935(d)(6) concerning labeling of a product, the administrator's validation mark and the manufacturer's certification of compliance with the applicable standards, are issued by the administrator to the manufacturer. Each sealed insulating glass unit shall be marked as conforming to UM 82a. The label shall be located on each sealed insulating unit so that it is available for inspection. The label shall include the manufacturer's name and plant location.

(c) *Periodic tests and quality assurance inspections.* Under the procedures set forth in § 200.935(d)(8) concerning periodic tests and quality assurance inspections, the frequency of testing for a product shall be described in the specific building product certification program. In the case of sealed insulating glass units, testing and inspection shall be conducted as follows:

(1) At least once a year, the administrator shall visit the manufacturer's facility to select a sample, of the maximum size commercially available, for testing in a laboratory approved by the administrator.

(2) The administrator shall also review the quality assurance procedures twice a year to assure that they are being followed by the manufacturer.

8. Section 200.941 would be revised to read as follows:

§ 200.941 Supplementary specific requirements under the HUD building products standards and certification program for poly (vinyl chloride) PVC fenestration products.

(a) *Applicable standards.* All PVC plastic fenestration products shall be designed, manufactured, and tested in compliance with the following American National Standards Institute standard or American Society for Testing and Materials standard:

ANSI/AAMA 101V–90—Specifications for PVC Prime Windows & Sliding Patio Doors (white only)

or

ASTM D 4099–89—Specification for PVC Prime Windows

(b) *Labeling.* Under the procedures set forth in 24 CFR 200.935(d)(6) concerning labeling of a product, the administrator's validation mark and the manufacturer's certification of compliance with the applicable standards are required to be on the certification label issued by the administrator to the manufacturer. Each PVC fenestration product shall be marked as conforming to UM 85a. The label shall be located on each PVC fenestration product so that it is available for inspection. The label shall include the manufacturer's name and plant location.

(c) *Periodic tests and quality assurance inspections.* Under the procedures set forth in § 200.935(d)(8) concerning periodic tests and quality assurance inspections, the frequency of testing for a product shall be described in the specific building product certification program. In the case of PVC fenestration products, testing and inspection shall be conducted as follows:

(1) At least once every four years, the administrator shall visit the manufacturer's facility to select a sample, of the maximum size commercially available, for testing in a laboratory approved by the administrator.

(2) The administrator also shall review the quality assurance procedures twice a year to assure that they are being followed by the manufacturer.

9. A new § 200.948 would be added to read as follows:

§ 200.948 Building product standards and certification program for exterior insulated steel door systems.

(a) *Applicable standards.* All Exterior Insulated Steel Door Systems shall be designed; manufactured, and tested in compliance with the following standards:

(1) ASTM A591–89—"Specification for Steel Sheet, Cold-Rolled Electrolytic Zinc Coated" Class B (minimum thickness, 0.022")

(2) ISDSI–100–90—"Dimensional Standard for Insulated Steel Door Systems"

(3) ISDSI–101–90—"Air Infiltration Performance Standard for Insulated Steel Door Systems"

(4) ISDSI–102–90—"Installation Standard for Insulated Steel Door Systems"

(5) ISDSI–104–90— "Water Penetration Performance Standard for Insulated Steel Door Systems"

(6) ISDSI–105–90—"Mechanical Performance Standard for Insulated Steel Door Systems"

(7) ISDSI–106–90—"Test Procedure and Acceptance Criteria for Prime Painted Steel Surfaces for Steel Doors and Frames"

(8) ISDSI–107–90—"Thermal Performance Standard for Insulated Steel Systems and Weatherstrip Frame Assemblies"

(9) ASTM F476–91—"Standard Test Method for Security of Swinging Door Assemblies" (Section 18 Door Impact Test)

Labeling. Under the procedures set forth in § 200.935(d)(6) concerning labeling of a product, the administrator's certification of compliance with the applicable standards is required to be on the certification label issued by the administrator to the manufacturer.

(c) *Periodic tests and quality assurance inspection.* Under the procedure set forth in § 200.935(d)(8), testing and inspection shall be conducted as follows:

(1) At least every four years, the administrator shall visit the manufacturer's facility to select a sample of each certified exterior insulated steel door system for testing by an approved laboratory in accordance with the applicable standard.

(2) The administrator also shall review the quality assurance procedures every year to assure that they are being followed by the manufacturer.

10. A new § 200.949 would be added to read as follows:

§ 200.949 Building product standards and certification program for solar water heating system.

(a) *Applicable standards.* All solar water heating systems shall be designed, manufactured, and tested in compliance with Solar Rating and Certification Corporation (SRCC) Standards OG–300–89, "Operating Guidelines and Minimum Standards for Certifying Solar Water Heating System" (except for the program administration section).

(b) *Labeling.* Under the procedures set forth in § 200.935(d)(6) concerning labeling of a product, the administrator's validation mark and the manufacturer's certification of compliance with the applicable standards are required to be on the certification label issued by the administrator to the manufacturer. Each solar water heating system shall be marked as conforming to UM 100. The label shall include the manufacturer's name and plant location.

(c) *Periodic tests and quality assurance inspection.* Under the procedure set forth in § 200.935(d)(8) of testing and inspection shall be conducted as follows:

(1) The Administrator shall visit the manufacturer's factory every two years to assume that the initially accepted quality assurance procedures are being followed at least every four years, the administrator shall test the collector in a laboratory approved by the Administrator.

(i) At least every four years, the administrator shall visit the manufacturer's facility to select a sample of each certified solar water heating system for testing by a laboratory approved by the administrator.

(ii) The administrator shall also review the quality assurance procedures every two years to assure that they are being followed by the manufacturer.

(d) *Warranty.* The manufacturer shall provide, at no cost, a full five-year warranty against defects in material or workmanship, on the absorber plate, cooling passages, and the collector (excluding any glass), running from the date of installation of the solar water heating system. The warranty also shall include the full costs of field inspection, parts, and labor required to remedy the defects, and will include the cost of replacement at the site if required. This warranty is not required to cover defects resulting from exposure to harmful materials, fire, flood, lightning, hurricane, tornado, hailstorms, earthquakes, or other acts of God, vandalism, explosions, harmful chemicals or other fluids, fumes or vapors. This exclusion will apply to the operation of the collector under excessive pressures or excessive flow rates, misuse, abuse, negligence, accidents, alterations, falling objects or other causes beyond the control of the manufacturer. Following the initial five years, the manufacturer shall provide a limited no-cost five-year warranty for collector parts on a prorata allowance basis.

Dated: April 19, 1993.

James E. Schoenberger,

Associate General Deputy Assistant Secretary for Housing.

Title 3—

The President

Proclamation 6550 of April 28, 1993

Jewish Heritage Week, 1993

By the President of the United States

A Proclamation

The essence of America's greatness has always been the diversity of its people. From the times of native settlement through the immigration of people from hundreds of other countries, the United States has gained immeasurably from the strengths of the peoples who have come to our shores. The Jewish community is an important part of this legacy.

Jewish citizens have contributed their knowledge and skills to every field of endeavor, including education, business, industry, science, and the arts. Their names are permanently etched in America's history books, and the Jewish community's rich heritage and culture pervade all aspects of American society.

Throughout the years, immigrating to America meant educational and economic opportunity, as well as freedom from oppression, for the Jewish people. For people who suffered under the yoke of dictators and ethnic hatred, America's democracy offered a chance for political involvement and religious liberty.

By wagon and train, by horseback and all other means of conveyance, the Jewish people have traveled across the vast expanse of America to create prosperous and rewarding lives for themselves. In the process, they have improved the social, political, and economic fabric of our Nation. To celebrate these contributions and recognize the people, traditions, and culture of the Jewish faith, the Congress, by Senate Joint Resolution 30, has designated the week of April 25, 1993, through May 2, 1993, as "Jewish Heritage Week" and has authorized and requested the President to issue a proclamation in observance of this week.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, do hereby proclaim the week of April 25, 1993, through May 2, 1993, as Jewish Heritage Week. I call upon the people of the United States to observe the week with appropriate programs, ceremonies, and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of April, in the year of our Lord nineteen hundred and ninety-three, and of the Independence of the United States of America the two hundred and seventeenth.

William J. Clinton

Presidential Documents

Proclamation 6551 of April 28, 1993

National Crime Victims' Rights Week, 1993

By the President of the United States of America

A Proclamation

Every day, thousands of men, women, and children are murdered, raped, robbed, beaten, or abused. They are the innocent victims of crime in the streets, towns, and homes of America.

Fortunately, crime victims in this country are not left alone to try to recover from the physical, emotional, and financial distress of victimization. Thousands of dedicated Americans are working tirelessly at the Federal, State, and local levels to provide comfort and financial assistance and to advocate for fair treatment. These advocates help the innocent victims of crime to recover from the trauma of victimization and to navigate the often emotionally difficult criminal justice process. "National Crime Victims' Rights Week" provides a special opportunity for us to demonstrate our appreciation to these selfless advocates and to renew our commitment to the needs and rights of crime victims.

Much has been accomplished during the past two decades to institutionalize victims' rights in this country. Bills of rights have been enacted at the Federal level and by 49 State governments to codify certain essential protections for victims. All 50 States now have crime victim compensation programs. Federal assistance under the Victims of Crime Act continues to supplement State crime victim compensation programs, support programs that provide direct assistance to crime victims, establish assistance for Native Americans who have been victimized, and provide training to increase the sensitivity of criminal justice practitioners to the special needs of crime victims.

While these gains are significant, there is still much that must be done to combat the crime trends that further threaten our communities. We must continue to work together to prevent crime and to protect ourselves, our families, and our fellow Americans from violence. We must work to provide opportunity where despair reigns. We must work together to ensure that hardened criminals who prey upon the innocent receive punishment commensurate with the harm—physical, emotional, and financial—that they have inflicted. And we must continue to work together to ensure that the innocent victims of crime receive the services they need and fair treatment by our Nation's criminal justice system.

The Congress, by Senate Joint Resolution 62, has designated the week of April 25 through May 1, 1993, as National Crime Victims' Rights Week and has authorized and requested the President to issue a proclamation in observance of this week.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, do hereby proclaim the week of April 25 through May 1, 1993, as National Crime Victims' Rights Week. I urge all Americans to join in honoring those who work in behalf of crime victims and their families and to commit themselves to working together with their neighbors for safer streets, safer schools, and brighter tomorrows for all our citizens.

Proclamation 6552 of April 28, 1993

Death of Cesar Chavez

By the President of the United States of America

A Proclamation

Cesar Chavez came from the humble yet proud beginnings of a migrant worker to lead those same workers in a movement that irreversibly shaped our Nation and brought justice and dignity to thousands. After the Depression forced young Cesar and his family from their ranch, he began working in the fields at an early age. His family traveled throughout California following the seasonal work, and he attended nearly 70 schools before dropping out to help support his family. Although his formal education ended after the seventh grade, Cesar learned much from the courageous example of his parents. Often among the first to resist exploitation and to stand up to injustice, they instilled in Cesar a profound respect for the intrinsic value of each human person, and a fervent desire to protect that value. Inspired by the teachings of a Catholic priest and by the writings of Ghandi and other great civil leaders, Cesar rose to become one of the great labor leaders of our time.

The United Farm Workers, the union he founded and led for almost three decades, became a symbol of empowerment and pride for many workers. Cesar's innate understanding of the problems facing migrant workers allowed him to organize thousands of farm workers across the Nation. With natural leadership and unflagging determination, he achieved real progress where others had failed.

His insistence on nonviolent tactics stood in stark contrast to the bitterness and brutality that were used in resistance. The strength of his vision and the power of his leadership enabled him to take his struggle directly to the American people. He focused our Nation's attention on the economic and social plight of migrant farm workers and, in the process, taught us how injustice anywhere affects us everywhere.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, by the authority vested in me by the Constitution and laws of the United States, in tribute to the memory of Cesar Chavez, do hereby call upon the citizens of this great Nation to reflect on and honor the life of this distinguished leader, veteran, and American.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of April, in the year of our Lord nineteen hundred and ninety-three, and of the Independence of the United States of America the two hundred and seventeenth.

William J. Clinton

Public Laws

103d Congress, 1st Session, 1993

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 103d Congress, 1st Session, 1993.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche format and magnetic tape. The annual subscription price for the **Federal Register** paper edition is $375, or $415 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $353; and magnetic tape is $37,500. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $4.50 for each issue, or $4.50 for each group of pages as actually bound; or $1.50 for each issue in microfiche form; or $175.00 per magnetic tape. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 58 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: May 12 and June 15 at 9:00 am
WHERE: Office of the Federal Register, 7th Floor Conference Room, 800 North Capitol Street NW, Washington, DC (3 blocks north of Union Station Metro)
RESERVATIONS: 202–523–4538

PHILADELPHIA, PA

WHEN: May 25, at 1:00 pm
WHERE: William J. Green, Jr. Federal Building, Conference Room 6306–10, 600 Arch St. Philadelphia, PA
RESERVATIONS: Federal Information Center 1–800–347–1997

Printed on recycled paper containing 100% post consumer waste

Rules and Regulations

Federal Register
Vol. 58, No. 83
Monday, May 3, 1993

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 73

[Airspace Docket No. 92-AWP-17]

Amendment of Time of Designation for Restricted Area R-3101; HI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action reduces the time of designation for R-3101 PMRFAC FOUR, HI, from 0600-1800 local time daily; other times by NOTAM, to 0600-1800 local time, Monday-Friday; other times by NOTAM. This action releases the restricted area for public use on weekends.

EFFECTIVE DATE: 0901 UTC, July 22, 1993.

FOR FURTHER INFORMATION CONTACT: Diane Bodenhamer, Military Operations Program Office (ATM-420), Office of Air Traffic System Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-3178.

SUPPLEMENTARY INFORMATION:

The Rule

This amendment to part 73 of the Federal Aviation Regulations reduces the time of designation for R-3101 PMRFAC FOUR, HI, from 0600-1800 local time daily; other times by NOTAM, to 0600-1800 local time, Monday-Friday; other times by NOTAM. This action releases the restricted area for public use on weekends. I find that notice and public procedure under 5 U.S.C. 553(b) are unnecessary because this action is a minor technical amendment in which the public is not particularly interested. Section 73.31 of part 73 of the Federal Aviation Regulations was republished in FAA Order 7400.8A dated March 3, 1993.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This action does not alter the dimensions of restricted airspace, nor is the mission conducted within the airspace changed. It enhances the efficient management of airspace by increasing public availability. Accordingly, this action will have no effect on current air traffic procedures or on routing or altitude of civil aircraft operations in the area. The FAA, therefore, finds that there will be no significant impact on the environment as a result of this action.

List of Subjects in 14 CFR Part 73

Aviation safety, Restricted areas.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 73 as follows:

PART 73—[AMENDED]

1. The authority citation for part 73 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510, 1522; E.O. 10854; 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 73.31 [Amended]

2. § 73.31 is amended as follows:

R-3101 PMRFAC FOUR, HI [Amended]

By removing "Time of designation. 0600 to 1800 local time daily; other times by NOTAM." and substituting the following:

"Time of designation. 0600-1800 local time, Monday-Friday; other time by NOTAM."

Issued in Washington, DC, on April 15, 1993.

Harold W. Becker,

Manager, Airspace Rules and Aeronautical Information Division.

[FR Doc. 93-10378 Filed 4-30-93; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 97

[Docket No. 27248; Amdt. No. 1541]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Exominotion

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;
2. The FAA Regional Office of the region in which the affected airport is located; or
3. The flight Inspection Field Office which originated the SIAP.

VOL 58 ISS 83 MY 3 1993 UMI

For Purchase

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA–200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS–420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267–8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260–3, 8260–4, and 9260–5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective upon publication of each separate SIAP as contained in the transmittal. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPS criteria were applies to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Incorporation by reference, Navigation (air), Standard instrument approaches, Weather.

Issued in Washington, DC, on April 9, 1993.

Thomas C. Accardi,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. App. 1348, 1354(a), 1421 and 1510; 49 U.S.C. 106(g) (revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identified as follows:

BILLING CODE 4910–13–M

14 CFR Part 97

[Docket No. 27249; Amdt. No. 1542]

Standard Instrument Approach Procedures: Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference-approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matter incorporated by reference in the amendment is as follows:

For Examination

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA–200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscriptions

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, US Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS–420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267–8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description on each SIAP is contained in the appropriate FAA Form 8260 and the National Flight Data Center (FDC)/Permanent (P) Notices to Airmen (NOTAM) which are incorporated by reference in the amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviations Regulations (FAR). Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction of charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The Provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes SIAPs. For safety and timeliness of change considerations, this amendment incorporates only specific changes contained in the content of the following FDC/P NOTAM for each SIAP. The SIAP information in some previously designated FDC/Temporary (FDC/T) NOTAMs is of such duration as to be permanent. With conversion to FDC/P NOTAMs, the respective FDC/T NOTAMs have been cancelled. The FDC/P NOTAMs for the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these chart changes to SIAPs by FDC/P NOTAMs, the TERPs criteria were applied to only these specific conditions existing at the affected airports.

This amendment to part 97 contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. All SIAP amendments in this rule have been previously issued by the FAA in a National Flight Data Center (FDC) Notice Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for all these SIAP amendments requires making them effective in less than 30 days.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs

VOL 58 ISS 83 MY 3 1993 UMI

are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making these SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 1

Contract Market Emergency Actions

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rule.

SUMMARY: The Commodity Futures Trading Commission ("Commission") has implemented the statutory directive set forth in section 213 of the Futures Trading Practices Act of 1992 ("Futures Trading Act") by amending regulation 1.41 to establish new procedures for a contract market emergency action. Under the amendments, a contract market must make every effort practicable to notify the Commission of its intention to implement, modify, or terminate an emergency rule. The contract market also must supplement its notice with information on the emergency action and conditions. Within ten days of receipt from a contract market of all of the required information, the Commission will permit the rule to remain in effect, unless it finds that the contract market's emergency action is arbitrary, capricious, or an abuse of discretion; lacking a reasonable basis in fact; or taken in bad faith. If the Commission determines that the contract market's emergency action does not meet this standard and finds that suspension of the rule is not contrary to the public interest and the purposes of section 5a(a)(12) of the Commodity Exchange Act, then the Commission will, in its discretion and upon such terms and conditions as it deems appropriate, suspend the effect of the rule pending review under 5a(a)(12)(A) or otherwise.

EFFECTIVE DATE: July 2, 1993.

FOR FURTHER INFORMATION CONTACT: Shauna L. Turnbull, Special Counsel, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581. Telephone: (202) 254–8955.

SUPPLEMENTARY INFORMATION:

I. Introduction

On February 4, 1993, the Commission published for public comment in the **Federal Register** proposed amendments to Regulation 1.41.[1] In accordance with the requirements imposed by section 213 of the Futures Trading Act, the proposed regulation established new temporary emergency rule procedures.

II. Comments Received

The Commission received letters from five commenters, all of which were futures exchanges. Although the commenters recognized the importance of regulating emergency actions, they requested clarification, deletion, and alteration of aspects of the proposed amendments.

The Commission has carefully reviewed the comments received and, as a result, has issued final amendments that modify and clarify the proposed amendments to Regulation 1.41. Comments addressing specific provisions of the regulation and explanations of the Commission's revisions are discussed below.

III. Amendments to Regulation 1.41

The final amendments implement the statutory directive by providing additional guidance on the definition of the term "emergency;" defining the term "affiliated firm;" requiring, to the extent practicable, prior notice of an emergency action and a complete explanation of the emergency; requiring the submission of additional information on an emergency to the Commission; establishing a standard of review and procedures for a Commission determination on an emergency action; specifying new types of permissible emergency actions; and modifying procedures for taking a physical emergency action.

A. Definition of "Emergency"

1. The Proposed Rule

Proposed amendments to Regulation 1.41(a) included modifications to the definition of the term "emergency." Under existing regulations 1.41(a)(4) (i) and (ii), the term "emergency" is defined as "[a]ny occurrence or circumstance specifically defined as an 'emergency' by the rules of a contract market which have been submitted to the Commission" and "[a]ny other occurrence or circumstance which, in the opinion of the governing board of the contract market, requires immediate action and threatens or may threaten" the market. The current regulation also includes a nonexclusive list of possible occurrences and circumstances which may be deemed emergencies.

Under the proposed amendments, the Commission deleted the provision which permits a contract market to define the term "emergency" as any occurrence or circumstance noted in rules of the contract market. Instead, a contract market had to ensure that its rules were consistent with a modified version of the definition of "emergency." Under this modified provision, a contract market governing board could determine that an emergency existed when, in its opinion, occurrences or circumstances listed in the regulation required immediate action and threatened or could threaten the markets.

The listed occurrences or circumstances included a general provision designed to address "[a]ny other unusual, unforeseeable and adverse circumstance with respect to which it is not practicable for the contract market to submit, in a timely fashion, a rule to the Commission for prior review." In the proposed definition, the term "not practicable" was substituted for the term "impracticable" because courts have interpreted the word "impracticable" as meaning "inconvenient."[2]

2. Comments Received

In light of the recent bombing of the World Trade Center, the Coffee, Sugar & Cocoa Exchange, Inc. ("CSCE") commented that the list of specific occurrences and circumstances that may be considered emergencies should be expanded to add "malfunctions of plumbing, heating, ventilation and/or air conditioning systems, and other circumstances rendering trading

VOL 58 ISS 83 MY 3 1993 UMI

facilities not reasonably capable of being occupied."

In addition, the CSCE and New York Mercantile Exchange ("Nymex") stated that the modified definition of "emergency" might not cover all emergencies that arose in the future. The New York Mercantile Exchange ("Nymex") expressed concern that the proposed definition would not address such emergencies as loss of the external quotation system, failure of a significant number of computerized trading terminals, and widespread failure of a computer network. One futures exchange, the Chicago Mercantile Exchange ("CME"), wrote in support of the proposed definition. The CME believed that the Commission's proposed definition of "emergency" addressed the Commission's goal of requiring greater consistency among contract markets in a reasonable manner.

The Chicago Board of Trade ("CBT") and MidAmerica Exchange ("MidAm")[3] also stated that substitution of the phrase "not practicable" for the word "impracticable" could alter the standard imposed on exchanges for providing prior notice to the Commission of an emergency action. In contrast, the CME commented that it had no objection to this proposed change.

3. Regulation 1.41(a)(4)

Based on review of these comments, the Commission has added an explicit reference to malfunctions of trading facilities to the list of circumstances that qualify as an emergency. The Commission notes that existing Regulation 1.41(a)(v) was broad enough to have permitted emergency action relating to the World Trade Center bombing. Under that provision, a contract market may deem to be an emergency "[a]ny circumstances which may have a severe, adverse affect upon the physical functions of a contract market including, for example, fire or other casualty, bomb threats, substantial inclement weather, power failures, communication breakdowns, and transportation breakdowns." The proposed amendments added to this provision "computer system breakdowns" and "screen-based trading system breakdowns."

For purposes of clarifying the provision, however, the Commission will add the clause "malfunctions of plumbing, heating, ventilation and air conditioning systems" to the examples of possible circumstances which may have a "severe, adverse effect upon the physical functions of a contract market." The Commission has determined not to add the reference to "other circumstances rendering trading facilities not reasonably capable of being occupied" because the existing provision is broad enough to address these circumstances and is not limited by a reasonableness standard.

The Commission also believes that the proposed definition in Regulation 1.41(a)(4) would provide sufficient flexibility to address future emergencies and, therefore, is making this definition final. Although the Commission recognizes that it is changing a nonexclusive list of emergencies to an exclusive list and deleting the provision that permits a contract market to develop its own definition of "emergency," the regulation also includes a general clause that encompasses all "unusual, unforeseeable and adverse circumstances." The Commission believes that this clause, together with the more specific clauses, are broad enough to address the circumstances noted by Nymex, as well as any other emergency circumstances. By reducing the complete discretion available to a contract market under existing provisions, the Commission intends only to prevent the submission of emergency actions that more properly should be submitted under non-emergency rule provisions.

The Commission also has made final the proposed substitution of the term "not practicable" for "impracticable." Thus, the Commission intends to clarify that a contract market must not declare an emergency merely because it is inconvenient to submit a rule for prior review. By substituting these terms, the Commission has not altered the standard governing prior notice of an emergency action by a contract market. The prior notice standard, which is contained in Regulation 1.41(f)(2)(i), does not contain the word "impracticable."

B. Definition of "Affiliated Firm"

1. The Proposed Rule

As part of the proposed regulation, the Commission requested documentation no later than five days after notice of an emergency action of customer and proprietary market positions held by a governing board member's affiliated firm. The term "affiliated firm" was defined as "any firm in which the person is a general partner, officer, director, employee, or owner of more than ten percent of the equity interest." Existing emergency regulations do not include a comparable term and definition.

2. Comments Received

The CME and Nymex stated that the proposed definition of "affiliated firm" was overly broad. Specifically, the CME objected to an employee floor broker having the same disclosure requirements as a sole owner of a firm. Nymex stated that inclusion of international offices in the definition of "affiliated firm" would make it burdensome to comply with the five-day submission requirement. International offices have differences in office hours as a result of time zones, presenting difficulties in communication and collection of information. Nymex suggested that the term "affiliated firm" should be limited to domestic offices.

3. Regulation 1.41(a)(8)

The Commission has considered these comments and has determined to modify related provisions of the proposed regulation but also to make the proposed definition of "affiliated firm" final with one change. The term "principal" has been added to the definition to clarify the scope of the regulation.

One purpose of obtaining position information from governing board members is to provide a basis for the Commission's determination on whether a governing board member acted in bad faith or was subject to a conflict of interest. Since it is possible for an employee to be influenced in his voting by his employer's market positions and for a governing board member to be influenced by market positions held at an international office, the Commission is unable to make its determination without this information.

Information about a governing board member's position may be readily available to the contract market through contact with clearing firms. The Commission understands, however, that the contract markets will need to obtain account numbers from its governing board members to conduct a review or permit review of governing board members' positions. If a contract market chooses not to obtain account numbers from its governing board members, then it must develop other methods for obtaining this information. As discussed more fully below, an authorized member or contract market official will have to review governing board members' position information, in any event, under section 217 of the Futures Trading Act on conflicts of interest.

Because it may be difficult for a contract market to collect the required position information, however, the

[3] The CBT and MidAm are affiliated futures exchanges, and they submitted identical comment letters under different signatures.

Commission may permit a limited extension of time in certain cases, beyond the five days, for providing the Commission with documentation of the position information, where there is significant need for an extension. In addition, the Commission will require information only on net positions in certain contract months of governing board members who attended an emergency action meeting. These provisions will be discussed below.

C. Notice

1. The Proposed Rule

Under current regulation 1.41(f)(2) a contract market must notify the Commission of the adoption, modification and termination of a temporary emergency rule by the fastest available means of communication. A written copy of an emergency rule and a complete explanation of the emergency and action taken to address the emergency also must be submitted to the Commission.

Section 213 of the Futures Trading Act provides that the Commission must issue regulations to specify that a contract market may make an emergency rule effective without prior Commission approval "if the contract market makes every effort practicable to notify the Commission of such emergency rule, along with a complete explanation of the emergency involved, prior to making the emergency rule effective. If the contract market does not provide the Commission with such notification and explanation before making the emergency rule effective, the contract market shall provide the Commission with such notification and explanation at the earliest possible date."

In accordance with this statutory provision, the proposed regulation amended regulation 1.41(f)(2) to provide that "[a] contract market must make every effort practicable to provide notice to the Commission that it intends to implement, modify or terminate a temporary emergency rule prior to implementing, modifying or terminating the rule. If it is not practicable for the contract market to notify the Commission prior to taking the emergency action, the contract market shall provide the Commission with notice of the implementation, modification, or termination of any emergency rule at the earliest possible time." In addition, under the proposed regulation, notice had to include:

(1) "[T]o the extent practicable, a complete explanation of the contract market action intended or taken to meet the emergency and a description of the nature of the emergency;"

(2) "[I]n any instance where a contract market does not provide prior notice of an emergency action, an explanation of why it was not practicable for a contract market to provide such notice; and"

(3) "[A]n explanation of why it was not practicable for the contract market to submit the temporary emergency rule to the Commission for prior review." The Commission also proposed, under regulation 1.41(f)(2)(ii), that a contract market should submit at the time of notification "[a]ny available written documentation of the nature of the emergency conditions and the intended or actual emergency action."

2. Comments Received

Two contract markets, the CME and Nymex, commented that prior notification of a temporary emergency rule would be difficult to provide to the Commission. The CME stated that it was concerned about the requirement that a contract market must attempt to notify the Commission and provide a copy of an emergency rule prior to implementation of that rule. It commented that such prior notification would not be possible since CME staff could not predict the action of the governing board members prior to the emergency rule meeting. Nymex noted that prior notice of an emergency often is not possible due to the inherent nature of the emergency, and such notice could jeopardize the stability of the market, given the sensitivity of the information relating to an emergency.
